I. WIOA STATE PLAN TYPE AND EXECUTIVE SUMMARY

A. WIOA STATE PLAN TYPE

This is a combined plan

COMBINED PLAN PARTNER PROGRAM(S)

Temporary Assistance for Needy Families program (42 U.S.C. 601 et seq.)

Jobs for Veterans State Grants Program (programs authorized under 38, U.S.C. 4100 et. seq.)

Unemployment Insurance programs (programs authorized under State unemployment compensation laws in accordance with applicable Federal law)

Senior Community Service Employment program (programs authorized under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 et seq.))

B. PLAN INTRODUCTION OR EXECUTIVE SUMMARY

The state of Mississippi has opted to submit a Combined Plan to meet the requirements of the Workforce Innovation and Opportunity Act. This Combined Plan revision is built around the commitment made by Governor Tate Reeves to make Mississippi the best state in the nation in which to live, work, and raise a family. To accomplish this goal, Governor Reeves set in motion a series of strategies to attract new businesses, grow the Mississippi economy, and create a robust workforce development strategy that ensures that every Mississippi worker, from every walk of life, is able to compete for the high-paying, in-demand jobs of the future. In 2020, to spearhead these initiatives, Governor Reeves and the Mississippi Legislature established the new Office of Workforce Development (AccelerateMS). The charter legislation charged AccelerateMS with a mission to review existing programs; provide information, guidance, and significant influence on how funding sources should be utilized for the purposes of workforce development; and serve as the coordinating entity for all workforce development stakeholder agencies in Mississippi. This combined plan represents the efforts of AccelerateMS to convene all state workforce and WIOA stakeholders around a unified vision that addresses the challenges workers face to gain credentials and skills to meet industry needs. In addition, the plan addresses the state's strategy to ensure an inclusive vision that ensures opportunity for all Mississippians and addresses the implications of the COVID-19 pandemic on Mississippi workers.

Mississippi's Combined Plan includes the six required state programs: the Adult Program, the Dislocated Worker Program, the Youth Program, the Adult Education and Family Literacy Act Program, the Wagner-Peyser Act Program, and the Vocational Rehabilitation Program—along with Temporary Assistance for Needy Families (TANF), Unemployment Insurance (UI), Trade Adjustment Assistance (TAA), Jobs for Veterans State Grants Program (JVSG), and Senior Community Service Employment Program (SCSEP).

Mississippi's implementation of WIOA has been transformative for the state. Mississippi's original 2015 WIOA plan articulated a vision of cooperation between workforce stakeholders to ensure that all state resources would be marshalled to improve workforce participation in the state, meet the recruitment needs of current and prospective businesses, and connect job seekers in real time with resources necessary for success. A key concern of the original plan was closing the gap between the demand and supply of workers with specialized skills beyond high school.

In the eight years since the original plan's approval, Mississippi's WIOA partners have succeeded in transforming the state's entire workforce delivery system around a focus on improving the skills of workers to connect them with high-demand jobs. Mississippi's adult education providers have embraced the Smart Start Career Pathway model in all education and

training activities by integrating a focus on necessary skills and industry recognized credentials into high school equivalency, literacy, and other programs. Adults, including senior citizens, youth, SNAP and TANF recipients, workers with disabilities, and those from other vulnerable populations are being connected with training and workforce services at the local level by Local Workforce Development Areas (LWDAs) and vocational rehabilitation partners that have aligned their training around high-demand industry sectors. The four agency partners responsible for WIOA Training programs, workforce services, supportive services like TANF and SNAP, adult education, and vocational rehabilitation are now connected electronically. A first-in-the-nation case management referral hub allows staff from any WIOA partner agency to refer participants electronically to ensure they are connected with the mix of services required to pursue a high-quality career pathway. In addition to advances in how partners connect with one another to provide the services their clients need, the state's physical infrastructure for workforce delivery has been transformed through the addition of comprehensive One-Stop centers in which staff members representing each WIOA partner are collocated in a single center.

The effects of Mississippi's WIOA transformation have become evident as Mississippi's workforce continues to succeed even in the midst of COVID-19. As in many states, pandemic-related shutdowns introduced a glut of initial claims for unemployment insurance benefits. Prior to the pandemic, Mississippi averaged 1,006 claims per week.[1] At the height of pandemic unemployment, there were an average of 8,646 claims per week and a total of 74,276 claims.[2] Mississippi businesses returned to work with COVID safety protocols in place as early as June of 2020 and Mississippi has now returned nearly to pre-pandemic levels of unemployment, to 1,252 average claims per week.[3] In June of 2021, based on a metric including consumer confidence, job market strength and COVID-19 safety, Mississippi ranked second in the nation for pandemic economic recovery.[4] That month, Mississippi was able to end its participation in pandemic-related federal unemployment benefit programs. In December of 2021, Mississippi was ranked in the top ten states in the "Back-to-Normal" index created by CNN and Moody's.[5]

The foundation for Mississippi's Combined Plan was rooted in the economic and workforce analysis prescribed by WIOA. Mississippi continues to have a positive economic outlook. Data from the Bureau of Labor Statistics (BLS, 2021) reveal several encouraging facts. The unemployment rate has declined from 10.4 percent in 2010 to an average of 6.0 percent in 2021, although there was a spike of 8.1 percent in 2020 during COVID-19. Similarly, underemployment has decreased from a peak of 17.6 percent in 2011 to 10.2 percent in 2021. Mississippi has experienced rapid growth in its number of new businesses, adding approximately 4,000 new establishments in each of the last three years. The current economic environment is creating opportunities for the establishment of new and better jobs. Data from the Mississippi Works Labor Exchange show that manufacturing was the biggest job creator in the state, with more than 41,000 job openings in 2021. Demand is also strong for occupations in the Healthcare Support industry.

Economic and workforce analysis clearly shows that the state is in an excellent position to improve its total workforce participation rate by increasing worker skills that are in demand by employers. Mississippi's workforce participation rate is 56.2 percent. Analysis reveals that the state's largest skill gap is in opportunity occupations—those requiring more than a high school diploma but less than a four-year college degree, often in combination with some level of technical proficiency, and that pay at least \$18 per hour within five years of the completion of training. This combination of formal training and industry credentials, coupled with practical experience and necessary (soft) skills, is the new workforce currency that will ensure success for Mississippians seeking to fill the tens of thousands of openings available. Providing Mississippians with training and education opportunities aimed at closing the skill gap will improve their ability to pursue jobs that better match their credentials and full-time employment aspirations. This approach will also provide employers with a workforce that

possesses the skills and core competencies required for businesses to remain competitive in a global economy.

The state's strategic vision, led by AccelerateMS, is to continue to nurture a workforce system that acts and functions as an ecosystem where all parts are connected and line up to achieve common goals so that every Mississippian has an opportunity to become career-ready and secure a good job right here at home. Mississippi's Combined Plan addresses the complexity of Mississippi's workforce system and the sheer number of education, training, and employment support service activities geared to address barriers to employment. Under this plan, from the moment participants enter the education and workforce system they will be presented with the necessary tools to choose and pursue a career pathway that is relevant to current and future labor markets. Similarly, from the moment current and prospective businesses enter into a partnership with Mississippi's education and workforce system, resources will be immediately aligned to cultivate the sustainable, high-performance workforce critical for maintaining and expanding businesses' long-term economic viability, in turn creating better and more sustainable employment opportunities for Mississippians.

The state's primary strategy is a career pathway model that facilitates the integration of programs and improvement of efficiency in service delivery across partners. This model is known as the *Mississippi Works Smart Start Career Pathway Model*. The state has reimaged its One-Stop workforce delivery system to create 1) Comprehensive One-Stop Centers, 2) Affiliate One-Stop Centers, 3) Virtual Access One-Stop Centers, and 4) Call Center Support. A fifth One-Stop type, *Sector Training Plus Comprehensive*, is currently in the planning stages. Policies and regulations have been established for the new WIOA Combined Plan Partners' workforce ecosystem along with improved technology integration that leverages the state's nation-leading longitudinal data system.

Operationally, the state will continue to undertake the following activities to implement its Mississippi Works Smart Start Career Pathway Model:

1. Align WIOA Combined Plan Partners in state education, training, and workforce around the Mississippi Works Smart Start Career Pathway Model, a data-driven roadmap designed to guide Mississippians from any state of work-readiness into gainful employment.
2. Build on the state's current information technology infrastructure to coordinate and align the case management activities of all WIOA Combined Plan Partners in education, training, workforce, and supportive services to realize greater efficiency in service delivery, reduce duplication of effort, and ensure that every Mississippian receives the highest level of coordinated assistance in connecting to the labor market.
3. Build on the state's current physical network of WIOA Combined Plan Partners in workforce, education, and supportive service partner offices to ensure that every Mississippian has access to staff members who understand the Mississippi Works Smart Start Career Pathway Model and take a job-focused approach to case management.
4. Develop performance measures and other measures of socioeconomic mobility that give the state workforce system the ability to assess program effectiveness and pursue a data-driven approach to strategic planning.
5. Engage in continuous research to understand the workforce needs of Mississippi's employers in the context of local and regional economic sectors, making the results of this analysis available for economic development and other strategic workforce planning purposes.
6. Provide a common vision for WIOA Combined Plan Partners for state workforce, training, education, and supportive services through coordinating entities such as the

State Workforce Investment Board and Mississippi's four local workforce development boards.

Leadership from the Office of the Governor and AccelerateMS will continue to allow the state to develop and implement the most comprehensive WIOA workforce system in the country. Mississippi's system serves people from all walks of life with any work experience and skill needs, such as individuals who seek training after being laid off for several years, those who are preparing for their first job or postsecondary education, and people who pursue training during or after work to improve their skills. The system will also continue to serve those in need of help with childcare or transportation, as well as those who need to acquire basic literacy and numeracy skills or improve their English language skills.

WIOA State Plan Type: Combined

The state of Mississippi has opted to resubmit a Combined Plan. The plan includes the six required state programs, along with Temporary Assistance for Needy Families (TANF), Unemployment Insurance (UI), Trade Adjustment Assistance (TAA), Jobs for Veterans State Grants Program (JVSG), and Senior Community Service Employment Program (SCSEP). The main focus of the plan is to improve the economic opportunities of all job seekers, especially those with low skills.

Mississippi is in an excellent position to continue implementation of a Combined Plan. Over the last two decades, the state has created a cultural and political environment that fosters cooperation and integration across education and workforce programs. In 2004, the state passed the Mississippi Comprehensive Workforce Training and Education Consolidation Act. The main goal of the act was to reduce fragmentation and duplication of services and to promote performance-based management. The state has developed and implemented one of the country's most integrated technology-based workforce systems, commonly known as Mississippi Works. The system fully integrates UI, TAA, Adults, Dislocated Workers, Youth, Veterans, and the Work Opportunity Tax Credit (WOTC). SCSEP is tracked using an external system. Mississippi Works is fully interoperable with other case management systems, such as those for Rehabilitation Services, Adult Education, and TANF. The state has also developed and implemented one of the most comprehensive and advanced integrated data systems in the country: LifeTracks. The development of this system began in 2005, and the system has been fully operational for the last seven years. In 2012, the Mississippi Legislature created the State Longitudinal Data System (SLDS) Governing Board for the management and oversight of data sharing and data use. Board members include representatives from each workforce and education sector in the state. The SLDS Governing Board has developed a clear set of rules that define the scope of LifeTracks and ensure data integrity, security, confidentiality, and privacy(see Appendix B). In 2020, to spearhead further integration of workforce development activities, the Mississippi Legislature established the new Office of Workforce Development, branded as *AccelerateMS*. The charter legislation granted AccelerateMS the mission to review existing programs; provide information, guidance, and significant influence on how funding sources should be utilized for the purposes of workforce development; and serve as the coordinating entity for all workforce development stakeholder agencies in Mississippi.

Mississippi's plan includes two major components: 1) Combined Plan programs and 2) Strategic programs that will increase the impact of the Combined Plan. As shown in Tables 1 and 2, these various programs are administered by the Mississippi Department of Employment Security (MDES), the Institutions of Higher Learning (IHL), Mississippi Community College Board (MCCB), Mississippi Department of Rehabilitation Services (MDRS), Mississippi Department of Human Services (MDHS), Mississippi Department of Education (MDE), Mississippi Development Authority (MDA), and Mississippi Department of Corrections (MDOC).

Mississippi has four designated local workforce development areas (see Figure 1) that are generally aligned with the planning and development district structure in the state in accordance with the Mississippi Comprehensive Workforce Training and Education Consolidation Act of 2004. Planning and development districts serve as the fiscal agents to manage funds and to oversee and support local workforce development boards aligned with the areas and local programs and activities as delivered by the One-Stop employment and training system.

Figure 1: Local Workforce Development Areas

In accordance with WIOA requirements (Section 106) and Mississippi's Local Workforce Development Area Designation Policy (see Appendix C), the Governor of Mississippi received and approved requests for initial and subsequent designation from the four local workforce development boards: Delta, Mississippi Partnership, Southcentral Mississippi Works, and Twin Districts. These areas met the three criteria for initial and subsequent designation: (1) they were designated as local areas for the purposes of the Workforce Investment Act of 1998 prior to the two-year period preceding the date of enactment of WIOA; (2) they have performed successfully; and (3) they have sustained fiscal integrity. Subsequent designation of local

workforce development areas and the definition of regions took place in 2018 according to Mississippi's Local Workforce Development Area Designation Policy in compliance with all relevant sections of WIOA.

The State Workforce Investment Board invested in the development and implementation of regional sector strategy plans. Local Workforce Development Boards were awarded funds to form a public/private partnership and develop a plan that addresses the workforce needs in their respective regional economies. A skilled and educated workforce was the prevailing need identified in the planning process. Each LWDA selected target sectors and developed goals and activities to implement the plans. Plans are updated and reviewed annually.

Mississippi's Economic and Demographic Regions

Local Workforce Development Areas as Regions

The four local workforce development areas (LWDAs) in Mississippi were originally defined by the State Workforce Investment Board (SWIB) by direction of the Governor following the guidelines set forth in the Workforce Investment Act of 1998, Section 116. These boundaries, however, are not simply jurisdictional; they follow significant demographic and economic boundaries. Each LWDA contributes to Mississippi's economic sector goals, identified by the Mississippi Development Authority's (MDA) core and aspirational industry targets. While local areas assist MDA in pursuing economic development activities in all of its target sectors, Table 3 shows the relationship between MDA's core sector targets and the particular sector targets articulated by Mississippi's LWDAs through their local planning.

Table 3: Mississippi LWDA Overlap with MDA Core Industries

Industries	MDA	Delta	MS Partnership	Southcentral MS Works	Twin Districts
Advanced Manufacturing	Core	Target	Target	Target	Target
Aerospace and Defense	Core		Target		Target
Agribusiness, Food, and Beverage	Core	Target		Target	
Automotive	Core		Target	Target	
Distribution and Logistics	Core		Target	Target	
Forestry, Energy, and Chemical	Core		Target		Target
Health Care		Target	Target	Target	Target
Data Centers, Information Technology and Knowledge-Based Industries	Emerging	Target	Target	Target	Target
Shipbuilding					Target

In addition to core sectors, MDA has articulated additional categories that identify sectors or clusters of sectors that are emerging or aspirational within its vision of Mississippi's economic future: blue economy; renewable energy; knowledge-based industries; information, operations, and data; life sciences/biotechnology; and mobility technology innovation. Along with sector targets, MDA is also pursuing the goal of promoting the location of corporate headquarters, across sectors, in Mississippi.

The Delta LWDA is known for its agricultural production. Analyzing jobs in Mississippi by location quotient (the concentration of jobs in a geographical area relative to the national average of jobs in this industry), Nine of the top ten crop production counties in Mississippi during 2021 are in the Delta LWDA. While the fertile land of the Delta that supports agribusiness defines the Delta LWDA, the area is also diversifying in healthcare with service providers like Mid-Delta and pharmaceutical manufacturers/preparers such as Baxter and Needle Specialty. In addition, Delta LWDA is pursuing Information Technology as a target sector. For example, Automation Anywhere is training Delta residents to do Robotic Process Automation (RPA) for major companies throughout the United States.

The Mississippi Partnership LWDA is known as a manufacturing hub. Seven of the top ten manufacturing counties in Mississippi are in the Mississippi Partnership LWDA. Industries like plastics and rubber manufacturing, transportation equipment manufacturing, and furniture manufacturing are growing and shifting from low-skill manufacturing to middle-skill, advanced manufacturing operations in this LWDA. Large manufacturing employers such as Cooper Tires, Toyota, Stark Aerospace, Airbus Helicopters, Aurora Flight Sciences, Ashley Furniture, and Lane Furniture all have locations in the Mississippi Partnership LWDA.

The Southcentral Mississippi Works LWDA includes the state capital and is known for its presence in sectors such as healthcare, energy, and agribusiness. Four of the top ten counties specializing in these sectors fall within the Southcentral Mississippi Works LWDA. Because of a strong hospital system and medical education focus, the Southcentral Mississippi Works LWDA serves as a healthcare hub for the entire state. The presence of oil and natural gas deposits in the southwestern part of Mississippi give Southcentral Mississippi Works its strength in the energy sector. The Southcentral Mississippi Works LWDA is also becoming a key hub for the automotive industry with large manufacturers such as Nissan and Continental Tire.

The Twin Districts LWDA, located in the southeastern part of the state, is successful in several sectors, including manufacturing, healthcare, and tourism. Within manufacturing, top industries in this LWDA include transportation equipment manufacturing, shipbuilding, and electrical equipment, appliance, and component manufacturing. The combination of Stennis Space Center and military installations including Keesler Air Force Base, Naval Construction Battalion Center, Meridian Naval Air Station, and Camp Shelby Joint Forces Training Center reinforce a strong military presence in the area and contribute to the presence of advanced manufacturing in shipbuilding and aerospace. The top industry within the agribusiness sector in the Twin Districts LWDA is forestry and logging. Within the tourism sector, many are employed in the amusement, gambling, and recreation industries in this area. The presence of the Gulf Coast as a tourist attraction and hub of international business and the Pine Belt in southern Mississippi help give the Twin Districts LWDA its unique economic identity.

Sub-Regions within the Four Local Workforce Development Areas

While each of the four WIOA LWDAs has a strong overall economic identity, some economic and demographic variability exists *within* these areas. This section addresses three methods for identifying sub-regions: workforce ecosystems, local partnerships, and metropolitan statistical areas.

AccelerateMS Workforce Ecosystem Model

To formalize the recognition of LWDA economic sub-areas, AccelerateMS has begun a process to define eight workforce ecosystems geographically. These ecosystems will allow for a finer calibration of workforce and economic development efforts in LWDAs while preserving existing governance structures. Figure 2 illustrates the approximate location of these ecosystems.

Stakeholders in each ecosystem will be assigned an AccelerateMS team member to serve as a single point of contact for workforce issues that arise in the ecosystem. Regular meetings facilitated by AccelerateMS will allow ecosystem stakeholders to share best practices, voice concerns, provide feedback, and participate in the development of workforce strategies appropriately focused upon the needs of that particular ecosystem area. Each ecosystem will routinely review labor market data, supply chain needs, available educational resources, and regional/community assets in an effort to meet needs in real time accurately and coordinate with LWDAs and other partnerships.

Figure 2: Workforce Ecosystems

Local Partnerships

Within each of the four LWDAs, entities such as economic development councils (EDCs) and public utilities also manage target industry regions (see Table 4).

Table 4. Economic Variability within LWDAs by EDC and Public Utility Industry Focus

Delta Council - <https://www.deltastrongms.com/existing-industry.html>; North MS Industrial Development Association - <http://nmida.com/>; Golden Triangle Development Link - <https://gtrlink.org/>; Greater Jackson Alliance - <https://www.jxnmetro360.org/>; Southwest MS Partnership - http://www.swmiss.us/#section_6; MS Gulf Coast Alliance - <http://mscoastalliance.com/target-industries/>; Mississippi Power - <https://www.mississippipower.com/business/economic-development/target-industries.html>; Mid-Mississippi Development District - <http://www.mmdd.org/workforce.html>

With vital information on available sites, buildings, and workforce demographics, EDCs assist companies considering Mississippi as a potential location. The presence of EDCs can be useful in identifying subtle differences of economic or industry focus within an LWDA. In addition, one of

Mississippi's utility companies, Mississippi Power, manages a target industry region within a single LWDA, Twin Districts.

Metropolitan Statistical Areas

The presence or absence of metropolitan and micropolitan areas helps to capture social differences along with economic differences throughout the regions of the four LWDAs. The Office of Management and Budget (OMB) describes a metropolitan statistical area as an urbanized area of 50,000 or higher in population with an adjacent territory that has a high degree of social and economic integration with the core. Micropolitan statistical areas are defined by OMB as having at least 10,000 but less than 50,000 in population in addition to an adjacent territory that has a high degree of social and economic integration with the core area through commuting. By examining metropolitan and micropolitan areas, regions can be defined by the social and economic importance of a municipality.

Delta Local Workforce Development Area

The Delta LWDA, encompasses 14 counties, serves as a connection to three of Mississippi's regional neighbors: Tennessee, Arkansas, and Louisiana. Within the Delta LWDA, Tunica County represents part of the Memphis metropolitan statistical area, which spans the three states of Mississippi, Tennessee, and Arkansas (see Figure 3). Tunica County represents a region of the Delta that has a growing connection to Memphis within the Delta LWDA. Workforce connections to Memphis are growing appreciably; as of 2019, 71.3 percent of Tunica county residents remain in the county for work, a drop from 79.2 percent in 2014.

Figure 3: Mississippi's Metropolitan, Micropolitan, and Non-Core Areas

In sum, the Delta LWDA is driven by an economic goal of supporting agriculture and agribusiness in order to support the area, as led by the Delta Council and Mississippi Delta Developers Association. In the northern part is Tunica County, the one of two metropolitan counties in the LWDA, in which nearly 71 percent of residents work in the county. In the northern and central portion of this LWDA are five micropolitan areas covering six counties with the highest average population density and more than 77 percent of residents that work in the county. In the northeast (three counties) and southern (three counties) portions of this LWDA are six counties that fall into a non-core classification, with more than 43 percent of residents commuting outside their county for work. Holmes County is the second metropolitan county in the LWDA and is part of the Jackson metropolitan area.

Mississippi Partnership Local Workforce Development Area

The Mississippi Partnership LWDA is home to diverse economic sectors: healthcare, information technology, energy, advanced manufacturing, and logistics. Being the largest LWDA (27 counties), uniquely positioned bordering three other states, this area is rich in economic opportunity and growth.

The Mississippi Partnership LWDA contains specialized hubs of concentrated industry. In the northeast part of the state sits the Chickasaw Trail Industrial Park, home to Amazon, Nike, Cooper Tire & Rubber Company, Niagara, Asics, and Volvo. The Marshall County Workforce Training Center collocates within the park itself. The Mississippi Partnership LWDA strategically locates workforce and technical training resources near the sources of greatest demand for manufacturing and logistics occupations.

Over 40% of Mississippi's manufacturing industries are located in the Mississippi Partnership LWDA. The vast manufacturing economy includes aerospace, electronics/computer, automotive, furniture, chemical and metal fabrication. To meet the needs of some of the world's most technically advanced manufacturers, East Mississippi Community College created the EMCC Center for Manufacturing Technology Excellence 2.0, also known as the *Communiversi*ty. The Communiversi'ty's 145,638 square-foot facility sits in the Golden Triangle Regional Global Industrial Aerospace Park in Lowndes County, born from strong partnerships between K-12, the community college, nearby Mississippi State University, and area industry. The goal of this facility is to provide a consistent stream of highly specialized and technically competent individuals to work at advanced manufacturers in Mississippi.

The Mississippi Partnership LWDA emphasizes in-school youth programs, technical training, and industry recognized apprenticeship programs. There are four industry-recognized apprenticeship programs in the Mississippi Partnership LWDA. Industry specifically in the advanced manufacturing, information technology, and logistics sectors have grown to depend on these programs as part of their recruitment and training methodology. Mississippi Partnership LWDA industry recognized apprenticeship program partners include: APMM, Cyient, Syntron Material Handling, Southern Motion, TAG Truck Center, Keytronics, Moore Engineering, and Toyota.

The Mississippi Partnership LWDA is home to the North Mississippi Medical Center, the state's largest, private, not-for-profit hospital in Mississippi and the largest non-metropolitan hospital in America. Combined with other hospitals in the Mississippi Partnership LWDA, there is a large demand for medical professionals. Community colleges in North Mississippi offer various technician degrees and certifications to meet this demand.

The pandemic created a paradigm shift for our workforce programs, and The Mississippi Partnership began exploring long-term ways we can move our WIOA program from traditional brick-and-mortar type programs to being able to interact virtually with our customers. The Mississippi Partnership deployed an online portal for its WIOA Youth programs and intends to expand it to our WIOA Adult and Dislocated Workers in the future. With the help of MDES, The

Mississippi Partnership hosted job fairs during the pandemic aimed at getting recipients of unemployment back into the workforce.

Southcentral Mississippi Works Local Workforce Development

The Southcentral Mississippi Works LWDA encompasses 17 counties, including the state capital, and is served by two EDCs that divide the area into two nearly separate regions within southwest Mississippi: the Greater Jackson Alliance (GJA) and Southwest Mississippi Partnership (SWMSP). GJA is a regional alliance organized to develop and implement a marketing strategy to promote Greater Jackson and to enhance cooperation between the various governmental jurisdictions in Greater Jackson. This area is focused on its strongest industry, healthcare, and interested in expanding into new industries. SWMSP unites 10 counties in southwest Mississippi toward a regional economic development vision. SWMSP has targeted metal fabrication, plastics, contact centers, and food processing as key industries. Metal fabrication could help support some new industries in Mississippi, such as semiconductor manufacturing. It is also worth noting the division of the Southcentral Mississippi Works LWDA by metropolitan and non-metropolitan areas.

The Southcentral Mississippi Works LWDA serves as a major connection point to Louisiana. The Jackson metropolitan statistical area consists of six counties in the northeastern part of this LWDA. The presence, size, and expansion of this metropolitan area are represented in its population density (122.6 people per square mile, up from 121.6 people per square mile in 2014), with nearly 58.8 percent of residents remaining in their county for work (down from 59 percent in 2014). There are also four micropolitan statistical areas that help define this region, with a lower population density (72 people per square mile, down from 73.9 people per square mile in 2014) but a higher percentage of residents who stay in their county for work (77.7 percent, down from 81.1 percent in 2014). Additionally, there are seven non-core counties clustered in the southeastern and southwestern parts of this LWDA. The lack of metropolitan and micropolitan areas in these counties leads to higher percentages of residents leaving their county for work (54.8 percent, down from 55.6 percent in 2014), with long average commute times (31.8 minutes). Many people in these counties are likely to commute to border metropolitan or micropolitan counties for work or training.

In sum, the Southcentral Mississippi Works LWDA sees a strong regional divide in terms of economic focus, as evidenced by regional boundaries that show minimal overlap, and of demographics, as evidenced by the range between population densities in the metropolitan and non-metropolitan areas. Within the Jackson area, there is a strong focus on healthcare and technology, while there is a strong focus on food processing and manufacturing in the more sparsely populated areas of southwest Mississippi.

Twin Districts Local Workforce Development Area

The Twin Districts LWDA encompasses 24 counties, including Mississippi's coastal counties. The Twin Districts sector strategy includes advanced manufacturing, energy, chemicals, and healthcare as target industries, with information technology emerging in the area. Twin Districts differs from the other LWDA's in that it contains counties not served by a regional EDC. There are two main EDCs that serve nine counties in the Twin Districts LWDA: the Mississippi Gulf Coast Alliance for Economic Development, comprised of the three coastal counties, and the Mid-Mississippi Development District (MMDD) that serves six counties in the central part of the LWDA. The Mississippi Gulf Coast Alliance for Economic Development has identified target industries that align well with those of MDA. The Alliance's target industries are aerospace, defense, advanced materials, and energy. MMDD focuses on advanced manufacturing and healthcare.

The Twin Districts LWDA contains two metropolitan statistical areas. The Twin Districts LWDA serves as a connection to Alabama and Louisiana as well as an international port along the Gulf

Coast. The two metropolitan statistical areas, Gulfport-Biloxi and Hattiesburg, have a growing, very high population density (114.6 people per square mile, up from 111.1 in 2014). 31.8 percent of residents of these counties leave their county for work (up from 30.9 in 2014). The proximity of employment leads to a shorter average commute time (27.4 minutes) compared to the other counties in this LWDA. There are three micropolitan areas in this LWDA (Picayune, Laurel, and Meridian), with a 30.3 percent of residents leaving their county for work (down from 30.5 percent in 2014) and an average commute time of 28.5 minutes, similar to those of the LWDA's metropolitan areas. There are also 10 non-core counties spread throughout the Twin Districts LWDA. These non-core areas form a cluster in the southeast and make up the entire western border of the LWDA. Counties in the non-core areas of the Twin Districts LWDA have the lowest population density (35.6 people per square mile, down from 36.2 in 2014), highest percentage of people leaving their county for work (43.9 percent, up from 43.2 percent in 2014), and the longest average commute time (31.5 minutes, up from 31.0 minutes in 2014). Other than population density, the variation among metropolitan, micropolitan, and non-core areas is relatively small.

The economy of the Twin Districts LWDA relies on several industries with a strong focus on advanced manufacturing and energy, particularly along the coastal part of the LWDA. In the growing area of clean energy, a 450-acre, 52-megawatt solar farm came online in 2017 near Hattiesburg capable of powering 6,500 homes. The metropolitan, micropolitan, and non-core areas show less variation than those in other LWDAs in terms of commuting times and residents leaving their county for work.

Mississippi has also classified regions that cross LWDA boundaries in efforts to make larger impacts across Mississippi (Figure 4).

Economic Development Councils

Within the Delta and Mississippi Partnership LWDAs, there are three Economic Development Councils (EDCs) that serve more than one LWDA and sometimes spill into three LWDAs. Within the Delta LWDA, there are two EDCs that spill beyond the Delta LWDA and cover 20 counties in northwest Mississippi: the Mississippi Delta Developers Association (MDDA) and the Delta Council (DC). These EDCs share a goal of increasing economic development in northwest Mississippi and helping to solve common problems in this area. The MDDA aids the Delta LWDA by assisting with relocation for companies, including listing available buildings and sites, transportation maps, incentives at local, state, and federal levels, financing programs, and labor and training information. The DC serves 18 counties in the Delta region by providing a nexus for collaboration for agricultural, business, and professional leadership and solving common problems experienced in the area by way of several economically focused committees, including committees for aquaculture, ginning and cotton quality improvement, and rice and small grains, among others. All of the committees reflect the Delta LWDA's commitment to agribusiness, which is a target industry of the MDDA.

North Mississippi Industrial Development Association (NMIDA) is the largest of the three EDCs, with an area that surpasses the Mississippi Partnership LWDA boundaries in order to serve the Tennessee Valley Authority (TVA) territory in Mississippi. NMIDA serves 29 of the 36 counties within the TVA territory. NMIDA helps companies looking to locate businesses in Mississippi through services such as providing information on available sites and buildings, transportation, and incentives. NMIDA mainly targets advanced manufacturing with a few other targets, such as aerospace, forest products, and agribusiness.

Two of Mississippi's utility companies, Tennessee Valley Authority (TVA) and Entergy, manage target industry regions spanning several LWDAs. Entergy spans the Delta and Southcentral

Mississippi Works LWDAs. TVA covers the Delta and Mississippi Partnership LWDAs and parts of the Twin Districts LWDA.

Mississippi Community College Consortia

Mississippi's Workforce Enhancement Training (WET) fund derives from employer unemployment insurance taxes and is a state funding source for workforce training. Three consortia have been recommended and approved by workforce directors on the Mississippi Community College Board: the Southern Mississippi Alliance for Workforce Solutions, Mississippi Corridor Consortium, and the Crossroads. These three consortia marshal community college resources to provide training and education to Mississippians within the districts of the collaborating community college and, in some cases, to give focus to specific industries important to a consortium's region.

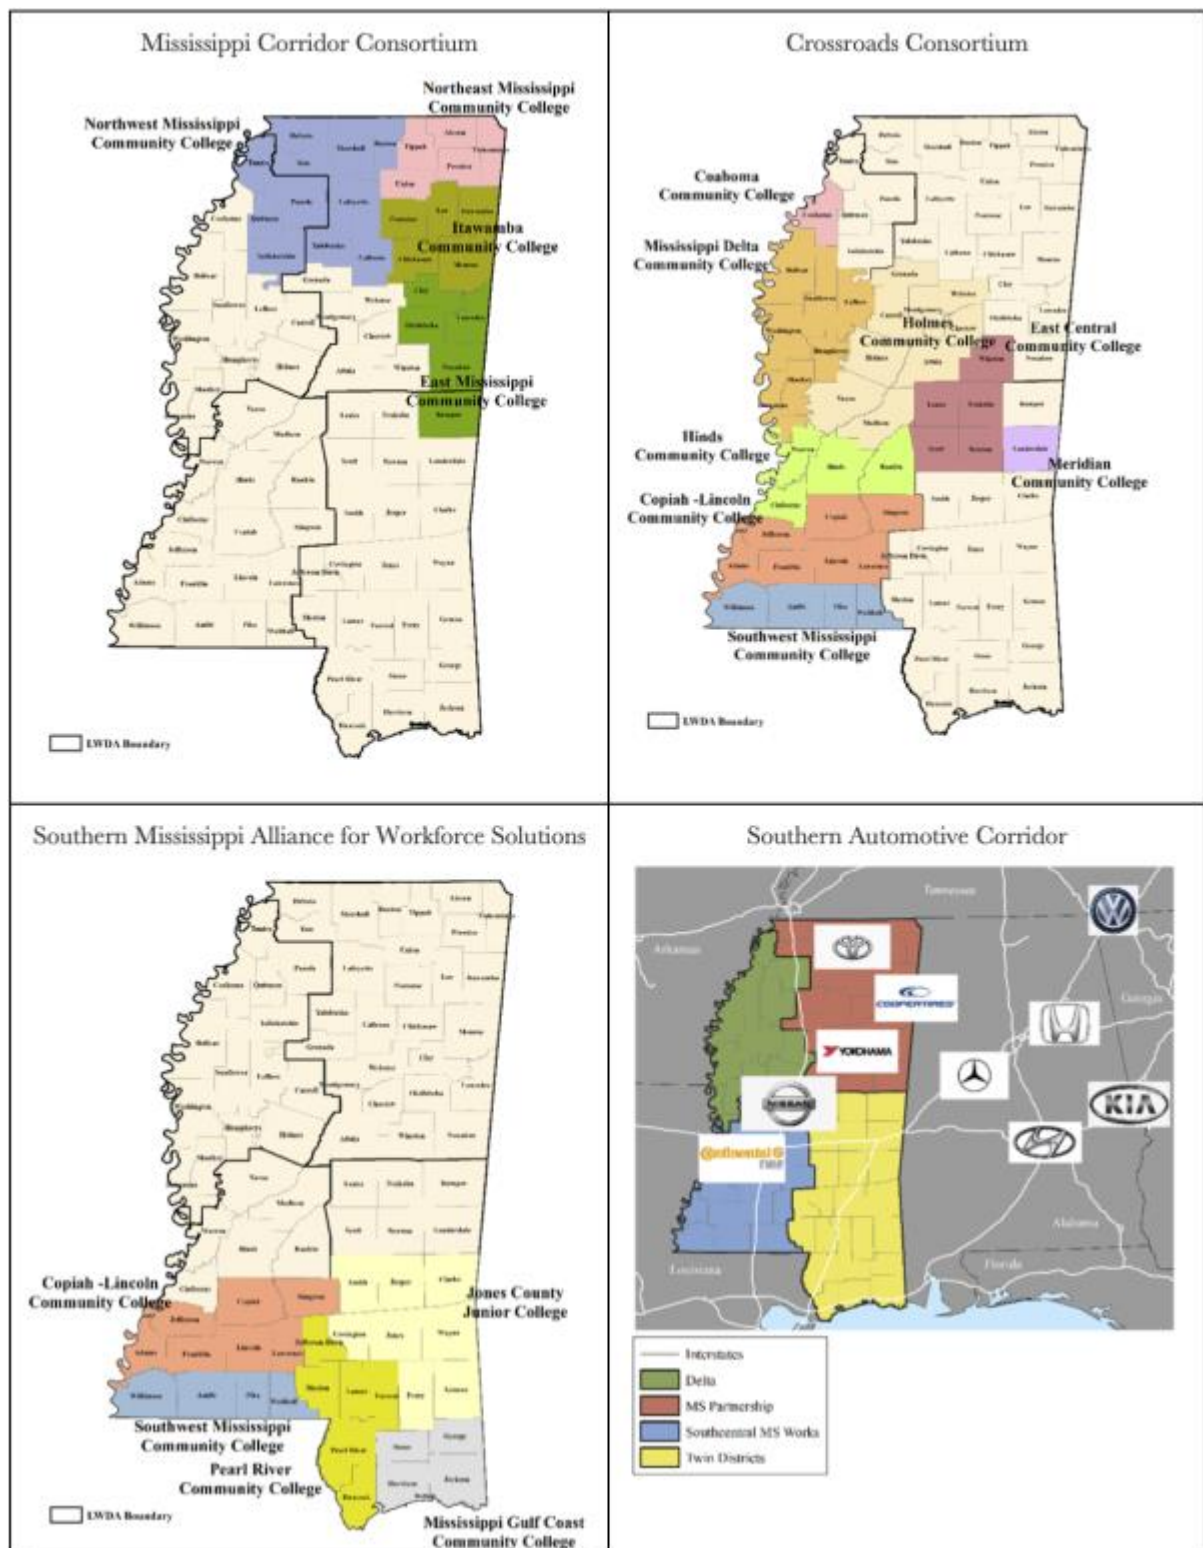

The Mississippi Corridor Consortium is led by Itawamba Community College (see Figure 4), with the top priority of training residents of these areas to address the transitional condition of the area's workforce needs as determined through relationships with local businesses. Regionally, workforce opportunities continue the transition from low-skill manufacturing jobs to middle-skill advanced manufacturing and technology-related occupations.

The Mississippi Crossroads Consortium is led by Holmes Community College and committed to assisting with the development of a population of potential employees for employers who are looking for individuals who can demonstrate skills, keep up with the fast pace of change, and show dedication to lifelong learning. In order to help train job seekers in the area of healthcare, the Mississippi Crossroads Consortium is seeking healthcare-related training aids, which will be identified by East Mississippi Community College. This focus on healthcare as well as advanced manufacturing follows the state trends as well as MDA target industries.

The South Mississippi Alliance for Workforce Solutions has set a mission of investigating, developing, and delivering education and training for citizens and industries in the five community college service districts through demand-driven, innovative, traditional, and non-traditional formats to advance the South Mississippi workforce. Industries specified by this consortium are manufacturing and healthcare, with the goal of developing credentials in each of these industries specific to this consortium area.

There is a growing presence of automotive manufacturing throughout southern states, such as Mississippi, Alabama, and Georgia, and Tennessee with large employers, like Toyota, Nissan, and Honda, employing many Southerners. This corridor speaks to the business-friendly climate of Mississippi and the South in general and to a commitment to middle-skill careers.

II. STRATEGIC ELEMENTS

A. ECONOMIC, WORKFORCE, AND WORKFORCE DEVELOPMENT ACTIVITIES ANALYSIS

1. ECONOMIC AND WORKFORCE ANALYSIS

Mississippi is a state of approximately 3 million people. Between 2010 and 2020, the statewide population has declined by 3,829 or 0.13% (see Figure 5). Of the four LWDAs, the Delta area is the least populated and, over the last decade, was the only area that experienced significant population decline. In contrast, the Twin Districts is the most populated area with more than 1 million residents. The second most populous area is the Mississippi Partnership with approximately 880,000 residents, followed by Southcentral Mississippi Works with approximately 790,000 residents. In the last decade, the Mississippi Partnership Works area experienced the fastest population growth at 2.9 percent. The population of the Twin Districts area grew by approximately 2.1 percent over the same period.

According to the American Community Survey, 56.6 percent of the state population is white, and 37.6 percent is African American. Asians, American Indians, and people of other races account for the smallest share of the population (5.8 percent collectively). Within these categories, approximately 3.1 percent are of Hispanic or Latino ethnicity. Of the four LWDAs, the Delta and Southcentral Mississippi Works areas have the largest representations of African-American residents at 67.6 and 49.4 percent, respectively. In the Twin Districts and Mississippi Partnership areas, African Americans account for 27.4 percent and 29.7 percent of the population, respectively. The Twin Districts and Mississippi Partnership areas are home to more Hispanics than the other two areas with 3.9 percent and 3.1 percent, respectively.

Well-established industries in Mississippi's current industry structure include Education Services, Finance, Healthcare and Social Assistance, Natural Resources, Non-Advanced Manufacturing, Transportation and Warehousing, and Wholesale/Retail Trade.

Table 5 reports the employment numbers for Mississippi's current industry structure. Healthcare and Social Assistance is the largest sector and employs over 175,000, accounting for over 16 percent of total employment, followed by Wholesale/Retail Trade, which employs over 166,000 or 15.3 percent of total employment. Manufacturing employs approximately 140,000 individuals, accounting for 12.8 percent of total employment.

Industry	Total	Percent	Earnings	Establishments
Health Care and Social Assistance	175,659	16.1	\$46,937	7,657
Wholesale/Retail Trade	166,846	15.3	\$35,644	16,271
Manufacturing	139,989	12.8	\$52,078	2,384
Accommodation/Leisure	121,027	11.1	\$18,495	6,753
Educational Services	105,941	9.7	\$43,394	1,464
Public Administration	70,050	6.4	\$44,179	1,510

Industry	Total	Percent	Earnings	Establishments
Administrative and Waste Services	65,032	6.0	\$29,133	4,460
Transportation and Warehousing	57,226	5.2	\$48,397	3,338
Construction	43,950	4.0	\$53,737	5,859
Financial Activities	42,836	3.9	\$59,046	8,086
Professional, Scientific, and Technical Services	35,707	3.3	\$63,762	7,748
Other Services (except Public Administration)	20,179	1.9	\$38,380	4,705
Natural Resources	14,557	1.3	\$50,491	2,073
Information	10,817	1.0	\$51,185	1,163
Management of Companies and Enterprises	11,063	1.0	\$94,767	614
Utilities	9,204	0.8	\$84,466	617
Totals	1,090,083	100.0	\$43,209	74,702

Source: Bureau of Labor Statistics, 2021.

Mississippi Works Labor Exchange data show that in 2021 manufacturing was the second largest job creator in Mississippi with 41,000 job openings (wholesale and retail trade was the largest with 44,000 job openings). Manufacturing not only provides the large number of job opportunities but also offers high-wage opportunities; these jobs pay an average of \$52,078.

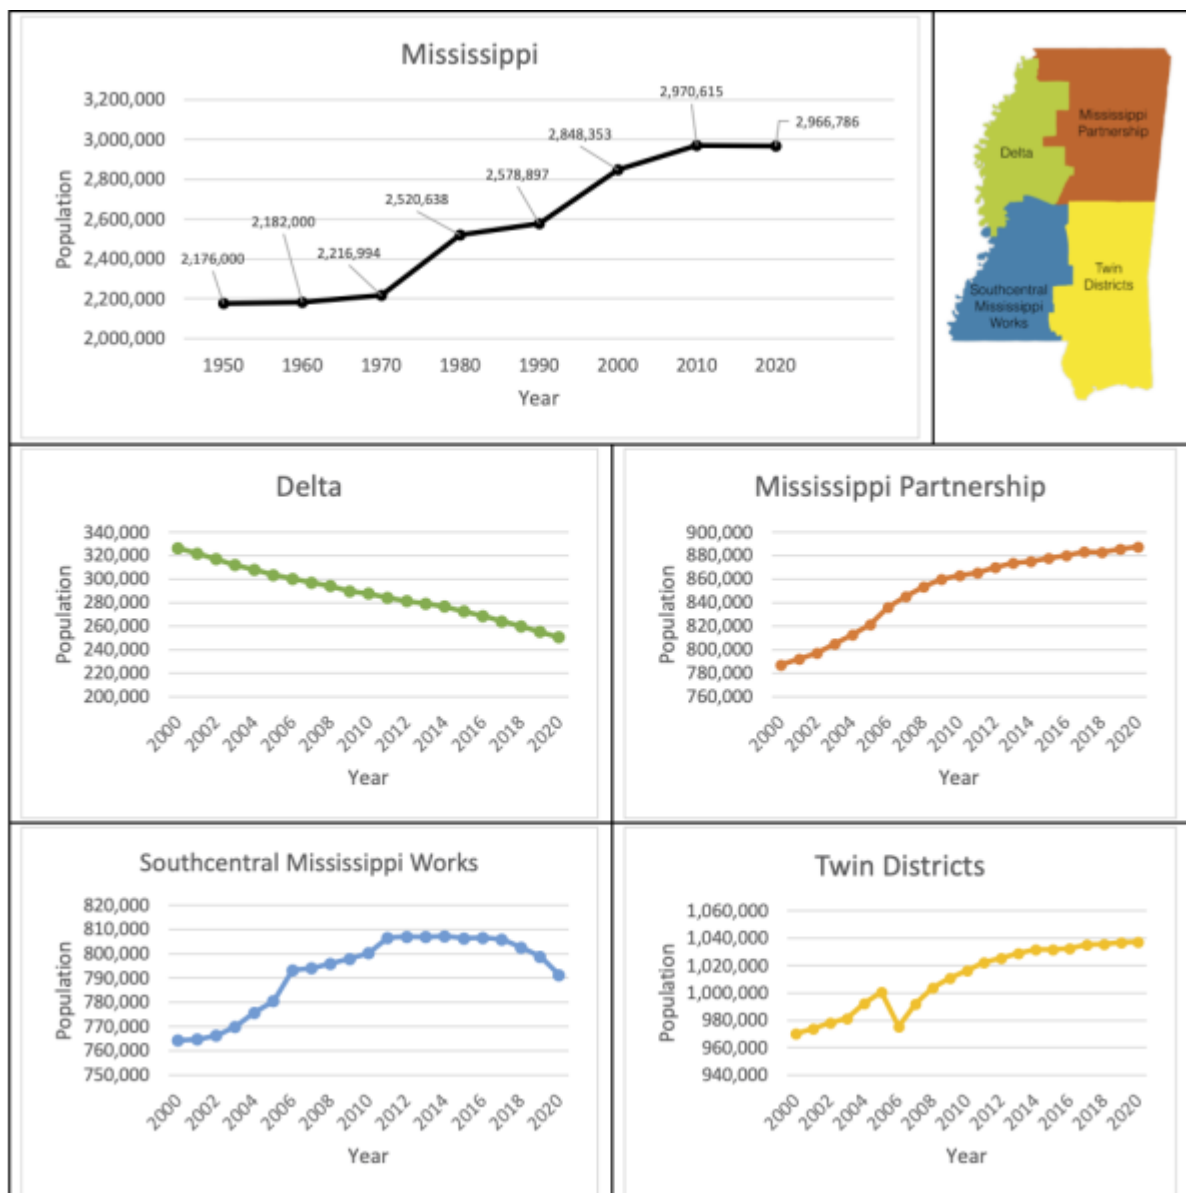

Table D2 (Appendix D) provides a detailed description of subsectors in manufacturing. Transportation equipment is the largest subsector with more than 26,200 people employed, accounting for over 18 percent of total employment in manufacturing. This subsector includes major employers such as Toyota, Nissan, and Ingalls. The next largest subsector is food manufacturing with more than 23,800 people employed. Furniture is the third largest subsector with more than 16,400 people employed. Machinery, fabricated metal, and wood products each account for more than six percent of total employment in manufacturing. Combined, these six manufacturing subsectors account for approximately 70 percent of total employment in manufacturing. Of the four LWDAs, Mississippi Partnership and Twin Districts have the largest numbers of manufacturers in the state, with 41 percent and 34 percent of total employment in manufacturing, respectively.

As a sector, wholesale and retail trade employs over 166,000 people in Mississippi, which accounts for 15.3 percent of total state employment (see Table 5). Within this sector, more than 35,000 are employed in general merchandise stores, followed by over 18,000 in food and beverage stores. Table D1 (Appendix D) reports subsector details for this industry.

Healthcare and accommodation/leisure are two of the largest sectors in the state, accounting for approximately 16 and 11 percent of total state employment, respectively (see Table 5). Combined, these two sectors provide economic opportunities to more than 296,000 people in the state. Healthcare opportunities are most prevalent in the Southcentral Mississippi Works area, which accounts for 35.6 percent of the sector's employment in the state. The Mississippi Partnership and Twin Districts areas account for 22.4 and 33.7 percent of healthcare

employment in the state respectively; the remaining of state healthcare jobs are in the Delta area. The largest number of opportunities for accommodation/leisure is in the Twin Districts area, which accounts for almost 40.4 percent of all jobs in this sector, followed by the Southcentral (27.6 percent), Mississippi Partnership (26.0 percent), and Delta (6.0 percent) areas.

Natural resources accounts for 1.3 percent of total state employment and supports approximately 10,000 new job openings annually. This sector is most prevalent in the Delta area, which accounts for 30.0 percent of natural resources jobs in the state. The Twin Districts and Mississippi Partnership account for 27.7 percent and 21.5 percent of natural resources jobs in the state, respectively. The Southcentral area accounts for 20.7 percent of state employment in this sector. Detailed descriptions of the healthcare, accommodation/leisure, and natural resources subsectors are reported in Tables D3-D5 (Appendix D).

The top 10 occupations in **wholesale and retail trade** account for approximately 68 percent of all jobs in this industry (see Table D6, Appendix D). Retail salespersons is the occupation with the largest demand in the sector. Currently, more than 30,000 individuals are employed in this occupation. Cashiers represent the next largest occupation in the wholesale and retail trade sector with more than 28,600 employed. More than 14,000 individuals are currently employed as stock clerks and order fillers.

The top 10 occupations in **manufacturing** account for more than 39 percent of all jobs—more than 55,000—in this industry (see Table D7, Appendix D). Assemblers and Fabricators is the occupation with the largest demand in the sector. Currently, more than 14,000 individuals are employed in this occupation. Material Movers represents the next largest occupation in the manufacturing sector with more than 7,800 employed. Over 6,300 individuals are currently employed as meat processing.

The top 10 occupations in **accommodation/leisure** account for approximately 69 percent of all jobs in this industry (see Table D8, Appendix D). The typical occupations in this sector are waiters and waitresses, food preparers and servers, and fast food and restaurant cooks.

The top 10 occupations in **healthcare** account for more than 48 percent of all jobs in this industry (see Table D9, Appendix D). The vast majority of the top jobs are in nursing, including Registered Nurse (RN), Licensed Practical Nurse (LPN), and Certified Nursing Assistant (CNA). An appreciable number of jobs in the sector are also in home care and childcare.

The top 10 occupations in **natural resources** account for approximately 65 percent of all jobs in this industry (see Table D10, Appendix D). The top occupation in this sector is farmworkers and laborers.

Three major sectors are clearly emerging in the state: **advanced manufacturing, healthcare support, and tourism** (the full analysis is reported in Tables D11-13, Appendix D).

Advanced manufacturing accounts for more than 83,000 jobs in the manufacturing sector as a whole. Of those, more than 26,000 are in transportation, including automotive, and are concentrated in the northeastern and central areas of the state. Other top subsectors in advanced manufacturing include furniture, machinery, electrical, and chemical. These subsectors are primarily concentrated in the eastern part of the state.

The healthcare support sector accounts for over 21,000 jobs that are primarily concentrated in the western half of the state. There are more than 850 establishments in the state that support this industry, including facilities for general warehousing and storage, medical equipment and supply wholesale, pharmaceutical preparation manufacturing, and surgical appliance and medical instrument manufacturing.

The tourism sector provides economic opportunities to more than 182,000 people in the state. This industry covers the entire state and is supported by approximately 11,000 establishments. Mississippi has truly become a tourist attraction and is providing economic opportunities in areas such as the Delta, one of the most historically rich regions in the country.

The top 10 occupations within advancing manufacturing account for approximately 43 percent of all jobs in the industry (see Table D14, Appendix D). Of all occupations, assemblers and fabricators are at the top with more than 12,000 employed, followed by first line supervisors, material movers and upholsterers that, combined, employ almost 10,000 people.

The top 10 occupations within healthcare support account for more than 68 percent of all jobs in the industry (see Table D15, Appendix D). Of these, laborers and industrial truck and tractor operators account for over 17 percent of the industry's occupations.

The top 10 occupations within tourism account for approximately 54 percent of all jobs in the industry (see Table D16, Appendix D). Waiters and waitresses are the largest occupation, accounting for approximately 9 percent of all occupations in the industry, followed by food preparers and cooks that, combined, account for over 8 percent of the sector's occupations.

During the period from July 22, 2021, to September 22, 2021, the Mississippi Economic Council conducted its annual tour across Mississippi under the theme "A New Day, A New Opportunity for Mississippi." Each year MEC conducts a series of local meetings to keep in touch with the business and community leaders across the state to assist the organization, AccelerateMS, and its boards and committees to develop public policy recommendations that improve the business climate of the state.

MEC conducted 51 one-hour sessions with up to 20 local community leaders in each of the meetings. Most sessions averaged 8-10 people. In all but two cities where meetings were hosted, MEC conducted three meetings to provide multiple opportunities to attend. MEC worked with local chambers of commerce and economic development offices to select and invite a cross section of leadership from each local community. Eighteen counties were selected to provide a representative sampling of all regions of Mississippi. (final report available at: <https://msmec.com/wp-content/uploads/2022/02/MEC-Securing-Mississippis-Future-2.7.22.pdf>)

The series of in-person, town-hall-style meetings were designed to gather qualitative, detailed information from frontline people who deal with workforce issues on a day-to-day basis. A rolling online survey with 26 questions was also conducted in each county prior to the in-person meeting, so the data were gathered over an eight-week period. In total, 373 surveys were completed with at least 243 responses to each question, providing MEC with a 95% confidence level that the responses represented by percentages are accurate within 7%+/- if applied across the entire population of business, industry, and community leadership in Mississippi.

The primary purpose of the 2021 MEC Tour was to listen to local leaders from retail business, education, healthcare, the hospitality industry, manufacturing, professional associations, professional services, and other sectors, as well as local elected officials and government, regarding their concerns and ideas on three critical issues.

- Mississippi Business climate
- Education, workforce, and skills training
- Talent retention and attraction

One issue emerged glaringly above each of the several concerns regarding the business climate in Mississippi. In every community, without exception, the number one issue was identified as "lack of qualified workers."

The MEC tour resulted in the following employer-driven goals and corresponding recommendations related to workforce concerns:

Employer-Driven Goal 1 - Develop a World-Class Workforce to Meet the Needs of Today's Job Market and the Job Opportunities of the Future

Recommendations:

- Support and work with AccelerateMS to develop a strategic, streamlined approach for increasing the number of skilled workers in Mississippi.
- Address the myth that four-year university degrees are the only path to success. Inform parents and students of the importance of quality careers requiring only credentials of value. Adopt an advising approach for Mississippi students that does not treat 2-Year or career technical pathways as merely a "Plan B."
- Create positivity around targeted, high-demand, high-wage career options and inform parents and students of the importance of these careers and identified credentials of value to begin closing the opportunity gap in Mississippi.
- Partner with AccelerateMS, education institutions, other state agencies, and non-profit organizations to develop a consistent, coordinated, and cohesive communication plan to create a greater awareness of job opportunities and career training pathways leading to credentials of value. It should include:
 - A campaign to encourage and champion interest and pride in being part of Mississippi's workforce to help advance their economic success.
 - The development of a branding campaign for specific professions that includes information about the training needed, average Mississippi salaries, work requirements, and expectations.
 - Specific messaging to target demographics, including parents, students, and educators.
- Reach students at an earlier age to expose them to a broad array of job opportunities.
- Increase the educational attainment level in Mississippi to reach the Mississippi Education Achievement Council's benchmark goal for 55% of Mississippians to have a post-secondary degree or credential of value by 2030.
- Expand career coaches to all high school districts across the state to focus on educational opportunities and associated career pathways.
- Assess and identify the labor market gaps in worker supply and demand and create an inventory of future, in-demand jobs. Work with AccelerateMS to highlight the top, targeted jobs that are going unfilled.
- Audit Career and Technical programs at the K-12 and community college level to determine whether the curriculum prepares students for continued studies and/or immediate employment. Promote the development of career academies throughout the state.
- Determine ways to expand and better utilize dual-credit offerings within the CTE Programs.
- Increase funding for on-the-job training, apprenticeships, internships, and mentoring programs for Mississippi business and industry.
- Ensure unskilled workers develop durable skills, practical educational skills, and soft skills needed for the job market.
- Foster a stronger culture of business engagement in which industrial partners effectively and regularly communicate needs with high schools, community colleges,

universities, and the larger public workforce system to connect curricula to the world of work.

Based on these three sources of data, the initial planning found a consensus that businesses were expected to grow and that recruitment and retention of qualified workforce was a critical issue for sustainability, viability, and growth. On the whole, businesses reported needing workers with labor and trade skills and those with basic work skills (e.g., reading, writing, appropriate workplace conduct). The consensus among businesses in 2014 was that employees, across the board, lacked core competency skills such as:

Employer-Driven Goal 2 - *Grow Our Economy and Population by Increasing the Number of Highly Qualified, Skilled Professionals*

Recommendations

- Increase opportunity through additional, high-paying, quality jobs.
- Position Mississippi as a place to stay, live, work and thrive by preparing a skill-based and entrepreneurial workforce.
- Spotlight what Mississippi has to offer—tell Mississippi’s quality-of-life story.
- Develop an incentive program to encourage young professionals to remain or return to Mississippi, as well as attract new talent to the state.
- Highlight the positive qualities and programs offered by Mississippi’s schools, community colleges, and universities.
- Help develop an entrepreneurial environment to encourage young professionals to start a business and grow Mississippi’s economy.
- Create opportunities for young professionals to become engaged in the community.
- Utilize technology advancements to improve Mississippi’s competitiveness.
- Encourage community leaders to define social infrastructure for their respective communities, then invest in and create many instances of that infrastructure that reflect the definition.

Employer-Driven Goal 3 - *Strengthen and Expand Mississippi’s Economy through Job Growth*

Recommendations

- Increase the number of quality jobs that offer higher incomes.
- Raise average per-capita income in Mississippi.
- Grow opportunities for entrepreneurship.
- Create a marquee economic development incentive program by streamlining the state’s incentive portfolio.
- Focus on on-site readiness through site infrastructure advancement to support a short timeframe for development, usually within 12 months or less.
- Remove barriers and increase access to capital for minority-owned and small businesses.
- Maintain a tax structure that encourages business investment while providing fairness.
- Recognize and promote the expansion of technology-driven opportunities.

Based on the recommendations emerging from statewide engagement with employers, Mississippi's Smart Start Pathway Model will continue to focus on the need to build foundational skills necessary to meet employer needs. Since the initial WIOA plan, Mississippi's Adult Education providers have focused on a basic skills curriculum to provide trainees with intensive instruction in basic (soft) skills and a focus on helping workers attain an industry recognized credential such as the Career Readiness Certificate that signifies to employers the extent to which the worker possesses the aptitudes required by a modern workplace. In addition, workforce training administered through WIOA Title 1 and other programs has been transformed around industry sector strategies to ensure alignment between supply and demand of technical skills.

Organizationally, to provide a sustainable response to employer needs, representatives of manufacturing and other businesses have been further engaged in the State Workforce Investment Board processes to ensure that state workforce training system partners continue to address employer concerns (See the State Workforce Investment Board membership roster below).

Finally, Mississippi has made use of workforce data to assist incumbent businesses to grow or build sustainable workforce pipelines and to attract prospective businesses by demonstrating both the availability of labor and the systems that are in place to provide ongoing training to meet workforce needs.

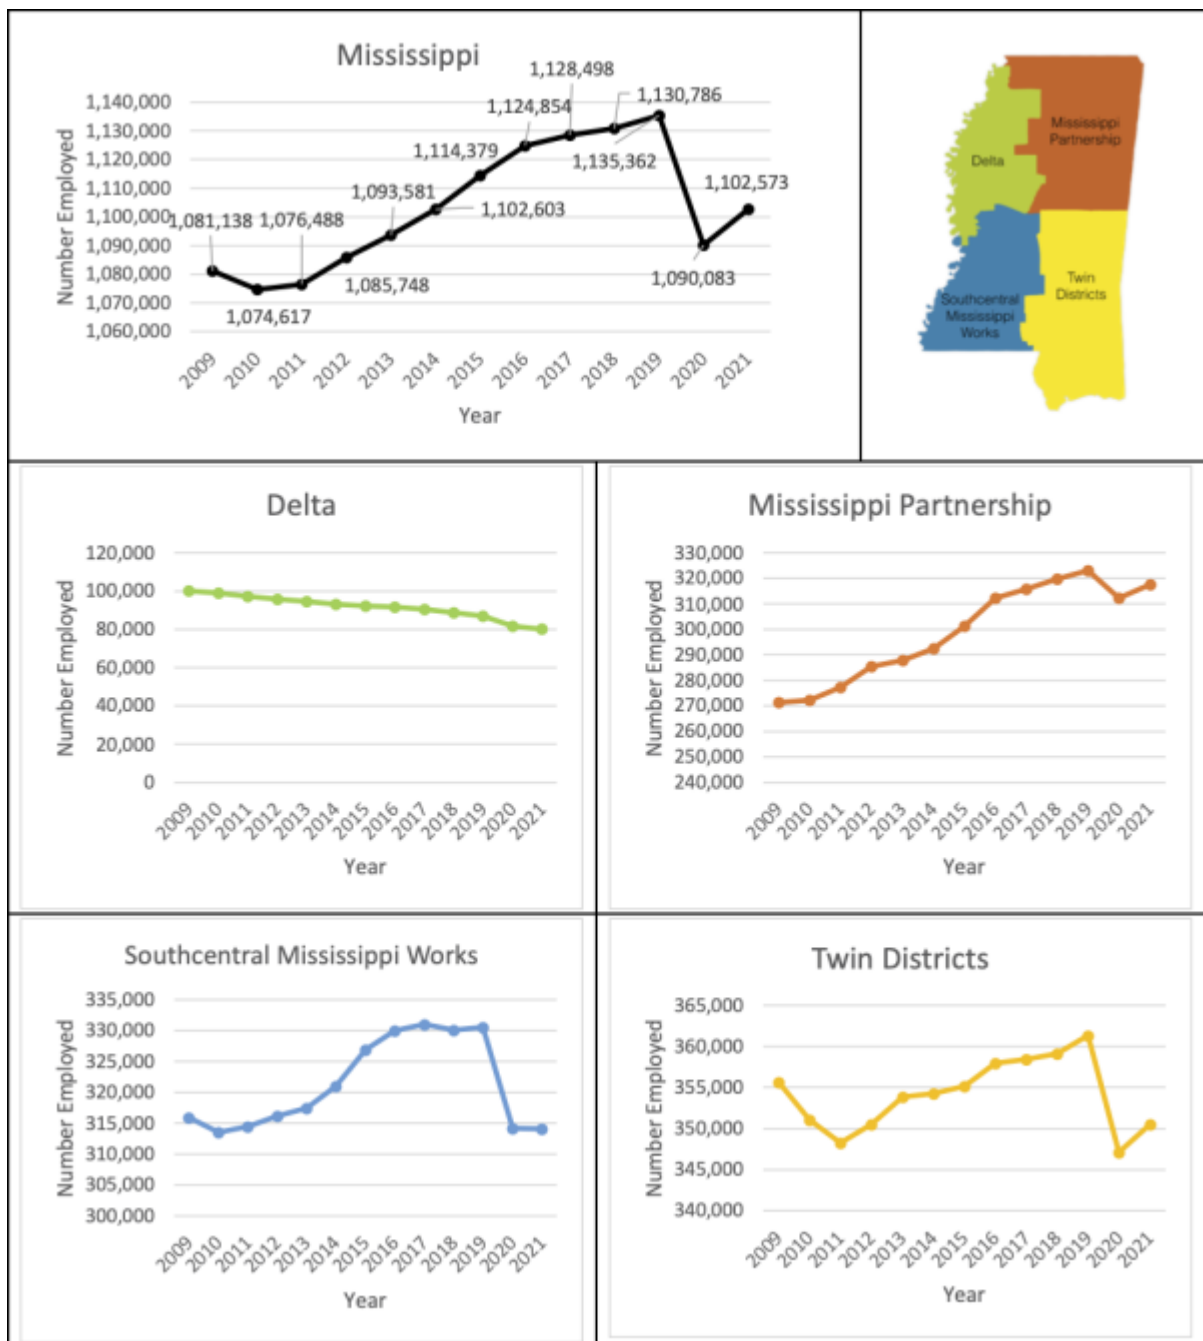

A review of workforce indicators was conducted in early 2022. Changes in unemployment, population trends, and workforce participation rates were noted. The changes further reinforce the state's goals and strategies outlined in the plan.

After struggling with a high unemployment rate, Mississippi has experienced a recovery that offers new economic opportunities for workers and job seekers. According to data from the Bureau of Labor Statistics, Mississippi's unemployment rate has dropped from 10.4 percent in 2010 to 6.0 percent by September 2021. Figure 6 presents annual unemployment trends from 2009-2020 (2021 number is calculated as the monthly average of January to September 2021). The unemployment rate in the Mississippi Partnership area was the lowest in the state in 2021 at 5.3 percent. The Southcentral Mississippi and Twin Districts areas had unemployment rates similar to the state-level statistic at 6.0 (BLS 2021; Local Area Unemployment Statistics). Clearly, these three trends represent a stronger economic climate in Mississippi.

Despite an improved economic outlook, Mississippi faces some vulnerabilities that provide challenges for its progress. As is the case in other states, the long-term unemployed in Mississippi become discouraged and drop out of the workforce, contributing to the decline of workforce availability in the state (see Figure 8). In the Twin Districts area, the workforce participation rate has remained fairly constant at 54 percent. The Mississippi Partnership and Southcentral Mississippi Works areas have workforce participation rates of 55 percent and 51 percent, respectively. The Delta area has the lowest workforce participation rate at 49 percent.

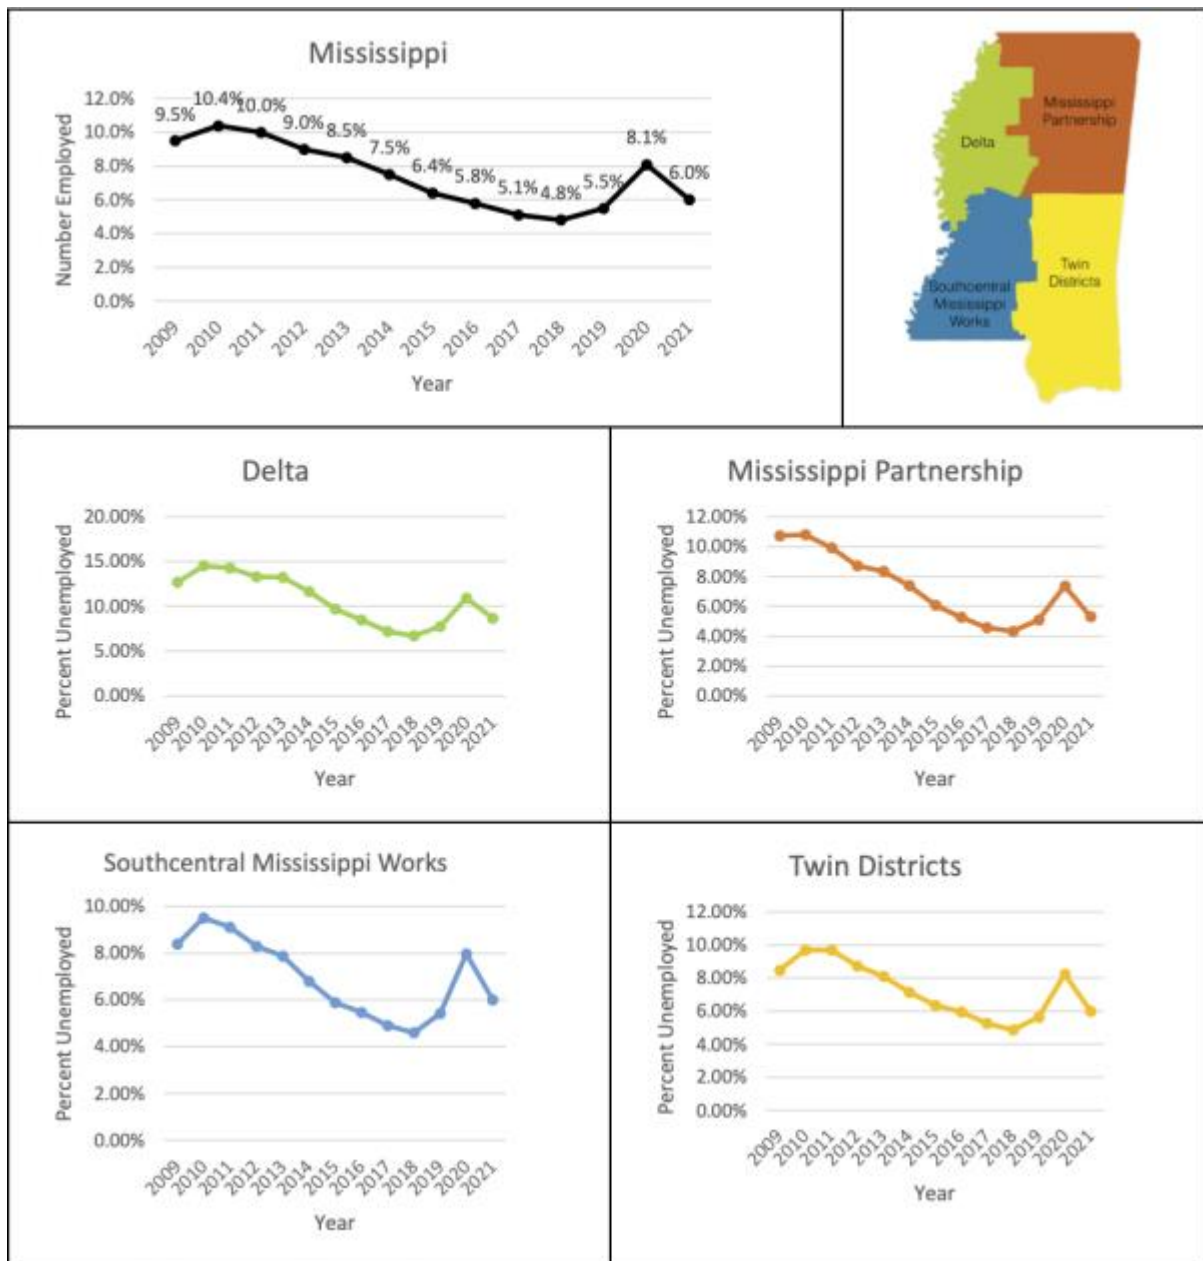

Data show that those with less than a high school education are the most vulnerable and most likely to become discouraged workers. Those with any credentials beyond high school in Mississippi, as in the rest of the country, are more likely to be attached to the labor market (see Figure 9).

Figure 10: Workforce Participation Rate by Age

Source: U.S. Census Bureau, Current Population Survey, 2021.

Tables 6 and 7 provide figures on individuals with barriers, as defined by WIOA, who are at risk of being underemployed. Tables E1-E4 in Appendix E provide more detail on individuals who face different employment barriers, including those with disabilities, those receiving TANF, those receiving SNAP, and ex-offenders. Individuals with disabilities have an 87 percent employment rate and face the reality of earning inadequate incomes. As of state fiscal year 2021, there are only approximately 6,000 individuals on TANF. Of those, almost 700 are work eligible, and their employment rate is about 77 percent. TANF recipients who transition into the workforce have median annual earnings of \$10,000. There are almost 220,000 work-eligible SNAP recipients. Their employment rate is approximately 43 percent, and their median

earnings are over \$16,000 annually. There were approximately 6,500 individuals released from the correctional system in 2021. About 34 percent of ex-offenders were able to find employment within one year of their release. Their median annual earnings were approximately \$17,300. Further analysis also shows that ex-offenders who fail to find employment within one year are likely to reenter the correctional system within three years.

Table 6: Populations with Barriers to Employment

Group	Number
Low-Income Individuals(18-64)	326,587
American Indians/Alaska Natives/Native Hawaiians	14,949
Individuals with Disabilities(18-64)	258,316
Older Individuals(>=65)	447,693
Older Individuals, Low-Income	57,305
Ex-Offenders (18-64)¹	6,390
Homeless children and youth²	11,567
Children in Foster care³	3,594
English Language Learners with Low Level of Literacy⁴	6,626
Migrants or Seasonal Farmworkers⁵	3,530
Individuals within 2 Years of Exhausting TANF Eligibility⁶	820
Single Parent Households	561,823
Single Mother Households	363,152
Single Fathers Households	198,671
Disconnected Youth⁷	18,000

Preparation for the 2022 state plan update included updating the original comprehensive labor market analysis concerning high-demand and high-growth areas in growing and new-and-emerging industries. This analysis used U.S. Bureau of Labor Statistics data, Mississippi Department of Employment Security data, and Mississippi Works Labor Exchange administrative data to identify the current job openings and the average annual openings that are expected to occur over the next 10 years. Results of this analysis are reported in Appendix F, Tables F1-F5 by industry and occupation. In addition to the job openings created as employees move between jobs and employers, expectations for job generation in key industries is as follows:

- Advanced manufacturing is expected to generate over 2,800 new jobs, mostly for assemblers and fabricators. The Mississippi Works Labor Exchange shows that 22,600 advanced manufacturing job openings were listed in 2021. Some of the major employers in advanced manufacturing are Ingalls Shipbuilding, Nissan, Toyota, Ashley Furniture, and Howard Industries.
- More than 2,000 jobs are expected to be created in the next 10 years in the healthcare support industry. In 2021, 1,809 healthcare support job openings were listed. Some of

the major employers in healthcare support are Versant, Teleflex, and Anda Pharmaceuticals.

- Tourism is expected to have more than 12,000 new jobs over the next 10 years, with the largest demand in waiters/waitresses, food preparation, cooks, and line supervisors. In 2021, 59,103 tourism job openings were listed. Some of the major employers in tourism are Beau Rivage Resorts, Gold Strike Casino Resort, and Horseshoe Casino and Hotel.

Over the next 10 years, well-established industries in the state are projected to see job growth approaching 26,000 new jobs. Of those, more than 13,000 will be filled by the top 20 occupations, including retail salespersons, truck drivers and cashiers.

The analysis shows that approximately 67 percent of the jobs created in advanced manufacturing will be middle-skill jobs (see Figure 11). The analysis also shows that approximately 78 percent of the jobs in healthcare support will be middle-skill jobs. The vast majority of tourism jobs created are projected to require middle skills (approximately 68 percent). Even the established industries will create jobs that will tend to require middle skills (approximately 74 percent).

According to the American Community Survey, for the Mississippi population aged 25 and older, 15.5 percent have less than a high school education, 30.4 percent have completed high school, and 32.0 percent have some college or an associate's degree. Those with bachelor's degrees account for 13.7 percent of the population, respectively. The remaining 8.4 percent have a graduate or professional degree. Of the four LWDAs, the Delta area has the largest segment of the population with less than a high school education (22.2 percent).

Data from the Mississippi Works Labor Exchange reveal that more than 280,000 individuals sought employment assistance in 2021 (see Table 8). Of those, more than 58 percent were low-skill job seekers with high school education or less. Another 27 percent had some college education. An appreciable number of job seekers, about 7 percent, had a two-year associate's degree, and approximately 6 percent had a four-year degree. Almost 3 percent had an occupational skills certificate. These data clearly show that a large segment of Mississippi's workforce has low skills and could benefit from skill upgrades.

Table 8: Education and Skill Levels of Current Job Seekers

Educational Level	Educational Attainment		Occupational Certificate	
	Number	Percent	Number	Percent
High school or less	37,966	13.4	296	1.6
High school diploma/GED	118,814	42	3,750	20.5
Some college	60,774	21.5	6,908	37.8
Associate degree	29,499	10.4	2,620	14.4
Bachelor degree or higher	30,188	10.7	1,594	8.7
Education Unknown	5,775	2	3,089	16.9
Total	283,016	100	18,257	100

Source: Mississippi Works, 2021.

Current data show that 69 percent of jobs in Mississippi fall within the definition of middle-skill, but only 37 percent of the state's workforce has the requirements to fill a middle-skill job (see Figure 12). In contrast, Mississippi has more workers than available jobs in the low-skill category. This oversupply of labor also exists for high-skill jobs that require college credentials and beyond. Given that there is a middle-skill gap, the availability of such jobs indicates that many Mississippians could attain gainful employment by seeking additional education and training.

A supply and demand analysis reveals that Mississippi has an appreciable skill gap (see Table 9). There was a demand of almost 30,000 jobs in new and emerging sectors and established high-growth, high-demand sectors. During the same time period, approximately 5,000 individuals were prepared for these middle-skill jobs through the community college system.

Economic and Workforce Impact of COVID-19

As in many states, pandemic-related shutdowns affected businesses of every type and introduced a glut of initial claims for unemployment insurance benefits. Prior to the pandemic, Mississippi averaged 1,006 claims per week.[6] At the height of pandemic unemployment, there were an average of 8,646 claims per week and a total of 74,276 claims.[7] Because Mississippi businesses returned to work with COVID safety protocols in place as early as June of 2020, Mississippi has now returned nearly to pre-pandemic levels of unemployment, to 1,252 average claims per week.[8] In June of 2021, based on a metric including consumer confidence, job market strength and COVID-19 safety, Mississippi ranked second in the nation for pandemic economic recovery.[9] That month, Mississippi was able to end its participation in pandemic-related federal unemployment benefit programs. In December of 2021, Mississippi was ranked in the top ten states in the “Back-to-Normal” index created by CNN and Moody’s.[10] Mississippi’s economic and workforce numbers illustrate nearly complete recovery from COVID-19 and have allowed a return to pre-pandemic aspirations for economic and workforce development.

The preceding economic and workforce analysis provides a solid direction for developing strategies to improve the economic opportunities for those who have become discouraged from entering into the labor force and for those who have entered the workforce but struggle to cross over the poverty line. The analysis suggests that discouraged workers must overcome two challenges to lessen the likelihood of dropping out of the workforce. First, they have to obtain the credentials needed to secure a good job. Second, they have to be able to develop necessary (soft) skills along with their competencies to meet employer expectations of a workforce willing to learn.

To meet these challenges, learning about life skills and work environment expectations is the first step to moving successfully into the workforce. In this regard, the state developed mechanisms to assess when it is appropriate for job seekers to enroll in an eight-week intensive Smart Start Pathway Class (this class is fully described below under step three of “Goal 2: Strengthen Interagency Partnerships”). Next, the job seeker has the opportunity to be prepared to earn educational credentials or skills necessary to align his or her aspirations with labor market expectations. The analysis also suggests that many will be required to have work experience before they are fully work-ready. A proven strategy for gaining experience is to

provide subsidized employment opportunities such as apprenticeships and internships. Similarly, the working poor must be able to upgrade their credentials and improve their skills in order to improve their socioeconomic conditions. A suggested strategy is to engage the working poor in on-the-job training and opportunities for occupational education (e.g., MI-BEST) that are sensitive to the need to balance work schedules with upgrading education and skills.

To meet these challenges, learning about life skills and work environment expectations is the first step to moving successfully into the workforce. To address this need, the state developed mechanisms to assess when it is appropriate for job seekers to enroll in an eight-week intensive Smart Start Pathway Class (this class is fully described below under step three of “Goal 2: Strengthen Interagency Partnerships”). Next, the job seeker has the opportunity to be prepared to earn educational credentials or skills necessary to align his or her aspirations with labor market expectations. The analysis also suggests that many will be required to have work experience before they are fully work-ready. A proven strategy for gaining experience is to provide subsidized employment opportunities such as apprenticeships and internships. Similarly, the working poor must be able to upgrade their credentials and improve their skills in order to improve their socioeconomic conditions. A suggested strategy is to engage the working poor in on-the-job training and opportunities for occupational education (e.g., MI-BEST) that are sensitive to the need to balance work schedules with upgrading education and skills.

The analysis also suggests that many of these individuals rely on public assistance programs such as SNAP and TANF and supportive services such as childcare and transportation vouchers to mitigate barriers to work and training. Leveraging public assistance to meet workforce needs requires a great deal of coordination, as many of these services are administered by agencies disconnected from the workforce system. To overcome these barriers, the state developed an overall strategy to engage in common case management aimed at real-time referral. This case management strategy is fully described below under “Goal 2: Strengthen Interagency Partnerships,” and the information technology that makes this strategy possible is described in the section titled “State Operating Systems and Policies.”

To maximize the effectiveness of any strategy aimed at improving the quality of life for low-income individuals, the state recognizes it must engage in systemic change. This change calls for the creation of an ecosystem that aligns resources and services across agencies to achieve system (or statewide) outcomes. The analysis suggests the two most important system outcomes are improving workforce participation rates and increasing the number of people with more than a high school credential. The importance of these system outcomes is shown in Figure 13. This figure provides a national context, showing that states with higher rates of individuals with more than high school credentials also are likely to have higher labor force participation rates.

Figure 13: U.S. Education and Labor Force Participation Rate by State

Source: U.S. Census Bureau, American Community Survey, 2015-2019 5-Year Estimates.

Mississippi must meet the challenge of an economy that puts, more than ever, an emphasis on attaining more than high school credentials. Our state's current labor force participation rate is not due to a lack of job opportunities. On the contrary, there are tens of thousands of middle-skill jobs not filled by our current workforce. In order to fill those middle-skill jobs, the state needs to be able to increase the number of people in the workforce who possess middle-skill credentials. Mississippi has a considerably large low-skill workforce that, if adequately trained, could close that gap. Of the state's 657,878 population ages 25-64 with low skills, only about 360,000 have jobs. This suggests that the state has an opportunity to close the gap in its current labor force participation rate of workers age 25 to 64 with low skills (60.3 percent) and the national average (69.0 percent) by providing training for in-demand middle skill jobs.

The key strategy outlined in the Mississippi Combined WIOA Plan is to go beyond program-specific performance metrics and use data to gauge how a change in one program impacts the change of another program. The state will engage in an ongoing evaluation process using longitudinal data. This is fully described under "Goal 4: Develop Cross-Program Performance Metrics."

2. WORKFORCE DEVELOPMENT, EDUCATION AND TRAINING ACTIVITIES ANALYSIS

Prior to Mississippi's inaugural WIOA plan (2015), the majority of adult, dislocated worker, and youth training activities in Mississippi provided by the core programs were for jobs in the healthcare sector. While healthcare still receives significant emphasis, in both PY 2018 and PY2020 the majority of training was for jobs in production occupations (production workers, assemblers, fabricators, plant operators, and system operators, involving the areas of metal, plastics, wood, textiles, machines, and food processing). This represents better alignment between training and in-demand skills. The second largest education and training activity was for the transportation sector, including truck and tractor trailer driving. Other significant areas included healthcare and healthcare support; installation, maintenance and repair; and office and administrative support. Individuals received on-the-job training (OJT), internships, externships, and participated in a variety of workforce connection strategies.

TANF Work Program (TWP) activities include vocational education training, jobs skills training directly related to employment, education directly related to employment, and secondary school attendance. These programs are available to each participant. All require supervision by faculty, instructors, or supervisors, and each program has minimum requirements. Each type of training includes monitoring and attendance reporting of participants. Case managers will determine the appropriate amount of face-to-face contact needed. In some cases, if allowable classroom hours are not sufficient to meet the monthly federal participation requirements, actual hours spent in supervised and unsupervised study sessions and assessments will be reported and counted.

Vocational education training offers a sequence of courses directly related to the preparation of individuals for employment in current or emerging occupations that do not require an advanced degree. Allowable programs include vocational associate degree programs, postsecondary educational programs, instructional certificate programs, industry skill certifications, non-credit course work, WIN Job Center training offerings, short-term and employer-needs training from the Mississippi Community College Board (MCCB), Job Corps training offerings, Basic Skills Education and English as a Second Language (ESL), and distance learning programs. Vocational education cannot exceed a 12-month lifetime maximum.

Job skills training directly related to employment involves training or education for job skills that provide an individual the ability to obtain employment or to advance or adapt to the changing demands of the workplace. Job skills training can include customized training to meet the needs of a specific employer or training that prepares an individual for employment, including literacy and language instruction, if necessary, to enable the participant to perform a specific job or engage in a specific job training program.

Education directly related to employment involves educational activities related to a specific occupation, job, or job offer for individuals aged 20 or older who have not received a high school diploma or a certificate of high school equivalency. These activities may include educational courses designed to provide the knowledge and skills for specific occupations or work settings, Adult Education, ESL, literacy skills, and supervised homework and study activities.

Secondary school attendance involves attendance at a secondary school or in a course of study that leads to a high school equivalency (HSE) diploma. This is an allowable activity for individuals age 20 and older who do not have a high school diploma or an HSE diploma. Participation in this activity is not restricted to individuals for whom obtaining an HSE diploma is a prerequisite for employment. Minor parents (younger than age 20) who have not completed secondary school or received an HSE diploma are encouraged to pursue a diploma.

In addition to the workforce education and training activities delivered within community college classrooms, transitional programs such as internships and apprenticeships are essential components of the workforce education and training system in the state.

Internships have been identified as one of the most important types of non-credit training that Mississippi job seekers can use to attain the skills for gainful employment. Many of the internship opportunities offered by employers in fiscal year 2018 require middle skills. The number of middle-skill internships could increase in the future with growing relationships between community colleges and employers in Mississippi. Individuals interested in the internship program must be in one of the following categories:

1. Eligible students must be in an approved training program in an allowable pathway.
2. Individuals interested in career exploration or individuals who have been out of the workforce for a period of time.

Staff must complete an initial assessment and have documentation in the participant file to establish internship need. Case notes are imperative for the internship program and must be in place for monitoring.

The Twin Districts Workforce Development Area provides an Internship Program through partnerships with the five community colleges in the workforce area. The objective of this program is to help Adult and Dislocated Workers gain practical work experience while integrating education, job training, labor market information, and personal development. The Internship is a paid, planned, and structured learning experience that takes place in a work setting for a limited period of time. The targeted population is individuals receiving education assistance through individuals training accounts and short-term training in-demand occupations. The long-term unemployed are also eligible for this program. Priority is given to veterans. The 16-week internship includes between 20 and 40 hours per week of paid work experience. The individuals may earn between \$10 and \$15 per hour. The Twin Districts Workforce Development Area has partnered with employers in the area that are willing to give interns meaningful training assignments and effective supervision.

One-Stop Center operators offer an Adult Internship Program in the Mississippi Partnership area that provides interns with practical work experience and leadership skills while they seek full-time employment. The program provides businesses an opportunity to try out potential applicants in real work settings. The program responds to the need of individuals to acquire relevant work experience and interpersonal skills. In addition, some community colleges partner with local businesses to provide specialized training programs that may include a two-year associate degree, a cutting-edge curriculum, and paid work experience. Each of these community college and business partners will vary on the hours per week and the wage provided. However, the paid work experience is at a minimum of three days or 16 hours per week, with wages starting at \$14 per hour and potentially increasing to \$20 per hour. When possible, some community colleges provide interns an eight-hour shift for the purpose of experiencing a full day's work. At the end of the corresponding academic semesters, participating industries are reimbursed approximately \$2,500 per intern to help offset wages. Reimbursement to companies is administered through the corresponding LWDA.

A final strategy is to connect job seekers with community college programs and potential employers to build a sustainable workforce through the use of apprenticeships and registered apprenticeship programs. The Mississippi Department of Employment Security (MDES) houses the Mississippi Apprenticeship Program (MAP) which offers a range of services that help businesses develop, recruit, and retain a highly skilled workforce through highly customizable and effective Registered Apprenticeship (RA) programs. Registered Apprenticeships provide a unique "earn while you learn" opportunity that leads to a national-recognized credential and competitive career in a variety of industries, including advanced manufacturing, healthcare, IT/cybersecurity, transportation, utilities, and hospitality.

Apprenticeship programs, Registered and Non-Registered, provide individuals with an opportunity to acquire the knowledge and skills that lead to high paying jobs while also helping businesses grow their skilled workforce.

The Mississippi Partnership has designed a local, industry-recognized, non-registered apprenticeship program. Its target sectors—advanced manufacturing, information technology, logistics, and energy sectors—have grown to depend on these programs as part of their recruitment and training methodology. Participating students receive on-the-job training that provides real world experience in their chosen field of study while advancing their academic skills simultaneously.

SNAP Employment and Training (E&T) helps eligible SNAP participants gain skills, training, or work experience to increase their ability to obtain regular employment that leads to economic self-sufficiency. MDHS utilizes a 50/50 funding model, known as the Third-Party Partnership or Skills2Work (S2W) as one way for Able-bodied Adults without Dependents (ABAWD) to meet the work requirement. This model provides E&T program participation opportunities reimbursable to partners at 50% of allowable costs directly related to the SNAP clients' participation in an E & T program component, as they are deemed reasonable and necessary. S2W focuses on career technical and/or workforce skills training programs and provides the opportunity to earn credentials that will help them compete for employer-driven, middle-skilled jobs. Service providers include a network of non-profit community-based organizations (CBOs) and community colleges. Since inception of the program, 134 participants have received National Career Readiness Certificates (NCRC) and 997 participants have received Career/Technical and other certifications including, but not limited to CPR, OSHA, CDL, Customer Service, and ServSafe credentials. Through the Smart Start program, 311 participants received Smart Start credentials and/or a certificate of completion while 138 participants received an NCRC of bronze or higher.

The Senior Community Service Employment Program (SCSEP) is a community service and work-based, job-training program for older Americans. Authorized by the Older Americans Act, the program provides training for low-income, unemployed seniors. Participants also have access to employment assistance through American Job Centers. SCSEP participants gain work experience in a variety of community service activities at nonprofit and public facilities, including schools, hospitals, childcare centers, and senior centers. SCSEP is administered in 81 counties in Mississippi. Nationally, this program has provided more than 40 million community service hours to public and nonprofit agencies, allowing them to enhance and provide needed services. Participants work an average of 20 hours per week and receive the federal minimum wage, which is currently \$7.25. Also, limited fringe benefits are provided. This training serves as a bridge to unsubsidized employment opportunities for participants. Participants must be at least 55 and unemployed with a family income of no more than 125 percent of the federal poverty level. Enrollment priority is given to veterans and qualified spouses, then to individuals who are older than 65, have a disability, have low literacy skills or limited English proficiency, reside in a rural area, are homeless or at risk of homelessness, have low employment prospects, or have failed to find employment after using services through the American Job Center system.

Goodwill Industries of Mississippi, Inc. covers 59 counties in the central portion of the state, encompassing all four Mississippi Local Workforce Development Areas. Job evaluation and training services are provided to individuals with disabilities through a long-standing contract with the Mississippi Department of Rehabilitation Services Vocational Rehabilitation and Vocational Rehabilitation for the Blind. Additionally, Goodwill of Mississippi, Inc. offers training in digital skills, virtual reality job interviewing, virtual reality career exploration, and a nationally recognized certification in customer service skills. Employment opportunities are also provided to individuals with disabilities, other barriers to employment, and the public. In 2021, Goodwill Industries of Mississippi, Inc. employed, on average, over 180 individuals,

served over 109 individuals with disabilities and other barriers, and reached over 790 people with training opportunities.

A special focus of workforce activities is youth dropout prevention and dropout recovery. Mississippi is committed to providing comprehensive services to eligible youth, especially individuals with significant barriers to employment or individuals at risk of falling out of the education pipeline. The Mississippi Department of Employment Security (MDES) provides comprehensive services to youth through an integrated system of education, workforce training, skills development, and job-readiness services. These services are designed to assist eligible youth to receive the educational and employment skills, training, and support needed to achieve academic and employment success as they transition into the workforce and/or postsecondary education.

Dropout prevention activities are also part of youth program efforts in the state. Services to eligible youth are delivered through a network of youth providers. Independent contractors may competitively bid for youth funds and deliver LWDA Youth Program services that include counseling, occupational skills training, leadership development, guidance, follow-up work-readiness training, internships, job placement, pre-employment training, work experience, high school equivalency preparation and achievement, employment referral to on-the-job training, and individual training accounts.

Innovative approaches used by youth providers include the Gateway youth programs, and Career Connections. The Gateway program provides one-on-one counseling that helps youth develop a personalized individual service strategy that leads to short- and long-term academic and/or career goals. Gateway counselors provide tutoring services to youth in need of basic skill development through reading, math, and language education and develop educational workshops, mock interviews, mentoring, and community service projects. Counselors will also assist youth with finding jobs with local employers and, if applicable, make referrals to additional services.

The primary goal of the Career Connections program is to equip youth with the education and skills needed to take advantage of new job opportunities in high-growth labor markets. Educators partner directly with industries to expand career-specific learning for Career Connections participants in areas such as professional development, mock interviews, resume writing, dual enrollment options, and postsecondary education options.

In addition to the services provided to eligible youth through MDES, the Mississippi Department of Education (MDE) also offers several dropout prevention strategies. MDE-approved dropout prevention programs include the following:

- **Career academies** incorporate academic and technical skills, small-size classes, and collaboration among teachers. Currently utilized in nine school districts across the state, these programs allow students to receive industry-recognized credentials at no cost. In some districts, these programs are open to all high school students, while others have been implemented as pocket academies, which accommodate a cohort of students. Key characteristics of the career academy include: 1) a smaller learning community of students linked to a common set of teachers; 2) cohort scheduling and common planning; 3) physical space shared by one academy; 4) integrated curricula focused on the selected academy concept; 5) advisory groups; 6) strong community and industry connections; and 7) dual credit/dual enrollment options.
- **Dual credit/dual enrollment** allows high school students to simultaneously earn college academic or career/technical credit and credit toward a high school diploma. Mississippi Works dual credit/dual enrollment policy provides high school students at risk of dropping out with the opportunity to complete their education while learning a

skill or trade. Additionally, Mississippi Code 37-15-38, Section 19, allows the local school districts to work with local community colleges to connect successful students to college-level coursework.

Other Community-based organizations are heavily engaged in dropout prevention and recovery.

Jobs for Mississippi Graduates (JMG) is a program designed to keep young people in school through graduation and to provide work-based learning experiences that will lead to career advancement opportunities or enrollment in a postsecondary institution. Students receive follow-up services for 12 months after graduation. Students are targeted for services based on a number of barriers to staying in school through graduation and/or transitioning from school to a career. JMG is an affiliate of the Jobs for America's Graduates Program. For 25 years, JMG has worked in partnership with local school districts, area industry leaders, and community colleges to support recent graduates, students at risk of dropping out of high school, and students who need assistance in the transition from school to work. In 2021, JMG operated 43 program sites across Mississippi and served 1,191 students from 13-24 years of age. Students receiving services achieve graduation, as well as enroll in postsecondary school, enter the military and are placed in jobs.

The Mississippi Scholars program is managed by the Public Education Forum of Mississippi and partners with local business leaders to prepare high school students for a successful transition to college, university coursework, or technical training necessary to compete in the 21st century job market. Since its inception in 2003, the Mississippi Scholars program has recognized more than 46,000 graduating seniors from more than 120 high schools or districts for completing the program. Additionally, the Mississippi Scholars Tech Master program was designed to encourage high school students to pursue a career and technical coursework.

Another dropout prevention strategy focuses on improving college completion rates. In 2014, the Mississippi Legislature passed SB 2563, requiring community colleges and universities to develop plans to address teen pregnancy on their campuses and its associated barriers to education, such as childcare, transportation, and financial aid. The legislation resulted in a variety of strategies adapted to each college or university context. Strategies included the creation of formal, online or in-person training courses for students, establishing or revising policies relating to Title IX and sexual assault, creating policies to connect students more easily with community health services, raising awareness by faculty and staff of issues relating to prevention, and wellness fairs. Because Mississippi's teen pregnancy rate is highest among girls ages 17 to 19, and because teen pregnancy affects a woman's ability to complete her education, obtain a good job, and earn sufficient family wages, the passage of SB 2563 was a significant step toward increasing college completion rates and the skill level of Mississippi workers. Currently, Mississippi's teen birthrate is 29.1 (per 1000 females aged 15-19). This is a 23.4 percent decrease from the 2014 teen birthrate of 38 and a 51.9 percent decrease from the 2005 birthrate of 60.5.

Dropout recovery is another element of the strategy to improve economic opportunities for low-skill job seekers. For individuals who become disconnected from the education pipeline and are unable to attach themselves to the workforce, basic skill remediation is often necessary before job placement. It is nearly impossible for individuals lacking proper math, reading, writing, communication, teamwork, and computer skills to be competitive in today's labor market. Adult Education (AE) programs provide adults with the education needed for functional literacy before they move on to employment or additional education and training. AE programs administered through the Mississippi Community College Board (MCCB) are designed to offer opportunities that will enhance the skills and abilities of individuals preparing for the workforce or additional educational activities.

AE provides services throughout the state through local grantees who met the requirements in a competitive grant process. In addition to assessing an individual's educational needs in

reading, math, and writing, AE serves as the foundation on which workforce education is fundamentally based. The Office of Adult Education conducts grant competitions for eligible providers under WIOA following the guidelines received from the Office of Career, Technical, and Adult Education (OCTAE). Awards are distributed annually based on funding received from OCTAE.

Building off of the dropout recovery strategies of AE programs, the Mississippi Integrated Basic Education and Skill Training (MI-BEST) initiative led by the Mississippi Community College Board incorporated a career pathway model within the delivery of basic education. MI-BEST primarily targets high school dropouts, low-income individuals, and other students by accelerating their transition from basic skills education to postsecondary programs of study. MI-BEST incorporates contextualized learning by concurrently delivering AE and career and technical education (CTE) classes using a team-teaching approach. In addition, MI-BEST provides low-skill, undereducated, and low-wage workers opportunities to enter career pathways with the appropriate level of instruction, leading to postsecondary degrees and/or credentials and, ultimately, self-sufficiency.

Through MI-BEST, Mississippi joins a growing number of states implementing best practices designed to recover and accelerate postsecondary credential attainment among high school dropouts and other nontraditional students. Participants in the MI-BEST program must earn a Career Readiness Credential at any level, earn a Smart Start Credential, and continue on-the-job training. Upon completion of this program, students have the skills and credentials to enter the workforce at the middle-skill level.

In addition to the core services administered by Combined Plan Partners, Mississippi's workforce system offers a variety of employment services to ensure all job seekers have the resources and tools to secure gainful employment.

Job search, job referral, and provision of labor market information are the key supportive services offered to all job seekers by the Mississippi Department of Employment Security through the Mississippi Works Labor Exchange, which connects job seekers to employers through both web and mobile applications. Job seekers can 1) build a profile using a wizard-style intake form; 2) automatically generate a resume; 3) search for and apply online to openings; 4) receive emails or text messages when new openings match the job seeker's criteria; 5) receive real-time feedback through an innovative gap analysis that helps a job seeker determine how well matched he or she is for a particular position; and 6) access easy-to-understand labor market analysis. For job seekers who lack computer skills, One-Stop Center staff can also log into the Mississippi Works Labor Exchange to assist job seekers in applying for positions through a "staff-assisted referral" or other Wagner-Peyser services.

Mississippi's higher learning institutions offer career center support on all eight public university campuses: Alcorn State University, Delta State University, Jackson State University, Mississippi State University, Mississippi University for Women, Mississippi Valley State University, The University of Mississippi, and The University of Southern Mississippi. These centers provide students with information about career development, coordinate career fairs, develop partnerships with employers that lead to internships and cooperative education possibilities, and provide instruction in resume creation and interview techniques.

As an extension of campus career centers, the Mississippi Department of Employment Security partners with Mississippi's Institutions of Higher Learning to offer MSGradJobs.com, an online job search application allowing students in all Mississippi postsecondary institutions (public and private universities and community colleges) to receive weekly email messages containing job matches that correlate with the students' academic majors. Students may sign up individually for this service, or they may be connected directly with the system through a

growing list of direct university and community college partners. Since the system launch in mid-2013, 3.1 million emails have been sent to 76,238 registered students representing 41 Mississippi institutions (four-year and community colleges) and over 300 out-of-state institutions in the United States and abroad.

A sister site, MSTechJobs.com, focuses on ensuring that students in Mississippi's community colleges are notified about openings in high-demand, middle-skill occupations.

Another example of coordinated outreach to postsecondary students is Get On The Grid, an initiative led by the Mississippi Energy Institute and made possible by numerous public and private partners. The initiative's purpose is to promote educational and occupational opportunities in the energy and advanced manufacturing sectors. Through its website GetOnTheGridMS.com, students can explore careers through videos and connect with training providers via a searchable database.

To address barriers to employment faced by ex-offenders, the Mississippi Department of Corrections (MDOC) and the Mississippi Department of Employment Security (MDES) partnered to create the "Employment Connections" system that enables an offender to create a pending workforce profile in the Mississippi Works Labor Exchange prior to release. Upon release, this profile goes live, and the offender is given an information sheet containing credentials to log into the system and the address of the nearest job center. MDES operates an innovative, automated Work Opportunity Tax Credit (WOTC) processing system that enables Mississippi employers to quickly apply for and receive tax credits that encourage the hiring of persons from several at-risk groups, including ex-offenders. In fiscal year 2021, more than 4,400 Mississippi employers took advantage of the WOTC program and hired more than 62,900 Mississippians within targeted populations. MDES also administers the Fidelity Bonding Program that allows employers to hire, with limited liability, justice-involved job applicants such as ex-offenders. Employers are insured for theft, forgery, larceny, or embezzlement by the bonded employee, thus reducing the barriers many employers face in hiring ex-offenders.

MDOC provides a pre-release program for ex-offenders about to be released. The program is designed to reacclimate ex-offenders with working society through monthly counseling sessions, classes to assist them with necessary job skills (e.g., Smart Start), and job development packages that include job referrals and field visits with prospective employers. Participants in the pre-release program are provided a certification of completion, referrals for basic services, and job-assistance follow-up after the first year of release.

In addition to employment services, Mississippi's workforce system offers a variety of supportive services to ensure that job seekers who face a wide variety of challenges have the resources and tools to secure gainful employment.

Local Workforce Development Boards (LWDBs), in consultation with the WIN Job Center (WJC) and other community service providers, must develop a supportive services policy that ensures resource and service coordination in the local area. The policy should address procedures for referral to such services, including how such services will be funded when they are not otherwise available from partners or other sources.

LWDBs may establish limits on the provision of supportive services or provide WJCs with the authority to establish such limits, including a maximum funding limit and a maximum length of time that supportive services are available to participants. Procedures may also be established to allow WJCs to grant exceptions to those limits.

In order to assist job seekers that face the greatest barriers to employment, Mississippi's workforce system offers services to mitigate childcare needs, transportation needs, and needs arising from disability.

- Childcare services are provided by the Mississippi Department of Human Services (MDHS) in connection with the Temporary Assistance for Needy Families (TANF) Work Program, and the Child Care Certificate Program. For participants who lose TANF eligibility due to earned income, MDHS also administers the Transitional Child Care Program to mitigate childcare barriers that may otherwise prevent these new workers from succeeding in their attempts to become self-sufficient. MDHS administers an additional federally funded program, the Child Care Certificate Program, which assists parents who meet income and work requirements in paying for preschool tuition. As part of the \$2.2 trillion economic stimulus package passed by Congress in March 2020, the Mississippi Department of Human Services (MDHS) has dedicated \$47 million to assist childcare centers during the COVID-19 pandemic.

Childcare providers were hit hard by the onset of the novel coronavirus, causing most centers to suspend operation during the crisis and left many unsure if they would be able to restart. MDHS' Division of Early Childhood Care and Development (DECCD) took immediate action to help those affected survive the shutdown. One means of doing that was using funding from the Coronavirus Aid, Relief, and Economic Security Act, otherwise known as the CARES Act.

- Transportation services are provided by MDHS, the Mississippi Department of Rehabilitation Services (MDRS), and the Mississippi Department of Transportation (MDOT). To participants in the TANF Work Program, MDHS provides transportation in the form of a bus pass or monthly work allowance. For participants who lose TANF eligibility due to earned income, MDHS also administers the Transitional Transportation Program. From October 2018 to September 2019, MDHS provided a total of \$1,561,050 to 927 participants in these programs. MDOT's transit programs provide capital assistance, operating assistance, and administration for four Federal Transit Administration (FTA) programs: 1) the Rural Area Formula Grants Program; 2) the Enhanced Mobility of Seniors and Individuals with Disabilities Program; 3) the Job Access and Reverse Commute Program; and 4) the New Freedom Program. These programs address transportation needs for low-income individuals, those living in rural areas, seniors, those needing transportation for work opportunities, and those with disabilities.
- Services to address the needs of those with disabilities are coordinated by MDRS. MDRS's Assistive Technology program assists workers and employers in applying technological solutions that enable MDRS clients to succeed vocationally. Through the Success Through Assistive Rehabilitative Technology (START) program, MDRS operates a device training and loan program and works with the T.K. Martin Center for Technology and Disability at Mississippi State University to apply a multidisciplinary approach to removing barriers that affect individuals with disabilities vocationally. MDRS also assists MDES in ensuring the accessibility of its One-Stop Centers.

The Workforce Enhancement Training (WET) fund, established by the Mississippi Legislature in 2004, provides financial support for community colleges to work collaboratively with state businesses to design and implement specialized short-term training programs to teach the skills that employees need to be productive and up-to-date in their jobs. WET Fund guidelines expressly require funds to be spent in a manner that results in "enhanced employee productivity." Job-training programs include the following:

- **Pre-employment training** allows local community colleges to deliver basic instruction to applicants. During the course of instruction, businesses evaluate the applicants to identify and hire trainees that best meet their needs.

- **Train the trainer** reimburses (limited) travel costs to businesses that send employees for specialty training not currently offered by the state's community college system. Once trained, the employees train other business employees on the learned specialty skills
- **Applicant assessment** allows community colleges to assist local businesses in evaluating the basic skills of applicants.
- **Customized training** offers the development and delivery of training that meets a specific business need via a community college trainer.
- **Customized industry-based training** allows the community college to assist businesses in identifying and securing a training provider when the training is not provided by a local college.
- **Career readiness certification** confirms to employers that an individual has the basic workplace skills and abilities required for 21st century jobs.

In recent years, partnerships between public and private entities have resulted in many successful career awareness programs. Get On The Grid and Mississippi Scholars are two recent examples.

Get On The Grid, an initiative led by the Mississippi Energy Institute and made possible by numerous public and private partners, promotes educational and occupational opportunities in the energy and advanced manufacturing sectors. Through its website GetOnTheGridMS.com, students can explore careers through videos and connect with training providers and companies via a real-time database. Get On The Grid also offers educator resources to encourage interactive career exploration in the classroom.

Sponsored by the Mississippi Economic Council (MEC) and the State Chamber of Commerce, Mississippi Scholars is a program that encourages high school students to take a more rigorous course of study, including STEM-focused coursework, to prepare for success in university coursework or technical training necessary to compete in the 21st century job market. Mississippi Scholars is managed by an MEC affiliate, The Public Education Forum of Mississippi, and benefits from partnerships with local business leaders working through local chambers of commerce and other community, business, and economic development organizations. Since its inception in 2003, the Mississippi Scholars program has recognized more than 57,725 graduates for completing the program.

MEC added a second track, Mississippi Scholars Tech Master, that recognizes high school students who take a specific course of study aimed at more immediate career-readiness in Career Technical Education (CTE). In addition to coursework, Mississippi Scholars Tech Master students must meet attendance and performance standards aimed to prepare them for either direct entry into careers or further study and certification not necessarily requiring a four-year college approach. Mississippi Scholars Tech Master has recognized more than 10,352 high school graduates since its rollout in 2014 with the Tech Master designation. Additionally, Mississippi Scholars and or Tech Master has a footprint in all 82 counties in Mississippi.

Assessing strengths, weaknesses, opportunities, and threats relating to Mississippi's current workforce development system has been an ongoing process. Beginning in 2014, a complete analysis was conducted as part of the original planning process for the state's inaugural WIOA Plan. This section narrates the original process and is augmented by interagency discussions conducted as part of the 2022 plan revision process.

After a series of meetings and input from all parties in 2014, a consensus was formed that the current workforce system is structured to:

- Deliver education and training to prepare individuals for jobs and careers.
- Upgrade, maintain, and fine-tune the skills of the incumbent workforce.
- Connect individuals to jobs and offer supportive services.
- Support business retention, expansion, and recruitment.
- Maintain and improve integration of education and workforce data in order to produce high-quality labor market information.

The partners that gathered in Fall of 2021 to consider plans for a WIOA revision reaffirmed this overall purpose, noting that over the past seven years the state has continued to keep its focus on these items, innovating in alignment with its WIOA strategy and becoming more unified in pursuing an effective system.

In 2014, there was also clear agreement on the opportunities and challenges facing Mississippi's current workforce development system. The system, it was noted:

- Contained all of the necessary elements of a future-ready workforce ecosystem: education delivery services, job placement services, supportive services, and a robust system to collect and disseminate labor market information.
- Recognized that workforce development is shared responsibility with roles for educational partners, including K-12 schools, two-year colleges, and four-year universities; workforce support services; and public and privately administered programs by employers, business and industry associations, communities, and faith-based partners.
- Provided cross-agency support services that promote education, professional development, and training, especially through the services provided by the Mississippi Department of Education, community colleges, and Institutions of Higher Learning.
- Connected people to jobs through agency services and innovative use of technology.
- Leveraged the system of Planning and Development Districts (PDDs) across the state to ensure that projects and programs are developed in line with regional long-range plans.
- Integrated community-based organizations (CBOs) into the slate of statewide services.
- MCCB created a Work-Based Learning Division to expand WBL (co-op and OJT) opportunities with college students, and also has diligently worked to expand both Registered and Nonregistered apprenticeship training programs (which are co-op or WBL).

In 2020, these strengths were reaffirmed, including an increase in the use of apprenticeships, the completion of the Mississippi digital WIOA Hub, and the connections created between all agency case management systems using the hub.

Strengths noted in 2014, by program, were as follows.

- Title I, Title III, UI, TAA, and SCSEP: The Mississippi Department of Employment Security (MDES) administers training funds for Youth, Adult, and Dislocated workers in partnership with community colleges and other training providers managed by an eligible training provider list (ETPL). These services are accessible throughout the state's four LWDAs through a network of local WIN Job Centers operated by local partners or by MDES on behalf of local partners. All case-management activities for the administration of workforce training and employment services are recorded in the Mississippi Works Labor Exchange system, bringing consistency to data collection and performance tracking. MDES provides essential labor market support services through connecting and reconnecting people with jobs. MDES provides the technological platform and expertise to bridge job seekers effectively with employers and other workforce stakeholders. Technologically, MDES leverages the strength of a web-services connection between its Unemployment Insurance case management system, ReemployMS, and its Employment Services system, the Mississippi Works Labor Exchange. The efficiencies realized by this connection between UI and Employment Services has informed the development of the Mississippi Works Common Intake and Reporting Module that will enable all Combined Plan Partners to realize the benefits of electronic referrals and electronically coordinated case management according to a common career pathway model. Another key strength of the MDES technology portfolio is its robust self-service capability that allows participants to access employment and unemployment services through web and mobile applications from any location.
- Title II, Adult Education and Family Literacy Act Programs (AEFLA): The Mississippi Community College Board delivers adult education services through a large, statewide network of contractors providing literacy, equivalency, and other training to adults in need of a high school education. AE providers work closely with community groups and local job centers to ensure that workforce area residents are aware of class availability. Key to meeting the training needs of Mississippi's workforce, AE programs have the ability to reach into rural communities and provide training toward high school equivalency prerequisites supportive of further training for middle-skill occupations. In addition, AE classes serve as an effective intake for MI-BEST training that combines equivalency training with community college workforce training.
- Title IV, Vocational Rehabilitation Services: The Mississippi Department of Rehabilitative Services (MDRS) assists Mississippians who face barriers to access the labor market through specialized training and workforce supports. MDRS professional staff provide expertise in assisting those with disabilities to enter in-demand occupations, and MDRS already assists other Combined Plan Partners in assessing the accessibility of their respective service delivery systems.
- TANF: The Mississippi Department of Human Services (MDHS) implements programs to assist individuals and families to become self-sufficient. MDHS administration of TANF cash assistance and the TANF work program helps meet the financial needs of vulnerable individuals and families while providing funds for workforce training activities and supportive services such as transportation and childcare. In addition, MDHS administers the Supplemental Nutrition Assistance Program (SNAP), a program serving about 20 percent of Mississippi's population. SNAP Education and Training funds provide support for community college training and will provide a key source of additional allocated and matching funds to assist the most vulnerable Mississippians in accessing training for in-demand occupations while providing funds to assist with food security and to overcome barriers such as childcare and transportation.

- Other Supportive Programs: The Mississippi Department of Transportation coordinates a network of public and specialized transportation agencies that help provide access to jobs, education, and training opportunities.

This vision of general and program-specific strengths has remained consistent as WIOA partners gathered to discuss the 2022 WIOA Plan revision.

In addition to strengths, analysis in 2014 identified a number of general weaknesses. The following comparison updates how the state has addressed these general weaknesses.

2014 Weakness	How the Weakness Has Been Addressed
Ineffective matching of incumbent workers and job seekers to career pathways.	To address this weakness, the state's WIOA plan articulated the Smart Start Career Pathway model. Since the initial plan, the model has been put into place to marshal all workforce, training, and supportive services toward a coherent goal of helping Mississippians succeed in the labor market.
Ineffective matching of college students with career-strengthening opportunities, such as experiential education and co-ops.	Mississippi has made great strides toward providing more and better internship and apprenticeship opportunities. See the <i>Internships</i> section above.
Suboptimal system coordination to inform training and education programs to keep them on the leading edge of workforce expectations.	Mississippi's training providers at the local level, including Community Colleges and other eligible training providers, Mississippi's Adult Education providers, and its Institutions of Higher Learning are working within established and coherent sector strategies articulated at the state level, AccelerateMS, and by LWDAs. These programs are providing credentials recognized by industry and imparting skills that are in demand by the growing and existing sectors within each local area. Innovative models such as the Golden Triangle Communiversity are bringing state-of-the-art training equipment in coordination with industrial partners who need workers trained on the latest equipment.
Competing visions and interests across sectors, programs, and agencies.	Implementation of the Smart Start Career Pathway model involved all stakeholders in a collaborative process that produced an innovative model of customer service in which each WIOA customer was asked a series of questions designed to route the customer to all relevant agency partners. For example, if a WIOA customer answered that he or she did not have a high school diploma, the electronic WIOA Hub would automatically produce a referral for the customer to a local provider of Adult Education classes. This routing or triage model gave each agency partner

2014 Weakness	How the Weakness Has Been Addressed
	the assurance that a real no-wrong-door policy would be put into practice. In addition, staff from all agency partners have been involved in cross-training events, hearing from colleagues at other agencies and providers about the services offered at each. This cross training built an awareness of the big picture and has led to a more unified vision of how Mississippians move through successive waypoints on a career pathway, made possible by education, training, and supportive services from all partners. The success of one program thus became the success of all.

In preparation for the 2022 revision, additional areas in need of improvement were noted:

- Partners have an underdeveloped strategy for coordinating contact with business and industry that could be remediated by applying the no-wrong-door approach to businesses
- There is a greater need to coordinate between the WIOA Combined state plan and the state Perkins plan
- There is an ongoing need to increase registered and non-registered apprenticeships

To address these areas, a commitment was made by partners to work under the leadership of AccelerateMS to develop strategies that can be fully articulated in a future WIOA Combined Plan update. This will include a concrete procedural and information technology approach to unifying employer engagement, additional work between education and workforce stakeholders to unify Perkins and WIOA efforts, and a greater expansion of capacity to support apprenticeships with Mississippi employers.

The state has also addressed many of the program-specific weaknesses identified during initial WIOA planning.

- Title I, Title, III, UI, TAA, and SCSEP: In 2014, these programs, administered by MDES, were administered without the benefit of technology that would allow MDES to directly refer individuals to training providers or to Combined plan partners who provide supportive services. This resulted in service discontinuities that jeopardized the clarity required for career pathways to be navigated from multiple entry and exit points. Further, while certain Title I programs required an individual employment plan, such a plan was not held in common with other state partners, limiting the capacity of the entire workforce and training system to serve participants comprehensively with an overall career goal in mind. To address these weaknesses, Mississippi built the electronic WIOA Hub. This system allows MDES staff, using the agency's case management system, to refer participants electronically to other WIOA partners. An opportunity still exists to automate referrals to all training provider types. To address the lack of a common employment plan, Mississippi's WIOA partners worked together to develop a common blueprint for a WIOA Success Plan. This plan contains an overall employment goal, a list of services needed to help the participant get to the goal, and a list of barriers for which WIOA partners provide supportive services to address. Data structures to facilitate sharing the plan across partner systems have already been implemented in the WIOA Hub and partners are currently modifying their case management systems to process and exchange the plan.

- Title II, Adult Education and Family Literacy Act Programs (AEFLA): In 2014, the state noted that AE resources, administered by the Mississippi Community College Board's network of providers, primarily consisted of instruction and training. AE customers had to be connected with services from other Combined Plan Partner programs, yet there was no electronic way to refer students nor was there a self-service option to access a career plan. As with the similar limitation faced by MDES, this weakness has been addressed as the Mississippi Community College Board has developed a system for managing referrals to and from WIOA partners through the electronic WIOA Hub. This ensures not only that AE can refer participants to other partners for services, but any participant served by a WIOA partner who lacks a high school diploma is automatically referred for Adult Education Services. MCCB continues to add functionality to their case management technology and plans to introduce self-service features in future releases.
- Title III, Wagner Peyser Services: In 2014, the Mississippi Works Labor Exchange was already a mature system that fosters connections between job center staff, participants, and employers, but it was only connected to one other partner system, the MDES Unemployment Insurance management system. Referrals to other Combined Plan Partner services were handled using paper forms, meaning that system-wide analysis of effectiveness in meeting the needs of vulnerable job seekers was difficult to automate. As with Title 1, the development of the Mississippi WIOA Hub and the connection of Mississippi Works to the Hub has resulted in the ability for MDES and local workforce center personnel to refer participants to all other WIOA partners.
- Title IV, Vocational Rehabilitation Services: In 2014, as with the other Combined Plan programs, Vocational Rehabilitation's agency-specific case management system did not interface directly with other Combined Plan Partner systems. While MDRS already provided a nearly complete combination of supportive, training, and labor market services to a certain subset of vulnerable workforce participants, there was no technology to support the connection of MDRS participants to TANF, Unemployment Insurance services, or even to the extensive labor market services provided by local WIN job centers. To remedy this weakness, MDRS worked with the vendor of its case management system to connect the system with the Mississippi WIOA Hub. Now, MDRS is able electronically to exchange referrals with all other combined plan partners.
- TANF: In 2014, there was no way for TANF case workers to create a formalized, electronic referral to a local WIN job center. This meant that TANF work requirements were sometimes met without providing candidates with career counseling from local workforce areas that took into account labor market needs or sector strategies. In addition, in 2014 TANF had no resources designed to improve participant soft/necessary skill. Through Mississippi's WIOA implementation, TANF participants now have access to the "Smart Start Pathway Class," managed by adult education providers, to address these barriers to employment. Further, case workers have access to a sophisticated case management tool that allows for the referral of TANF customers to any WIOA partner. As with other WIOA partners, MDHS's integration with the WIOA Hub has made referrals trackable and actionable; procedural gaps are minimized.

The 2021 planning process reflected on the opportunities identified during the 2014 SWOT analysis in which the following opportunities were recorded:

- To develop a responsive and proactive workforce ecosystem built on collaboration between statewide leaders, regional experts, and local developers.

- To dynamically support state and local efforts with regard to business retention, expansion, and recruitment.
- To adapt education and training programs to meet current needs and emerging opportunities.
- To develop cross-program performance metrics to enable improved monitoring of workforce development programs to gauge progress in achieving performance benchmarks.
- To expand technology to meet the unified technology requirements of WIOA and other federal initiatives.

Reflection, from the point of view of the 2021 planning process, celebrated Mississippi's success in expanding technology, the nimble way that partners have adapted education and training programs to address skill gaps, and the deepening collaboration of partners that has helped to realize the promise of many of these opportunities. The recent creation of AccelerateMS was noted as a successful fulfillment of the opportunity to view the workforce as an ecosystem built on collaboration between statewide political leadership, regional partners, and local workforce development stakeholders.

Other opportunities will be forever ongoing: Mississippi continues to pursue opportunities to leverage workforce data to support business retention, expansion, and recruitment and to increase the prominence of performance metrics used to gauge the success of the workforce system.

Partners gathered in Fall of 2021 noted that the case management strategy articulated in the inaugural WIOA plan, the Mississippi Works Smart Start Pathway Model, continues to be the proper safeguard against the threats to success that were identified in 2014, including barriers that could be created by fragmented program complexity and lack of contact between education, training, and workforce partners to adapt to changing workforce needs.

Partnerships fostered by WIOA have helped to realize the promise of the Smart Start Pathway Model. Partners did not get bogged down in complexity, but gradually implemented technology, procedural, and policy changes that resulted in increasing maturity in connectivity and effectiveness in service delivery.

The state's capacity for effective change rested in the supportive nature of its cultural and political environment, the strength of its technology and data systems, its programmatic capacity to support the success of vulnerable individuals, and the distribution of its physical infrastructure.

In 2014, Mississippi's inaugural WIOA plan introduced a vision of coordination between state, local, and organizational stakeholders that addressed previous fragmentation and fostered the development of a no-wrong-door approach to education and workforce. In 2020, to promote additional improvements in workforce training and education initiatives, Governor Reeves and the Mississippi Legislature established the new Office of Workforce Development (AccelerateMS). The charter legislation charged AccelerateMS with a mission to review existing programs; provide information, guidance, and significant influence on how funding sources

should be utilized for the purposes of workforce development; and serve as the coordinating entity for all workforce development stakeholder agencies in Mississippi.

To date, the state has developed and implemented one of the most integrated technology-based workforce systems in the country, commonly known as Mississippi Works. The system fully integrates Unemployment Insurance, Trade Adjustment Assistance, Adults, Dislocated Workers, Youth, Veterans, and the Work Opportunity Tax Credit Program. Mississippi Works is fully interoperable with other case management systems such as those in use for Rehabilitation Services, Adult Education, and Temporary Assistance for Needy Families. The state has also developed and implemented one of the country's most comprehensive and advanced integrated data systems, commonly known as LifeTracks, to advance performance-based management. The development of this system began in 2005, and the system has been fully operational since 2009. In 2012, the Mississippi Legislature created the State Longitudinal Data System (SLDS) Governing Board for the management and oversight of data sharing and data use. Board members include representatives from each workforce and education sector in the state. The SLDS Governing Board has developed a clear set of rules that define the scope of the system along with those ensuring data integrity, security, confidentiality, and privacy (see Appendix B).

Mississippi's capacity to support those with barriers to employment has greatly expanded under the Mississippi Works Smart Start Career Pathway Model. In cooperation with the Mississippi Community College Board, all Combined Plan Partners refer participants with the greatest barriers to employment to a "Smart Start Pathway Class" designed to fully assess a participant's work skills and assist the participant to overcome attitudinal or other soft-skills challenges. Further, all partners collect a basic set of diagnostic information from WIOA participants allowing for an automated assessment of participant needs. No longer are participants left to navigate the workforce or social services system alone, responsible to follow up with word-of-mouth referrals to supportive or workforce training programs. No matter which Combined Plan Partner the participant visits first, he or she is fully assessed and connected with supportive services that enables the participant to have the best possible opportunity to succeed in training for or entering in-demand occupations.

The workforce system also relies on infrastructure with multiple points of access provided by WIOA Combined Plan Partners.

WIN Job Centers. American Job Centers in Mississippi have been branded under the Workforce Investment Network (WIN) and are known as WIN Job Centers. There are 44 centers across the state, and most Mississippi residents are within 30 miles of a center. These centers provide easy access to employment services, such as education and training for workers, human resource assistance for businesses, and information for economic developers. In support of Mississippi businesses, WIN Job Centers offer a vast array of services, including providing E-Verify, hosting job fairs, posting jobs, screening potential workers, communicating meaningful data about Mississippi's labor market, and providing training services — all at no cost to businesses and workers. The "WIN in Mississippi" system gathers and produces meaningful information to identify business needs and employee skill levels.

Beyond its own physical job centers, the Mississippi Department of Employment Security serves workforce customers via e-WIN Access Points. e-WIN Access Points bring workforce services to more people in areas not served by a full-time WIN Job Center. Each location provides at least one public computer with Internet access and a trained e-WIN Access Point Ambassador to assist job candidates. These ambassadors have a personal connection to the nearest WIN Job Center management, staff, and key partners. e-WIN Access Points are available in all Mississippi Department of Human Services county offices, in some correctional facilities, and in other locations such as public libraries.

Rehabilitation Services Local Offices. The Mississippi Department of Rehabilitation Services (MDRS), Office of Vocational Rehabilitation (OVR) and Office of Vocational Rehabilitation for the Blind (OVRB) provide vocational rehabilitation services through a variety of local offices, affiliates, and itinerant teachers. MDRS operates 10 district offices and provides services through numerous physical locations throughout Mississippi. The AbilityWorks division of MDRS is a network of 17 community rehabilitation programs that provide vocational assessment, job training, and work experience for individuals with disabilities. Three MDRS work locations are WIN Job Centers.

Human Services County Offices. The Mississippi Department of Human Services (MDHS) operates through 7 programmatic divisions and has an office in all 82 counties of Mississippi. The 82 county offices are divided among 9 regions. A regional director is responsible for oversight of the counties within each region. At the state office, staff provide support for policy, procedures, training, and technical assistance needed for program administration.

In addition to county offices, the Division of Economic Assistance (DEA) of MDHS is responsible for programs that ensure nutrition and other basic needs are met for low- and medium-income individuals and families in Mississippi. The DEA has offices in each county of the state under the guidance of a county director. Staff development and training within MDHS county offices are focused on supporting professional growth by providing training programs and workshops based on the specific needs of the agency office.

MDHS also supports Mississippi Access to Care (MAC) centers. MAC centers are accessible places located throughout the state where older individuals and individuals with disabilities, as well as their families and representatives, can obtain unbiased information and assistance for locating long-term care services and applying for benefits. The centers provide a central source of reliable, objective information about a broad range of programs and services. MAC centers also help people understand and evaluate the various options available, regardless of income or eligibility, for publicly funded long-term care.

MDHS has also developed a web-based portal accessible to any agency, organization, business or individual in need to assist in locating available resources to aide in barrier mitigation. My Resources is available for use nationwide and resides on the MDHS web page and located at <https://myresources.mdhs.ms.gov>.

Adult Education Access Points. The Mississippi Community College Board (MCCB) offers Adult Education (AE) through a variety of physical locations, including 15 community colleges, three public schools, and all correctional facilities.

B. STATE STRATEGIC VISION AND GOALS

II. b. State Strategic Vision, Goals, and Strategies

1. Vision

The state's strategic vision is to create a workforce system that acts and functions as an ecosystem where all parts are connected and line up to achieve common goals and wherein

every Mississippian has the opportunity to be work- or career-ready and to secure his or her dream job right here at home.

From the moment one enters the education and workforce system, he or she will be presented with the necessary tools to choose and pursue a career pathway that is relevant to current and future labor markets.

Similarly, from the moment current and prospective businesses enter into a partnership with Mississippi's education and workforce system, resources will be immediately aligned to cultivate the sustainable, high-performance workforce critical for maintaining and expanding businesses' long-term economic viability, in turn creating better and more sustainable employment opportunities for Mississippians.

2. Goals

WIOA Combined Plan Partners will realize this vision by achieving goals to prepare an educated and skilled workforce, including preparing youth and individuals with barriers to employment and other populations, and goals to meet the skilled workforce needs of employers.

1. Work together to develop policies that will coordinate service delivery with all WIOA Combined Plan Partners to achieve a no-wrong-door approach for WIOA participants and employers.
2. Strengthen interagency partnerships.
3. Develop defined, articulated pathways across educational sectors (K-16+) to create a pipeline for the workforce.
4. Develop cross-program performance metrics.
5. Continue to invest in integrated technology to meet the unified technology requirements of the Workforce Investment and Opportunity Act (WIOA) and other federal initiatives.
6. Engage partners to establish the plan to remain abreast of changing industry needs and the metrics to measure outcomes to realize the potential of the state's workforce programs and delivery systems.
7. Draft and communicate a unified vision/message.

Goals 1, 2, 5, and 7 aim at a decrease in programmatic fragmentation in order to serve all eligible individuals and businesses in a coherent and productive way. All combined plan partners will be using the same case management playbook (The Mississippi Smart Start Career Pathway Model), backed by a common information technology system, to create a no-wrong-door approach, ensuring that individuals seeking a connection to the workforce, as they encounter any WIOA partner, will be met with services and recommendations that help to route individuals to the correct partner. Out-of-school youth, including those who are in or have aged out of the foster care system, will be routed to youth providers and those with barriers to employment will be routed to partners with services that help to overcome specific barriers to training or work. For example, a displaced homemaker or single parent visiting a one-stop job center will be provided not only with work search assistance, but also with referrals to agency partners that provide funds for childcare and funds to overcome food insecurity. Low-income individuals and those nearing an exhaustion of TANF will be connected to partners with programs that address economic insecurity while providing training and work opportunities. Adults and youth with disabilities will be connected to vocational rehabilitation services in addition to other services that increase access to training and employment. Older individuals will be connected to employment services tailored for seniors while also being connected to programs that stabilize households and provide training for a connection to the workforce. Ex-offenders will be connected to employment and training resources as a part of release activities

and, during a correctional spell, will be connected to adult education programs designed to ensure a foundation for a strong connection to the workforce. Individuals with barriers to employment because of language ability, low levels of literacy, cultural barriers, and those who lack a high school diploma or equivalent will be connected to adult education programs and immediately invited to an information session at the nearest location. Homeless adults, children, and youth will be connected to appropriate partner programs, many of which provide emergency assistance to help bring stabilizing support to acute economic or food insecurity while planning for a long-term connection to household assistance that enables training and education for work. Single pregnant women are connected to nutritional programs and any other supports necessary to ensure an opportunity for training both now and when childcare becomes a barrier to work and further training. Long-term unemployed benefit from training that addresses fundamental work skills along with industry-recognized credentials that increase the possibility of employment by meeting employer needs. Eligible migrant and seasonal farmworkers are connected not only to relevant Department of Labor programs but are referred to partners able to address barriers to work due to language or cultural barriers, economic insecurity, food insecurity, childcare, etc. Coordination between Mississippi's state WIOA agencies and local and tribal organizations ensures that all Mississippians, whether in a tribal jurisdiction, a rural location, or a metropolitan area, are connected to the same resources and have the same opportunities to gain the skills that produce a quality career pathway.

Due to the success of the no-wrong-door approach for participants, for the 2022 plan revision, partners have committed to the idea of extending a no-wrong-door approach to employer engagement as well. Over the next two years, partners will work to coordinate the management of relationships with state employers using a common case management approach backed by information technology integration. The goals of this approach are to streamline employer engagement by reducing fragmentation from multiple points of contact in the current system, and to streamline assessment of the current needs of employers and predict future workforce needs.

Goals 3 and 6 aim to produce a workforce that meets the needs of Mississippi's existing industry employers and the needs of the employers Mississippi hopes to attract to do business in the state. Mississippi's use of longitudinal data informs its approach to articulate pathways to the workforce. Mississippi's K-12 has created a structure of career clusters and occupational pathways that guide a student's academic work. In partnership with K-12, Mississippi's community and junior colleges have created dual enrollment opportunities so that students in high school gain credit toward real work-ready credentials prior to graduation and transition to subsequent two-year or four-year programs designed to complete the student's work-readiness in his or her chosen pathway. Mississippi's institutions of higher education have created bachelor's programs in "applied science" that meet the needs of employers to train those with industry-recognized credentials in the advanced skills necessary to ascend to management or leadership positions within organizations. Employer participation in the State Workforce Investment Board provides WIOA partner agencies with a constant source of feedback on the effectiveness of the state's attempt to produce a skilled and educated workforce.

Goals 4, 5, and 6 aim to ensure that Mississippi's attempts to create a skilled workforce are measurable. Investment in technology goes beyond its real-time application in case management and includes ongoing and retrospective analysis of outcomes so that performance can be measured. Outcomes are measured in terms of two standards—federally prescribed performance measures and measurements articulated by the state. In 2021, the legislation that created AccelerateMS charged this statewide workforce development office with the responsibility to recommend comprehensive, results-oriented measures that will apply to all of Mississippi's workforce development system. To support these measurements, Mississippi continues to invest in its longitudinal data system, LifeTracks, that brings together administrative data from all WIOA partners and educational institutions in a well-governed,

secure clearinghouse that enables performance measure calculations, cohort analysis, and strategic planning.

3. Performance Goals

In order to assess performance a full four quarters after program exit, projected baseline figures for WIOA core programs were based on available data from the most recent quarters.

WIOA mandates six performance measures, as identified in Appendix G, for its core programs. Performance number baselines were calculated using the following methodology:

- **Employment, Quarter 2.** This employment measure is the percentage of participants who are in unsubsidized employment during the second quarter after exit from the program in question; the measure for youth also includes the percentage who were in education or training activities during the second quarter after exit.
- **Employment, Quarter 4.** This employment measure is the percentage of participants who are in unsubsidized employment during the fourth quarter after exit from the program in question; the measure for youth also includes the percentage who were in education or training activities during the fourth quarter after exit.
- **Median Earnings, Quarter 2.** This measure identifies the median earnings of participants who are in unsubsidized employment during the second quarter after exit from the program.
- **Credential Attainment Rate (except Wagner-Peyser).** The credential attainment rate is expressed as the percentage of participants who obtained a recognized postsecondary credential or a secondary school diploma, or its recognized equivalent, during participation in or within one year of exit from the program. A participant who has obtained a secondary school diploma or its recognized equivalent is only included in this measure if the participant is also employed or is enrolled in an education or training program leading to a recognized postsecondary credential within one year after program exit.
- **Measurable Skill Gains (except Wagner-Peyser).** Measurable skill gains are expressed as the percentage of participants who, during a program year, are in an education or training program that leads to a recognized postsecondary credential or employment and who are achieving measurable skill gains, which are defined as documented academic, technical, occupational, or other forms of progress toward such a credential or employment.
- **Effectiveness in Serving Employers.** Per current WIOA requirements, Mississippi has chosen two of three options proposed for measuring effectiveness in serving employers for data collection and reporting: employee retention rate and repeat business customer rate.

Other measures for which baseline calculations are not required to be computed in this document are:

- **Measurable Skill Gains (except Wagner-Peyser).** Measurable skill gains are expressed as the percentage of participants who, during a program year, are in an education or training program that leads to a recognized postsecondary credential or employment and who are achieving measurable skill gains, which are defined as documented academic, technical, occupational, or other forms of progress toward such a credential or employment.
- **Effectiveness in Serving Employers.** Per current WIOA requirements, Mississippi has chosen two of three options proposed for measuring effectiveness in serving employers

for data collection and reporting: employee retention rate and repeat business customer rate.

Agencies administering the WIOA core programs will be required to provide data for WIOA federal reporting, and AccelerateMS may establish other metrics to be used internally for strategic planning.

Appendix G contains projected performance numbers for PY2022 and PY2023.

4. Assessment

To assess progress towards achieving each of its seven goals, Mississippi will consider both system and long-term individual outcomes.

Assessing Goal 1, “Work together to develop policies that will coordinate service delivery with all WIOA Combined Plan Partners,” and Goal 2, “Strengthen interagency partnerships”: Progress towards achieving Goals 1 and 2 will be assessed by system-level analysis to determine whether clear policies exist to coordinate service delivery from all partners to serve individuals. At the individual level, measuring the degree of co-enrollment in programs will be a key metric by which Mississippi assesses the effectiveness of these policy efforts. System analysis takes place in the context of regular meetings of WIOA partner leadership and regular State Workforce Investment Board meetings that include additional strategic and business partners. These meetings provide the opportunity to gauge whether policies are hindering or helping coordination of service and whether policies are strengthening or weakening the partnerships that ensure workers are connected to education, training, employment, and supportive services necessary for a connection to the workforce. Measuring the degree of co-enrollment of individuals takes place through Mississippi’s WIOA Hub that keeps a record of every partner-to-partner referral and service enrollment.

Assessing Goal 3, “Develop defined, articulated pathways across educational sectors (K-16+) to create a pipeline for the workforce,” and Goal 6, “Engage partners to establish the plan to remain abreast of changing industry needs and the metrics to measure outcomes to realize the potential of the state’s workforce programs and delivery systems”: Measuring progress towards the achievement of Goals 3 and 6 chiefly involve the use of longitudinal data analysis. The closer the workforce investment system in Mississippi comes to achieving goals 3 and 6, the more we expect to see a match in expectations between employers and education/training providers. Employer needs will be measured through labor market analysis of demand by occupation. These needs will be compared to the pipeline of labor supply from secondary, post-secondary, and workforce training providers. Gaps in supply will be identified and this assessment will inform the efforts of policy makers, educators, and employers to address progress towards these goals.

Assessing Goal 4, “Develop cross-program performance metrics”: Measuring progress towards the achievement of Goal 4 is accomplished by noting whether governance has been established to create metrics, the presence or absence of cross-program performance metrics, and the effectiveness of these measurements in guiding positive system change. As a starting point, Mississippi used the WIOA-prescribed individual performance measures described above in II.b.3 across all programs. These measurements are currently calculated even for Mississippi’s human services partner that does not currently have a federal reporting requirement under WIOA that necessitates the creation of a Personal Information Record Layout (PIRL) file. In addition to measures of individual performance, Mississippi’s WIOA partners have, in their regular coordination meetings, been informed by metrics that calculate the number of referrals passing between each partner and electronically recorded in the state’s WIOA Hub technology. A further step has been taken in 2021 to address the creation of a governance structure to

define in-state metrics by creating AccelerateMS and charging the office with responsibility to articulate workforce performance metrics.

Assessing Goal 5, “Continue to invest in integrated technology to meet the unified technology requirements of the Workforce Investment and Opportunity Act (WIOA) and other federal initiatives”: Measuring progress towards the achievement of Goal 5 has been accomplished by the articulation of a maturity model for WIOA integration. First, the state created the common case management technology, the WIOA Hub. Then, each agency partner modified its case management system to interact electronically with a central WIOA Hub technology. Each partner measures the maturity of its integration in terms of five levels. Level 1 means that a WIOA partner system is capable of making electronic referrals to other partners and of recording participant responses to a diagnostic questionnaire used to route participants for appropriate services. At Level 2, the partner system is able to send and receive updates to participant profile records. Level 3 adds the ability for the partner system to register any service provided to the participant with the hub. Level 4 means that the partner system can exchange data with the hub relating to assessments administered to the participant and credentials earned by the participant. At the highest level of maturity, Level 5, the partner system is capable of exchanging the participant’s interagency success plan with the interagency hub.

Assessing Goal 7, “Draft and communicate a unified vision/message”: Measuring progress towards communicating a unified vision and message has historically been a qualitative, system-wide measurement based on partner interactions with participants and employers. A striking illustration of Mississippi’s recent progress in crafting a unified message is in the creation of AccelerateMS to unify all workforce development efforts in the state. AccelerateMS has been given the responsibility to articulate performance metrics for all aspects of workforce development, including the development of a more quantitative approach to measuring the extent to which employers and participants feel as though they are being served by an ecosystem that presents a unified vision and message.

C. STATE STRATEGY

Work Together to Develop Policies That Will Coordinate Service Delivery with WIOA Combined Plan Partners

Policies are developed to determine functionality of the entire ecosystem. These policies determine the allocation of funding toward shared service delivery and infrastructure costs.

AccelerateMS will work with a planning and communications group comprised of executive directors from each of the WIOA Combined Plan Partners identified in this plan and other workforce stakeholders.

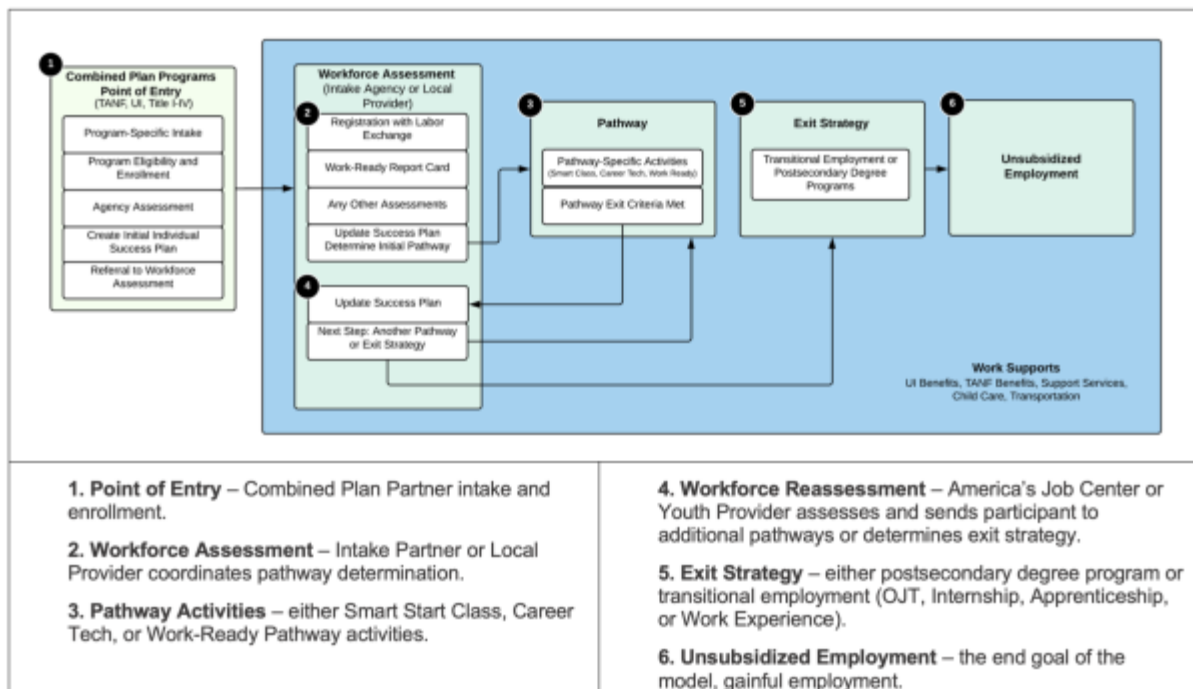

Local workforce development boards are responsible for certification, operation, and oversight of the One-Stop Centers. Memorandums of understanding (MOUs) detail each partner’s role, the resources provided, and expectations for the One-Stop Center.

There are two main strategies to address this goal. The first strategy creates career pathways that provide different on- and off-ramps for job seekers with different needs. The second reimagines the state’s workforce and supportive services delivery system.

Figure 14 presents the flow of the career pathway model that has strengthened interagency partnerships. This model is known as the Mississippi Works Smart Start Career Pathway Model. The model includes six steps designed to synchronize activities within and between Combined Plan Partners. Operationalizing the model requires the use of a unifying technology infrastructure that allows all agencies to make and receive inter-agency referrals and manage

common case data (see “State Operating Systems and Policies” below). The model may be described procedurally as follows:

Figure 14: Mississippi Works Smart Start Career Pathway Model

Step 1: Point of Entry - All participants enter the Mississippi Works Smart Start Career Pathway Model through a Combined Plan Partner’s intake. For example, a participant may visit a local Mississippi Department of Human Services (MDHS) office and begin speaking with a staff member about the TANF program. Combined Plan Partners perform intake procedures to collect two types of information: (1) basic registration information used to determine program-specific eligibility and support WIOA reporting and (2) answers to a diagnostic instrument composed of questions submitted by each Combined Plan Partner. Next, the partner performs an agency-specific assessment of the participant’s immediate needs and works with the participant to create an initial Individualized Success Plan. This initial Individualized Success Plan outlines the Combined Plan Partner services, describes supportive services, and tentatively identifies the subsequent pathway that will bring the participant from his or her current state of work-readiness to unsubsidized employment. The Individualized Success Plan may contain referrals to other Combined Plan Partner programs or Strategic Partner programs.

A participant becomes part of the Mississippi Works Smart Start Career Pathway Model when a Combined Plan Partner enrolls the eligible participant into a Combined Plan Partner program such as UI benefits or TANF. From that point forward, all the resources of Mississippi’s workforce system will be aligned to efficiently support the participant in a process designed to bring the participant through a pathway that leads to a career.

After a participant receives Combined Plan Partner services and is ready to consider work and pathway options, the partner will ensure that the participant receives a workforce assessment that helps the participant align his or her occupational goals to labor market realities. For some partners such as Unemployment Insurance or TANF, enrollment in and referral to workforce assessment will occur in rapid succession. For other partners, such as the Mississippi Department of Rehabilitation Services, agency services may require an extended period of time to bring the participant into a state of readiness for workforce assessments. The Mississippi Works Smart Start Career Pathway Model accommodates the differences between partner agencies necessitated by each partner’s mission.

Step 2: Workforce Assessment – Once he or she is ready for a workforce assessment, the participant may be referred to a local One-Stop Operator or Youth Provider, or if the intake agency has the internal capacity to provide workforce assessment services, he or she may immediately receive these services from the intake agency. Assessment will include registration into the Mississippi Works Labor Exchange, system generation of a Career-Ready Report Card, and revisiting the participant's Individualized Success Plan in order to specify entry into one of three defined career pathways. This assessment may also include an approved work-readiness assessment instrument as needed.

Step 3: Pathway Activities - The Mississippi Works Smart Start Career Pathway Model includes three main pathways:

- **Smart Start Pathway Class** - Participants requiring the most intensive assistance to become job-ready are referred to the Smart Start Pathway Course. The Smart Start Pathway Course is a 45-hour course of study focusing on essential skills needed to become work- or career-ready in middle-skill jobs by addressing the needs identified by employers. The goal of this class is to further identify participant barriers to self-sufficiency. Participation in the Smart Start Pathway Class requires individuals to commit to an assessment process that models a typical work environment and includes an opportunity to develop good workplace habits. Failure to meet program requirements as a result of extenuating circumstances (e.g., drug and alcohol abuse, physical abuse, psychological abuse, etc.) that emerge during the class could cause the participant to exit the Smart Start Pathway by referral to specific treatment resources. The participant may then reenter the Smart Start Pathway after treatment. The Smart Start Pathway Course is also designed to train and educate individuals in need of basic education and job-readiness skills. Pathway activities indicated by the participant's Individualized Success Plan may include Adult Education classes or enrollment in a high school equivalency program. Exit criteria for the Smart Start Pathway Course includes certain scores on approved assessment instruments.
- **Career Tech Pathway** - The Career Tech Pathway is designed to provide technical and career training and education in high-demand job skills or specific job skills that fit the current or future needs of local labor markets. Entry into this pathway is determined by a work-readiness assessment. Based on the assessment, recommended workforce preparation activities for an individual may include enrollment in the Mississippi Integrated Basic Education and Skill Training (MI-BEST) program or in a community college to work toward a postsecondary degree or credential. Necessary skill attainment activities may also be recommended for individuals in this pathway. Exit criteria for the Career Tech Pathway may include the attainment of certain industry-recognized credentials approved by the State Workforce Investment Board, Mississippi Community College Board, or the Mississippi Department of Education or certain scores on approved assessment instruments.
- **Work-Ready Pathway** - The Work-Ready Pathway is designed for individuals who possess both basic skills and a level of academic and/or technical skill that place them in a position to enter directly into the workforce. These individuals will begin interactive work search immediately after generating an Individualized Success Plan. Other activities available to individuals in this pathway include job referrals, resume preparation, interview techniques, and other professional development training activities.

Step 4: Workforce Reassessment - Upon completion of activities in any pathway and meeting the pathway's exit criteria, participants will meet again with either the intake agency or the coordinating One-Stop Center or Youth Provider to reassess the current Individualized Success Plan and determine the participant's next step. Assessment may be conducted using a work-

readiness test or by other criteria. Pathway completers are then directed to another pathway (e.g., a participant who completes the Smart Start Pathway Class will often be referred to the Career Technical Pathway) or to an exit strategy that will transition the participant from the Mississippi Works Smart Start Career Pathway Model into unsubsidized work.

Step 5: Exit Strategy - Participants who have satisfactorily exited from any pathway, in consultation with the intake partner or the coordinating One-Stop Center or Youth Provider, may then be directed to an exit strategy such as transitional employment programs or postsecondary degree programs. Transitional employment programs such as subsidized work experience, internships, or on-the-job training give participants the work experience that is vital for entering or reentering the labor market. Because the Mississippi Works Smart Start Career Pathway Model aims to be a true K-16 pathway, the model also accommodates exit strategies for participants who emerge as capable of either two- or four-year postsecondary degree work to prepare for in-demand occupations. For example, a youth participant may reconnect with the education and training system via the Smart Start Pathway Class and become ready for further degree work at one of Mississippi's community colleges. Some participants (e.g., those on the Work-Ready Pathway) may be ready to enter unsubsidized employment directly and may not require a transitional exit strategy.

Step 6: Unsubsidized Employment - Participants who successfully complete an exit strategy are supported throughout their journey with the Mississippi Works Smart Start Career Pathway Model. They have marketable specialized skills and basic and necessary skills and are ready to work. Their Individualized Success Plans may be revisited at any time, but they will have been reconnected with the incentives and benefits that come through gainful employment.

The Mississippi Works Smart Start Career Pathway Model sets forth the general shape of the coordination of Combined Plan Partner programs and Strategic Partner programs under Mississippi's WIOA implementation. To make this model a concrete reality, the operational section of this Combined Plan details how Mississippi will commit technological, physical, administrative, and financial resources to ensure that partners have a workable operational framework.

One-Stop Center Delivery System. The One-Stop Center delivery system is one key to the success of the Mississippi Works Smart Start Career Pathway Model. Mississippi One-Stop Centers (America's Job Center locations) are managed by local workforce development boards according to policies set by the Mississippi Department of Employment Security.

The unified intake process of the Mississippi Works Smart Start Career Pathway Model allows for more organized enrollment, formalized referrals to partner programs, and co-delivery of services. The procedures and physical environment of a restructured One-Stop Center model supports the goals of the pathway system and the needs of each local area and are a physical manifestation of the procedures established for intake and referral in the Mississippi Works Common Intake and Reporting Module (WIOA Hub).

Three types of caseworkers assist job seekers in the revised One-Stop Center model: cross-trained counselors, walk-around counselors, and partner counselors. Cross-trained counselors received training designed by the State Workforce Investment Board that provides an understanding of the full portfolio of support and training services administered by all Combined Plan and Strategic Partners. Walk-around counselors receive specialized training in how to assist job seekers to use the Mississippi Works Labor Exchange and staff One-Stop resource rooms, monitor participant use of the Mississippi Works Labor Exchange, and offer assistance and guidance as needed. Other Combined Plan Partner counselors correspond to current single-agency counselors who are specially trained to understand the intricacies of individual agency programs.

When a job seeker enters a One-Stop Center, he or she is greeted and directed to an appropriate starting point:

1. New customers are assigned to a computer workstation in the center's resource room. Staff assist the customer with accessing the Mississippi Works Labor Exchange online system, and the customer begins the process of registration and profile creation.
2. Existing customers seeking caseworker assistance are directed to a cross-trained counselor who accesses the customer's account to assess the customer's current status, update the customer's career plan, and collaborate with the customer to help redirect the customer toward reemployment activities or create referrals to partner counselors from other WIOA Combined Plan Partners.
3. Existing customers seeking to use the resource room are assigned a workstation, and walk-around counselors ensure customer activities are likely to result in effective work search.

New customers who have registered, received a Work-Ready Report Card, and created an Individualized Success Plan may then be referred back to a cross-trained counselor who accesses the participant's newly created profile in Mississippi Works and determines next steps based on the participant's Individualized Success Plan.

If the participant's Individualized Success Plan indicates a need for referral to other Combined Plan Partner programs, the cross-trained counselor may assist the participant in connecting directly with relevant partner counselors. Combined Plan Partner counselors receive these referrals via staff dashboards and may act upon referrals by contacting the participant and starting processes that may result in enrolling the participant in additional programs based on agency-specific eligibility determination. Referrals are assigned the status of "pending" upon creation, and all WIOA Combined Plan Partners have the ability to create a referral to another partner. Referrals generated in a One-Stop Center are visible to that center's counselors, and referrals generated automatically through self-service are addressed by the One-Stop Center or Combined Plan Partner office nearest to the participant's address.

After referrals are made, the client meets with case managers from all relevant programs to determine the supportive services necessary to lead the client to gainful employment. Ideally, all meetings with Combined Plan Partners take place in a single visit that begins with registration and ends with a clear sense of how to take the next steps included in the Individualized Success Plan. If meetings must be scheduled on subsequent days, the Mississippi Works Labor Exchange system sends automated reminders to participants about upcoming meetings.

Under Mississippi's WIOA implementation, the One-Stop Center system includes five models of service delivery: 1) Comprehensive One-Stop Centers, 2) Affiliate One-Stop Centers, 3) Virtual Access One-Stop Centers, 4) Call Center Support, and 5) Sector Training Plus Comprehensive One-Stop Centers.

- **Comprehensive One-Stop Centers** - Comprehensive One-Stop Centers physically house the consortium of Combined Plan Partners designated by the State Workforce Investment Board (SWIB) and local workforce development boards (LWDBs). One staff member from each of the Combined Plan Partners is co-located in each of the comprehensive centers. Each of the four LWDBs will house at least one Comprehensive One-Stop Center that provides access to the services of the Combined Plan programs and other partners. Decisions to create additional Comprehensive One-Stop Centers beyond the required four centers will be made by all Combined Plan Partners. Each Comprehensive One-Stop Center is strategically designed to meet the workforce needs of the job seekers and employers based on the geography, population, and industry requirements of the area. Comprehensive One-Stop Center staff are expected to have a working knowledge of all programs and services offered through the One-Stop Center

and be able to provide clients with the information necessary to make informed decisions.

Within a Comprehensive One-Stop Center, cross-trained staff provide fully assisted service to all participants, including but not limited to assisting clients in Mississippi Works Labor Exchange profile development, providing knowledge about individual programs, and referring clients to the appropriate resources. Comprehensive One-Stop Centers also include computer stations that provide virtual, self-service access to workforce and education resources. Additionally, all Comprehensive One-Stop Centers provide career services and access to training services.

All One-Stop Center clients, regardless of core service eligibility, have access to general career services. These services include eligibility of services, outreach, intake and orientation, initial assessment, labor exchange services, referrals to programs, labor market information, performance information, training cost information, supportive service information, unemployment insurance information and assistance, financial aid information, and follow-up services.

Comprehensive One-Stop Centers are also required to provide access to training services aligned with regional sector strategies. These services may include occupational skills training, on-the-job training, incumbent worker training programs that combine workforce training with related instruction, skill upgrading and retraining, entrepreneurial training, transitional jobs training, job-readiness training provided in combination with other training, Adult Education and literacy activities, and customized training.

Additional services may be provided to clients if cross-trained staff determine the services to be appropriate for an individual to obtain or retain employment. These services include comprehensive assessment, individualized career plan, career planning and counseling, short-term prevocational services, internships and work experience, workforce preparation activities, financial literacy training, out-of-area job search, and English language acquisition.

In the time since the WIOA plan was first submitted, all four workforce development areas have successfully established comprehensive centers.

- **Affiliate One-Stop Centers** - Unlike the Comprehensive One-Stop Centers, Affiliate One-Stop Centers do not require a staff representative from all of the WIOA Combined Plan Partners. However, each Affiliate One-Stop Center must include staff from at least two Combined Plan Partner programs. The primary purpose of Affiliate One-Stop Centers is to provide the core services that will meet the needs of local areas while maintaining a direct lifeline to the larger comprehensive centers.

The flexibility of the Affiliate One-Stop Center structure allows for the unique, customized inclusion of multiple access points. Access to services within affiliate centers may include fully assisted service, partially assisted service, self-service, or a combination of all three. Fully assisted service describes one-on-one assistance with a qualified, cross-trained counselor. Partially assisted service involves the presence of a trained counselor who may provide assistance if necessary but who is not required to provide one-on-one support. Affiliate centers may also include computer stations to facilitate self-service access. Self-service access simply requires Internet access and does not include the assistance of trained counselors or staff.

- **Virtual Access One-Stop Centers** - A key mode of service delivery is virtual access. In line with the concept of a universally accessible workforce system, virtual access provides participants with self-service access to services of the core programs and partners via the Internet. As long as an individual has Internet access through a computer or mobile phone, he or she can connect directly to the services provided through One-Stop Centers.

- **Call Center Support** -For participants who lack computer access, the Mississippi Department of Employment Security operates a call center staffed to assist with most One-Stop services.
- **Sector Training Plus Comprehensive One-Stop Centers** - One aspiration of the Mississippi Works Smart Start Career Pathway Model is the development of Sector Training Plus Comprehensive One-Stop Centers throughout the state that cater, especially to sector-related training needs. These Sector Training Plus Comprehensive One-Stop Centers will provide access to all of the services represented in the comprehensive centers as well as sector-focused workforce training. These centers will be strategically placed according to sector needs across the state, as industry sector labor sheds often overlap the boundaries of workforce areas.

Mississippi's revised One-Stop Center model, and especially the Comprehensive One-Stop Center, serves as a physical expression of the Mississippi Works Smart Start Career Pathway Model, but participants who first encounter the system via self-service, Combined Plan Partner offices, or even through informal referrals from Strategic Partners still receive a consistently high level of service coordinated to produce outcomes with efficiency and without duplication of effort.

One-Stop Center Staff Training. Within the reimagined One-Stop Center, employees and staff are required to know essential characteristics of the services offered by all Combined Plan Partner and Strategic Partner programs. Cross-program professional development provides working knowledge about individual programs, specific contact information for area experts (communication plan), and the relationships among programs. To accomplish this task, all Combined Plan Partners developed easy-to-reference fact sheets to be compiled into a resource page accessible in the Mississippi Works Labor Exchange system. A strategic plan to distribute resources and provide training to One-Stop Center staff were developed and implemented by curriculum experts. Training resources are made available through the Mississippi Works Labor Exchange system to facilitate training at local offices. As programs and policies change, this adaptable online training program provides ongoing training opportunities to staff. This continuing education model, Mississippi Works University, helps maintain an individual staff member's understanding of the Mississippi workforce ecosystem and support his or her growth within the system.

Additional Physical Access Points. In order to reach more Mississippians and improve access, Mississippi Department of Human Services county offices and community colleges are used along with existing job centers to provide access to counselors who are familiar with the Mississippi Works Smart Start Career Pathway Model. With the combined network of MDHS county offices, One-Stop Centers, community colleges, and correctional facility access points, no Mississippian is more than 30 miles from a physical location where they may get help in securing gainful employment.

Developed Defined, Articulated Pathways across Educational Sectors (K-16+) to Create a Pipeline for the Workforce

To effectively define career pathways, Mississippi will pursue sector strategies. The state has identified sectors that fall naturally within geographic regions. All employers in the regions will be enrolled in Mississippi Works so that job postings are made available in real time to education and training providers. The state economic development agency—the Mississippi Development Authority—and the Mississippi Economic Development Council (MEDC) have existing partnerships that bridge employers and education and training providers across the state. Community colleges function as an intermediary to coordinate the alignment of K-16 with employer needs in the region, state, and beyond.

A second strategy to create a pipeline for the workforce is to align job seekers with Registered Apprenticeship Programs (RAPs). RAP is an industry-driven, high-quality, customizable, earn-as-you-learn career pathway training model that includes five key components that differentiate it from other work-based learning career and training services utilized in Mississippi. RAPs require:

1. **Business involvement.** Employers are the foundation of every apprenticeship program and the skills needed by their workforce are at the core. Businesses must play an active role in building the program and be involved in every step in designing the apprenticeship.
2. **On-the-Job Training.** Every program includes structured on-the-job training. Apprentices get hands-on training from an experienced mentor at the job site for typically not less than one year. On-the-job training is developed through mapping the skills and knowledge that the apprentice must learn over the course of the program in order to be fully proficient at the job.
3. **Related Instruction.** Apprentices receive related instruction that complements on-the-job learning. This instruction delivers the technical, workforce, and academic competencies that apply to the job. It can be provided by a community college, a technical school, or an apprenticeship training school – or by the business itself. Education partners collaborate with business to develop the curriculum based on the skills and knowledge needed by apprentices. All partners work together to identify how to pay for the related instruction, including the cost to the employer and other funds that can be leveraged.
4. **Rewards for Skill Gains.** Apprentices receive increases in pay as their skills and knowledge increase. Participants start by establishing an entry wage and an ending wage, and build in progressive wage increases through the apprenticeship as skill benchmarks are attained by apprentices. Progressive wage increases help reward and motivate apprentices as they advance through their training.
5. **National Occupational Credential.** Every graduate of a Registered Apprenticeship program receives a nationally-recognized credential. As apprenticeship programs are developed, they are designed to ensure that apprentices master every skill and have all the knowledge needed to be fully proficient for a specific occupation.

The State has received four cycles of Registered Apprenticeship (RA) Grant funding since 2016. The first two cycles included the Accelerator and Expansion Grants. The Mississippi Apprenticeship Program (MAP) received a third cycle of continuation funding for the State Apprenticeship Expansion Grant (SAE) and also received funding through the Apprenticeship State Expansion Grant (ASE). The Mississippi Department of Employment Security (MDES) will continue to expand RAPs in Mississippi through the MAP initiative. MAP is positioning RAPs as a viable pathway that aligns Mississippi's workforce and educational systems, strengthens economic competitiveness for our businesses, and makes good-paying jobs more accessible for our citizens. The three major project goals of the initiative are to expand RAP Sponsors, expand state capacity to support RAPs, and target and increase the participation and completion rates of diverse populations in RA. All RAPs are subject to training provider eligibility procedures.

As a strategy to address the goal of increasing the participation of underrepresented populations, The Mississippi Office of Apprenticeship will work to leverage the community college system by using community college sponsor contacts and Student Navigators involved in the Mississippi Integrated Basic Education and Skills Training (MI-BEST) initiative to conduct and coordinate outreach, recruitment, and support of underrepresented populations in RA programs. MI-BEST is an evidence-based, integrated pathways initiative being implemented by all 15 community colleges. Students in MI-BEST concurrently enroll in a) High School

Equivalency (HSE) preparation classes if they lack a high school credential or academic skills (reading, writing, math), b) enhancement classes if they do have a high school credential offered by the college Adult Education (AE) programs, along with c) occupational training provided by the college's credit-level Career and Technical Education programs or the Workforce Education divisions. MI-BEST programs are being implemented in over 60 occupational pathways across the colleges, and 44% of these programs are in the advanced manufacturing and automotive sectors. Colleges hire full-time Student Navigators who recruit and work to retain students in MI-BEST. The Student Navigator at each college receives training about the navigation role, interfaces regularly with the faculty in the program, and many also engage with employers to help students access apprenticeships or employment opportunities. Each Navigator develops a Support Services Toolkit identifying the internal college and external student support resources available in their region, including WIOA-funded services and federal financial aid resources. Community College Sponsor contacts and MI-BEST Student Navigators can closely follow each participant to monitor their progress and aid in the removal of any barriers to successful completion. Working collaboratively with the WIN Job Centers' case managers, Community College Sponsor Contacts and MI-BEST Student Navigators will be well positioned to serve as the "recruitment and support services hub" to identify potential participants, along with existing, and perhaps underutilized, resources that are currently not well coordinated to maximize their benefit to Registered Apprentices. The Navigators can leverage relationships with other college student support personnel and external workforce system support service partners to address barriers to apprenticeship entry and retention, such as lack of a high school credential, childcare, transportation, or other obstacles. Working with MI-BEST Student Navigators as a "recruitment point person" provides a more efficient way for RA program sponsors to communicate selection standards to multiple organizations seeking to prepare participants for entry into these programs.

Another strategy is to align sector strategies with secondary career technical education initiatives to advance career pathways for high school graduates. Following recommendations from the Council of Chief State School Officers (CCSSO), the Mississippi Department of Education (MDE) has adopted a framework to enhance its career technical education programs to prepare high school graduates for post-secondary credentialing and, ultimately, for high-skill, high-demand jobs in the state. The focus of this framework is to line up workforce needs with secondary and postsecondary student preparation. As a result, a seamless system of career education and labor market opportunities for high school students can be developed in line with sector strategy goals of the state.

An additional strategy is to identify internship opportunities with employers across the state. The Institutions of Higher Learning board has already developed a central office to coordinate these efforts and has contacted several businesses to identify critical areas for which employers would like to have interns. The state has also modified its technology to allow employers to post internships on the Mississippi Works Labor Exchange. Currently, in the high-growth, high-demand sectors, the typical areas that employers identify as critical for internships include engineering and management.

In addition to existing eligible training provider required reports, three data tools will be developed to fully assess overall performance of the state workforce system: dashboards, pathway evaluators, and supply and demand analysis.

Dashboards. Dashboards will help answer questions such as the following: do participants complete skill training? Do they get jobs? How much do they earn? Creating these dashboards will help identify programs that have strong outcomes and warrant expansions as well as those that have weak outcomes and are in need of improvement or reevaluation.

Pathway Evaluator Tools. Pathway evaluator tools help answer two important questions. First, do people with different needs have sufficient access to appropriate programs? Second, what pathways achieve the best employment and earnings outcomes for job seekers with different training and educational needs and varying life and work experiences? For example, some individuals who might seek training might have been laid off after several years in the workforce, whereas others might be preparing for their first job or postsecondary education. Still others might be pursuing training during or after work to improve their skills.

Creating these pathway evaluator tools will help identify strategies that will best align supporting services, education, and training to prepare individuals with different needs for middle-skill jobs. Ultimately, this will help determine the extent to which the Mississippi Works Smart Start Career Pathway Model allows programs to work together to help people with different needs.

Supply and Demand Analysis. Supply and demand analyses helps address questions about skill gaps and provide information to direct resources so that they better meet employer demand. This type of analysis will assess the extent to which education and training systems are aligned with economic strategies and growth of economic opportunities in the state.

As part of this strategy, the state leveraged existing case management systems in use by agency partners and connected them to a newly-created common data hub to support a common intake profile, catalog of services, interagency case management functionality, and an integrated physical data model for performance measures. In doing so, the state is better able to align programs and services and improve the efficiency of the system as a whole. Mississippi has met its initial WIOA goal of creating a fully integrated state WIOA data hub system that is able to respond in real time and is continuing to add functionality to state systems to take advantage of the common data hub. The state is also pursuing activities that will result in a more real-time approach to performance reporting.

Engage Partners to Establish the Plan to Remain Abreast of Changing Industry Needs and the Metrics to Measure Outcomes to Realize the Potential of the State's Workforce Programs and Delivery Systems

This strategy will include three components. One component is to further develop the AccelerateMS branding of the state workforce system as a marketing tool for workforce and economic development. The second component is to improve awareness of the opportunities and resources the system provides to job seekers and employers to increase confidence in the value proposition of the system. The third component consists of creating awareness of career opportunities early in the K-16 pipeline. Combined, these components will create a holistic image of the system through a unified message.

This strategy capitalizes on the state's investment in State Longitudinal Data System infrastructure where research questions and policy can be developed. The state has already created the scientific capacity that creates basic knowledge to inform continuous system improvement. This capacity expands as state leaders, AccelerateMS, agency partners, training and education partners, employers, and other stakeholders identify critical research areas important to the economic development of the state.

III. OPERATIONAL PLANNING ELEMENTS

A. STATE STRATEGY IMPLEMENTATION

1. STATE BOARD FUNCTIONS

In accordance with section 101(d) of WIOA, the Mississippi State Workforce Investment Board (SWIB), and the Office of Workforce Development (AccelerateMS), performs the following services for the Governor:

1. Development, implementation, and modification of the state plan.
2. Collaboration with educational boards (MBE, MCCB, IHL), partners, and service providers to review statewide policies, statewide programs, and recommendations on actions that should be taken by the state to align workforce development programs in a manner that supports a comprehensive and streamlined workforce development system, including the review and provision of comments on state plans.
3. Collaboration with educational boards (MBE, MCCB, IHL), partners, and service providers in the development and continuous improvement of the workforce development system in the state, including:
 - Identification of barriers and means for removing barriers to better coordinate, align, and avoid duplication among the programs and activities carried out through the system.
 - Development of strategies to support the use of career pathways for the purpose of providing individuals, including low-skill adults, youth, and individuals with barriers to employment (including individuals with disabilities), with workforce investment activities, education, and supportive services to enter or retain employment.
 - Development of strategies for providing effective outreach to and improved access for individuals and employers who could benefit from services provided through the workforce development system.
 - Development and expansion of strategies for meeting the needs of employers, workers, and job seekers, particularly through industry or sector partnerships related to in-demand industry sectors and occupations.
 - Identification of regions, including planning regions, for the purposes of section 106(a), and the designation of local areas under section 106 after consultation with local boards and chief elected officials.
 - Development and continuous improvement of the One-Stop Center delivery system in local areas, including providing assistance to local boards, One-Stop operators, One-Stop partners, and providers for planning and delivering services, including training services and supportive services, to support effective delivery of services to workers, job seekers, and employers.
 - Development of strategies to support staff training and awareness across programs supported under the workforce development system.
4. Collaboration with educational boards (MBE, MCCB, IHL), partners, and service providers for the development and updating of comprehensive state performance accountability measures, including state-adjusted levels of performance, to assess the effectiveness of the core programs in the state as required under section 116(b).

5. Collaboration with educational boards (MBE, MCCB, IHL), partners, and service providers for the identification and dissemination of information on best practices, including best practices for:
 - Effective operation of One-Stop Centers, relating to the use of business outreach, partnerships, and service delivery strategies, including strategies for serving individuals with barriers to employment.
 - Development of effective local boards, which may include information on factors that contribute to enabling local boards to exceed negotiated local levels of performance, sustain fiscal integrity, and achieve other measures of effectiveness.
 - Effective training programs that respond to real-time labor market analysis.
 - Utilize direct assessment and/or prior learning assessment to assess competencies for efficient placement into employment or education pathways.
6. Collaboration with educational boards (MBE, MCCB, IHL), partners, and service providers for the development and review of statewide policies affecting the coordinated provision of services through the state's One-Stop delivery system described in section 121(e), including the development of:
 - Objective criteria and procedures for use by local boards in assessing the effectiveness and continuous improvement of One-Stop Centers.
 - Guidance for the allocation of One-Stop Center infrastructure funds under section 121(h).
 - Policies relating to the appropriate roles and contributions of entities carrying out One-Stop partner programs within the One-Stop delivery system, including approaches to facilitating equitable and efficient cost allocation in the system.
7. Collaboration with educational boards (MBE, MCCB, IHL), partners, and service providers for the development of strategies for technological improvements to facilitate access to, and improve the quality of, services and activities provided through the One-Stop delivery system, including such improvements to:
 - Enhance digital literacy skills (as defined in section 202 of the Museum and Library Services Act (20 U.S.C. 9101); referred to in this Act as "digital literacy skills").
 - Accelerate the acquisition of skills and recognized postsecondary credentials by participants.
 - Strengthen the professional development of providers and workforce professionals.
 - Ensure such technology is accessible to individuals with disabilities and individuals residing in remote areas.
8. Collaboration with educational boards (MBE, MCCB, IHL), partners, and service providers for the development of strategies for aligning technology and data systems across One-Stop partner programs to enhance service delivery and improve efficiencies in reporting on performance accountability measures (including the design and implementation of common intake, data collection, case management information, performance accountability measurement and reporting processes, and the incorporation of local input into such design and implementation to improve coordination of services across One-Stop partner programs).

9. Development of allocation formulas for the distribution of WIOA Combined Plan program funds to local areas for employment and training activities for adults and youth workforce investment activities as permitted under sections 128(b)(3) and 133(b)(3).
10. Preparation of the annual reports described in paragraphs (1) and (2) of section 116(d).
11. Collaboration with educational boards (MBE, MCCB, IHL), partners, and service providers for the development of the statewide workforce and labor market information system described in section 15(e) of the Wagner-Peyser Act (29 U.S.C. 491–2(e)).
12. Collaboration with educational boards (MBE, MCCB, IHL), partners, and service providers for the development of other policies that may promote statewide objectives for, and enhance the performance of, the workforce development system in the state.

Mississippi's State Workforce Investment Board chair is appointed by the Governor, and the board works through a committee structure under the guidance of the Office of Workforce Development (AccelerateMS). Committees include an executive committee, several standing committees, and *ad hoc* committees created to address specific needs. The board conducts three in-person meetings per year and makes use of electronic communication between meetings. Meetings are posted on the State Workforce Investment Board website (swib.ms.gov).

The following sections contain a description of how each Combined Plan Partner will implement Mississippi's seven WIOA strategies.

2. IMPLEMENTATION OF STATE STRATEGY

A. CORE PROGRAM ACTIVITIES TO IMPLEMENT THE STATE'S STRATEGY

The Mississippi Department of Employment Security (MDES) administers core programs and services for adults, dislocated workers, and youth (WIOA Title I) and core programs and services covered in the Wagner-Peyser Act (WIOA Title III). MDES also administers four additional Mississippi Combined Plan programs: Trade Adjustment Assistance (Title II-Chapter 2 of the Trade Act of 1974), services for veterans (Chapter 41 of Title 38 United States Code), programs authorized under state unemployment compensation law (Title 71 of the Mississippi Code of 1972), and Senior Community Service Employment Programs (Title V of the Older Americans Act of 1956).

Core Program Activities to Implement the State's Strategy

The Mississippi Department of Employment Security will continue the following activities to implement the state's seven strategies:

1. To work together to develop policies that will coordinate service delivery with WIOA Combined Plan Partners, MDES will participate in shared governance, with regard to WIOA Combined Plan programs, through the State Workforce Investment Board.
2. To strengthen interagency partnerships, MDES will:
 - Adopt the Mississippi Works Smart Start Career Pathway Model in its approach to case management.
 - Support the co-enrollment of any Combined Plan Partner participant into Wagner-Peyser once the participant has received partner services and is referred for work or training-related services.

- Continue support for, and further development of the Mississippi Works Common Intake and Reporting Hub (hereafter, *WIOA Hub*), in consultation with the State Workforce Investment Board, to coordinate case management data across WIOA partners.
- Set policies to govern the structure and service delivery model of One-Stop Center operations, as well as create policies to govern the creation and operation of Comprehensive, Sector Training Plus, and Affiliate One-Stop Centers.
- Conduct staff training to ensure that One-Stop Center staff receive cross training in Combined Plan programs and fully understand the Mississippi Works Smart Start Career Pathway Model.
- Continue Modifications to the Mississippi Works Labor Exchange to enable participants to access their Individualized Success Plans.
- Modify the Mississippi Works Labor Exchange to allow staff to edit Individualized Success Plans.
- Continue to support integration efforts to assist other Combined Plan Partners to interface with the WIOA Hub to share data related to the intake of WIOA participants, delivery of services to WIOA participants, WIOA participant Individualized Success Plans, and electronic referrals to Combined Plan Partners.
- Continue to staff Comprehensive One-Stop Centers with at least one Rapid Response staff member.
- Continue to staff Comprehensive One-Stop Centers with at least one staff member from Youth Services.
- Act upon referrals sent by other Combined Plan Partners through the WIOA Hub to the Mississippi Works Labor Exchange.
- Share system infrastructure costs.
- Continue outreach efforts to assist long-term unemployed and newly unemployed individuals.
- Include engagement with activities of the Mississippi Works Smart Start Career Pathway as an aspect of any Combined Plan program's participation compliance requirements, where applicable.

3.To develop defined, articulated pathways across educational sectors (K-16+) to create a pipeline for workforce, MDES will:

- Modify the Mississippi Works Labor Exchange to be able to generate a Work-Ready Report Card on the basis of workforce profile information, labor market information, and sector analysis data. The Work-Ready Report Card will enable direction of participants toward training aligned with employer labor market needs.
- Continue to support, develop, and promote MSGradJobs.com and MSTechJobs.com to connect four-year college and community college students, respectively, with work opportunities.

4.To develop cross-program performance metrics, MDES will:

- Work closely with the Mississippi State Longitudinal Data System Governing Board to provide data necessary for workforce analysis.

- Ensure that all participants receiving services from MDES will create a profile through the Mississippi Works Labor Exchange.

5. To continue to invest in integrated technology to meet the unified technology requirements of the Workforce Investment and Opportunity Act (WIOA) and other federal initiatives, MDES will support maintenance and ongoing development of the Mississippi Works Labor Exchange, the WIOA Hub, MSGradJobs.com, MSTechJobs.com, and the GranTrak financial tracking system.

6. To engage partners to establish the plan to remain abreast of changing industry needs and the metrics to measure outcomes to realize the potential of the state's workforce programs and delivery systems, MDES will continue to participate in the Mississippi LifeTracks system, contributing workforce data and unemployment insurance wage data necessary to address issues related to the production and valuation of human capital.

7. To draft and communicate a unified vision/message, MDES will:

- Participate in system-wide efforts to increase awareness of the Mississippi workforce system among employers and job seekers.
- Participate in activities designed to market the state to prospective businesses.
- Participate in efforts designed to make students in K-16 aware of occupations and Mississippi career pathways.
- Participate in efforts to increase employer awareness of One-Stop Center employer services.

The Mississippi Community College Board (MCCB) administers core programs and services listed in the Adult Education and Family Literacy Act (WIOA Title II). In addition, MCCB provides advisory oversight to Mississippi's 15 community colleges.

The MCCB will undertake the following activities to implement the state's seven WIOA strategies:

1. To work together to develop policies that will coordinate service delivery with WIOA Combined Plan Partners, MCCB will participate in shared governance, with regard to WIOA Combined Plan programs, through the State Workforce Investment Board.
2. To strengthen interagency partnerships, MCCB will:
 - Provide a cross-trained Adult Education (Title II) representative in four Comprehensive One-Stop Centers.
 - Monitor and act upon referrals from One-Stop Centers or Youth Providers to the Smart Start Pathway Class.
 - Refer Smart Start Pathway Class completers back to the referring One-Stop Center or Youth Provider for further workforce assessment and pathway or exit strategy direction.
 - Share system infrastructure costs.
 - Include engagement with activities of the Mississippi Works Smart Start Career Pathway Model as an aspect of any Combined Plan program's participation compliance requirements, where applicable.

3. To develop defined, articulated pathways across educational sectors (K-16+) to create a pipeline for workforce, MCCB will:
 - Align Smart Start Pathway Class curriculum with employer/labor market needs.
 - Partner with K-12 providers to enroll dropouts in high school equivalency classes.
4. To develop cross-program performance metrics, MCCB will:
 - Partner with the Mississippi State Longitudinal Data System Governing Board to provide data necessary for workforce analysis.
 - Interface with the Mississippi Works Common Intake and Reporting Module to transmit all assessment outcome scores and service enrollments, thus enabling the calculation of skill gains and cross-program participation periods.
5. To continue to invest in integrated technology to meet the unified technology requirements of the Workforce Investment and Opportunity Act (WIOA) and other federal initiatives, MCCB will continue work to enable its case management system to exchange data with the WIOA Hub to share service enrollments, assessment outcomes, modifications to participants' common profiles, and modifications to participants' Individualized Success Plans in compliance with WIOA requirements.
6. To engage partners to establish the plan to remain abreast of changing industry needs and the metrics to measure outcomes to realize the potential of the state's workforce programs and delivery systems, MCCB will continue to leverage the Mississippi LifeTracks system to determine priorities for training and align the Smart Start Pathway Class with labor market needs.
7. To draft and communicate a unified vision/message, MCCB will participate in system-wide efforts to increase awareness of the Mississippi workforce system among employers and job seekers.

The Mississippi Department of Rehabilitation Services (MDRS) administers core programs and provides services to Mississippians with disabilities under the Rehabilitation Act of 1973 (WIOA Title IV).

MDRS will undertake the following activities to implement the state's seven strategies:

1. To work together to develop policies that will coordinate service delivery with WIOA Combined Plan Partners, MDRS will participate in shared governance, with regard to WIOA Combined Plan programs, through the State Workforce Investment Board.
2. To strengthen interagency partnerships, MDRS will:
 - Adopt the Mississippi Works Smart Start Career Pathway Model in its approach to case management.
 - Continue to interface the AwareVR case management system with the Mississippi Works Common Intake and Reporting Module to coordinate case management data across WIOA partners.
 - Provide a Vocational Rehabilitation services staff representative in the four Comprehensive One-Stop Centers to ensure that Vocational Rehabilitation services are aligned with other Combined Plan programs.

- Assist One-Stop Center providers with accessibility assessments and train One-Stop Center staff in the use of assistive technologies as needed.
 - Refer work-ready participants for workforce assessment and pathway determination by One-Stop Center operators or Youth Providers.
 - Share system infrastructure costs.
 - Include engagement with activities of the Mississippi Works Smart Start Career Pathway as an aspect of any Combined Plan program's participation compliance requirements, where applicable.
3. To develop defined, articulated pathways across educational sectors (K-16+) to create a pipeline for workforce, MDRS will:
 - Assist eligible students with disabilities to secure assistive technologies or services needed to enable classroom access, as appropriate.
 - Assist graduating secondary students with disabilities to access job transition services.
 - Continue employer outreach activities.
 4. To develop cross-program performance metrics, MDRS will:
 - Work closely with the Mississippi State Longitudinal Data System Governing Board to provide data necessary for workforce analysis.
 - Interface with the WIOA Hub to transmit all assessment outcome scores and service enrollments to enable the calculation of skill gains and cross-program participation periods.
 5. To continue to invest in integrated technology to meet the unified technology requirements of the Workforce Investment and Opportunity Act (WIOA) and other federal initiatives, MDRS will interface AwareVR with the Mississippi Works Common Intake and Reporting Module to share service enrollments, assessment outcomes, modifications to participants' common profiles, and modifications to participants' Individualized Success Plans.
 6. To engage partners to establish the plan to remain abreast of changing industry needs and the metrics to measure outcomes to realize the potential of the state's workforce programs and delivery systems, MDRS will continue to participate in the Mississippi LifeTracks system, contributing data necessary to address issues related to the production and valuation of human capital.
 7. To draft and communicate a unified vision/message, MDRS will participate in system-wide efforts to increase awareness of the Mississippi workforce system among employers and job seekers.

The Mississippi Department of Human Services (MDHS) administers the Temporary Assistance for Needy Families (TANF) program, a Combined Plan Program in Mississippi's WIOA strategy.

MDHS will undertake the following activities to implement the state's seven strategies:

1. To work together to develop policies that will coordinate service delivery with WIOA Combined Plan Partners, MDHS will participate in shared governance, with regard to WIOA Combined Plan programs, through the State Workforce Investment Board.

2. To strengthen interagency partnerships, MDHS will:
 - Adopt the Mississippi Works Smart Start Career Pathway Model in its approach to case management.
 - Interface relevant data systems (e.g., MAVERICS) with the WIOA Hub to coordinate case management data across WIOA partners.
 - Provide a TANF-trained MDHS staff representative in the four Comprehensive One-Stop Centers to ensure that TANF is aligned with other Combined Plan programs.
 - Refer work-eligible TANF participants to MDES affiliates (e.g., One-Stop operators and some Youth Providers) for Wagner-Peyser services through the WIOA Hub.
 - Participate in strategies to leverage TANF transportation and childcare supportive services to enable participation in pathway activities and exit strategy training or transitional work.
 - Include engagement with activities of the Mississippi Works Smart Start Career Pathway as an aspect of any Combined Plan program's participation compliance requirements, where applicable.
3. To develop defined, articulated pathways across educational sectors (K-16+) to create a pipeline for workforce, MDHS will:
 - Refer TANF recipients to a One-Stop Center or Youth Provider who will assist TANF recipients in connecting with training that meets employer labor market needs.
 - Ensure that job matches between area employers and work-eligible TANF or SNAP recipients occur within the Mississippi Works Labor Exchange.
4. To develop cross-program performance metrics, MDHS will:
 - Work closely with the Mississippi State Longitudinal Data System Governing Board to provide participant data necessary for workforce analysis.
 - Interface with the WIOA Hub to transmit all assessment outcome scores and service enrollments, thus enabling the calculation of skill gains and cross-program participation periods.
5. To continue to invest in integrated technology to meet the unified technology requirements of the Workforce Investment and Opportunity Act (WIOA) and other federal initiatives, MDHS will interface MAVERICS and other TANF-relevant case management systems with the WIOA Hub to share service enrollments, assessment outcomes, modifications to participants' common profiles, and modifications to participants' Individualized Success Plans.
6. To engage partners to establish the plan to remain abreast of changing industry needs and the metrics to measure outcomes to realize the potential of the state's workforce programs and delivery systems, MDHS will continue to participate in the Mississippi LifeTracks system, contributing data necessary to address issues related to the production and valuation of human capital.
7. To draft and communicate a unified vision/message, MDHS will participate in system-wide efforts to increase awareness of the Mississippi workforce system among employers and job seekers.

B. ALIGNMENT WITH ACTIVITIES OUTSIDE THE PLAN

Alignment with Activities Outside of the Plan

Mississippi Combined Plan Partners include workforce, education, and human services partners linked by a common data system. Even One-Stop Center and Youth operators in Mississippi make use of the Mississippi Works Labor Exchange to align with programs not explicitly included in the Combined Plan. This means that most alignment is achieved both programmatically, as partners outside the plan operate under required operational plans, and technologically, as all partners use the same case management system.

With regard to the few state partners who operate outside of the unifying case management information technology system that links together Combined Plan Partners (e.g., career and technical education), MDES, MCCB, MDRS, and MDHS align with partners at the local level with through participation in LWDBs and at the state level through participation in the State Workforce Investment Board and in the Mississippi SLDS Governing Board. The SLDS Governing Board brings together all data-contributing workforce, human services, and education and training entities throughout the state to enable data-driven strategic planning.

In addition to coordinated alignment through boards, state agencies will continue fruitful point-to-point alliances. For example, MDES has partnered with Mississippi Department of Corrections (MDOC) to address prisoner recidivism. MDOC operates pre-release and post-release occupational skills training programs to transition ex-offenders to the workforce. The MDOC/MDES partnership created the Employment Connections project designed to allow offenders who are nearing release to create a workforce profile in the Mississippi Works Labor Exchange that "goes live" upon release. As part of reentry activities, offenders are given a print-out with information for logging into the Mississippi Works Labor Exchange and finding the nearest One-Stop Center.

MDES has also formed relationships with individual educational institutions, such as community colleges and public universities in Mississippi, to connect campus career centers with the Mississippi Works Labor Exchange through MSGradJobs.com and MSTechJobs.com. These systems keep Mississippi students informed about opportunities in in-demand occupations.

Alignment with Registered Apprenticeship Programs takes place through the Mississippi Apprenticeship Program (MAP), which is operated by the Mississippi Department of Employment Security (MDES) Office of Apprenticeship. MAP helps companies create or grow apprenticeship programs and, since 2016, has administered state funds to grow and sustain RAPs.

C. COORDINATION, ALIGNMENT AND PROVISION OF SERVICES TO INDIVIDUALS

Coordination, Alignment and Provision of Services to Individuals

The Mississippi Works Smart Start Career Pathway Model (described above in "State Strategic Vision, Goals, and Strategies") provides the blueprint for Combined Plan Partner coordination, and the WIOA Hub provides the information technology infrastructure required to ensure that all provided services are aligned to the blueprint.

MDES continues to play a key role in the development and maintenance of this coordinated system, having taken the lead in developing the WIOA Hub and in training One-Stop Center and Youth Providers to use the MDES case management system, the Mississippi Works Labor Exchange.

Within the Mississippi Works Smart Start Career Pathway Model itself, MDES-affiliated One-Stop Centers or Youth Providers are the key coordinating entities that receive a referral for workforce assessment. These coordinating entities will contact each participant and set up an appointment so that each participant will execute a full workforce system registration in the Mississippi Works Labor Exchange, generate a Work-Ready Report Card that aligns the

participant's expectations to the local labor market, and finalize his or her Individualized Success Plan to choose an initial pathway. If the initial pathway is the Smart Start Pathway Class or the Career Tech Pathway, the One-Stop Center or Youth Provider staff member will create a referral to the partner responsible for the pathway. If the initial pathway is the Work-Ready Pathway, the staff member will coordinate the activities that will be delivered by the designated MDES-affiliated One-Stop Center or Youth Provider responsible for the Work-Ready Pathway in that local area.

Once a participant meets the exit criteria of a given pathway, he or she will be referred back to the MDES-affiliated One-Stop Center or Youth Provider for further evaluation. Staff will reevaluate the participant's Individualized Success Plan, administer any relevant assessments, and either refer the participant to another pathway or designate an exit strategy such as transitional employment or enrollment in an educational institution.

In addition to referrals to pathway programs and exit strategies, MDES-affiliated staff may create referrals to other partners to coordinate supportive services as needed. Because each service enrollment comes from a Common Service Catalog, staff will know whether the participant is already receiving supportive services in a particular category such as childcare or transportation. The Individualized Success Plan itself contains a living list of participant barriers to employment along with prescribed remedies for these barriers through supportive services.

The WIOA services that MDES administers will address the workforce and training needs of every eligible individual. Through Wagner-Peyser services, MDES provides job search, referral, and placement services to all eligible Mississippi workers. MDES funds *adult* training programs administered by local workforce development boards based on the needs of each LWDA. To serve *dislocated workers*, MDES coordinates Rapid Response services that assist employers and employees affected by layoffs or plant closures. MDES serves *youth* through specially trained Youth Providers who connect youth to targeted youth programs, other eligible core programs, and education and training opportunities based on the specific needs of the individual. In addition, there are two employment outreach groups: Local Veterans Employment Representatives (LVER) and Disabled Veteran Outreach Specialists (DVOP). To fill job openings, LVER staff work directly with businesses, and DVOP staff work directly with unemployed or underemployed *veterans*.

MCCB's Adult Education (AE) services play the key role in establishing and conducting the Smart Start Pathway Course in the Mississippi Works Smart Start Career Pathway Model. This course consists of 45 hours of intensive career development, assessment, and basic skills development. Career enrichment activities are oriented toward in-demand, middle-skill occupations. MCCB and the State Workforce Investment Board established the Smart Pathway curriculum and established pathway exit criteria that may include certain assessment score levels. After participants meet exit criteria from AE classes or complete the Smart Start Course Pathway, MCCB's AE providers will refer participants to a One-Stop Center or Youth Provider to perform workforce evaluation or workforce reevaluation.

As the administrative/fiscal agent for WIOA Title II Adult Education and Family Literacy Act (AEFLA) services, MCCB funds local programs to provide services to eligible individuals who are 16 years old, are not enrolled or required to be enrolled in secondary school under the MS Compulsory School Attendance Law, are basic skills deficient, do not have a secondary school diploma or its recognized equivalent, or are English language learners. AE serves as the Combined Plan Partner entry point for individuals who are basic skills deficient or lack a high school diploma. AE remediation is offered at 15 community college campuses, three public schools, and all correctional facilities. AE providers identify the most appropriate starting point for the participant.

MDRS works with the Mississippi Department of Human Services (MDHS) and Jobs for Veterans State Grants (JVSG) to serve clients with disabilities and leverage resources to serve more clients. MDRS does not operate a specific career pathway, but its local offices will often be the entry point for Mississippi workers who require vocational rehabilitation services to access the labor market. As appropriate in the rehabilitation process, MDRS will refer the participant to a One-Stop Center or Youth Provider to perform a workforce assessment and direct the participant to an appropriate career pathway.

MDRS provides supportive services that will be included explicitly in Individualized Success Plans and coordinated with supportive services offered by other partners to avoid duplication.

MDHS serves individuals and families through several economic assistance programs that address barriers to work such as food security, transportation, and childcare.

The TANF program, a Combined Plan Partner program, provides benefits for families with needy children under age 18. The TANF program is designed to help needy families achieve self-sufficiency through employment and training activities provided by the TANF Work Program (TWP). TANF supportive services, such as assistance with childcare and transportation expenses, are available to help adults in the family prepare for employment and to promote self-sufficiency. These supportive service enrollments will be transmitted to the WIOA Hub to ensure that no other Combined Plan Partners provide overlapping services.

The SNAP Employment and Training (SNAP E&T) program, a Strategic Partner program, was created to provide access to the necessary skills, training, or experience to increase an eligible recipient's ability to obtain gainful employment. The services provided by the SNAP E&T program include case management services, a career assessment by a career and technical advisor, assistance with grant and scholarship applications, enrollment in career education and training programs, assistance with eligible tuition expenses not covered by federal or state grants or scholarships, participants support and barrier mitigation, and other education, training, work, and employment services.

MDHS provides Community Services Block Grant funding to Community Action Agencies across the state. These agencies have been encouraged to join their local WIOA offices to coordinate services in education, employment, and housing. These offices refer clients to other services in their local area if those services are not provided at their offices.

To support Mississippi's workforce, the MDHS Child Care Payment Program (CCPP), funded through the federal Child Care and Development Fund (CCDF) provides childcare subsidy to low income working parents and families. The Child Care Payment Program provides parents with incomes below 85% of the state median income vouchers to offset the high cost of childcare and after school services for children from birth to age 12. Parents must work and/or participating in workforce education/development programs in universities, colleges, community colleges, high school/GED educational programs, and other accredited trade schools. Parents choose the childcare provider that meets the needs of the family and has been approved by MDHS to provide childcare services.

D. COORDINATION, ALIGNMENT AND PROVISION OF SERVICES TO EMPLOYERS

Coordination, Alignment and Provision of Services to Employers

MDES: Coordination, Alignment, and Provision of Services to Employers

The Mississippi Department of Employment Security will coordinate and align its services to employers through outreach efforts by their Business Service Team (consisting of MDES

Business Relations staff members, WIN Job Center Managers, Area Directors, WIOA staff, The Local Veterans' Outreach Representatives [LVERs], staff from the Governor's Job Fair Network, and other partner staff as needed) and through the Mississippi Works Labor Exchange technology. The Mississippi Works Labor Exchange system empowers employers to explore labor matches through the candidate search function. Employers can find candidates who seem promising and target passive job seekers who may be interested in a career change. The interactive search allows employers to search for candidates by keyword, highest level of education, occupational experience, and proximity. Clicking on a search result brings the employer to a candidate's detail page.

A candidate's detail page maintains the job seeker's anonymity but contains information about the candidate's education, experience, and skills. If an employer is sufficiently interested in a candidate, he or she can issue a "Job-Vite" to the candidate. A Job-Vite is an invitation to apply for a particular position sent by an employer to a promising candidate. Job seekers are notified about Job-Vites by email or text message (SMS) and can decline a Job-Vite or respond positively by simply applying to the position.

The Mississippi Works Labor Exchange also provides convenient tools for employers to manage the application process, including the ability to set interview times and the status of applications. Providing good tools to employers is a way to attract them to enter job orders into the system. Employers who list jobs provide an indication of what skills are in demand; this information, in turn, informs data-driven prioritization of training and workforce development activities. Workforce data of this type provide the hub around which the whole state's economic success rotates because they become a primary source of actionable, strategic data. To encourage the entry of job orders into the Mississippi Works Labor Exchange, MDES has developed a business relations team charged with recruiting businesses to post job listings through MDES and Mississippi Works.

MCCB: Coordination, Alignment, and Provision of Services to Employers

MCCB coordinates AE courses through a variety of local providers. Some courses are sponsored by employers and conducted at employer worksites. Local employers also often serve as a source of initial referral of an employee to adult education classes.

MDRS: Coordination, Alignment, and Provision of Services to Employers

MDRS works with employers to determine needs for open positions. MDRS uses this information to put together a mix of training and assistive technologies that enable clients to meet job demands. In addition, MDRS coordinates on-the-job training with employers and provides the training that enables an existing worker or trainee to use assistive technologies or other accommodations to fulfill job requirements.

MDHS: Coordination, Alignment, and Provision of Services to Employers

Beyond the alignment with employers made possible by the data analysis and sector strategies of the Mississippi Works Smart Start Career Pathway Model, MDHS staff engage employers directly. This engagement takes the form of direct contact with employers to check on job openings and the efforts of county directors to form relationships with community employers who are able to hire TANF or SNAP recipients with work requirements. MDHS will work with the Mississippi Department of Employment Security to enter local job openings into the Mississippi Works Labor Exchange and refer work-eligible SNAP or TANF recipients to these openings via the system to ensure that records of these labor matches are captured by the system and thus available to inform ongoing labor market research.

Under the Mississippi Works Smart Start Career Pathway Model, TANF or SNAP recipients will be referred to One-Stop Centers or Youth Providers to perform workforce assessment and begin an appropriate pathway strategy.

E. PARTNER ENGAGEMENT WITH EDUCATIONAL INSTITUTIONS

Partner Engagement with Educational Institutions

Strategies to engage with educational institutions are described below, organized by agency partner.

MDES

MDES has begun creating a job-driven education and training system by aligning the training services it provides to youth and adults under WIOA Title I with the skills-based training provided by community colleges. Often this alignment occurs through Affiliate One-Stop Centers, which are organized and administered by community colleges. These Affiliate One-Stop Centers use the Mississippi Works Labor Exchange to administer individual training accounts and record WIOA services into which trainees are enrolled.

MCCB

Mississippi's career and technical education schools, largely consisting of public community colleges, also contribute to the state's job-driven education and training system by implementing the Smart Start Pathway Course, an intensive course that combines foundational skills necessary to meet employer needs, such as work environment expectations, with training necessary to attain work-readiness credentials. Although the Smart Start course was originally designed to support acquisition only of foundational or basic skills, it has grown to be one component of a more full-orbed work-readiness certificate recognized as a credential. These schools, and the Mississippi Community College Board as a whole, will also continue to work with local Adult Education (AE) providers in order to align the AE services, such as high school equivalency programs, with the career training provided by its 15-member community colleges. Through these partnerships, Mississippi will offer a robust system of easily accessible adult education programs, high school equivalency programs, career and technical education programs, and Career Readiness Certificate (CRC) programs.

MDRS

MDRS will support the state's job-driven education and training system by providing eligible students with transition counselors and special education teachers. This outreach helps create pathways from education to work by arranging internships and other transitional employment for students with special needs prior to graduation.

MDHS

MDHS works directly with community college providers to support the state's job-driven education and training system by reconnecting SNAP recipients with the labor market. MDHS coordinates the use of SNAP E&T funds to support approved training activities designed to connect participants with work. MDHS refers work-eligible TANF and SNAP recipients to One-Stop Centers or Youth Providers for assessment and then connects them with pathways that lead to training through Adult Education partners, community colleges, public universities, or other training providers.

F. PARTNER ENGAGEMENT WITH OTHER EDUCATION AND TRAINING PROVIDERS

Partner Engagement with Other Education and Training Providers

Strategies to engage with other education and training providers are described below, organized by agency partner.

MDES

MDES supports the work of LWDAs by maintaining an electronic Eligible Training Provider List (ETPL) that establishes an approved list of service providers that may receive Title I (Youth, Adult, and Dislocated), TAA, SCSEP, and other training funds to serve customers enrolled in MDES programs. All local One-Stop centers use MDES technology, the Mississippi Works Labor

Exchange, to administer training accounts and record training services provided to participants by eligible training providers. In addition, the MDES Mississippi Works Labor Exchange will be modified to provide self-service training discovery to customers, with links to training information for all occupations allowing a participant to see, in the context of viewing a job order, what kind of training courses will be appropriate for the given job. The database supporting this self-service feature will contain all relevant providers, including community colleges, private training institutions (e.g., commercial truck driving training programs), and institutions of higher learning. MDES engages with training providers on the ETPL lists as partners in the state's workforce development ecosystem. Many of the training providers are community colleges and MDES has established affiliate One-Stop centers that enable the provider to deliver workforce services on campus. For private providers on the ETPL list, MDES partners with these training entities to receive quarterly data required to calculate performance metrics. While there are few eligible providers that are not public institutions, private providers that deliver training such as commercial driving instruction are valued partners and, at the local level, coordination between One-Stop staff, participants, and the provider ensure that training needs, driven by the LWDA's sector strategy, are met.

MCCB

In addition to the provision of Adult Education training courses, MCCB member colleges provide training to customers with Individual Training Accounts through Title I, TANF recipients, SNAP E&T participants, and participants receiving rehabilitative services. All MCCB member colleges and AE contractors are listed in the MDES Eligible Training Provider List. MCCB members also assist the training efforts of some larger employers who operate specialized training programs. MCCB member colleges coordinate directly with WIOA partners and with LWDA's. Regular LWDA meetings include representatives from the development area's community colleges and this puts these training and education providers into direct contact with employers, elected representatives, and WIOA agency representatives to ensure that the area's sector strategy, and the occupational demand this implies, drives prioritization of training and investment.

MDRS

MDRS works directly with community colleges and other specialized training providers to provide occupational training for participants enrolled in rehabilitative services. MDRS participants enrolled in WIOA Title I training will receive training through courses listed in the MDES Eligible Training Provider List (ETPL) based on labor market needs in each local area. Training funded by PELL, TANF, or other partner funds may come from any provider meeting MDRS policies. MDRS works closely with local community rehabilitation programs that provide vocational assessment, job training, and actual work experience for MDRS customers. These programs build relationships with local employers and then drive training and education activities based on employer need to ensure that trainees gain appropriate skills for employment.

MDHS

MDHS works directly with community colleges and other training providers, including MCCB/AE, to provide occupational training for participants enrolled in TANF. TANF participants enrolled in WIOA Title I training will receive training through courses listed in the MDES Eligible Training Provider List (ETPL) based on labor market needs in each local area. Through the SNAP E&T program, some SNAP recipients will receive training through participating community colleges that combines necessary (soft skills) training with occupational training. Training funded by PELL, TANF, or other partner funds may come from any provider meeting MDHS's policies.

G. LEVERAGING RESOURCES TO INCREASE EDUCATIONAL ACCESS

Leveraging Resources to Increase Educational Access

MDES's community college Affiliate One-Stop Centers will leverage WIOA training funds with Pell Grants and other supportive services provided by Combined Plan Partners as indicated on the participant's Individualized Success Plan.

Adult Education funding is distributed according to the targeted needs of an area and the number of people without a high school diploma. Funding for AE programs is provided through a competitive grant award and is based on the annual appropriation from the Department of Education, Office of Career, Technical, and Adult Education. Grantees are aligned with system-wide goals and labor market needs of local program areas and have the capability to provide Smart Start Pathway Course services throughout the state.

The Office of Workforce Development (AccelerateMS) provides funding for approved training programs through the state's Workforce Enhancement Training (WET) fund, a state funding source derived from employer unemployment insurance taxes.

MDRS leverages a variety of funds to better serve the training and education needs of clients. Sources of leveraged funds include client health insurance, Medicaid waiver programs, Pell Grants, WIOA Title I individual training accounts (ITA), Social Security insurance, Social Security disability insurance, and WIOA partner funds through Temporary Assistance for Needy Families (TANF).

MDHS will assist work-eligible SNAP or TANF recipients who enroll in approved training programs to leverage WIOA Title I, Pell, E&T Matching Funds, and other training resources to support training.

H. IMPROVING ACCESS TO POSTSECONDARY CREDENTIALS

Improving Access to Postsecondary Credentials

Strategies to improve access to postsecondary credentials are described below, organized by agency partner.

MDES and LWDBs

Local workforce development boards will determine strategies for credential attainment based upon area employer requirements. Once the needs of the employers are identified, pathways to meet those needs are established that include:

- Utilizing the DOL Quick-Start Tool Kit and pre-apprenticeship guide to establish a Registered Apprenticeship Program (RAP) with the employer and foster community support.
- Identify one-stop customers meeting the minimum criteria to immediately be enrolled into a RAP.
- Create success plans for one-stop customers needing soft-skill and pre-vocational training such as the high school equivalency, the National Career Readiness Certificate (CRC), and the Smart Start Credential.
- Facilitate the transition of the one-stop customer from the soft skills and pre-vocational training into a RAP, an employer provided OJT program, full- or part-time employment, or additional occupational training.
- Upon completion of a registered apprenticeship program, apprentices will receive a national DOL certificate of completion that follows them anywhere in the United States.

MDRS

For participants who require a postsecondary credential to attain a career goal, MDRS will develop an Individualized Success Plan that captures the supportive services, partner referrals, and any MDRS-specific addenda required to achieve the goal. In line with informed client choice,

MDRS will then refer the participant for workforce evaluation at a One-Stop Center or Youth Provider that will help to develop the participant's Individualized Success Plan further and create a pathway referral to move the participant closer to attaining the credential.

MDHS

Supportive services provided under TANF will enable work-eligible TANF recipients to overcome barriers to training, and will help recipients earn high school equivalency, Career Readiness Certificates, or other Adult Education credentials. Supportive services provided under SNAP will likewise enable work-eligible SNAP recipients to overcome barriers to training and help recipients earn high school equivalency, Career Readiness Certificates, or other Adult Education credentials, as well as career-technical education or workforce skills.

MCCB

Two MCCB member community colleges operate Affiliate One-Stop Centers that coordinate with the Mississippi Department of Employment Security through the use of the Mississippi Works Labor Exchange to provide Adult, Youth, and Dislocated Worker training.

I. COORDINATING WITH ECONOMIC DEVELOPMENT STRATEGIES

Coordinating with Economic Development Strategies

MDES will coordinate with economic development strategies by supporting the Mississippi Development Authority's efforts to market the state workforce system to prospective businesses. This support may take the form of live demonstrations of the Mississippi Works Labor Exchange or of responding to *ad hoc* data analysis requests designed to demonstrate the regional availability of workers with specialized skills.

MDES will also continue to provide workforce and unemployment insurance data to the Mississippi LifeTracks data clearinghouse to enable sector and pathway analysis that will guide the activities of local workforce development boards to align training goals with regional needs.

MCCB and its member community colleges participate directly in efforts by the Mississippi Development Authority to recruit prospective businesses to Mississippi by developing specialized work training programs leading to credentials that meet the needs of targeted sectors. Institutions then coordinate with the Mississippi Department of Employment Security to ensure that applicants receive credit for these credentials within the Mississippi Works Labor Exchange when applying to partner employers.

MDRS will coordinate with economic development strategies by assisting Mississippi Development Authority projects and providing technical assistance in accessibility assessments to prospective employers of workers with disabilities.

MDHS will coordinate with economic development strategies by supporting training and education pathways for TANF and SNAP recipients that meet State Workforce Investment Board sector priorities.

B. STATE OPERATING SYSTEMS AND POLICIES

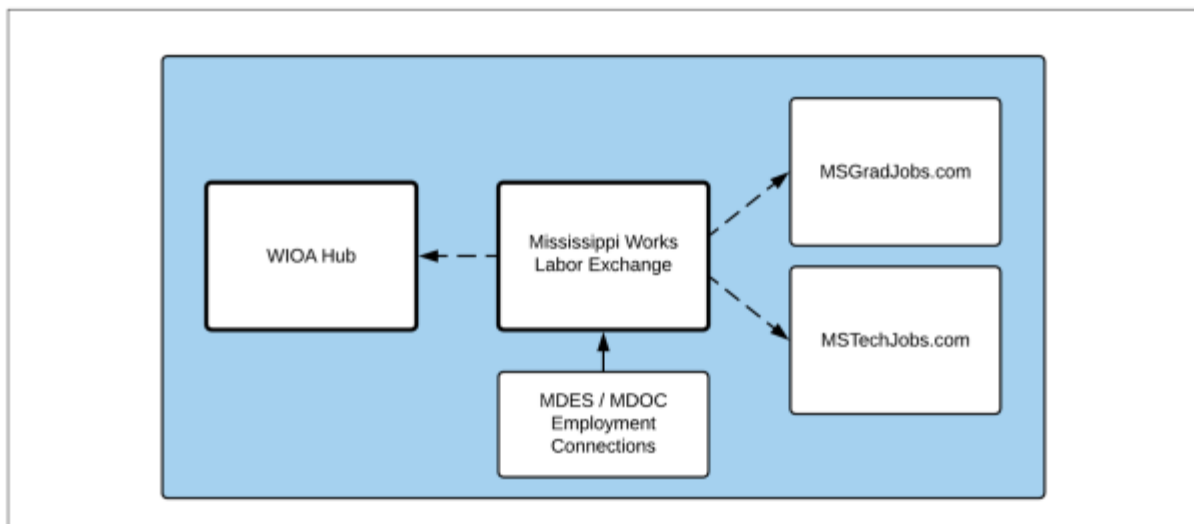

In order to execute the data collection, strategic planning, administration, and coordinated implementation of the Mississippi Works Smart Start Career Pathway Model, Mississippi Combined Plan partners will interface with the Mississippi Department of Employment Security's "Mississippi Works" technology system.

1. THE STATE OPERATING SYSTEMS THAT WILL SUPPORT THE IMPLEMENTATION OF THE STATE'S STRATEGIES. THIS MUST INCLUDE A DESCRIPTION OF–

The State operating systems that will support the implementation of the State's strategies (e.g., labor market information systems, data systems, communication systems, case-management systems, job banks, etc.)

Mississippi Works technology consists of several systems with complementary roles. Figure 15 depicts the five main sub-systems.

Figure 15: Mississippi Works Technology System

The five sub-systems of Mississippi Works are:

- **Mississippi Works Labor Exchange** - The Mississippi Works Labor Exchange is an award-winning web and mobile system used by Mississippi Department of Employment Security agency staff, job seekers, and employers to coordinate all Department of Labor programs such as Wagner-Peyser, Youth Services, Adult and Dislocated Worker Services, Trade Adjustment Assistance, and others. In Mississippi's WIOA implementation, the Mississippi Works Labor Exchange serves as the web and mobile interface that participants themselves use to access any documents or plans generated during case management under the Mississippi Works Smart Start Career Pathway Model. The system was developed in Mississippi through a partnership between the Mississippi Department of Employment Security and the National Strategic Planning and Analysis Research Center (NSPARC) at Mississippi State University. The Mississippi Works Labor Exchange already supports the calculation of common participation periods across what has become WIOA Title I, WIOA Title III, and Trade-related programs. The system also disseminates labor market information. The Mississippi Works Smart Start Career Pathway Model immediately brings the workforce customer into contact with services from WIOA partners.
- Unemployment Insurance,
- Human Services,
- Vocational Rehabilitation, and

- Adult Basic Education

This approach to case management requires a coordinating technology that supports the smooth and accurate collaboration of partners who already use a variety of program-specific case management systems.

In order to implement this coordinating technology without moving to a costly unified system, Mississippi's WIOA partners have agreed to use a robust online service delivery hub technology that connects program-specific systems via web services to support electronic referrals, a common success plan, and other data required for customer service, process improvement, and reporting.

The services coordinated within the *Smart Start Pathway Model* efficiently link Mississippians directly to employment and training opportunities, as well as provide direct links to supportive services addressing more indirect barriers to successful employment.

- **NextJob** – Online Job Search Training – (OJST) MDES' mission is "Helping Mississippians Get Jobs." With the focus on this goal, the agency continues to seek methods of helping and encouraging Mississippians who are unemployed to get back to work. OJST is another innovation by MDES that provides better information while reducing the customer burden in learning better job search skills. This online tool allows customers to learn at their own pace and without the expense of traveling to a location multiple times to accomplish the training. To complete, the customer must select from any four of eleven topics. The topics range from building a plan to find a job, determining the most beneficial career, locating jobs that may not be easily found, and many other helpful points that will assist the unemployed person through a successful job search. The goal of MDES' OJST program is to increase customer engagement and preparedness while decreasing the average number of weeks an individual is unemployed. The focus of OJST is to target people who are likely to return to work soon, but who, with additional help, will return to work even sooner
- **MSGradJobs.com** - MSGradJobs.com connects four-year college students who seek career assistance in Mississippi's university career centers with employers who post jobs in the Mississippi Works Labor Exchange.
- **MSTechJobs.com** - MSTechJobs.com connects community college students who seek career assistance in Mississippi's community college career centers with employers who post jobs in the Mississippi Works Labor Exchange.
- **MDES/MDOC Employment Connections** - The Employment Connections system allows offenders nearing release from Mississippi Department of Corrections facilities to create a pending workforce profile in the Mississippi Works Labor Exchange that "goes live" when the offender is released. As part of exit activities, the offender's profile will be injected into the Mississippi Works Labor Exchange, and the offender will be given a flyer detailing his or her Mississippi Works Labor Exchange username and password along with the address of the nearest One-Stop Center.
- **WIOA Hub** - The WIOA Hub is responsible for storing cross-agency data related to:
 - WIOA participant registration.
 - Services rendered to WIOA participants.
 - Referrals created for a participant from one WIOA partner to another.
 - Credentials earned by participants.
 - WIOA participant Individualized Success Plans.

Of the five sub-systems, the WIOA Hub serves as the data system required to operate Mississippi's pathway model.

Data-collection and reporting processes used for all programs and activities, including those present in America's Job Center locations

Ultimately, data collection for all programs and activities will be accomplished through the integration of partner systems with the WIOA Hub. Real-time data sharing from partner systems to the WIOA Hub automates the sharing of case management data and will allow for real-time labor market analysis.

Under the leadership of the Office of Workforce Development (AccelerateMS), agencies will continue to further integrate their systems with the WIOA Hub until all planned data objects are shared in real time. Data sharing for reporting purposes will be conducted according to the clear set of rules developed by the SLDS Governing Board that ensure data integrity, security, confidentiality, and privacy.

While Appendix B contains complete rules for data sharing under the SLDS, a summary of the procedures relevant to data sharing for reporting purposes is that novel requests for reports that involve data from multiple state agencies are sent to the entire SLDS governing board either through an expedited or standard review process. In the case of WIOA federal reporting, often these requests involve aligning participant data from agency administrative data with outcomes in education data and wage data. A single report may result in the need to align data from three or even four WIOA strategic and core partners. Ongoing reports of this type become "standing reports" that do not require subsequent review. The methodology for creating federal reports that require data sharing is approved by the governing board once and then carried out as needed when partners engage in quarterly or annual reporting.

2. THE STATE POLICIES THAT WILL SUPPORT THE IMPLEMENTATION OF THE STATE'S STRATEGIES (E.G., CO-ENROLLMENT POLICIES AND UNIVERSAL INTAKE PROCESSES WHERE APPROPRIATE). IN ADDITION, PROVIDE THE STATE'S GUIDELINES FOR STATE-ADMINISTERED ONE-STOP PARTNER PROGRAMS' CONTRIBUTIONS TO A ONE-STOP DELIVERY SYSTEM

The State policies that will support the implementation of the State's strategies (e.g., co-enrollment policies and universal intake processes where appropriate). In addition, provide the State's guidelines for State-administered one-stop partner programs' contributions to a one-stop delivery system.

To guide the establishment, implementation, and maintenance of quality workforce development services, the state has developed a number of policies that outline legislative, regulatory, and service quality requirements within Mississippi's workforce system. Core agency policies and systems will comply with data collection, reporting processes, information management, integrated service delivery, and performance management requirements outlined by WIOA and respective federal and state legislation. As the primary developer of WIOA-related state policies, the Mississippi Department of Employment Security (MDES) develops state policies and their related communication plans. MDES disseminates these documents to local workforce development boards where they guide the implementation process at the LWDA level. The state will continue to encourage coordination among WIOA Combined Plan and Strategic Partner agencies to strengthen the alignment between the Governor's vision and the strategies needed to meet that vision.

The One-Stop Certification Policy includes a checklist that all centers must adhere to including partnerships function at the site and the roles of each core partner. This checklist includes requirements for providing services including enrollment for all available services for which the

customer is eligible (i.e., co-enrollment) as well as making certain that regardless of the services requested, that the customer can obtain all eligible services through a single application (i.e., universal intake). The One Stop Certification Policy can be reviewed in its entirety in Appendix N or at the following link: [WIOA-2022-Appendix-N-Policy-16-One-Stop-Certification.pdf](https://acceleratems.org/WIOA-2022-Appendix-N-Policy-16-One-Stop-Certification.pdf) (acceleratems.org).

To establish funding guidelines for partner contributions to the One-Stop delivery system, partners develop a unified business plan, in coordination with local workforce development boards, that specifies formulae or procedures for funding coordinated delivery of services to participants. These documents specify how an individualized business plan will be developed to accompany each participant's individual WIOA Success Plan when such a plan involves services from more than one Combined Plan Partner. Appendix J contains the Office of the Governor's guidelines for the creation of Local Workforce Development Board WIOA plans. Each local board is required to describe how service delivery will be coordinated across all Combined Plan Partner programs at the local level in accordance with labor market realities and development goals. In addition, local boards describe how funds will be allocated in accordance with the business plan and how funds are allocated to support shared infrastructure costs.

Infrastructure Funding Agreement

WIOA requires the agreed upon contributions towards infrastructure costs by each one stop-partner to be memorialized in an IFA between the LWDB or its designee and all WIOA-required one-stop partners and any additional partners. For the purpose of affiliate and specialized centers, only the LWDB or its designee and those partners participating in the operation of that center are required to enter into the IFA for that particular center.

3. STATE PROGRAM AND STATE BOARD OVERVIEW

A. STATE AGENCY ORGANIZATION

Workforce development activities in Mississippi have been on a decades-long trajectory toward cooperation and partnership. State leadership has successfully encouraged a unified, jobs-focused approach to workforce and reemployment services by its creation of and support for the Mississippi Works network of partners, technologies, and services and now, through its creation of the Office of Workforce Development (AccelerateMS) to further focus unified effort on enhancing the skills of Mississippi's workforce. The current agency structure has produced notable agency-to-agency partnerships such as the MDES/MDOC Corrections Connection job search program for ex-offenders. WIOA implementation has provided an opportunity to enrich those connections.

Figure 16 depicts the state agency structure under which workforce-related services are administered by the agencies that will be Combined Plan and Strategic Partners under WIOA.

The Governor appoints the chair of the State Workforce Investment Board (SWIB).

The State Workforce Investment Board (SWIB) appoints the executive director of the Office of Workforce Development (AccelerateMS).

The Governor appoints the executive directors of Mississippi Department of Corrections, Mississippi Development Authority, Mississippi Department of Human Services, and Mississippi Department of Employment Security.

The Mississippi Community College Board, Mississippi Department of Rehabilitation Services, and Mississippi Department of Education are governed by separate boards that appoint each agency's executive director.

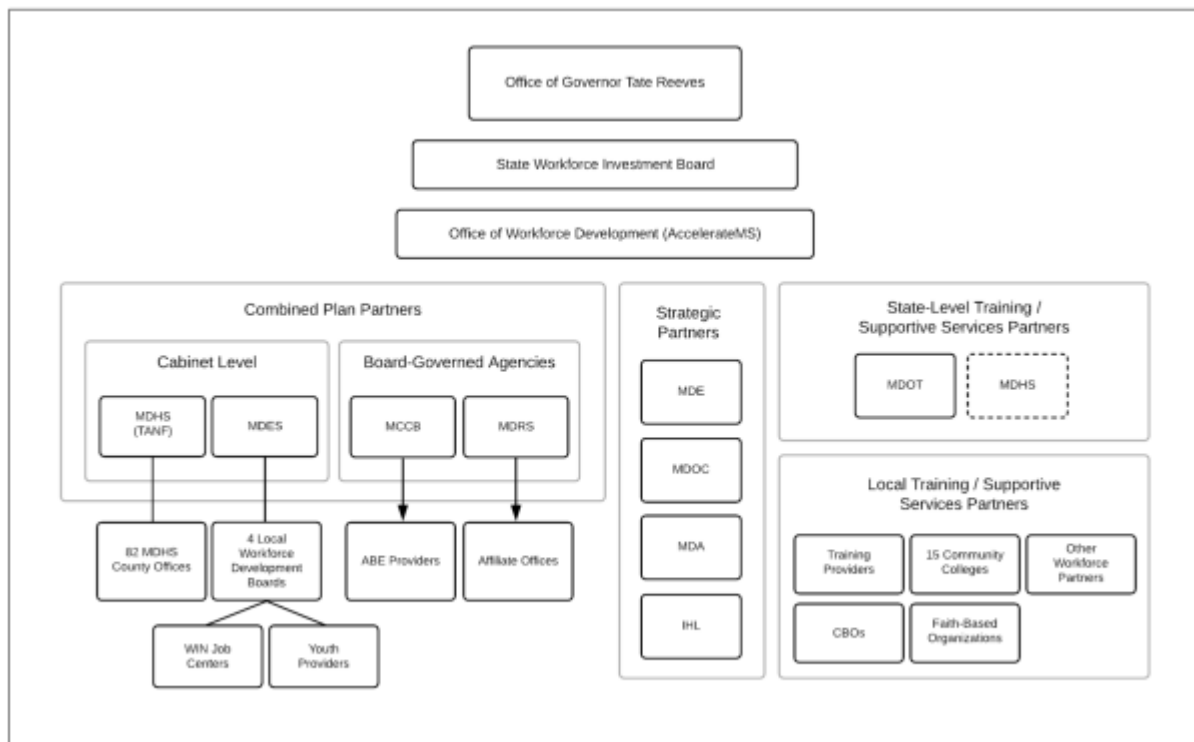

MCCB, Office of Adult Education, offers Adult Education services through its 15 member colleges and local programs approved through a formal request-for-application process.

MDRS provides services to the community via a combination of its own offices and through contracting organizations.

MDHS provides services to individuals and families through a network of 82 county offices.

MDOC manages a network of state and private correctional facilities.

Figure 16: State Agency WIOA Organization

MDES works closely with local partners, the four LWDAs, and the 10 Planning and Development Districts to deliver services via a network of WIN Job Centers and local Youth Providers.

The Governor, Lieutenant Governor, and Speaker of the House appoint members of the Mississippi State Board of Education, and the board appoints a superintendent to oversee operations of MDE. MDE delivers services through a network of local school districts that operate K-12 schools.

Finally, various community-based organizations such as Jobs for Mississippi Graduates and Goodwill's Mississippi Goodworks specialize in working directly with clients in cooperation with various agencies. These agencies coordinate with Combined Plan Partners through local workforce development boards or through contracts created with Combined Plan Partners.

B. STATE BOARD

Mississippi's State Workforce Investment Board consults with the Governor's Office to establish and promote state workforce priorities in consultation with Combined Plan Partners. The State Workforce Investment Board is also responsible to ensure that Mississippi's Combined Plan is executed and to review and approve any agency-specific regulations created by partners that may impact WIOA Combined Plan programs.

I. MEMBERSHIP ROSTER

	Last Name	First	Representing	Required		May Include
1	<u>Brashier</u>	<u>Anne Hall</u>	<u>Governor or Designee</u>	X	(1)(A)	-

II. BOARD ACTIVITIES

Board Activities

The State Workforce Investment Board conducts in-person meetings three times annually and conducts other business through electronic means. The board has charged the Office of Workforce Development (Accelerate MS) with responsibility to implement and modify Mississippi's Combined Plan and for the convening of meetings with all relevant programs, required partners, and stakeholders. The board consults with the Governor to ensure that Mississippi's Combined Plan is carried out in a transparent manner and in consultation with representatives of local boards, chief elected officials, businesses, representatives of labor organizations, community-based organizations (CBOs), adult and youth education and workforce development providers, institutions of higher education, disability service entities, youth-service programs, and other stakeholders with an interest in the services provided by the core programs and any optional program included in Mississippi's Combined Plan, as well as the general public, including individuals with disabilities. State Workforce Investment Board activities also include coordinating economic and workforce data analysis activities with the Mississippi State Longitudinal Data System Governing Board to ensure that local economic developers have access to detailed information to formulate sector strategies in local areas.

Local Workforce Development Boards

Mississippi is divided into four LWDAs. Local workforce development boards are board-administered, WIOA Strategic Partners responsible for regional and local development of workforce programs and the local implementation and oversight of One-Stop Centers. Local workforce development boards provide workforce-related education and training strategies for youth by contracting with local youth service providers.

The location of the Comprehensive One-Stop Centers and strategic partnership details have been determined by the local workforce development board in each LWDA based on targeted industries in the area and the needs of the workforce. This approach ensures that the services provided by the One-Stop Centers are aligned with data-driven sector strategies set by the State Workforce Investment Board. Comprehensive centers have been created in each of the four LWDAs. The local workforce development boards are responsible for memorandums of understanding (MOUs) with strategic partners. These MOUs describe the programs offered, detail the expectation of services for all involved partners, and address funding for support staff for each center. Appendix J contains the Office of the Governor's guidelines for the creation of Local Workforce Development Board WIOA plans. Each local board describes how service

delivery will be coordinated across all Combined Plan Partner programs at the local level in accordance with labor market realities and development goals.

Local workforce development boards have the option to include additional Affiliate One-Stop Centers with any subset of Combined Plan Partners as long as they include at least two partners. Local workforce development boards also have the flexibility to include additional partners in Affiliate One-Stop Centers. While local workforce development boards ultimately decide the logistics of affiliate centers, the WIOA law specifically identifies the following approved federally funded partners: employment and training programs administered by the Social Security Administration, including Ticket to Work and the Self Sufficiency Program; employment and training programs carried out by the Small Business Administration; Supplemental Nutrition Assistance Program Employment and Training (SNAP E&T) programs; Client Assistance Program; and programs authorized under the National and Community Service Act of 1990.

Local workforce development boards are also responsible to ensure that local activities and local sector targets line up with state-level sector analysis. The Mississippi LifeTracks system will be modified to include frequently updated, web-accessible reports that feature dashboard numbers, pathway analysis, and supply and demand analysis to ensure that economic developers in Mississippi have a near real-time picture of the labor market. Sector analysis revealed laborshed zones that transcend LWDA boundaries and allow local workforce development boards to serve as intermediaries to connect local employers and training providers to meet labor market demands. Employers will communicate labor demand in real time by posting job orders in Mississippi Works Labor Exchange.

Mississippi State Longitudinal Data System (LifeTracks)

Mississippi's State Longitudinal Data System (LifeTracks) was created to help meet data needs for reporting requirements and to answer critical policy questions relevant to education, workforce, and economic development. The Governing Board for the system consists of the executive directors of all data-contributing agencies in Mississippi, all of which are either Combined Plan Partner agencies or Strategic Partner agencies under WIOA. LifeTracks will play an integral role in combined WIOA reporting. Because all Combined Plan Partners currently contribute data to the LifeTracks system, and because LifeTracks was created, in part, for the purpose of assisting state agencies with reporting and strategic planning, Mississippi will be able to meet its reporting requirements efficiently. Further, LifeTracks will play a continuing role in the Mississippi Works Smart Start Career Pathway Model by coordinating with the State Workforce Investment Board to produce a state WIOA system reporting page on the lifetracks.ms.gov website that contains dashboard statistics, pathway analysis, and supply/demand analysis numbers that will enable state and local economic development professionals to organize all career pathway training around data-driven sector strategies in laborsheds that often cross LWDA boundaries.

LifeTracks is built upon the clearinghouse model that relies on strong partnerships and coordination between strategic partners. Mississippi's data clearinghouse is the National Strategic Planning and Analysis Research Center at Mississippi State University. The clearinghouse includes data from early childhood entities (e.g., Head Start); Mississippi Department of Education (MDE); all 15 community colleges and the Mississippi Community College Board; all eight public universities and the Institutions of Higher Learning (IHL); Mississippi Department of Employment Security (MDES); Mississippi Department of Human Services (MDHS); Mississippi Department of Rehabilitation Services (MDRS); Mississippi Department of Corrections (MDOC); Mississippi Development Authority (MDA); Mississippi State Department of Health (MSDH); and Mississippi Division of Medicaid (DOM). The clearinghouse includes data from 2000 to the present. Partners regularly transmit data through a secure transfer according to SLDS Governing Board rules and regulations and via memoranda of understanding (MOUs). The state data clearinghouse developed and manages Mississippi's online SLDS reporting system, LifeTracks (www.lifetracks.ms.gov). All data are stored in a state-

of-the-art data center built for managing large databases and hosting mission critical systems. The Mississippi SLDS also has access to one of the most powerful computing systems in the country for high-performance computations and complex modeling.

4. ASSESSMENT AND EVALUATION OF PROGRAMS AND ONE-STOP PROGRAM PARTNERS

A. ASSESSMENT OF CORE PROGRAMS

Assessment of Programs and One-Stop Program Partners

Core Programs Assessment

Mississippi's climate of data cooperation enables a smooth implementation of WIOA program assessment and reporting requirements.

The agency administering each Combined Plan Partner program is expected to negotiate performance targets with its federal office. AccelerateMS will review performance targets to ensure partners are effectively moving the state toward workforce development goals established by the State Workforce Investment Board. Data will be collected from Combined Plan Partners and compiled into an annual report and used by AccelerateMS to evaluate the workforce system. This report will include demographics, the state's workforce participation rate, and training outcomes by target industry sectors.

Local Workforce Boards negotiate performance targets with the state. Negotiations take into account local and regional ecosystem labor market information and planning goals. Local Workforce Board performance is monitored regularly to ensure they are contributing to overall state goals.

All Combined Plan Partners provide data required for WIOA federal reporting to the WIOA Hub, and local workforce development boards and the State Workforce Investment Board may establish other metrics to be used internally for strategic planning. A common participation period occurs when an individual is co-enrolled in more than one WIOA core program. Under these conditions, the client's performance will be reflected in reporting for all appropriate programs two and four quarters after exit.

Based on legislation and rules, WIOA reporting involves tracking data needed to compute eight primary indicators:

- Percent employed 2nd quarter after exit (Adult).
- Placement in employment or education 2nd quarter after exit (Youth).
- Percent employed 4th quarter after exit (Adult).
- Placement in employment or education 4th quarter after exit (Youth).
- Median earnings 2nd quarter after exit (all programs).
- Credential attainment up to one year after exit (all programs except Wagner-Peyser).
- Measurable skill gains (all programs except Wagner-Peyser).
- Effectiveness in serving employers (all programs).

Several indicators rely on the concept of the "exit" that, under current DOL regulations, occurs when an enrolled participant goes 90 days without receiving a service under a relevant program. Mississippi's State Longitudinal Data System will assist all WIOA partners in calculating these indicators.

B. ASSESSMENT OF ONE-STOP PARTNER PROGRAMS

One-Stop Program Assessment

Assessment of One-Stop Partner programs will take place according to 1) WIOA performance measures and 2) specific longitudinal measures of socioeconomic mobility and program effectiveness set by the State Workforce Investment Board. Data for assessment will initially be provided through a coordinated schedule of data transfers to the State Longitudinal Data System, LifeTracks. Once all coordinated technologies are able to submit real-time data to the WIOA Hub, an assessment of all partner programs will be able to occur in near real-time.

Assessment of One-Stop Partner programs is also conducted in accordance with the One-Stop Certification policy and the Memorandum of Understanding established among partner programs. The policy can be accessed with this link <https://acceleratems.org/wp-content/uploads/WIOA-2022-Appendix-N-Policy-16-One-Stop-Certification.pdf>

C. PREVIOUS ASSESSMENT RESULTS

Previous Assessment Results

Assessment results, based on WIOA performance measures, were computed for 1) all WIOA core programs, 2) Unemployment Insurance, and 3) Temporary Assistance for Needy Families (TANF). Employer retention was computed as a percentage of those employed in Q2 who had the same employer in Q4. Table 10 contains the results for fiscal year 2018-2019, and Table 11 contains results for fiscal year 2019-2020. These two fiscal years are the most recent years available based on wage data and the need to calculate measures four quarters from participant exit.

Table 10: Assessment Results of Combined Plan Programs, FY 2018-FY 2019 (July 1, 2018-June 30, 2019)

	Quarter 2 Employment	Quarter 4 Employment	Employer Retention	Quarter 2 Earning	Credential Attainment Rate	Skill Gain Rate
	(%)	(%)	(%)	(\$)	(%)	(%)
UI	68.42	64.57	5,691	6.07	2.23	68.42
MDRS	52.26	49.55	3,846	7.23	2.71	52.26
AE	50.82	52.84	2,459	12.80	4.12	50.82
TANF	53.33	40.00	1,679	13.33	0.00	53.33
WIOA Adults	83.90	84.30	6,003	66.30	44.90	83.90
WIOA Dislocated Workers	77.30	76.70	5,659	66.30	41.80	77.30
WIOA Youth	79.30	79.80	2,839	76.50	56.70	79.30
Wagner- Peyser	68.50	65.80	4,130	---	---	68.50

Source: LifeTracks, 2021. Youth Employment also considers enrollment in training or education post-exit, not just whether or not the Youth had a wage record in the respective quarter after exit.

Skill Gain Rate is the Measurable Skill Gain rate calculated by DOL based on PIRL ELEMENT #'s 1806, 1807, 1808, 1809, 1810. Median Earnings, not Average Earnings, are used for the official DOL Performance Reports for Q2 wages.

Table 11: Assessment Results of Combined Plan Programs, FY 2019-FY 2020 (July 1, 2019-June 30, 2020)

	Quarter 2 Employment	Quarter 4 Employment	Employer Retention	Quarter 2 Earning	Credential Attainment Rate	Skill Gain Rate
	(%)	(%)	(%)	(\$)	(%)	(%)
UI	80.53	77.34	4,647	16.32	4.24	80.53
MDRS	47.69	48.30	4,067	4.99	2.31	47.69
AE	51.53	53.03	2,294	8.25	1.85	51.53
TANF	70.59	70.59	1,152	23.53	11.76	70.59
WIOA Adults	86.20	85.30	6,262	79.40	44.40	86.20
WIOA Dislocated Workers	77.80	77.00	5,569	67.80	44.90	77.80
WIOA Youth	77.30	80.30	2,888	86.70	62.40	77.30
Wagner- Peyser	70.90	68.90	4,238	---	---	70.90

Source: LifeTracks, 2021. Youth Employment also considers enrollment in training or education post-exit, not just whether or not the Youth had a wage record in the respective quarter after exit. Skill Gain Rate is the Measurable Skill Gain rate calculated by DOL based on PIRL ELEMENT #'s 1806, 1807, 1808, 1809, 1810. Median Earnings, not Average Earnings, are used for the official DOL Performance Reports for Q2 wages.

During the period covered by this performance analysis, the Mississippi Department of Employment Security had already completed a transition to viewing all of its programs in the context of employment services. All participants registering for Unemployment Insurance benefits, Adult services, Dislocated Worker services, and Youth services joined Wagner-Peyser participants in completing a workforce profile in the Mississippi Works Labor Exchange as a part of overall agency intake. Employment performance measures for Q2 and Q4 demonstrate the benefits of the reemployment mindset in producing consistently good employment outcomes for participants in programs that partner with employment services.

These performance results emphasize the positive impact on employment that may be realized through partnership strategies that involve participants in any state workforce or supportive program with concurrent reemployment activities. This observation forms the foundation of the Mississippi Works Smart Start Career Pathway Model, a roadmap for ensuring that every form of assistance provided by partner agencies includes reemployment assistance to support reconnecting participants with the Mississippi labor market.

D. EVALUATION

Evaluations and research projects conducted within or across WIOA core programs will be coordinated with local boards and state agencies through the State Longitudinal Data System Governing Board. See Appendix B for rules governing the work of the Mississippi SLDS board. Appendix B can be accessed at the following link: https://acceleratems.org/wp-content/uploads/WIOA_2022_Appendix_B.pdf

5. DISTRIBUTION OF FUNDS FOR CORE PROGRAMS

A. FOR TITLE I PROGRAMS

I. YOUTH ACTIVITIES IN ACCORDANCE WITH WIOA SECTION 128(B)(2) OR (B)(3)

Distribution of Funds for Core Programs

Title I

Youth Activities in Accordance with WIOA Section 128(b)(2) or (b)(3)

Funds will be distributed according to WIOA requirements along with factors developed by the State Workforce Investment Board. These additional factors will be developed to ensure that funds are allocated in accordance with the Mississippi Works Smart Start Career Pathway Model and the implementation of the One-Stop Center system. LWDAs will also be required to develop a business plan that clearly outlines how funding streams from multiple programs will be aligned with the activities of the Mississippi Works Smart Start Career Pathway Model. As a result, Mississippi job seekers from every part of the state will have the opportunity to take advantage of an efficient, coordinated, and tailored workforce system.

The MDES Office of Grant Management writes a WIOA Communication each year to inform the LWDAs of the distribution of funds for Title I programs serving youth, adult, and dislocated workers. Funds are distributed through the Notice of Funds Availability process in the MS Works GrantTrak financial tracking module. Appendix H provides a sample WIOA Allocation Communication, https://acceleratems.org/wp-content/uploads/WIOA_2022_Appendix_H.pdf

II. ADULT AND TRAINING ACTIVITIES IN ACCORDANCE WITH WIOA SECTION 133(B)(2) OR (B)(3)

Distribution of Funds for Core Programs

Title I

Adult and Training Activities in Accordance with WIOA Section 133(b)(2) or (b)(3)

The MDES Office of Grant Management writes a WIOA Communication each year to inform the LWDAs of distribution of funds for Title I programs serving youth, adult, and dislocated workers. Funds are distributed through the Notice of Funds Availability process in the MS Works GrantTrak financial tracking module. Appendix H provides a sample WIOA Allocation Communication, https://acceleratems.org/wp-content/uploads/WIOA_2022_Appendix_H.pdf.

III. DISLOCATED WORKER EMPLOYMENT AND TRAINING ACTIVITIES IN ACCORDANCE WITH WIOA SECTION 133(B)(2) AND BASED ON DATA AND WEIGHTS ASSIGNED

Title I

Dislocated Worker Employment and Training Activities in Accordance with WIOA Section 133(b)(2) and Based on Data and Weights Assigned

The MDES Office of Grant Management writes a WIOA Communication each year to inform the LWDAs of distribution of funds for Title I programs serving youth, adult, and dislocated workers. Funds are distributed through the Notice of Funds Availability process in the MS Works GrantTrak financial tracking module. Appendix H provides a sample WIOA Allocation Communication. Appendix H can be accessed at the following link: [WIOA_2022_Appendix_H.pdf](https://acceleratems.org/WIOA_2022_Appendix_H.pdf) (acceleratems.org).

B. FOR TITLE II

I. DESCRIBE HOW THE ELIGIBLE AGENCY WILL AWARD MULTI-YEAR GRANTS OR CONTRACTS ON A COMPETITIVE BASIS TO ELIGIBLE PROVIDERS IN THE STATE, INCLUDING HOW ELIGIBLE AGENCIES WILL ESTABLISH THAT ELIGIBLE PROVIDERS ARE ORGANIZATIONS OF DEMONSTRATED EFFECTIVENESS

Title II

The Mississippi Community College Board, Office of Adult Education (OAE) is the state's Eligible Agency for Adult Education. The OAE is responsible for administering funds to eligible providers and providing program/performance oversight to grantees. The OAE will provide funding to eligible local entities for the provision of adult education services through a competitive Request for Application (RFA) process. The RFA is the mechanism through which OAE will identify, assess, and award multi-year grants to eligible providers throughout the state.

To meet the standard of demonstrated effectiveness and be considered eligible, an applicant must provide evidence of demonstrated effectiveness by providing two program years of performance data on its record in improving the literacy skills of eligible individuals, in particular individuals who are basic skills deficient, in the content domains of reading, writing, mathematics, English language acquisition, and other subject areas relevant to the services contained in the application for funds.

To be considered eligible, an applicant must also provide information regarding its outcomes for participants related to employment, attainment of a secondary school diploma or its recognized equivalent, and transition to post-secondary education and training.

Applicants applying as a consortium are required to provide evidence of demonstrated effectiveness and submit performance data for each entity that is a member of the consortium.

An eligible provider is an organization that has demonstrated effectiveness in providing adult education activities to eligible individuals and may include:

- A local education agency;
- A community-based or faith-based organization;
- A volunteer literacy organization;
- An institution of higher education;
- A public or private nonprofit agency;
- A library;
- A public housing authority;
- A nonprofit institution with the ability to provide adult education and literacy services;

- A consortium or coalition of agencies, organizations, institutions, libraries, or authorities described above; and
- A partnership between an employer and an entity described above.

WIOA defines the term “eligible individual” as an individual who:

1. Has attained 16 years of age
2. Is not enrolled or required to be enrolled in secondary school under state law
3. Is basic skills deficient
1. Does not have a secondary school diploma or its recognized equivalent, and has not achieved an equivalent level of education or
2. Is an English language learner

II. DESCRIBE HOW THE ELIGIBLE AGENCY WILL ENSURE DIRECT AND EQUITABLE ACCESS TO ALL ELIGIBLE PROVIDERS TO APPLY AND COMPETE FOR FUNDS AND HOW THE ELIGIBLE AGENCY WILL ENSURE THAT IT IS USING THE SAME GRANT OR CONTRACT ANNOUNCEMENT AND APPLICATION PROCEDURE FOR ALL ELIGIBLE PROVIDERS

The Office of Adult Education ensures all eligible providers have direct and equitable access to apply and compete for grants. The grant competition is publicized through a variety of print and electronic media throughout the state. Information is shared via the MCCB Office of Communications and Public Relations in the form of a formal press release, a posting on the MCCB website, social media outlets, and other means of available communication.

The Office of Adult Education awards funds to eligible providers for the delivery of adult education services. These services provide academic instruction below the postsecondary level that increase an individual’s ability to:

- Read, write and speak English and perform mathematics or other activities necessary for the attainment of a secondary school diploma or its recognized equivalent;
- Transition to postsecondary education and training; and
- Obtain employment.

In accordance with federal regulation, eligible providers may receive adult education funding for the delivery of any of the following adult education and literacy activities:

- Adult education;
- Literacy;
- Workplace adult education and literacy activities;
- Family literacy activities;
- English language and acquisition activities;
- Integrated English literacy and civics education;
- Workforce preparation activities; or
- Integrated education and training.

The Mississippi Community College Board will use the following process to distribute funds to approved applicants:

1. Not less than 82.5 percent of the grant funds to award grants and contacts under section 231 and to carry out section 225, Programs for Corrections Education and Other Institutionalized Individuals, of which not more than 20 percent of such amount shall be available to carry out section 225;
2. Shall not use more than 12.5 percent of the grant funds to carry out state leadership activities under section 223; and
3. Shall use not more than 5 percent of the grant funds, or \$85,000, whichever is greater, for administrative expenses of the eligible agency.

Federal funds may be used to increase the level of nonfederal funds that would be available in the absence of federal funds, and, in no case, replace those nonfederal funds. Federal funds must not be used for the purpose of supplanting, only for supplementing.

See Program Specific Requirements for Core Programs, Title II, Adult Education and Literacy Programs for additional details regarding the processes for distribution of funds and the request for application process.

C. VOCATIONAL REHABILITATION PROGRAM

Title IV Vocational Rehabilitation

Vocational Rehabilitation General and Vocational Rehabilitation for the Blind operate under the same administrative structure within the Mississippi Department of Rehabilitation Services as a Combined State Vocational Rehabilitation Agency. These programs report to a common administrative director. They share programmatic staff as well as agency resources to eliminate overlap and unnecessary duplication. Funds are allocated for both programs based on average cost per client served in each program and with consideration of additional costs for facility accessibility and training cost requirements for blind individuals.

6. PROGRAM DATA

A. DATA ALIGNMENT AND INTEGRATION

Program Data

Combined Plan Partners currently use a variety of agency-specific data systems to manage service delivery and case management data. Every Combined Partner data system shares data regularly with Mississippi LifeTracks, the state longitudinal data system, for retrospective analysis and with the Mississippi WIOA Hub that enables real-time partner data integration.

The Mississippi WIOA Hub software was completed in May of 2017. As of 2022, all current Combined Plan Partner data systems have either 1) been modified from their current state of interoperability to support real-time, cross-program data exchanges with the Mississippi WIOA Hub through the use of web services, or 2) were augmented by intermediate systems able to mediate between the agency's case management system and the WIOA Hub.

Combined Plan Partner data systems that are integrated include, by agency:

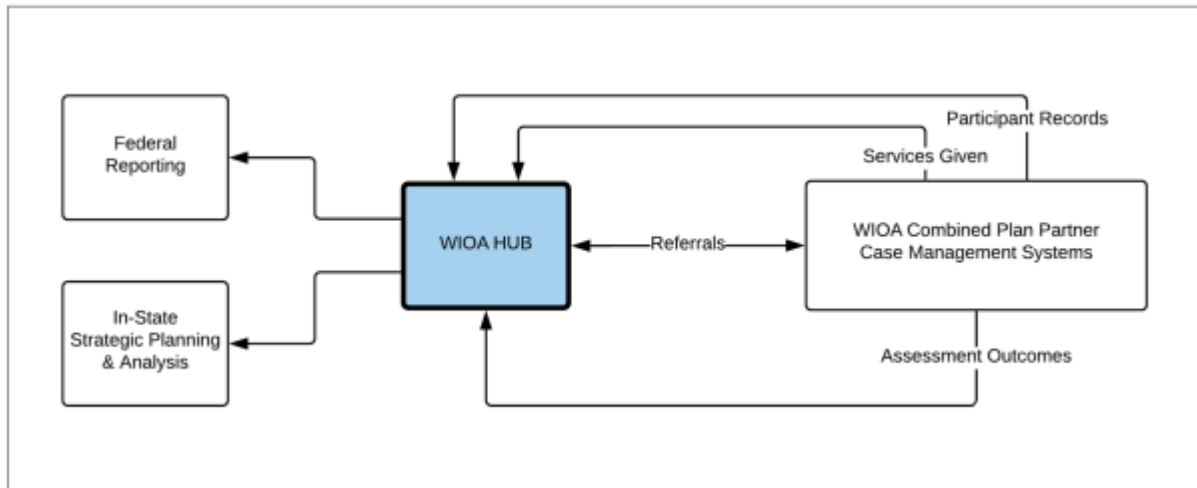

- **MDES** - The Mississippi Works Labor Exchange is the current workforce management software system used by the Mississippi Department of Employment Security (MDES) to administer, track, and report case management activities for Title I Adult, Dislocated Worker, and Youth services; Title III Wagner-Peyser services; Senior Community Service Employment Program services (SCSEP); Trade Adjustment Assistance (TAA) services; Jobs for Veterans State Grants Program services; and other workforce services.

Mississippi Works is a mature, real-time, integrated web and mobile solution providing labor exchange services to job seekers and employers and allowing MDES One-Stop partner staff to perform case management activities. The system was developed in Mississippi through a partnership between MDES and the National Strategic Planning and Analysis Research Center (NSPARC) at Mississippi State University (MSU). Mississippi Works currently supports the calculation of common participation periods across what have become all WIOA Title I and Title III programs. Mississippi Works already supports web services as a way to integrate with external systems. In addition, MDES administers the state Unemployment Insurance system using ReemployMS, a modern web application that supports web services. Currently, Mississippi Works and ReemployMS integrate to 1) ensure that participant contact information remains updated in both systems, 2) allow ReemployMS to fetch job matches for unemployment insurance benefits recipients, 3) allow workforce staff using the Mississippi Works Labor Exchange to access the UI status of a participant, and 4) allow workforce staff to log into both applications with one set of credentials (single sign-on).

- **MDRS** - The Mississippi Department of Rehabilitation Services, Office of Vocational Rehabilitation (OVR), and Office of Vocational Rehabilitation for the Blind (OVRB) administers vocational rehabilitation services using a commercial software package, AwareVR, created by Alliance Enterprises. This modern web application allows for complete program-specific case management of OVR/OVRB participants. AwareVR supports web services and connects in real time to the Mississippi WIOA Hub.
- **MCCB** - The Mississippi Community College Board currently administers Adult Education services via the Literacy, Adult and Community Education System (LACES), a web-based software system created by Literacy PRO Systems, specifically for Title II, Adult Education programs. The system allows MCCB and its affiliate instructors to enroll students and track performance through pre- and post-tests using a basic education-level assessment. In addition, the system allows MCCB to spot poorly attended classes before funds are spent inefficiently on instruction for few students. MCCB uses a state-developed system, Mississippi Adult Education (MAE), to connect to the WIOA Hub.
- **MDHS** - The Mississippi Department of Human Services administers the TANF program through several legacy applications, including MAVERICS and JAWS. MAVERICS supports case management data such as intake and eligibility information, and JAWS supports TANF Work Program data. While these systems do not inherently support web services, data exchanges with a newly created MDHS WIOA Hub Module allow for data exchanges with the Mississippi WIOA Hub.

Figure 17 illustrates how all WIOA Combined Plan Partners will interface with the Mississippi WIOA Hub in order to ensure that agencies are coordinated not only for the purposes of reporting and performance measurement but also in their approaches to individual case management.

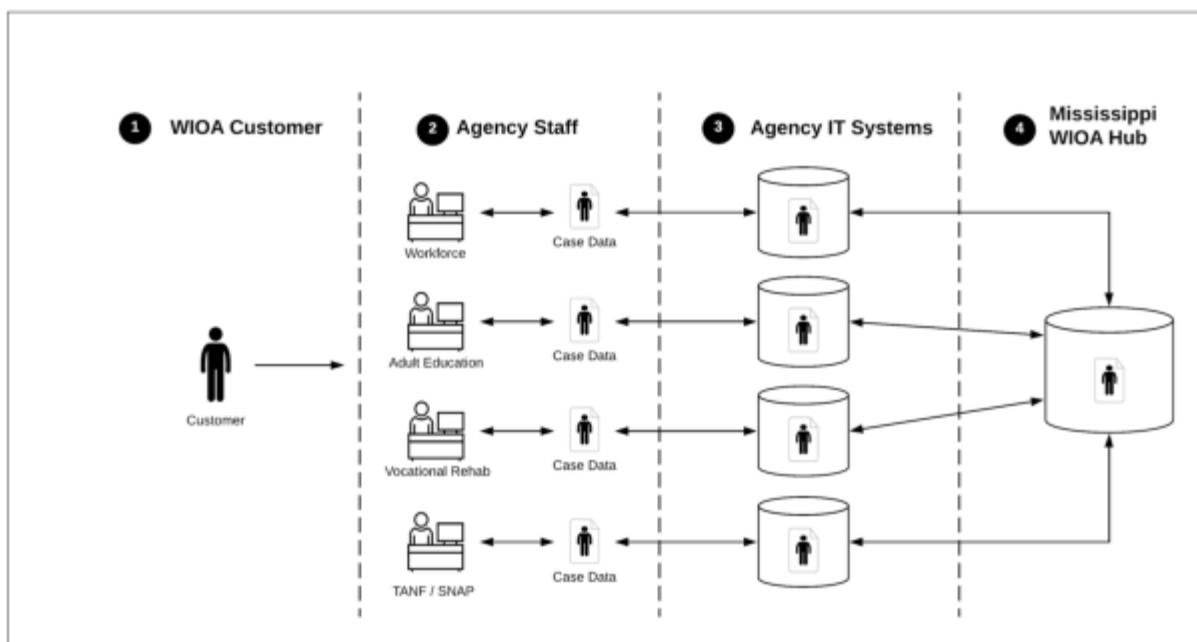

Figure 17: Data Exchanged Between Partners Common Module

During the course of case management activities, each Combined Plan Partner will generate participant data such as participant records (basic information), information on services given to the participant, information on assessment outcomes, and any referrals to partner programs. These data items will be passed from Combined Plan Partner systems to the Mississippi WIOA Hub. In addition, Combined Plan Partners will receive any referrals submitted by other Plan Partners. Information in the Mississippi WIOA Hub will be used to compute Combined Plan Partner performance measures for reporting to the Department of Labor and also to conduct data-driven, in-state strategic planning.

In order to exchange program data, the Mississippi WIOA Hub provides a machine interface. Agency systems use the machine interface to ensure that data are reported properly and in real time while enabling their staff to continue to use familiar case management technology. Figure 18 illustrates that 1) a WIOA customer may access WIOA services from any WIOA partner, 2) the partner's caseworkers access the WIOA Hub through their own internal agency systems, and 3) the partner systems communicate with each other through the WIOA Hub, and 4) the WIOA Hub itself is a headless, coordinating system.

Figure 18: Conceptual Model of Agency Integration

While all Mississippi Combined Plan Partners serve participants in ways that fit best with each partner's focus and in terms of each partner's programmatic rules, several data artifacts of case management are standardized to ensure that agencies are able to align their intake and service delivery processes efficiently to avoid duplication.

- **Common Intake Profile and Identifier** - The Mississippi Works Common Intake Profile is the basic unit of identification for a participant who begins to receive services through any Mississippi Combined Plan Partner. Each profile will have a Mississippi Works ID number that will be generated to allow the correlation of participant profiles with future data exchanges of services, referrals, Individualized Success Plans, and other participant attributes. There is no wrong door in the Smart Start Career Pathway Model; a participant may begin at any partner and be referred at any point to other partners for training and supportive services needed to fulfill the participant's career pathway into middle-skill employment.
- **Diagnostic Checklist and Decision Tree** - Along with the common intake profile, each Combined Plan Partner will collect, during intake, answers to a diagnostic checklist composed of questions submitted by all Combined Plan Partners. Upon receiving the diagnostic checklist from the Combined Plan Partner system, the Common Intake and Reporting Module will compare the diagnostic checklist to a decision tree that will automatically generate electronic referrals on behalf of the participant to any relevant Combined Plan Partner. For instance, a positive answer to the diagnostic checklist question "Do you have trouble buying food for your family?" may generate a referral to the Mississippi Department of Human Services which administers SNAP and TANF.
- **Agency-to-Agency Referrals** - Agency-to-agency referrals are electronic records created in the Mississippi WIOA Hub to connect a participant who receives services from one WIOA Combined Plan Partner to another partner. The benefit of a formalized referral process is that it enables follow-ups, assessments of partner cooperation, and greater accountability for participants who have work search requirements associated with Combined Plan Program enrollments. Referrals will have several attributes, including the referring partner, the recipient partner, the recommended partner service, status, and staff notes. All new referrals receive the status "pending." Combined Plan Partner staff in local partner offices and Comprehensive One-Stop Centers are able to access a real-time list of referrals for participants in their local area. After a partner system downloads the referral, the status of a referral changes from "pending" to "received." This allows the receiving agency partner staff to view the participant's Individualized Success Plan, view the referring agency's referral note, and access contact information so that the partner can contact the individual for a phone or in-person interview. Once a participant receives a service through the agency that received the referral, the referral will change to "resolved." If the participant is ineligible or does not need the services offered by the partner, the partner can mark the referral "closed" and choose a reason from a drop-down list to indicate why the participant received no services as a result of the referral.
- **Common Individualized Success Plans** - Individualized plans exist under various names in each Combined Plan Partner's toolkit for case management. For instance, Mississippi Department of Rehabilitation Services, OVR, and OVRB clients complete an "Individualized Plan for Employment" with a staff member, and Mississippi Department of Employment Security participants in the Trade Adjustment Assistance program complete an "Individual Employment Plan." The Common Individualized Success Plan, under Mississippi's WIOA implementation, will be an electronic record stored in the Mississippi Works Common Intake and Reporting Module that captures information common to current plans, such as goals, skills and experience, barriers, barrier mitigation strategies, referrals to supportive services, and participant

rights/responsibilities. In addition, the plan will allow cross-agency case notes. As a participant receives referrals, these elements will be attached to his or her Individualized Success Plan. Participants who have created accounts in the Mississippi Works Labor Exchange will be able to review and print their own Common Individualized Success Plan. The Mississippi WIOA Hub will allow agency staff to consult and modify relevant portions of any participant's Common Individualized Success Plan.

- **Common Service Catalog** - In order to ensure the most efficient alignment of services and avoid duplication in service delivery, the Mississippi WIOA Hub supports the maintenance of a catalog of partner services. This common catalog of services contains services offered by all Common Plan Partners as well as supportive services from Strategic Partners. Each service is categorized. For example, childcare services offered by the Mississippi Department of Human Services under TANF are categorized as a "Childcare Barrier Mitigation Service." Likewise, childcare services offered by a community college Strategic Partner are also be categorized as a "Childcare Barrier Mitigation Service." When agency staff attempt to create a referral that suggests a service already being offered to the participant, agency systems will be able to detect the potential service duplication and allow the agency staff or system to take the appropriate action. Agency collaboration in maintaining and updating the common catalog of services will ensure that complementary services will be categorized differently and duplicative services will be categorized identically.
- **Common Assessment Catalog** - In order to enable the computing of improvements in assessment outcomes such as literacy or numeracy scores or work-readiness, the Mississippi WIOA Hub supports the maintenance of a catalog of possible assessments. Each assessment is categorized and consists of one or more numerically expressed scores. For example, Adult Education service delivery makes use of an assessment of educational functional level. Assessment scores are expressed as grade-level equivalency in several categories (reading, math, applied math, and language). The catalog would categorize the assessment as literacy/numeracy measurements and specify that scores will be expressed by a collection of four scaled numerical scores. Agency collaboration in maintaining and updating the common catalog of assessments will ensure that reported outcomes from different agencies administering assessments at different points in the participant's pathway can be compared properly to assess measurable gains in areas such as literacy, numeracy, work-readiness, and other measurable participant attributes.
- **Common Credential Catalog** - In order to enable the tracking and reporting of credential attainment, the Mississippi WIOA Hub supports the maintenance of a catalog of possible credentials. Credentials attained, such as industry-recognized certifications or academic certificates, are reported by education or training partners during a participant's pathway progress. Agency collaboration with education and training providers to maintain and update the Common Credential Catalog supports efforts to assess whether Combined Plan Partners are supporting the attainment of credentials. The Common Credential Catalog will also provide a valuable source of data that enables participants to explore credential options within the Mississippi Works Labor Exchange.
- **Work-Ready Report Card** - For participants on the Work-Ready Pathway, creation of a workforce profile in the Mississippi Works Labor Exchange will culminate with the automatic generation of a Work-Ready Report Card. Based on the participant's education, experience, driver's license class, location, and other profile information, the Work-Ready Report Card will help the participant clearly understand his or her skill level, experience level in the occupations appropriate for the skill level, likely career transitions based on the participant's previous experience, and labor market information (average salary, demand projections, and number of current job openings)

for each occupation within the participant's skill level. The Work-Ready Report Card will also contain aspirational information about the preparation needed to be competitive for other occupations that may be in higher skill levels.

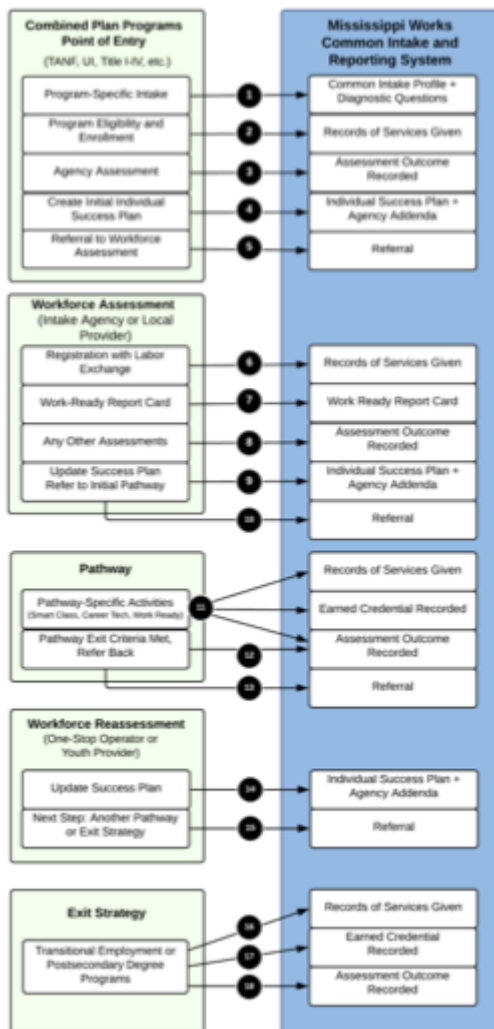

The Work-Ready Report Card will also be available to any participant with a completed profile in the Mississippi Works Labor Exchange, even those who registered in previous years, and it will be dynamic, taking into account current labor market information and any changes to a participant's profile.

Using a common profile, enabling agency-to-agency referrals, collaborating on a participant's Individualized Success Plan, operating via a common service catalog, and reporting assessment results via a common outcome catalog will enable a high degree of coordination and efficiency in WIOA case management. Figure 19 puts these elements together to demonstrate how data are collected and used at each point along a participant's engagement with the Mississippi Works Smart Start Career Pathway Model.

At nearly every step in the Mississippi Works Smart Start Career Pathway Model, data will be generated by Common Plan Partners and transmitted to the Mississippi WIOA Hub. The following material below describes each of the 18 data exchanges depicted in Figure 19. Numbers below correspond to the labels in Figure 19.

In addition to data generated during the participant's route through the Mississippi Works Smart Start Career Pathway Model, any transitional employment or final, unsubsidized employment will generate wage records captured by the Mississippi Department of Employment Services Unemployment Insurance system, *ReEmploy MS*. These data, wage records, will be correlated with data on WIOA service enrollments in the Mississippi WIOA Hub to calculate WIOA performance measures such as "Employed in the Second Quarter after Exit."

Figure 19: Data Created and Aligned in the Mississippi Works Smart Start Career Pathway Model

<p>Combined Plan Programs Point of Entry</p>	<p>When a participant first encounters a Combined Plan Partner to receive Title I Adult, Dislocated Worker, and Youth services, Title II Adult Education and Family Literacy Act (AEFLA) services, Title III Wagner-Peyser services, Title IV Vocational Rehabilitation (VR) services, Unemployment Insurance (UI) services, Senior Community Service Employment Program (SCSEP) services, Trade Adjustment Assistance (TAA) services, Jobs for Veterans State Grants Program services, or Temporary Assistance for Needy Families (TANF), he or she will pass through a program-specific intake procedure that will collect the minimal amount of information required to create an initial Common Intake Profile. In addition, the participant will answer a questionnaire composed of diagnostic questions submitted by each Combined Plan Partner. As the partner program's system transmits the intake profile and diagnostic question to the Mississippi WIOA Hub, the common system will either create a new Common Intake Profile or, if the participant has been registered previously, update the existing participant's Common Intake Profile with the newly collected information. The common system will respond to the Combined Plan Partner system with a Mississippi Works ID number that will enable future web service calls to transmit participant data by reference to a unique identifier. Based on answers provided to the diagnostic questions, the common system will automatically create electronic referrals to Combined Plan Partner services based on a decision tree. For example, if the participant signifies that he or she has recently lost a job, a referral may be made to MDES for Unemployment Services. When a Combined Plan Partner enrolls the participant in a service, the partner's case management system will transmit a service enrollment to the Mississippi WIOA Hub. This service enrollment will reference both the participant's Mississippi Works ID and the unique identifier of the service itself, as listed in the Common Service Catalog. Some Combined Plan Partners will perform workforce-readiness assessments. Any assessments will be transmitted to the Mississippi WIOA Hub as an Assessment Outcome. Assessment Outcomes are any measurable attribute, such as a test score, that WIOA partners wish to associate with a participant in order to gauge future improvements. In the case of a basic education level assessment, which is expressed as a grade level, the Mississippi WIOA Hub will allow all subsequent grade-level scores to be entered as outcomes to be assessed for improvements relevant to WIOA performance measures.</p>
---	---

Workforce Assessment	<p>As a first step in workforce assessment, the participant will register with the Mississippi Works Labor Exchange. This step will transmit a service record to the Mississippi WIOA Hub and change the status of the workforce assessment referral to “resolved.”</p> <p>Registration in the Mississippi Works Labor Exchange will lead automatically to the generation of a Work-Ready Report Card. The Work-Ready Report Card will be a living data object, automatically adapting to labor market information and accessible to partner agencies through the Mississippi WIOA Hub via a web service call.</p> <p>Depending upon LWDA policies, some providers may perform an initial assessment of the participant using an assessment instrument included in the Common Assessment Catalog. Assessment Outcomes will be transmitted to the Mississippi WIOA Hub via a web service call.</p> <p>Working together with a One-Stop Center or Youth Provider staff member, or a staff member from any intake agency, the participant will further refine his or her Individualized Success Plan to reflect an initial pathway destination (either the Smart Start Pathway Class, Career Tech, or Work Ready Pathway). The revised Individualized Success Plan will be transmitted to the Mississippi WIOA Hub.</p> <p>A referral will be generated to the Combined Plan Partner responsible for the initial pathway destination. The referral will be transmitted to the Mississippi WIOA Hub and will be visible on staff dashboards in the relevant Combined Plan Partner’s case management system.</p>
Pathway	<p>The participant will begin pathway-specific activities under the oversight of a Combined Plan Partner. During pathway activities, a number of data elements may be generated and transmitted to the Mississippi WIOA Hub, including service enrollments, earned credentials, or assessment outcomes.</p> <p>Once the participant has completed pathway activities and has met the pathway’s exit criteria, any assessment scores generated during exit assessment will be transmitted to the Mississippi WIOA Hub.</p>

	<p>Exiting participants will be referred back to the workforce assessment partner (One-Stop Center or Youth Provider) that initially referred the participant to the pathway. This referral will be recorded in the Mississippi WIOA Hub and will appear on staff dashboards in the Mississippi Works Labor Exchange software in use at all One-Stop Centers and Youth Providers.</p>
Workforce Reassessment	<p>After a pathway is completed, the participant will be assessed again by a One-Stop Center or Youth Provider partner to update the participant's Individualized Success Plan and determine next steps. The revised Individualized Success Plan will be transmitted to the Mississippi WIOA Hub.</p> <p>Reassessment will either determine that the participant needs to enter another pathway and begin the Pathway->Reassessment loop again or that the participant is ready to enter an exit strategy that will connect the work-ready participant to unsubsidized employment. Following the exit path, a referral to an exit strategy will be created and transmitted to the Mississippi WIOA Hub. Depending upon which exit strategy is chosen, staff for the relevant Combined Plan Partner will be notified of the referral.</p>
Exit Strategy	<p>During the participant's exit strategy, any service enrollments into Common Service Catalog services will be transmitted to the Mississippi WIOA Hub.</p> <p>Some exit strategies involve two- or four-year credential attainment or the attainment of other recognized credentials from the Common Credential Catalog. Earned credential records will be transmitted to the Mississippi WIOA Hub.</p> <p>Some exit strategies will involve further assessments. Assessment outcome records will be transmitted to the Mississippi WIOA Hub. Some credentials such as the Career Readiness Certificate (CRC) are awarded based on assessments. In the case of the CRC, both assessment and credential records will be created and transmitted to the Mississippi WIOA Hub.</p>

--	--

The Office of Workforce Development (AccelerateMS) will ensure the alignment of technology and data systems through collaboration with three state entities: the Mississippi Department of Employment Security (MDES), the State Longitudinal Data System (LifeTracks) Governing Board, and the National Strategic Planning and Analysis Research Center (NSPARC) at Mississippi State, the state data clearinghouse.

Mississippi designed and developed a data system called the “WIOA Hub” to assist individuals across the WIOA partner agencies. A key goal of WIOA is to ensure that a Mississippian is connected to all services they need to connect to a job. Services from Mississippi's WIOA partners help remove barriers to work such as childcare needs, lack of transportation, lack of a high-school diploma, help to search for a job, or help to overcome a disability. The Hub allows agencies to work together to ensure that customers get connected to the mixture of services they need to succeed. A key activity of WIOA implementation in Mississippi was creating a comprehensive dictionary of all the services provided by WIOA partners.

The Hub plays a key role in allowing agencies to refer customers electronically, with the goal that no one falls through procedural cracks. The Hub is like a post office and every participating WIOA partner agency can use their own systems (mailboxes) to send and receive referrals to each other.

MDES will continue to develop and maintain the Mississippi WIOA Hub according to AccelerateMS priorities, and AccelerateMS will convene committees of all Combined Plan Partners as needed to inform the ongoing evolution of the system to support cross-agency coordination of case management.

The State Longitudinal Data System Governing Board, consisting of representatives from all state data-contributing agencies, will continue to work with SWIB to conduct data analysis and performance assessments and assist with federal reporting.

NSPARC serves the SLDS Governing Board by operating the state data clearinghouse. NSPARC will assist MDES in the ongoing development and maintenance of the Mississippi WIOA Hub and in the integration activities necessary to make Combined Plan Partner systems interoperable with the common system.

Based on Memoranda of Understanding (MOU), WIOA partners will continue to work with the State Longitudinal Data System and the State Data Clearinghouse to develop and produce the reports required under WIOA. These MOUs allow WIOA partners to submit their administrative records into the Mississippi State Data Clearinghouse, where the wage records and program participation data can be securely aligned by the clearinghouse's data science professionals. After wage records and participation data are aligned, additional education and demographic information is integrated from Mississippi's State Longitudinal Data System. This process creates a comprehensive dataset containing the participant, employment, education, and demographic data that are necessary to complete the reports that are required under WIOA section 116(d)(2). This data is then shared out with WIOA partners, who use it to calculate performance measures and produce reports that are aligned with the PIRL format. Furthermore, the data science professionals at Mississippi's State Data Clearinghouse are continuously available to WIOA partners, and are able to provide on-demand technical assistance in calculating the performance measures or generating the reports.

The Mississippi Department of Employment Security has created and continues to develop the GranTrak application that facilitates the tracking of awarded grant funds. This application allows MDES to track grants received from DOL and to allocate the funds to local workforce development boards or to Planning and Development Districts that further track funds spent to serve WIOA participants. At the end of the life cycle of a given grant, GrantTrak generates ETA 9130 reports from the initiation to the close-out of the funds for DOL reporting. GrantTrak features automatic notifications of funds availability, reminders for deadlines, data validation, report generation, personnel approvals, and attachment/uploading of supporting documents that capture, for instance, approval signatures from local elected officials.

B. ASSESSMENT OF PARTICIPANTS' POST-PROGRAM SUCCESS

Assessment of Participant's Post-Program Success

In addition to making use of WIOA performance measures to assess the post-program success of WIOA participants, the Office of Workforce Development (AccelerateMS) will determine additional, specific longitudinal measures of socioeconomic mobility. Through the State Longitudinal Data System (LifeTracks), education, workforce, and other measures of well-being will be tracked not only in the second and fourth quarters after exit from WIOA-related services but also in the five to 10 years after exit to reveal economic and workforce trends, which will enable the state to more effectively compare actual outcomes with desired outcomes. Results for relevant measures will be available, in the aggregate, to all Mississippians via the LifeTracks online reporting website (LifeTracks.ms.gov) and will be used by the State Workforce Investment Board to further improve and coordinate Combined Plan Partner activities. In particular, this analysis will be used to ensure that combined activities support outcome improvements for all sub-populations, including veterans, persons with disabilities, at-risk youth, and other vulnerable Mississippians.

C. USE OF UNEMPLOYMENT INSURANCE (UI) WAGE RECORD DATA

Use of Unemployment Insurance (UI) Wage Record Data

Mississippi uses quarterly wage record information to measure progress on state and local performance measures. Currently, the Mississippi Department of Employment Security has a data sharing agreement with the National Strategic Planning and Analysis Research Center at Mississippi State University to provide performance reporting through the ETA 9173 and the Title I and Title III Standardized Reporting Data (PIRL) reports. State UI wage records and State Wage Interchange System (SWIS) data are transferred to the National Strategic Planning and Analysis Research Center via a Mississippi Department of Employment Security secure web file server. Safeguards are in place to ensure that the National Strategic Planning and Analysis Research Center deletes all SWIS quarterly wage data after the ETA 9173 and the PIRL reports are generated and delivered to the Mississippi Department of Employment Security. State UI wage records, however, are stored by the National Strategic Planning and Analysis Research Center on behalf of and for the use of the statewide longitudinal data system, Mississippi LifeTracks, for which the National Strategic Planning and Analysis Research Center is the state data clearinghouse.

D. PRIVACY SAFEGUARDS

Privacy Safeguards

The state of Mississippi has made large efforts to ensure privacy protection. In order to protect the privacy of Mississippians, all partners that will provide and share data in collaboration efforts, through Mississippi Works and other aligned technologies, have agreed on a memorandum of understanding (MOU) to ensure security of sensitive information. All partners

expressly agree to abide by all applicable federal, state, and local laws regarding confidential information and to adhere to the same standards of confidentiality as state employees, including but not limited to:

- 29 U.S.C. 2935; as amended by WIOA - reports, recordkeeping, and investigations.
- 29 U.S.C. 2871(f)(3); as amended by WIOA - regarding confidentiality.
- 20 CFR Part 603 - safeguards and security requirements regarding disclosed information under Unemployment Compensation.
- 42 U.S.C. 503 - regarding state laws governing Unemployed Insurance operations.
- 20 CFR 617.57(b) - regarding disclosure of information under the Trade Act.
- 29 U.S.C. 491-2(a)(2); as amended under WIOA - regarding information to be confidential under the Wagner-Peyser Act.
- The Privacy Act (5 U.S.C. 552).
- The Family Educational Rights and Privacy Act (20 U.S.C. 1232g).
- 34 CFR 361.38 - protection, use, and release of personal information of Vocational Rehabilitation Services participants.
- HIPAA: 45 CFR 164.500 - 164.534.
- 2 CFR 200.303 - regarding reasonable measures to safeguard protected personally identifiable information.

Each partner will ensure that the collection and use of any information, systems, or records that contain personally identifiable information will be limited to purposes that support the programs and activities described by relevant memorandums of understanding (MOUs) as part of the Mississippi workforce development system and Statewide Longitudinal Data System Rules and Regulations (see Appendix B) as provided for in Miss. Code Ann. §37-154-1 and §37-154-3.

Each partner will ensure that access to software systems and files under its control that contain personally identifiable information will be limited to authorized staff members who are assigned responsibilities in support of the services and activities provided as part of the Mississippi workforce development system and who must access the information to perform those responsibilities. Each partner expressly agrees to take measures to ensure that no personally identifiable information is accessible by unauthorized individuals.

7. PRIORITY OF SERVICE FOR VETERANS

Priority of Service for Veterans

To ensure veterans receive consideration for all opportunities for which they qualify, the Mississippi Department of Employment Security will ensure 1) covered persons are aware of their entitlement to priority of service, 2) covered persons are aware of the full array of employment, training, and placement services available through One-Stop Centers and all service points, and 3) that all applicable eligibility requirements for these programs are understood and applied.

MDES will also utilize the following to provide priority of service:

- Under normal funding circumstances, refer qualified veterans to new job openings, especially Federal Contractor job orders, prior to all non-veteran job referral activity.

- Veteran placement at the top of WIOA waiting lists (ITAs and OJT) for limited training fund circumstances.

MDES management will monitor priority of service by reviewing quarterly performance reports, manager reports, and MS Works reports. MDES management will monitor priority of service in covered programs at two levels. Workforce Investment Network (WIN) Job Centers will continue to use established protocol of identifying targeted groups. At the state level, management will continue to analyze performance reports, manager reports, and MS Works reports. WIN Job Center services are made available and provided to eligible veterans, transitioning service members, VA VR & E Chapter 31 veterans, Native American Veterans, other groups targeted for special consideration, and veterans with significant barriers to employment through outreach activities performed by Disabled Veteran Outreach Specialists (DVOPs). MDES will continue to encourage non-DOL program partners to focus on providing priority of service to targeted groups for special consideration.

DVOPs are integrated into the WIN Job Center service delivery system at the local job center level. Eligible veterans and eligible persons with significant barriers to employment are identified by intake forms or by electronic registration and referred to or assigned to DVOPs after other One-Stop Center staff complete initial service intake. DVOPs will be cross-trained to understand the full complement of WIOA and Combined Plan Partner programs that may be available. In instances when a DVOP is not available or has reached the predetermined caseload, another One-Stop Center staff will provide services to veterans and eligible persons as appropriate.

State Policy Number 6, Priority of Services for Veterans can be accessed using this link.
<https://acceleratems.org/wp-content/uploads/WIOA-2022-Appendix-K-Priority-of-Service-for-Veterans-and-Eligible-Spouses.pdf>

8. ADDRESSING THE ACCESSIBILITY OF THE ONE-STOP DELIVERY SYSTEM FOR INDIVIDUALS WITH DISABILITIES

Addressing the Accessibility of the One-Stop Delivery System for Individuals with Disabilities

In order to be certified, one-stop centers and the one-stop delivery system are evaluated and must meet or exceed the standards established for programmatic and physical accessibility. Evaluations of accessibility take into consideration the feedback from one-stop customers, and how well the one-stop center ensures equal opportunity for individuals, regardless of disability or cultural background, to participate in or benefit from one-stop center services. These evaluations must include criteria evaluating how well the centers and delivery systems take actions to comply with the disability-related regulations implementing WIOA sec. 188 and 29 CFR Part 38. Such actions include, but are not limited to:

1. Providing reasonable accommodations for individuals with disabilities;
2. Making reasonable modifications to policies, practices, and procedures where necessary to avoid discrimination against persons with disabilities;
3. Administering programs in the most integrated setting appropriate;
4. Communicating with persons with disabilities as effectively as with others;
5. Providing appropriate auxiliary aids and services, including assistive technology devices and services, where necessary to afford individuals with disabilities an equal opportunity to participate in, and enjoy the benefits of, the program or activity; and
6. Providing for the physical accessibility of the one-stop center to individuals with disabilities.

The One-Stop Certification policy, <https://acceleratems.org/wp-content/uploads/WIOA-2022-Appendix-N-Policy-16-One-Stop-Certification.pdf> describes the State's accessibility criteria.

1. All one-stop centers must comply with applicable physical and programmatic accessibility requirements, as set forth in 29 CFR part 38 and the implementing regulations of WIOA sec. 188.

9. ADDRESSING THE ACCESSIBILITY OF THE ONE-STOP DELIVERY SYSTEM FOR INDIVIDUALS WHO ARE ENGLISH LANGUAGE LEARNERS

Addressing the Accessibility of the One-Stop Delivery System for Individuals with Limited English Language Proficiency

The Mississippi Department of Employment Security specifies its policies for assisting Limited English Proficiency individuals in its "Limited English Proficient (LEP) Individuals Policy Statement and Procedures." This document establishes policies designed to ensure the accessibility of all services to individuals with limited English proficiency in One-Stop centers, Youth Providers, and any recipients of federal financial assistance. Staff will first determine an individual's primary language using "I Speak" language posters. Using printed "I Speak" resources, staff will then inform the LEP individual that interpreter services are available at no cost. If the LEP individual cannot understand written or verbal English, staff can access several options for interpretation: local partner interpreter services; Language Line Interpreter Services; and the individual's own interpreter, if requested. Policies also specify that vital documents will be translated into appropriate languages.

IV. COORDINATION WITH STATE PLAN PROGRAMS

Coordination with Combined State Plan Programs

Overview of Steps Taken to Align Agencies

Planning Workgroups

For the 2022 WIOA Combined State Plan revision, the State Workforce Investment Board convened a series of five interagency meetings, beginning in Fall of 2021, to bring together all WIOA strategic and core partners along with representatives of all local workforce areas. Partners reviewed progress towards implementation of the 2014, 2018, and 2020 WIOA plan revisions and noted successes and challenges. The group consensus was in favor of continuing Mississippi's Smart Start Career Pathway strategy. Data analysis activities undertaken to completely update the strategic and operational aspects of the state plan revealed success in meeting the original plan's goal of helping Mississippians find work through in-demand opportunity occupations. The consensus was that the state is now realizing positive outcomes from the implementation of the original WIOA strategy and that continuing to improve our ability to operate as a workforce ecosystem would help to fulfill the goal of ensuring that Mississippians have high-quality, in-state career pathways that will enable their children and grandchildren to live here, raise families, and grow the state.

This section contains details on the original planning process as background to stakeholder engagement in the 2022 plan revision process.

Mississippi's original WIOA planning process began in July 2014 with the establishment of a SWIB task force to conduct a study on workforce development needs in Mississippi. A poll of SWIB members during the February 2015 SWIB meeting recommended using the findings of the task force study as a common framework in the development of the workforce plan as prescribed by WIOA. To kick off the development of the workforce plan, the governor met with education and workforce stakeholders to encourage their participation in the process. A

planning document was developed that clearly outlined how each party would be involved. Working groups were established to seek input for the development of the strategic and operational aspects of the workforce plan. Open meetings provided ample opportunity for the public to contribute to the process. A focus group was conducted to gather input from the business community. A website was created to provide regular updates on the process and to provide an additional avenue for the public to participate.

Throughout the process, LWDAs were represented in each workgroup and provided comments on the initial draft of the Combined Plan. In addition, local workforce development boards were tasked with updating and seeking input from chief elected officials in their respective areas on the development of the Combined Plan.

In efforts to support the Governor’s vision of an integrated workforce ecosystem and collaboration across stakeholders statewide, seven planning workgroups reflecting the two major planning elements (i.e., strategic planning and operational planning) of the WIOA were established. Each of these workgroups was tasked with specific roles and responsibilities to help focus efforts on critical components of the WIOA. A chair and a vice chair were selected from each group to help align internal workgroup activities. The seven planning workgroups were organized as follows:

Strategic Planning Workgroups	Operational Planning Workgroups
<ul style="list-style-type: none"> • Planning and Communication Workgroup 	<ul style="list-style-type: none"> • One-Stop Operations Workgroup
<ul style="list-style-type: none"> • Aligned and Integrated Technology Workgroup 	<ul style="list-style-type: none"> • Career Pathways and Assessment Workgroup
<ul style="list-style-type: none"> • Sector Strategies Workgroup 	<ul style="list-style-type: none"> • Performance and Accountability Workgroup
	<ul style="list-style-type: none"> • Employer Engagement Workgroup

The workforce groups organized under the Strategic Planning Element worked collaboratively on identifying strategies and goals for bringing the Governor’s vision of a unified workforce ecosystem to fruition. These workgroups included the Planning and Communication Workgroup, the Aligned and Integrated Technology Workgroup, and the Sector Strategies Workgroup.

1. The Planning and Communication Workgroup managed the planning process of Mississippi’s Combined Plan. The primary responsibility was to ensure that the other workgroups remained on task and on time with meeting deadlines. Communication facilitation was another responsibility of this workgroup, as it was tasked with effectively communicating with the other entities throughout the planning process. This group communicated with other workgroups as well as with stakeholders to ensure that the public voice was heard on the overarching vision for the state’s revitalized workforce development system in order to create a vibrant economic climate for Mississippi.
2. The primary task of the Aligned and Integrated Technology Workgroup was to understand the WIOA requirements, leverage resources, and integrate Mississippi Works (mississippiworks.org) as the foundation of the WIOA technology requirements. In order to meet the demands of today and the goals of tomorrow, technology must be used to bring Mississippians together to create a renewed and stronger workforce. This

workgroup developed strategies to align the various agency systems to meet the WIOA unified technology requirement and universal profile incorporated into Mississippi's Combined Plan. Six core programs are already under the Mississippi Works technology umbrella, a comprehensive system used by job seekers to apply for work, identify their barriers to employment, and follow through with an integrated case management system. Mississippi Works is working with technology vendors to ensure every Combined Plan Partner is compliant with the new law.

3. The Sector Strategies Workgroup was tasked with using data and analysis of the current and projected job market and economic conditions to develop strategies focused on linking job seekers to gainful employment. By identifying regional and local employment deficits, this group created strategies and approaches for training, development, and education programs that teach job seekers the skills necessary to address the needs of Mississippi's employers. This workgroup met to confirm that the appropriate economic data and analyses were easily accessible for informed decision-making pertaining to the development and implementation of Mississippi's Combined Plan. Analyzing workforce, employment, and unemployment data, labor market trends, and the educational and skills level of Mississippi's workforce allowed this workgroup to develop sector-based workforce strategies. The group also discussed regional sector strategies, with an emphasis on how these strategies connected to the state's overall plan. To make the best use of state resources, the workgroup concurred that the state should focus on targeted sectors backed by solid data analysis to make the biggest impact. In addition, data analysis will provide a clear-cut picture of which sectors are the best return on investment. This workgroup also established how all state and regional sector strategies would link to the career pathways element of the operational component of Mississippi's Combined Plan to ensure that Mississippians are prepared to fill the state's available jobs. If additional funding is invested in specific sector strategies, then the workforce ecosystem should promote opportunities in these sectors, which would result in a strategy that is mutually beneficial to employers and job seekers. Advancing Mississippi's workforce participants so they can have gainful employment and become self-sufficient is the highest measure of success. The performance measures mandated in the WIOA provide Mississippi with an opportunity to improve its focus and align workforce training resources more effectively across all programs.

The workforce groups organized around the Operational Planning Element worked collaboratively to implement the strategies conceived by the workgroups in the strategic planning element. Each Operational Planning Workgroup was charged with specific roles and responsibilities to help focus their efforts on implementation of the goals and strategies developed by the Strategic Planning Workgroups. The Operational Planning Workgroups include the One-Stop Operations Workgroup, Career Pathways and Assessment Workgroup, Performance and Accountability Workgroup, and Employer Engagement Workgroup. Each of these workgroups first met in June 2015 to discuss specific focus areas and strategize about methods to achieve the Governor's vision of a workforce ecosystem.

4. The goal of the One-Stop Operations Workgroup was to design a comprehensive workforce development system that encourages cross-program alignment of services in a seamless, coordinated, service-delivery model that accommodates all job seeker and employer customers. The workgroup developed a One-Stop System that provides access to all program services through a network of physical locations and a virtual environment. This system will allow individuals to have access to all appropriate programs at any point of entry into the system. In order to ensure the efficiency of the One-Stop system, the One-Stop Operations Workgroup implemented a clearinghouse where all programs communicate and are fully integrated.

The One-Stop Operations Workgroup met to discuss ideas for cross-program alignment of all services in a seamless model that best accommodates job seekers and employers. Various tiers of One-Stop Centers were developed. Sector Training Plus Comprehensive One-Stop Centers will provide access to all Combined Plan Partner services and to in-house career and technical education. Comprehensive One-Stop Centers will provide access to all of the Combined Plan Partner services in one place to assist the customer and provide referrals for career and technical education. A minimum of one Comprehensive One-Stop Center will be located in each of Mississippi's four LWDAs. In order to provide Mississippi job seekers with the education, training, and skills to meet the demands of Mississippi employers, a network of Affiliate One-Stop Centers will offer basic services and refer the customer to a Sector Training Plus or Comprehensive One-Stop Center if the affiliate center is unable to meet the customer's needs. Access points located throughout each LWDA would provide virtual access to job seekers. This workgroup also noted that in order for the Sector Training Plus, Comprehensive, and Affiliate One-Stop Centers to be successful, there is a critical need for a staff of skilled counselors who are cross-trained on all of the programs and services to best meet the needs of the job seeker. Another objective of the One-Stop Operations Workgroup was to develop a strategy to find job seekers who are not currently in the system, identify the services they need, and ultimately move the needle to increase Mississippi's workforce participation rate.

The Career Pathways and Assessment Workgroup was responsible for the design and implementation of career-readiness plans that allow Mississippians to gain the necessary training or education to move directly into careers that are in demand in the 21st century and in their respective LWDAs. This process includes individualized education and training plans with multiple entry and exit points that ultimately track the job seeker's progress through the workforce ecosystem. The workgroup discussed strategies that included cross-program, non-duplicative assessments of education, skills, and assets. The workgroup also agreed on a need for a common assessment instrument for entry into the Mississippi Works Smart Start Career Pathway Model, the statewide integrated pathway model. The state-approved measure will be a recognized credential for the state of Mississippi and will assess a job seeker's trainability. To support this effort, there is also an individualized plan in place for every job seeker in the workforce pipeline.

The Mississippi Works Smart Start Career Pathway Model will guide job seekers through aligned resources and support to help them find a job and increase Mississippi's workforce participation rate. The overarching goal of the state's integrated workforce pathway model is creating opportunities for Mississippians to receive higher skills and higher wages as they progress through the workforce pipeline.

5. The Performance and Accountability Workgroup was tasked with developing a reporting system that will support the performance evaluation process. WIOA increases accountability and places stronger emphasis on results through the establishment of common employment outcome measures across all WIOA programs included in Mississippi's Combined Plan. The workgroup reviewed the six performance indicators mandated by WIOA and discussed how each measurement impacts each core program.

Currently, each program has its own definition of a "participation period" within the workforce system. Under WIOA, a common measurement is required across programs with well-defined entry and exit points. Another performance indicator that core programs must determine is median earnings of participants. Although job seekers can choose their own path, the workforce system will need to counsel job seekers on obtaining higher-level skills to meet the overarching goal of closing the middle-skill gap. Mississippi will be measured on its performance in educating and training workers under WIOA to meet the needs of employers seeking middle-skill workers.

The law also requires Mississippi to measure incremental steps or benchmarks that job seekers must take to obtain a recognized postsecondary credential or a secondary school diploma (or its

recognized equivalent). Therefore, the workforce system must not only enroll low-skill job seekers into a training program but also ensure that the training program is successful and show evidence of putting people on a path to obtain higher credentials that result in higher wages.

The final performance indicator will be determined by the Department of Labor (DOL), which will establish parameters for employer participation. Mississippi will develop a plan with the understanding that the plan will be modified once DOL issues guidelines.

The workgroup determined that all of the performance indicators will be communicated through the technology developed by the Mississippi Department of Employment Security, which is already in place. A conceptual policy plan and timeline were developed to outline how all of the systems will share data, create reports, etc. Additional components to develop for this shared system will include a dashboard that allows workforce partners to view the status of performance indicators calculated in near real time and a notification system to ensure continuous progress.

6. The Employer Engagement Workgroup was tasked with designing a systematic approach to grow employer engagement and offer solutions on how to manage it. WIOA emphasizes engaging employers across the workforce system to align training with needed skills and match employers with qualified workers. There are 55,000 employers across Mississippi, but the current system is only engaged with 25 percent. The workgroup was committed to increasing employer involvement for Mississippi's workforce system of the future and developing strategies to increase employer engagement.

One strategy discussed was to assign each employer a project manager since most companies prefer one point of contact. To avoid duplication and to streamline the process, the committee created a checklist of what information is needed from employers so that everything may be addressed at one time. The group decided to contact employers less but in a more valuable way. Understanding the needs of the employer, referring them to the appropriate workforce partner, and ultimately following through on requests bring considerable value and will increase credibility and participation. When employers experience the positive benefits of the workforce system, they will be more inclined to participate. In addition, employers who help the system should be given priority of service.

Another strategy that could add value for both employers and workforce partners is the idea of tracking the engagement progress through technology similar to Mississippi Works. This technology would be designed to streamline the efforts of workforce partners making cold calls and referrals by allowing workforce partners to view data in a secure and centralized system to see who is involved with employer engagement. This strategy would allow Mississippi to have a better understanding of the needs of employers, which in turn directly impacts how the state trains and directs job seekers.

To be continuously effective, workforce partners recognize the need for ongoing professional development and training for themselves. The workgroup strategized that workforce partners should meet on a regular basis and provide cross-training of programs so all of the core agencies will have common knowledge of the services and programs that are offered. This strategy would enhance the referral process and keep the lines of communication open and the sharing of ideas ongoing. This workgroup committed to identifying a curriculum and/or certificate program as well as a coordinator to start this process.

A final strategy from this workgroup identified internships as a win-win for both the employer and job seeker. Mississippi's Institutions of Higher Learning (IHL) and community colleges are working with MDES to match job seekers who are looking for internships. There is an effort to give job seekers both work experience and experience related to their field of study. An

internship allows job seekers an opportunity to demonstrate their ability and connect with potential employers.

Input from Mississippi Businesses

On July 8, 2015, Mississippi conducted a focus group with business representatives to obtain additional input on the plan. The purpose of this focus group was to gauge the interest of businesses in public partnership and determine the needs of Mississippi businesses. Involving the business community enabled the planning workgroups to incorporate a business sector perspective into the planning and implementation of Mississippi's Combined Plan and create momentum for increasing business and industry involvement in the workforce ecosystem. Participants were invited by the State Workforce Investment Board Executive Director. Feedback from attendees was first captured by an online survey, and the results were immediately shared with the focus group. This initial input provided a baseline discussion on the effectiveness of the current workforce system in meeting industry needs and the identification of barriers experienced by employers in locating skilled employees. Strategies to ensure that Mississippi has a successful and thriving business climate were also discussed.

Communication Plan

Communication was critical to the planning process and to successfully fulfilling the requirements of WIOA. To facilitate communication throughout the entire planning process, a plan was developed to maintain a systematic method of communication across all parties and to ensure a consistent flow of information across all involved parties. The Office of the Governor provided overall guidance and leadership in the implementation of WIOA. The chairman of the SWIB Task Force served as the point of contact between the Governor's Office and the SWIB. Communications between the general public, Internal Workgroup, Subject Matter Experts, the Strategic Planning and Operational Planning Workgroups, and the SWIB Task Force was coordinated through the SWIB via the executive director of the SWIB. The Management Team, as part of the Internal Workgroup, coordinated all activities and maintained communication with the SWIB. The remaining teams of the Internal Workgroup, specifically the Compliance Team and Public Relations Team, maintained communications with each other to ensure a smooth and consistent flow of information and that the writing of Mississippi's Combined Plan remained on schedule. Subject Matter Experts interacted with the teams of the Internal Workgroup. Any information submitted by the Strategic Planning or Operational Planning Workgroups was shared with the SWIB and all members of the other workgroups.

State Workforce Investment Board (SWIB) Website

The SWIB website (swib.ms.gov) is used to keep Mississippians informed about the state's WIOA planning and revision process. The 2022 plan revision was posted to the SWIB website for a two-week public comment period beginning on February 15, 2022. Comments from the public were incorporated in the final plan prior to submission. Each combined plan partner also followed program-specific rules for public comments and open meetings.

Overview of Process to Designate Local Workforce Development Areas

In accordance with the requirements of section 106 of the Workforce Innovation and Opportunity Act (WIOA) and Mississippi's Local Workforce Development Area Designation Policy (Appendix C), Governor Phil Bryant received and approved requests for initial designation from the four local workforce development boards: Delta, Mississippi Partnership, Southcentral Mississippi Works, and Twin Districts. Prior to submitting the initial designation requests to Governor Bryant, the boards posted the requests on their websites for a public comment period. These areas met the three criteria for initial designation: (1) they were designated as local areas for the purposes of the Workforce Investment Act of 1998 prior to the two-year period preceding the date of enactment of WIOA; (2) they have performed successfully; and (3) they have sustained fiscal integrity.

Subsequent redesignation of local workforce development areas takes place according to Mississippi's Local Workforce Development Area Designation Policy and in compliance with all relevant sections of WIOA.

V. COMMON ASSURANCES (FOR ALL CORE PROGRAMS)

The State Plan must include	Include
1. The State has established a policy identifying circumstances that may present a conflict of interest for a State Board or local board member, or the entity or class of officials that the member represents, and procedures to resolve such conflicts;	Yes
2. The State has established a policy to provide to the public (including individuals with disabilities) access to meetings of State Boards and local boards, and information regarding activities of State Boards and local boards, such as data on board membership and minutes;	Yes
3. The lead State agencies with optimal policy-making authority and responsibility for the administration of core programs reviewed and commented on the appropriate operational planning elements of the Unified or Combined State Plan, and approved the elements as serving the needs of the populations served by such programs;	Yes
4. (a) The State obtained input into the development of the Unified or Combined State Plan and provided an opportunity for comment on the plan by representatives of local boards and chief elected officials, businesses, labor organizations, institutions of higher education, the entities responsible for planning or administering the core programs, required one-stop partners and the other Combined Plan programs (if included in the State Plan), other primary stakeholders, including other organizations that provide services to individuals with barriers to employment, and the general public, and that the Unified or Combined State Plan is available and accessible to the general public; (b) The State provided an opportunity for review and comment on the plan by the State Board, including State agency official(s) for the Unemployment Insurance Agency if such official(s) is a member of the State Board;	Yes
5. The State has established, in accordance with WIOA section 116(i), fiscal control and fund accounting procedures that may be necessary to ensure the proper disbursement of, and accounting	Yes

The State Plan must include	Include
for, funds paid to the State through allotments made for the core programs to carry out workforce development activities;	
6. The State has taken appropriate action to secure compliance with uniform administrative requirements in this Act, including that the State will annually monitor local areas to ensure compliance and otherwise take appropriate action to secure compliance with the uniform administrative requirements under WIOA section 184(a)(3);	Yes
7. The State has taken the appropriate action to be in compliance with WIOA section 188, Nondiscrimination, as applicable;	Yes
8. The Federal funds received to carry out a core program will not be expended for any purpose other than for activities authorized with respect to such funds under that core program;	Yes
9. The State will pay an appropriate share (as defined by the State board) of the costs of carrying out section 116, from funds made available through each of the core programs;	Yes
10. The State has a one-stop certification policy that ensures the physical and programmatic accessibility of all one-stop centers with the Americans with Disabilities Act of 1990 (ADA);	Yes
11. Service providers have a referral process in place for directing Veterans with Significant Barriers to Employment (SBE) to DVOP services, when appropriate; and	Yes
12. Priority of service for veterans and eligible spouses is provided in accordance with 38 USC 4215 in all workforce preparation, development or delivery of programs or services funded directly, in whole or in part, by the Department of Labor.	Yes

VI. PROGRAM-SPECIFIC REQUIREMENTS FOR CORE PROGRAMS

PROGRAM-SPECIFIC REQUIREMENTS FOR ADULT, DISLOCATED WORKER, AND YOUTH ACTIVITIES UNDER TITLE I-B

A. GENERAL REQUIREMENTS

1. REGIONS AND LOCAL WORKFORCE DEVELOPMENT AREAS

The State has redesignated four local workforce development areas. Each of the four local workforce development areas have also been identified as regions. Regions are aligned with the four local workforce development areas. The State identified regions using the following data: common labor markets, common economic development areas; community college districts;

geography, population density; commuting patterns and sufficiency of Title II providers. The analysis is included in the combined plan. Planning meetings were held with local boards and chief elected officials.

WIOA Policy #1 Local Workforce Development Area Designation, Appendix C https://acceleratems.org/wp-content/uploads/WIOA_2022_Appendix_C.pdf outlines the process used for designating local areas. The policy was developed in consultation with the State Workforce Investment Board and posted on websites for public comment. The policy defines performed successfully as meeting or exceeding the adjusted levels of performance for each performance goal for two consecutive years immediately preceding the enactment of the WIOA. See Appendix C for a full description of the process. Sustained fiscal integrity is defined as the administration of WIA programs for the two consecutive years immediately preceding the enactment of WIOA with no formal determination of misexpended funds or gross negligence. Each local workforce area submitted a request for initial designation supported by documentation of successful performance and sustained fiscal integrity.

WIOA creates a two-step process for designating a LWDA. First, WIOA Section 106(b)(2) provides for an “initial designation” for “the first 2 full program years following the enactment of this Act,” to allow for a transition to the new requirements of WIOA. Then at the end of the initial designation, Section 106(b)(3) calls for a “subsequent designation,” based on a review of the performance of the LWDA during the initial designation period.

On May 10, 2017, Governor Bryant extended the initial designation of the four local workforce development areas (LWDAs) because of a U.S. Department of Labor regulation, under the Workforce Innovation and Opportunity Act (WIOA) until June 30, 2018.

Prior to subsequent designation, MDES began reviewing the local areas to verify that they had performed successfully and sustained fiscal integrity, as required by WIOA Section 106(c)(1). The local areas sent requests for subsequent designation along with their verification that they had performed successfully and sustained fiscal integrity. After review of the requests and verification of performance from both the LWDA and MDES, on June 29, 2018, the governor approved the subsequent designation of each of the four LWDAs as a local workforce development area.

If an existing local workforce area under the WIA requests but is not granted designation as a local workforce development area under WIOA Section 106(b)(2) or Section 106(b)(3), the unit (or combination of units) of general local government or grant recipient may submit an appeal to the State Board under an appeal process established in the State Plan. Specific Appeals process information is provided in the Local Workforce Development Area Designation Policy in Appendix C https://acceleratems.org/wp-content/uploads/WIOA_2022_Appendix_C.pdf

State entities responsible for the administration of Adult, Dislocated Worker, Youth, TANF, WP, AE, SCSEP, and Rehabilitation Services have agreed to physically co-locate in at least one comprehensive center in each workforce area. An MOU will be developed to describe roles and responsibilities and shared cost for infrastructure. The State developed a WIOA policy that established a process related to determinations for infrastructure funding.

Policy 20: WIOA Local One-Stop Infrastructure Policy, states that If the LWDB is unable to reach an agreement on the funding of infrastructure costs with all partners by July 1 of each program year (or after the applicable extension of time deadline, if granted), the LWDB or affected partner must immediately notify OGM that an agreement cannot be reached using the Report of Outcomes from Local Infrastructure Funding Agreement Negotiations (Attachment B). Once notified, the Governor must administer the State funding formula to determine the appropriate share of infrastructure contributions for all partners for the program year impacted. Please note, failure to agree on additional costs amongst partners will not be considered an impasse, nor will it trigger the state funding mechanism.

2. STATEWIDE ACTIVITIES

Mississippi Senate Bill 2958 of the 2014 Mississippi Regular Legislative Session amended Section 71-5-353, Mississippi Code of 1972 to provide that money in the state workforce investment board bank account shall be used for administration of state workforce investment board business, grants related to training, and other projects as determined appropriate by the state workforce investment board.

WIOA provides Governor's set aside funding to be used for "statewide employment and training activities" (WIOA Section 134). Statewide activities include required and allowable activities. Funds must be reserved for mandatory activities before optional activities are funded.

Mississippi plans to use the funding primarily for mandatory statewide WIOA activities as follows:

- Administering Mississippi's WIOA system. This activity happens at MDES and is capped at 5% of the total WIOA allocation. Included costs are accounting, staffing, policy and procedure issuance, monitoring and audit, planning, grant management and liaison with USDOL and the local areas.
- Operating the State's management information systems. The largest expense within the state's Governor's reserve has been the MIS system. Data elements are collected from every participant, each data element is validated and entered into the MIS system and reports are delivered to USDOL and the four local workforce development areas.
- Incentive grants and technical assistance for local areas.
- Eligible Training Provider information (ETPL). WIOA requires that states maintain and disseminate a list of every approved training program, including detailed performance information such as student completion and employment rates. Customers of all the WIN Job Centers use this list and the performance information to select their training program. Youth programs are also tracked statewide.

ETPL is a statewide, comprehensive, real-time system for the agency's WIOA training programs. Mississippi has automated the processes for eligible training providers' registration, application of training courses and subsequent eligibility. The system also includes the automation of the Individual Training Account (ITA) obligations, the ITA payment system (expenditures), and provides the local workforce development areas and one-stop operators the ability to track obligations, expenditures, and accruals in real time. Mississippi's ETPL system interfaces with the Mississippi Department of Finance and Administration's statewide accounting system for daily invoice payment and reconciliation.

Evaluation and continuous improvement. All statewide WIOA programs are to be evaluated with a goal for continuous improvement. Evaluation activities are conducted using MS Works System and on-site monitoring of all programs.

Any expenditures from the Governor's Set Aside Funding will be in compliance with Section 134 of the WIOA.

The Mississippi Department of Employment Security (MDES) is the lead agency for Rapid Response services in Mississippi. The State also allocates a share of available Rapid Response funds to local workforce development areas based on mass layoff or plant closure activity. Each workforce area has designated a staff member as their Rapid Response and dislocated worker program coordinator.

MDES responds to both the Worker Adjustment and Retraining Notification Act (WARN) and non-WARN events, that is, events involving fewer than 50 individuals. MDES receives official WARN notices of impending closures or mass layoff events from the affected business. To ensure that assistance and services are provided to as many dislocated workers as possible, MDES responds to non-WARN events, regardless of the number of individuals affected, in the same manner as WARN events. MDES may learn of non-WARN events from the media, partner agencies, local economic development offices, WIN Job Center and local workforce area staff, businesses, affected workers, community college, rapid response coordinators, and other local sources.

Within 24 hours of the receipt of a WARN or non-WARN notice, MDES staff contacts the company to discuss available Rapid Response services and offers assistance to the company and the affected workers. An electronic briefing or an on-site visit with the company representative, and when appropriate, the union or employee representative, is scheduled as soon as possible.

Working in coordination with local workforce development areas and WIN Job Center staff, a plan of action is developed to deliver services to the affected dislocated workers. Whenever possible, Rapid Response services are delivered on-site prior to layoff, on-site at the company, and on company time. Providing services on-site is dependent upon the company's willingness to allow workers to attend sessions during work hours and the availability of meeting space at the site.

The State developed an employee survey form to determine the specific assistance needed by the affected workers. The form collects information on the employee's education and skill levels, work history, employment assistance needs, and training interests. The survey is completed by the employee as part of the on-site session, collected, and reviewed by the Rapid Response team. The team identifies the worker's specific needs and coordinates with the WIN Job Center and community college to facilitate the delivery of services from the appropriate partner agencies.

MDES has established a policy for providing Layoff Aversion activities. State Policy Number 21: Rapid Response - Layoff Aversion Policy and Procedures, provided in Appendix I2H, applies to Local Workforce Development Areas (LWDA), and other entities that receive Rapid Response funds by the allocation, pass-through, and subgrant award methods. The Rapid Response unit works in conjunction with local workforce development boards, chief elected officials, and other stakeholders to determine which strategies and activities are applicable in given situations. The strategies and activities are designed to prevent or minimize the duration of unemployment.

Each LWDA submits a Layoff Aversion Plan annually to MDES's Office of Grant Management that describes its strategies to assist employers and to avert layoffs. Each LWDA has designated staff to carry out the Layoff Aversion plan within the area.

Because MDES serves as the lead agency for Rapid Response in the state, it is uniquely positioned to provide mandated services in the case of natural disasters. As outlined in the MDES Continuity of Operations Plan, the Rapid Response staff are part of the agency's disaster response team. Staff assists in the identification of businesses adversely affected and workers who lost jobs as a result of the disaster. This information is important for the development of requests for National Dislocated Worker Grant funds. Rapid Response staff also assist in disseminating information on emergency unemployment insurance and reemployment services available. The agency disaster response team works with FEMA and other appropriate state and federal agencies to develop strategies for addressing natural disasters to ensure rapid access to the broad range of assistance.

The Mississippi Department of Employment Security administers the Trade Adjustment Assistance (TAA) Act.

Providing early intervention to worker groups on whose behalf a TAA petition has been filed:

- The MDES leads Rapid Response efforts across the state. When working with a trade-affected business to provide Rapid Response services, the State Rapid Response Coordinator and the State TAA Coordinator provide Rapid Response services.

Whenever possible, the team conducts on-site presentations at the business location. Every effort is made to provide information sessions prior to the commencement of the lay-offs and/or plant closure. The presentation consists of an overview of the benefits and services that can be expected from each of the partner groups.

- During these sessions, the Rapid Response team emphasizes how the partner agency staff representatives will be working together as a team to offer the customer individualized comprehensive reemployment benefits and services.
- Once a petition is approved, additional sessions with affected workers are scheduled to provide information about TAA services only. These sessions give the workers the opportunity to ask detailed questions or questions directly related to the workers' individual needs. The sessions may be set up through the employer if the place of business is still open or through TAA staff at the nearest WIN Job Center or at another location.
- When an individual enters the WIN Job center and is identified as Trade eligible, a Trade case manager provides them with an orientation to explain available Trade benefits and services.

Funds are used for staff to monitor, identify and communicate with worker groups that file a TAA petition.

B. ADULT AND DISLOCATED WORKERS PROGRAM REQUIREMENTS

1. WORK-BASED TRAINING MODELS

Not Applicable, as the alternative training models are previously included in the training strategy of the plan.

2. REGISTERED APPRENTICESHIP

An increasing number of jobs opportunities and low unemployment rates means there are not enough people to fill middle skill jobs in Mississippi. Apprenticeship is one way we are using to fill the middle skill gap. The Mississippi Registered Apprenticeship Program is changing lives, providing more sustainable wages, and promoting a better quality of life for many Mississippians. Apprenticeship in Mississippi is gaining new ground as the state received new funding from the statewide Apprenticeship State Expansion Grant (ASE) and new guidance provided by DOL regarding Non-Registered Apprenticeships.

Since 2016, Mississippi has received a total of four Apprenticeship grants and created new partnerships under the leadership of the Mississippi Apprenticeship Program (MAP). MAP partners include the Governor's Office, the MS Departments of Employment Security (MDES), Human Services (MDHS), Rehabilitation Services (MDRS), Education (MDE), the Mississippi Community College Board (MCCB), and the Mississippi Development Authority (MDA). This collaboration has improved communication and accountability for MAP's expansion goals.

Mississippi currently has 1263 registered apprentices, 202 new businesses engaged, and 8 new Registered Apprenticeship programs. Mississippi is breaking into new industry sectors such as Finance and Banking, Hospitality and Tourism, and Information Technology which will train individuals for the jobs of the future.

3. TRAINING PROVIDER ELIGIBILITY PROCEDURE

The State will continue to use its current web based Eligible Training Provider List (ETPL) system for the registration, initial eligibility, and continued eligibility of all WIOA training service providers, including Registered Apprenticeship programs. State Policy #9: WIOA Eligible Training Provider Certification describes these processes in detail. (Appendix I2A) The Eligible Training Provider Certification (ETP) Policy provides a link to the MDES Eligible Training Provider List System page. The policy may be found by selecting the "Training Provider/System Administrator" option; then selecting "Resource Menu". The link provided is intended to provide persons interested in the ETPL all the resources to be successful.

The State office will work with the Office of Apprenticeship to identify Registered Apprenticeship Program (RAP) sponsors. The Local Workforce Development Areas will reach out to the Registered Apprenticeship sponsors in their respective areas. The state will ensure that information regarding RAP automatic eligibility is disseminated through a variety of media, including online platforms targeting RAP sponsors statewide.

The state will use the current web-based application processes for the registration of Apprenticeship sponsors and their program(s) of study. Apprenticeship sponsors will not be required to meet the state's minimum performance standards published in state policy, will be granted automatic approval, and will not be required to meet continued eligibility requirements.

The State of Mississippi is currently modifying its ETP Policy to clarify several issues, including specific guidance for RAPs. The process of registering through the LWDBs will continue to be encouraged but not required because this causes minimal burden on the RAP and connects the RAP with the LWDBs for assistance. Mississippi is revising the ETP policy to include requirements in TEGl 08-19. The revised policy was signed January 28, 2022, with an immediate effective date and was issued via a WIOA Communication to the Local Workforce Development Areas and posted on the ETPL page of the MDES website.

4. DESCRIBE HOW THE STATE WILL IMPLEMENT AND MONITOR THE PRIORITY FOR PUBLIC ASSISTANCE RECIPIENTS, OTHER LOW-INCOME INDIVIDUALS, AND INDIVIDUALS WHO ARE BASIC SKILLS DEFICIENT IN ACCORDANCE WITH THE REQUIREMENTS OF WIOA SEC. 134(C)(3)(E), WHICH APPLIES TO INDIVIDUALIZED CAREER SERVICES AND TRAINING SERVICES FUNDED BY THE ADULT FORMULA PROGRAM

Priority for both career and training services must be given recipients of public assistance, other low-income individuals, and individuals who are basic skills deficient in accordance with the federal requirements.

At any of the workforce partners, participants are asked the six questions that route the person in the HUB to the various partners. As staff determine the participants' eligibility, information about two of the three priority of service barriers is entered into the MSWorks system. NSPARC is working to implement the ability to capture Basic Skills Deficiency in MSWorks.

At the state level, staff will analyze quarterly performance reports from MSWorks and the PIRL to assess priority of service to persons with these barriers. The state will provide reports to the Local Workforce Development Areas (LWDAs) and to the WIN Job Center managers.

LWDA staff will monitor the WIN Job Centers to verify compliance with the priority of service requirements, ensure that front-line staff are continuously trained, and to provide technical assistance.

At the local level, WIN Job Centers' management will train staff on the requirements for priority of service to adults with these barriers and will monitor and assess the productivity and quality of services provided to these individuals based on reports provided by the state.

A description of how the State will implement and monitor the priority for public assistance recipients, other low-income individuals, or individuals who are basic skills deficient is also provided in Priority of Service for WIOA Adult Program Participants, State Policy #7 <https://acceleratems.org/wp-content/uploads/WIOA-2022-Appendix-L-Priority-of-Services-Adults.pdf>.

5. DESCRIBE THE STATE'S CRITERIA REGARDING LOCAL AREA TRANSFER OF FUNDS BETWEEN THE ADULT AND DISLOCATED WORKER PROGRAMS

The State empowers the local areas to determine their need to transfer funds between the Adult and Dislocated Worker programs based on workforce demands and needs of each local area.

Requests to transfer funds between the Adult and Dislocated Worker programs are initiated at the LWDA level. When LWDA fiscal and programmatic staff determine that there is a need to transfer funds and determine a projected amount to transfer, they put that request on the agenda of the next Local Workforce Development Board (LWDB) meeting. They also notify the area's liaison at the MDES Office of Grant Management, who are always invited guests at the board meetings.

After the board votes on the transfer, the transfer document is signed by the LWDB Chair and LWDA staff upload that document and a copy of the minutes into the state's online GranTrak fiscal reporting system, appended to a Request to Transfer Funds. GranTrak automatically notifies MDES staff of the pending request in their workflow.

The OGM staff that is liaison to that area reviews the request and the attached signed request and board minutes and verifies accuracy before approving. MDES fiscal staff are then notified and review the transfer at two levels for fiscal accuracy before it is sent in the workflow for signature by the Executive Director. After signature, the funds are available for use in the new program.

The State's criteria regarding local area transfer of funds is also provided in the State's WIOA Allocation Policy, Policy #11 https://acceleratems.org/wp-content/uploads/WIOA_2022_Appendix_H.pdf.

C. WITH RESPECT TO YOUTH WORKFORCE INVESTMENT ACTIVITIES AUTHORIZED IN SECTION 129 OF WIOA—

1. IDENTIFY THE STATE-DEVELOPED CRITERIA TO BE USED BY LOCAL BOARDS IN AWARDING GRANTS OR CONTRACTS FOR YOUTH WORKFORCE INVESTMENT ACTIVITIES AND DESCRIBE HOW THE LOCAL BOARDS WILL TAKE INTO CONSIDERATION THE ABILITY OF THE PROVIDERS TO MEET PERFORMANCE ACCOUNTABILITY MEASURES BASED ON PRIMARY INDICATORS OF PERFORMANCE FOR THE YOUTH PROGRAM AS DESCRIBED IN SECTION 116(B)(2)(A)(II) OF WIOA IN AWARDING SUCH GRANTS OR CONTRACTS.[11]

The State met with the local workforce development area directors to discuss the RFP process for youth providers. In this meeting, requirements were outlined to include performance indicators. The State then provided two draft RFPs to the directors to be used in developing the areas' RFPs. The State reviewed the RFPs prepared by the local workforce development boards and the rating tools. The rating tools were designed to ensure awareness and capacity to meet WIOA performance indicators.

2. DESCRIBE THE STRATEGIES THE STATE WILL USE TO ACHIEVE IMPROVED OUTCOMES FOR OUT-OF-SCHOOL YOUTH AS DESCRIBED IN 129(A)(1)(B), INCLUDING HOW IT WILL LEVERAGE AND ALIGN THE CORE PROGRAMS, ANY COMBINED STATE PLAN PARTNER PROGRAMS INCLUDED IN THIS PLAN, REQUIRED AND OPTIONAL ONE-STOP PARTNER PROGRAMS, AND ANY OTHER RESOURCES AVAILABLE.

The State is implementing a WIOA Common Intake and Reporting System that will capture common participant information for the four core programs. The system will align resources and generate automatic referrals among the core programs.

Using a no wrong door policy, all participants will develop an individualized success plan that coordinates the optimum blend of services and funding to achieve their goals for success. This success plan also indicates which of the pathways in the Smart Start Pathways Model to which the participant will be assigned. A connection to a career pathway must be included as part of a youth's individual service strategy or MS Smart Start Success plan. This model is an integrated compilation of programs and services intended to develop basic, technical and employability skills; provide continuous education and training; and work supports that lead to high-demand jobs in targeted sectors.

Mississippi's four local workforce development areas procure youth providers that have a proven record of providing services both to out-of-school (OSY) and/or in-school youth (ISY). These include community service organizations, school districts, community colleges, and in one local area, the Youth Court system. Although each local area provides youth services, and ISY serves in particular, a little differently, the best practices noted below show the diverse ways in which Mississippi provides youth services and coordinates those services with a variety of required and optional one-stop partner programs and other resources as available

All of the current providers in the Twin Districts LWDA are community colleges and youth are co-enrolled with Adult Ed. LWDBs also have an open line of communication with high school guidance counselors to make referrals for both OSY and ISY. Career fairs are also a way for the local areas to reach high school graduates (or seniors) who are in need of additional assistance in determining their career path. They work with the colleges' retention department to try to re-engage those youth who are no longer enrolled at the community college.

For several years, the Southcentral MS Works LWDA has issued subaward agreements to several OSY youth service providers. Both the Madison County and the Yazoo County Youth Courts provide workforce services to adjudicated youth as dispensation for their cases. Services include many workforce preparation activities such as HSE and NCRC attainment, basic skills attainment and placement into internships. The Refill Jackson Initiative youth services provider recruits, identifies and enrolls hard to serve inner city OSY and provides them with HSE and NCRC credential attainment, resume and job interview skills, and placement into internships. Mid-West youth services provider recruits, identifies and enrolls OSY with mental disabilities and provides them with appropriate job skills and placement. In addition, the area's community colleges and WIN Job Centers recruit OSY and enroll them into appropriate career tech training.

Other outreach strategies the LWDA's use to attract and serve OSY include effective social media campaigns that showcase the opportunities offered at by the WIOA OSY program and informs followers of events, activities, offerings and news at the college. Presentations to local organizations, such as non-profits, churches, rotary clubs, etc., inform the public of the opportunities of the OSY program. The MS Partnership LWDA also has expanded its OSY program beyond its brick-and-mortar youth programs and developed an online portal through which youth can apply for the WIOA youth program, submit required documentation, and access WIOA youth services virtually rather than in person.

3. DESCRIBE HOW THE STATE WILL ENSURE THAT ALL 14 PROGRAM ELEMENTS DESCRIBED IN WIOA SECTION 129(C)(2) ARE MADE AVAILABLE AND EFFECTIVELY IMPLEMENTED, INCLUDING QUALITY PRE-APPRENTICESHIP PROGRAMS UNDER THE WORK EXPERIENCE PROGRAM ELEMENT. [12]

Services to eligible youth are delivered through a network of youth providers. The local workforce areas continue to competitively procure independent contractors to deliver youth

services. The State and LWDAs require these contractors to ensure that these services include all 14 program elements outlined in WIOA Section 129(c)(2).

The State's participant tracking system, MS Works, has been modified to capture all 14 program elements. Innovative approaches used by youth providers include the Gateway youth programs and Out-of-School Youth Work Experience/Internships.

The Office of Apprenticeship can leverage adult education programs in meeting a critical need for mid-skilled workers in Mississippi by utilizing MIBEST as a pre-apprenticeship program. MIBEST assists 17 to 24 year-old Out-of-School Youth who need to get their GED or HSE while enrolled in skills training. Through partnership with Mississippi's 15 community colleges, which offer adult education programs to increase the number of qualified, skilled, and workforce ready individuals, Mississippi can ensure that both current and potential employees have practical and soft skills to be successful in the workplace.

4. PROVIDE THE LANGUAGE CONTAINED IN THE STATE POLICY FOR "REQUIRING ADDITIONAL ASSISTANCE TO ENTER OR COMPLETE AN EDUCATIONAL PROGRAM, OR TO SECURE AND HOLD EMPLOYMENT" CRITERION FOR OUT-OF-SCHOOL YOUTH SPECIFIED IN WIOA SECTION 129(A)(1)(B)(III)(VIII) AND FOR "REQUIRING ADDITIONAL ASSISTANCE TO COMPLETE AN EDUCATION PROGRAM, OR TO SECURE AND HOLD EMPLOYMENT" CRITERION FOR IN-SCHOOL YOUTH SPECIFIED IN WIOA SECTION 129(A)(1)(C)(IV)(VII). IF THE STATE DOES NOT HAVE A POLICY, DESCRIBE HOW THE STATE WILL ENSURE THAT LOCAL AREAS WILL HAVE A POLICY FOR THESE CRITERIA.

The state includes in Policy Number 13 – WIOA Youth Eligibility a definition for youth requiring additional assistance. Youth requiring additional assistance to enter or complete an educational program or to secure and hold employment is defined as an in- school or out-of-school youth who is low income, and meets one of the following criteria:

- Lacking relevant work experience to secure or hold employment;
- Lacking credential related to local or regional targeted sectors; or
- In need of an ITA to complete the Start Smart or Career Technical Pathway.
- Criteria defined by local board and included in the local plan.

The WIOA Youth Eligibility Policy, Policy Number 13 is provided in Appendix I2F.

5. INCLUDE THE STATE DEFINITION, AS DEFINED IN LAW, FOR NOT ATTENDING SCHOOL AND ATTENDING SCHOOL AS SPECIFIED IN WIOA SECTION 129(A)(1)(B)(I) AND SECTION 129(A)(1)(C)(I). IF STATE LAW DOES NOT DEFINE "NOT ATTENDING SCHOOL" OR "ATTENDING SCHOOL," INDICATE THAT IS THE CASE AND PROVIDE THE STATE POLICY FOR DETERMINING WHETHER A YOUTH IS ATTENDING OR NOT ATTENDING SCHOOL.

Mississippi law does not define not attending or attending school. For the purposes of workforce programs, Mississippi follows the federal definitions for not attending or attending school as specified in WIOA Sections 129(a)(1)(B)(i) and 129(a)(1)(C)(i). The state policy for determining whether a youth is attending or not attending school can be found at Appendix P or at the following link: <https://acceleratems.org/wp-content/uploads/Policy-13-Revised-WIOA-Youth-Eligibility.pdf>.

6. IF USING THE BASIC SKILLS DEFICIENT DEFINITION CONTAINED IN WIOA SECTION 3(5)(B), INCLUDE THE STATE DEFINITION WHICH MUST FURTHER DEFINE HOW TO DETERMINE IF AN INDIVIDUAL IS UNABLE TO COMPUTE OR SOLVE PROBLEMS, OR READ, WRITE, OR SPEAK ENGLISH, AT A LEVEL NECESSARY TO FUNCTION ON THE JOB, IN THE INDIVIDUAL'S FAMILY, OR IN SOCIETY. IF NOT USING THE PORTION OF THE DEFINITION CONTAINED IN WIOA SECTION 3(5)(B), INDICATE THAT IS THE CASE.

Mississippi is using the basic skills deficient definition as contained in WIOA, as follows:

1. BASIC SKILLS DEFICIENT. The term “basic skills deficient” means, with respect to an individual—
 - a. who is a youth, that the individual has English reading, writing, or computing skills at or below the 8th grade level on a generally accepted standardized test; or
 - b. who is a youth or adult, that the individual is unable to compute or solve problems, or read, write, or speak English, at a level necessary to function on the job, in the individual’s family, or in society.

D. SINGLE-AREA STATE REQUIREMENTS

1. ANY COMMENTS FROM THE PUBLIC COMMENT PERIOD THAT REPRESENT DISAGREEMENT WITH THE PLAN. (WIOA SECTION 108(D)(3).)
2. THE ENTITY RESPONSIBLE FOR THE DISBURSAL OF GRANT FUNDS, AS DETERMINED BY THE GOVERNOR, IF DIFFERENT FROM THAT FOR THE STATE. (WIOA SECTION 108(B)(15).)
3. A DESCRIPTION OF THE TYPE AND AVAILABILITY OF WIOA TITLE I YOUTH ACTIVITIES AND SUCCESSFUL MODELS, INCLUDING FOR YOUTH WITH DISABILITIES. (WIOA SECTION 108(B)(9).)

Mississippi is not a single area state.

4. A DESCRIPTION OF THE ROLES AND RESOURCE CONTRIBUTIONS OF THE ONE-STOP PARTNERS.

N/A

5. THE COMPETITIVE PROCESS USED TO AWARD THE SUBGRANTS AND CONTRACTS FOR TITLE I ACTIVITIES.

N/A

6. HOW TRAINING SERVICES OUTLINED IN SECTION 134 WILL BE PROVIDED THROUGH INDIVIDUAL TRAINING ACCOUNTS AND/OR THROUGH CONTRACTS, AND HOW SUCH TRAINING APPROACHES WILL BE COORDINATED. DESCRIBE HOW THE STATE WILL MEET INFORMED CUSTOMER CHOICE REQUIREMENTS REGARDLESS OF TRAINING APPROACH.

N/A

7. HOW THE STATE BOARD, IN FULFILLING LOCAL BOARD FUNCTIONS, WILL COORDINATE TITLE I ACTIVITIES WITH THOSE ACTIVITIES UNDER TITLE II. DESCRIBE HOW THE STATE BOARD WILL CARRY OUT THE REVIEW OF LOCAL APPLICATIONS SUBMITTED UNDER TITLE II CONSISTENT WITH WIOA SECS. 107(D)(11)(A) AND (B)(I) AND WIOA SEC. 232.

N/A

8. COPIES OF EXECUTED COOPERATIVE AGREEMENTS WHICH DEFINE HOW ALL LOCAL SERVICE PROVIDERS WILL CARRY OUT THE REQUIREMENTS FOR INTEGRATION OF AND ACCESS TO THE ENTIRE SET OF SERVICES AVAILABLE IN THE ONE-STOP DELIVERY SYSTEM, INCLUDING COOPERATIVE AGREEMENTS WITH ENTITIES ADMINISTERING REHABILITATION ACT PROGRAMS AND SERVICES.

N/A

E. WAIVER REQUESTS (OPTIONAL)

Statutory and/or Regulatory Requirements to be Waived- 75 Percent Out-of-School Youth (OSY) Expenditure Requirements

Identifies the statutory or regulatory requirements for which a waiver is requested and the goals that the State or local area, as appropriate, intends to achieve as a result of the waiver and how those goals relate to the Unified or Combined State Plan;

The State of Mississippi is seeking to renew the waiver of the requirements at WIOA Section 129 (a)(4)(A) and 20 CFR 681.410, which requires not less than 75 percent of funds allotted to states under Section 127(b)(1)(C), reserved under section 128(a), and available for statewide activities under subsection (b), and not less than 75 percent of funds available to local areas under subsection (c), shall be used to provide youth workforce investment activities for OSY.

1. A waiver of the requirement to expend 75 percent of funding on the OSY population. Mississippi is requesting that this percentage be lowered to 50 percent.
2. A waiver of the requirement that local funding must meet the 75 percent minimum expenditure requirement. Mississippi is requesting that this percentage be lowered to 50 percent.
3. A waiver of the requirement to expend 75 percent of Statewide activities funding on the **OSY**

population. Mississippi is requesting that this percentage be lowered to 50 percent.

Background

Approximately three out of every four public school children in Mississippi live below the poverty guidelines. Research shows that students from low-income families are more likely to drop out of high school than their more advantaged classmates. With more than 60 percent of jobs in Mississippi requiring post-secondary education and training, intervention strategies that increase a student's opportunity to remain in school and graduate are critical to the success of our state's youth.

This waiver request is consistent with the MS v\TIOA Combined State Plan and its "no wrong door" strategies. Increasing the percentage of funding available to In-School Youth (ISY) will open doors to work experience, pre- apprenticeship programs, and career pathways to at-risk students.

Describes the actions that the State or local area, as appropriate, has undertaken to remove State or local statutory or regulatory barriers;

There are currently no state or local statutory or regulatory barriers to implementing the requested waiver.

Describes the goals of the waiver and the expected programmatic outcomes if the request is granted;

Goal 1: Increase access to the MS Smart Start Career Pathway based on need and without regard to educational status to at-risk youth in local communities. The Smart Start Career Pathway provides manageable steps leading to successively higher credentials and employment outcomes tailored to current life situations.

Outcome: Approval of this waiver will allow the state to provide work-based learning opportunities as well as mitigate dropout behaviors and improve student retention. Early intervention will increase attachment to the workforce and enrollment in post-secondary training.

Goal 2: Build on strategic partnerships to improve services and leverage resources.

Outcome: Approval of this waiver will enhance linkages to local education agencies and human services agencies and maximize the use of scarce state and local resources.

Describes how the waiver will align with the Department's policy priorities, such as:

1.
 - a. **supporting employer engagement;**
 - b. **connecting education and training strategies;**
 - c. **supporting work-based learning;**
 - d. **improving job and career results, and**
 - e. **other guidance issued by the Department.**

The **WIOA** encourages strategies that connect education and training as well as supporting work-based learning and improving job and career results. This waiver request will increase the connection between education and training, provide work-based learning opportunities that include work experience and pre-apprenticeship, and increase access to workforce services to disadvantaged youth.

A partnership between Twin Districts LWDA and Kemper County School District has provided an unprecedented opportunity for students enrolled in the Work-Based Learning program. Students have been afforded job placement previously unavailable and employers have benefitted from the additional and much needed workforce. The staff of the workforce area has worked closely with students to ensure that they arrive at their first interview prepared with proper job search skills and once hired, armed with the soft skills and work ethics needed to succeed. Using the Kemper County School District model, the LWDA can easily replicate the program. It has expanded to the Hattiesburg Public School District and they anticipate more growth throughout the workforce area in 2022.

Describes the individuals affected by the waiver, including how the waiver will impact services for disadvantaged populations or individuals with multiple barriers to employment; and

Approximately three out of every four public school children in Mississippi live below the poverty guidelines. Research shows that students from low-income families are more likely to drop out of high school than their more advantaged classmates. With more than 60 percent of jobs in Mississippi requiring post-secondary education and training, intervention strategies that increase a student's opportunity to remain in school and graduate are critical to the success of our state's youth.

Mississippi's at-risk and disadvantaged youth, employers, parents, service providers, post-secondary institutions and American Job Centers will benefit from this waiver.

Describes the processes used to:

1. Monitor the progress in implementing the waiver;

Annual **WIOA** on-site programmatic reviews will include an evaluation of how local waivers are being utilized and the success of achieving goals and outcomes. Youth service providers will also be responsible for assessing the use of and the effectiveness of waivers.

2. Provide notice to any local board affected by the waiver;

See answer at section (D) below

3. Provide any local board affected by the waiver an opportunity to comment on the request;

See answer at section (D) below

4. Ensure meaningful public comment, including comment by business and organized labor, on the waiver.

This waiver request was developed at the request of and with input from the Local Workforce Development Areas. In accordance with WIOA Regulations at 20 CFR 679.620 (ii) (iii) and (iv), this waiver request was provided to all local workforce development boards. The waiver request is currently posted on our website for comment and review by required partners and the general public.

The Secretary may require that States provide the most recent data available about the outcomes of the existing waiver in cases where the State seeks renewal of a previously approved waiver.

Provide more discrete projected outcome information as well as the following:

1. Evidence that the state and/or local areas are in jeopardy of missing 75 percent OR information on past years' attempts to reach 75 percent. (If the data shows states are spending it, what is the data behind your request?)

Moving from a 75/25 split to a 50/50 split between ISY/OSY requires time to shift the model to include innovative programs and strategies. All four workforce development areas in Mississippi are on board for making this shift to address the needs of at-risk ISY. However, the PY18 waiver was not approved until after the workforce areas' youth providers had been procured, which delayed the implementation of the new plans for some of the areas.

The Mississippi Partnership was the first workforce area in the state to begin implementing the new 50/50 strategy, using the waiver during PY18 - PY20.

Despite two years of the Covid-19 pandemic hampering all workforce activities and implementation of In-School Youth strategies in particular, two more local workforce areas have begun implementing enhanced In-School Youth programs. These are described in greater detail below in Section D.

2. Description of how the State will continue to serve OSY.

Out-of-school youth will continue to be served in the state following established strategies. Adding more in-school youth funding will be an enhancement to the total number of youth served, as described by two of the local workforce areas in the state.

For instance, Twin District LWDA will continue to serve OSY in the same capacity; all five OSY providers will continue to serve OSY. An increase of ISY will not decrease our OSY numbers. Adding more ISY will be an enhancement to the total number of youth served in the TDWDA. In PY19 Twin Districts served 199 OSY and 0 ISY, in PY20 they served 176 OSY and 35 ISY.

The Mississippi Partnership currently has out-of-school youth programs that serves 19 out of 27 counties in our workforce area and served 392 out-of-school youth and 270 in-school youth in PY19. Due to Covid, the number of both groups reduced to 304 out-of-school and 243 in-school. The percentage of in-school served increased year to year though, from 59.21% out-of-school and 40.78% in-school in PY19 to 55.57% out-of-school and 44.42% in-school in PY20. The Mississippi Partnership will continue to provide out-of-school youth services and prepare out-of-school youth for the workforce and continued education.

3. What are the barriers or is the state requesting because it has a unique strategy (homeless in-school youth)?

Numerous school districts in the state have limited resources, high poverty rates, low test scores, and basic skills deficiencies. Many of the at-risk students that need to be served have limited access to on-line learning. Therefore, we anticipate a rise in the basic skill deficient students due to the remote/ on-line school activities that have become necessary due to the ongoing Covid-19 crisis. Increasing the state's funding for ISY will allow the state to intervene and expose at-risk students to the necessary skills that will prepare them for self-sufficiency. The earlier at-risk students are exposed to work ready skills and career pathways, the more likely the youth will continue in the school system increasing their graduation rate and future employability.

Innovative programs, such as Ethic/Readiness, Financial Literacy, Introduction (with **LMI**) to Workforce Development Area sectors, WorkKeys Assessments, and Work Experience will help face these barriers head-on and increase the success of the state's youth programs.

4. As a renewal - provide evidence that the State met its goals (performance result) for the last approved waiver.

Goal: Increase the number of work-ready and post-secondary ready students in each local area and build a pipeline of students with work-ready skills identified by employers and necessary to meet employer needs. The goal is to increase the number of students eligible for college dual enrollment and industry-recognized credentials and to build a strong partnership with local business and industry.

The waiver was approved in November of 2018 for PY18 and PY19. The Mississippi Partnership provides data for the success of this waiver. The other three workforce development areas were in the process of implementing programs for ISY when the COVID-19 crisis developed. All areas will use many of the same strategies as the Mississippi Partnership.

In PY18, the Mississippi Partnership served 134 in-school youth. In PY19, they served 270 in-school youth despite the COVID-19 pandemic situation. During PY20, the Mississippi Partnership LWDA used the 50/50 youth waiver. As predicted, the number of participants was

lower due to COVID, however the **percentage of in-school youth (ISY) rose from 40.78% in PY19 to 44.42% in PY20**. The LWDA reports, “the waiver has had a positive impact on our youth performance outcomes and has allowed us to expand our target base for youth services.” The increase from PY18 to PY19 and the percentage increase from PY19 to PY20 is a direct result of having the waiver to spend up to 50% of youth funds on in-school youth. They have also been able to build stronger partnerships with local business and industry as a direct result of being able to serve the in-school youth. The Mississippi Partnership is working to link the in-school youth program with industry recognized apprenticeships at local community colleges so there will be a seamless transition for in-school youth who choose to continue their education in career tech fields within LWDA target sectors.

The Mississippi Partnership LWDA has been able to build strategic partnerships to improve services and leverage resources for youth in the workforce area. They have enhanced linkages to local education agencies and other agencies and maximized the use of workforce programs. This is helping to build a progressive pipeline of employees for industry by exposing and linking youth in high school to short-term (up to 2 years) workforce programs after high school graduation.

The State of Mississippi’s graduation requirements changed for students who entered the 9th grade in August 2018, and all students are required to complete a College & Career Readiness Course or complete 140 hours of work-based learning activities. This waiver has helped the Mississippi Partnership LWDA provide work-based learning opportunities and career exploration as well as mitigate dropout behaviors and improve student retention. Early intervention will increase attachment to the workforce and enrollment in post-secondary training.

The state will build on the success of Mississippi Partnership in Program Year 2021 with the Delta LWDA planning an in-school pilot project that involves two youth providers and a community college. This LWDA planned expansion will require the LWDA to take advantage of the waiver.

The Twin Districts LWDA will also be expanding their PY20 ISY pilot project. One of the goals of the TDWDA Sector Strategy Plan is to establish a growing partnership with high school CTE programs. In order to achieve the goal, SMPDD formed a partnership with the Mississippi Department of Education to provide WIOA youth services to high school career and technical students. Through the partnership, the objectives of both programs are met. SMPDD has worked with local CTE Directors, Work based Learning Coordinators, and Guidance Counselors to enroll CTE students into WIOA youth programs. The high school CTE programs provide the youth training in a specific pathway and the WIOA youth programs provide work readiness skills training, supportive services, and connect the youth to work based learning opportunities. Because COVID required TDWDA to adapt their training model to be able to provide remote services, they now have the ability to connect with all CTE program in the local area. TDWDA piloted the program with Kemper County High School and Hattiesburg High School and although they only enrolled 35 in-school youth in program year 2020, the plan is to expand to several CTE programs across the TDWDA 24 county service area and therefore, enroll many more in-school youth into the WIOA youth program utilizing the 50/50 waiver. SMPDD and TDWDA are currently participating in statewide Perkins V taskforce planning team meetings to better align their funding streams, reduce duplication, and coordinate services.

TITLE I-B ASSURANCES

The State Plan must include	Include
1. The State has implemented a policy to ensure Adult program funds provide a priority in the delivery of training services and individualized	Yes

The State Plan must include	Include
career services to individuals who are low income, public assistance recipients and basic skills deficient;	
2. The State has implemented a policy to ensure local areas have a process in place for referring veterans with significant barriers to employment to career services provided by the JVSG program's Disabled Veterans' Outreach Program (DVOP) specialist;	Yes
3. The State established a written policy and procedure that set forth criteria to be used by chief elected officials for the appointment of local workforce investment board members;	Yes
4. The State established written policy and procedures to ensure local workforce investment boards are certified by the governor every two years in accordance with WIOA section 107(c)(2);	Yes
5. Where an alternative entity takes the place of a State Board, the State has written policy and procedures to ensure the alternative entity meets the definition under WIOA section 101(e) and the legal requirements for membership;	No
6. The State established a written policy and procedure for how the individuals and entities represented on the State Workforce Development Board help to determine the methods and factors of distribution, and how the State consults with chief elected officials in local areas throughout the State in determining the distributions;	Yes
7. The State will not use funds received under WIOA Title I to assist, promote, or deter union organizing in accordance with WIOA section 181(b)(7);	Yes
8. The State distributes adult and youth funds received under WIOA equitably throughout the State, and no local area suffers significant shifts in funding from year-to-year during the period covered by this plan;	Yes
9. If a State Workforce Development Board, department, or agency administers State laws for vocational rehabilitation of persons with disabilities, that board, department, or agency cooperates with the agency that administers Wagner-Peyser services, Adult and Dislocated	Yes

The State Plan must include	Include
Worker programs and Youth Programs under Title I;	
10. The State agrees to report on the impact and outcomes of its approved waivers in its WIOA Annual Report.	Yes
11. The State has taken appropriate action to secure compliance with the Uniform Guidance at 2 CFR 200 and 2 CFR 2900, including that the State will annually monitor local areas to ensure compliance and otherwise take appropriate action to secure compliance with the Uniform Guidance under section WIOA 184(a)(3);	Yes

PROGRAM-SPECIFIC REQUIREMENTS FOR WAGNER-PEYSER PROGRAM (EMPLOYMENT SERVICES)

A. EMPLOYMENT SERVICE STAFF

1. DESCRIBE HOW THE STATE WILL STAFF THE PROVISION OF LABOR EXCHANGE SERVICES UNDER THE WAGNER-PEYSER ACT, SUCH AS THROUGH STATE EMPLOYEES, INCLUDING BUT NOT LIMITED TO STATE MERIT STAFF EMPLOYEES, STAFF OF A SUBRECIPIENT, OR SOME COMBINATION THEREOF.

MDES is currently in compliance with 20 CFR Part 651, 652, 653 and 658. MDES plans to utilize merit based Wagner-Peyser staff.

2. DESCRIBE HOW THE STATE WILL UTILIZE PROFESSIONAL DEVELOPMENT ACTIVITIES FOR EMPLOYMENT SERVICE STAFF TO ENSURE STAFF IS ABLE TO PROVIDE HIGH QUALITY SERVICES TO BOTH JOBSEEKERS AND EMPLOYERS

MDES utilizes a one-hour weekly staff meeting to share information and train staff. Quarterly managers meetings are held to provide training to management staff. Each MDES staff member has an Individual Development Plan on file that includes the requirements to complete Professional development activities. MDES operates a twelve month Leadership Development program that all Wagner Peyser supervisors must attend. The curriculum includes courses on Self-Awareness, Self-Development, Team Development and Organizational Development. In addition, Wagner Peyser staff members attend regional and national workforce training conferences and National Veterans Training Institute courses. Staff attend workforce conferences, including Southeastern Employment and Training Association (SETA) and National Association of State Workforce Agencies (NASWA).

3. DESCRIBE STRATEGIES DEVELOPED TO SUPPORT TRAINING AND AWARENESS ACROSS CORE PROGRAMS AND THE UNEMPLOYMENT INSURANCE (UI) PROGRAM AND THE TRAINING PROVIDED FOR EMPLOYMENT SERVICES AND WIOA STAFF ON IDENTIFICATION OF UI ELIGIBILITY ISSUES AND REFERRAL TO UI STAFF FOR ADJUDICATION

All Wagner-Peyser staff are cross trained to identify Unemployment Insurance eligibility issues and participate in training along with WIOA staff. Wagner-Peyser staff members utilize an issue detection worksheet that is submitted to Unemployment Insurance management when potential issues are detected. Wagner-Peyser management works closely with Unemployment Insurance management to provide continuous training to staff on updated policy information.

B. EXPLAIN HOW THE STATE WILL PROVIDE INFORMATION AND MEANINGFUL ASSISTANCE TO INDIVIDUALS REQUESTING ASSISTANCE IN FILING A CLAIM FOR UNEMPLOYMENT COMPENSATION THROUGH ONE-STOP CENTERS, AS REQUIRED BY WIOA AS A CAREER SERVICE

Wagner-Peyser staff will provide staff assisted services to help Unemployment Insurance claimants file online. Resource rooms with internet access are available in all one-stop centers to UI claimants and resource room attendants are available to assist claimants during the filing process.

Mississippi uses an integrated workforce technology system called ReEmployMS to make a direct linkage by assisting customers with claims filing in the resource rooms of the WIN Job Centers. WIN Job Center management can directly contact a more knowledgeable Unemployment Insurance staff member remotely to provide immediate assistance for customers as needed.

C. DESCRIBE THE STATE'S STRATEGY FOR PROVIDING REEMPLOYMENT ASSISTANCE TO UI CLAIMANTS AND OTHER UNEMPLOYED INDIVIDUALS

MDES operates the Reemployment Services and Eligibility Assessment (RESEA) program to provide assistance to UI claimants The Reemployment Services and Eligibility Assessment (RESEA) program is an initiative in Mississippi to provide individualized career services to help reconnect UI beneficiaries with work as quickly as possible. Services to claimants in the

programs include: customized labor market information, development of an Individual Employment Plan, orientation of services and programs offered, registration in MDES' workforce technology system, job match, skills gap analysis, and soft skills training. The MDES Workforce Intake Call Center works remotely to provide job search assistance to UI Claimants throughout the state.

D. DESCRIBE HOW THE STATE WILL USE W-P FUNDS TO SUPPORT UI CLAIMANTS, AND THE COMMUNICATION BETWEEN W-P AND UI, AS APPROPRIATE INCLUDING THE FOLLOWING:

Wagner-Peyser staff will provide staff assisted services to help Unemployment Insurance claimants file online. Resource rooms with internet access are available in all one-stop centers to UI claimants and resource room attendants are available to assist claimants during the filing process.

Mississippi uses an integrated workforce technology system called ReEmployMS to make a direct linkage by assisting customers with claims filing in the resource rooms of the WIN Job Centers. WIN Job Center management can directly contact a more knowledgeable Unemployment Insurance staff member remotely to provide immediate assistance for customers as needed.

WIOA partner staff are trained in many different ways, including a one-hour weekly staff meeting to share information and train staff. Partner staff also shadow Wagner Peyser staff to learn the functions of ReEmployMS to be able to assist claimants as they navigate the claims processes in the system. WIOA partner staff are positioned within the WIN Job Center to assist claimants with staff-assisted career services as the claimant requests further career and training needs.

MDES has an integrated workforce registration system that captures common ES and UI data elements and provides real time triage. Mississippi State Law requires UI claimants to enroll in the Wagner-Peyser program by requiring claimants to perform a weekly work search. The real time triage creates an initial profile in the job match system and presents claimants with a list of jobs that may match their skills and past work experience.

MDES Wagner-Peyser staff are cross-trained and have a process in place to administer the work test including making eligibility assessments for UI claimants. Wagner-Peyser staff provide staff assisted reemployment services to UI claimants. UI claimants also have access to self-service labor exchange features in the workforce technology system. As potential availability issues are detected by WIN Job Center staff during interviews with individuals receiving Unemployment compensation, they are reported to UI staff for adjudication.

MDES Wagner-Peyser staff are cross-trained to provide referrals and application assistance for training and education programs and resources. MDES utilizes a one-hour weekly staff meeting to share information with partners and to train staff. Staff are trained in the use of the Eligible Training Provider List (ETPL) online system where claimants can search for approved WIOA training and education programs in Mississippi. WIOA staff in the WIN Job Center are physically present to receive a warm hand-off referral and assist the claimant in their training and education needs.

E. AGRICULTURAL OUTREACH PLAN (AOP). EACH STATE AGENCY MUST DEVELOP AN AOP EVERY FOUR YEARS AS PART OF THE UNIFIED OR COMBINED STATE PLAN REQUIRED UNDER SECTIONS 102 OR 103 OF WIOA. THE AOP MUST INCLUDE AN ASSESSMENT OF NEED. AN ASSESSMENT NEED DESCRIBES THE UNIQUE NEEDS OF FARMWORKERS IN THE AREA BASED ON PAST AND PROJECTED AGRICULTURAL AND FARMWORKER ACTIVITY IN THE STATE. SUCH NEEDS MAY INCLUDE BUT ARE NOT LIMITED TO: EMPLOYMENT, TRAINING, AND HOUSING.

1. ASSESSMENT OF NEED. PROVIDE AN ASSESSMENT OF THE UNIQUE NEEDS OF FARMWORKERS IN THE AREA BASED ON PAST AND PROJECTED AGRICULTURAL AND FARMWORKER ACTIVITY IN THE STATE. SUCH NEEDS MAY INCLUDE BUT ARE NOT LIMITED TO: EMPLOYMENT, TRAINING, AND HOUSING.

Due to the low number of migrant and seasonal farm workers in Mississippi, it is considered a non-significant state relative to the Migrant and Seasonal Farm Worker (MSFW) program. The estimated number of MSFWs during the peak season in the state is 2,500. This is based on data supplied by the WIOA Title 1 section 167 National Farmworker Jobs Program (NFJP) grantee, other MSFW organizations, employer organizations, and federal and/or state agency data sources such as the U.S. Department of Agriculture and the Employment and Training Administration (ETA).

Mississippi shares information related to the MSFW program with farmworkers during monitoring visits. Literature and other resources of benefit are also provided. For farmers and farmworkers with internet capability, they are introduced to the MDES website, which can help provide a full range of services and training opportunities that may be provided.

MDES works with the Mississippi Delta Council to assess the unique needs of farmworkers in the state. Many farmworkers need additional training to reach self-sufficiency. During housing inspections and monitoring visits, a need for proper healthcare resources has been observed. The two most significant reported barriers to care among MSFWs are cost and language.. Information on healthcare resources is made available as needed.

2. AN ASSESSMENT OF THE AGRICULTURAL ACTIVITY IN THE STATE MEANS: 1) IDENTIFYING THE TOP FIVE LABOR-INTENSIVE CROPS, THE MONTHS OF HEAVY ACTIVITY, AND THE GEOGRAPHIC AREA OF PRIME ACTIVITY; 2) SUMMARIZE THE AGRICULTURAL EMPLOYERS' NEEDS IN THE STATE (I.E. ARE THEY PREDOMINANTLY HIRING LOCAL OR FOREIGN WORKERS, ARE THEY EXPRESSING THAT THERE IS A SCARCITY IN THE AGRICULTURAL WORKFORCE); AND 3) IDENTIFYING ANY ECONOMIC, NATURAL, OR OTHER FACTORS THAT ARE AFFECTING AGRICULTURE IN THE STATE OR ANY PROJECTED FACTORS THAT WILL AFFECT AGRICULTURE IN THE STATE

Due to the low number of migrant and seasonal farm workers in Mississippi, it is considered a non-significant state relative to the Migrant and Seasonal Farm Worker (MSFW) program. The estimated number of MSFWs during the peak season in the state is 2,500. This is based on data supplied by the WIOA Title 1 section 167 National Farmworker Jobs Program (NFJP) grantee, other MSFW organizations, employer organizations, and federal and/or state agency data sources such as the U.S. Department of Agriculture and the Employment and Training Administration (ETA).

Spring, summer, and fall represent the planting to harvest seasons in the 30 to 39 counties where the majority of crops are grown. The number of seasonal farmworkers remains constant during these months with more migrant workers coming in during the harvest season (fall).

The Mississippi Department of Employment Security (MDES) entered into a non--financial cooperative agreement with the Mississippi Delta Council for Farm Workers Opportunities, Inc. (MDC), which is the state's Workforce Innovation and Opportunity Act (WIOA) 167 Grantee. MDES and MDC work together to identify major labor-intensive crop activity relative to MSFWs. MDC, in its outreach team efforts, has identified that the Delta and semi-Delta counties in the state are where 90% of MSFWs reside and work. There are small pockets of MSFWs throughout the state involved in agricultural production; however, most of the labor-intensive crops are produced in the Delta.

The top five crops include: cotton, corn, soybeans, sweet potatoes, and rice. Other important crops include wheat, milo, peanuts, and catfish. Dairy and poultry farming are located in the hilly section of the state. The coastal and southeastern areas include tree farming (timber). Agricultural employers in the state are predominantly focused on hiring local workers. In instances where they are unable to obtain an adequate workforce, employers turn their focus to hiring foreign workers. However, when there is a scarcity of agricultural workers, they utilize MSFWs and the H-2A and H-2B Foreign Labor program. Agricultural employers are challenged to meet a constantly-evolving market demand for commodities, which affects their economic viability. Agriculture in the state is impacted by market demand; as well as by natural disasters, such as the recent flooding in the Mississippi Delta region.

3. AN ASSESSMENT OF THE UNIQUE NEEDS OF FARMWORKERS MEANS SUMMARIZING MIGRANT AND SEASONAL FARM WORKER (MSFW) CHARACTERISTICS (INCLUDING IF THEY ARE PREDOMINANTLY FROM CERTAIN COUNTRIES, WHAT LANGUAGE(S) THEY SPEAK, THE APPROXIMATE NUMBER OF MSFWs IN THE STATE DURING PEAK SEASON AND DURING LOW SEASON, AND WHETHER THEY TEND TO BE MIGRANT, SEASONAL, OR YEAR-ROUND FARMWORKERS). THIS INFORMATION MUST TAKE INTO ACCOUNT DATA SUPPLIED BY WIOA SECTION 167 NATIONAL FARMWORKER JOBS PROGRAM (NFJP) GRANTEES, OTHER MSFW ORGANIZATIONS, EMPLOYER ORGANIZATIONS, AND STATE AND/OR FEDERAL AGENCY DATA SOURCES SUCH AS THE U.S. DEPARTMENT OF AGRICULTURE AND THE U.S. DEPARTMENT OF LABOR (DOL) EMPLOYMENT AND TRAINING ADMINISTRATION

An assessment of migrant, seasonal, and year-round farm worker characteristics indicates that migrant and seasonal workers are predominately Hispanic during the peak season, while year-round workers are predominately African-American. Typically, migrant and seasonal workers speak Spanish and year-round workers speak English. MDC, the state NFJP 167 grantee, has bilingual staff available to assist Hispanic workers.

4. OUTREACH ACTIVITIES

(A) Contacting farmworkers who are not being reached by the normal intake activities conducted by the employment service offices.

Make frequent contacts and establish partnerships with public and private community agencies, employers and/or employer organizations, MSFWs and Seasonal Farmworker groups, and other social organizations to facilitate the widest possible distribution of information concerning employment services. Market farmworker job openings at Governor's Job Fair Network events and local WIN Job Center job fair events as well publicize the availability of employment services through such means as electronic media publicity and other technology.

(B) Providing technical assistance to outreach workers. Technical assistance must include trainings, conferences, additional resources, and increased collaboration with other organizations on topics such as one-stop center services (i.e. availability of referrals to training, supportive services, and career services, as well as specific employment opportunities), the employment service complaint system, information on the other organizations serving MSFWs in the area, and a basic summary of farmworker rights, including their rights with respect to the terms and conditions of employment.

Technical assistance is provided through state and federal trainings, conference calls and other means. Updated training with additional guidance and resources has been provided to all outreach staff. Continued collaboration with community partners, worker rights advocates and other agencies such as the Mississippi Delta Council is used to assist and disseminate information. Increased collaboration helps provide referral services, complaint system awareness and knowledge of the basic rights connected to employment for MSFWs and farmers.

(C) Increasing outreach worker training and awareness across core programs including the Unemployment Insurance (UI) program and the training on identification of UI eligibility issues.

Outreach workers are cross trained on core programs including Unemployment Insurance, Wagner-Peyser, and WIOA Title I. Monthly and quarter meetings with partner agencies are held to ensure outreach workers are more informed of events and programs that may be in the community. Cross training of outreach workers is conducted annually.

(D) Providing State merit staff outreach workers professional development activities to ensure they are able to provide high quality services to both jobseekers and employers.

State merit staff members receive professional development through multiple avenues which include state and federal conferences and trainings, webinars, regional meetings and other sources.

(E) Coordinating outreach efforts with NFJP grantees as well as with public and private community service agencies and MSFW groups.

The SWA staff person coordinates with the Mississippi Delta Council (MDC) to ensure that appropriate outreach activities are conducted. The SWA and the MDC work together to coordinate outreach with public and private community service agencies and MSFW groups. Quarterly meetings occur to discuss outreach efforts. The SWA also meets regularly with outreach workers to coordinate efforts throughout the state.

MDES achieves many of the state's outreach goals for ensuring appropriate services are provided for MSFWs when the SMA is conducting farm visits where information and resources are provided on other employment opportunities. Though Mississippi is a non-significant state, the SMA provides resource material provided by the DOL to American Job Centers by way of hand delivery or the web. The SMA attends local and state job fairs providing resource information on the MSFW program and attends local community events that have a direct impact on farm related activities. In addition, members of the statewide MDES Business Outreach team conduct MSFW outreach during non-peak and peak agricultural seasons. The team members consist of four full time outreach staff funded by Wagner Peyser and numerous Wagner Peyser staff from the American Job Centers. .

The MDES Department Chief and the SMA provide training to MSFW outreach staff in person, remotely and electronically. In addition, they attend staff development meetings in American Job Centers to train employees and partners on services. Services provided to MSFWs in the American Job Center's includes information on unemployment insurance, assessment, counseling, job referrals, job development contacts, training, support services and job placement assistance. Currently, Mississippi's SMA attends basic unemployment insurance staff development trainings when possible to stay abreast of changing UI regulations. The SMA, Department Chief and outreach staff attend state, regional and national conferences such as Southeastern Employment and Training Association (SETA) and National Association of State Workforce Agencies (NASWA). They also attend USDOL trainings in person and electronically.

Outreach workers are cross trained on core programs including Unemployment Insurance, Wagner-Peyser, and WIOA Title I. Monthly and quarter meetings with partner agencies are held to ensure outreach workers are more informed of events and programs that may be in the community. Cross training of outreach workers is conducted annually.

State merit staff outreach workers attend professional development activities. Activities include USDOL sponsored training, online training, agency sponsored training, workforce conferences and National Veterans Training Institute courses. All outreach workers have completed a training conference on all WIOA core programs.

The SWA staff person coordinates with the MDC to ensure that appropriate outreach activities are carried out. The State SWA staff, as well as staff of the MDC which conducts the outreach to MSFW, attend appropriate conferences and training, as well as participate in DOL conference calls relative to outreach activities. The SWA staff provides appropriate training to local one-stop staff as appropriate. SWA staff also coordinates with the MDC regarding outreach and other activities.

5. SERVICES PROVIDED TO FARMWORKERS AND AGRICULTURAL EMPLOYERS THROUGH THE ONE-STOP DELIVERY SYSTEM

Staff in each MDES local one-stop and MDC work cooperatively to ensure information on each agency's services is available to MSFWs upon entering local offices. This includes MDES Grievance Procedures, which are available for dissemination to the farm workers in the language prevalent among the farm worker population in that area through such means as posters, pamphlets, use of the media, and workshops.

The Mississippi Delta Council for Farm Workers Opportunities, Inc. (MDC/FWOI) was organized in 1971 as a private non-profit corporation chartered to operate programs to assist migrants and seasonal farm workers in the State of Mississippi. Its two primary objectives are: to help farm workers seek alternatives to agricultural labor; and to improve the agricultural lifestyle of those who wish to remain in agriculture.

As the WIOA Title 1 section 167 grantee, MDC receives a grant from the Department of Labor to address the needs of MSFW related to employment or personal needs. Some of the agencies MDC partners with to meet the personal needs of MSFW are Delta Housing and community action agencies, which offer assistance with paying utility bills, local food banks supplement food needs, health departments/agencies help with free or low-cost health and dental care, the local community college offers training and certification opportunities. MDC also provides pesticide training and farm safety training to MSFW's and makes referrals to agricultural employers for job opportunities. MDC refers MSFWs to the WIN Job Centers as appropriate for other job certifications.

MDES is able to reach out to agricultural employers for job development, assistance with job orders, and to ensure that the agricultural employers are able to secure a reliable labor force. MDES staff market the services of the WIN Job Centers to agricultural employers. MDES strives to offer technical assistance to agricultural employers in a continued effort to meet their needs and requirements. Upon initial contact with the SWA, the agricultural employer must register their job order with the state's WIN Job Center. The job order includes the agricultural employer's requirement of job specifications, number of required workers, and length of employment. MDES is then able to job match applicants tailored to the specific requirements of the agricultural employer. Appropriate referrals of applicants are made to the employer. MDES will continue to work with MDC and other partnering agencies to ensure agricultural employers are continuing to be educated on MSFWs policies, procedures, and regulations.

Mississippi abides by 20 CFR 658 Subpart E, using the Complaint/Apparent Violation Form; OMB Approval No. 1205-0039 Expiration Date: 07/31/2023 (see attached).

When a Complaint/Apparent Violation is reported to any of our WIN Job Centers, the form 1205-0039 is completed. The manager or the complaint specialist will make contact with the SMA to advise of the complaint and send the documents by email. The SMA investigates and attempts an informal resolution attempting to resolve in five (5) business days. If the SMA is unable to resolve, the Complaint/Apparent Violation is then forwarded to the next level for investigation. A written policy regarding the complaint system is on file and has been shared with all WIN Job Centers.

The complaint system is marketed through community outreach, with assistance from partner agencies, to disseminate complaint system information and resource materials. The materials are translated into languages other than English so that Limited English Proficient (LEP) clients can understand and access one-stop services. Local WIN Job Centers have access to translators via an 800-telephone number and a listing of local individuals who can provide translation services at no cost to the individual.

As a MSFW non-significant state, Mississippi strives to ensure that employment and training services required under WIOA Title I are provided to MSFWs at the WIN Job Center as well through the MDES website. As previously mentioned, services provided to MSFWs in the WIN Job Center include information on unemployment insurance, assessment, counseling, job referrals, job development contacts, training, support services and job placement assistance. Appropriate assessments for each MSFW that registers at the WIN Job Center are conducted, to determine the specific employment and training needs of that worker. The MDES self-service system for employment and unemployment opportunities streamlines the process of getting immediate service that can be delivered anywhere, anytime. Posters and other printed material are posted at farms to provide contact information for the MSFW department. Such information is also provided to local partnering agencies that often come into contact with MFSW many times per year.

6. OTHER REQUIREMENTS

A. COLLABORATION

MDES and MDC work in collaboration where an estimated 300 MSFWs are served each year. MDES is also working to form a stronger relationship with the Regional Equality Opportunity Office. This partnership will ensure U.S. workers and MSFWs alike are afforded equal opportunities to jobs, as well as, ensuring worker's rights are not being violated and protected. As MDES' farm worker program continues to grow, the goal is to seek out and form closer relationships with other agency and advocacy groups.

B. REVIEW AND PUBLIC COMMENT

The State Monitor Advocate works for MDES; and was afforded the opportunity to review and comment on the Program Year 2017 AOP.

1. The AOP must include a statement confirming NFJP grantees, other appropriate MSFW groups, public agencies, agricultural employer organizations and other interested employer organizations have been given an opportunity to comment on the AOP. Include the list of organizations from which information and suggestions were solicited, any comments received, and responses to those comments.

The Mississippi AOP for Program Year 2017 was reviewed by the 167 NFJP grantee, and at the discretion of the NFJP other interested groups affiliated with the NFJP were given an opportunity to comment on the state AOP.

The plan was posted on the MDES public web site available to the public for review and comment. Although solicited, no additional information and no comments were received.

C. DATA ASSESSMENT

While Mississippi is a non-significant MSFW state, ongoing training occurs to identify all MSFW's that visit American Job Centers. Mississippi strives to ensure delivery of services both qualitatively and quantitatively to our non-significant MSFW population. Ongoing training will occur to ensure all goals are met.

D. ASSESSMENT OF PROGRESS

MDES submits an AOP in accordance with Department of Labor directives each year. MDES completed an AOP for Program Year 2021 in accordance with DOL guidance.

Previous year's history based on a comparison of Program Year (PY) 2020 and 2021 data:

- Approximately 989 agricultural job orders and openings were received in PY 2020.
- Approximately 1,216 agricultural job orders and opens were received in PY 2021.
- Most job orders were filled with a combination of H2A and MSFW applicants totaling 100%.
- There were 569 interstate clearance orders received and initiated PY 2020.
- There were 836 interstate clearance orders received and initiated PY 2021.

Based on historical data and previous performance, MDES anticipates achieving the following goals for MSFW:

- Approximately 1,216 agricultural job orders and openings to be received.
- Most job orders filled will be a combination of H2A and MSFW applicants totaling 100%.
- Approximately 1% of the job orders are expected to be filled by MSFWs.
- Project 836 interstate clearance orders to be received and initiated.

E. STATE MONITOR ADVOCATE

The State Monitor Advocate works for MDES; and was afforded the opportunity to review and comment on the Program Year 2017 AOP.

WAGNER-PEYSER ASSURANCES

The State Plan must include	Include
1. The Wagner-Peyser Act Employment Service is co-located with one-stop centers or a plan and timeline has been developed to comply with this requirement within a reasonable amount of time (sec 121(e)(3));	Yes
2. If the State has significant MSFW one-stop centers, the State agency is complying with the requirements under 20 CFR 653.111, State Workforce Agency staffing requirements;	No
3. If a State Workforce Development Board, department, or agency administers State laws for vocational rehabilitation of persons with disabilities, that board, department, or agency cooperates with the agency that administers Wagner-Peyser Act services, Adult and Dislocated Worker programs and Youth Programs under Title I; and	Yes
4. SWA officials: 1) Initiate the discontinuation of services; 2) Make the determination that services need to be discontinued;	Yes

The State Plan must include	Include
3) Make the determination to reinstate services after the services have been discontinued; 4) Approve corrective action plans; 5) Approve the removal of an employer's clearance orders from interstate or intrastate clearance if the employer was granted conditional access to ARS and did not come into compliance within 5 calendar days; 6) Enter into agreements with State and Federal enforcement agencies for enforcement-agency staff to conduct field checks on the SWAs' behalf (if the SWA so chooses); and 7) Decide whether to consent to the withdrawal of complaints if a party who requested a hearing wishes to withdraw its request for hearing in writing before the hearing.	

WAGNER PEYSER PROGRAM PERFORMANCE INDICATORS

"Effectiveness in Serving Employers" is still being developed and this data will not be entered in the 2022 State Plan modifications.

PROGRAM-SPECIFIC REQUIREMENTS FOR ADULT EDUCATION AND FAMILY LITERACY ACT PROGRAMS

A. ALIGNING OF CONTENT STANDARDS

Mississippi adopted the National Governor's Association, Council of Chief State School Officers' Common Core State Standards at all educational levels (K-12), referred to as the Mississippi College and Career Readiness Standards. In July of 2013, the Mississippi Community College

Board (MCCB), Office of Adult Education (OAE) adopted the College and Career Readiness Standards (CCRS) for Adult Education released by the Office of Career, Technical and Adult Education (OCTAE) which fully align to the Mississippi K-12 standards. The intent of the adoption of these standards is to improve the quality of instruction in adult education classrooms and formally align standards with current instructional practices.

A statewide CCRS Implementation Team consisting of adult education instructors, local program directors and state staff participated in CCRS Standards-in-Action training led by LINCS Trainers on how to implement standards in Mississippi. To ensure the sustainability of standards based instruction throughout the state, OAE has established a train-the-trainer model. Cohorts of instructors who successfully complete and provide applicable evidence of standards-based instruction will be used to train the next cohort of instructors. It is the goal of OAE to create a system of CCRS content specialists/master teachers in Language Arts, Math, Reading, and English as a Second Language to provide regional training, technical assistance, and guidance to instructors in their region, thus ensuring statewide rigorous standards-based instruction in all programs.

In the summer of 2019, all adult education instructors were trained on the foundational units of the standards where they became familiar with the standards for both math and English Language Arts (ELA). Instructors also received training in instructional strategies to implement the standards into their classrooms. Having to halt the training in 2020 due to the Covid pandemic, the CCRS state team began developing and transitioning this foundational standards training into a Canvas course in 2021 starting with team members producing videos teaching the content. With the *Canvas Standards Foundational* course launching in June 2022, all new teachers and existing teachers who have not been trained in standards will be required to take the Foundational Courses of ELA and Math.

The CCRS Implementation Team was chosen to participate in a **Standards in Action 2.0** pilot, beginning January 2020. Mississippi had an ELA and a Math team participating in the pilot. The training was led by Susan Pimentel, author of the College and Career Readiness Standards <https://lincs.ed.gov/publications/pdf/CCRStandardsAdultEd.pdf>, and provided guidance on how to align curriculum with the standards, how to recognize when existing curricula should be replaced, and gave our state access to nationally recognized standards experts. The team will provide advanced training to adult education instructors throughout the state. Due to the Covid pandemic, this project was put on hold until the national training took place in 2022. Mississippi had new teachers join the state CCRS team and participate in the training again. This team presented on standards and curriculum review at the summer conference in June. This is the beginning of the state's Standards in Action implementation plan. The plan includes teachers participating in the foundational courses and programs choosing teams for the Curriculum Review training scheduled for program year 2022-2023.

In order to address the need for educational equity, access and rigor for adult English Language Learners (ELLs), the OAE adopted the English Language Proficiency (ELP) Standards for Adult Education released in October 2016 by the U.S. Department of Education. In August of 2019, all ELL instructors were trained on the ELP Standards. Instructors also received training in instructional strategies to implement the standards into their classrooms. The ELP Standards for Adult Education are essential to ensuring adult ELLs receive the focused and effective instruction they need to access our state's academic content standards. Mississippi's English language acquisition programs are designed to support ELLs in becoming skilled in reading, writing, and comprehension of English and help ELLs obtain a Mississippi High School Equivalency Diploma and support them as they move toward further education, training, or employment. A team of ELL instructors participated in the 2021 national training for implementing standards-based instruction for ELLs. This team will train ELL instructors as well as AE instructors in implementing standards-based instruction as part of the Standards in Action state plan for program year 2022-2023.

Instructional opportunities offered to ELLs in preparing for further training or employment need to be somewhat different in design and implementation. In 2021, all ELL instructors attended career pathway training specifically designed for instructional methods and training opportunities for ELLs. Mississippi's workplace preparation course, Smart Start, was updated to reflect specific resources and curriculum to assist the teacher and the ELLs in the classroom, such as technical skills, contextualized instruction, career exploration, and digital literacy. Furthermore, the OAE created the *Smart Start English Language Acquisition (ELA) Supports Teacher Guide* to provide resources ensuring inclusion of all adult education learners.

B. LOCAL ACTIVITIES

ADULT EDUCATION AND LITERACY ACTIVITIES (SECTION 203 OF WIOA)

The Mississippi Community College Board (MCCB), Office of Adult Education (OAE) is the eligible agency in the State with the responsibility of administering the Workforce Innovation and Opportunity Act of 2014 – Title II Adult Education and Family Literacy Act (AEFLA). The OAE is responsible for administering funds to eligible providers and providing program and performance oversight to grantees.

The purpose of adult education in Mississippi is to enable local adult education programs to develop, implement, and improve adult education and literacy services throughout the state to further the vision and goals as outlined in this State Plan. To support the vision and goals of the State Plan, the OAE established the following goals:

1. Improve Outcomes by Scaling Effective Models and Strategies across the State

The OAE will continue building, expanding and scaling comprehensive career pathways systems and creating conditions across every adult education program to achieve expansion of evidence-based models.

2. Increase Postsecondary Transitions and Credential Attainment

The OAE will provide support and training to local programs to ensure students are transitioning to postsecondary education or training and earning in-demand credentials that lead to self-sustaining employment. The OAE will promote integration of adult education with occupational education and training, as well as development of career pathways systems and authorize the use of funds for integrated education and training and workforce preparation activities.

3. Strengthen College and Career Readiness for Adult Learners

The OAE will provide training and support to local programs to prepare adult learners for success in postsecondary education and the workforce. In addition, all adult education programs will provide the Smart Start Course utilizing the framework developed by the U.S. Department of Education: Employability Skills Framework U.S. Department of Education: Employability Skills Framework.

4. Develop Multi-Level Career Pathways Options

Enable the system to design multiple entry points into postsecondary education for various functioning levels of adult education learners that are aligned to clearly identified student readiness levels and credentials, certifications, and/or degrees that lead to employment in high-growth, family-supporting jobs.

Local programs measure educational levels and progress using standardized assessment tools and must adhere to the assessment policy guidelines disseminated to programs annually. All funded providers are required to record gains using the Mississippi data management online reporting system. State and local providers promote continuous improvement on the

performance accountability measures and ensure optimal return on the investment of Federal funds.

The OAE provides funding to eligible local entities for the provision of adult education services through a competitive Request for Proposal (RFP) process. In 2017, the OAE published a competitive Request for Proposal (RFP) soliciting statewide eligible providers to apply for funding to provide Title II Adult Education and Literacy Services as aligned with the MS Combined State Plan. Twenty-one providers were approved to provide adult education and literacy services through 2020.

In 2020, a new, multi-year (5 year) competitive RFP was released. The RFP is the mechanism through which the OAE identifies, assesses and awards multi-year grants to eligible providers throughout the state. This RFP process includes Adult Education (Section 231), Corrections Education and other Education of Institutionalized Individuals (Section 225) and Integrated English Literacy and Civics Education (IELCE) (Section 243). An eligible provider is an organization that has demonstrated effectiveness in providing adult education activities to eligible individuals. To ensure programs are of high quality, all eligible providers submitted an RFP and were required to provide performance data to support the request for funding. Eligible providers may include a (an):

- local education agency;
- community-based or faith-based organization;
- volunteer literacy organization;
- institution of higher education;
- public or private nonprofit agency;
- library;
- public housing authority;
- nonprofit institution with the ability to provide adult education and literacy services;
- consortium or coalition of agencies, organizations, institutions, libraries, or authorities described above; and
- partnership between an employer and an entity described above.

The OAE is committed to conducting a competitive process that ensures direct and equitable access to all eligible providers competing for Title II grant funds. Information regarding the application and process will be made available to all potential applicants via a public website and through press releases. An adequate amount of time to complete the application was allowed, based on best practices as determined by the OAE's procurement department. Submittal of applications were in a manner that allowed equitable access to all individuals, including those with disabilities. Furthermore, the RFP included provisions that ensured organizations not previously funded were given a fair and equitable opportunity to address the requirements of the application.

The RFP process included a procedure to ensure the applicable Local Workforce Development Board(s) (LWDB(s)) reviewed the application and provided comments and/or recommendations regarding the application's alignment to the strategies and goals of the local plan under Section 108 of WIOA.

The thirteen considerations in WIOA, Title II, Sec. 231 (e) were used as the basis to determine funding decisions. Applicants were evaluated using a scoring rubric that includes:

- the thirteen considerations;
- alignment to the LWDB(s) strategies and goals;
- description of strategies and activities that promote concurrent enrollment with Title I services and core partner responsibilities;
- data collection;
- demonstrated effectiveness;
- program performance; and
- the ability to provide services that meet the needs of the target population.

Each applicant requesting funds was required to include a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers and other program beneficiaries with special needs. Section 427 (GEPA) highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, applicants determined whether these or other barriers may prevent participation in the program or activities and the steps to be taken to overcome identified barriers were included in the application.

All funds received by local providers are to be used to:

1. Establish and operate programs that provide adult education and literacy services to learners meeting the statutory definition of an “eligible individual” as defined in Section 203. Individuals eligible for adult education services include those who:

- are at least 16 years of age;
- are not enrolled or required to be enrolled in secondary school under State law; and
- are basic skills deficient;
- do not have a secondary school diploma or its recognized equivalent and have not achieved an equivalent level of education; or
- are English language learners.

2. Provide the following services and activities:

- Adult Basic Education (ABE): A program of academic instruction and education services below the secondary level that increase an individual’s ability to read, write, and speak in English and perform mathematics necessary to attain a secondary school diploma or its recognized equivalent, transition to postsecondary education or training, and obtain employment.
- Adult Secondary Education (ASE): A program of academic instruction and education services at the secondary level that increase an individual’s ability to read, write, and perform mathematics necessary to attain a secondary school diploma or its recognized equivalent, transition to postsecondary education or training, and obtain employment.
- English Language Acquisition (ELA): A program of instruction designed to help eligible individuals who are English language learners (ELLs) to achieve competence in reading, writing, speaking, and comprehension of the English language, and that leads to attainment of a secondary school diploma or its recognized equivalent and transition to postsecondary education and training or employment.

- Integrated Education and Training (IET): A service approach that provides adult education and literacy activities concurrently and contextually with workforce preparation and workforce training for a specific occupation or occupational cluster for the purposes of educational and career advancement. IET must include three components:
 - adult education and literacy activities,
 - workforce preparation activities, and
 - workforce training for a specific occupation or occupational cluster.
- Integrated English Literacy and Civics Education (IELCE): A program of instruction funded under WIOA, Section 243, which includes education services provided to English language learners who are adults, including professionals with degrees and credentials in their native countries, that enables such adults to achieve competency in the English language and acquire the basic and more advanced skills needed to function effectively as parents, workers, and citizens in the United States. It includes instruction in literacy and English language acquisition and instruction on the rights and responsibilities of citizenship and civic participation, and may include workforce training. In addition, the program must be provided in combination with IET.
- Correctional Education Program: A program of ABE, ASE, or ELL instruction for adult criminal offenders in correctional institutions.
- Workforce Preparation: Instruction, activities, programs, or services designed to help an individual acquire a combination of academic, critical thinking, digital literacy, and self-management skills, including competencies in utilizing resources and information, working with others, understanding systems, and obtaining skills necessary for successful transition into (and completion of) postsecondary education and training or employment. Mississippi has developed a 45-hour Smart Start Pathway Course that addresses workforce preparation. Programs are required to provide the Smart Start Pathway Course as part of their core services.
- Workforce Training: Training for a specific occupation or occupational cluster for the purpose of educational and career advancement. Workforce training may include:
 1. occupational skill training;
 2. on-the-job training;
 3. incumbent worker training;
 4. programs that combine workplace training with related instruction;
 5. training programs operated by the private sector;
 6. skill upgrading and retraining;
 7. entrepreneurial training;
 8. transitional jobs;
 9. job readiness training provided in combination with services (i) through (viii);
 10. adult education and literacy activities, including activities of English language acquisition and integrated education and training programs, provided concurrently or in combination with services described in any of clauses (i) through (vii); and

11. customized training conducted with a commitment by an employer or group of employers to employ an individual upon successful completion of the training.

3) Implement evidence and research based strategies that accelerate learning and promote readiness for postsecondary education and employment:

- Standards-Based Instruction: The OAE is committed to a standards-based education system. There are many requirements and assurances in place that require adult education providers to use the College and Career Ready Standards for instruction and to align all curricular resources used for instruction to the Standards. Professional development and ongoing technical assistance for local administrators and instructors will be delivered to support the implementation of standards-based instruction and the integration of bridge programs, workforce preparation activities and career pathway pilots into all adult education and literacy activities.
- Technology Integration and Distance Learning: The use of technology to assist adult learners in attaining the skills needed to successfully participate in the 21st century world and to accelerate and extend student learning outside the classroom has been a priority of the OAE for several years. All funded providers are required to integrate digital literacy skills training into classroom instruction and implement hybrid learning models that strategically blend face-to-face instruction with distance learning activities through the use of a high quality online curriculum to all adult learners.
- Career Pathways: The OAE will assist in the development of robust career pathways that include multiple aligned programs with funding from a variety of sources and driven by industry needs as defined through sector strategies and partnerships. Entry points on these pathways must extend to adult learners with barriers such as disabilities, low basic skills, lack of a secondary diploma and lack of English language skills
- Postsecondary Bridge Programs: The OAE will develop a program of study model with strategies specifically designed to assist adult learners, including those at the lowest academic skill levels, to successfully transition to postsecondary education and training.
- Alignment of Services and Concurrent Enrollment: The OAE will continue to work towards a customer-centered and seamless approach to providing an array of services through strategic and deep collaboration with core partners and other entities in the workforce system. The implementation of programmatic and operational strategies, such as common intake, orientation and assessment and data sharing among all partners will ensure adult learners have coordinated access to needed systems and services.
- American Job Center Partnership (WIN Job Centers): Through the development of formal collaborative agreements with local job centers, including co-location when appropriate, adult education providers ensure students as jobseekers have access to information and services that lead to positive employment outcomes.

In the spring of 2025, the OAE will begin the process for a new multi-year (5 year), competitive RFP process for FY 2026-2030 as outlined above.

C. CORRECTIONS EDUCATION AND OTHER EDUCATION OF INSTITUTIONALIZED INDIVIDUALS

The Mississippi Department of Corrections (MDOC) has been an excellent partner with Mississippi's adult education and literacy programs. One of MDOC's major objectives is to provide educational and career and technical training to incarcerated youth and adults, to ensure a smooth transition for returning citizens and a reduction in the state's recidivism rate. The OAE will continue to work collaboratively with the MDOC in aligning their curriculum and

student performance standards, data accountability system and teacher training with the state administered adult education and literacy services.

The OAE will award Section 225 grant funds for corrections education and education of institutionalized individuals using the same Request for Proposal (RFP) process and timeline described for Section 231 funds; see Adult Education and Literacy Activities (Section 203 of WIOA) above. The OAE will award multi-year (5 year) grants to eligible providers through a competitive RFP. The review of applications will include evaluation based on the 13 considerations outlined in Title II of WIOA. All applications will be evaluated using the same rubric and scoring criteria. Special consideration will be given to eligible applicants indicating priority to serving individuals who are likely to leave the correctional institution within five years of participation in the program.

The OAE will ensure no more than 20 percent of funds allocated to local providers with grant contracts under Section 231 will be used to carry out Section 225. As part of the grant contract, funded providers will be required to ensure WIOA funds are used to provide educational services to individuals in a correctional or other institutional facility as described in Section 225. Priority must be given to serving individuals who are likely to leave the correctional institution within five years of participation in the program.

Programs will provide adult education instruction at all levels of basic academic skills, for students who meet the eligibility requirements for enrollment. The use of funds will include all allowable activities detailed in Section 225(b)(1-8). Particular emphasis will be in developing programs that integrate the basic skills instruction with life skills, digital literacy and employability skills (Smart Start Pathway Course) to help participants acquire the necessary abilities to become and remain self-sufficient after leaving prison. Transition focused activities include pre-apprenticeship efforts as well as integrated education and training activities in partnership with apprenticeship efforts. Corrections will continue to be a partner in the career pathway efforts to ensure instructional activities are aligned with regional needs at each correctional location.

From spring 2021 to spring 2022, the OAE participated in OCTAE's *Integrated Education and Training in Correctional and Reentry Education Technical Assistance* program. The initiative's purpose is to assist correctional education programs develop and implement integrated education and training (IET) programs. The OAE provided technical assistance, advising, and on-site guidance to develop new programs relevant to MS' workforce needs; create multi-level career pathways for stacked credential opportunities leading to employment; and refine current processes to include contextualized instruction, single set of learning objectives, and team teaching.

D. INTEGRATED ENGLISH LITERACY AND CIVICS EDUCATION PROGRAM

The State will use Integrated English Literacy and Civics Education (IELCE) funds in combination with integrated education and training activities to address how to prepare adults, including professionals with degrees and credentials in their native countries, who are English language learners, and place such adults in unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency and integrate with the local workforce development system and its functions to carry out the activities of the program.

Eligible applicants will be required to describe how they propose to integrate English language acquisition activities and civics education concurrently and contextually. Providers will address the requirements of fully implementing Integrated English Literacy and Civics Education (IELCE) as described below:

- Integration of civics engagement skills into career pathways and workforce preparation activities targeted to English language learners, including professionals with degrees and credentials in their native countries;

- Integration of educational technology and hybrid learning models into civics educational activities, including the use of technology and social media to increase learner opportunities for responsible civic engagement;
- Training and technical assistance on research and evidence-based instructional strategies that promote deeper learning, including the incorporation of experiential civic learning opportunities;
- Collaborative agreements and formal partnerships with local area workforce system entities, including American (WIN) Job Centers, libraries, postsecondary institutions and employers; and
- Dissemination and replication of evidence-based resources and promising practices.

The OAE will award Section 243 grant funds for Integrated English Literacy and Civics Education (IELCE) programs using the same Request for Proposal (RFP) process and timeline described for Section 231 and 225 funds; see Adult Education and Literacy Activities (Section 203 of WIOA) above. The OAE will award multi-year (5 year) grants to eligible providers through a competitive RFP. The review of applications will include evaluation based on the 13 considerations outlined in Title II of WIOA. All applications will be evaluated using the same rubric and scoring criteria. Applicants will provide narrative details to demonstrate how they will meet the criteria. The distribution of IELCE funds across the state will be based on demographic data and needs analysis pertaining specifically to the geographic distribution of eligible individuals with language barriers in each workforce area.

Eligible providers must demonstrate in their application for funds the manner in which the program would be delivered in combination with integrated education and training activities, directly or through collaboration with partners identified in the law or other community-based organizations.

Grantees will deliver the activities under WIOA including the integration of literacy and English language instruction with occupational skill training, including promoting linkages with employers. Further, grantees must prepare English language learners for unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency, and how they will integrate the program with the local workforce development system to carry out the activities of the program.

Programs applying for IELCE funds under Section 243 will be required to provide IELCE instruction that includes integrated education and training activities. Applicants will be required to provide extensive data to demonstrate the need and potential for success of IELCE activities in conjunction with integrated education and training in the proposed service area. Such data will include, but not be limited to, immigration trends, demographics of the English language learners in the area where the program will be provided and employment and labor market statistics for the area. In addition, applicants will be asked to provide evidence they have developed, or will be able to develop in a timely fashion, partnerships that support the purpose of the program. Funding under this title will be awarded based upon the criteria for evaluation of programs applications contained in Section 243 of WIOA.

Mississippi has four designated local workforce development boards (LWDBs) that are tasked with selecting and identifying target sectors while developing goals and activities to address the workforce needs in their respective economies. Aligning with the identified sector strategies, Mississippi's Community Colleges provide training and education, whether through short-term workforce training or career-technical education, to Mississippians giving focus to specific industries important to a region.

Under the leadership and guidance of the local community college's Workforce Development and Career-Technical Education leadership, adult education providers:

- Partner with internal/external stakeholders to develop a consistent and coordinated plan to create a greater awareness of job opportunities.
- Design Smart Start to be Mississippi specific, such as understanding workforce needs and sector strategies of LWDBs.
- Identify the regional priorities outlined in the LWDBs plan.
- Create multi-level career pathways integrating relevant stacked credentials.
- Design educational and training strategies preparing ELLs for, and placing them in, unsubsidized employment in in-demand industries that lead to economic self-sufficiency.

E. STATE LEADERSHIP

1. DESCRIBE HOW THE STATE WILL USE THE FUNDS TO CARRY OUT THE REQUIRED STATE LEADERSHIP ACTIVITIES UNDER SECTION 223 OF WIOA

The primary goal of the OAE's use of state leadership funds is to support a system of professional development and technical assistance to ensure a high-quality adult education system that aligns with the goals of the state and local workforce development plans to meet the needs of workers and employers in the state. The system emphasizes program improvement based on data and high-quality research-based technical assistance and professional development opportunities that promote such program improvement.

The OAE will use funds made available under Section 222(a)(2) for the following adult education and literacy activities to develop or enhance the adult education system of the state. Not more than 12.5 percent of the grant funds made available will be used to carry out state leadership activities under Section 223.

Describe how the state will use the funds to carry out the required State Leadership activities under Section 223 of WIOA.

(1) The alignment of adult education and literacy activities with other core programs and one-stop partners, including eligible providers, to implement the strategy identified in the unified State plan under section 102 or the combined State plan under section 103, including the development of career pathways to provide access to employment and training services for individuals in adult education and literacy activities.

The OAE has aligned adult education and literacy activities with other core programs and one-stop partners as outlined in the State plan. The OAE will assist programs in the coordination and delivery of key services within the one-stop delivery system. These services may include instruction, assessment, support and referral services. The OAE will develop and provide relevant training to assist locals in the development of partnerships within the one stop system.

To assist in aligning services across core programs, Mississippi has provided multiple opportunities for statewide cross-training. In 2019 state level core partners hosted the Governor's Workforce Summit which provided training for state, regional and local staff. This training provided an opportunity to enhance professional growth and development and included topics such as: common intake procedures, common referral processes and specific programmatic information for each core partner. In addition, the development of sector partnerships and career pathway development will continue to be a priority with a focus on aligning services as a participant transitions from adult education through integrated education and training to further their education and employment opportunities.

In March 2021, the OAE partnered with Goodwill Industries of Mississippi and local adult education programs to provide a six-week training program, Customer Service Employment Academy (CSEA), combining high school equivalency preparation, Smart Start, and workforce training, specifically the Customer Service and Sales course through the National Retail Foundation.

To increase awareness of adult education services, the OAE provided statewide training throughout 2021 into 2022 in coordination with local adult education programs to WIOA Core Partners: Mississippi Department of Employment Security, Mississippi Department of Human Services, and the Mississippi Department of Rehabilitation Services.

Throughout the 2021-2022 fiscal year, the OAE presented on adult education services and resources to community partners through collaborative efforts with Mississippi Public Broadcasting, AmeriGroup, various Chamber of Commerce's Education Committees, Refill Jackson (out-of-school youth initiative), and Mississippi Department of Education to name a few.

The OAE collaborated with the W.K. Kellogg Foundation in their *Mississippi Low-Income Child-Care Initiative*, creating a system that leverages resources and aligns workforce services leading to employment equity for single moms. After various trainings, counselors would refer participants to their area's local adult education program for advancing training completion, credential attainment, and transition services to either further training and/or employment.

In 2021, the OAE partnered with the Office of Grant Management located at the Mississippi Department of Employment Security to provide educational and training needs to students participating in the Opioid Grant. The OAE provided training to MS Drug Courts' counselors and other Opioid Grant partners on eligibility, resources, and services of adult education. Through a referral process, local adult education programs provided grant participants educational and training services equipping them for middle-skill employment.

To connect students to employers, the OAE has a representative currently serving on the Governor's Job Fair Network Committee, allowing opportunities to engage employers and gain further understanding of MS' workforce landscape.

Mississippi has four Local Workforce Development Boards (LWDB(s)) and all funded programs are required to develop written agreements to ensure service alignment. Eligible providers align services with local plans to promote concurrent enrollment with Title I programs and activities in order to meet the state adjusted levels of performance and collect data to report on performance indicators. In addition, all providers describe how they will fulfill one-stop responsibilities in their region. As members of LWDBs, local providers will participate in ongoing plan development and implementation of WIOA.

(2) The establishment or operation of high quality professional development programs to improve the instruction provided pursuant to local activities required under section 231(b), including instruction incorporating the essential components of reading instruction as such components relate to adults, instruction related to the specific needs of adult learners, instruction provided by volunteers or by personnel of a State or outlying area, and dissemination of information about models and promising practices related to such programs.

The OAE is responsible for designing, implementing and operating statewide professional development activities for all AEFLA funded programs. The OAE utilizes state leadership funds to plan, coordinate and continue implementation of the College and Career Readiness Standards (CCRS) for all eligible providers in the state. The CCRS Team will provide support for the implementation of standards-based instruction both in English language arts and mathematics. State leadership funds will be used to hold conferences and institutes to ensure ongoing professional development in standards-based instruction and other OAE priority areas.

Improving teacher effectiveness has been a long-term goal for the OAE and continues to be a priority to enable every adult learner in Mississippi to acquire the necessary basic skills—reading, writing, math computation, speaking and listening—to compete successfully in today's workplace, strengthen family foundations and exercise full citizenship.

Reading is a complex process and many adult learners in Mississippi fall below the 6th grade reading level on the TABE assessment. In order to support reading instruction, the OAE developed written guidelines to assist local programs with resources and guidance for classroom instruction.

In order to address the reading skills of students, instructors participate in ongoing professional development to address evidence-based reading practices for teaching the four components that are proven to increase the reading achievement of adult education students. EBRI practices for primary focus differ according to the grade level equivalent (GLE) of students. Mississippi has developed written guidelines for implementing the essential components of reading across the curriculum.

The STudent Achievement in Reading (STAR) program supports local programs with evidence-based reading instruction (EBRI) professional development for instructors of intermediate-level adult learners. Instructors use EBRI to help learners improve their skills in each of the four essential components of reading— alphabetics, vocabulary, fluency, and comprehension—to explain new concepts and strategies, and by providing feedback when learners practice. Mississippi employs two nationally certified trainers who provide ongoing support and resources for local programs. New directors, instructors and mentor/coaches participated in STAR hybrid training in 2019 and 2021. Training will continue to be offered every other year as part of the state's professional development plan or if needed sooner, the OAE will accommodate.

In addition to STAR training, local programs have access to software programs to support the essential components of reading such as Achieve 3000 and Reading Horizons. Reading Horizons is more than just a reading curriculum—it's an entire ideology about reading instruction that changes the way instructors teach reading. The Reading Horizons Elevate® Comprehensive Teacher's Kit includes all of the materials needed to prepare and deliver research-based direct instruction lessons to struggling readers and English Language Learners. The teacher manuals give teachers a complete guide for confidently implementing Reading Horizons strategies in the classroom. The Reading Horizons program incorporates direct instruction as well as individualized instruction via the software provided. Achieve 3000 is a software program that focuses on Lexile levels using benchmark assessments. The program includes differentiated text with embedded assessments using a variety of content to increase students Lexile measures.

As part of the professional development plan, reading instructional training is provided yearly with webinars such as: *Effective Literacy Resources*, *Better Reading and Writing for ESL Learners*, and *Reading and Writing: A Powerful Combination*.

The OAE, in partnership with the Literacy Information and Communication System (LINCS), provides Adult Numeracy Instruction (ANI) for funded AEFLA programs. This training focuses on key instructional practices: connections among mathematical ideas; communication of mathematical thinking; mathematical proficiency; and introduction of algebraic and geometric thinking along with basic skills. The training is designed to determine what to teach in adult numeracy instruction, how to teach it and how to teach teachers to teach it. Mississippi has multiple trainers who assist in providing ANI Institutes to local program directors and instructors. In addition, advanced mathematics training is provided to local programs utilizing national instructors from Technical Education Research Centers (TERC) to provide Adults Reaching Algebra Readiness (AR²). AR² provides instructional strategies for higher level math through research-based methods to increase knowledge and skills of instructors.

In 2021 and 2022, TERC provided *Curriculum for Adult Learning Math (CALM)* training and support to our math teachers. These teachers now have access to the CALM curriculum. CALM incorporates the CCRSAE content standards as well as the Standards for Mathematical Practice clearly addressing the key instructional shifts: focus, coherence, and rigor. CALM does not include every single standard, but rather focuses on those key standards needed for adults to be successful math thinkers. CALM follows a coherent continuum that helps students developmentally progress through math topics by making connections among different math content. And, CALM addresses all three aspects of rigor: conceptual understanding, application, and procedural skill and fluency. Other professional development in mathematics instruction included webinars for Teaching Math Across All Levels and Tips and Strategies to Engage in CCR Math Standard. LINCS also provided a series of training sessions for Contextualized Instruction. LINCS houses the Teaching Skills That Matter (TSTM) Toolkit. Four teachers and a state level representative participated in the TSTM national training. In 2021-2022, the teachers presented a nine- webinar series on Unpacking the TSTM Toolkit to provide instructors in the state with the skills to implement the TSTM lesson plans into their classroom instruction.

(3) The provision of technical assistance to eligible providers of adult education and literacy activities receiving funds under this title, including—

1. the development and dissemination of instructional and programmatic practices based on the most rigorous or scientifically valid research available and appropriate, in reading, writing, speaking, mathematics, English language acquisition programs, distance education, and staff training;
2. the role of eligible providers as a one-stop partner to provide access to employment, education, and training services; and
3. assistance in the use of technology, including for staff training, to eligible providers, especially the use of technology to improve system efficiencies.

The purpose of professional development (PD) is to raise the level of expertise of Mississippi's adult educators through continuing learning opportunities. All program directors, instructors and staff participate in mandatory professional development throughout each program year. Professional development hours are tracked in the adult education management system and reviewed during desk-top monitoring of programs on a quarterly basis.

The professional development initiative builds a systemic approach incorporating all aspects of adult education. Professional development will focus on the following:

- **Instructor, program director, staff standards**—define what teachers, directors, and support staff need to know and be able to do in order to provide quality programs;
- **Content standards**—define the skills and knowledge that adult learners need to know and be able to do in their roles as workers, parents, and citizens;
- **Program standards**—define the characteristics that exemplary local programs should demonstrate;
- **Professional development standards**—define the essential elements of meaningful professional growth activities;
- **Performance standards**—define expectations for program outcomes;
- **Data quality standards**—ensure reliable and valid data are available to make informed decisions and guide program management.

Ongoing technical assistance is provided to local programs to enhance program effectiveness, increase the ability of providers to meet established program, instructor and performance

standards and fulfill obligations associated with being a one-stop partner. Specific areas of focus include: Increasing the capacity of instructors and programs to provide quality instruction in the areas of reading, writing, speaking, mathematics, English language acquisition and distance education via implementation of professional development activities and associated technical assistance such as:

- Annual Adult Education Conference;
- Annual New Teacher Academy;
- Annual ELL Training Institute;
- Assessment training for TABE 11/12 and TABE CLAS-E;
- Components of Integrated Education & Training to include team teaching and development of a single set of learning objectives;
- Using data for program improvement; and
- Integrating technology and instruction in the classroom and online training through customized modules.

The OAE uses a variety of methods to ensure information about proven or promising practices and models is disseminated to local programs, practitioners and participants. These will include activities such as:

- Local program site visits;
- An electronic OAE newsletter with information about training opportunities, high-quality resources and promising practices for instruction and programming;
- Sessions at state, regional and local training to showcase promising practices and models;
- Webinars showcasing promising practices and models; and
- Dissemination of standards and annually updated program guidelines.

The OAE works collaboratively with other core programs and partner agencies to provide comprehensive and wraparound services to program participants. Adult Education provides resources and services through One-Stop Centers (including intake/orientation for Adult Education services, and transition resources), referral processes, and other joint mechanisms developed through agency partnerships. Adult Education is responsible for the development and implementation of the Smart Start Pathway Class which will include assessment and instruction in basic skills, necessary skills and career exploration. Adult Education programs participate in local job fairs and employer engagement activities in collaboration with local workforce development boards and one-stop partners to provide access to employment, education, and training services. In addition, the OAE works with the State Workforce Investment Board (SWIB), the Local Workforce Development Boards and the one-stop system to determine appropriate training needed across partner organizations. The OAE hosts a variety of regional planning summits/forums/workshops for all partners to enhance and align partnerships in the delivery of services.

The OAE provides annual training related to the use of technology to improve classroom effectiveness and program outcomes. Training may focus on NRS processes and the effective use of the statewide data system in order to maintain accurate student data. The OAE may also provide technical assistance to prepare instructors and program administrators to identify and utilize technology to enhance classroom experiences. State staff provides *Wednesday Webinars* on a monthly basis to provide training to instructors and directors.

(4) The monitoring and evaluation of the quality of, and the improvement in, adult education and literacy activities and the dissemination of information about models and proven or promising practices within the State.

Fiscal and programmatic evaluations are conducted throughout the year to determine compliance with federal and state requirements. During the course of the fiscal year programs will be monitored in the following ways:

- Data Reviews — OAE conducts frequent and ongoing data reviews using the designated statewide OAE data management system. Areas of review include overall performance and outcomes, assessment data, attendance and compliance.
- Monitoring Visits — OAE has established a systematic monitoring schedule for all programs. During site-visits, compliance team members meet with program directors and/or staff, observe classroom instruction, tour facilities and meet with stakeholders (optional). Areas of concern are addressed with the program director either through informal feedback or in some cases, a formal plan.
- On-Site Program Reviews – Programs identified for review will be evaluated on the quality of instruction, adherence to policies and procedures and the overall quality of program administration. A formal written report will be provided and each program will be asked to respond to areas that need improvement.
- Bi-annual Performance Report Card – OAE provides a bi-annual performance report card to local programs throughout the fiscal year. The report includes year-to-date performance for each of the WIOA performance outcomes. Local programs are asked to develop a Performance Improvement Plan (PIP) to address areas in need of improvement.

One hundred percent of AEFLA funded programs will be monitored annually through the use of desktop monitoring. The OAE monitoring program is risk-based; however, all recipients will receive an on-site monitoring visit at least once every three years.

Programs are identified for on-site monitoring through a comprehensive risk analysis based on the following factors:

1. Desktop monitoring;
2. Need to verify data quality and program expenditures;
3. Consistent low performance on NRS indicators in several categories;
4. Prospective noncompliance with grant requirements identified through review of programmatic and fiscal reports or ongoing communications with the program;
5. Unresolved audit findings;
6. Ongoing lack of progress in resolving required actions from a prior monitoring visit;
7. Significant staff turnover in the program; and
8. Recent or newly establish programs.

2. DESCRIBE HOW THE STATE WILL USE THE FUNDS TO CARRY OUT PERMISSIBLE STATE LEADERSHIP ACTIVITIES UNDER SECTION 223 OF WIOA, IF APPLICABLE

The OAE provides activities such as:

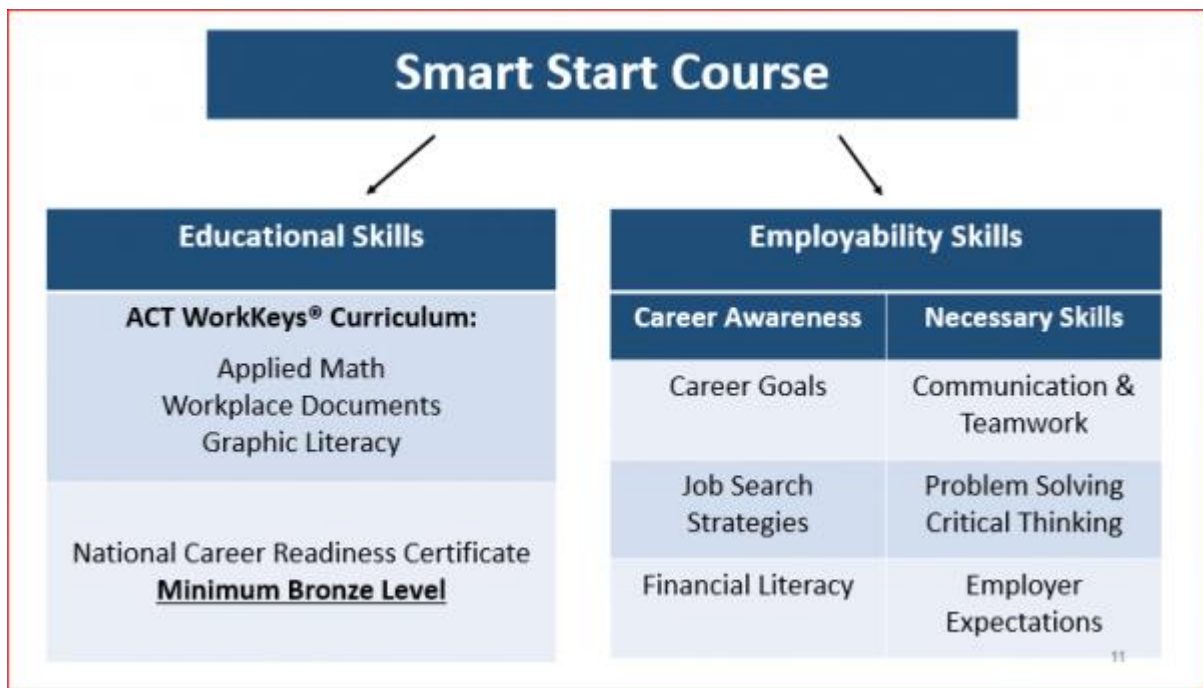

- the operation of professional development programs;
- the provision of technology assistance, including staff training;

- program improvement and support;
- alignment studies with standards and competencies, especially curricula incorporating 21st century skills, workplace readiness activities and phonemic awareness;
- coordination with other agencies to increase enrollment and successful completion in adult education programs; and
- linkages with post-secondary institutions.

Online professional development courses make it possible for Mississippi's adult educators to receive information without disrupting local programs' services for adults. Improved consistency of instruction and reduced travel costs for trainers and participants are also important considerations for implementing distance learning. Online courses can be accessed at the convenience of the educator, thereby enabling new instructors to begin learning about their roles and responsibilities immediately. The OAE developed an online course with multiple modules called *Back 2 Basics* for local program use to provide consistent training on guidelines throughout the state. The interactive course is designed to ensure directors, instructors and staff are knowledgeable on the policies and guidelines for the state. The course has embedded assessments and local examples to ensure transfer of information is occurring. The following interactive modules have been developed:

1. Program Overview: AEFLA and WIOA
2. Mississippi Assessment Policy
3. Intake and Orientation
4. Cumulative Folder Checklist
5. National Reporting System and Data Collection
6. Instructional Practices
7. Retention
8. Transition Services

The OAE has primary responsibility for implementation of the Mississippi Works Smart Start Career Pathway Model through the Smart Start Pathway Course. To meet the requirements of the State plan, the OAE developed a 45-hour Smart Start Pathway Course required for all adult education students. This course helps prepare participants for middle-skill level employment. Participants will develop job skills needed for their careers, learn and practice good work habits and effective communication necessary for successful employment. Participants have the opportunity to earn a Smart Start Credential which includes a National Career Readiness Certificate (NCRC). The NCRC demonstrates to employers the participant has the skills needed to be successful in a job. Participants will complete the WorkKeys tests for Applied Math, Graphic Literacy and Workplace Documents. Participants will also learn new skills for future careers and increase their ability for middle-skill level jobs which results in higher pay. Smart Start Pathway Courses can be taken face-to-face, online or hybrid.

Participants who meet the minimum requirements of the Smart Start Pathway Course receive a Smart Start Credential and can earn 3 hours of college credit at a local community college. Students enrolled in Integrated Education and Training (IET) pathways are required to take the Smart Start Course as it meets the workforce preparation component for an IET.

The OAE will continue to development multilevel, bridge and integrated education and training programs and prioritize the alignment of adult education and literacy activities with other core programs and one-stop partners, providing adults access to employment and training services.

F. ASSESSING QUALITY

Fiscal and programmatic evaluations are conducted throughout the year to determine compliance with federal and state requirements. During the course of the fiscal year programs will be monitored in the following ways:

- **Data Reviews** — OAE conducts frequent and ongoing data reviews using the designated statewide OAE data management system. Areas of review include overall performance and outcomes, assessment data, attendance and compliance.
- **Monitoring Visits** — OAE has established a systematic monitoring schedule for all programs. During site-visits, compliance team members meet with program directors and/or staff, observe classroom instruction, tour facilities and meet with stakeholders (optional). Areas of concern are addressed with the program director either through informal feedback or in some cases, a formal plan.
- **On-Site Program Reviews** – Programs identified for review will be evaluated on the quality of instruction, adherence to policies and procedures and the overall quality of program administration. A formal written report will be provided and each program will be asked to respond to areas that need improvement.
- **Bi-annual Performance Report Card** – OAE provides a bi-annual performance report card to local programs throughout the fiscal year. The report includes year-to-date performance for each of the WIOA performance outcomes. Local programs are asked to develop a Performance Improvement Plan (PIP) to address areas in need of improvement.

One hundred percent of AEFLA funded programs will be monitored annually through the use of desktop monitoring. The OAE monitoring program is risk-based; however, all recipients will receive an on-site monitoring visit at least once every three years.

Programs are identified for on-site monitoring through a comprehensive risk analysis based on the following factors:

1. Desktop monitoring;
2. Need to verify data quality and program expenditures;
3. Consistent low performance on NRS indicators in several categories;
4. Prospective noncompliance with grant requirements identified through review of programmatic and fiscal reports or ongoing communications with the program;
5. Unresolved audit findings;
6. Ongoing lack of progress in resolving required actions from a prior monitoring visit;
7. Significant staff turnover in the program; and
8. Recent or newly establish programs.

Local eligible providers are responsible to meet all programmatic goals and outcomes required in their approved Request for Application (RFA). Performance outcomes for each provider will meet or exceed the levels of performance for each of the established National Reporting System benchmarks. The OAE will assess the quality of providers of adult education and literacy activities through data reviews, monitoring visits and performance reports. If a program fails to meet performance indicators or other programmatic requirements, specific actions will be taken to improve the quality of the program. The OAE uses two plans to take action to improve the quality of the adult education and literacy activities.

1. Corrective Action Plan (CAP) - A CAP will be implemented with programs out of compliance with state and/or federal policies. The OAE will provide technical assistance throughout the corrective process, and by the end of a designated timeframe, programs should be able to correct the identified issues and end their respective CAP.
2. Performance Improvement Plan (PIP) – Local programs who fail to meet or exceed negotiated performance targets are subject to a program improvement plan with clearly defined goals and actions. A PIP will be required for programs which are identified as low-performing when compared to the state performance on federal or state benchmarks. The PIP will include specific action steps, such as student retention, post-testing and assessment, data analysis, training and professional development which will be designed to improve program performance.

As a part of both plans, the OAE will provide ongoing technical assistance, professional development and other support until the required steps of the plans are completed. The type of technical assistance, professional development and other support will be based upon the specific area(s) of deficiency or need at an individual program.

Evaluating Professional Development

In order to promote continuous improvement of professional development activities and the impact on student learning outcomes, OAE conducts ongoing and systematic needs assessment and evaluation processes to not only provide information about the impact of professional development, but to provide data for refining and adjusting professional development activities.

- Participant evaluations/surveys are collected for all professional development activities. These evaluations reflect the response of participants to the objectives, material, presentation and the trainer providers.
- Evaluations/surveys are aggregated and evaluated to determine quality of training and adjustments are made according to the results. These results are analyzed for areas in need of improvement and changes are made accordingly.

To support local programs and instructors, a cadre of Program Mentors/Lead Instructors provide ongoing classroom observation, feedback and support to ensure that the objectives of professional development are being effectively implemented in the classroom. Data from the adult education management system are utilized to evaluate and determine if the professional development activities impact student learning outcomes.

ADULT EDUCATION AND FAMILY LITERACY ACT PROGRAM CERTIFICATIONS

The State Plan must include	Include
1. The plan is submitted by the State agency that is eligible to submit the plan;	Yes
2. The State agency has authority under State law to perform the functions of the State under the program;	Yes
3. The State legally may carry out each provision of the plan;	Yes
4. All provisions of the plan are consistent with State law;	Yes
5. A State officer, specified by title in the certification, has authority under State law to receive, hold, and disburse Federal funds made available under the plan;	Yes
6. The State officer who is submitting the plan, specified by the title in the certification, has authority to submit the plan;	Yes
7. The agency that is submitting the plan has adopted or otherwise formally approved the plan; and	Yes
8. The plan is the basis for State operation and administration of the program;	Yes

ADULT EDUCATION AND FAMILY LITERACY ACT PROGRAM ASSURANCES

The State Plan must include	Include
1. The eligible agency will expend funds appropriated to carry out title II of the Workforce Innovation and Opportunity Act (WIOA) only in a manner consistent with fiscal requirements under section 241(a) of WIOA (regarding the supplement-not-supplant requirement);	Yes

The State Plan must include	Include
2. The eligible agency will ensure that there is at least one eligible provider serving each local area, as defined in section 3(32) of WIOA;	Yes
3. The eligible agency will not use any funds made available under title II of WIOA for the purpose of supporting or providing programs, services, or activities for individuals who are not "eligible individuals" within the meaning of section 203(4) of WIOA, unless it is providing programs, services or activities related to family literacy activities, as defined in section 203(9) of WIOA;	Yes
4. Using funds made available under title II of WIOA to carry out a program for criminal offenders within a correctional institution, the eligible agency will give priority to serving individuals who are likely to leave the correctional institution within five years of participation in the program.	Yes
5. The eligible agency agrees that in expending funds made available under Title II of WIOA, the eligible agency will comply with sections 8301 through 8303 of the Buy American Act (41 U.S.C. 8301-8303).	Yes

AUTHORIZING OR CERTIFYING REPRESENTATIVE

First Name	Kell
Last Name	Smith
Title	Interim Executive Director
Email	ksmith@mccb.edu

SECTION 427 OF THE GENERAL EDUCATION PROVISIONS ACT (GEPA)

The Mississippi Community College Board, in its capacity as the coordinating Board of the Mississippi Community and Junior Colleges, strongly urges each of the colleges to comply fully with federal and state nondiscrimination laws and executive orders which constitute the legal mandate for equal employment opportunity. The Board also strongly urges each community and junior college to ensure no one shall be excluded from participating in, be denied the benefits of, or otherwise be subjected to discrimination in any program or activity of the college on the grounds of race, sex, age, color, creed, national origin, religion, disability or any other protected group. The Board itself further adheres to the principle of equal educational and employment opportunity as mandated by each of these statutes.

The Office of Adult Education (OAE) will ensure to the fullest extent possible equitable access to, participation in and appropriate educational opportunities for all federally funded local adult education programs to include faculty, staff and students with special needs. Activities, programs and services will be accessible to all teachers, students and other program beneficiaries with special needs allowing them to participate fully in the projects. The OAE does not discriminate on the basis of age, color, religion, creed, disability, marital status, veteran status, socio-economic status, national origin, race, gender or sexual orientation in its education and research programs or its services and activities. It provides reasonable and appropriate accommodations to meet the learning and evaluation needs of a diverse group of students, faculty, community members and other participants.

All funded AEFLA programs are required to submit a GEPA plan as part of the application process for the WIOA Competition. The OAE will monitor each local program on the plan submitted as part of the application.

Professional development is offered in face-to-face, virtual, and/or online hybrid formats in order to be accessible to all AE faculty and staff. OAE staff will check PowerPoint slides and presentations to ensure they are accessible for individuals with disabilities as well as provide training on equity in the classroom.

All adult education staff, statewide, were trained on:

- *Equity in the Classroom* by AIR –Spring 2022
- *Dyslexia in the Classroom*
- *Teaching the Anxious and Depressed*
- *Trauma Informed Care*

All webinars were recorded and placed in our Skill UP Webinar Canvas course for teachers who were unable to attend the webinars. Professional development will continue to be provided on equity, disabilities, and special needs in adult education.

ADULT EDUCATION AND LITERACY PROGRAM PERFORMANCE INDICATORS

Performance Indicators	PY 2022 Expected Level	PY 2022 Negotiated Level	PY 2023 Expected Level	PY 2023 Negotiated Level

"Effectiveness in Serving Employers" is still being developed and this data will not be entered in the 2022 State Plan modifications.

PROGRAM-SPECIFIC REQUIREMENTS FOR VOCATIONAL REHABILITATION (COMBINED OR GENERAL)

A. INPUT OF STATE REHABILITATION COUNCIL

1. INPUT PROVIDED BY THE STATE REHABILITATION COUNCIL, INCLUDING INPUT AND RECOMMENDATIONS ON THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN, RECOMMENDATIONS FROM THE COUNCIL'S REPORT, THE REVIEW AND ANALYSIS OF CONSUMER SATISFACTION, AND OTHER COUNCIL REPORTS THAT MAY HAVE BEEN DEVELOPED AS PART OF THE COUNCIL'S FUNCTIONS;

In matters of program administration and planning, the Mississippi Department of Rehabilitation Services, Office of Vocational Rehabilitation and Office of Vocational Rehabilitation for the Blind has a strong commitment to seeking the advice of consumers of vocational rehabilitation services, service providers, family members, advocates, employers and others interested in disability issues.

Comprised of representatives of these stakeholder groups, the State Rehabilitation Council makes a major contribution to the OVR/OVRB program through advice provided during regular SRC business meetings, Policy Committee meetings, and other activities the members determine to be appropriate.

The SRC meets quarterly. The SRC Minutes, which are maintained for all SRC meetings, summarize the advice and recommendation provided to VR and VRB. VR and VRB continued to work closely with the SRC this year, providing the SRC with ongoing reports in regards to policy and procedure changes, RSA 911 submission updates, RSA Data dashboard information, client services, etc.

The DSU accepts the comments and recommendations from the SRC. Below are SRC's comments, questions, and/or input:

SRC Comment/Question: 2020 has been a difficult year. I appreciate everyone who has done out-of-the-box thinking to get services to clients and helped keep spirits high amongst clients who are feeling down or frustrated at the closeness of service due to Covid-19.

SRC Comment/Question: The VRB Training Needs Survey should be disseminated to all current VRB referrals, applicants, and clients; state partners, including SRC members, School for the Blind, DD Council; IL Providers, among others and all VRB staff for dissemination and for sharing with Mississippians who experience blindness. The results will help VRB to plan the Structured Discovery Service provision that is being proposed to best meet the needs of Mississippians who need this service.

SRC Comment/Question: I am looking forward to learning more about the goal to establish the Structured Discovery Learning program in Mississippi. This sounds like a great opportunity to keep Mississippians who need this service.

SRC Comment/Question: If the order of selection is ever initiated, please make sure consumers are aware of the process. The policy appears to follow all law and regulation. It is outstanding to

think that no categories have been closed since 2009. This is impressive. This signifies to me that staff are utilizing resources very efficiently.

SRC Comment/Question: The summer job programs are very exciting. Hopefully every employer will have a successful experience and see the benefit of employing our customers.

SRC Comment/Question: Combining WIPA with the Independent Living for the Blind doesn't seem to fit. It seems to overwhelm staff, which can cause delays in WIPA services and WIPA services being less intense than needed when a benefits recipient is making choices about work and benefits.

SRC Comment/Question: It's always nice to see the positive comments. It is important to constantly check up on the negative comments, trying to see if service delivery could be better, check to help resolve complaints. The satisfaction surveys indicate overall satisfaction. It seems that both surveys should ask the same questions and use the same scale for best use. I believe that staff take the customer satisfaction seriously and review the results frequently with changes made when needed to bring about better satisfaction. Spend time next meeting reviewing satisfaction information. How do you keep the "Bias" out of people doing surveys? Planning survey questions; administering survey, interpreting responses. Should a neutral party be contracted to develop and administer survey?

SRC Comment/Question: Who makes the survey calls? Is it done in-house or by a third party?

SRC Comment/Question: I think that the service delivery to MDRS employees needing accommodations can stand some improvements.

SRC Comment/Question: I am excited about the idea of having Structured Discovery for our OVRB clients. I had no idea that some clients had to leave the state for an extended period of time to receive Structured Discovery. This will be a great benefit for our OVRB community. I think VR/VRB are working really hard toward meeting their goals. This makes Mississippi proud.

SRC Comment/Question: I'm impressed with the work the MDRS team is beginning to put in place. People in internships, establish careers opportunities and outreach to the business community. VR & VRB have continual new approaches that bring about good outcomes for people with disabilities. I was impressed to hear about the way that all high quality services are available, even if out of state. Great work. Keep striving to get our numbers back up to pre-Covid levels. It's been a tough year and we are all thankful for the hard work to get us to the other side of the crisis.

SRC Comment/Question: It will be exciting to see the information from the Florida vendors and how it can be implemented in Mississippi. It is great to share resources.

SRC Comment/Question: Very good report. I love that this area is getting the needed attention. The resources for staff prepared by your new coordinator are excellent. Resources for employers could be helpful. Training to the public could assist as well. Great Report Jennifer. I am so glad that MDRS is focusing on the success of individuals with Autism. I love that you are collaborating on every case for individuals with Autism. That is awesome.

SRC Comment/Question: This is a great report. It really helped me understand what OOS means. I am glad that all categories are currently able to receive services and that there is an appeal procedure just in case it is needed.

SRC Comment/Question: I am thankful for your efforts in writing for the funds to reimburse business owners who lost merchandise during COVID.

SRC Comment/Question: The VRB Career Reboot sounds like a great program. Thank you for inviting Deana Criess to present to the SRC about the program. I also appreciated Betsy

Simoneaux following up by email with informative materials to the group after Deana's presentation on the VRB Career Reboot Program. I am happy to learn more about this resource and to learn that it is being utilized with people in our state.

SRC Comment/Question: The idea to do the brief SRC Orientation was excellent. It would be super to have an extended session. May be good for someone from NCSRC to come to Mississippi and share SRC roles, responsibilities and other state practices as an orientation for new members, current members and other parties.

SRC Comment/Question: This agenda item was tabled due to insufficient time. The SRC agenda needs to be expanded in length of time as not to rush the presenters and as not to discourage discussion from SRC members. How will Needs Assessment be utilized? May want to have a neutral party analyze and evaluate needs assessment and how to improve and increase services as expressed in the October 13, 2021 meeting. I like how the assessments are done on open ongoing and at the end of closed cases.

Letter from SRC Chairperson, Mary Meruvia

On behalf of the State Rehabilitation Council (SRC), I am happy to share the annual report of the Mississippi Department of Rehabilitation Services' Office of Vocational Rehabilitation and Office of Vocational Rehabilitation for the Blind (OVR/OVRB).

The State Rehabilitation Council is a body mandated by The Rehabilitation Act and its resulting regulations at CFR 361. Members, described in these regulations, represent a broad range of individuals with disabilities across the state. We are pleased in 2021 to have received timely appointments which have enabled the SRC to be a fully functioning body.

Our mandated functions include:

- Reviewing, analyzing, and advising OVR/OVRB on the performance of their responsibilities related to eligibility and order of selection; the extent, scope, and effectiveness of vocational rehabilitation services; and functions that affect the ability of individuals with disabilities in achieving employment outcomes
- Partnering with OVR/OVRB in developing goals and priorities; and evaluating the effectiveness in obtaining these goals
- Advising OVR/OVRB in the vocational rehabilitation portion of the Unified State Plan
- Conducting a review and analysis of consumer satisfaction
- Submitting this report and making it available to the public
- Coordinating activities with other named Councils within the state, to include the Statewide Independent Living Council
- Performing other relevant functions the SRC determines appropriate consistent with the purpose of OVR/OVRB

The Mississippi Department of Rehabilitation Services' OVR/ OVRB have continued effective Vocational Rehabilitation Services to Mississippi's citizens who experience disability. Employment outcomes secured after the receipt of Vocational Rehabilitation Services have assisted in Mississippi's recovery after suffering from the Covid 19 pandemic. "Recovery, Powered By Inclusion", a phrase used during the VR and VRB Disability Employment Awareness Month, has been exercised year-long in programs and services that not only benefitted the citizens who experience disability and received services, but our entire state of Mississippi as well, in recovery.

We hope you will consider strong funding of this agency for the 20% required state match to federal funds so that it will have the funding levels to remain an essential Mississippi resource to help restore both the State's economy as well as the strong spirit of Mississippi Citizens through their own self-supporting employment. The State Rehabilitation Council is happy to continue to advise the agency in regards to the individual stakeholder groups who we represent.

Sincerely,

Mary Lundy Meruvia, Chairperson

State Rehabilitation Council

FFY 2021 Mississippi State Rehabilitation Council Activity Report:

The Mississippi State Rehabilitation Council (SRC) held four (4) quarterly meetings for the Federal Fiscal Year **October 1, 2020 – September 30, 2021**. Utilizing TEAMS and teleconferencing, the members were able to attend our quarterly meetings during the continued pandemic era. During each meeting, everyone is welcomed, introductions are made and guests are recognized. Agenda topics are centered around the SRC Functions and provided by the Offices of Vocational Rehabilitation (OVR), Vocational Rehabilitation for the Blind (OVRB) and Business Development Services (BDS). The State Rehabilitation Council reviewed and provided input at each meeting on selected topics related to:

- Reviewing, analyzing, and advising OVR/OVRB/BDS on the performance of their responsibilities related to eligibility and order of selection; the extent, scope, and effectiveness of vocational rehabilitation services; and functions that affect the ability of individuals with disabilities in achieving employment outcomes
- Partnering with OVR/OVRB in developing goals and priorities and evaluating the effectiveness in obtaining these goals
- Advising OVR/OVRB/BDS in the vocational rehabilitation portion of the Unified State Plan
- Conducting a review and analysis of consumer satisfaction, including a quarterly report from the Client Assistance Program (CAP) as well as a report of Due Process Hearings
- Submitting the SRC Annual Report and making it available to the public
- Coordinating activities with other named Councils within the state, with a specific agenda item quarterly for a report from the Statewide Independent Living Council (SILC)
- Performing other relevant functions, the SRC determines appropriate consistency with the purpose of OVR/OVRB/BDS

DECEMBER 2020 MEETING

The **2020 State Rehabilitation Council Annual Report** was reviewed and discussed at the December 2020 meeting. LaVonda Hart, Director of Vocational Rehabilitation, explained the information contained in the SRC Annual Report. Draft copies were provided as some information was still being compiled. The SRC Annual Report is required by the Rehabilitation Services Administration (RSA) and must be submitted before the end of the calendar year. This report includes data in relation to the Offices of Vocational Rehabilitation (including Pre-ETS) and Vocational Rehabilitation for the Blind.

Ms. Hart also reviewed the **State Plan** that is submitted to the MDRS Workforce Core Partners for WIOA. This report is then submitted to the MS. Department of Employment Services which is the lead partner in organizing the combined report.

The **RSA 911 Report**, a quarterly report, is submitted to RSA four times during the Program Year. The Program Year '21 begins July 1, 2020 and ends June 30, 2021. It was noted that the SRC still operates on the federal fiscal year.

More information was provided on the **Structured Discovery Center** and the requirements that will need to be met for approval. Dr. Edward Bell, referred by the RSA, will be assisting the agency to ensure the requirements are met.

Further discussions included the **Comprehensive Services Needs Assessment**, which is compiled to reflect future needs of VR/VRB. The **Public Consulting Group** has been contracted to compile detailed reporting.

<u>Additional State Rehabilitation Council Member Activities during FFY 2021 (December 2020 Quarterly Meeting):</u>
--

Chairperson Election – *Selection of the SRC Chairman* for the 2021 Year was discussed. Pursuant to the SRC Federal Regulations, a Council Chairperson must be selected. The bylaws state the role and duties of the SRC Chairperson. A survey will be sent via Survey Monkey asking for nominations for the Council Chairman for the upcoming year. Once nominations are received, they will be voted on.

Nomination Committee – The *nomination form* was updated and available for all Council members to review. Changes were made that followed specific wording from the Federal

Regulations in regards to positions on the council and information needed about the applicant.

The six members rolling off the Council as of June 30, 2021 due to having served the maximum of two term limits will be: Pam Dollar; Jean Walley; Shannon Hillman; Lee Cole; Presley Posey and Cassandra Singleton.

Budget Committee – According to Article 4 of the SRC Bylaws, the Council is charged with developing a *Resource Plan*. There is a data element in the Innovation and Expansion Report that asks for a dollar figure for the SRC. Even though expenses are consistent, the SRC has not had any input into the Resource Plan. A review of expenses based on the last five years was used to determine future costs. A *proposed budget* has been established.

MARCH 2021 MEETING

Pre-Employment Transition Services (Pre-ETS) were discussed. **Virtual Transition Camps** will be held on a daily basis offering three and five day camps to our VR students with disabilities. This will be provided by **Employ U** which is a fee for services Pre-ETS Provider. These camps will be held during Christmas and Spring Break.

MPIC/HOPE Alliance, a contracted Pre-ETS third-party provider, will be serving incarcerated youth with disabilities. Participants housed at various facilities around the state will be participating with this program.

A report was provided on the startup process of the **Comprehensive Statewide Needs Assessment**. Three surveys were sent: 1) Community Partners, 2) OVR/OVRB Consumers, and 3) OVR/OVRB/BDS Staff.

The new policies of the **Alcohol and Drug Program** from the **Department of Mental Health** were reported. Mr. Don Brown explained that the new process will be geared toward the person, not the program. Funding is now called *Fee for Services* (FFS).

The **American Society of Addiction Medicine (ASAM)** has developed an assessment tool which will be used to determine the level of care needed for an individual addicted to types of drug substances and/or abuse. Ranging from outpatient to inpatient hospitalization, the levels are based on the type and severity of the substance use/abuse.

JUNE 2021 MEETING

Due to the Covid-19 pandemic, the June 2021 meeting officially marked the first year of virtual meetings. While the pandemic slowed many activities, the SRC was able to continue business as normal. Due to technology, the SRC conducted the four quarterly meetings.

The **Order of Selection (OOS)** was explained to the SRC. It is common practice of MDRS to provide comprehensive VR services to all eligible clients. However, when resources are not sufficient to serve all clients, an Order of Selection may be implemented. MDRS has been fortunate that all categories have been opened since 2009. When an OOS is executed, it establishes a system of categorization for prioritizing individuals with the most significant disabilities providing individuals priority to receive services. Applications can still be taken during an OOS, but services will not be provided.

The **Autism Program** was highlighted by VR Program Coordinator, Jennifer Jackson. Ms. Jackson discussed various trainings that have been provided to counselors and staff that work with clients that have Autism. Continual monthly virtual trainings are being provided to assist counselors with learning from examples of past cases.

The **VRB Career Reboot** was presented to the Council. It is managed by Perkins School for the Blind. It is a young adult transition program available for anyone between 18-35 years of age, has a high school diploma and wants to achieve Competitive Integrated Employment. Two paths are offered for clients that participate in the program.

Additional State Rehabilitation Council Member Activities during FFY 2021 (June 2021 Quarterly Meeting):

NCSRC – Additional *NCSRC information* was provided to the Council. A zoom training session will be held for all SRC members regarding the purpose, regulations and functions of the SRC.

Nomination Committee – *Nominations* for upcoming vacancies were received by the Council. The Business, Industry and Labor position is still vacant with no nominations; therefore, the search will continue for this position and all other positions will move forward for approval. All Council Members were sent copies of the nominations. The motion was made and passed to submit the current nominations for the upcoming term of the SRC to the MDRS Executive Director. Once the Executive Director has approved, the nomination letters will be sent to the Governor for confirmation.

Budget Committee - The current *financial information* was provided to the committee and the *Resource Plan* will be updated. The *SRC 3rd Quarterly Meeting* will be held in conjunction with the *Rehabilitation Association of Mississippi (RAM) Annual Conference* in Bay St. Louis, Mississippi. This meeting will be offered virtually as well.

OCTOBER 2021 MEETING

The October 2021 meeting was the first *in-person* meeting since the beginning of Covid-19 and was held in conjunction with the Rehabilitation Association of Mississippi (RAM) Annual Conference. This meeting was also offered virtually. The newly appointed State Rehabilitation Council members were welcomed and the current members were appointed to serve their second term. MDRS staff introductions were shared with the Council members with explanations of their agency positions.

Chairman Mary Meruvia reviewed the Mississippi SRC Bylaws, the Rehab Act of 1973, and the Federal Register Sections 361.16 and 361.17 with the Council members. These document reviews detailed the guidelines for the State Rehabilitation Councils.

Executive Director Chris Howard welcomed the newly appointed members of the Council and thanked them for accepting their position on the SRC. Mr. Howard is looking forward to working with them in the future. Mr. Howard explained MDRS' programs, expounded the many successes of MDRS, and highlighted MDRS' missions and goals.

Mr. Don Brown, Nomination Committee Chairman, thanked the new members for accepting the nominations, introduced each member and thanked the members who rolled off in June 2021.

LaVonda Hart, Dorothy Young, and Josh Woodward, Directors of the Office of Vocational Rehabilitation, Vocational Rehabilitation for the Blind, and Business Development, respectively, introduced themselves and discussed their individual programs.

Ms. Hart provided a Powerpoint presentation titled "*WIOA Mandates a VR/SRC Partnership*" which provides the framework for the SRC role and a basic overview of the SRC partnership with VR. The presentation explained the duties and functions of the SRC Council, the requirements and rules of the RSA for the Council and reviewed the representatives required to serve on the council.

Additional State Rehabilitation Council Member Activities during FFY 2021 (October 2021 Quarterly Meeting):

The SRC Chairman *welcomed all members* of the Council to the October Meeting and the members introduced themselves. All *SRC nominations have been confirmed by Governor Tate Reeves* and certificates will be distributed at the December Meeting.

Nomination Committee – The chairman welcomed new members to the Council. The chairman recognized newly appointed members, current members and thanked members whose term expired June 30, 2021 for their services to the Council and Mississippians with disabilities.

Budget Committee- There has been no update as of yet as no expenses have been incurred to date.

Additional State Rehabilitation Council Member Activities in Partnership with the Offices of Vocational Rehabilitation and Vocational Rehabilitation for the Blind:

Offices of Vocational Rehabilitation (OVR) and Vocational Rehabilitation for the Blind (OVRB):

OVR and OVRB are advocates of the State Rehabilitation Council's mission and assist the SRC with its responsibilities. The offices of OVR and OVRB provide liaison support as well as administrative, technical assistance, and coordination in support of the SRC's responsibilities. OVR and OVRB provide a VR Program Specialist as a liaison to coordinate activities between MDRS and the SRC. The VR Program Specialist and Program Officers provide administrative support, when necessary, to facilitate the work of the SRC. A Program Specialist is assigned, as requested, to assist the SRC members with specific mandated duties.

Administrative, technical, and liaison support offer the following:

- In-person meetings – coordinate dates, times, location, distribute communications and handouts to SRC Council members and attendees
- Virtual Meetings – provide virtual meeting communications and reference handouts to SRC Council Members and attendees

- Meals/Refreshments – coordination of meal selection, deliveries, and location
- Communications/Bulletins – communications are distributed to members regarding quarterly meetings, special meetings, agendas, and follow up agenda items
- Minutes – meeting recordings, preparation of the official legal record of the council meetings, and coordinate amendments to previous minutes
- Technical Support – technical assistance is provided during meetings for presentations, etc. and coordination of technical equipment availability
- Website – preparation and coordination through MDRS personnel for SRC communication uploads to the MDRS website
- SRC Annual Report – prepare the SRC Annual Report and coordinate upload to the MDRS website

Results of the Annual 2020 - 2021 SRC Consumer Satisfaction Survey

A consumer satisfaction survey is conducted four times per year to determine the consumer satisfaction regarding closed cases during the year.

An outside marketing firm, Wolfgang Frese Survey Research Laboratory of Mississippi State University, conducted the survey for the SRC.

The ratings for the various services consumers received are presented below using the average (means) score given to each item by all respondents interviewed. If an item did not apply to a particular respondent or if the consumer did not know or refused to rate an item, the consumer is not included in calculating the average score for that item. The seven items rated are in Table 1 (for exact wording, reference the questionnaire). Chart 1 is included for an easy visual comparison. The respondents were asked to rate the items (Questions 1-9) on a scale from 1 to 5, with 1 being very bad and 5 being very good. Thus, a high score indicates that the service was good and a low score that it was poor.

Table 1 - Service Ratings by Consumer: *The following items are rated on a scale of '1 to 5', with '1' being poor and '5' being excellent.*

Questions (1-9)	# of Consumers	Average Rating Mean
Q1 The help the OVR staff provided at the time you applied for VR services?	998	4.79
Q2 The help from the OVR staff during the planning of your services?	993	4.80
Q3 The help from the OVR staff when you were receiving your VR Services?	991	4.81
Q4 The help you received from other agencies or service providers?	176	5.54
Q7 Your employment outcome?	776	4.61
Q8 Employment benefits provided by your new employer?	394	4.13

Questions (1-9)	# of Consumers	Average Rating Mean
Q9 Overall, how do you rate the services you received?	992	4.80

2. THE DESIGNATED STATE UNIT'S RESPONSE TO THE COUNCIL'S INPUT AND RECOMMENDATIONS; AND

The VR and VRB Director will continue to provide the State Rehabilitation Council (SRC) with updates regarding the numbers served and overall performance data. We will continue to implement strategies to promote good customer service and promote outreach in the community regarding VR Services. The consumer satisfaction surveys will continue to be provided as a means of providing the DSU with feedback regarding the quality of client services. We will implement training for staff in this area to help address concerns and to help improve the overall quality of services. The DSU will also examine ways to improve the survey and accept the recommendation/suggestions regarding the rating scale, etc.

SRC Comment/Question: 2020 has been a difficult year. I appreciate everyone who has done out-of-the-box thinking to get services to clients and helped keep spirits high amongst clients who are feeling down or frustrated at the closeness of service due to Covid-19.

DSU Response: Yes, 2020 and 2021 have been a difficult year. However, COVID-19 did push OVR/OVRB into thinking of ways to serve clients. Some of the techniques such as providing services virtually, counselors being supplied with a cell phone to be able to work from any location to communicate with their clients, etc. More than likely, these new processes will continue and were determined to be very beneficial and needed in order to continue providing services.

SRC Comment/Question: The VRB Training Needs Survey should be disseminated to all current VRB referrals, applicants, and clients; state partners, including SRC members, School for the Blind, DD Council; IL Providers, among others and all VRB staff for dissemination and for sharing with Mississippians who experience blindness. The results will help VRB to plan the Structured Discovery Service provision that is being proposed to best meet the needs of Mississippians who need this service.

SRC Comment/Question: I am looking forward to learning more about the goal to establish the Structured Discovery Learning program in Mississippi. This sounds like a great opportunity to keep Mississippians who need this service.

SRC Comment/Question: If the order of selection is ever initiated, please make sure consumers are aware of the process. The policy appears to follow all law and regulation. It is outstanding to think that no categories have been closed since 2009. This is impressive. This signifies to me that staff are utilizing resources very efficiently.

DSU Response: We are currently under an Order of Selection. However, all categories are open at this time. At any time that resources do not permit all eligible consumers to be served and a Priority Category has to be closed, all clients and individuals in the state will be notified.

SRC Comment/Question: The summer job programs are very exciting. Hopefully every employer will have a successful experience and see the benefit of employing our customers.

SRC Comment/Question: Combining WIPA with the Independent Living for the Blind doesn't seem to fit. It seems to overwhelm staff, which can cause delays in WIPA services and WIPA

services being less intense than needed when a benefits recipient is making choices about work and benefits.

DSU Response: On August 2021, SSA suspended the 80% directive that requires 80% of WIPA referrals to originate from the Ticket to Work Help. What this means is that MPIC can accept direct referrals from any service entity until this directive is reinstated. As of August 31, 2021, MPIC has received a total of 78 referrals (46 from the Helpline and 32 from other entities). MPIC is on track to reaching the referral goal of 500. However, as you know, there are six Community Work Incentive Coordinators (CWICs) that provide direct services throughout the state. Two full time and four part-time CWICs. The four part-time CWICs only work two days per week providing WIPA services. To ensure that all staff have an equitable caseload based on their time worked, all referrals will need to be sent to the Program Manager and referrals will be assigned based on the CWIC workload. Also, to ensure that all consumers are receiving timely and quality services, the referral process will include:

- WIPA Program Manager will receive all referrals from service entities.
- WIPA Program Manager will assign all referrals to the CWICs
- WIPA Program Manager will email all referral sources with the CWIC contact information and date of assignment
- CWIC has 5 days to contact the referral (3 attempts will be made within a 10-day period)
- CWICs will follow-up with an email to the Program Manager and Referral source once contact has been made

WIPA Program Manager will follow-up with referral source to discuss initial contact, quality of services, etc. 30 days after referral is received. These steps are being implemented so that the Program Manager can track referrals when needed, ensure that consumers are receiving timely services, and staff have an equitable caseload. MPIC's goal is timely and quality services for all consumers. If you have any questions or concerns, please feel free to call the Program Manager.

SRC Comment/Question: It's always nice to see the positive comments. It is important to constantly check up on the negative comments, trying to see if service delivery could be better, check to help resolve complaints. The satisfaction surveys indicate overall satisfaction. It seems that both surveys should ask the same questions and use the same scale for best use. I believe that staff take the customer satisfaction seriously and review the results frequently with changes made when needed to bring about better satisfaction. Spend time next meeting reviewing satisfaction information. How do you keep the "Bias" out of people doing surveys? Planning survey questions; administering survey, interpreting responses. Should a neutral party be contracted to develop and administer survey?

DSU Response: The negative, or not so positive, complaints and comments are submitted to the District Manager to review and address. Normally, contact is made with the individual to help resolve the issue.

SRC Comment/Question: Who makes the survey calls? Is it done in-house or by a third party?

DSU Response: MDRS Program Integrity completed the consumer satisfaction survey for open cases and Mississippi State completes the quarterly consumer satisfaction for closed cases.

SRC Comment/Question: I think that the service delivery to MDRS employees needing accommodations can stand some improvements.

DSU Response: OVR/OVRB will continuously respond to and improve our efforts to ensure that our staff that need reasonable accommodations receive these accommodations.

SRC Comment/Question: I am excited about the idea of having Structured Discovery for our OVRB clients. I had no idea that some clients had to leave the state for an extended period of time to receive Structured Discovery. This will be a great benefit for our OVRB community. I think VR/VRB are working really hard toward meeting their goals. This makes Mississippi proud.

DSU Response: The need to establish a Structured Discovery CRP and enhance the capability to services individuals with Autism and other social skills impairments can only benefit the individuals we serve and increase their ability to be successful in obtaining competitive integrated employment.

SRC Comment/Question: I'm impressed with the work the MDRS team is beginning to put in place. People in internships, establish careers opportunities and outreach to the business community. VR & VRB have continual new approaches that bring about good outcomes for people with disabilities. I was impressed to hear about the way that all high quality services are available, even if out of state. Great work. Keep striving to get our numbers back up to pre-Covid levels. It's been a tough year and we are all thankful for the hard work to get us to the other side of the crisis.

DSU Response: OVR/OVRB continue to look for ways to expand services. We continue to increase the number of individuals who receive work based learning experiences, internships, etc.

SRC Comment/Question: It will be exciting to see the information from the Florida vendors and how it can be implemented in Mississippi. It is great to share resources.

DSU Response: The DSU is continuously looking for ways to serve clients and provide services.

SRC Comment/Question: Very good report. I love that this area is getting the needed attention. The resources for staff prepared by your new coordinator are excellent. Resources for employers could be helpful. Training to the public could assist as well. Great Report Jennifer. I am so glad that MDRS is focusing on the success of individuals with Autism. I love that you are collaborating on every case for individuals with Autism. That is awesome.

DSU Response: Being able to serve more individuals with Autism and help these individuals obtain competitive integrated employment is one of our goals. A new process for staffing cases for individuals with Autism was developed to ensure that cases are not closed or fall through the cracks because the lack of receiving appropriate services. The need for more CRPs that provide services for individuals with Autism is addressed in the updated State Plan for 2022–2023.

SRC Comment/Question: This is a great report. It really helped me understand what OOS means. I am glad that all categories are currently able to receive services and that there is an appeal procedure just in case it is needed.

DSU Response: As stated, all of OVR/OVRB priority categories are open. Due to the impact of COVID-19 and access to adults and students, funds were available to provide services to all individuals who applied for and were determined eligible for services.

SRC Comment/Question: I am thankful for your efforts in writing for the funds to reimburse business owners who lost merchandise during COVID.

DSU Response: OVRB would like to thank the Committee of Blind Vendors and the MDRS Business Enterprise Program for their work and commitment to serve our clients even during COVID.

SRC Comment/Question: The VRB Career Reboot sounds like a great program. Thank you for inviting Deana Criess to present to the SRC about the program. I also appreciated Betsy Simoneaux following up by email with informative materials to the group after Deana's presentation on the VRB Career Reboot Program. I am happy to learn more about this resource and to learn that it is being utilized with people in our state.

DSU Response: OVRB will continue to monitor this program for assisting clients with finding competitive integrated employment.

SRC Comment/Question: The idea to do the brief SRC Orientation was excellent. It would be super to have an extended session. May be good for someone from NCSRC to come to Mississippi and share SRC roles, responsibilities and other state practices as an orientation for new members, current members and other parties.

DSU Response: At the December 2021 meeting, Sherry Taylor, Vice President and Treasurer of the NCSRC attended and made a presentation virtually to the SRC. Ms. Taylor discussed SRC roles and responsibilities and gave a brief overview of what a few states have done to orientate new members and current members to the SRC. She encouraged SRC participation and invited them to the national SRC meeting/training. At the October meeting, the VR Director conducted a brief orientation for new members. We will continue to provide an SRC Orientation for new members and current members. We accept the recommendation to have an extended session and will work toward this for a future meeting.

SRC Comment/Question: This agenda item was tabled due to insufficient time. The SRC agenda needs to be expanded in length of time as not to rush the presenters and as not to discourage discussion from SRC members. How will Needs Assessment be utilized? May want to have a neutral party analyze and evaluate needs assessment and how to improve and increase services as expressed in the October 13, 2021 meeting. I like how the assessments are done on open ongoing and at the end of closed cases.

DSU Response to 4H: At the December meeting, the DSU agreed that a work group, including SRC members, would be developed to carefully analyze the results of the most recent Comprehensive Needs Assessment. The DSU and the SRC will move forward with implementing this team of individuals. This will help in developing new goals and objectives as well as assist in determining ways to improve the delivery of services to individuals with disabilities.

In 2018, VR and VRB implemented a Consumer Satisfaction Survey for open VR Cases. This would allow the agency to identify any areas of client dissatisfaction with agency services and take corrective action on such issues while the client is still an active participant in agency services. The hope was that increasing client satisfaction would lead to more successful employment outcomes. Therefore, a multi-step plan was devised to develop and complete a service satisfaction survey. Upon completion of the survey, results were compiled and analyzed

and a written report was produced. These results are now presented at the SRC meetings. As we work with more Transition aged students, we continue to see caseloads increase. Initially, the counselors' caseloads were restructured so that more counselors would serve students with disabilities. However, as we move further from the first year of implementation of the new law and regulations in WIOA, we continue to see an increase in caseload size. Recommendations for new counselors' positions have been made and the need for CRPs that will be able to provide to Pre-Employment Transition Services (Pre-ETS) to potentially eligible.

When the results of the Consumer Satisfaction Survey are received, this report is provided to the District Managers. When caseloads are identified that show significant weaknesses, managers work with the staff to determine why the issues have occurred and develop strategies to improve the performance of that particular counselor. Also, follow-up is made to the client to correct the issues.

Training, as well as updated policy and procedures, have been implemented for staff that help address concerns and to help improve the overall quality of services. On-going training in areas identified as a result of the consumer satisfaction survey and overall case reviews assist us in addressing policy and procedure issues and selecting subject areas for on-going staff development. The DSU will also examine ways to improve the survey and accept the recommendation/suggestions regarding the rating scale, etc.

A consumer satisfaction survey is conducted four times per year to determine the consumer satisfaction regarding closed cases during the year.

3. THE DESIGNATED STATE UNIT'S EXPLANATIONS FOR REJECTING ANY OF THE COUNCIL'S INPUT OR RECOMMENDATIONS.

The DSU did not reject any of the Council's input or recommendations.

B. REQUEST FOR WAIVER OF STATEWIDENESS

1. A LOCAL PUBLIC AGENCY WILL PROVIDE THE NON-FEDERAL SHARE OF COSTS ASSOCIATED WITH THE SERVICES TO BE PROVIDED IN ACCORDANCE WITH THE WAIVER REQUEST;

In 2020–2021, due to the increase in the number of potentially eligible and eligible students with disabilities served, the anticipated number of students with disabilities as reported by the Department of Education and the Comprehensive Needs Assessment, MDRS requested a Waiver of State wideness for the following:

For Program Year 2022–2023, MDRS, Office of Vocational Rehabilitation and Office of Vocational Rehabilitation for the Blind is not requesting a waiver of statewideness.

1. VR Transition Contract Employee
2. Pre-Employment Transition Service: Peer Mentoring
3. Project SEARCH

These agreements will end June 30, 2022.

2. THE DESIGNATED STATE UNIT WILL APPROVE EACH PROPOSED SERVICE BEFORE IT IS PUT INTO EFFECT; AND

Not applicable.

3. REQUIREMENTS OF THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN WILL APPLY TO THE SERVICES APPROVED UNDER THE WAIVER.

MDRS is not requesting a waiver of statewideness for any VR Service in 2022 - 2023

C. COOPERATIVE AGREEMENTS WITH AGENCIES NOT CARRYING OUT ACTIVITIES UNDER THE STATEWIDE WORKFORCE DEVELOPMENT SYSTEM

1. FEDERAL, STATE, AND LOCAL AGENCIES AND PROGRAMS;

The Mississippi Department of Rehabilitation Services (MDRS), Offices of Vocational Rehabilitation and Vocational Rehabilitation for the Blind, have cooperative relationships with an extensive number of public and private agencies and programs, including local school districts, community mental health centers, community colleges, universities, human services agencies, and other agencies.

The Office of Vocational Rehabilitation and the Office of Vocational Rehabilitation for the Blind have always strived to maximize and improve the level of services afforded to individuals with the most significant disabilities. The OVR/OVRB staff, integral members of many interagency teams, regularly collaborate with agencies and programs to facilitate the provision of services to its primary clients.

In all of the coordination activities throughout the State, the goal is to reduce the duplication of services and to maximize the VR client's opportunity to obtain an employment outcome.

The methods utilized by OVR/OVRB to expand and improve services to individuals with significant disabilities in our State will be enhanced and ongoing. These 'methods' entail several administrative and programmatic activities intended to facilitate and/or maintain expansion of services for individuals with significant disabilities.

A Memoranda of Understanding clarifies and drives the WIOA required partnership between OVR/OVRB and Mississippi's One-Stop system and each of the four local workforce development areas. Moving forward, MDRS' OVR/OVRB activities include a common intake process and coordinating data sharing between agencies. Data was not available on the implementation or progress on these activities. Additional exploration may be needed to provide further clarification on activities and opportunities for improvement.

COOPERATIVE AGREEMENTS:

OVR and OVRB make a concerted effort to utilize all available resources to provide the highest quality and most cost-effective services to individuals with significant disabilities. Since several organizations provide various services to individuals with disabilities, those resources are tapped whenever and wherever possible.

In order to accomplish this, OVR and OVRB rely on many Cooperative Agreements, Memorandums of Agreements and contracts with various agencies, organizations and groups. These agreements govern cooperation with and use of agency and program services. These agreements include specific logistical agreements for processing interagency referrals, coordinating services and expenditures, cross training, and resolving disputes.

District and local VR/VRB district offices typically do not have formal cooperative agreements. Agreements made at the state level are intended to govern day-to-day operations in the local and district offices. **The entities that OVR is actively involved with include, but is not limited to:**

- **Department of Mental Health-Bureau of Mental Health** - OVR has implemented a statewide provision of services for individuals with severe mental illness. Beginning in 2018 to present, a formalized agreement between the Mississippi Department of Rehabilitation Services, Office of Vocational Rehabilitation and the Mississippi Department of Mental Health-Bureau of Mental Health. This agreement was updated in 2021.

The purpose of this program is to enhance employment opportunities for individuals with severe and persistent mental illness or persons in recovery. This program will result in increased integrated employment opportunities for these individuals.

A comprehensive program evaluation will be completed with mental health sites participating this year, including site visits to the mental health centers as well as discussions with VR Counselors about how the program is working, what is working well and improvements that might help the program.

Throughout the districts, VR offices work with the community mental health centers serving the area. VR Counselors and District Managers will provide orientation and training sessions for mental health center staff and their clients.

Where the community mental health centers have established vocational and Supported Employment programs, OVR often collaborates with these centers to meet the needs of our mutual clients.

- **Mississippi Department of Education** - for the coordination of transition services and local school districts to carry out transition and youth career services plus implement a Transition Contract Employee in participating local school districts.
- **Division of Medicaid** - to provide seamless, non-duplicated services to individuals who are eligible for both Medicaid and VR services and for maximum utilization of resources between the two agencies.
- **Department of Mental Health (DMH) Planning and Advisory Council** - as federally mandated for advice and support. DMH covers the costs for therapeutic medical services offered at secondary alcohol and drug treatment centers that have been approved by DMH.
- **Department of Mental Health - Bureau of Intellectual and Developmental Disabilities** - to continue enhancing, expanding, and developing methods to support eligible persons with intellectual and developmental disabilities who express a desire for Competitive Integrated Employment; establish a state-level work group to address system, policy and funding issues that impede the continuous provision of employment services by MDRS and DMH; engage MDRS staff and DMH providers and stakeholders at the local level in collaboration and cooperation in the accomplishment of the vision and desired outcomes; identify and disseminate best practices including training and funding strategies; and, provide individuals with intellectual and developmental disabilities with quality employment services that lead to Competitive Integrated Employment in a non-duplicated and seamless manner.
- **Department of Human Services (DHS)-Division of Family and Children Services** - to assess foster care participants who are diagnosed as having physical and/or mental disabilities; **DHS-Division of Field Operations** assists TANF recipients who are diagnosed with physical and/or mental disabilities.
- **Mississippi Band of Choctaw Indians** - for interagency referrals for vocational rehabilitation services, including transition planning to Choctaw Indians; Psychometric Services and Interpreting Services.
- **U. S. Department of Veterans Affairs** - to improve work opportunities for veterans with disabilities and coordinate a referral and service delivery process.

- **Warren-Yazoo Mental Health Service Program of Assertive Community Treatment (PACT)** - to facilitate the most effective and efficient process to assist PACT recipients gain access to vocational rehabilitation services.
- **Department of Transportation** - to coordinate transportation and related program resources and services at the state level wherever possible and promote maximum feasible coordination at the local level.
- **Mississippi State University, T.K. Martin Center** - to provide for evaluations pertaining to assistive technology, primarily related to seating, positioning and mobility; adaptive driving, including bioptic driving; vehicle modifications; and augmentative and alternative communication.
- **Mississippi State University, Student Support Services, and the University of Southern Mississippi / Institute for Disability Studies** operate the **Peer Mentoring Program** - to provide self-advocacy training as part of Pre-Employment Transition Services for post-secondary students with disabilities and to assist with the transition of these students into post-secondary education in order to achieve degrees in higher education that allow for successful careers.
- **Department of Education, Office of Special Education** - continues the memorandum of agreement to support the seamless transition of students from school to adult life, facilitating the development and completion of their Individualized Education Program. The agreement addresses the Individuals with Disabilities Education Act and the Rehabilitation Act. It includes information about the purpose, authority and scope, foundations of the partnership, roles and responsibilities, confidentiality, student documentation, student eligibility, OVR/OVRB staff attendance at IEP meetings, coordination of resources, resolution of differences, data reporting, 504 students and termination and changes.

2. STATE PROGRAMS CARRIED OUT UNDER SECTION 4 OF THE ASSISTIVE TECHNOLOGY ACT OF 1998;

MDRS administers Mississippi's Project START (Success through Assistive Rehabilitative Technology), the state program carried out under Section 4 of the Assistive Technology Act of 1998, for education awareness and access to Assistive Technology.

MDRS also operates an Assistive Technology Program to assure the adequate and appropriate utilization of rehabilitation engineering assistance is provided to individuals with disabilities.

OVR and OVRB make referrals to this program. The rehabilitation engineering assistance includes a range of services to assist individuals with physical and/or cognitive disabilities that can be addressed through modification, alteration or renovation via development or use of technological devices, or by way of other technology-related assistance.

To provide timely and quality rehabilitation engineering services, MDRS has Assistive Technology Specialists located throughout the state in MDRS offices.

3. PROGRAMS CARRIED OUT BY THE UNDER SECRETARY FOR RURAL DEVELOPMENT OF THE DEPARTMENT OF AGRICULTURE;

The Offices of Vocational Rehabilitation and Vocational Rehabilitation for the Blind have developed a relationship with the local office of the U.S. Department of Agriculture to gather information, build relationships, and develop cooperative efforts to provide services to Mississippians with a disability.

Although no written cooperative agreements have been developed, VR will continue to foster a relationship with the Mississippi Chapter of the USDA and initiate steps to invite a USDA representative to present to VR Counselors at their District meetings.

4. NON-EDUCATIONAL AGENCIES SERVING OUT-OF-SCHOOL YOUTH; AND

Some additional non-educational agencies serving out of school youth in which VR has Memorandums of Understandings are as follows:

- **Department of Mental Health, Bureau of Mental Health** - In 2018, a formalized agreement between the Mississippi Department of Rehabilitation Services, Office of Vocational Rehabilitation and the Mississippi Department of Mental Health, Bureau of Mental Health which serves out of school youth. In PY 2020, an MOU was amended to also service individuals with severe mental illness, including out of school youth. The purpose of this program is to enhance employment opportunities for individuals with severe and persistent mental illness or persons in recovery. This program will result in increased integrated employment opportunities for these individuals.
- **Division of Medicaid** - to provide seamless, non-duplicated services to individuals who are eligible for both Medicaid and VR services and for maximum utilization of resources between the two agencies that serves out of school youth.
- **Department of Mental Health - Bureau of Intellectual and Developmental Disabilities** - to continue enhancing, expanding, and developing methods to support eligible persons with intellectual and developmental disabilities who express a desire for Competitive Integrated Employment. There are specific services under this waiver program that serves out of school youth.
- **Department of Human Services (DHS)-Division of Family and Children Services** - to assess foster care participants who are diagnosed as having physical and/or mental disabilities.
- **Mississippi Band of Choctaw Indians** - for interagency referrals for vocational rehabilitation services, including transition planning to Choctaw Indians.
- **Warren-Yazoo Mental Health Service Program of Assertive Community Treatment (PACT)** - to facilitate the most effective and efficient process to assist PACT recipients gain access to vocational rehabilitation services.

5. STATE USE CONTRACTING PROGRAMS.

Mississippi has no state use contracting programs

D. COORDINATION WITH EDUCATION OFFICIALS

1. THE DESIGNATED STATE UNIT'S PLANS, POLICIES, AND PROCEDURES FOR COORDINATION WITH EDUCATION OFFICIALS TO FACILITATE THE TRANSITION OF STUDENTS WITH DISABILITIES FROM SCHOOL TO THE RECEIPT OF VR SERVICES, INCLUDING PRE-EMPLOYMENT TRANSITION SERVICES, AS WELL AS PROCEDURES FOR THE TIMELY DEVELOPMENT AND APPROVAL OF INDIVIDUALIZED PLANS FOR EMPLOYMENT FOR THE STUDENTS

To comply with the partnership of WIOA (Workforce Innovation Opportunity Act), MDRS-OVR/OVRB staff collaborates with the Mississippi Department of Education and has updated the Memorandum of Agreement. This agreement explains how OVR/OVRB staff and MDE partner to provide a coordinated set of activities to facilitate a seamless transition of students with disabilities from school to Competitive Integrated Employment or education/training.

The updated Memorandum of Understanding, effective January 1, 2020 through June 30, 2022, focuses on mandates for transition services described in the Workforce Innovation Opportunity Act and the Individuals with Disabilities Education Act (2004). This includes how MDRS and

MDE will collaborate to fulfill mandates on behalf of students with disabilities. Key elements of the partnership are stated in the agreement and include Authority, Purpose, Pre-Employment Transition Services Required Activities, Consultation and Technical Assistance, Transition Planning, Outreach and Identification of Students with Disabilities, Section 511 Subminimum Wage, and Assurances.

At the state and local level, OVR/OVRB works with education officials to coordinate complementary transition services for students with disabilities. At the state level, OVR continues to evaluate the options for the most effective coordination and delivery of services to students under IDEA. Additionally, OVR continues to work with local school officials to implement Pre-ETS. Prior to making services available, OVR Counselors use school documents, health records, and other pertinent information as deemed appropriate for determining a student with a disability potentially eligible for Pre-ETS and/or the OVR Transition Program. OVR Counselors then work with classroom teachers implementing Pre-ETS. VR/VRB, in collaboration with the local education agency, will provide Pre-ETS to assist the student in developing and successfully achieving their IPE goal.

OVR and MDE are working on other ways to increase opportunities for youth, such as with the Project SEARCH program. MDRS and MDE are well positioned to continue evaluating and improving opportunities and services for youth with disabilities across the State.

Policies and procedures to facilitate the transition of students from school to receipt of VR services

One of OVR/OVRB's major goals is to emphasize the employment potential of students with disabilities and to improve the outreach and outcomes for students with disabilities. The MDRS-OVR/OVRB Program has updated the Transition policy to align with the Workforce Innovation Opportunity Act (WIOA) definition and provides guidance for the provision of Pre-Employment Transition Services (Pre-ETS).

The OVR/OVRB Programs will continue to work with local school officials to implement Pre-ETS. This approach provides a continuum of services directed toward additional post-secondary education or direct entry into the workforce.

OVRB works closely with the education system through the VR Transition and Youth Career Services Program. There are approximately 17 VRB Counselors throughout the state who work in preparing students with blindness/vision loss for entry into the world of work. They serve as informational resources for teachers and other educational staff as well as provide resources and information about blindness for parents and transitioning students throughout development of the student's Individualized Plan for Employment (IPE).

VRB Counselors work closely with parents, education staff, and community service providers to promote development of skills needed for students to become as independent as possible and competitive in terms of employment. In addition to training parents and students about the special education rights and responsibilities, VRB provides educational support by working with the VR Transition Team, school officials, and families to develop and implement the IPE. Goals developed in the Individualized Education Program (IEP) are included in the IPE to facilitate successful completion of those goals.

The IPE is completed during the transition process so it is in place before students exit secondary education. Services prepare students to be confident and competent to maximize their potential to achieve success.

OVR works closely with the education system throughout the state. There are approximately between 55 and 60 VR Counselors throughout the state who work in preparing students with disabilities for entry into the world of work.

The goal is to help students with disabilities achieve a seamless transition from high school into the world of work, community, vocational or post-secondary education, and/or other planned outcomes. OVR administers the VR Transition and Youth Career Services Program as specified in Title I of the Rehabilitation Act of 1973, as amended.

District level VR offices and local education districts work together in maintaining local agreements between each VR district office and the local school districts as to *how to* execute the transition services.

Out the 160 local education agencies in the state of Mississippi, OVR/OVRB has 158 agreements in place. Within these school districts, there are approximately 440 schools serving students between the ages of 14 – 21. . These agreements are shared with other state agencies, family members, and consumer groups to ensure the seamless transition of services for students. The agreements do not include any specified financial agreement other than the implied cost for serving students with disabilities.

Restructuring of the VR Transition and Youth Career Services Program has resulted in additional VR Counselors being assigned to designated high schools, who we refer to as Transition Counselors. These counselors provide leadership and work with students, parents, and school personnel.

We also have designated VR Program staff that consists of a Statewide Coordinator for Transition Services. Because of the continued growth in the Transition and Youth Career Services Program, we are anticipating adding Transition Coordinators.

VR Counselors are assigned to all public secondary schools, including Mississippi School for the Deaf and Blind.

The Counselor and the District Manager establish linkages within each school with the following individuals:

- Special Education Coordinator
- Principal
- Guidance Counselor for junior and seniors
- School health personnel
- Other school-based staff determined appropriate by the Counselor and the District Manager

OVR/OVRB staff will provide the following information sharing activities, but not limited to other activities agreed upon:

1. Provide information to students, parents and school staff about Vocational Rehabilitation policy and procedures as they relate to transition planning and VR outcomes.
2. Work with the school district to appropriately identify students who may benefit from VR services.
3. Participate in school-based transition activities, including conferences and meetings.
4. Participate in information and formal presentations to parent groups.
5. Provide consultation to local education staff regarding challenging or complex situations before or after referral.

6. Contribute to the transition planning by communicating with school staff so that students, parents and school district staff can avail themselves of the counselor's expertise.
7. Attend local educational transition fairs and community job fairs to promote employment.
8. Participate on Transition teams.
9. Participate in local meetings that provide services to students.
10. Determine eligibility for VR services.
11. Counsel transitioning students and their parents about vocational and career planning and employment outcomes related to the Individualized Education Program (IEP) by reviewing existing school records related to student.
12. Advise students, parents and school staff during the transition planning and service delivery process regarding current labor market information and community resources, including Community-Based Services and the need for involvement by other state agencies.

Along with the VR Transition Counselors, this staff takes a leading role in ensuring that Transition Services are provided to potentially eligible and eligible students with disabilities.

To help facilitate the transition of students with disabilities from school to VR services to assist the student in transitioning into training and/or employment, OVR/OVRB will:

1. Maintain the Memorandum of Understanding with the Department of Education and local school districts. This will be used as the tool to help facilitate and guide how VR will work with students during their transition.
2. OVR/OVRB Counselors and Rehabilitation Counselors for the Deaf will continue to be assigned to designated school districts as identified by the Transition Survey that is coordinated by the Transition Coordinator and local school districts.
3. The VR Transition Counselor will work with the school district each year prior to the beginning of school to provide outreach and information training to the school he/she is assigned.
4. Continue to update Resource Guide and technical information for staff and contract providers to help deliver and coordinate VR services during the transition process.
5. VR policy indicates that the IPE will be completed before the student exits high school. This will help ensure that the student is on an education/employment track upon exiting high school.
6. Each year, information is obtained from the Department of Education to provide updated Special Education staff contact information.
7. Statewide, VR will designate VR staff who are assigned high school transition to provide leadership, information and referral, advocacy and technical assistance, and to promote collaboration among consumers, parents, adult service providers and other service agencies. Designated VR Transition staff includes the Statewide Transition Coordinator and the staff designated to be a part of the Transition Team.
8. Develop a Transition Team that will include a VR representative from each District. Transition Team members will be responsible for sharing transition-related policy and practices with staff in their District. This responsibility also includes coordinating activities and training with other VR staff.

Transition planning between MDRS and MDE ultimately helps with the successful development and implementation of both the IEP and the IPE.

MDRS, through the Office of Vocational Rehabilitation and Office of Vocational Rehabilitation for the Blind, has recently sent Qualifications Requests for third party providers to provide Pre-ETS activities in accordance with the Workforce Innovation & Opportunity Act (WIOA). At this time, three proposals have been awarded contracts and ten Requests for Proposals have been renewed.

Transition and Youth Career Services include, but are not limited to, job search skills, work evaluation, development of an IPE, basic money management, social skills, and job readiness training along with continuous counseling and guidance. These services may be performed solely by the VR Counselor, in collaboration with other service providers, or in coordination with an education teaching professional.

The OVR/OVRB Counselor also works with the classroom teacher implementing Pre-ETS services. The VR Counselor is prepared to teach the Pre-ETS curriculum in conjunction with providing the classroom teacher with information, technical assistance, and/or curriculum materials as needed. The VR Counselor supervises the students in this program, documents the student's progress, and shares information with the classroom teacher on a regular basis.

VR continues to emphasize *best practices* in providing services to students with disabilities in order to provide a seamless transition to subsequent work or other environments. This emphasis on *best practices*, in part, is achieved by continuous training of staff working with students with disabilities.

VR assures that, with respect to students with disabilities, the state has developed and implemented strategies to address the needs identified in the FFY 2021 Comprehensive Statewide Assessment, strategies to achieve the goals and priorities identified by the state to improve and expand VR services for students with disabilities on a statewide basis, and developed and will implement strategies to provide Pre-ETS.

2. INFORMATION ON THE FORMAL INTERAGENCY AGREEMENT WITH THE STATE EDUCATIONAL AGENCY WITH RESPECT TO:

A. CONSULTATION AND TECHNICAL ASSISTANCE TO ASSIST EDUCATIONAL AGENCIES IN PLANNING FOR THE TRANSITION OF STUDENTS WITH DISABILITIES FROM SCHOOL TO POST-SCHOOL ACTIVITIES, INCLUDING VR SERVICES;

Mississippi has both a state level agreement, Memorandum of Agreement for Transition Planning for Secondary Students with Disabilities between the Mississippi Department of Rehabilitation Services (MDRS) and the Mississippi Department of Education (MDE) and a local level Agreement of Cooperation with each of our education agencies.

The scope of services between OVR/OVRB and MDE are described in (d) 2, between OVR/OVRB and the local education agencies are intended to serve as a mechanism for OVR/OVRB and the local school districts to clearly specify the plans, policies and procedures for coordinating services to facilitate the transition of students with disabilities, including:

- Responsibilities of OVR and OVRB
- Responsibilities of Local Education Agency
- Referral Process
- Joint Development of IEPs and IPEs

- Coordination necessary and documentation requirements set forth in section 511 of the Rehabilitation Act, as added by WIOA, with regard to students with disabilities who are seeking subminimum wage employment

This Memorandum of Agreement for Transition Planning for Secondary Students with Disabilities is made and entered into by and between the Mississippi Department of Rehabilitation Services, hereafter referred to as 'MDRS', for and on behalf of its Offices of Vocational Rehabilitation and Vocational Rehabilitation for the Blind, hereafter referred to as 'OVR/OVRB', and the Mississippi Department of Education, for and on behalf of its Office of Special Education, hereafter referred to as 'MDE OSE'.

Both the Individuals with Disabilities Education Act (IDEA) and the Rehabilitation Act of 1973 (the Rehabilitation Act), as amended by The Workforce Innovation and Opportunity Act (WIOA), require State Educational Agencies (SEA) and Vocational Rehabilitation (VR) agencies to plan and coordinate transition services, as well as Pre-Employment Transition Services for students with disabilities through a formal Interagency Agreement (Section 612(a)(12) of the IDEA and Section 101(a)(11)(D) of the Rehabilitation Act).

A formal Interagency Agreement is mandated under the Individuals with Disabilities Education Act (IDEA) 34 CFR 300.154 and section 101(a) (11) (D) of the Rehabilitation Act and its implementing regulations at 34 CFR 361.22 (b). Additional references used in this document include Sections 113 and 511 of the Rehabilitation Act and the Final Regulations, State Vocational Rehabilitation Services Program, State Supported Employment Services Program, and Limitations on Use of Subminimum Wage. This Agreement is designed to improve the cooperative and collaborative efforts between OVR/OVRB and MDE/OSE to coordinate the receipt of Pre-ETS, Transition Services and other Vocational Rehabilitation (VR) Services to students with disabilities who are eligible for special education services under the Individuals with Disabilities Education Act (IDEA), students who have a 504 plan, and other students with disabilities who are eligible or potentially eligible for services through OVR/OVRB in order to facilitate their smooth transition from school to post-school employment-related activities and Competitive Integrated Employment.

It is also the intent of this agreement to serve as a mechanism for OVR/OVRB and MDE OSE to clearly specify the plans, policies and procedures for coordinating services to facilitate the transition of students with disabilities, including:

- Consultation and technical assistance in the planning for the transition of students with disabilities;
- Transition planning by OVR/OVRB and educational personnel that facilitates the development and implementation of a student's Individualized Education Plan (IEP);
- Roles and responsibilities, including financial and programmatic responsibilities of each agency;
- Procedures for outreach to and identification of students with disabilities;
- Assessment of students' potential need for transition services and Pre-Employment Transition Services;
- Coordination necessary and documentation requirements set forth in section 511 of the Rehabilitation Act, as added by WIOA, with regard to students with disabilities who are seeking subminimum wage employment;
- Assurance that the MDE OSE will not enter into an arrangement with an entity holding a special wage certificate under section 14(c) of the Fair Labor Standards Act for the

purpose of operating a program under which a youth with a disability is engaged in work at a subminimum wage; and

- Additional considerations include grievance procedure to resolve disputes between OVR/OVRB and the MDE OSE, as appropriate, as well as procedures to resolve disputes between an individual with a disability and the entities specified above, and information about the Client Assistance Program.

The Cooperative Agreement between the Office of Vocational Rehabilitation and the Office of Vocational Rehabilitation for Blind and the Mississippi School for the Deaf and Blind was implemented to ensure that students who are Blind and Deaf receive effective seamless services as they make the transition from high school to post-high school education and/or training. This agreement includes Pre-ETS and other VR services. This agreement follows the same guidelines for all cooperative agreements with Mississippi Department of Education and the local education agency in terms coordination, consultation and technical assistance.

B. TRANSITION PLANNING BY PERSONNEL OF THE DESIGNATED STATE AGENCY AND EDUCATIONAL AGENCY THAT FACILITATES THE DEVELOPMENT AND IMPLEMENTATION OF THEIR INDIVIDUALIZED EDUCATION PROGRAMS;

It is understood by all OVR/OVRB staff working with the school and transition age youth that it is their responsibility to work with students and the school in the school's efforts to develop and implement an IEP so that the student and VR will be able to develop and implement an IPE before the student exits high school. The school system is responsible for inviting the student, his or her parent or guardians, and if appropriate, representatives of participating agencies to meetings when transition is being discussed and decisions made about transition services. The VR Transition Counselor attends IEP meetings and provides school districts with assistance, strategies and ideas to help identify students' post-school employment goals, needs for VR services, and concerns to be addressed in achieving the goals when invited. A VR Counselor is assigned to each public high school in Mississippi. The VR Transition Counselor(s) assigned to each school is responsible for connecting with the special education staff at each school to outreach to students with disabilities interested in competitive integrated employment. This is achieved by setting up regular office hours in the school setting. VR Counselors participate in job fairs, parent teacher conferences, teacher conferences/meetings and attend IEP meetings when invited. VR recommends that students are referred for VR services two (2) years before exiting high school. When a high school student is enrolled in VR, their IPE and IEP are complimentary to each other. VR provides services both during school, after school and during the summer. The goal is for both the IPE and IEP to include Pre-ETS provided by the school and VR in a way that best promotes the success of the student through their transition from high school to post-secondary education or employment.

C. ROLES AND RESPONSIBILITIES, INCLUDING FINANCIAL RESPONSIBILITIES, OF EACH AGENCY, INCLUDING PROVISIONS FOR DETERMINING STATE LEAD AGENCIES AND QUALIFIED PERSONNEL RESPONSIBLE FOR TRANSITION SERVICES;

Often times when working with students while in school, there may be an overlap between their educational goal (IEP) and employment goals and services (IPE). When this happens, VR/VRB works with the school to either share the cost or determine how the service will be paid. Guidelines are provided to staff to help determine how and who will be responsible for the services. Some questions are asked to help guide the decision, such as:

1. Is the service required to help achieve the education goal? If yes, the school has the primary responsibility for payment.
2. Will the service help to achieve the IPE employment goal? If yes, VR has the primary responsibility for payment.

3. If the service is planned on the IEP and IPE, the school and VR are responsible for negotiating a cost sharing agreement. Conflicts between the school and VR are resolved utilizing the process outlined in the Memorandum of Understanding.
4. If the student is over 18 and eligible for services through the Department of Mental Health-Bureau for Individuals with Intellectual Disabilities, the school, VR and Mental Health will be responsible for negotiating a cost sharing agreement.

VR/VRB staff are trained to work with the school and other agencies that have a Memorandum of Understanding or Cooperative Agreement to use this decision-making strategy to resolve and ensure the student receives the services needed.

D. PROCEDURES FOR OUTREACH TO AND IDENTIFICATION OF STUDENTS WITH DISABILITIES WHO NEED TRANSITION SERVICES.

Outreach to students with disabilities should occur as early as possible during the transition planning process and must include, at a minimum, a description of the purpose of the VR program, eligibility requirements, application procedures, and scope of services that may be provided to eligible individuals. The Interagency Agreement between VR and the Department of Education provides information about VR and the local education agency's responsibilities to provide Pre-ETS to students with disabilities from age 14-21. The VR/VRB Resource Guide includes information and other details on how VR provides Pre-ETS, includes the VR staff requirement to document and code these services for federal reporting and the student's IPE.

As the student moves from school to post school life, there should be no gap in services between the education and the vocational rehabilitation systems. While local school districts are responsible for providing education and transition services to students with disabilities who are still in the secondary school system, VR can provide transition services that involve planning and preparing for the student's future employment.

District Managers and counselors are responsible for developing cooperative working relationships with the local education agency staff in the districts, and other agencies working with students. In 2022, our Transition Navigators will assist districts with developing relationships, providing services, and increasing student referrals.

The counselor will actively work in collaboration with their local school district to identify students with disabilities who can benefit from vocational rehabilitation services. Schools usually provide a list of names to the counselor during the first semester of the current school year. Schools may also provide the information to the counselor prior to the end of a school year or during the summer break, which helps with preparation for the upcoming school year. When referring a student to VR, it is recommended that the school district:

1. Understands VR's eligibility requirements and the purpose of VR services;
2. Makes referrals based on student needs;
3. Obtains consent for release of information from the parent, legal guardian or from the student (a student age 18 or older can independently sign the release form unless he/she has a designated a legal guardian); and
4. Provides documentation that describes the student's disability, needs, preferences, interests, and skills (e.g., interpersonal, work, academic, independent living) which are relevant to vocational rehabilitation and achieving employment. Preferred information includes descriptions of the student's current abilities, work-related capacities and limitations, functional limitations and service needs, if available.

A referral packet which includes a referral letter, the Referral Information Form (MDRS-VR-05), Transition and Youth Referral Form Addendum (MDRS-TY-01) and

transition brochure will be sent to individuals the school identifies as someone who may benefit from VR services. Contact will then be made with these referrals and their parents to introduce the vocational rehabilitation program and determine their potential interest in services. When the counselor sends letters to the client, a copy will be sent to the parent/guardian.

Students who express an interest in services by returning the appropriate referral paperwork will be scheduled for a meeting with the counselor at school during school hours. The parents of the students must be notified of the meeting and invited to attend. When requested by the parent, other arrangements can be made to begin the application process. During the meeting, the counselor will explain the Vocational Rehabilitation Program and answer questions posed by the student and/or his/her parents/guardians.

The counselor is required to enter the referral information in AACE (the VR/VRB Module in the AACE caseload management system) to allow each referral to be successfully tracked. The counselor will also use the referral module to document the services provided to students.

E. COOPERATIVE AGREEMENTS WITH PRIVATE NONPROFIT ORGANIZATIONS

Cooperative Agreements with private non-profit organizations are established based on identified needs and expectations. Agreements may vary from the establishments of information and referral needs to the structuring of a new service or program.

As an ongoing process, MDRS-OVR/OVRB district staff develop and reinforce relationships with community partners structured to meet customer needs and informed choice.

Vocational and service needs of customers within the geographic area are identified through resources such as:

- the Comprehensive Statewide Needs Assessment,
- information from the State Rehabilitation Council,
- other sources of State and local data to inform decision-making, and/or
- networking with other community partners that service individuals with disabilities.

MDRS develops a formal fee for service contracts with private non-profit vocational rehabilitation service providers. The contract contains all necessary clauses and each contract is approved by the state's Assistant Attorney General assigned to MDRS. The contracts are executed by the MDRS Executive Director and the principal of the private non-profit vocational rehabilitation service provider.

MDRS-OVR/OVRB has the authority to enter into contracts with for-profit organizations for the purpose of providing vocational rehabilitation services for individuals with disabilities when it is determined that the for-profit organization is better qualified to provide the VR services than non-profit agencies and organizations.

In order to enter into a cooperative agreement as a VR Service provider, community rehabilitation program providers request to become a vendor for Vocational Rehabilitation Services, a provider/information request form and checklist is completed. This checklist contains the some of the same information that providers submit that answer request for proposals. The provider is asked to provide valid W-9 information, evidence of incorporation with the MS Secretary of State, Scope of Services and the professional licensures, certification, credential, qualifications, resumes and job descriptions of key leadership positions. The vendor

is also asked to provide information concerning their status as a supplier, grantee, and business structure.

The number of providers for Pre-ETS in the state was very limited. To expand the delivery of Pre-ETS and obtain providers for Pre-ETS, the Competitive Sealed Proposal process was used to request and obtain proposals from competing sources in response to advertised competitive specifications, through the issuance of a Request for Qualifications (RFQ), by which an award is made to the provider or who receives the highest score based on weighted evaluation criteria outlined in the RFP and includes discussions and negotiations with providers. The RFQ was posted on MDRS' external website and in the legal notice section of the newspaper and the Mississippi Contract/Procurement Opportunity Search Portal to allow service providers access to the document, guidance and policy. Emails were also sent to community partners and agencies notifying them that MDRS was accepting Request for Proposals and the proposals could be found on the MDRS' external website. In 2022-2023, MDRS-OVR/OVRB will also begin utilizing a Vendor Registration Process for Pre-ETS Providers. Providers will complete the Community Rehabilitation Program Certification and Vendor Application or Individual Service Provider Application.

F. ARRANGEMENTS AND COOPERATIVE AGREEMENTS FOR THE PROVISION OF SUPPORTED EMPLOYMENT SERVICES

OVR administers the Supported Employment (SE) Program as specified in Title VI of the Rehabilitation Act and amended in WIOA. VR works extensively with other state agencies, private non-profit entities, employers, family members, and consumer groups to ensure quality SE services are provided to all eligible individuals throughout all phases of the SE service delivery system.

When individuals apply for VR Services, the VR Counselor determines eligibility for VR and for Supported Employment. If it is determined that the individual will also require SE services to obtain employment and long-term supports to maintain employment, the individual's case is staffed with the SE Counselor. The SE Program is not separate from the general VR program. It simply offers additional services to individuals that meet the criteria for eligibility for SE services. SE clients are eligible for any of the traditional VR services available to any other VR client. Any traditional VR services the SE client needs is paid for with regular VR (Title I) funds.

OVR has entered into formal Cooperative Agreements with the Mississippi Division of Medicaid (Medicaid) and Department of Mental Health-Bureau for Intellectual and Developmental Disabilities, with respect to delivery of VR services, including extended services, for individuals with the most significant disabilities eligible for home and Community-Based Services.

The collaboration with DMH has resulted in a formalized referral process between the two agencies to ensure VR services are provided to individuals with the *most significant disabilities*, including those with serious mental illness.

A formal referral process has been developed for individuals referred from the Department Mental Health to VR Supported Employment. The MDRS Supported Employment Program Coordinator receives the referral from the DMH Mental Health Support Coordinator/Target Case Manager. After review, the SE Program Coordinator then forwards the referral to the SE Counselor in the appropriate MDRS District Office for application for VR services.

Upon completion of the time-limited Supported Employment services, the ongoing job skills training assistance and other necessary long-term support is transitioned to a third party, group, or individual through a Cooperative Agreement or Extended Services Support Plan Agreement. The primary provider of extended services is the DMH-Bureau of Intellectual and Developmental Disabilities through its network of local community service programs.

However, an increasing number of individuals and other community organizations are accepting this role. Employers are often willing to take on this responsibility and are encouraged to do so since it is the most natural arrangement for the client.

VR has entered into 40 new Extended Service Support Plan Agreements from January 1, 2020 through June 30, 2021. These 40 new agreements are in addition to the agreements previously established and are ongoing.

Providers of long term supports are required to document twice monthly contact with each consumer successfully working in the community, and to maintain this documentation in case files for the duration of that consumer's job. This information is reported monthly to the VR Supported Employment Coordinator for tracking purposes.

WIOA increased the maximum amount of time for SE staff to provide time-limited SE services to 24 months. However, the rate of transitioning a client to extended services is dependent upon the needs of the individual, his/her family, the employer, the third party agency, and other involved individuals. Since SE staff members and the Extended Service provider would have been collaborating in the provision of SE services throughout an individual's Vocational Rehabilitation Program, such transitions are normally seamless and do not cause job disruptions.

Individuals with chronic mental illness who need special support services, but not job skills training services provided either at the work site or away from the work site in order to obtain employment, perform work skills and maintain employment are provided VR employment services. These services are coordinated with the DMH Case Manager to ensure the individual receives the support and is able to maintain employment.

In VR practice, when stabilization occurs, the client is ready to transition from VR-funded SE services to the appropriate source of ongoing support from the *Extended Service* provider.

Transition to *Extended Services* must take place no later than 24 months after the initial job placement. If there are exceptional circumstances that require ongoing support services to be provided longer than 24 months, the counselor should justify this in a case note.

VR may provide extended service supports to youth who have a most significant disability and are eligible for SE services. Extended support services provided to youth with the most significant disabilities can continue for a period of time not to exceed four (4) years or until the youth reaches the age of 25 and no longer meets the definition of a youth with a disability (or whichever comes first). VR can begin providing extended support services once initial job stabilization is achieved.

The use of Job Trainers at the worksite is an integral part of SE services. This individual is responsible for learning the job prior to the client coming to work, then teach the job to the client. The trainer not only teaches the work skills needed at the job site but will help the client become adjusted to the new work environment. The job trainer will help the client develop relationships with coworkers and supervisory staff. If the client cannot meet the job standards, the trainer is there to ensure the employer that the work will be done to the business' quality and quantity levels. As the client becomes more independent at the worksite and is able to perform most of the job tasks with minimum intervention by the trainer, the trainer will fade assistance until the case can be closed and the extended service provider assumes the extended long-term support.

The following are possible resources for *Extended Services* the counselor coordinates with to provide *Extended Services*:

- Natural Supports: Support from supervisors and co-workers occurring in the workplace to assist employees with disabilities to perform their jobs, including supports already provided by

an employer for all employees. These natural supports may be both formal and/or informal, and include mentoring, supervision (ongoing feedback on job performance), training (learning a new job skill with a co-worker), and co-workers socializing with employees with disabilities at breaks or after work. Support provided by family, friends, or significant others are also included within this definition.

- **Medicaid Funded Employment Supports:** ID/DD Waiver-Intellectual and Developmental Disability Waiver Program for individuals who are approved for the ID/DD Waiver program.

Some new programs and services designed to support the provision of SE Services are as follows:

- **Job Coach Training Manual** - The Mississippi Department of Rehabilitation Services, Office of Vocational Rehabilitation, and the Mississippi Department of Mental Health Division of Home and Community-Based Services serve as the two primary providers of job coaching services. In 2018, both agencies along with other community partners worked together to ultimately create a Job Coach Training Manual.

This manual was designed to review best practices in job coach training to develop a specific Mississippi job skills trainer curriculum. The new curriculum is competency-based and the intent is for it to become a required training regime for all persons in any job coach or related position in Mississippi. Prior to this project, training for job coaches ranged from none to out of State correspondence programs to agency training so specific it did not translate to general use. The goal of the job trainer manual project is to increase the level of competency for job coaches in the state and have a mutually agreed on curriculum in the state.

This curriculum-targeted audience of all job coaches in the state is a collaborative effort between The Arc of Mississippi, Mississippi Department of Rehabilitation Services, Mississippi Department of Mental Health, Institute for Disability Studies, and self-advocates.

- **Project SEARCH**

The Project SEARCH Program is a unique, business-led, nine-month employment preparation program that takes place entirely at the workplace. Up to 12 students with disabilities experience total workplace immersion, classroom instruction, career exploration, and hands-on training through three different worksite rotations. The goal for each participant is competitive employment. To reach that goal, the program provides real-life work experience combined with training in employability and independent-living skills to help young people with significant disabilities make successful transitions to productive adult.

- **Shelby Residential and Vocational Services (SRVS)**

A Cooperative Agreement was entered into by MDRS, Office of Vocational Rehabilitation, with Shelby Residential and Vocational Services (SRVS) to provide services to individuals eligible for traditional VR employment services and Supported Employment. These outcome based VR and SE services include:

1. **Exploration**- This is a time-limited and targeted service designed to help a person make an informed choice about whether s/he wishes to pursue individualized integrated employment.
2. **Discovery**-activities include observation of person in familiar places and activities, interviews with family, friends and other who know the person well, observation of the person in an unfamiliar place and activity, identification of the person's strong interests

and existing strengths and skills that are transferable to individualized integrated employment. Discovery also involves identification of conditions for success based on experience shared by the person and others who know the person well, and observation during the Discovery process.

3. **Job Development Plan**-This is a time-limited and targeted service designed to create a clear and detailed plan for Job Development. This service includes a planning meeting involving the individual and other key people who will be instrumental in supporting the individual to become employed in individualized integrated employment.
4. **Job Development**-This is support to obtain an individualized competitive or customized job in an integrated employment setting in the general workforce, for which an individual is compensated at or above the minimum wage, but ideally not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.
5. **Job Skills Training**-Job skills training for individualized, integrated employment includes identifying, through job analysis, and providing services and supports that assist the individual in maintaining individualized integrated employment that pays at least minimum wage but ideally not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. Job skills training includes supports provided to the individual and his/her supervisor and/or co-workers, either remotely (via technology) or face-to-face.
6. **Customized Employment**-Service is described herein that will place individuals in settings that meet the definition of Competitive Integrated Employment. Services should be provided in a continuous process leading to obtaining a Competitive Integrated Employment outcome.

OVR continues to utilize Shelby Residential and Vocational Services (SRVS) as a provider for services. However, the number of consumers referred to SRVS was greatly impacted in 2019-2020 by the COVID-19 pandemic.

G. COORDINATION WITH EMPLOYERS

1. VR SERVICES; AND

WIOA specifically directs the VR program to work with employers to identify Competitive Integrated Employment opportunities and career exploration opportunities to facilitate the provision of VR services, and transition services for youth with disabilities such as Pre-Employment Transition Services. MDRS will handle this coordination with employers through its Office of Business Development.

The Office of Business Development (OBD) is comprised of 16 individuals spread across 82 Mississippi counties. There are twelve Business Development Representatives (BDRs) located in and across a ten-district area. Presence in the community provides the BDRs with learning the communities' workforce needs, meeting employers located in their districts, learning employers' human capital needs, and helping the VR arm of MDRS connect the needs of the businesses with the clients being served. The BDRs are located in Oxford, Tupelo, Greenwood, Starkville, Jackson, Pearl, Meridian, McComb, Laurel, and Gulfport.

Twelve OBD representatives are supported by three managers and one office assistant (two regional managers and one office director). This team trains, supports, and provides direction to the twelve BDRs and are responsible for assistance in the creation of large-scale programs with employers who want to hire on a mass scale.

In 2020, MDRS job fair efforts were hindered due to COVID-19. In fiscal year 2021, the goal was to implement three job fairs independent from the Governor's Job Fair Network. The first

independent job fair was held in October 2021 in Oxford, Mississippi. It was held in conjunction with the University of Mississippi and was targeted towards college students with disabilities. Twenty-eight businesses attended the job fair. Students' attendance was less than expected; however, feedback from business partners was positive. The most common feedback was that the students were job seeking and qualified for the positions that were being offered. Two additional fairs are planned before the end of FY22. OBD will continue to target the college age individuals with disabilities exiting post-secondary and seeking employment. Plans are to geographically target the central and southern parts of the state, potentially with the University of Southern Mississippi and Jackson State University.

Sales-Minded / Business First Approach

The OBD representatives' goal is to provide multiple services and an on-going rapport with business relationships. This mindset is directly correlated with the sales approach that the office bases its strategy upon. The OBD units' goal is to understand the workforce area in which each representative is located, understand the employers within these areas, recognize the employers' needs, and how to utilize the resources of VR and MDRS (AbilityWorks, Training, etc.) to meet the employers' needs.

OBD uses a face-first approach to delivering the product. The goal is to keep the OBD representatives in the community interacting with businesses as much as possible, to be in-person with the businesses, building relationships, taking facility tours, have meetings about how a business operates, etc. The purpose of this is to put a face to MDRS. This means a lot to businesses in Mississippi who come from a relational culture. Ultimately, by building this relationship and understanding the business, OBD can specifically pinpoint the needs of the business. Once the business needs are understood, the next step is to utilize the trainings the OBD program provides, the services offered, and individuals the OBD represents to meet the needs of that business.

Services to Business

OBD's goal is to provide a package of services that meets a business' needs for education, support, and human capital. These needs are met through a bundle of services that BDRs are trained to provide. The OBD unit is equipped to provide training such as Disability Awareness, Customer Service, Assistive Technology, ABLE Act, etc.. The goal of the business training is to educate the business about the disability community and to establish a level of comfort about working with the disability community that may not have existed beforehand.

Placement has been prioritized for a long period of time. The OBD representatives carry a caseload of 'job ready' clients who are willing and ready to return to work. When approaching businesses, the first step for the BDR is exploration and fact-finding. The goal is to understand the business model and to understand the business' human capital needs. Once the representative has grasped those topics, then the BDR moves to try meeting those business needs with the job-ready client served through VR. The BDR's primary function is relationship building, understanding the client's needs, finding opportunities, and connecting the clients to those opportunities. The BDR's performance is graded on the ability to connect the clients to employment, internships, community-based opportunities, and other services the OBD provides.

Lastly, OBD has entered into relationships with businesses who want to hire individuals with disabilities on a mass scale. These companies understand the value of diversity and the value the clients bring to the workforce and incorporate this value within the business corporate model. OBD staff meets with businesses and determines how this corporate model can be best achieved. The assessment usually determines how many individuals the business is seeking, the specific jobs and areas in which the businesses need individuals to work, training existing staff

to prepare for individuals with disabilities to work there, and developing training to prepare the individuals for success when entering the workplace.

In 2019 a total of 11,245 contacts were made to businesses, 6,279 in 2020 and 9,857 in 2021. In 2020, the number of businesses contacted was impacted by COVID-19.

2. TRANSITION SERVICES, INCLUDING PRE-EMPLOYMENT TRANSITION SERVICES, FOR STUDENTS AND YOUTH WITH DISABILITIES.

Career Exploration Services

The Office of Business Development (OBD) helps facilitate Pre-Employment Transition Services (Pre-ETS) by assisting students and youth and exploring different career opportunities. OBD makes business connections when providing their services, especially direct services such as recruitment assistance for internships, Community-Based Work Experiences, job shadowing, on-the-job training and business sponsored training programs. The OBD plays an integral role in assisting students and youth with disabilities in obtaining high quality employment.

The Summer Internship Program has recently expanded from a summer program geared toward students to a service designed to be provided anytime an individual needs or requires this service during the year.

In 2020, 54 students received summer internships and 73 received summer internships in 2021. The number of students that could participate was impacted by COVID-19.

The internship program is used to provide the individual with a disability to be trained by the business, gain vital skill sets, and allow the business to see the person for who they are and how they fit within their organization while OVR/OVRB covers the cost and allows the business to experience the person without having to make the commitment to hiring them in the case that the opportunity is not a good fit for the business, the client, or both. OVR/OVRB can cover up to 320 hours to allow the person to train at no cost to the client or business.

The community-based training program is used to provide students and adults, who already have skill sets needed by a partner business, to go into the business, work, and prove themselves and their abilities to the business. The program is used on a shorter-term basis to help the client see if this is an opportunity they would like to pursue or to allow the business to become sure that this client is a good fit. OVR/OVRB usually covers between 40 and 80 hours of the cost to the business.

Job shadowing is a service designed so that the individual can go into a business to see how the business operates. Clients may have a mental perspective of how a job would be that is not realistic to the actual operation of that job. This program allows the individual to observe without actually working for that partner business. This provides clarity to the job exploration process and saves valuable time on the backside of the employment process when the client is not pleased with a career goal for which they are not suited. The job shadowing experience usually last up to 40 hours for the client and partnered business.

On-the-job training is a very similar program to the internship program except that the business hires the person first and is then reimbursed for a certain number of salaried hours. This program is mainly utilized by companies who are completely sold on the disabled population and are willing and equipped to work through any issues that may arise assuring the fit is correct in the employment process.

Project SEARCH is a program that is focused on youth. This program partners a school, a business, and a VR agency to create a ten-month internship program. The school provides a teacher and up to twelve students, while the business provides a classroom location and the internship sites. The VR agency provides the overarching management, the cost, job placement, and the counseling to the program. The students rotate through three ten-week internship

rotations during their regular school year. The goal of the program is to gain valuable specific career skillsets, learn what it means to work, and work through employment hurdles all while still in school. Many of the sites have aimed to hire the students that they work with. While this is nice it is not required and much of the training and career development is geared toward being able to be used elsewhere in the community upon exit. In 2020-2021, 42 Interns participated in Project SEARCH sites at University MS Medical Center, Baptist Jackson, Baptist Attala, Merit Health-Vicksburg, South Central Regional Medical Center, North MS Medical Center and Forrest General Hospital.

MDRS Community Rehabilitation Program Services to Business

Office of Vocational Rehabilitation

AbilityWorks, Inc.

AbilityWorks, Inc. (AW), a network of Community Rehabilitation Programs (CRP), provides vocational assessment, actual work experience and work adjustment training for individuals with disabilities. This is possible through a wide array of contracts and subcontract services provided to local businesses and industry. It is a division of MDRS with 15 AbilityWorks' locations throughout the state:

Harrison County Service Areas: Hancock, Harrison, Jackson, Pearl River, Stone, George

Olive Branch Service Areas: Desoto, Marshall, Tate, Tunica

Tupelo Service Areas: Lee, Pontotoc, Itawamba, Union

Laurel Service Areas: Covington, Jasper, Jones, Smith, Wayne

Meridian Service Areas: Clark, Kemper, Lauderdale, Neshoba, Newton, Winston

Jackson Service Areas: Hinds, Madison, Rankin, Scott, Simpson, Warren

Corinth Service Areas: Alcorn, Benton, Prentiss, Tippah, Tishomingo

Starkville Service Areas: Clay, Oktibbeha, Chickasaw, Choctaw, Webster, Montgomery

Kosciusko Service Areas: Attala, Leake, Neshoba, Rankin

Columbus Service Areas: Lowndes, Clay, Monroe

Brookhaven Service Areas: Adams, Amite, Copiah, Claiborne, Franklin, Jefferson, Jefferson Davis, Lawrence, Lincoln, Marion, Pike, Walthall, Wilkerson

Greenwood Service Areas: Leflore, Carroll, Holmes, Grenada, Bolivar, Sunflower, Humphreys, Tallahatchie, Yazoo

Washington County Service Areas: Washington, Sunflower, Bolivar, Issaquena, Sharkey

Hattiesburg Service Areas: Forrest, Greene, Lamar, Perry

Oxford Service Areas: Calhoun, Coahoma, Panola, Lafayette, Quitman, Yalobusha

AbilityWorks' mission to clients is *"to improve the quality of life, employment opportunities, and integration of people with disabilities into the community"*. The mission to business and industry through the subcontracting program is to provide fast turnaround times, high-quality workmanship, competitive rates, credit rates, credit terms and speedy delivery. Some of the services and products AbilityWorks offers include collating and sorting, packaging and handling, assembly work, product reworking, product reclamation, grounds maintenance, housekeeping and quality reviews.

AbilityWorks enables the VR program staff and employers to work together to identify career exploration opportunities and Competitive Integrated Employment opportunities for clients. Both activities are conducted mainly through Community-Based Services connecting the client's abilities with employer opportunities.

AW considers career exploration as a comprehensive process that systematically utilizes work, either real or simulated, as the focal point for evaluation and vocational exploration, the purpose of which is to assist an individual with vocational development.

When a client has an interest in a career but AW cannot provide the client with similar tasks or experiences related to that career, then the AW staff establishes a work-based learning opportunity in the community for the client.

The client gains exposure and experience in the type of career which match their interests, thereby either helping the client realize the career is not the correct choice or reaffirming the client's interest in the career.

The work-based learning experience may additionally help the client and the VR Counselor understand what additional training is required as well as the skills and/or abilities that must be acquired to be successful in the selected career.

Through its AbilityWorks program, MDRS-VR partnered with Sephora to provide training for individuals with disabilities in a warehouse distribution setting. This program began at Sephora's Olive Branch location August 2017 and has continued throughout 2021.

Office of Vocational Rehabilitation for the Blind

The Addie McBryde Center for the Blind

The Addie McBryde Center is the state comprehensive center for the Blind and Visually Impaired. This center is a place where people who are Blind can reside temporarily while they learn to lead productive, self-sufficient lives. The program incorporates instruction in a variety of independence skills as well as case management including home management, cooking, orientation and mobility, Braille, access to computer technology, college preparation, job-readiness, adaptation to blindness and many other skills that contribute to independence and the confidence to seek the highest level of employment possible. The center provides Pre-ETS in conjunction with the independent skills classes on a daily basis. The Summer Internship Program (for the Blind and Visually Impaired) is hosted by the Addie McBryde Center connecting clients with their first real-world work experience.

The Addie McBryde Rehabilitation Center is a comprehensive personal adjustment center for adults who are Blind, Visually Impaired or Deaf-Blind. Through a program of training offered to both residential and day clients, individuals participate in class learning skills that enable the client to successfully live and work independently. Established in 1972, the center is located on the campus of the University of Mississippi Medical Center in Jackson, Mississippi. The facility has a dormitory capacity for 28 clients, a gymnasium, a client library and classrooms equipped with specialized technology for the Blind and Visually-Impaired. Certified instructors individualize training to meet a client's needs during the class day from 8:00AM-3:00PM. Clients participate in additional activities in the 'Achieving Milestones' class focusing on adjustment to vision loss, confidence building, resume writing, interviewing and utilizing resources in the community.

H. INTERAGENCY COOPERATION

1. THE STATE MEDICAID PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT;

In January 2014, by the Governor's Executive Order (1335), Mississippi state agencies were directed to ensure employment in integrated settings as the first priority option to the extent feasible.

In July 2015, MS Legislation passed HB 836 and implemented an Employment First policy for working age citizens of Mississippi with disabilities. This Act required state agencies that provide services and support persons with disabilities to consider their option of competitive integrated employment and to collaborate and coordinate services.

MDRS has entered into formal Cooperative Agreements with the Mississippi Division of Medicaid (Medicaid) and Department of Mental Health (DMH)-Bureau of Intellectual and Developmental Disabilities, with respect to delivery of VR services, including extended services, for individuals with the most significant disabilities eligible for home and Community-Based Services. The collaboration with DMH has resulted in a formalized referral process between the two agencies to ensure an array of services is provided to individuals with the *most significant disabilities* opening many new options for them.

In addition to the formal agreements with Medicaid and DMH, MDRS collaborates on a more informal basis with public and private entities to ensure a comprehensive program of services is provided to individuals eligible for Supported Employment (SE) services. Collaborative partners include local mental health facilities to help people move from qualified institutions to homes in the community, local school districts, businesses and industries, workforce development One-Stop Career Centers, advocacy groups, and other relevant third parties as well as parents of individuals with the most significant disabilities.

Whenever there is an overlap of goals and services, VR works with agencies to arrange a cost-sharing agreement to provide the services the individual needs. The following guidelines are used to reach a final agreement regarding which agency is responsible for providing the service(s):

1. Will the service help the individual achieve the IEP educational goal?
2. Will the service help the individual achieve IPE employment goal?
3. If the service will help achieve the IEP goal and the IPE goal, the agency and VR negotiated how each party will participate in the cost of the service.
4. If the student is eligible for the IDD Waiver or State plan Medicaid SE Services, all agencies work together to negotiate which services will be provided in order to share in the cost of the services.

The partnership's intent is to build capacity across existing state systems to improve outcomes for youth and young adults with developmental disabilities, including intellectual disabilities, seeking competitive employment in integrated settings.

2. THE STATE AGENCY RESPONSIBLE FOR PROVIDING SERVICES FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES; AND

Mississippi's ID/DD Waiver provides individualized supports and services to assist individuals with intellectual and developmental disabilities live successfully at home and in the community and are an alternative to care in institutional settings. The ID/DD Waiver includes an array of services aimed at assisting people to live as independently as possible in their home and community. Services include Supported Employment (SE), Home and Community Supports, Supervised Residential Habilitation, Day Services-Adult, In-Home Nursing Respite, Community Respite, ICF/MR Respite, Prevocational Services, Specialized Medical Supplies, Behavior Support/Intervention Services, and Speech, Occupational and Physical Therapy.

When the IDD Waiver case manager and the individual have determined that Competitive Integrated Employment is an option for the individual with appropriate services, referrals are made to Vocational Rehabilitation.

A formal referral process has been developed and coordinated with the IDD Waiver. The individual's information is submitted to the VR SE Program Coordinator with existing information to assist in expediting the eligibility process.

Upon receipt of referral and agreed upon referral information, the referral is assigned to an SE Counselor who initiates the application for VR Services.

The formal Memorandum of Understanding outlines the services each agency is responsible for, as well, as how service cost sharing will be resolved.

3. THE STATE AGENCY RESPONSIBLE FOR PROVIDING MENTAL HEALTH SERVICES.

In 2018, a formalized agreement between the Mississippi Department of Rehabilitation Services, Office of Vocational Rehabilitation and the Mississippi Department of Mental Health-Bureau of Mental Health. This agreement was renewed May 1, 2020 thru April 30, 2024.

The purpose of this program is to enhance employment opportunities for individuals with severe and persistent mental illness or persons in recovery.

This program will result in increased integrated employment opportunities for these individuals. A comprehensive program evaluation will be completed with mental health sites participating this year, including site visits to the mental health centers as well as discussions with VR Counselors about how the program is working, what is working well and improvements that might help the program.

Throughout the districts, VR offices work with the community mental health centers serving the area. VR Counselors and District Managers will provide orientation and training sessions for mental health center staff and their clients.

Where the community mental health centers have established vocational and SE programs, OVR often collaborates with these centers to meet the needs of our mutual clients as referrals are made to VR for services for those who have been determined to need and want to obtain Competitive Integrated Employment.

I. COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT; DATA SYSTEM ON PERSONNEL AND PERSONNEL DEVELOPMENT

1. SYSTEM ON PERSONNEL AND PERSONNEL DEVELOPMENT

A. QUALIFIED PERSONNEL NEEDS

I. THE NUMBER OF PERSONNEL WHO ARE EMPLOYED BY THE STATE AGENCY IN THE PROVISION OF VR SERVICES IN RELATION TO THE NUMBER OF INDIVIDUALS SERVED, BROKEN DOWN BY PERSONNEL CATEGORY;

The Mississippi Department of Rehabilitation Services (MDRS) has implemented procedures and activities within the Office of Human Resource Development (OHRD) which assures the full implementation of a Comprehensive System of Personnel Development.

Data System on Personnel and Personnel Development

Assurance of an adequate supply of qualified Rehabilitation professionals and paraprofessionals and personnel to provide vocational rehabilitation services is the major driving force of the Office of Human Resource Development. Data from numerous sources is used to determine

current and projected needs, as well as, Vocational Rehabilitation and Vocational Rehabilitation for the Blind progress toward meeting them.

OHRD maintains a database which includes information on the number of vocational rehabilitation personnel providing vocational rehabilitation services, types of positions, and the ratio of the number of personnel needed to provide vocational rehabilitation services to individuals served by OVR/OVRB.

The current staffing ratio is 138 counselors; 67 counselors assistants, 8 interpreters, 3 psychometrists, 20 evaluators, 36 work adjustment instructors, and 9 instructors at the Center for the Blind to 13,671 applicants and eligible individuals served. MDRS, along with all State agencies, received a budget cut the previous fiscal year and absorbed most of the cut through attrition. This year, MDRS is working to rebuild the OVR/OVRB workforce by filling vacancies and adding positions where needed throughout the state. Currently, MDRS is experiencing vacancies in all of the personnel categories mentioned above, but is actively advertising vacancies to maintain the needed ratios.

The table below displays current VR and VRB personnel.

Job Title	OVR Filled Positions	OVRB Filled Positions
Counselor	117	21
Counselor Assistant	57	10
Interpreter	8	
Psychometrist	3	
Evaluator	20	
Work Adjustment Instructor	36	
Instructors at the Center for the Blind		9

II. THE NUMBER OF PERSONNEL CURRENTLY NEEDED BY THE STATE AGENCY TO PROVIDE VR SERVICES, BROKEN DOWN BY PERSONNEL CATEGORY; AND

The table below displays current VR and VRB needed positions, broken down by category.

Job Title	OVR Vacancies	OVRB Vacancies	Current Total Staff Needs
Counselor	13	3	154
Counselor Assistant	17	0	84
Interpreter	3		11
Psychometrist	3		6
Evaluator	7		27
Work Adjustment Instructor	4		40
Instructors at the Center for the Blind		2	11

The current staffing ratio, if all positions are filled, equates to a counselor to client ratio of 89 clients per counselor. Although caseload sizes vary depending on the type of services provided, the ideal client to counselor ratio is 75 clients per counselor.

III. PROJECTIONS OF THE NUMBER OF PERSONNEL, BROKEN DOWN BY PERSONNEL CATEGORY, WHO WILL BE NEEDED BY THE STATE AGENCY TO PROVIDE VR SERVICES IN 5 YEARS BASED ON PROJECTIONS OF THE NUMBER OF INDIVIDUALS TO BE SERVED, INCLUDING INDIVIDUALS WITH SIGNIFICANT DISABILITIES, THE NUMBER OF PERSONNEL EXPECTED TO RETIRE OR LEAVE THE FIELD, AND OTHER RELEVANT FACTORS.

MDRS predicts the number of clients who will receive services to grow by 66% in five years. MDRS projects that 16,345 clients are to be served in FY2021; 19,282 clients to be served in FY 2022; and 22,747 clients to be served in FY 2023. Based on these projections, MDRS is anticipating a need for a 66% increase in counselors to maintain current staffing ratios (102 additional counselors), and then an additional 47 counselors to meet the desired client to counselor ratio of 75 clients per counselor. To properly assist counselors with caseloads, a ratio of two counselors to one counselor assistant is ideal. An additional 68 counselor assistants are needed in five years to meet the desired ratio. An added increase of one staff interpreter will also be needed to ensure quality services are provided in a timely manner.

The table below displays the projections of the number of personnel, broken down by personnel category, needed to provide VR services in five years based on projects of the number of individuals served.

Job Title	Projected Additional Staffing Needs over the Next 5 Years	Total Staff Needed in 5 Years
Counselor	149	303
Counselor Assistant	68	152
Interpreter	0	11
Psychometrist	3	9
Evaluator	12	39
Work Adjustment Instructor	0	40
Instructors at the Center for the Blind	6	17

The number of counselors that provide Transition and Youth Career Services remains consistent with overall counselor staffing projections. The projected five-year staffing needs noted above for counselors and counselor assistants would require that VR be provided with additional FTEs, allocated by the State legislature.

With the turnover within OVRB over the last few years, the rate of change in the next few years is expected to be lower. It can be anticipated that OVRB staffing needs could include approximately six new staff positions within the next five years. The table above highlights the current vacancies within OVRB. These vacancies are within the same regional office and are currently being covered by existing staff. The chart also depicts anticipated staffing needs for the next five years due to expected vacancies from retirements.

On average, OVRB and OVRB loses approximately 66 employees each year due to separation, transfer to another state agency for career advancement, or retirement. Of the predicted 66 separations per year, 11 are due to retirement and 51 due to resignation/transfer. MDRS predicts an average of 28 counselors to separate per year and 12 counselor assistants to

separate per year, determined by reviewing a two-year average rate of separation in these two classifications. Due to this predicted turnover, vacancies are a contributing factor in our ability to maintain desired client to counselor ratios; however, all positions are advertised for recruitment quickly upon departure of the separated employee.

B. PERSONNEL DEVELOPMENT

I. A LIST OF THE INSTITUTIONS OF HIGHER EDUCATION IN THE STATE THAT ARE PREPARING VR PROFESSIONALS, BY TYPE OF PROGRAM;

An annual survey of the state's two university graduate programs in Rehabilitation Counseling determine the number of students enrolled, projected graduation dates, and the total number expected to complete the requirements for national certification in Rehabilitation Counseling. These two graduate programs accredited by the Council on Rehabilitation Education (CORE), one at Mississippi State University and the other at Jackson State University (a Historically Black College or University), are the only graduate programs in Rehabilitation Counseling in Mississippi.

II. THE NUMBER OF STUDENTS ENROLLED AT EACH OF THOSE INSTITUTIONS, BROKEN DOWN BY TYPE OF PROGRAM; AND

Institutions	Students Enrolled	Degree
Jackson State University	20	Master of Science - Rehabilitation Counseling
Mississippi State University	6	Master of Science - Rehabilitation Counseling

III. THE NUMBER OF STUDENTS WHO GRADUATED DURING THE PRIOR YEAR FROM EACH OF THOSE INSTITUTIONS WITH CERTIFICATION OR LICENSURE, OR WITH THE CREDENTIALS FOR CERTIFICATION OR LICENSURE, BROKEN DOWN BY THE PERSONNEL CATEGORY FOR WHICH THEY HAVE RECEIVED, OR HAVE THE CREDENTIALS TO RECEIVE, CERTIFICATION OR LICENSURE.

Institutions	Students Enrolled	Employees sponsored by agency and/or RSA	Graduates sponsored by agency and/or RSA	Graduates from the previous year
Jackson State University	20	3	6	7
Mississippi State University	6 (2=1 st year, 4=2 nd year)	0	0	7

2. PLAN FOR RECRUITMENT, PREPARATION AND RETENTION OF QUALIFIED PERSONNEL

The VR Services Portion of the Combined State Plan continues to address the need to recruit and retain qualified staff, including those staff with minority backgrounds and individuals with disabilities.

OHRD encourages managers seeking to hire new counselors to hire only those individuals who meet the requirements of Comprehensive System of Personnel Development (CSPD). If a manager determines there is not a qualified rehabilitation professional available to fill a vacancy, the vacancy may be filled by an individual with lesser qualifications as long as the individual meets the national standards for a Vocational Rehabilitation Counselor.

VR maintains close relationships with universities including minority institutions such as historically black colleges and universities, and disability specific organizations. VR employees collaborate with universities in securing grant funding; invite university employees to help with training and education activities; and provide practicum and internship slots for students. VR acknowledges that it is not able to easily recruit an adequate number of qualified Rehabilitation Counselors to replace those retiring and departing for other reasons. VR is currently engaged in the activities indicated below to address recruitment preparation and retention of counselors.

MDRS staff works closely with the graduate programs in Rehabilitation Counseling at both Mississippi State University and Jackson State University by establishing placement opportunities for intern and practicum students, and actively participating in university career development activities, including participation in Career Days and Job Fairs. Representatives from MDRS meet with the graduate students from each program annually to explain career opportunities and the state employment application process.

VR staff is requested by the university to serve on each program's Advisory Council. VR also designates a Program Coordinator to serve on each program's Advisory Council. Working with Jackson State University provides significant opportunities for recruitment of minorities, and MDRS works closely with university support services on both campuses to recruit graduates with disabilities.

OVR/OVRB Student Practicum/Internship Programs

MDRS-OVR/OVRB has an ongoing working relationship with the Institutions of Higher Learning to provide practicum and internship training to college students. Practicum and internship trainings are coordinated through the OVR/OVRB District or Regional Manager and the designated OVR Program Coordinator. A list of all practicum and internship students will be provided to the MDRS Office of Human Resources Department (HRD) by the OVR Program Coordinator.

In Fall 2021-Spring 2021, VR and VRB had three (3) interns from Jackson State University and six (6) interns from Mississippi State University who were receiving Master of Science degree in Rehabilitation Counseling.

The following procedures are used when arranging student practicum or internship training:

1. Students requesting to participate in a practicum or internship placement with OVR/OVRB must be referred by their college or university's department advisor.
2. The department advisor must contact the designated Program Coordinator to request for student placement at an OVR/OVRB site.
3. The Program Coordinator will provide the department advisor with a Practicum/Intern Application form for the student to complete. The application will be emailed to department advisor within 1-3 business days of initial contact.
4. Once the application is reviewed by the Program Coordinator, the District or Regional Manager at the appropriate site will be notified by the Program Coordinator.
5. Students who are seeking a practicum/internship in rehabilitation counseling or a related field must be assigned to work with a Vocational Rehabilitation Counselor senior or a certified Rehabilitation Counselor.

6. The District or Regional Manager will determine the appropriate MDRS student supervisor for their office.
7. The Program Coordinator and designated MDRS student supervisor will schedule a date and time for an initial interview with student.
8. Upon a contingent internship offer, a background report will be conducted for all potential interns. Intern Students must comply with the agency's policies pertaining to these issues outlined in Section 8.7 Background Reports on New Employees, of the MDRS Policy and Procedures Manual.
9. Once approval has been given, the department advisor and student will be informed of the start date by the Program Coordinator.
10. The student will be required to complete the MDRS Confidentiality Certification Statement form and the Computer Rules and Policy Agreement on the first day they report for training. This form will be returned to the Program Coordinator and a copy of the MDRS Confidentiality document will be given to the student.
11. Upon completion of the practicum/internship training, the MDRS student supervisor will complete the Exit Evaluation for Practicum and Intern Student form. The form shall be submitted to the designated program coordinator. The Program Coordinator will forward the Exit Evaluation form to the HR training department.

3. PERSONNEL STANDARDS

A. STANDARDS THAT ARE CONSISTENT WITH ANY NATIONAL OR STATE-APPROVED OR -RECOGNIZED CERTIFICATION, LICENSING, REGISTRATION, OR OTHER COMPARABLE REQUIREMENTS THAT APPLY TO THE PROFESSION OR DISCIPLINE IN WHICH SUCH PERSONNEL ARE PROVIDING VR SERVICES; AND

There is not a state approved or recognized certification, licensure or registration of Vocational Rehabilitation Counselors. VR in conjunction with the State Rehabilitation Council establish the Certified Rehabilitation Counselor (CRC) educational eligibility requirement as its highest standard. Efforts are made to recruit those who meet the CRC educational eligibility status.

However, if MDRS is unsuccessful in finding enough applicants who meet the highest standards, MDRS will accept and consider qualified those who meet the minimum initial standard for providing Counseling and Guidance services, with an understanding of the needs of individuals with disabilities and a 21st century understanding of the evolving labor market and the attainment of:

- A Bachelor's degree from an accredited university and one year of experience counseling individuals with disabilities, with an understanding of the needs of individuals with disabilities and a 21st century understanding of the evolving labor market. Alternative majors may be considered such as vocational rehabilitation counseling, social work, psychology, disability studies, business administration, human resources, special education, supported employment, customized employment, economics, or another field that reasonably prepares individuals to work with consumers and employers, or attainment of:
- A Master's degree or doctoral degree in a field of student such as vocational rehabilitation counseling, law, social work, psychology, disability studies, business administration, human resources, special education, management, public administration, or another field that reasonably provides competence in the employment sector, in a disability field, or in both business-related and rehabilitation-related fields and from an accredited university in a Social, Behavioral or Rehabilitative Science may substitute for the year of required experience.

Policies and activities to ensure that all professional and paraprofessional personnel receive appropriate and adequate training in terms of a system of staff development as follows:

MDRS is committed to assuring that its personnel are qualified to provide the highest quality of service to its constituents. This commitment is demonstrated through a comprehensive training program which begins with orientation and continues throughout the career of the individual employee. A systematic program of skills-based training provides all programmatic and support personnel with the abilities and tools necessary to deliver quality services. Training activities range from providing staff with information about correct and/or better methods of carrying out assigned jobs to providing staff with new and challenging ideas pertinent to the programs in MDRS.

The Division of Training within the Office of Human Resource Development (OHRD) serves as a centralized unit to plan, implement, and coordinate training activities for all VR and VRB staff.

Educational Assistance - MDRS, within the limits of available funds, is authorized, pursuant to Section 37-101-293 of the Mississippi Code of 1972 Annotated, to grant educational assistance to its employees. Educational assistance may consist of any combination of paid educational leave (full-time or part-time) at a maximum salary to be established by the Mississippi State Personnel Board and/or reimbursement for tuition, books, and related fees for undergraduate or graduate level courses. The purpose of the educational assistance program is to encourage employees to develop job-related skills and to develop employees for higher level professional and management positions. Priorities for awarding educational assistance will be based on the established need within MDRS for staff with the educational credentials being sought and the availability of individuals with those credentials in the relevant applicant pool.

B. THE ESTABLISHMENT AND MAINTENANCE OF EDUCATION AND EXPERIENCE REQUIREMENTS, IN ACCORDANCE WITH SECTION 101(A)(7)(B)(II) OF THE REHABILITATION ACT, TO ENSURE THAT THE PERSONNEL HAVE A 21ST CENTURY UNDERSTANDING OF THE EVOLVING LABOR FORCE AND THE NEEDS OF INDIVIDUALS WITH DISABILITIES.

OVR/OVRB performance development is an on-going, day-to-day process of communication and feedback between the supervisor and employee. The employee assists the supervisor in determining job duties and associated competencies and behavioral anchors during the annual Planning Phase. The supervisor shall provide information to the employee on his/her progress throughout the performance development period (Review and Feedback Phase). The employee is assigned a formal PDS Rating at the end of the appraisal period.

Ensuring that personnel have a 21st-century understanding of the evolving labor force and the needs of individuals with disabilities means that personnel have specialized training and experience that enables them to work effectively with individuals with disabilities to assist them to achieve Competitive Integrated Employment and with employers who hire such individuals. Relevant personnel skills include, but are not limited to:

- Understanding the functional limitations of various disabilities and the vocational implications of functional limitations on employment, especially with regard to individuals whose disabilities may require specialized services or groups of individuals with disabilities who comprise an increasing proportion of the State VR caseloads, such as individuals with traumatic brain injury, post-traumatic stress syndrome, mental illnesses, autism, blindness or deaf-blindness;
- Vocational assessment tools and strategies and the interpretation of vocational assessment results, including, when appropriate, situational and work-based assessments and analysis of transferrable work skills;
- Counseling and guidance skills, including individual and group counseling and career guidance;

- Effective use of practices leading to Competitive Integrated Employment, such as supported employment, customized employment, internships, apprenticeships, paid work experiences, etc.;
- Case management and employment services planning, including familiarity and use of the broad range of disability, employment, and social services programs in the state and local area, such as independent living programs, Social Security work incentives, and the Social Security Administration's Ticket-to-Work program;
- Caseload management, including familiarity with effective caseload management practices and the use of any available automated or information technology resources;
- In-depth knowledge of labor market trends, occupational requirements, and other labor market information that provides information about employers, business practices, and employer personnel needs, such as data provided by the Bureau of Labor Statistics and the Department of Labor's O*NET occupational system;
- The use of labor market information for vocational rehabilitation counseling, vocational planning, and the provision of information to consumers for the purposes of making informed choices, business engagement and business relationships, and job development and job placement;
- The use of labor market information to support building and maintaining relationships with employers and to inform delivery of job development and job placement activities that respond to today's labor market;
- Understanding the effective utilization of rehabilitation technology and job accommodations;
- Training in understanding the provisions of the Americans with Disabilities Act and other employment discrimination and employment-related laws;
- Advocacy skills to modify attitudinal and environmental barriers to employment for individuals with disabilities, including those with the most significant disabilities;
- Skills to address cultural diversity among consumers, particularly affecting workplace settings, including racial and ethnic diversity and generational differences; and
- Understanding confidentiality and ethical standards and practices, especially related to new challenges in use of social media, new partnerships, and data sharing.

Office of Vocational Rehabilitation for the Blind

Current service delivery also includes 17 master level counselors that focus on transition and adults to assist with facilitating clients through the vocational process. VRB has four (4) Orientation and Mobility Specialists throughout the state that work with VRB clients. Three (3) are currently ACVREP certified and one is receiving training in Orientation and Mobility. All VRB Counselors are eligible to take the CRC exam and retain their CRC.

4. STAFF DEVELOPMENT

A. A SYSTEM OF STAFF DEVELOPMENT FOR PROFESSIONALS AND PARAPROFESSIONALS WITHIN THE DESIGNATED STATE UNIT, PARTICULARLY WITH RESPECT TO ASSESSMENT, VOCATIONAL COUNSELING, JOB PLACEMENT, AND REHABILITATION TECHNOLOGY, INCLUDING TRAINING IMPLEMENTED IN COORDINATION WITH ENTITIES CARRYING OUT STATE PROGRAMS UNDER SECTION 4 OF THE ASSISTIVE TECHNOLOGY ACT OF 1998; AND

In recent years, long-term strategies for retraining a Vocational Rehabilitation Counselor or Vocational Evaluator who are not a qualified rehabilitation professional and not currently in a

program are to utilize accessible Rehabilitation Services Administration (RSA) - Comprehensive System of Personnel Development (CSPD) funded stipend programs to the extent possible, since it represents a significant savings to VR. VR has implemented this more aggressive approach in meeting the CSPD standards.

The previous in-service grant was allocated solely to VR CSPD activities. These training grant funds were used to pay tuition and fees to individuals who could not get the coursework through the RSA stipend program, such as those who did not live near the public university or who otherwise could not use the RSA stipend program. The elimination of the in-service training grant to states has severely reduced VR's ability to continue support for these activities. It is not currently clear how much of the Basic VR grant will be available for this support. The HRD has implemented a system to track academic classes taken and progress toward certification eligibility.

Those not funded under a stipend program as funded by RSA CSPD will be sponsored by MDRS at available distance education or web-based Master's Programs in Rehabilitation Counseling such as those available through Auburn University, the University of Kentucky, the University of Wisconsin, Southern University, and the Georgia State University Consortium. Employees who live within commuting distance of Jackson State University and Mississippi State University can access these universities' campus-based programs.

Employees sponsored by the agency in graduate training are eligible for reimbursement of tuition, book costs, and approved educational leave. State statute requires that the employee enter a contractual agreement with MDRS for service repayment. MDRS requires three years of continued employment in return for expense reimbursement and educational leave.

Additionally, MDRS has created a job classification for Rehabilitation Counselors which requires certification as a professional Rehabilitation Counselor plus two years of Rehabilitation Counseling experience. Promotion to this highest of four counselor salary levels provides an additional incentive for personnel to obtain a Master's Degree and to attain certification. Upon attainment of the Master's Degree in Rehabilitation Counseling or certification in Rehabilitation Counseling, the employee may also be eligible for an educational salary benchmark of five percent.

The current salary for Vocational Rehabilitation Counselors in Mississippi remains below that of other southeastern states. In State Fiscal Year 1999, MDRS was successful in its efforts to gain approval by the Mississippi State Legislature and the Mississippi State Personnel Board to raise the entry-level salary for counselors and evaluators to successfully attract *qualified* personnel.

In January 2003, July 2006, July 2007, and July 2019, the salaries of Vocational Rehabilitation Counselors and Vocational Evaluators were realigned. Following a survey of the southeastern average, the salaries remain lower than that of neighboring states. In December 2015, MDRS was successful in its efforts to gain approval by the Mississippi State Personnel Board to include a new classification for counselors and evaluators possessing a CRC or CVE. This new classification increased the salary for qualified employees.

MDRS has established educational requirements of a Master's Degree in Rehabilitation Counseling with a continuing education component to address these issues.

Core Curriculum

In order to ensure that staff maintains a 21st century knowledge for working with individuals with disabilities, the Core Curriculum series will be provided annually for all Vocational Rehabilitation Counselors and Vocational Evaluators. This training program provides a structured introduction to the Mississippi Vocational Rehabilitation Program presented at the State Office and/or via webinar in two to three day training sessions conducted over the course of a year.

Core Curriculum includes modules on the history and law affecting rehabilitation; program policies; medical and psychological aspects of disability; Accessible Automated Case Environment (the Agency's computerized case management system); counseling theories; job development and job placement; assistive technology; vocational assessment and various commercial evaluation systems utilized by the Agency's CRPs (for Vocational Evaluators); and training on disability-specific issues such as autism, blindness, deafness, etc.

Annual Ongoing Staff Development Training Sessions

Although there has been an emphasis on assisting counselors meet the CSPD standards and developing the technical, managerial and leadership skills of supervisors and managers, VR provides ongoing staff development training to employees at every level.

Ongoing staff development training can include a variety of topics but, generally, include the following:

- Disability-Specific Topics
- Case Management
- Eligibility
- Individualized Plan for Employment (IPE) Development
- Various Types of Caseloads including Supported Employment and Transition
- Issues Regarding Work with Minority Populations, including Cultural Diversity
- WIOA Pre-Employment Transition Services - Customized Integrated Employment
- Other Areas Identified during Case Reviews conducted by MDRS Program Evaluation Staff

Additional Training Based on Need

VR offers individual training allocations for staff members. This allocation can be used for job related professional development activities such as attending conferences, purchasing books, CDs, DVDs or other materials, taking online short courses or any other approved professional development activity. Supervisory approval is required for these professional development activities to ensure that employees participate in activities consistent with their individual needs and job responsibilities and requirements. Our HRD provides consultation and technical assistance to VR employees as needed. Training sessions are held at the district level and in formal statewide training as needed.

In order to address the increasing percentage of retirement eligible employees and the need for knowledgeable managers and supervisors, the MDRS Executive Team established a formal leadership development program. This program, known as Leadership, Education, and Development for Rehabilitation Services (LEADRS), addresses the future loss of institutional memory and the transfer of accumulated wisdom through its development of employee management skills and technical competencies. LEADRS' mission is, *"To educate, develop, and empower current and future leaders of MDRS to sustain and enhance the Department's holistic approach in meeting the needs of Mississippians with disabilities"*.

MDRS also promotes capacity building and leadership development through supervisory staff's participation in a Basic Supervisory Course and the Certified Public Manager Program available through the Mississippi State Personnel Board, and In-service Supervisor Training available through MDRS. In addition, staff members have participated in the National Executive Leadership Program at the University of Oklahoma; the National Rehabilitation Leadership Institute at San Diego State University; the Community Rehabilitation Program Leadership

Development Program and the Institute for New Supervisors through Georgia State University; the John C. Stennis State Executive Development Institute at Mississippi State University; and the South Central Public Health Leadership Institute at the Tulane School of Public Health and Tropical Medicine. The staff development plan is based upon the assessed needs of the staff.

The Performance Development System (PDS) was developed by the Mississippi State Personnel Board in November 2010 to replace the previous Performance Appraisal System and is applicable to all state service employees to evaluate employee performance.

Also incorporated into the employee evaluation process is the employee's Individual Development Plan (IDP), which serves as an employee training needs assessment. IDPs are developed by the employee and evaluated by the supervisor to assure that the employee receives work-related training and training in other areas that the employee and supervisor agree will benefit the employee's performance.

The system of employee performance evaluation does not impede the accomplishment of specific mandates contained in Title I of the Rehabilitation Act. The system facilitates accomplishment by means of including in performance standards the responsibilities of MDRS and its employees under the Rehabilitation Act.

Information from case reviews conducted by the MDRS Program Evaluation Unit is analyzed to evaluate the knowledge and skill of employees as they relate to the policy of serving individuals with the most severe disabilities. Results of such evaluations are included in the development of objectives for the annual VR training plan. Information from annual client surveys is also used in determining training objectives and is incorporated into the VR training plan.

B. PROCEDURES FOR THE ACQUISITION AND DISSEMINATION OF SIGNIFICANT KNOWLEDGE FROM RESEARCH AND OTHER SOURCES TO DESIGNATED STATE UNIT PROFESSIONALS AND PARAPROFESSIONALS.

MDRS continues to identify current information from research, rehabilitation trends and professional resources. This information is provided to agency staff through a variety of methods, including training at the state, regional, and district levels. Recently, this training has been focused on Autism and Customized Employment. Additionally, this information is posted and available to staff on MDRS Connect, the agency intranet.

Information is provided to staff via email and posted on the MDRS agency intranet (Connect). Information regarding current trends, disabilities and tools to use to assist the Counselors and staff in performing their duties and providing quality services to individuals with disabilities is disseminated via Connect.

VR program staff is required to provide staff with and post current information regarding their program areas for staff usage.

5. PERSONNEL TO ADDRESS INDIVIDUAL COMMUNICATION NEEDS

VR staff works with Mississippi's diverse populations. One way VR does this is to actively recruit and support employees who have diverse backgrounds. When a counselor is unable to communicate directly with a customer in his/her preferred language, the agency has qualified interpreters or translators on staff.

Due to the increasing Hispanic population, qualified interpreters are contracted on an as needed basis for individuals who are Spanish speakers. VR has established fees for foreign language interpreters which may be authorized and paid by counselors when the need for their services occurs to provide rehabilitation services to non-English speaking individuals.

American Sign Language interpretation needs, for those who are Deaf or Deaf-Blind, are met using a combination of employee positions and arrangements with qualified local interpreter service providers. MDRS employs eight qualified sign language interpreters for the ten districts that comprise the Office of Vocational Rehabilitation. The Office on Deaf and Hard of Hearing also employs one qualified sign language interpreter who is available to provide interpreter services.

VR has assisted listening devices in most offices for MDRS employees to communicate with individuals who are hard of hearing or late-deafened and do not know sign language. VR complies with the Americans with Disabilities Act by providing materials in braille or large print, through having qualified sign language interpreters, and offering text-based communication access. VR arranges for Foreign Language Translators when needed.

VRB Counselors participate in specialized in-service quarterly training and in-service training provided through the MDRS Assistive Technology Division which includes training on communication skills for individuals who are Blind or Deaf-Blind. Materials are available in braille and other accessible formats, as requested by consumers.

MDRS-VR requires that all VR Counselors for the Deaf achieve and maintain basic proficiency in American Sign Language. VR coordinates with post-secondary educational consortiums to provide proficiency testing of manual communication skills. Specialized training in deafness-related areas is provided for new counselors in the Deaf Program as well as quarterly training for all VR Counselors for the Deaf and Sign Language Interpreters.

6. COORDINATION OF PERSONNEL DEVELOPMENT UNDER THE INDIVIDUALS WITH DISABILITIES EDUCATION ACT

Mississippi VR and VRB programs have an established partnership with the Mississippi Department of Education/Office of Special Education including an executed Interagency Agreement (IA). A new IA has been developed to comply with required content elements of WIOA.

VR and VRB have operationalized the Transition and Youth Services Program and have continued to work on improving the quality of those services. To support this, additional staff will be hired to help coordinate, plan and provide services to students with disabilities, coordinate and plan with local education agencies, and to work with district staff.

J. STATEWIDE ASSESSMENT

1. PROVIDE AN ASSESSMENT OF THE REHABILITATION NEEDS OF INDIVIDUALS WITH DISABILITIES RESIDING WITHIN THE STATE, PARTICULARLY THE VR SERVICES NEEDS OF THOSE:

A. WITH THE MOST SIGNIFICANT DISABILITIES, INCLUDING THEIR NEED FOR SUPPORTED EMPLOYMENT SERVICES;

MDRS-OVR/OVRB and the Mississippi State Rehabilitation Council (SRC) completed the *2018 Comprehensive Needs Assessment*. The 2018 assessment was completed in February 2019. The information obtained from the assessment, is used to assist in determining the needs of individuals with disabilities who reside in the state of Mississippi. MDRS-OVR/OVRB contracted with Public Consulting Group (PCG) and conducted a comprehensive statewide assessment in 2020. Results of the 2020 assessment were completed in June of 2021. The results of both assessments were used to provide an overall assessment of the rehabilitation needs of individuals residing in the state for State Plan Year 2020 - 2023.

The CSNA seeks to effectively assess OVR and OVRB consumer needs in order to inform OVR and OVRB future policy and decision-making so they can best serve their consumers and meet their rehabilitation needs. During the COVID-19 crisis, many individuals and their families continued to rely on these important services being provided by OVR/OVRB through phone calls, emails and letters in order to limit person-to-person contact to best protect both employees and individuals receiving services.

During 2020, as a result of the numerous confirmed cases of the COVID-19 in Mississippi, OVR/OVRB made the decision to restrict and/or provide limited public access to all OVR/OVRB offices across the state. OVR/OVRB continued to provide the same individualized services, just in a different way. OVR/OVRB maintains a web page at <https://www.mdrs.ms.gov/Pages/COVID-19-MDRS-Update.aspx> to provide relevant updates, resources and web links.

While OVR/OVRB took measures to support the safety of both staff and supported individuals, the work continued. During this time, OVR/OVRB:

- Received 7,604 applications
- Determined eligibility for 6,127 individuals
- Developed 5,533 IPEs

Throughout the CSNA, OVR and OVRB have the opportunity to continue momentum forward to leverage forward thinking and continue improving services and outcomes for individuals with disabilities.

The publicly available data sources were utilized to make population level estimates and statements about the population of Mississippi and the population of individuals with disabilities. Multiple data sources were utilized to develop the analysis and recommendations. Information was collected from various data sources many of which were existing data sources.

In addition, data was captured and utilized from the 2018 U.S. Census Bureau/ACS reporting and the AACE Case Management System.

Based on the results of this assessment and information generated from our AACE Case Management system, it is projected that number of individuals with significant disabilities and the number of individuals that need Supported Employment (SE) services will increase in FY 2020–2023.

Population Demographics – Disability by Age Compared to Mississippi Disabled Population (ACS, 2019)

OVR/OVRB Potential Service Population represents individuals with disabilities who could be, but are not currently, served by OVR. Individuals are considered part of the service population if they are:

1. Currently unemployed (in the labor force, but do not have a job)
2. Not receiving OVR services

To calculate the potential service population, individuals currently using OVR are removed from the population of unemployed individuals with a disability:

Unemployed individuals with a disability – Current OVR Cases Not Employed = potentially unserved individuals

OVR Potential Service Population: Number of unemployed individuals with a disability 13,028 (from the 2019 ACS one-year estimates) and subtracts the OVR currently opened OVR

caseload of 6,793 to arrive at a total of 6,235 number of an additional potentially unserved individuals. (REF CSNA).

To calculate the potential service population, individuals currently using OVRB are removed from the population of unemployed individuals with a disability:

Unemployed individuals with a disability – Current OVRB Cases Not Employed = potentially unserved individuals

OVRB Potential Service Population: Number of unemployed individuals with a visual disability 4,526 (from the 2019 ACS one-year estimates) and subtracts the OVRB currently opened caseload not employed of 1,070 to arrive at a total of 3,456 number of potentially unserved individuals (REF CSNA).

The 2018 Comprehensive Needs Assessment and the 2021 Comprehensive Needs Assessment both identified the following service needs that continue to recur across both assessments related to the needs of individuals with the most significant disabilities, including the need for supported employment.

Based on the results of this assessment, it is projected that in FY 2020–2023, the specific service needs identified are:

- Provide VR staff training in multicultural awareness and develop awareness of staff of socio-economic issues that may interfere with a person's ability to stay engaged in the VR process
- Vocational Rehabilitation Counseling and Guidance
- College/vocational training, work experience training, on-the-job training and social skills training
- Job Search/Placement Services
- Vocational Assessment/Evaluation
- Transportation
- Develop resources and tools to be able to communicate with individuals who are Spanish speaking
- Increase outreach and availability of VR Services in areas of the state with the largest populations of African American, Hispanic populations and Asian populations
- VR and VRB collaborate with minority businesses and service providers that are located in the community to develop relationships that lead to employment
- MDRS and the Mississippi Band of Choctaw Indians work together to help ensure that eligible Choctaw Indians' services are coordinated to provide comprehensive VR services that will lead to employment outcomes
- Additional staff training and service provider training needed to serve the increasing number of individuals with significant mental health impairments
- Work adjustment training for individuals who have Autism and other impairments who need social skills training
- Since the number of individuals in the state working in subminimum wage employment continues to decrease, OVR/OVRB and its network of providers need to ensure ongoing capacity to meet the demand by further developing capacity to provide supported and customized employment services

- Structured Discovery Training for individuals with blindness and other visual impairments
- OVR consumers, staff, and community partners all cited additional benefits, resources for individuals with disabilities, education and training funding, more money/higher income and potential loss of benefits as some of the highest financial needs.

B. WHO ARE MINORITIES;

In comparison to population estimates, OVR reaches a proportionate number of individuals with disabilities who are minorities. According to OVR staff, the greatest needs of unserved/underserved minority individuals were outreach on the availability of services followed by more services focused on their communities.

POPULATION DEMOGRAPHICS – ETHNICITY STATISTICS

OVR statistical data displays the OVR population by ethnicity and reflects that the two largest ethnic groups represented in this sample are White (representing 60.3%) and Black or African American representing 37.1%. Multiple races accounted for 1.6% of the population, followed by American Indian or Alaska Native and Asian ethnic groups representing less than one percent each of the sample.

OVR PARTICIPANT POPULATION BY RACE*

Race/Ethnicity	ACS % of Total - 2019
American Indian or Alaska Native	0.5%
Asian	0.4%
Black or African American	37.1%
Native Hawaiian or Pacific Islander	-
White	60.3%
Multiple Races/Other	1.6%

Statistical data shows a breakdown of the **OVR** population compared to ACS totals for 2019. Non-Hispanic ethnic groups have a slightly higher representation (2.9%) than the ACS totals, and Hispanic or Latino groups have a slightly lower representation (at 0.1%) than the ACS average of 3.5%.

OVR PARTICIPANT POPULATION COMPARED TO MS POPULATION BY ETHNICITY*

Ethnicity	ACS % of Total - 2019
Hispanic or Latino	3.5%
Non-Hispanic	96.5%
Unsure	-

OVRB statistical data displays the OVRB population by ethnicity and data displays that the two largest ethnic groups represented in this sample are Black or African American (representing 51.7%) followed by White (representing 46.9%). The ethnic group Asian represents 0.6% of the population. When compared to ACS 2019 totals, the ethnic groups African American and Asian are overrepresented, and White, Multiple races/other, and American Indian or Alaska Native are underrepresented.

OVRB PARTICIPANT POPULATION BY RACE*

Race/Ethnicity	ACS % of Total - 2019
American Indian or Alaska Native	0.5%
Asian	0.4%
Black or African American	37.1%
Native Hawaiian or Pacific Islander	-
White	60.3%
Multiple Races/Other	1.6%

The statistical data displays a breakdown of the **OVRB** population by ethnicity compared to *ACS totals for 2019*. The Non-Hispanic ethnic group has a slightly higher representation (3%) compared to ACS totals. The Hispanic or Latino group is not represented in VRB totals vs. the ACS average of 3.5% percent.

OVRB PARTICIPANT POPULATION BY ETHNICITY

Ethnicity	ACS % of Total - 2019
Hispanic or Latino	3.5%
Non-Hispanic	96.5%
Unsure	-

- OVRB could consider expanding outreach to American Indian or Alaska Native, Native Hawaiian or Pacific Islander, multiple races, and Hispanic and Latino groups to educate different cultures about available OVRB services, focusing more services on these communities, and increasing community access to OVRB offices.

**Source (Population by Race/Ethnicity): PCG relied on publicly available data sources to make population level estimates and statements about the population of Mississippi and the population of individuals with disabilities. The source of this secondary data is the American Community Survey (ACS). The ACS is the largest on-going data collection performed by the US Census Bureau and constitutes the most up-to-date and complete data on US residents. It is widely used by private and public entities to understand the population. The Rehabilitation Services Administration suggests the ACS as a resource for agencies to rely on for the CSNA process. PCG used ACS 1-year estimates in this document. The 1-year estimates report on the results of a single year of ACS surveys, with data weighted to reflect the population at that point in time. The identical percentages for OVR and OVRB are correct because used ACS Mississippi data as a baseline for both OVR and OVRB, and the ACS data does not distinguish between blind/not blind disabilities.*

Based on AACE Case Management and RSA Data dashboard information for 2019–2020 and 2020–2021, VR/VRB Participant Population by Race and Ethnicity is as follows:

Participant Population by Race and Ethnicity (2020 – 2021)	Q1	Q2	Q3	Q4
American Indian/Alaska Native	64	67	60	55
Asian	41	45	49	51

Participant Population by Race and Ethnicity (2020 – 2021)	Q1	Q2	Q3	Q4
Black/African American	3,374	3,089	3,169	3,129
Native Hawaiian/Pacific Islander	10	12	13	12
White	4,216	4,095	4,180	4,009
Hispanic/Latino	102	93	99	103
Multiple Races	176	76	75	70

Participant Population by Race and Ethnicity (2019 – 2020)	Q1	Q2	Q3	Q4
American Indian/Alaska Native	1.1%	83	80	70
Asian	0.5%	37	39	42
Black/African American	43.4%	3,299	3,477	3,327
Native Hawaiian/Pacific Islander	0.2%	13	9	8
White	55.8%	4,312	4,523	4,235
Hispanic/Latino	1.2%	97	105	100
Multiple Races	2.5%	190	195	179

According to AACE Case Management System, the follow age groups with disabilities were served by VR/VRB for 2019-2020 and 2020-2021.

Age (2020-2021)	Q1	Q2	Q3	Q4
0 – 15	11	12	14	13
16 – 18	1,480	1,139	1,274	1,323
19 – 24	1,249	1,255	1,259	1,263
25 – 44	1,857	1,783	1,789	1,708
45 – 54	1,158	1,151	1,134	1,104
55 – 59	684	700	702	682
60+	1,192	1,197	1,230	1,103

Age (2019-2020)	Q1	Q2	Q3	Q4
------------------------	-----------	-----------	-----------	-----------

Age (2019-2020)	Q1	Q2	Q3	Q4
0 – 15	0.1%	6	8	10
16 – 18	17.5%	1,344	1,420	1,485
19 – 24	14.9%	1,138	1,202	1,188
25 – 44	27.6%	2,080	2,127	1,871
45 – 54	15.3%	1,173	1,223	1,134
55 – 59	8.8%	695	751	692
60+	15.5%	1,214	1,303	1,218

Specific service needs identified for FFY 2020–2023 include:

- Increased the outreach activities to assist in creating awareness of available services to meet the needs of individuals in the African American, Asian, Hispanic and Latino communities.
- Transition aged - Youth need to have work experience to put on job applications and to assist in learning soft skills.
- Students as they enter post high school need peer mentors to encourage them (a mentor they can relate to and feel comfortable with).
- Outreach to 504 students and those with physical disabilities.
- Although data indicates that individuals with Mental Illness, Deaf, Intellectual Disabilities and Visual Impairments apply for VR/VRB Services, data supports that individuals with these impairments are less likely to obtain Competitive Integrated Employment and earn living wages.
- A better understanding of available VR services.
- Increase collaboration with the Choctaw Indian Vocational Rehabilitation entity to target services that are not provided by Choctaw VR to assist in increasing employment in the community.
- VR Counseling and Guidance to assist Career Exploration to obtain access to services that will provide support in employment with competitive wages.
- Continue outreach activities, Career Counseling, and Information Services to combine the needs of students with intellectual and developmental disabilities and those that might have been previously referred from schools to subminimum wage facilities /segregated facilities, rather than VR for career and employment services.
- Transition Students – Increase awareness of VR services to transition students with disabilities. Often times, transition students and their families do not recognize the importance of early VR involvement. This need is based on the difficulties VR staff has had in obtaining parental response to services. Because of this, some students continue to exit high school without VR services and have little success in enrolling in training and education opportunities.
- Assist in providing training to staff on the service delivery for Students with Autism Spectrum Disorders. VR Program has a dedicated to work with staff to enhance the delivery of VR Services that will ultimately improve the employment outcome for individuals with Autism Spectrum Disorder.

- Individual with Mental Illness - Because of the lack of long-term success VR has had with individuals with Serious Mental Illness, VR has entered into a Cooperative Agreement with the Department of Mental Health to provide VR Services to individuals that have been determined to need VR employment services, including Supported Employment.
- OVR/OVRB will conduct a separate needs assessment for the Hispanic/Latino population in Mississippi with disabilities to help gather more information regarding their vocational rehabilitation service needs.
- OVR/OVRB will continue to monitor the ACS survey for the most recent data regarding the race and ethnicity per county to remain informed of target areas in which information should be disseminated. OVR/OVRB will also continue to provide outreach to other minority populations to ensure they have information regarding the VR program.
- Benefits Planning and Counseling.
- VR and VRB will continue to monitor the ratio of minority service rate to non-minority service rate to ensure that we are meeting the needs of individuals with disabilities in the state that are underserved and unserved.
- Vocational Rehabilitation Counseling and Guidance.
- Transportation.
- VR and VRB collaborate with minority businesses and service providers that are located in the community in order to develop relationships that lead to employment.
- OVR/OVRB and the Mississippi Band of Choctaw Indians work together to help ensure that eligible Choctaw Indians' services are coordinated in order to provide comprehensive VR services that will lead to employment outcomes.
- Additional staff training and service provider training needed to serve the increasing number of individuals with significant mental health impairments.
- Alternative training for individuals with blindness and other visual impairments such as Structured Discovery Training.
- Explore opportunities to reduce overall successful closures and employment wage income racial groups that have been identified in the CSNA as underserved.

C. WHO HAVE BEEN UNSERVED OR UNDERSERVED BY THE VR PROGRAM;

The CSNA results indicate that there may be several underserved groups. We identified disparities in outcomes for individuals with most significant disabilities and individuals who are racial and ethnic minorities. These populations (African American or Black, American Indian and Alaskan Native) experience lower rates of success in services and earn lower hourly wages compared to their peers in other groups.

OVR/OVRB will explore opportunities to reduce overall successful closure and employment wage income by:

- Learning more about the causes of disparities for individuals who are minorities and those who are most significantly disabled
- Realigning resources and supports to address the needs of these priority populations
- Exploring additional resources that may be needed to address barriers, increase work skills, and provide support

- Developing performance measures to monitor outcomes of priority populations

Specific disabilities that were identified as being underserved:

- Individuals with autism
- Individuals with intellectual and developmental disabilities
- Individuals with mental health disabilities
- Individuals with vision loss

D. WHO HAVE BEEN SERVED THROUGH OTHER COMPONENTS OF THE STATEWIDE WORKFORCE DEVELOPMENT SYSTEM; AND

As part of the *2018 Comprehensive Needs Assessment*, a survey question asked participants if they have utilized the state's Workforce Investment Network (WIN) for assistance with finding a job or for receiving job training services. The Workforce Investment Network (WIN) Job Centers are service centers that offer programs and resources geared toward job seeking and are partners in the American Job Center Network. WIN is an innovative strategy designed to provide convenient, One-Stop employment and training services to employers and individuals searching for a job. Combining federal, state, and community workforce programs and services, it is WIN's goal to create a system that is both convenient and user-friendly.

Survey results indicated 45% of respondents used the WIN Job Center for job search assistance, job training information and interview tips. However, only 73% of clients who used the service felt comfortable with the assistance they received and indicated they believed services could be better.

VR will increase partnerships with the statewide Workforce Investment Network system to develop innovative programs to serve common customers. With our collaboration and integration efforts thus far we have been successful in implementing a common intake process, anticipating having a Hub where workforce partners can access information for common clients and all VR clients have the Workforce ID which is consistent throughout all programs.

All partner agencies completed their separate intake forms with new customers. In each of these separate forms, however, there are six diagnostic questions that are the same on all forms and multiple demographic fields that are shared between partners (Intake). These data elements are automatically uploaded into the Hub - or auto filled - if the unique identifier matches a profile that already exists in the Hub.

The WIOA Hub software development was released and launched into the production environment on May 23, 2017. The other partners came on board between January 2018 and June 2018. Once other partners went live in the Hub, MDRS began receiving ad-hoc referrals from them through the Hub directly into MDRS' case management system. Ad-hoc referrals are referrals from workforce partner agency consumers who answered yes to question two of the six diagnostic questions, which is "Do you have difficulty with seeing, hearing, talking, using your hands, getting around (mobility), interacting with others, learning, or thinking that make it difficult for you to get or keep a job?"

In the future, the PIRL for the State of Mississippi will be created through the Hub. If data in these areas is different from the information that was previously in the profile, this information will be updated with that from the most recent entry. The initial version of the Hub was completed in June 2017. MDRS has been sending data to the Hub since that time and was the first partner to go live.

MDRS and other state partners are now all live in the Hub. Referrals can be made by any one of the partner agencies and based on how the individual answers the questions, ad-hoc referrals

will be sent to other partner agencies through the Hub. MDRS's case management system pulls ad-hoc referrals in from the Hub each night and they are marked as Workforce Referrals. July 1, 2020–December 31, 2021, MDRS received 14,734 ad-hoc referrals from Workforce Partners. They are then worked by OVR/OVRB staff where the individual is contacted to determine if they are potential candidates for services provided by OVR/OVRB.

In 2019, OVR/OVRB received Technical Assistance and worked with WINTAC on strategies to help improve service integration with Core Partners. Work teams were held in Greenville and Belden Workforce offices. Efforts were made and are still being made to improve co-enrollment and service integration. The challenge – although connection was made with the two work teams in both Belden and Greenville and information was gained on what they are currently doing in the areas of career pathways, front-end services and business engagement the process was stymied by an inability to connect with local leadership with reduced travel due to COVID-19.

VR will continue to participate and assist in providing ongoing training of job center staff on disability sensitivity issues. Efforts to coordinate various government agencies with very different rules and expectations for participation continue. An individual facing parenting responsibilities, poverty, and disability issues needs to work with agencies that can coordinate their efforts.

E. WHO ARE YOUTH WITH DISABILITIES AND STUDENTS WITH DISABILITIES, INCLUDING, AS APPROPRIATE, THEIR NEED FOR PRE-EMPLOYMENT TRANSITION SERVICES OR OTHER TRANSITION SERVICES.

OVR/OVRB has committed considerable time and resources into developing services for youth and students with disabilities. Significant progress has been made in the last two (2) years. The COVID-19 pandemic played a significant role in OVR/OVRB's ability to access and provide services to students at the same rate prior to COVID-19. Steps are being made and are continuing to be made in increasing the methods used to deliver services virtually. Also, due to the effects that COVID-19 had on accessing students with disabilities, OVR/OVRB will continue to incorporate the results of the *2018 Comprehensive Needs Assessment* of students and youth with disabilities, ages 14-24, to determine the rehabilitation needs, including the need for Pre-Employment Transition Services (Pre-ETS).

During PY 2019-2021, OVR/OVRB was impacted significantly in our ability to access and provide services to students with disabilities due the impact of COVID-19.

Youth and Students with Disabilities

According to the *2017 American Community Survey*, 36,422 or 7.6% youth in the state have a disability and 442,700 or 92.4%, youth in the state do not have a disability.

According to the *2017 American Community Survey*, the *Distribution of Disabled Youth in Mississippi by Disability Type* are: any disability 36,422/100.0%; cognitive difficulty only 12,595 or 34.6%; ambulatory difficulty only 856 or 2.4%; independent living difficulty only 2,114 or 5.8%; self-care difficulty only 759 or 2.1%; vision difficulty only 5,284 or 14.5%; hearing difficulty only 1,575 or 4.3%; and two or more disabilities 13,239 or 36.3%.

The Mississippi Department of Education reports over 21,000 students with disabilities.

According to the 2017 American Community Survey, the characteristics of Mississippi Youth and Students by Disability Status:

	Disabled		Non-Disabled	
--	----------	--	--------------	--

	Disabled		Non-Disabled	
Characteristic	N	%	N	%
Average Age	19.1	---	18.9	---
Gender				
Male	22,865	62.8	225,926	51.0
Female	13,557	37.2	216,774	49.0
Race				
White	16,665	45.8	230,365	52.0
Black	17,868	49.1	192,331	43.4
American Indian/Alaskan Native	278	0.8	1,475	0.3
Asian/Pacific Islander	594	1.6	4,299	1.0
From Multiple Races	950	2.6	6,223	1.4
Other	67	0.2	8,007	1.8
Hispanic Status				
Hispanic	1,907	5.2	19,392	4.4
Not Hispanic	34,515	94.8	423,308	95.6
Educational-Workforce Status (Age 16-24)				
Enrolled in school	11,953	39.5	227,113	62.3
Not enrolled in school, employed	4,979	16.5	86,125	23.6
Not enrolled in school, unemployed	1,821	6.0	14,932	4.1
Not enrolled in school, not in labor force	11,506	38.0	36,467	10.0

2019 Comprehensive Needs Assessment for Students and Youth with Disabilities

In 2019, OVR/OVRB conducted a *Comprehensive Needs Assessment* of students and youth with disabilities, ages 14-24, to determine the rehabilitation needs, including the need for Pre-Employment Transition Services (Pre-ETS).

Results are as follows:

Age Range

- 13.64% - age 22-24

- 42.42% - age 19-21
- 43.94% - age 16-18
- There were no responses from individuals 14-15 years old.

Gender

- 56% - male
- 44% - female

Race/Ethnicity

- 2.27% - American Indian or Native Alaskan
- .76% - Asian
- 76.52% - Black or African American
- 18.94% - White
- 3.03% - Multiple races
- 1.52% - Other

Education Level

60.61% of respondents were in the 11th-12th grade. The table below provides a breakdown of the educational level of all respondents.

Based on the 2018 Comprehensive Statewide Assessment Survey, the current level of education responses are:

Current Level of education:	%
7-8 th Grade	1.52%
9 th -10 th Grade	5.30%
11 th -12 th Grade	60.61%
College or Training Prog.	22.73%
Not in School	12.88%

Pre-ETS services are made available by the counselor and Pre-ETS providers to all eligible and potentially eligible students with disabilities. This survey assessed the need for the provision of Pre-ETS for students with disabilities in the state of Mississippi (results below).

Based on the AACE Case Management information and RSA information, the following students received Pre-Employment Transition Services.

Provision of Pre-Employment Transition Services:

2020 - 2021	Q1	Q2	Q3	Q4	2019	Q1	Q2	Q3	Q4
Job Exploration Counseling	263	0	560	1,198		1,049	1,600	2,141	860
Work Based Learning	106	173	277	774		382	668	739	198

2020 - 2021	Q1	Q2	Q3	Q4	2019	Q1	Q2	Q3	Q4
Experiences									
Counseling and Enrollment Opportunities	56	62	379	717		574	842	1,136	537
Work Readiness Training	192	282	589	1,505		789	1,273	1,695	713
Instruction in Self Advocacy	222	362	641	1,651		814	1,548	1,918	903

The following data shows the number of students who received Pre-ETS per quarter.

Students with Disabilities Receiving Pre-ETS:

2020 - 2021	Q1	Q2	Q3	Q4
Number of Students with Disabilities Reported	1,234	1,300	1,684	2,160
Number receiving Pre-ETS	389	491	1,075	1,445
Number receiving Pre-ETS who are Potentially Eligible	257	358	634	782
Number receiving Pre-ETS who applied	132	133	441	663

Students with Disabilities Receiving Pre-ETS:

2019 - 2020	Q1	Q2	Q3	Q4
Number of Students with Disabilities Reported	2,271	2,784	3,180	2,114
Number receiving Pre-ETS	1,488	2,130	2,559	1,218
Number receiving Pre-ETS who are Potentially Eligible	634	1,239	1,517	640
Number receiving Pre-ETS who applied	854	891	1,042	578

Pre-Employment Transition Services (Pre-ETS)

In July 2014, the Workforce Innovation and Opportunity Act (WIOA) was signed into law. WIOA requires a vocational rehabilitation (VR) agency to reserve at least fifteen percent (15%) of their federal funds to make available, in coordination with local education agencies, and the provision of Pre-ETS to students with disabilities statewide who are eligible or potentially eligible in accordance with Section 361.48 of the federal regulations and 113 of the Rehabilitation Act of 1973, as amended.

Pre-ETS are specific services that are only available to students with disabilities to ensure they have meaningful opportunities to receive training and other services necessary to achieve employment outcomes in Competitive Integrated Employment. These services are designed to help students with disabilities begin to identify career interests that can be explored further through additional OVR/OVRB transition services.

Based on the *Comprehensive Needs Assessment* for Disabled Youth in Mississippi, 54.5% of respondents were enrolled in a school or college at the time of the survey. At the time of the survey, 10% were in grades 7-11, 25.5% were in grade 12, 7.3% were enrolled in a vocational or certification program, 33.6% were enrolled in a community college, and 23.6% were enrolled in a four-year university. By far, the most common level of education accounted for 59.3% of all respondents, was a high school diploma but no additional education. Relatively sizable shares of respondents also completed the 12th grade without earning a diploma (17.6%) and gained some college experience but no college degree (8.8%).

For the remainder of this State Plan in year 2022-2023, OVR/OVRB will continue to address the rehabilitation needs of students and youth with disabilities to ensure that students received Pre-ETS.

Transportation is a major barrier for students and their ability to access work opportunities. The following have been identified as major needs for students with disabilities:

- Work-based learning experiences
- Training in self-advocacy
- Additional classes for people interested in work
- Career exploration

2. IDENTIFY THE NEED TO ESTABLISH, DEVELOP, OR IMPROVE COMMUNITY REHABILITATION PROGRAMS WITHIN THE STATE; AND

Community Rehabilitation Programs (CRP) in Mississippi provide an array of services to adults, students and youth that will assist them in achieving Competitive Integrated Employment.

Community Rehabilitation Programs to Provide Pre-ETS

According to the CSNA 2021, when considering the number and capacity of Pre-ETS providers, it is important to recognize that providers are one component of OVR Pre-ETS delivery. Given the successes reported by some Pre-ETS providers, they can be part of the solution to addressing unmet needs of youth with disabilities. OVR acknowledges that third party vendors continue to be part of the solution as they evaluate opportunities to enhance and advance opportunities for students with disabilities.

CSNA results indicate that there is a need for continued expansion of Pre-ETS, with an emphasis in work-based learning and self-advocacy. Research indicates that participation in work-based learning experiences prior to exiting high school are 4.5 times more likely to be employed after high school.

In 2017, VR recognized the need to establish and develop more relationships with providers/CRPs to assist in providing Pre-ETS. In 2017 and early 2018, Request for Proposals were advertised. In 2018, the agency is hoping to have developed more CRPs to provide such services.

In 2021-2023, thirteen (13) new Pre-ETS providers have cooperative agreements to provide these services to potentially eligible and eligible students with disabilities: Wesson-Monroe,

LLC, Public Consultant Group, Inc., Mississippi Prison Industries Corporation, University of Southern Mississippi-ToTAL, National Federation for the Blind-Peer Mentoring, LIFE of Mississippi, Vocational & Rehabilitation Consultants, LLC, T.K. Martin at Mississippi State University, The ARC of Mississippi, Jobs for Mississippi Graduates, Inc., Career Development & Training Institute, Transition Workforce, Inc., and Mississippi State University-Disability Support Services .

AbilityWorks, Inc.

The Mississippi Department of Rehabilitation Services, through the Office of Vocational Rehabilitation, operates 15 transitional rehabilitation community facilities referred to as AbilityWorks.

AbilityWorks, Inc., a network of Community Rehabilitation Programs (CRPs), provides vocational assessment, work evaluation, work adjustment training, and Community-Based Work Experience for VR consumers. This is possible through a wide array of contract and subcontract services provided to local businesses and industry. It is a division of MDRS and with 15 locations statewide. AbilityWorks' mission to clients is *"to improve the quality of life, employment opportunities, and integration of people with disabilities into the community"*. The mission to business and industry through the subcontracting program is to provide fast turnaround times, high-quality workmanship, competitive rates, credit rates, credit terms and speedy delivery. Some of the services and products AbilityWorks offers include collating and sorting, packaging and handling, assembly work, product reworking, product reclamation, grounds maintenance, housekeeping and quality reviews. AbilityWorks, of Olive Branch, provides job specific training for work at the Distribution Center Sephora in Olive Branch, Mississippi.

AbilityWorks locations throughout the state:

Harrison County Service Areas: Hancock, Harrison, Jackson, Pearl River, Stone, George

Olive Branch Service Areas: Desoto, Marshall, Tate, Tunica

Tupelo Service Areas: Lee, Pontotoc, Itawamba, Union,

Laurel Service Areas: Covington, Jasper, Jones, Smith, Wayne

Meridian Service Areas: Clark, Kemper, Lauderdale, Neshoba, Newton, Winston

Jackson Service Areas: Hinds, Madison, Rankin, Scott, Simpson, Warren

Corinth Service Areas: Alcorn, Benton, Prentiss, Tippah, Tishomingo

Starkville Service Areas: Clay, Oktibbeha, Chickasaw, Choctaw, Webster, Montgomery

Kosciusko Service Areas: Attala, Leake, Neshoba, Rankin

Columbus Service Areas: Lowndes, Clay, Monroe

Brookhaven Service Areas: Adams, Amite, Copiah, Claiborne, Franklin, Jefferson, Jefferson Davis, Lawrence, Lincoln, Marion, Pike, Walthall, Wilkerson

Greenwood Service Areas: Leflore, Carroll, Holmes, Grenada, Bolivar, Sunflower, Humphreys, Tallahatchie, Yazoo

Washington County Service Areas: Washington, Sunflower, Bolivar, Issaquena, Sharkey

Hattiesburg Service Areas: Forrest, Greene, Lamar, Perry

Oxford Service Areas: Calhoun, Coahoma, Panola, Lafayette, Quitman, Yalobusha

The Addie McBryde Center

Addie McBryde also provides services for consumers who are Blind or Visually Impaired through either a residential or day program where individuals participate in classes such as orientation and mobility, techniques of daily living and personal management. The *2018 Comprehensive Needs Assessment* asked respondents if they were aware of these CRPs. 68.94% were aware of our CRPs. Yet only 45.45% stated they actually participated at AbilityWorks or Addie McBryde. Of those that participated, 30.30% reported that the services provided by the CRP were helpful in preparing them for employment.

The Addie McBryde Rehabilitation Center is a comprehensive personal adjustment center for adults who are Blind, Visually Impaired or Deaf-Blind. Through a program of training offered to both residential and day clients, individuals participate in class learning skills which enable the client to successfully live and work independently. Established in 1972, the center is located on the campus of the University of Mississippi Medical Center in Jackson, Mississippi. The facility has a dormitory capacity for 28 clients, a gymnasium, a client library and classrooms equipped with specialized technology for the Blind and Visually Impaired. Certified Instructors individualize training to meet a client's needs during the class day from 8:00 AM to 3:00 PM. Clients participate in additional activities in the 'Achieving Milestones' class focusing on adjustment to vision loss, confidence building, resume writing, interviewing and utilizing resources in the community.

These facilities provide a variety of services including Vocational Evaluation, Work Adjustment Training, Community-Based Work Experiences, counseling and transportation. All services are individualized to meet the needs of the individual served in preparation for Competitive Integrated Employment.

Community Rehabilitation Programs to provide structured Discovery Training

NEED: Currently, there is only one personal adjustment training program that provides "services to groups" who are blind, deafblind, and visually impaired who are seeking Competitive Integrated Employment and independence in communities of their choice.

The Mississippi's Comprehensive Statewide Needs Assessment (CSNA) indicated that due to the physical location of the Addie McBryde Center, it may not be accessible for all eligible Mississippians who experience blindness or visual impairment.

These responses could be attributed to limitations in locality or district, in comparison to the location of the Addie McBryde Program. Results from the Gemini Research and Training, LLC's survey indicated that a minority of individuals have received training in a comprehensive independent training center, but almost half (46%) indicated that they would attend in state if available.

Study results also indicated that those who completed residential training at a center were more likely to be currently employed (23%) than those who did not receive training (14%) to vision loss.

CSNA feedback on service challenges suggested that OVR/OVRB should explore expanding Community Resource Providers (CRPs) and other resources to best meet consumers' employment related service needs. Some services currently delivered by CRPs do not conform to what is considered to be Evidence Based Practice (EBP) employment.

Over the last several years, OVRB has invested in, and worked to evaluate, whether the services offered through the Addie McBryde Center meet the needs of individual with blindness and visual impairments, or if Mississippi should consider expanding the capacity of CRPs to meet the needs of this population. OVRB works closely with the Addie McBryde Center to connect consumers with services that help them gain and maintain employment. While this resource is

available, assessment results indicated that access to and knowledge of these services are limited. The Center has limited capacity and is not centrally located, hampering its ability to serve all Mississippians. In addition, OVRB's prior survey research indicated that individuals who receive services through the Addie McBryde Center were more likely to be employed than other survey respondents.

When considering available service expansion, OVRB should explore how to increase its capacity to provide successful and effective services. The following recommendations may help OVRB increase efficacy of services:

- Expanding services for traditional and non-traditional training.
- Expanding locations of the Addie McBryde Center would allow access for consumers across the state and expand Center capacity for traditional training for consumers to obtain Competitive Integrated Employment.
- Additionally, services should be expanded in capacity and access for non-traditional training including structured discovery methodology.

COMMUNITY REHABILITATION PROGRAMS (CRP):

Community Rehabilitation Programs to better serve individuals with Autism Spectrum Disorder and other individuals with Social Skills Disorders

Unemployment among individuals with Autism Spectrum Disorder (ASD) is approximately 85%. This means that roughly two-thirds (2/3) of people with autism are not working. Currently, there is no Community Rehabilitation Program that specifically addresses the extended support needs of individuals with Autism Spectrum Disorder despite research suggesting the need for more comprehensive services to improve employment outcomes. Services needed would include:

- Enhance the possibility of successful employment opportunities through individualized services to meet workforce demands and improve the lives of individuals with ASD.
- Create a more comprehensive service program through the provision of multiple services such as soft skills training, functional living skills, interviewing skills, etc. across multiple settings.
- Provide direct instruction in social interaction in multiple settings in order to increase the ability of individuals with ASD to obtain and maintain employment.
- Increase employment outcomes for individuals with ASD.
- Ultimately increase the number of tax paying citizens in the state.
- OVR AbilityWorks' providers offer a limited number of services that may not meet the diverse needs of individuals with different disabilities.
- In addition, facility- based training does not align with evidence-based practices for successful case closures.

3. INCLUDE AN ASSESSMENT OF THE NEEDS OF INDIVIDUALS WITH DISABILITIES FOR TRANSITION CAREER SERVICES AND PRE-EMPLOYMENT TRANSITION SERVICES, AND THE EXTENT TO WHICH SUCH SERVICES ARE COORDINATED WITH TRANSITION SERVICES PROVIDED UNDER THE INDIVIDUALS WITH DISABILITIES EDUCATION ACT

The respondents consisted of potentially eligible students with a disability, VR eligible transition secondary and post-secondary students, transition out of school youth, and parents of transition students from four regions of the state.

It is important that individuals receive services to meet their individualized needs to ensure they have the greatest opportunity to achieve Competitive Integrated Employment. Respondents indicated the following are the most needed services in helping achieve employment:

- 45.45% - Job Search/Placement Services
- 40.91% - Vocational Rehabilitation Counseling and Guidance
- 33.33% - Transportation
- 26.52% - Job Coaching
- 22.73% - No Other Services Required

To effectively meet the needs of students, MDRS collaborates with education and workforce programs to assist students with disabilities in making the transition from school to post-secondary education and/or to Competitive Integrated Employment. MDRS, through its Offices of Vocational Rehabilitation (OVR) and Vocational Rehabilitation for the Blind (OVRB), maintains a Memorandum of Understanding (MOU) with the Mississippi Department of Education (MDE).

In addition to the MOU with MDE, the Agency maintains individualized agreements between the local school districts and vocational rehabilitation offices. These agreements define referral procedures and the roles of the school and OVR/OVRB staff in the provision of transition services that are specific and tailored to the unique situation of each school and the OVR/OVRB district. Each counselor is responsible for developing and maintaining an agreement between the Agency and local school district. A copy of the form to be used for this agreement may be obtained from the State Coordinator for Transition Services. The form includes instructions and has been designed to assist in the development of the agreements locally.

A counselor is assigned to work with a specific school district to provide transition services in accordance with the Rehabilitation Act of 1973, as amended, the Carl D. Perkins Vocational and Applied Technology Act, as amended and the Individuals with Disabilities Education Act (IDEA), as amended.

VR assures that the Individualized Plan for Employment (IPE) is also coordinated with the employment goal in the school's Individualized Educational Plan (IEP) and, where appropriate, the Individualized Service Plans (ISP) of the long term care providers.

The VR Counselors servicing local school districts as well as the VR Supported Employment Counselors working together with school districts ensure that students with disabilities that previously entered subminimum wage employment are provided information and services to assist in diverting these individuals into Competitive Integrated Employment.

Pre-Employment Transition Services (Pre-ETS) are provided to students with disabilities as early as age 14. If these individuals require VR Transition services as early as age 14, VR facilitates this need by opening a VR case. This service provision will help strengthen VR's efforts to reach more students and strengthen the opportunity for successful employment outcomes.

In accordance with the Rehabilitation Act of 1973, as amended, the inclusion of transition services is not intended to shift the responsibility from school districts to Vocational

Rehabilitation (VR) but enforces the need for coordinated efforts between education and workforce programs such as VR.

MDRS, through OVR/OVRB, is the state agency that delivers transition services to secondary school students with disabilities. These counselors work with students, families, and educators during the transition process to inform them of available VR services, including Pre-Employment Transition Services (Pre-ETS), and identify students who might benefit from or need VR services and career services designed to assist in obtaining a post school employment outcome.

While local school districts are responsible for providing education and transition services to students with disabilities who are still in the secondary school system, under WIOA, VR is the state unit that is mandated to make available Pre-ETS beginning at age fourteen (14) for all eligible and potentially eligible students with disabilities with parental consent.

District Managers and Counselors are responsible for developing cooperative working relationships with the local education agency staff in the districts and other agencies working with youth. Letters were sent by the State Transition Program Coordinator to the Special Education Directors and 504 Coordinators for each school district to discuss VR services for students with IEPs and 504 plans. The Counselor follows-up with their Special Education Directors and 504 Coordinators at least annually to discuss the provision of outreach services for students with disabilities and to determine the need for potential referrals.

Counselors are assigned to all public secondary schools. The Counselor and the District Manager establish linkages within each school with the following individuals:

- Special Education Coordinator,
- 504 Coordinator,
- Transition Coordinator,
- Principal,
- Guidance Counselors for grades 8th through 12th,
- School health personnel, and
- Other school-based staff determined appropriate by the Counselor and the District Manager.

The counselor works with the school district's Transition Coordinator, Transition Assistants when applicable, and Special Education Teachers to implement Pre-Employment Transition Services (Pre-ETS) for eligible and potentially eligible students with disabilities. The required activities of Pre-ETS will mostly take place at the local school during a prearranged time that the counselor and school personnel have agreed to.

The Counselor will be prepared to teach the Pre-ETS curriculum and will do so as agreed upon with school personnel. In addition to being prepared to teach the curriculum, the Counselor will provide the classroom teacher with technical assistance and/or curriculum materials as needed. The Counselor should be working in his/her assigned schools two to three days per week while rotating schools to ensure services are made available to both eligible and potentially eligible students within each school serviced.

The Counselor documents the student's progress in Pre-ETS activity for eligible students in the participant's AACE Case note page and for potentially eligible (PE) students in the AACE PE Case Type page, and provides an update to the classroom teacher with a report of the student's participation and progress in Pre-ETS on a regular basis.

MDRS and the local school district may enter into a Cooperative Agreement to jointly fund a Transition Assistant position to ensure a smoother transition of services between the school and OVR/OVRB. The Transition Assistant will provide services to selected secondary students with disabilities who are:

- between the ages of fourteen (14) and twenty-one (21),
- in transition from school to work and community, and
- eligible for vocational rehabilitation services.

The addition of school-based transition services are intended to add a component to the overall school and rehabilitation service continuum, not supplant existing employment-related or other services which are appropriate for a particular student (any service the school is already responsible for providing). The Transition Assistant will not serve students who, with or without modifications, can benefit from existing school programs (career/technical and educational training programs ,etc.).

Once the student leaves the school system, it becomes the full responsibility of the agency counselor to continue to provide services necessary to further prepare the individual for a successful post-school outcome by enrolling in a post-secondary education program or obtaining Competitive Integrated Employment.

K. ANNUAL ESTIMATES

1. THE NUMBER OF INDIVIDUALS IN THE STATE WHO ARE ELIGIBLE FOR SERVICES

OVR

The results of the CSNA found that according to Mississippi employment statuses of individuals with a disability (2019 ACS), only 2.7% (13,028) of individuals are classified as unemployed. In comparison to the current OVR open caseload, there are a total of 6,793 open OVR cases, leaving 6,235 potentially unserved individuals. Furthermore, an additional 369,387 individuals with disabilities were classified as 'Not in labor force'. This suggests potential for educational and outreach opportunities.

When reviewing overall demographic information it is important to highlight:

- Of the 2.7% unemployed Mississippians with a disability, OVR is already serving approximately 1.9% of that 2.7%.
- There are 6,235 potentially unserved individuals with disability that could require additional capacity to outreach and serve.
- There are 369,387 individuals with disabilities who are not in the labor force that could benefit from education and outreach.

When comparing OVR age groups to the Mississippi ACS 2019 population:

- Age group 14 to 44 is represented in higher percentages compared to the ACS.
- Age group 65 or older is represented at a much lower percentage.
- Age group 14 to 25 is represented more than five times the state average.
- Age group 25 to 34 is almost two times the state average.
- Age group 35 to 44 is approximately one and a half times the state average.
- Age group 65 and older is 29.3% less than the state average.

When reviewing age group representation across priority levels, ages 14-24 are represented highest in the 'unknown' priority at 43% which potentially eligible consumers participating in Pre-ETS activities most likely account for the majority of this group. Ages 14-24, 25-34 and 35-44 are represented highest in MSD, and ages 45-54, 55-64 and 65 and older are all represented highest in NSD. This suggests the younger age group participants have more functional limitations, which lack of work skills and experience may be contributed to this.

When reviewing overall age information, it is important to highlight:

- The age group 14 to 24 is represented more than five times the ACS state average of individuals with disabilities. This may be contributed to OVR/OVRB's focus on extending services to potentially eligible participants. For example, OVR/OVRB's emphasis on coordination with the education system to serve this population.
- Age group 25 to 34 are almost two times what would be expected.
- MSD priority levels are represented highest in ages 25-34, followed by 14-24 and 35-44. This may be due to more functional limitations and resulting from lack of work experience and skills.
- NSD is represented highest in age group 65 or older.

Analyzing population by disability status, OVR data shows participants with physical disabilities are represented highest (30.6%) followed by mental health (22.2%), deaf and hard of hearing (21.4%) and intellectual disabilities (20.6%). Regarding overall significance of disability, individuals most significantly disabled represent the highest population (28.1%). However, between priority levels, this difference is very small, approximately 1-4%.

OVRB

Looking at ACS 2019 population totals of participants in Mississippi with a vision disability by district, the Northern District population with a vision disability is 52,606 compared to 1,272 currently being served by OVRB. The Southern District population with a vision disability is 59,824 compared to 1,431 being served by VRB. According to ACS 2019, almost 60% of the Mississippi population with a vision disability are aged 55 or older, while 5.6% are aged 13 or younger.

Overall, district distribution is almost evenly spread between the Northern and Southern Districts compared to the Mississippi percentage population distribution. The overall population count of Mississippi individuals with a vision disability in the ACS 2019 are substantially higher, suggesting opportunities for outreach to expand services to more individuals with vision disabilities.

Analysis of OVRB population by age indicates the highest age group represented is aged 55-64 at 37%. When comparing age group percentages to the ACS 2019, ages 25-64 are represented in higher percentages. This means the majority of services provided to those with a vision impairment are focused on working age individuals. The age group 14-24 is slightly more represented than the state average percentage of individuals with a vision disability, a difference of less than +1.83%. However, the age group 65 and older is represented 28.6% less than the state average.

Analysis of age groups by disability priority levels reveals that participants aged 14-24 represent the highest percentage of Most Significantly Disabled (MSD) and Significantly Disabled (SD). Ages 25-34 represent the second highest percentage of MSD and SD. Ages 65 and older and 55-64 had the highest percentage of individuals with No Significant Disability (NSD). Overall, age groups 14-34 represent the highest percentage for MSD and SD; it is possible that fewer work skill experiences result in more functional limitations. Continued pre-employment

services with this population, including work skill development, may help address some of these limitations.

2. THE NUMBER OF ELIGIBLE INDIVIDUALS WHO WILL RECEIVE SERVICES UNDER:

A. THE VR PROGRAM;

Vocational Rehabilitation and Vocational Rehabilitation for the Blind

Based on the current trend analysis for individuals determined eligible for VR services, MDRS observed an 11.9% increase in the number of individuals eligible for VR services between FY 2018 and 2019. This increase in numbers began to shift because of the impact of Covid-19. In fact, in 2020, OVR/OVRB served 14,003.

In 2019 (10/01/2018– 9/30/19), Vocational Rehabilitation and Vocational Rehabilitation for the Blind served a total of 11,745 eligible individuals with disabilities. These percentages of increase were used to estimate the number of eligible individuals who will receive services in FFY 2020 – FFY 2023.

In 2021, OVR/OVRB observed a 4% drop in the numbers served due to the impact of Covid-19. However, with the steps being made to prevent the spread of Covid-19, we have to see at least a 2% increase in numbers served in 2022-2023.

Estimated Total Number who applied for services and\or were determined eligible for services.

FFY	Number of Clients who will receive services
2020	13,289
2021	13,074
2022	13,336
2023	13,603

B. THE SUPPORTED EMPLOYMENT PROGRAM; AND

In FFY 2019, Mississippi VR provided Supported Employment services to 422 individuals at a total cost of \$1,213,666.64. In FFY 2020, 423 individuals at a total cost of \$1,513,768.50. In 2021, 384 individuals received SE services at a cost of \$1,741,430.47. The decrease in individuals receiving services in 2020 and 2021 is due to the effects of the national pandemic COVID-19. Many businesses/employers were closed or hiring was slow due to the fear of the spread of COVID-19. In 2022–2023, with the steps being made to prevent the spread of COVID-19, we are in hopes that we have more individuals in need of SE services.

In 2022, VR estimates that we will serve approximately 475 individuals in Supported Employment. In 2023, VR estimates that we will serve approximately 535 individuals in Supported Employment

C. EACH PRIORITY CATEGORY, IF UNDER AN ORDER OF SELECTION.

Mississippi OVR/OVRB anticipate sufficient resources to provide the full range of VR services to all eligible individuals without implementing the Order of Selection.

3. THE NUMBER OF INDIVIDUALS WHO ARE ELIGIBLE FOR VR SERVICES, BUT ARE NOT RECEIVING SUCH SERVICES DUE TO AN ORDER OF SELECTION; AND

Mississippi has not closed any Priority Categories. All individuals eligible to receive services will receive services.

4. THE COST OF SERVICES FOR THE NUMBER OF INDIVIDUALS ESTIMATED TO BE ELIGIBLE FOR SERVICES. IF UNDER AN ORDER OF SELECTION, IDENTIFY THE COST OF SERVICES FOR EACH PRIORITY CATEGORY.

The estimated cost to serve the estimated number of eligible individuals in each Priority Category are as follows: Projections are based on the number of individuals served in each Priority Category and the average cost of the clients served in each Priority Category.

Based on the current trend analysis if the VR Program continues to see the growth in the numbers served and costs of services, we will have to close a priority category. At this time, all priority categories are open.

FFY	PC 1 Served	PC1 Cost
2020	4,567	22,161,087.01
2021	4,439	27,944,912.29
2022	4,528	28,503,810.54
2023	4,619	29,073,886.75
FFY	PC 2 Served	PC 2 Cost
2020	4,489	23,080,277.62
2021	4,609	27,944,912.29
2022	4,701	28,503,810.54
2023	4,795	29,073,886.75
FFY	PC 3 Served	PC 3 Cost
2020	4,233	15,288,433.75
2021	4,026	15,132,695.93
2022	4,107	15,435,349.85
2023	4,189	15,744,056.85
FFY	Total Served	Total Cost
2020	13,289	60,529,798.38
2021	13,074	71,022,520.51
2022	13,336	72,442,970.93
2023	13,603	73,891,830.35

Title I Funds

For FFY 2020 budget, beginning October 1, 2018 through September 30, 2019, VR received \$44,680,926 funding from RSA. MDRS expects to receive the same funding for FFY 2021.

Social Security Reimbursements

During Program Year 2020, VR collected \$1,645,442.20 in Social Security Reimbursements. In Program Year 2021, MDRS collected \$2,346,233.84 in reimbursement and anticipate this will remain around the same amounts for FY 2022 through 2023.

Supported Employment

MDRS received \$300,000 in 2019 for the SE Program. SE funds are supplemented with Title I funds to pay for the cost of clients receiving services and fund SE VR staff positions. 50% of the SE funds were earmarked and set aside for youth with significant disabilities.

Reallotment

In 2021 and 2022, VR did not request additional federal funds and does not anticipate requesting additional federal funds through the reallotment process for FY 2022-2023.

Pre-Employment Transition Services

MDRS set aside \$6,702,139 which is the 15% earmarked for Pre-Employment Transition Services.

L. STATE GOALS AND PRIORITIES

1. IDENTIFY IF THE GOALS AND PRIORITIES WERE JOINTLY DEVELOPED AND AGREED TO BY THE STATE VR AGENCY AND THE STATE REHABILITATION COUNCIL, IF THE STATE HAS A COUNCIL, AND JOINTLY AGREED TO ANY REVISIONS

The Mississippi Department of Rehabilitation Services, Office of Vocational Rehabilitation and Office of Vocational Rehabilitation for the Blind, value enabling individuals with disabilities to increase their level of self-sufficiency through employment and education.

MDRS values competent employees who are knowledgeable in vocational rehabilitation and committed to serving individuals with disabilities to increase their level of self-sufficiency through employment and education.

MDRS values VR and VRB leaders and managers who demonstrate the commitment, knowledge and experience to lead the program, value sound fiscal and administrative practices that support all VR and VRB personnel, and individuals with disabilities and community partners.

To align with the requirements and performance standards of the Rehabilitation Act and its implementing regulations, MDRS, Office of Vocational Rehabilitation and Office of Vocational Rehabilitation for the Blind, and the State Rehabilitation Council (SRC) have developed these goals and priorities.

2. IDENTIFY THE GOALS AND PRIORITIES IN CARRYING OUT THE VR AND SUPPORTED EMPLOYMENT PROGRAMS

VR goals and priorities regarding the distribution of Title VI-Part B funds are to:

- Continue the referral process between MDRS and DMH to identify 'youth with the *most significant disabilities*' who will require SE services.
- Continue the referral process between the VR Transition/Youth Counselor and the VR Supported Employment (SE) Counselor for students with disabilities, ages 14-21, who have been determined to need long-term ongoing support services.

- Ensure equitable distribution of the funds.
- Provide technical assistance to district staff about the appropriate use of the funds.
- Monitor to ensure that the funds are being correctly utilized.
- Obtain service providers for Customized Employment.
- Train all VR Counselors, including those who work with General VR consumers, in Supported Employment.
- Increase the number of individuals closed rehabilitated with a Supported Employment Outcome.

Through outreach, education and marketing efforts targeted to individuals with disabilities, OVR/OVRB will continue to broaden the population of individuals with disabilities being served which includes minorities with disabilities and unserved and underserved and identified by the Comprehensive Needs Assessment.

OVR/OVRB will continue to target individuals with disabilities who are already working to retain or progress in employment, previous OVR/OVRB consumers who may have lost employment to become reemployed, college students nearing completion of their academic programs, and

- high school transition age youth with disabilities
- individual with blindness and visual impairments
- individuals with deafness and hearing impairments
- youth and adults with most significant disabilities

GOAL I: Improve the employment, economic stability, and self-sufficiency of eligible individuals with disabilities.

Strategies (Plan of Action):

- Develop a job placement culture by providing ongoing training in the job development and placement process.
- Develop and implement on-campus work experience training for students who reside in rural communities when Community-Based Work Experience is not available.
- Refer those consumers receiving SSI/SSDI cash benefits who are interested in earnings that will eliminate their reliance on SSA cash benefits for work incentives Benefits Analysis and Counseling.
- Coordinate and conduct the Annual Governor's Job Fair for individuals with disabilities.
- Summer Internship Program for high school students with disabilities including those who have blindness and visual impairments, deafness and are hard of hearing.

GOAL II: Improve the VR Service Delivery System to Individuals with disabilities.

Strategies (Plan of Action):

- Designate staff in MDRS districts to be responsible for conducting outreach and orientation sessions on a regular basis.
- Provide input to assure appropriate inclusion of vocational rehabilitation activities in, public service announcements, and agency website and publications.

- Update and distribute vocational rehabilitation brochures to appropriate referral sources.
- Designate and train specific staff members in each district to handle referrals and provide information to the public.
- Assure that all geographic areas of the state are covered with appropriate service delivery staff.
- Develop and implement a consumer satisfaction survey to be completed while the consumer's case is open with VR.
- Develop a consumer satisfaction survey to be completed by the consumer regarding services received from vendors/providers of VR services.

GOAL III: Implement a statewide model for more effectively serving high school youth and students with disabilities including individuals with visual and/or hearing impairments.

Strategies (Plan of Action):

- Engage with key partners such as the Department of Education, State Rehabilitation Council, high school, community colleges and other training and education program in designing an improved service delivery model that will develop stronger partnerships to place increased emphasis on serving transition high school students who **are** in special education.
- Engage with key partners such as the Department of Education, State Rehabilitation Council, high school, community colleges and other training and education program in designing an improved service delivery model that will develop stronger partnerships to place increased emphasis on serving transition high school students who **are not** in special education.
- Co-develop a formal Interagency Cooperative Agreement with officials from the Department of Education, local school districts and local high schools.
- Plan and coordinate with the Mississippi Department of Education-Special Education Director and Director of 504 Services to plan and conduct at least annual training and semi-annual work groups for the purpose of cross-training in understanding the services offered by Vocational Rehabilitation.
- Develop and implement the use of an OVR Transition Manual designed to assist staff in the delivery of transition services. This manual will be used as a technical assistance tool for transition planning purposes.
- Annually identify 504 Coordinators and special education staff for each school.
- Co-develop and implement self-identification tool identifying youth with disabilities who could possibly benefit from transition services.
- Establish relationships with parent training and information groups, advocacy groups and other service providers to encourage referral and parental participation in the development and provision of transition services.
- Establish comprehensive guidelines and indicators for assessing the individual transition needs of students.
- Work with other core partners in the workforce system to provide employment related services to prevent duplicative services.

- Contract with additional Community Rehabilitation Programs to provide Pre-Employment Transition Services.

GOAL IV: Implement identified improvements to increase statewide consistency and quality of consumer services.

Strategies (Plan of Action):

- Use results of the annual case review to determine where additional guidance and training are required.
- Utilize the new counselor training process for mentoring, training, and leadership development for all VR Counselors.
- Utilize and continue to develop consistent training process for key VR staff that deliver direct client services.
- Conduct annual statewide case record reviews of case service practices to determine consistency and adherence with federal/state requirements. Use case review results to identify and implement improvements in quality and consistency of services.
- Survey OVR staff on practices and provide refresher training to assure consistent and quality service delivery.
- Deliver high quality training and support to provide staff with the knowledge and skills needed to perform effectively.
- Recognize and appreciate staff throughout the division for their contributions to VR's success.
- Continue to update and deliver advanced best practices training to field staff statewide to provide ongoing skill development in key service delivery operations and practices, including a strong focus on customer service, cultural sensitivity, and better addressing each consumer's impediments to employment.
- Increase collaboration within the workforce system to improve services to unemployed workers with disabilities who are eligible for VR services by better leveraging services with other workforce development programs.
- Play stronger roles on state and local Workforce Boards to assure that VR consumers and other individuals with disabilities are better served by the One-Stop system.
- Increase collaboration with community colleges to improve coordination of VR services with community college programs and Adult Basic Education programs.
- Implement written agreements with providers for individuals with intellectual and development disabilities to affirm their roles and responsibilities for serving VR consumers, including their capacity for providing long-term employment supports to individuals after the VR case is rehabilitated.

Goals Specific to the Service Delivery for Individuals who require Supported Employment Services:

GOAL 1: Strategies:

- Continue the referral process between MDRS and DMH to identify youth with the *most significant disabilities* who will require SE services.

- Continue the referral process between the VR Transition/Youth Counselor and the VR Supported Employment (SE) Counselor for students with disabilities, ages 14-21, who have been determined to need long-term ongoing support services.
- Ensure equitable distribution of the funds.
- Provide technical assistance to district staff about the appropriate use of the funds.
- Monitor to ensure that the funds are being correctly utilized.
- Obtain service providers for Customized Employment.
- Train all VR Counselors, including those who work with General VR consumers, in Supported Employment.
- Increase the number of individuals closed rehabilitated with a Supported Employment Outcome.

3. ENSURE THAT THE GOALS AND PRIORITIES ARE BASED ON AN ANALYSIS OF THE FOLLOWING AREAS:

A. THE MOST RECENT COMPREHENSIVE STATEWIDE ASSESSMENT, INCLUDING ANY UPDATES;

The FFY 2020–2023 goals and priorities are based on the *2019 Comprehensive Statewide Needs Assessment*, and the *2019 Transition Needs Assessment*.

The listed goals and strategies were discussed with some goals being recommended by and developed in collaboration with the State Rehabilitation Council (SRC).

B. THE STATE'S PERFORMANCE UNDER THE PERFORMANCE ACCOUNTABILITY MEASURES OF SECTION 116 OF WIOA; AND

Over the last year, VR and VRB had met and in some areas exceeded its performance goals based on the performance data provided by the RSA - Data Dashboard.

Our counselor's performance development system has changed as a result of the new Common Performance Measures and the RSA 911. We continue to monitor to ensure that we are continuing to serve individuals with significant disabilities.

With the added focus on documenting skill gain and credentials, we anticipate, in FY 2020–2023, we will continue to increase our number of individuals with disabilities that obtain measurable skill gains and ultimately Competitive Integrated Employment.

Goal 1:

Expand locations of the Addie McBryde Center to allow access for consumers across the state and expand Center capacity for traditional VR blindness training for consumers to obtain competitive integrated employment

Establish an additional VR training for blindness with nontraditional training including structured discovery methodology

Goal 2:

Increase application and number of service providers of evidence base practices to increase successful competitive integrated employment outcomes of individuals who are blind and visually impaired

Establish an additional VR training for blindness with nontraditional training for structured discovery methodology

Goal 3:

Explore evidenced based practices to create successful services models and processes, and leverage community resources to address OVRB capacity and service needs.

Goal 4:

Explore opportunities to streamline vendor management and create efficiency in process.

C. OTHER AVAILABLE INFORMATION ON THE OPERATION AND EFFECTIVENESS OF THE VR PROGRAM, INCLUDING ANY REPORTS RECEIVED FROM THE STATE REHABILITATION COUNCIL AND FINDINGS AND RECOMMENDATIONS FROM MONITORING ACTIVITIES CONDUCTED UNDER SECTION 107.

No additional recommendations or reports were received from the SRC.

M. ORDER OF SELECTION

1. WHETHER THE DESIGNATED STATE UNIT WILL IMPLEMENT AND ORDER OF SELECTION. IF SO, DESCRIBE:

A. THE ORDER TO BE FOLLOWED IN SELECTING ELIGIBLE INDIVIDUALS TO BE PROVIDED VR SERVICES

The Mississippi Department of Rehabilitation Services, Office of Vocational Rehabilitation and Office of Vocational Rehabilitation for the Blind, implemented an Order of Selection (OOS) in May 2001. Since July 13, 2009, all Priority Categories have been open.

Based on an assessment for determining eligibility and an assessment in each of the seven functional capacity areas, an individual with a *significant disability* means an individual with a disability (i) who has a severe physical or mental impairment which seriously limits one (1) or more functional capacity (such as mobility, communication, self-care, self-direction, interpersonal skills, work tolerance, or work skills) in terms of an employment outcome; (ii) whose vocational rehabilitation can be expected to require multiple services over an extended period of time; and (iii) who has one (1) or more physical or mental disability or combination of disabilities resulting from amputation, arthritis, autism, blindness, burn injury, cancer, cerebral palsy, cystic fibrosis, deafness, head injury, heart disease, hemiplegia, hemophilia, respiratory or pulmonary dysfunction, intellectual disability, mental illness, multiple sclerosis, muscular dystrophy, musculo-skeletal disorders, neurological disorders (including paraplegia and quadriplegia), sickle cell anemia, specific learning disability, end-stage renal disease or other disability or combination of disabilities determined on the basis of an assessment for determining eligibility and vocational rehabilitation needs to cause comparable substantial functional limitation.

MDRS - OVR/OVRB Policy on Order of Selection

At any time that MDRS resources do not permit all eligible consumers to be served, an Order of Selection for services shall be implemented.

In 2015, the Order of Selection process was updated and approved by the State Rehabilitation Council (SRC) and approved as part of the updated 2018 State Plan.

First Priority will be given to consumers with the *most significant disabilities*. The OOS allows for individuals with *most significant disabilities* to receive services before all other individuals with disabilities. Second Priority shall be given to consumers with significant disabilities. Third Priority will be given to other eligible consumers. The Order of Selection was implemented in May 2001. Since July 13, 2009, all Priority Categories have been open.

In 2015, VR updated its Order of Selection which was approved by the State Rehabilitation Council.

Priority Category 1: An individual has a *Most Significant Disability* if a mental or physical impairment exists that seriously limits three (3) or more functional capacity areas in terms of an employment outcome and whose vocational rehabilitation will require multiple VR services over an extended period of time.

Priority Category 2: An individual has a *Significant Disability* if a mental or physical impairment exists that seriously limits one (1) or two (2) functional capacity areas in terms of an employment outcome and whose vocational rehabilitation will require multiple VR services over an extended period of time.

Priority Category 3: An individual is an *Individual with a Disability* if a mental or physical impairment exists that seriously limits one (1) functional capacity area in terms of an employment outcome and whose vocational rehabilitation will not require multiple VR services over an extended period of time.

MDRS, in consultation with the SRC, will close the Priority Categories designated to be *closed*. Any individual currently under an approved IPE at the time his/her Priority Category is closed will continue to receive with his/her IPE, including the provision of Pre-Employment Transition Services and Post-Employment Services.

Individuals placed in delayed status will be notified of their Priority Category, process for reclassification, their right to appeal, and the availability of the Client Assistance Program (CAP).

If an OOS is implemented, MDRS will provide the following information:

- Show the order to be followed in selecting eligible individuals to be provided VR services.
- Provide justification for the order.
- Identify the services and outcome goals.
- Identify the time within which these goals may be achieved for individuals in each Priority Category within the order.

When an OOS is in effect, individuals meeting eligibility requirements but are in a *closed* Priority Category have access to information and referral services. VR will provide all eligible individuals with disabilities who do not meet the OOS criteria with information about, and referral to, other Federal or State programs (including to Workforce Investment Network Job Centers for training and placement) that can assist them with obtaining or retaining employment.

MDRS will elect to provide services, regardless of any established Order of Selection, to eligible individuals who require specific services or equipment to maintain employment.

B. THE JUSTIFICATION FOR THE ORDER

MDRS has determined that sufficient resources are currently available to provide VR services to all individuals with disabilities that apply, those determined eligible in all Priority Categories and those under an IPE. Due to the increase in service needs and the staff resources in 2017 and 2018 to provide the services, if the projected resources for funds and personnel changes before the next state plan modification, MDRS will make a determination whether it may need to close one or more of its Priority Categories.

MDRS will conduct reviews periodically during the year to help validate the order and assess the impact of unforeseen circumstances.

Priority 3. Individual with a Disability: Individual with a *Disability*: An individual -

When it is determined that MDRS does not have the staff or fiscal resources to serve all eligible individuals in all Priority Categories, MDRS administration will make the decision to begin closing Priority Categories, first beginning with Priority Category 3, *Individual with a Disability*.

C. THE SERVICE AND OUTCOME GOALS

Since 2009, MDRS-OVR/OVRB has been able to keep all Priority Categories open and not maintain a waiting list.

During FFY 2021, all Priority Categories have remained open. MDRS has sufficient funds to service all individuals who apply for services. For FFY 2022-2023, MDRS anticipates that all priority categories will remain open and there will be no wait list.

D. TIME WITHIN WHICH THESE GOALS MAY BE ACHIEVED FOR INDIVIDUALS IN EACH PRIORITY CATEGORY WITHIN THE ORDER; AND

All Priority Categories are currently open for consumers who are eligible and under an IPE. In addition, the average time it takes to serve individuals in each priority category is as follows:

1. Priority Category 1 - 18 months to serve
2. Priority Category 2 - 14 months to serve
3. Priority Category 3 - 6 months to serve

E. HOW INDIVIDUALS WITH THE MOST SIGNIFICANT DISABILITIES ARE SELECTED FOR SERVICES BEFORE ALL OTHER INDIVIDUALS WITH DISABILITIES

At any time that MDRS resources do not permit all eligible consumers to be served, an Order of Selection (OOS) for services shall be implemented. When an OOS is in effect, MDRS continues to accept applications and make determinations of eligibility while notifying all eligible individuals of the Priority Category they are assigned.

When an individual is assigned to a category that is *closed*, the individual will be moved to *delayed* status and placed on a waiting list to be served in the chronological order in which he/she applied. Individuals having an active Individualized Plan for Employment (IPE) prior to the implementation of the OOS will continue to receive services uninterrupted.

In 2015, the following Order of Selection was updated and approved:

Priority 1. Most Significant Disability: Individual With a *Most Significant Disability*: An individual -

- who has a severe physical or mental impairment that seriously limits three (3) or more functional capacities in the areas of mobility, communication, self-care, self-direction, interpersonal skills, work tolerance, or work skills in terms of an employment outcome;
- whose vocational rehabilitation can be expected to require multiple vocational rehabilitation services over an extended period of time; and
- who has one (1) or more physical or mental disability(ies) resulting from amputation, arthritis, autism, blindness, burn injury, cancer, cerebral palsy, cystic fibrosis, deafness, head injury, heart disease, hemiplegia, hemophilia, respiratory or pulmonary dysfunction, intellectual disability, mental illness, multiple sclerosis, muscular dystrophy, musculo-skeletal disorders, neurological disorders (including stroke and epilepsy), spinal cord conditions (including paraplegia and quadriplegia), sickle cell

anemia, specific learning disability, end-stage renal disease or other disability or combination of disabilities determined on the basis of an assessment for determining eligibility and vocational rehabilitation needs to cause comparable substantial functional limitations.

Priority 2. Significant Disability: Individual With a *Significant Disability*: An individual -

- who has a severe physical or mental impairment that seriously limits one (1) or two (2) functional capacities in the areas of mobility, communication, self-care, self-direction, interpersonal skills, work tolerance, or work skills in terms of an employment outcome;
- whose vocational rehabilitation can be expected to require multiple vocational rehabilitation services over an extended period of time; and
- who has one (1) or more physical or mental disability(ies) resulting (See List under *Most Significant Disability*)

Priority 3. Individual with a Disability: Individual with a *Disability*: An individual -

- who has a physical or mental impairment that seriously limits one (1) or more functional capacity(ies) in the area of mobility, communication, self-care, self-direction, interpersonal skills, work tolerance, or work skills in terms of an employment outcome;
- whose vocational rehabilitation is *not* expected to require multiple vocational rehabilitation services over an extended period of time; and
- who has one (1) or more physical disability(ies) or combination of disabilities (See list under *Most Significant Disability*)

Individuals having an active plan prior to the implementation of the Order of Selection will continue to receive services uninterrupted.

2. IF THE DESIGNATED STATE UNIT HAS ELECTED TO SERVE ELIGIBLE INDIVIDUALS, REGARDLESS OF ANY ESTABLISHED ORDER OF SELECTION, WHO REQUIRE SPECIFIC SERVICES OR EQUIPMENT TO MAINTAIN EMPLOYMENT

MDRS-OVR/OVRB will elect to provide services, regardless of any established Order of Selection, to eligible individuals who require specific services or equipment to maintain employment. Specific services or equipment includes Assistive Technology Services.

If an Order of Selection is implemented, consumers placed on a waitlist will have the ability to have their current Priority Category reviewed and if functional limitations in the functional capacity areas cause them to be categorized into a higher category, OVR/OVRB will make the adjustment. No consumer will be moved to a lower Priority Category.

N. GOALS AND PLANS FOR DISTRIBUTION OF TITLE VI FUNDS

1. SPECIFY THE STATE'S GOALS AND PRIORITIES FOR FUNDS RECEIVED UNDER SECTION 603 OF THE REHABILITATION ACT FOR THE PROVISION OF SUPPORTED EMPLOYMENT SERVICES

For PY 2020–2023, MDRS will continue to invest all Title VI allocations to fund the purchase of Supported Employment Services services after the individual has been placed in employment. MDRS expects to continue supplementing Title VI funds as supplemental funds are available and, if possible, continue the level of Title I monies committed to the Supported Employment (SE) Program. MDRS occasionally supplements Title VI funds with Social Security Reimbursement funds as there is a need for additional funds for program expenditures. MDRS plans to continue this process if Title I funds are not available.

When the Title VI-B funds are awarded, they are distributed to the SE Counselors to fund job coach services for SE clients.

Additionally, MDRS will continue its efforts to increase the funds available for use by the SE program by development and submission of proposals for grants that may become available.

MDRS will also explore ways to utilize available funds more efficiently by entering into Cooperative Agreements with other entities who may participate in the cost of providing services to SE clients.

VR goals and priorities regarding the distribution of Title VI-Part B funds are to:

- Allocate 50 percent of the federal Supported Employment allotment for eligible youth with the most significant disabilities.
- Because based on current case data and referral information, it is anticipated that more individuals will require SE services to obtain and maintain Competitive Integrated Employment, SE Funds will also be used by VR Counselors to purchase SE services from community rehabilitation programs with Cooperative Agreements with the agency as providers become available in the state.
- In PY 2020–2023, VR staff will continue to collaborate with community partners to add additional providers for SE Services. VR (Title I) Funds will be used to purchase traditional VR employment services and SE Services from Shelby Residential and Vocational Services (SVRS), which is the only third party provider in the state.
- Services can be provided statewide virtually or in-person.

2. DESCRIBE THE ACTIVITIES TO BE CONDUCTED, WITH FUNDS RESERVED PURSUANT TO SECTION 603(D), FOR YOUTH WITH THE MOST SIGNIFICANT DISABILITIES, INCLUDING:

A. THE PROVISION OF EXTENDED SERVICES FOR A PERIOD NOT TO EXCEED 4 YEARS; AND

VR has updated its policy manual to include guidance for the provision of Extended Services for youth populations with the *most significant disabilities*, under the age of 25. These youth populations may receive extended services (i.e., ongoing supports to maintain an individual in Supported Employment) for up to four (4) years. In addition, Customized Employment is clarified in the policy. VR also works with extended service providers, when feasible, as a means to provide additional resources and services to individuals needing and choosing these specialized services as an interim step to the rehabilitation process of achieving a successful employment outcome. SE Counselors will continue to primarily focus on successful employment outcomes in Competitive Integrated work settings.

B. HOW THE STATE WILL LEVERAGE OTHER PUBLIC AND PRIVATE FUNDS TO INCREASE RESOURCES FOR EXTENDED SERVICES AND EXPANDED SUPPORTED EMPLOYMENT OPPORTUNITIES FOR YOUTH WITH THE MOST SIGNIFICANT DISABILITIES.

Cooperative arrangements will continue to be developed with other provider agencies and organizations, both public and private, to expand the Supported Employment (SE) Program to unserved and underserved populations. The focus of these arrangements is on promoting and enabling SE Counselors and service provider personnel from other agencies to work as teams to share expertise, provide technical support in specific disability areas, and conduct joint training.

With the Interagency Agreement and referral process that has been developed with the Department of Mental Health and the Division of Intellectual and Developmental Disabilities, we will continue to work with this agency in serving individuals who are eligible for the waiver as extended service providers.

SE staff also participates in *best practices* in coordinating services for SE clients in the education system throughout the state. These practices have proven to be successful for clients because of the enhanced teamwork with other agencies. Under WIOA, Customized Employment is included in the definition of Supported Employment and VR is including it as a VR service that the SE client can choose to include in his/her IPE. Therefore, VR is expanding Customized Employment training to the majority of its direct service staff. These service approaches will continue to be made available to clients during the intake process and will be utilized when deemed appropriate and when chosen by the client.

In obtaining extended service providers, Supported Employment Counselors will continue to work with individuals that may be eligible for the IDD Waiver Program to be referred to the extended service provider. This will assist in providing the services necessary to assist in maintaining an individual with a significant disability in employment. MDRS currently has a referral process in place with the Department of Mental Health for individuals who are eligible for the IDD Waiver but seek Competitive Integrated Employment.

O. STATE'S STRATEGIES

1. THE METHODS TO BE USED TO EXPAND AND IMPROVE SERVICES TO INDIVIDUALS WITH DISABILITIES

The following methods will be used to expand and improve the services to individuals with disabilities:

- Designate staff in each MDRS district to be responsible for conducting Vocational Rehabilitation outreach and orientation sessions on a regular basis.
- Continue to work with local education agencies to identify and provide Pre-Employment Transition Services and Transition Services to students with disabilities.
- Expand Project SEARCH sites to be used as a tool to provide Pre-Employment Transition Services to students with disabilities.
- Utilize relationships with workforce partners at the state and local levels to have more options and resources available for job placement and training.
- Share specific agency expertise to facilitate interagency knowledge to improve services to all participants with disabilities served by any agency within the workforce system.
- Annually evaluate physical location of VR staff to assure that all geographic areas of the state are covered with appropriate service delivery staff.
- Continue to administer a consumer satisfactory survey while the consumer's case is open with VR.
- Develop a consumer satisfaction survey with the consumer regarding services received from vendors/providers of VR services.
- Use case review results to identify and implement improvements and quality consistency of service.
- Increase collaboration within the state's workforce system to improve services to unemployed workers with disabilities who are eligible for VR services by better leveraging services with other workforce development programs.

2. HOW A BROAD RANGE OF ASSISTIVE TECHNOLOGY SERVICES AND DEVICES WILL BE PROVIDED TO INDIVIDUALS WITH DISABILITIES AT EACH STAGE OF THE REHABILITATION PROCESS AND ON A STATEWIDE BASIS

VR Counselors evaluate the need for Assistive Technology (AT) services throughout the rehabilitation process. At initial interview, consumers are routinely provided information on accommodations and information in their natural language or preferred mode of communication. At *eligibility determination*, the need for AT is assessed and when determined needed, provided as part of the individuals' Individualized Plan for Employment. At employment, the need for additional AT is assessed.

Through the MDRS Assistive Technology (AT) Program, nine Rehabilitation Technologists and two Rehabilitation Engineers are strategically located throughout the state to provide consultation on AT referrals as well as perform initial evaluations and assessments, procure and set up AT equipment, provide follow-up evaluations, design and fabricate original items, and provide specifications and final inspections for AT services.

3. THE OUTREACH PROCEDURES THAT WILL BE USED TO IDENTIFY AND SERVE INDIVIDUALS WITH DISABILITIES WHO ARE MINORITIES, INCLUDING THOSE WITH THE MOST SIGNIFICANT DISABILITIES, AS WELL AS THOSE WHO HAVE BEEN UNSERVED OR UNDERSERVED BY THE VR PROGRAM

Mississippi's most underserved populations continue to be American Indian and Alaska Native, Asian, and Hispanic or Latino.

Based on the *Comprehensive Statewide Needs Assessment* and other data received from the VR Case Management System, individuals with mental illness, cognitive disabilities and Autism Spectrum Disorders are the primary emerging population that are reported as underserved and who staff has requested the most assistance in understanding the disability in terms of employment. VR will seek to provide more training and resources to assist staff in serving this population.

MDRS continues to utilize RL Brown Group Inc. to translate documents used in routine casework from English into Spanish. MDRS is currently in the process of having all necessary documents and brochures that are made available to the public translated into Spanish. These documents are being uploaded into the case management system and brochures are being made available for those constituents and stakeholders whose natural language is Spanish. District Outreach teams will provide outreach activities in their local communities in efforts to obtain referrals for individuals from diverse populations.

MDRS will continue to monitor the ACS survey data for the most recent race and ethnicity statistics per county to be aware of areas where the information should be disseminated.

MDRS will also continue to provide outreach to other minority populations to ensure this population has the information regarding the VR program.

4. THE METHODS TO BE USED TO IMPROVE AND EXPAND VR SERVICES FOR STUDENTS WITH DISABILITIES, INCLUDING THE COORDINATION OF SERVICES DESIGNED TO FACILITATE THE TRANSITION OF SUCH STUDENTS FROM SCHOOL TO POSTSECONDARY LIFE (INCLUDING THE RECEIPT OF VR SERVICES, POSTSECONDARY EDUCATION, EMPLOYMENT, AND PRE-EMPLOYMENT TRANSITION SERVICES)

- Engage with key partners such as MDE, the SRC, local school districts, community colleges, and other training and education programs in designing an improved service delivery model that will develop stronger partnerships to place increased emphasis on serving transition high school students with disabilities.

- Continue to accept proposals from Community Rehabilitation Programs to provide Pre-Employment Transition Services to students with disabilities.
- Community outreach and orientation will establish relationships with parent training and information groups, advocacy groups, and other service providers to encourage referral and parental participation in the development and provision of transition services.
- Increase collaboration with community colleges to improve coordination of VR services with community college programs and Adult Basic Education programs to facilitate transition from secondary to post-secondary activities.
- Summer Internship Program for high school students with blindness and visual impairments, and deafness and are hard of hearing.
- Engage with key partners such as MDE, SRC, high schools, community colleges, and other training and education programs in designing an improved service delivery model that will develop stronger partnerships to place increased emphasis on serving transition high school students who are in special education.
- Engage with key partners such as MDE, SRC, high schools, community colleges, and other training and education programs in designing an improved service delivery model that will develop stronger partnerships to place increased emphasis on serving transition high school students who are not in special education.
- Plan and coordinate with the MDE Special Education Director to conduct at least annual training and semi-annual work groups for the purpose of cross training in understanding the services offered by VR.
- When developing the Youth Transition Handbook the design should be complementary to the MDE Special Education Transition Handbook.
- Continue to partner with the MDE Transition Team

MDRS signed contracts with over 20 more Community Rehabilitation Programs to be able to provide Pre-Employment Transition Services to students with disabilities across the state.

5. IF APPLICABLE, PLANS FOR ESTABLISHING, DEVELOPING, OR IMPROVING COMMUNITY REHABILITATION PROGRAMS WITHIN THE STATE

MDRS-OVR/OVRB will continue to request proposals (RFP) from Community Rehabilitation Programs (private and agency-supported) in order to provide Pre-ETS, Customized Employment Services, services to individuals who have autism, services for individuals who have severe mental illness and Supported Employment Services, which will facilitate the agency's ability to achieve the changes in WIOA.

In PY 2019, MDRS was able to secure its first third party contract to provide Supported Employment Services. Prior to this contract, MDRS did not have any Community Rehabilitation Programs that provided Supported Employment Services. SE services were strictly provided in-house by VR staff. As a result of the contract with Shelby Residential and Vocational Services, the following services can now be provided by an outside provider: Exploration, Discovery, Job Development, Job Skills Training and Customized Employment. Through collaboration with other core partners and collaborating with community providers MDRS will continue to seek other providers of services. Through the Request for Proposal process, MDRS was able to secure thirteen (13) new providers for Pre-Employment Transition Services.

Mississippi has been limited in the number of Community Rehabilitation Programs that provide SE Services, Pre-Employment Transition Services, and employment services with a vocational rehabilitation outcome of Competitive Integrated Employment.

In PY 2020–2023, MDRS will continue to advertise for Request for Proposals for Community Rehabilitation Programs.

Office of Vocational Rehabilitation for the Blind is proposing to increase the number of Community Rehabilitation Programs (CRPs) to establishment a program that provides one or more Vocational Rehabilitation (VR) services to individuals are blind, deafblind, and or visually impaired to enable those individuals to maximize their opportunities for employment, including career advancement (34 C.F.R. 361.5 (c) (7)). The program would be a state operated center, operated by VR staff. The program will be housed in a rented renovated building located in the Southern region of Mississippi.

The proposed state operated CRP for the blind will seek RSA prior approval to allow Mississippi VR to establish a second program in the form of a Model Demonstration Project that will be based on the methods and principles that undergird “Structured Discovery Instruction, belief, and philosophy for persons who are blind and visually impaired to demonstrate that having an additional alternative training method formerly known as “Structured Discovery” will help maximize opportunities for employment, including career advancement (34 C.F.R & 361.5(c)(7)). Currently, there are no residential training centers exclusively using non-visual techniques through use of sleep shades or the practice of structure discovery cane travel in Mississippi.

6. STRATEGIES TO IMPROVE THE PERFORMANCE OF THE STATE WITH RESPECT TO THE PERFORMANCE ACCOUNTABILITY MEASURES UNDER SECTION 116 OF WIOA

The Workforce Partners in Mississippi are working together to create a Shared Data Warehouse that will link our separate case management and data systems. This is referred to as the ‘Hub’ and we are working with a vendor, *NSPARC*, to create this data warehouse and bridge. National Strategic Planning & Analysis Research Center (nSPARC) designed and wrote *the Hub*. Founded in 1998, NSPARC is a university research center with more than 100 diverse employees, ranging from data scientists to software architects and security experts. NSPARC supports Mississippi State University’s overarching goals of research, learning, and service by collaborating within the university, through local, state, and federal agencies, and across the private sector to help society grow by discovering solutions to societal problems by using data science. They pursue entrepreneurial and collaborative initiatives to develop and maintain a pipeline of intellectual property and innovative technologies that positively impact real-world problems. NSPARC is headquartered in Starkville, Mississippi, adjacent to Mississippi State University’s campus.

MDRS entered into an agreement with NSPARC to develop a proof of concept in regards to how MDRS would capture the required data into the Hub. The proof of concept was tested and completed in March 2016. NSPARC was able to use MDRS’ proof of concept in order to move forward with developing the Hub for all partners.

MDRS entered into another Agreement with NSPARC and Alliance (MDRS’ software vendor) in July 2016. This agreement was for MDRS to provide the necessary data needed for the Hub from our current case management system and to update our Referral Module with the new process of our getting and receiving referrals from our partners. From July 2016 until June 2017, Alliance, MDRS, and NSPARC met to work through the process of how the data would be exchanged between the Hub and the Case management system.

All partner agencies will complete their separate intake forms with new customers. In each of these separate forms, however, there are **six diagnostic questions** that will be the same on all **forms and multiple demographic fields that are shared between partners (Intake)**. These

data elements will automatically be uploaded into the Hub - or autofill - if the unique identifier matches a profile that already exists in the Hub. If data in these areas is different from the information that was previously in the profile, this information will be updated with that from the most recent entry. The initial version of the Hub was completed in June 2017. MDRS has been sending data to the Hub since that time.

The WIOA Hub software development was released and launched into the production environment on May 23, 2017. The other partners have been phasing in sending their data between January 2018 and June 2018. Once other partners went live in the Hub, MDRS began receiving referrals from them through the Hub directly into MDRS' case management system. In the future, the PIRL for the State of Mississippi will be created through the Hub.

Alliance is the vendor that provides the Case Management system (Aware) for the Mississippi Department of Rehabilitation Services (MDRS) and for the OVR/OVRB programs in at least 35 other states. MDRS has been working with Alliance to ensure that the performance measures are included in Aware. Alliance has multiple user groups across 35+ states that meet to discuss Aware with Aware users. The WIOA/RSA-911 and the Aware VR User Groups are two that are involved in ensuring that all federal reports and WIOA requirements are met.

- WIOA/RSA-911 User Group meets periodically throughout the year.
- Aware VR User Group meets monthly.
- There are two major releases of Aware each year. There are other minor releases that address items related to WIOA/RSA-911.
- MDRS continues to submit multiple quarters of RSA 911 data and the Annual Performance Report (RSA 9169).
- MDRS has a data sharing agreement in place to procure the data to report state wage data for adults and youth.

7. STRATEGIES FOR ASSISTING OTHER COMPONENTS OF THE STATEWIDE WORKFORCE DEVELOPMENT SYSTEM IN ASSISTING INDIVIDUALS WITH DISABILITIES

The Mississippi Department of Rehabilitation Services, Office of Vocational Rehabilitation and Office of Vocational Rehabilitation for the Blind, partnership within Mississippi's One-Stop system is clarified through Memoranda of Understanding with the State and each of the four local workforce development areas. MDRS is a part of the Workforce Development Board and takes an active role in assisting Workforce partners in serving individuals with disabilities. The MDRS Executive Director is a member of the Workforce Development Board.

MDRS-OVR/OVRB will continue to work with workforce partners to provide staff training and technical assistance on the eligibility for VR Services, provision of reasonable accommodations, auxiliary aids and services and assistive technology.

MDRS has been an active partner and has provided expertise on the use of computers and website accessibility for individuals with disabilities. Assistive Technology staff provides expertise to Workforce Partners on building accessibility issues, etc.

MDRS will continue to participate in staff training with the four local workforce development areas that include Mississippi Partnership, Delta, Twin Districts, and South Central Mississippi Works.

Designated staff is assigned to each of the workforce area boards and attend quarterly meetings. This information is shared and communicated with VR staff and assists the local areas and the District offices to work together in providing employment services for common clients.

As part of the Intensive Technical Assistance with the Workforce Innovation Network Technical Assistance Center (WINTAC), we have received assistance and training on service integration, which is referred to as Integration Continuum. The initial meeting was held in August 24, 2017 at the Madison State office, Madison, Mississippi. Representatives from each of WIOA Core Partner agencies attended: Department of Human Services-Temporary Assistance for Needy Families, State Workforce Investment Board, Adult Basic Education, Mississippi Department of Employment Security,

To further assist in moving VR services more toward integration as we have defined it, on-site state meetings were held in March 2019 with the Delta Workforce Area (Greenville), Three Rivers Workforce (Belden) and VR/VRB staff in District 3 and VR/VRB Staff in District II. In collaboration with the Workforce areas and the OVR/OVRB programs, we recognize the importance of service integration as part of the Combined State Plan and ultimately, to provide the highest level of service to individuals with disabilities that are served by all workforce programs. Aligning systems assists in providing quality customer service and quality competitive employment outcomes. WINTAC continued to work with both areas to update and provide guidance for the integration plans that were developed as a result of the March 2019 meetings. A second on-site meeting was being scheduled for April 2020; however, this was postponed due to COVID-19. In December 2021, a WIOA State Plan Working meeting was held.

8. HOW THE AGENCY'S STRATEGIES WILL BE USED TO:

A. ACHIEVE GOALS AND PRIORITIES BY THE STATE, CONSISTENT WITH THE COMPREHENSIVE NEEDS ASSESSMENT;

The following strategies will be required to achieve the goals and priorities as listed in (l) State Goals and Priorities and (n) Goals and Plans for Distribution of Title I Funds:

GOAL I : Improve the employment, economic stability, and self-sufficiency of eligible individuals with disabilities.

Strategies (Plan of Action):

- Develop a job placement culture by providing ongoing training in the job development and placement process.
- Develop and implement on-campus work experience training for students who reside in rural communities when Community-Based Work Experience is not available.
- Refer those consumers receiving SSI/SSDI cash benefits who are interested in earnings that will eliminate their reliance on SSA cash benefits for work incentives Benefits Analysis and Counseling.
- Coordinate and conduct the Annual Governor's Job Fair for individuals with disabilities.
- Summer Internship Program for high school students with disabilities including those who have blindness and visual impairments, deafness and hard of hearing.

GOAL II: Improve the VR Service Delivery System to Individuals with disabilities.

Strategies (Plan of Action):

- Designate staff in MDRS districts to be responsible for conducting outreach and orientation sessions on a regular basis.
- Provide input to assure appropriate inclusion of vocational rehabilitation activities in, public service announcements, and agency website and publications.

- Update and distribute vocational rehabilitation brochures to appropriate referral sources.
- Designate and train specific staff members in each district to handle referrals and provide information to the public.
- Assure that all geographic areas of the state are covered with appropriate service delivery staff.
- Develop and implement a consumer satisfaction survey to be completed while the consumer's case is open with VR.
- Develop a consumer satisfaction survey to be completed by the consumer regarding services received from vendors/providers of VR services.

GOAL III: Implement a statewide model for more effectively serving high school youth and students with disabilities including individuals with visual and/or hearing impairments.

Strategies (Plan of Action):

- Engage with key partners such as the Department of Education, State Rehabilitation Council, high school, community colleges and other training and education program in designing an improved service delivery model that will develop stronger partnerships to place increased emphasis on serving transition high school students who **are** in special education.
- Engage with key partners such as the Department of Education, State Rehabilitation Council, high school, community colleges and other training and education program in designing an improved service delivery model that will develop stronger partnerships to place increased emphasis on serving transition high school students who **are not** in special education.
- Co-develop a formal Interagency Cooperative Agreement with officials from the Department of Education, local school districts and local high schools.
- Plan and coordinate with the Mississippi Department of Education-Special Education Director and Director 504 Services of to plan and conduct at least annual training and semi-annual work groups for the purpose of cross-training in understanding the services offered by Vocational Rehabilitation.
- Develop and implement the use of an OVR Transition Manual designed to assist staff in the delivery of transition services. This manual will be used as a technical assistance tool for transition planning purposes.
- Annually identify 504 Coordinators and special education staff for each school.
- Co-develop and implement self-identification tool identifying youth with disabilities who could possibly benefit from transition services.
- Establish relationships with parent training and information groups, advocacy groups and other service providers to encourage referral and parental participation in the development and provision of transition services.
- Establish comprehensive guidelines and indicators for assessing the individual transition needs of students.

- Work with other core partners in the workforce system to provide employment related services to prevent duplicative services.
- Contract with additional Community Rehabilitation Programs to provide Pre-Employment Transition Services.

GOAL IV: Implement identified improvements to increase statewide consistency and quality of consumer services.

Strategies (Plan of Action):

- Use results of the annual case review to determine where additional guidance and training are required.
- Utilize the new counselor training process for mentoring, training, and leadership development for all VR Counselors.
- Utilize and continue to develop consistent training process for key VR staff that deliver direct client services.
- Conduct annual statewide case record reviews of case service practices to determine consistency and adherence with federal/state requirements. Use case review results to identify and implement improvements in quality and consistency of services.
- Survey OVR staff on practices and provide refresher training to assure consistent and quality service delivery.
- Deliver high quality training and support to provide staff with the knowledge and skills needed to perform effectively.
- Recognize and appreciate staff throughout the division for their contributions to VR's success.
- Continue to update and deliver advanced best practices training to field staff statewide to provide ongoing skill development in key service delivery operations and practices, including a strong focus on customer service, cultural sensitivity, and better addressing each consumer's impediments to employment.
- Increase collaboration within the workforce system to improve services to unemployed workers with disabilities who are eligible for VR services by better leveraging services with other workforce development programs.
- Play stronger roles on state and local Workforce Boards to assure that VR consumers and other individuals with disabilities are better served by the One-Stop system.
- Increase collaboration with community colleges to improve coordination of VR services with community college programs and Adult Basic Education programs.
- Implement written agreements with providers for individuals with intellectual and development disabilities to affirm their roles and responsibilities for serving VR consumers, including their capacity for providing long-term employment supports to individuals after the VR case is rehabilitated.

B. SUPPORT INNOVATION AND EXPANSION ACTIVITIES; AND

In an effort to expand and improve services to all individuals with disabilities, MDRS, Office of Vocational Rehabilitation and Office of Vocational Rehabilitation for the Blind will:

- Continue to develop a job placement culture with OVR/OVRB Counselors by continuing to develop services and provide tools and resources for job preparation services for clients that have reached this point in the their IPEs.
- The VR Career Counselors will continue to assist clients in getting prepared for job interviews, completing application and being job ready.
- OVR/OVRB Counselors will ensure that at the application process, counselors are providing VR Counseling and Guidance regarding the overall purpose of VR Services which is Competitive Integrated Employment.
- The Office of Business Development Representatives will continue working to bring to the table labor market information so that counselors will be aware of career opportunities and sector strategies in the state.
- Paid Internship opportunities and paid work based learning opportunities will continue to be developed with employers in the community so that consumers can receive training in the competitive labor market. This training will also assist with career exploration, the selection of employment goals and ultimately clients obtaining skills to qualify for Competitive Integrated Employment opportunities.
- MDRS engages in numerous programs and activities designed to inform and make available VR and Supported Employment services to individuals with disabilities including individuals with Significant Disabilities.
- MDRS will continue outreach activities and provide information to community partners, community program, high schools, colleges and universities.
- Continue to implement the strategies and goals to serve more students with disabilities, such as engaging key partners, participating in training opportunities and outreach meetings to ensure that school staff understand the importance of VR Services for students prior to them exiting high school will increase the success of those students that exit school and transition to post high-school training programs and employment.
- MDRS will continue to support the work of the Statewide Rehabilitation Council (SRC). The SRC's input has been very important in impacting change in the delivery of VR Services as well as the implementation of the Consumer Satisfaction Survey and other policy changes.
- The agency and the SRC currently have a SRC budget that provides support for all SRC activities, training, and innovation and expansion activities. Through these funds, the SRC has advised and provided input in expansion of services directed at consumers who are blind for the additional CRPs and individuals with Autism and other development disabilities.
- The listed activities below are a continuation of expansion of current practices. However, in 2021-2022, the CSNA provided innovation and expansion recommendations that include, but not limited to:
 1. Develop and expand work based learning opportunities for individuals who have significant disabilities, including blindness.
 2. Innovation of customized employment opportunities for the blind.
 3. Develop and expand CRPs that provide services, Pre-Employment Transition Services (Pre-ETS), and employment services with a vocational rehabilitation outcome of Competitive integrated Employment.

4. Expand the Community Rehabilitation Program for the blind, deafblind, and or visually impaired to address the employment outcomes and independence for VR consumers with significant disabilities.
5. Expand the Community Rehabilitation Program for individuals with Autism and other social skills disorders.

C. OVERCOME IDENTIFIED BARRIERS RELATING TO EQUITABLE ACCESS TO AND PARTICIPATION OF INDIVIDUALS WITH DISABILITIES IN THE STATE VR SERVICES PROGRAM AND THE STATE SUPPORTED EMPLOYMENT SERVICES PROGRAM.

The strategies and goals to innovate and expand Vocational Rehabilitation Services, including Supported Employment Services will help increase individuals with disabilities access to VR Services in the state, bring awareness of VR Services in the state and increase the number of individuals with disabilities not to just obtain employment but maintain employment. The goals and strategies will assist in ensuring that the individuals are provided services in which they not only can overcome lack of skills to compete, but have middle and higher skills to compete and qualify for employment opportunities.

The strategies and goals will also help ensure that OVR/OVRB Counselors are qualified and have the skills needed to work with individuals with various type of disabilities, including Autism and Mental Illness. Having skilled and qualified staff will help provide quality VR Services to the individuals we serve.

The strategies and goals will help to ensure that individuals with disabilities have a selection of community rehabilitation programs to assist in providing VR services that will enable them to obtain Competitive Integrated Employment. This has been a huge barrier to overcome in the state of Mississippi.

Continuing to work with other Workforce partners will help individuals receive the wrap around services needed in order to be willing to accept employment opportunities and be able to receive the services individuals need while preparing for employment.

P. EVALUATION AND REPORTS OF PROGRESS: VR AND SUPPORTED EMPLOYMENT GOALS

1. AN EVALUATION OF THE EXTENT TO WHICH THE VR PROGRAM GOALS DESCRIBED IN THE APPROVED VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN FOR THE MOST RECENTLY COMPLETED PROGRAM YEAR WERE ACHIEVED. THE EVALUATION MUST:

A. IDENTIFY THE STRATEGIES THAT CONTRIBUTED TO THE ACHIEVEMENT OF THE GOALS

GOAL I: Improve the employment, economic stability, and self-sufficiency of eligible individuals with disabilities.

Report of Progress:

- 28.2% increase in VR consumers that obtained and employment outcome from 2018 to 2019. Due to the impact of COVID-19 OVR saw a 12% decrease in the number of individuals that obtained employment, however 2710 individuals achieved competitive integrated employment in 2020 and 2375 achieved competitive integrated employment in 2021. There was a 50% increase in VRB consumers that obtained an employment outcome from 2018 to 2019. Due to the impact of COVID-19 OVRB saw a 32% decrease in the number of individuals that obtained employment in 2020, however 352 individuals obtained competitive integrated employment and in 2021 239 obtained competitive integrated employment.
- In 2019, the Measurable Skill Gain (MSG) rate was 59.8% and in 2020 MSG for consumers served was 72.4%

- The median hourly wage for individuals exiting the VR/VRB program with an employment outcome has increased. In 2018 median wage was \$11.54 and the median hours worked per week was 40 hours. In 2019 the median wage increased to \$12.00 per hour and in 2020 the median wage increased to \$13.00.
- In 2018-2019, 5,182 new IPE were signed, in 2019 -2020, 4,960 IPEs were signed, 2020-2021, 4,564 IPEs were signed.
- Three Youth Pre-Employment Transition Conferences were held in Vicksburg on April 26, 2018, Greenwood on May 22, 2018, and Biloxi on April 28, 2018. Due to COVID-19, Transition Conferences were postponed in 2019 -2021.
- VR Career Counselors in 2019, assisted 267 clients received Job Prep and Job Ready Services. VR Career Counselors continue to assist clients become 'Job Ready". In 2020, 729 consumers received job prep services, 442 received job search and 225 clients received job placement. In 2021, 363 received job prep and 284 received job search services and 130 received job placement.
- The 7th Annual Summer Internship for Students with Blindness was completed in 2019. Fourteen (14) students participated.
- In 2021, 8th Annual Summer Internship for Students with Blindness was completed and eight (8) students participated. The 2020, Annual Summer Internship was postponed due to COVID-19. Four (4) consumers were hired into competitive integrated employment after completing their internship.
- 626 clients received Benefits Counseling from our Community Work Incentive Partners in 2019. 490 VR consumers received Benefits Counseling and 487 VR consumers in 2021. The number that received Benefits Counseling were impacted by COVID-19
- 10,346 individual contacts to business in the state of Mississippi were made by Business Development staff in 2018 11,245 individual contacts to business in the state of Mississippi was made in 2019.
- 6276 individual contacts to business in the state of Mississippi were made in 2020. COVID 19 had an impact on the number of businesses contacted.
- 9857 individual contacts to business in the state of Mississippi were made in 2021
- Five job fairs (three major, two minor in size) were held in Tupelo, Jackson, Gulfport, Greenwood, and Cleveland in 2018.
- Three job fairs were held in Southaven, Jackson, and Gulfport in 2019. 130 businesses attended. Due to COVID-19, Job Fairs in 2020 were cancelled.
- In October 2021, Job Fair held in conjunction with the University of Mississippi that targeted college students with disabilities. Twenty-eight businesses attended
- Seventy students (72) with disabilities participated in the Student Summer Internship Program (SIP) in 2019. Fifty-four (54) students participated in 2020 and seventy-three (73) participated in 2021.
- Eleven students with disabilities participated Project SEARCH in 2018-2019. This partnership was created with the University Medical Center, the Rankin County School District, the Mississippi Council for Developmental Disability and MDRS/VR. Nine graduated the program with a 100% placement percentage.

- Project SEARCH was expanded by 4 more locations: North Mississippi Medical Center (Tupelo), Forest General Hospital (Hattiesburg), Baptist Medical Center (Jackson), and Southcentral Regional Medical Center (Laurel in 2019).
- In 2020 -2021, Forty-two (42) individuals with disabilities participated in Project SEARCH and existing and new partnerships were created with the University MS Medical Center, Baptist Jackson, Baptist Attala, Merit Health-Vicksburg, South Central Regional Medical Center, North MS Medical Center and Forrest General Hospital.
- 104 individuals with disabilities have been placed into employment at Sephora Distribution facility in Olive Branch, MS as of October 2019, Sephora has committed to hiring another 50-75 more individuals through 2020. In July of 2019, Sephora had an attrition rate of 2-3% compared to 20-30% of the able-bodied population. Employees with disabilities had less than 1% absenteeism in the program. This partnership started in October 2017.
- In 2020, 31 individuals with disabilities received Sephora Distribution Center Training and 15 were hired. In 2021, 25 received training and ten were hired.
- In 2018, the Business Enterprise Program (Randolph Sheppard) had five new vendors open businesses. In 2019-2020, five new vendors opened and in 2020-2021, two new vendors opened.
- In Summer 2021, the first Summer Pre-ETS Work-Based Learning Program was implemented. One Hundred-three (103) participated in the program. These students were placed with employers throughout the state in their local communities.

GOAL II: Improve the VR Service Delivery System to Individuals with Disabilities

Report of Progress:

- MDRS contracted with RL Brown Group Inc. to translate client service forms and documents from English into Spanish.
- In 2021, RL Brown Group began translating brochures in Spanish beginning with our Transition and Youth Services Brochure
- VR has sixty seven (67) individuals whose primary language is Spanish as a result of the outreach and translation of forms and brochures.
- 189 individuals signed and developed a Career Pathway IPE in 2019, 152 in 2020 and 2021 in 136. This process was designed to provide expedited VR services to clients with *Significant Disabilities* by allowing the counselor to establish an employment goal with a consumer within a specific Career Pathway and provide Vocational/Career Counseling and other designated VR services more quickly after a determination of eligibility has been made. For students with disabilities, a Career Pathway (Fast Track) IPE supports the provision of Pre-Employment Transition Services needed to ensure that the student's specific employment goal is consistent with their strengths, abilities, capabilities, concerns, priorities, interest and informed choice.
- VR updated its Supported Employment Policy and Procedures to increase the focus on clients that need SE services. This process helped increase the number of individuals served in the SE program. In 2020, 548 individuals received SE services.
- VR staff work in partnership with other agencies such as the Department of Mental Health, Bureau of Intellectual and Developmental Disabilities. The Memorandum of

Understanding with the Department of Mental Health was renewed for May 1, 2021 through April 30, 2024.

- Autism Spectrum Disorders - Two new providers entered into contracts to provide evaluation and assessment services to individuals with Autism and other significant disabilities. These provider contracts have been renewed.
- In 2018, 311 individuals with autism were provided VR Services. In 2019, the number of individuals with autism increased to 449, 2020 the number served increased to 604 and in 2020 the number served increased to 628.
- In 2021 and new Interagency Agreement was established with TEAAM that provides services to individuals with autism spectrum disorders, attention deficit disorder, specific learning disability and other intellectual and development disorders.
- The 3rd Annual VR Deaf Pre-ETS Summer Program was held by the Deaf Services Program at Eagle Ridge in July 2019. The DEAF Pre-ETS Summer Program was postponed in 2020 and 2021 due to COVID-19.
- VR developed the Outreach and Orientation Program to be utilized by district staff to conduct outreach with other organizations and service providers. Continuing in 2018 and 2019, progress on this has been slow due to other major responsibilities. VR will continue to move toward implementing the Outreach and Orientation Program. Progress on implementing has been delayed in 2020 and 2021 due to COVID-19 and staff shortages.
- Supported Employment Job Skills Manual and training was provided in three locations throughout the state to VR and VRB staff, IDD Waiver providers and other agencies and organizations that provide Employment Services.
- The Interagency Cooperative Agreement with the Department of Education was renewed for January 1, 2020 through June 30, 2022. In 2020 -2021, all Memorandum of Agreements with local education agencies were updated.
- In 2019, OVR/OVRB launched the first Peer Mentoring Pilot Program at the University of Southern Mississippi and Mississippi State University. The guidance and support of the WINTAC Pre-ETS team played a vital role with the implementation of these projects in Mississippi. Given the support of WINTAC and the Pre-ETS team, Mississippi is proud to be one of the first states in the nation to implement a Peer Mentoring project.
- In 2020 through 2021, Interagency Agreements for Peer Mentoring have been executed with East Mississippi Community College/Student Support Services, August 1, 2020 – July 31, 2023; Northwest Mississippi Community College/Success Center – September 1, 2020 – July 31, 2023; Mississippi State University/Disability Resource Center – June 1, 2021 – June 30, 2023, and the University of Southern Mississippi – June 1, 2021 – June 30, 2023.
- VR and VRB staff participated in the process with the assistance of WINTAC to work with pilot areas in the Belden/Tupelo and Greenville areas to improve service alignment among VR Core Partners, required partners and other stakeholders in these areas. WINTAC facilitated the Integration Continuum Self-Assessment. In both locations, the partners selected priority areas to make strategic improvements. Each area established Action Teams to oversee the implementation with WINTAC of the strategic plans that includes a cross-section of partners with VR staff in leadership roles. Due to COVID -19 further work on the Integration Continuum was halted.

GOAL III: Implement a statewide model for more effectively serving high school youth and students with disabilities including individuals with visual and/or hearing impairments.

Report of Progress:

- The 3rd Annual VR Deaf Pre-ETS Summer Program was held by the Deaf Services Program at Eagle Ridge in July 2019. In July 2019, the 4th Annual Pre-Employment Transition Camp for Students with Deafness was held.
- 14 Students with Blindness participated in the OVRB 6th Summer Internship Program.
- VR served 3,609 students with disabilities and VRB served 676 students with disabilities for a total of 4,285. This is an increase of 486 students from 2018.
- In 2020, OVR served 3595 eligible and potentially eligible students with disabilities. This is a decrease from 2019 due to COVID-19 and the limited access to students.
- In 2020, OVRB served 301 eligible students with disabilities. This is a decrease from 2019 due to COVID-19 and the limited access to students.
- In 2021, OVR/OVRB served 2605 eligible students with disabilities and 1,292 potentially eligible students with disabilities.
- OVR/OVRB successfully completed the first pilot year of Peer Mentoring with two of universities in the state: Mississippi State University and the University of Southern Mississippi. In 2020 through 2021, Peer Mentoring will be provided at East Mississippi Community College and Northwest Mississippi Community College/Success Center – Pre-Employment Transition Services were provided through OVR's partnership with the Mississippi State University - T.K. Martin Center through on-campus internships. COVID-19 impacted this partnership in 2019–2020. Contracts were renewed and as steps are being made to prevent the spread of COVID-19 as we look forward to this partnership.
- Pre-Employment Transition Services were provided through OVR's partnership with the ARC of Mississippi through after school Pre-ETS classes in a rural part of the state. This contract will continue in 2021–2022.
- Pre-Employment Transition Services were provided through VRB's partnership with the National Federation of the Blind through two Transition conferences. This contract will continue in 2020–2022.
- Pre-Employment Transition Services were provided through OVR's partnership with Life of MS through two different one-day transition conferences across the state. This contract will continue in 2020-2022
- Pre-Employment Transition Services were provided through OVR's partnership with Vocational & Rehabilitation Consultants, LLC through one three-day conference. This contract was impacted by COVID-19.
- Pre-Employment Transition Services were provided through OVR's partnership with the University of Southern Mississippi through on-campus weeklong Transition Boot Camps and in-school Pre-ETS activities. This contract will continue in 2020–2022 and many activities provided are virtual.

GOAL IV: Implement identified improvements to increase statewide consistency and quality of consumer services.

Report of Progress:

- Consumer Satisfaction Survey was implemented in 2018 for open OVR/OVRB cases by the Program Evaluation Unit.

B. DESCRIBE THE FACTORS THAT IMPEDED THE ACHIEVEMENT OF THE GOALS AND PRIORITIES

Due to the ongoing changes with federal reporting, MDRS continues to work with staff to understand and incorporate new rules and processes. VR and VRB are still working to achieve the goals and implement the strategies outlined in this state plan. Although all of the strategies were not achieved to meet the goals, significant progress was made to increase the goals.

Some of the factors that impeded the achievement of the goals and priorities were:

- High staff turnover experiences over the last few years affected VR's ability to provide consistent, high-quality services to consumers as referenced in the CSNA;
- The effects of COVID-19 affected our ability to provide access to needed services due to the nation and statewide shutdown of schools and businesses;
- Increasing number of referrals for Pre-Employment Transition Services and Transition Services; and
- Extensive training on new policy and procedures due to the changes in WIOA and the RSA 911.

2. AN EVALUATION OF THE EXTENT TO WHICH THE SUPPORTED EMPLOYMENT PROGRAM GOALS DESCRIBED IN THE SUPPORTED EMPLOYMENT SUPPLEMENT FOR THE MOST RECENT PROGRAM YEAR WERE ACHIEVED. THE EVALUATION MUST:**A. IDENTIFY THE STRATEGIES THAT CONTRIBUTED TO THE ACHIEVEMENT OF THE GOALS**

In review of the Comprehensive Needs assessment, the Transition Needs assessment, unserved and underserved populations and minority populations, the following goals are reported as a result of the strategies identified:

Report of Progress for the Supported Employment (SE) program for 2020:**GOAL I: Improve the employment, economic stability, and self-sufficiency of eligible individuals with disabilities.****Report of Progress:**

- 29 referrals were received from the IDD Waiver Program
- 92 referrals for individuals with serious mental illness were received from the Department of Mental Health.
- 583 individuals received CCIR referrals that were in Subminimum Wage Employment facilities

GOAL II: Improve the VR Service Delivery System to Individuals with Disabilities

Continue the referral process between the VR Transition Counselor and the VR Supported Employment (SE) Counselor for students with disabilities, ages 14-21, who have been determined to need long-term ongoing support services.

Report of Progress:

- 59 Job Coaches hired to provide job training services.

- 55 Individuals placed in employment
- 51 individuals reached a competitive employment outcome (Closed Rehabilitated)
- SE Counselors and Transition Counselors worked together to identify students and provide orientation regarding VR services to school districts throughout the state.
- In 2020–2021, Seven (7) new Project SEARCH sites were added
- Job Skills Training Manual Training was held in the North, South and Central part of Mississippi in which staff from MDRS and the Department of Mental Health attended. Due to the COVID-19 pandemic, this joint training was placed on hold.

When school year begins, the Transition Counselor should contact each school district and schedule a meeting with the Special Education teachers to discuss possible referrals. If the school reports having any students identified with hearing and/or vision loss, the RCD and/or VRB Counselor should be invited to attend the meeting as well. The counselors will work together to actively elicit referrals on all students with disabilities age 14-21, regardless of their classroom assignment. Counselors will meet with potential referrals and review the school's supporting documentation. It can be assumed, students who have been identified by the school as requiring additional supports to be successful in the educational setting, will require long-term supports to gain and maintain employment. After the Transition Counselor has established that the client is eligible for VR services and will require Supported Employment, the case can then be referred to the SE Counselor to provide any Pre-Employment Transition Services (Pre-ETS).

SE Counselors have a separate Supported Employment and Supported Employment Transition caseload. This assist with monitoring the SE services provided to Adults and Students/Youth.

GOAL III: Implement a statewide model for more effectively serving high school youth and students with disabilities including individuals with visual and/or hearing impairments.

Report of Progress:

- Training was provided to all Transition Counselors and SE Counselors on procedures for making referrals and changes due to new federal regulations. Discovery Training was provided by Shelby Residential and Vocational Services (SRVS);
- New provider, Shelby Residential and Vocational Services (SRVS), entered into a contract to provide Customized Employment Services to individuals with the *most significant disabilities*. Discovery is available through the IDD Waiver Program that certifies providers for SE services.
- In 2021 – 2022, three new contracted Navigator positions will be filled to generate referrals and manage potentially eligible caseloads;
- Monthly Transition Meetings that include Training topics will continue through 2022. These are held virtually.
- Transition and Youth Services Resource Guide was updated.
- OVR was approved to add ten new VR Counselor positions. The positions were not available for recruitment until after July 2021.

B. DESCRIBE THE FACTORS THAT IMPEDED THE ACHIEVEMENT OF THE GOALS AND PRIORITIES

OVR/OVRB will continuously work to implement new policies and procedures regulated by WIOA. In the SE program, some of the factors that impede the achievement of the goals and priorities are:

- SE Counselor and/or VTI vacancies which causes a delay in service and sometimes the quality of service provided is impacted;
- The number of referrals received from cooperative partners and Transition Counselors decreased since the start of the pandemic, therefore decreasing the caseload size, workload and/or services provided;
- SE Counselors understanding cooperative agreements with other programs and the services other programs provided such as the IDD Waiver and Severe Mental Illness;
- The lack of trained and reliable job skills trainers throughout the state;
- Vocational Training Instructors are limited in training and skills;
- The current tracking system for SE referrals is insufficient;
- The lack of training for SE Counselors;
- High staff turnover experiences over the last few years affected the VR's ability to provide consistent, high-quality services to consumers as referenced in the CSNA; and
- The effect COVID-19 which caused a national pandemic which affected our ability to provide services due to school and business closures.

3. THE VR PROGRAM'S PERFORMANCE ON THE PERFORMANCE ACCOUNTABILITY INDICATORS UNDER SECTION 116 OF WIOA

The Workforce Partners in Mississippi worked together to create a Shared Data Warehouse that will link our separate case management and data systems. We refer to this as 'The Hub', and worked with a vendor, NSPARC, to create this data warehouse and bridge. National Strategic Planning & Analysis Research Center (NSPARC) designed and wrote *the Hub*. Founded in 1998, NSPARC is a university research center with more than 100 diverse employees ranging from data scientists to software architects and security experts. NSPARC supports Mississippi State University's overarching goals of research, learning, and service by collaborating within the university, through local, state, and federal agencies, and across the private sector to help society grow by discovering solutions to societal problems by using data science. They pursue entrepreneurial and collaborative initiatives to develop and maintain a pipeline of intellectual property and innovative technologies that positively impact real-world problems. NSPARC is headquartered in Starkville, Mississippi, adjacent to Mississippi State University's campus.

MDRS entered into an agreement with NSPARC to develop a proof of concept in regards to how MDRS would capture the required data into the Hub. The proof of concept was tested and completed in March of 2016. NSPARC was able to use MDRS' proof of concept in order to move forward with developing the Hub for all partners.

MDRS entered into another agreement with NSPARC and our software vendor Alliance in July of 2016. This agreement was for MDRS to provide the necessary data needed for the Hub from our current case management system and to update our Referral Module with the new process of our getting and receiving referrals from our partners. From July of 2016 until June of 2017, Alliance, MDRS, and NSPARC met to work through the process of how the data would be exchanged between the Hub and our case management system.

All partner agencies completed their separate intake forms with new customers. In each of these separate forms, however, there are **six diagnostic questions** that are the same on all **forms and multiple demographic fields that are shared between partners (Intake)**. These data

elements are automatically uploaded into the Hub - or auto filled - if the unique identifier matches a profile that already exists in the Hub. If data in these areas is different from the information that was previously in the profile, this information will be updated with that from the most recent entry. The initial version of the Hub was completed in June 2017. MDRS has been sending data to the Hub since that time and was the first partner to go live.

The WIOA Hub software development was released and launched into the production environment on May 23, 2017. The other partners came on board between January 2018 and June 2018. Once other partners went live in the Hub, MDRS began receiving referrals from them through the Hub directly into MDRS' Case Management System. In the future, the PIRL for the State of Mississippi will be created through the Hub.

MDRS and other state partners are now all live in the Hub. Referrals can be taken by any one of the partner agencies and based on how the individual answers the questions, referrals will be sent to other partner agencies through the Hub. MDRS' Case Management System retrieves referrals from the Hub nightly and they are marked as Workforce Referrals. They are then worked by MDRS staff where the individual is contacted to determine if they are potential candidates for services provided by MDRS.

MDRS submits requests and receives multiple quarters of wage data from MS Department of Employment Services (MDES) quarterly. MDRS then imports that data into MDRS' Case Management System which is then used in the RSA-911 performance measures submitted each quarter.

Alliance is the vendor that provides the Case Management System (Aware) for the Mississippi Department of Rehabilitation Services (MDRS) and for the OVR/OVRB `programs in at least 35 other states. MDRS has been working with Alliance to ensure that the performance measures are included in Aware. Alliance has multiple user groups across 35+ states that meet to discuss Aware with Aware users. The WIOA/RSA-911 and the Aware VR User Groups are two that are involved in ensuring that all federal reports and WIOA requirements are met.

- The Workforce Partners meet periodically to discuss how to enhance the Hub to better serve individuals.
- WIOA/RSA-911 User Group meets periodically throughout the year.
- Aware VR User Group monthly.
- There is an Aware Community of Practice User Group made up of Rehabilitation Services agencies all over the United States that meet periodically throughout the year.
- There are two major releases of Aware each year. There are other minor releases that address items related to WIOA/RSA-911.
- MDRS continues to submit multiple quarters of RSA 911 data and the Annual Performance Report (ETA-9169).
- MDRS continues to request and receive multiple quarters of wage data from MDES for the RSA-911 performance measures.

The Primary Indicators of Performance are:

1. Unsubsidized Employment During the 2nd Quarter After Exit
2. Unsubsidized Employment During the 4th Quarter After Exit
3. Median Earnings
4. Credential Attainment Rate

5. Measurable Skill Gain

6. Indicator(s) of Effectiveness in Serving Employers

A. Percentage of program participants who are in unsubsidized employment during the second quarter after exit from the program.

The Office of Vocational Rehabilitation and Vocational Rehabilitation for the Blind has in place a data sharing agreement with the Mississippi Department of Employment Security UI wage, to allow us to capture data for quarterly reporting of earnings and employment. VR/VRB will need to establish additional data sharing agreements to allow us to capture out of state data to ensure the full measuring of earnings for VR/VRB participants who exit the program. VR/VRB has also added a process to allow staff to collect self-employment earnings and employment success.

- Achieved PY 2020 – 2455 Individuals Employment (Q2) Rate 52.9%
- Projection 52.9%

B. The percentage of program participants who are in unsubsidized employment during the fourth quarter after exit from the program.

The Office of Vocational Rehabilitation and Vocational Rehabilitation for the Blind has in place a data sharing agreement with the Mississippi Department of Employment Security UI wage, to allow us to capture data for quarterly reporting of earnings and employment. VR/VRB will need to establish additional data sharing agreements to allow us to capture out of state data to ensure the full measuring of earnings for VR/VRB participants who exit the program. VR/VRB has also added a process to allow staff to collect self-employment earnings and employment success.

- Achieved PY 2020 – 2282 Individuals Employment (Q4) Rate 51.3%
- Projection 53%

C. The median earnings of program participants who are in unsubsidized employment during the second quarter after exit from the program.

The Office of Vocational Rehabilitation and Vocational Rehabilitation for the Blind has in place a data sharing agreement with the Mississippi Department of Employment Security UI wage, to allow us to capture data for quarterly reporting of earnings and employment. VR/VRB will need to establish additional data sharing agreements to allow us to capture out of state data to ensure the full measuring of earnings for VR/VRB participants who exit the program. VR/VRB has also added a process to allow staff to collect self-employment earnings and employment success.

- Achieved PY 2020 - \$6003.76
- Projection \$6073.00

D. The percentage of program participants who obtain a recognized postsecondary credential or a secondary school diploma or its recognized equivalent one year after exit from the program.

VR/VRB AWARE case management system records and captures Educational/Training goal information that records program participants who have received a recognized postsecondary credential or a secondary school diploma. Staff has been training in and provided procedures on how to document the Educational Goal page and the documentation that is required. VR/VRB is also registered with and obtains information from the National Student Clearinghouse that provides data and helps confirm academic credentials.

- Achieved PY 2020 – 52 Individuals Credential rate 21.1%
- Projection 24.7%

E. The percentage of program participants who, during a program year, are in an education or training program that leads to a recognized postsecondary credential or employment and who are achieving measurable skill gains toward such a credential or employment.

VR/VRB AWARE case management system allows staff to record Measurable Skill Gain for each participant that is identified in a secondary or postsecondary education or training program. Staff has been training and provided procedures on how to document the individuals Educational Goal record and update this page when Measurable Skill Gains are achieved.

- Achieved for PY 2020 – 1159 Individuals MSG Rate 69.7%
- Projection 69.8%

F. Indicator(s) of Effectiveness in Serving Employers

- Not Applicable

4. HOW THE FUNDS RESERVED FOR INNOVATION AND EXPANSION (I&E) ACTIVITIES WERE UTILIZED

Mississippi State Rehabilitation Council

MDRS continues to use Innovation and Expansion (I&E) funds to assist in carrying out the duties of the State Rehabilitation Council. I&E funds specifically provide for the following:

- Support staff to assist the SRC in carrying out its duties;
- Operational costs which include travel and office supplies
- Any cost involved in having members attend meetings and trainings
- The cost associated with the quarterly Annual Consumer Satisfaction Survey

Pre-Employment Transition Services Providers and Services

Funds will be used to expand pre-employment and transition providers and services to students with disabilities by creating contract Transition Navigators. Additional contract transition staff will help expand services and assist OVR/OVRB provide access to these needed services. Based on information from the Mississippi Department of Education, there are over 22,000 students in the state with disabilities.

In 2020–2021, over thirteen (13) new Pre-ETS providers were contracted with to provide Pre-Employment Transition Services. The Transition Contract Employees will end effective June 30, 2022. VR/VRB will continue to add new Pre-ET providers. Progress has been made to advertise and hire three Transition Navigators. To date, only two (2) Transition Navigators have started.

Social Skills Classes for Individuals with Autism and other related disabilities with social challenges

Consumers with Autism Spectrum Disorder are having difficulty getting and keeping employment due the deficits in social skills and communication skills. Some can perform job tasks, but do not have appropriate social and soft skills necessary to be successfully employed. Once they have completed high school, many feel isolated due their lack of structured social interactions like they had in school. Plans are to create a group-based social skills class for students/youth who have Autism Spectrum Disorder (ASD) or related disabilities with social challenges. These classes will assist these individuals in making a smoother transition from adolescents to adulthood, increase peer relations and increase the likelihood of gaining and maintaining employment.

Social Skills Classes are currently being developed and providers being identified. We are planning to have providers and these classes start in 2022.

Project SEARCH

Efforts will continue to be made and funds will be expended to support Project SEARCH sites. Project SEARCH is expanding and has been proven nationally to be a vital program to train and assist individuals with significant disabilities prepare for and obtain employment.

In 2020 – 2021, twelve (12) Project SEARCH sites were added.

Customized Training Programs

Funds will be used to expand working with employers on Customized Training Programs. The first Customized Training program with Sephora was very successful and to date over 100 individuals with disabilities obtained full-time employment with benefits. Collaboration will continue with other employers/industries to train and hire individuals with disabilities. Toyota and Fastenal have started initial conversation and collaboration.

Staff received training in Customized Employment and a new provider identified in 2020 that will not be able to provide Customized Employment Services.

Q. QUALITY, SCOPE, AND EXTENT OF SUPPORTED EMPLOYMENT SERVICES

1. THE QUALITY, SCOPE, AND EXTENT OF SUPPORTED EMPLOYMENT SERVICES TO BE PROVIDED TO INDIVIDUALS WITH THE MOST SIGNIFICANT DISABILITIES, INCLUDING YOUTH WITH THE MOST SIGNIFICANT DISABILITIES

MDRS, Office of Vocational Rehabilitation, offers statewide Supported Employment services, including Customized Employment, for individuals and youth with the *most significant disabilities* reach Competitive Integrated Employment outcomes. OVR has updated its policy manual to align with WIOA mandates.

Established a Memorandum of Agreement with the Mississippi Department of Mental Health, Bureau of Intellectual and Developmental Disabilities to ensure individuals who are duly eligible for both agencies' programs have collaborative supports and services toward Competitive Integrated Employment outcomes. The Memorandum of Agreement outlines the coordination of services, including Extended Services, Supported Employment, and Customized Employment.

The SE Program provides services to individuals with the most significant disabilities who require intensive support to prepare for, secure, retain, or regain employment. The services are designed to meet the current and future needs of these individuals whose disabilities are of such nature that they need continuous, ongoing support and extended services in order to engage in and maintain gainful employment. VR services include evaluation, assessment, job matching, job development, and job placement and brokering for natural supports for extended services. The specific SE services are job coaching and training.

OVR allocates fifty percent of the federal Supported Employment funding on Supported Employment services for eligible youth with the *most significant disabilities*. Youth under the age of 25 may receive extended services (i.e., ongoing supports to maintain an individual in Supported Employment) for up to four (4) years. MDRS will invest all Title VI allocations to fund the purchase of Supported Employment services and other allowable vocational rehabilitation services as needed by clients served in the SE Program. Additionally, the Coordinator for the SE Program and the Coordinator for Transition and Youth Career Services will work together to ensure new policies are in place and the appropriate amount of funding is utilized for youth with the most significant disabilities.

Eligible individuals are those who are determined to be *most significantly* disabled, which means they meet the following criteria:

- *individual has a most 'significant disability'- *individual's physical or mental impairments seriously limit three (3) or more functional capacities in terms of an employment outcome. Individual will require vocational rehabilitation services in order to prepare for, secure, retain, or regain employment*

MDRS employs a unique strategy for delivery of SE services. The SE Program's structure and service delivery mechanism are integrated into that of the general agency service delivery system. The services are authorized, coordinated and, in most instances, delivered by staff of the state unit. Counselors who specialize in SE perform the functions of case management, job development, and supervision of overall SE service delivery in their respective districts. They are assisted by Vocational Training Instructors (VTIs) who perform a variety of functions including assessment, job development and placement, job training, job coach supervision, and facilitation of natural supports. Job Coaches are employed on an "as needed" basis. Counselors are assigned to serve SE eligible individuals in each of the ten districts to ensure statewide coverage. The SE staff includes 14 counselors, 11 VTIs, and a pool of available Job Skills Trainers who are assigned to work with a Supported Employment (SE) client *as needed*. Additionally, this staff works with the statewide Community Rehabilitation Program, AbilityWorks, Inc., a division of MDRS.

MDRS, Office of Vocational Rehabilitation, contends that its responsibility regarding SE is the same as its responsibility for the general program. The SE Programs for both VR and VRB have been combined into one program serving all eligible individuals. VR Counselors, assigned to SE caseloads, have the same duties and responsibilities as those in the VR and VRB programs. However, the caseloads of the VR Counselors assigned to SE caseloads consists of only those clients who meet Title VI eligibility criteria. Therefore, in addition to general agency policy and procedures, VR Counselors must be knowledgeable about Title VI regulations and the unique requirements for SE eligibility.

SE personnel are trained in general VR case management techniques and VR federal regulations, and are held to the same procedures and standards of performance as all other VR Counselors.

MDRS, Office of Vocational Rehabilitation, designates a statewide Supported Employment (SE) Program Coordinator whose duties include the following:

- monitor issues developing in the field of SE;
- monitor staff performance and make recommendations and assist in implementing procedures to improve performance;
- serve as a resource person to staff;
- serve as an advisor to administrative staff in implementing programmatic policies in accordance with federal dictates;
- develop effective programmatic procedures;
- recommend training of SE staff;
- provide training for SE staff; and
- other typical functions of a coordinating and liaison nature.

MDRS, Office of Vocational Rehabilitation, maintains formal agreements with the Mississippi Department of Education and the Department of Mental Health as well as other public and private entities, which identify areas of collaboration to ensure a comprehensive program of services to SE eligible individuals. Staff members collaborate intensively with local mental

health centers, school districts, businesses and industries, the DD Council, parents, advocacy groups and other relevant third party providers and resources.

The service approach for SE eligible clients emulates the nationally accepted 'best practices' models of SE service delivery. Central to each of these approaches is an emphasis on Person-Centered Planning and facilitation of natural supports. Individualized job development is conducted by SE staff based on job matching assessment information and the client's informed choice. SE clients are assisted with employment planning and placement by VTIs and job skills training is provided at the job site either by Job Skills Trainers or through natural supports.

2. THE TIMING OF TRANSITION TO EXTENDED SERVICES

Job Stabilization is determined for each client in SE based on his/her unique circumstances. The Counselor determines the client's work performance is stabilized with input from the client, Job Skills Trainer, VTI, employer and extended service provider. Stabilization occurs when the client has demonstrated that he/she can perform the job to the employer's expectations. In addition, there should be a concurrent agreement between client, parent/legal representative, SE Counselor, Vocational Trainer Instructor, Job Skills Trainer and Extended Service provider that the client can perform the essential functions of his job with the provisions of Extended Services. The agreement should be the outcome of a meeting between the above parties. The Extended Service Support Plan Agreement (MDRS-SE-02) should also be signed during this meeting.

When stabilization occurs, the client is ready to transition from VR-funded SE services to the appropriate source of ongoing support from the *Extended Service* provider. This transition must not occur until all aspects of the client's placement indicate that the employment situation is secure and consistent with the client's functional capabilities and employment factors. It is at this point, the SE Counselor enters the job stabilization date on the AACE Employment page, moving the client's case into *Employed* status.

Upon completion of time-limited SE services, the ongoing job skills training assistance and other necessary long-term support is transitioned to a third party, group or individual through a Cooperative Agreement or Extended Services Support Plan Agreement. WIOA increased the maximum amount of time for SE staff to provide time-limited Supported Employment services to 24 months. However, the rate of transitioning a client to extended services is dependent upon the needs of the individual, his/her family, the employer, the third party agency, and other involved individuals. Since SE staff members and the extended service provider would have been collaborating in the provision of SE services throughout an individual's VR program, such transitions are normally smooth and do not cause job disruptions.

MDRS, Office of Vocational Rehabilitation, will continue to cooperate in the networking of services with entities that have Supported Employment facets or other applicable and/or similar resources, such as the state's Workforce Development One-Stop System. Such collaborative efforts are essential for effective planning, development, implementation and continuation of SE arrangements. Service networking will involve developing and identifying appropriate job sites, tapping existing or future job training resources, utilizing concurrent staffing opportunities, and other occasions for programmatic and budgetary interfacing.

Expansion of the SE Program is expected as a result of extensive outreach, staff development, interagency training, dissemination of information, identification and dissemination of information about best practices, technical assistance, and an emphasis on interagency collaboration for identification of potentially eligible individuals and service delivery to clients. MDRS continues to emphasize Person-Centered Planning by partnering with the Mississippi

Council on Developmental Disabilities, Mississippi Department of Education, and other entities in promotion of this service provision.

VOCATIONAL REHABILITATION (COMBINED OR GENERAL) CERTIFICATIONS

1. THE (ENTER THE NAME OF DESIGNATED STATE AGENCY OR DESIGNATED STATE UNIT, AS APPROPRIATE,) IS AUTHORIZED TO SUBMIT THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN UNDER TITLE I OF THE REHABILITATION ACT OF 1973 (REHABILITATION ACT), AS AMENDED BY WIOA[14], AND ITS SUPPLEMENT UNDER TITLE VI OF THE REHABILITATION ACT[15];

4. Administration of the Provision of VR Services: The designated State agency, or designated State unit, as appropriate, assures that it will:	
4.a. Comply with all requirements regarding information and referral services in accordance with sections 101(a)(5)(D) and (20) of the Rehabilitation Act	
4.b. Impose no duration of residence requirement as part of determining an individual's eligibility for VR services or that excludes from services under the plan any individual who is present in the State in accordance with section 101(a)(12) of the Rehabilitation Act	
4.c. Provide the full range of services listed in section 103(a) of the Rehabilitation Act as appropriate, to all eligible individuals with disabilities in the State who apply for services in accordance with section 101(a)(5) of the	No

The State Plan must include	Include
Rehabilitation Act? (Yes/No)	
4.d. Determine whether comparable services and benefits are available to the individual in accordance with section 101(a)(8) of the Rehabilitation Act	
4.e. Comply with requirements regarding the provisions of informed choice for all applicants and eligible individuals in accordance with section 102(d) of the Rehabilitation Act	
4.f. Comply with requirements regarding the provisions of informed choice for all applicants and eligible individuals in accordance with section 102(d) of the Rehabilitation Act	
4.g. Provide vocational rehabilitation services to American Indians who are individuals with disabilities residing in the State, in accordance with section 101(a)(13) of the Rehabilitation Act	
4.h. Comply with the requirements for the conduct of semiannual or annual reviews, as appropriate, for individuals employed either in an extended employment setting in a community rehabilitation program or any other employment under section 14(c) of the Fair Labor Standards Act of 1938, as required by section 101(a)(14) of the Rehabilitation Act	
4.i. Meet the requirements in sections 101(a)(17) and 103(b)(2) of the Rehabilitation Act if the State elects to construct, under special circumstances, facilities for community rehabilitation programs	
4.j. With respect to students with disabilities, the State,	
4.j.i. Has developed and will implement,	
4.j.i.I. Strategies to address the needs identified in the assessments; and	
4.j.i.II. Strategies to achieve the goals and priorities identified by the State, to improve and expand vocational rehabilitation services for students with disabilities on a statewide basis; and	
4.j.ii. Has developed and will implement strategies to provide pre-employment transition services (sections 101(a)(15) and 101(a)(25))	
5. Program Administration for the Supported	

The State Plan must include	Include
Employment Title VI Supplement:	
5.a. The designated State unit assures that it will include in the VR services portion of the Unified or Combined State Plan all information required by section 606 of the Rehabilitation Act	
5.b. The designated State agency assures that it will submit reports in such form and in accordance with such procedures as the Commissioner may require and collects the information required by section 101(a)(10) of the Rehabilitation Act separately for individuals receiving supported employment services under title I and individuals receiving supported employment services under title VI of the Rehabilitation Act	
5.c. The designated state unit will coordinate activities with any other State agency that is functioning as an employment network under the Ticket to Work and Self-Sufficiency program under Section 1148 of the Social Security Act	
6. Financial Administration of the Supported Employment Program:	
6.a. The designated State agency assures that it will expend no more than 2.5 percent of the State's allotment under title VI for administrative costs of carrying out this program; and, the designated State agency or agencies will provide, directly or indirectly through public or private entities, non-Federal contributions in an amount that is not less than 10 percent of the costs of carrying out supported employment services provided to youth with the most significant disabilities with the funds reserved for such purpose under section 603(d) of the Rehabilitation Act, in accordance with section 606(b)(7)(G) and (H) of the Rehabilitation Act	
6.b. The designated State agency assures that it will use funds made available under title VI of the Rehabilitation Act only to provide supported employment services to individuals with the most significant disabilities, including extended services to youth with the most significant disabilities, who are eligible to receive such services; and, that such funds are used only to supplement and not supplant the funds provided under Title I of the Rehabilitation Act, when providing supported employment services specified in the individualized plan for employment, in accordance	

The State Plan must include	Include
with section 606(b)(7)(A) and (D), of the Rehabilitation Act	
7. Provision of Supported Employment Services:	Yes
7.a. The Designated State Agency Assures That it Will Provide Supported Employment Services as Defined in Section 7(39) of the Rehabilitation Act	
7.b. The designated State agency assures that:	
7.b.i. The comprehensive assessment of individuals with significant disabilities conducted under section 102(b)(1) of the Rehabilitation Act and funded under title I of the Rehabilitation Act includes consideration of supported employment as an appropriate employment outcome, in accordance with the requirements of section 606(b)(7)(B) of the Rehabilitation Act	
7.b.ii. An individualized plan for employment that meets the requirements of section 102(b) of the Rehabilitation Act, which is developed and updated with title I funds, in accordance with sections 102(b)(3)(F) and 606(b)(6)(C) and (E) of the Rehabilitation Act

VII. PROGRAM-SPECIFIC REQUIREMENTS FOR COMBINED STATE PLAN PARTNER PROGRAMS

TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (TANF)

A. CONDUCT A PROGRAM DESIGNED TO SERVE ALL POLITICAL SUBDIVISIONS IN THE STATE (NOT NECESSARILY IN A UNIFORM MANNER) THAT PROVIDES ASSISTANCE TO NEEDY FAMILIES WITH (OR EXPECTING) CHILDREN AND PROVIDES PARENTS WITH JOB PREPARATION, WORK, AND SUPPORT SERVICES TO ENABLE THEM TO LEAVE THE PROGRAM, SPECIFICALLY CASH ASSISTANCE, AND BECOME SELF-SUFFICIENT (SECTION 402(A)(1)(A)(I) OF THE SOCIAL SECURITY ACT)

For the period beginning July 1, 2022, Mississippi will conduct a program designed to provide access to allowable work activities that will serve all political subdivisions (counties) in the State with emphasis on providing assistance to needy families with children and providing parents with job preparation, work, and support services to enable them to leave the program and become self-sufficient to the degree that State and local resources allow.

Program Administration

The TANF Program is administered by the Mississippi Department of Human Services (MDHS), the single State agency designated by State law for eligibility determination and spending authority. The organization is State-administered with at least one full-service office for intake and client service delivery located in each county with structured supervisory and regional administrative levels.

Mississippi will operate a statewide work program mandated by State law and TANF to provide work activities and supportive services (childcare, work stipend, and work-related expense payments) focused on enabling families to achieve and maintain self-sufficiency. In Mississippi, TANF monthly benefits and supportive service payments provided to individuals participating in allowable work activities or transitional programs are provided to the family by means of a Mississippi Debit MasterCard® card account. TANF supportive service payments issued to providers are paid by check, direct deposit, or by vouchers redeemable for services.

Mississippi will continue to provide financial assistance to needy families determined eligible under the established policies and the Standard of Need and maximum payment level for that size family. Needy Families are identified according to ongoing income, resources, and deprivation criteria. The monthly TANF grant described in Mississippi Code 1972 Annotated at 43-17-5(1), is \$200 for the first person, \$36 for the second person and \$24 for additional persons, except as restricted by the Family Benefit Cap. A needy family is defined as a family with a dependent child(ren) and an average annual income at or below 185 percent of the need standard. TANF funds may be used to provide non-financial assistance/services to families with income at or below 350 percent of the Federal Poverty Level.

Evaluation of Resources

Mississippi adopted Broad-Based Categorical Eligibility (BBCE) in June 2010 which exempted TANF families from being tested for resources, with certain exceptions, and provided TANF-funded services through Families First Resource Centers, thus conferring BBCE to certain applicant/recipient households.

In 2017, the Mississippi Legislature passed House Bill 1090, The Medicaid and Human Services Transparency and Fraud Prevention Act, or “Hope” (“Act to Restore Hope Opportunity and Prosperity for Everyone”) Act. The Hope Act required a significant change in the consideration of resources for applicants and recipients of Temporary Assistance for Needy Families (TANF) benefits. Under the requirements of the Hope Act, conferring BBCE status to most benefit households is no longer permitted. Effective July 1, 2019, all families applying for TANF (new

applications and redeterminations) will be subject to an evaluation of all household resources. The resource limit is \$2000 for all TANF households.

Under Change Reporting rules, families subject to an evaluation of resources must self-report if the total amount of resources exceeds the resource limit for the family. This self-reporting requirement is included in the Rights and Responsibilities (MDHS-EA-300) provided to the family. The Change Reporting Form (MDHS-EA-946) provides households the opportunity to self-report changes in liquid resources, such as cash, stocks, bonds, and bank accounts.

A child or children under 18 years of age and their parent(s) or other caretaker relative must meet all technical and financial eligibility requirements in order to qualify for a TANF benefit.

The child or children must be deprived of one or both parents due to:

1. Incapacity.
2. Death.
3. Continued absence which includes, but is not limited to, absences by reason of:
 - a. Divorce.
 - b. Desertion or non-support of legal parent.
 - c. Illegitimacy.
 - d. Hospitalization for more than a temporary period.
 - e. Imprisonment.
 - f. Court sentence to perform unpaid public work or service while living at home.
 - g. Removal of the child from the home by court order.
 - h. Legal adoption by a single parent.
4. Unemployment of the principal wage earner (PWE)

TANF UP Program

Mississippi operates a separate state program to serve needy two-parent families. State funds are used for cash assistance payments (TANF grant and transportation stipends). This program will not count toward the state's MOE requirements. Although two able-bodied parents are in the home, a dependent child is considered deprived of parental care or support when the natural or adoptive parent is unemployed. Two-parent families are only eligible if the parent is designated as the "principal wage earner."

- Meets the state's definition of "unemployed," which means that he or she is not currently working or has not worked full-time for at least thirty (30) days prior to receipt of TANF benefits,
- Works less than 100 hours per month,
- Has not refused a bona fide offer of employment or training, without good cause, within
- Is not on strike.

All other eligibility requirements for the two-parent family are the same as the TANF (Basic) case.

To encourage the formation and maintenance of two-parent families:

- When the TANF recipient marries, the new spouse's income and resources will be disregarded for six months. This will allow the single parent who marries an employed person the opportunity to continue receiving TANF cash assistance and work preparation activities without immediately losing benefits because of the spouse's income. (One-time disregard for the first marriage of the PI on or after October 1, 1999)
- Recent work history requirements will be waived for two-parent families when both parents are under 21 years of age to allow these young families to qualify for the TANF Unemployed Parent program.

Deny TANF Assistance

1. According to the TANF prohibitions/requirements outlined in federal regulations and state statute, Mississippi will, except for individuals and families specifically exempt or excluded for good cause, deny TANF assistance to:
 - a. Families without a minor child residing with the parent or adult caretaker relative;
 - b. Families including an adult head-of-household or spouse of the head-of-household, pregnant minor head-of-household or spouse of such head-of-household, a minor parent head-of-household or spouse of such minor parent head-of-household who has received assistance under TANF for 60 months (cumulative but not necessarily consecutive);
 - c. Families not assigning certain support rights to the State;
 - d. Families who fail to cooperate in establishing paternity or obtaining child support;
 - e. Teenage parents without a high school diploma or a high school equivalency (HSE) diploma, who are not employed and do not attend school or an equivalent training program;
 - f. Minor parents not living in an adult-supervised setting;
 - g. Minor children who are absent from the home for a significant period (30 days or more). NOTE: A relative who fails to report the absence of a child within five days will be disqualified;
 - h. Fleeing felons and parole violators; and
 - i. Ineligible aliens
2. Mississippi will also deny TANF assistance to families if the adult(s), age 18 or older, included in the assistance unit fails to engage in TANF applicant job search activities, fails to comply with the Employability Development Plan signed by the individual, fails to cooperate with the TWP, fails to participate satisfactorily in the assigned work activity, or after receiving TANF assistance for twenty-four (24) months, whichever is earlier.
3. Mississippi will deny TANF assistance to families if the adult(s), age 18 or older, included in the assistance unit fails to submit to a written substance abuse screening questionnaire.
4. Mississippi shall deny TANF assistance to a convicted fleeing felon.
5. Mississippi will also deny assistance for ten years to an individual convicted in Federal or State court of having made a fraudulent statement or representation, with respect to

the individual's place of residence in order to receive TANF assistance simultaneously from two or more states.

6. Recipients of SSI are excluded from the TANF assistance Unit.
7. In accordance with agency policy, adults and minor children who fail to comply with enumeration requirements will be excluded from the TANF assistance unit.

Mississippi will coordinate services, where available, with public and private entities (i.e., Mississippi Departments of Rehabilitation Services, Employment Security and Mental Health, and the Mississippi Community College Board, etc.) to allow TANF families with barriers (i.e., little or no work experience, domestic violence, limited English proficiency, learning disabilities, mental, physical disabilities and/or substance abuse) an opportunity to gain access to services and resources needed to obtain the highest level of self-sufficiency within the constraints of the TANF time-limits. Special screening and referral procedures will be used to identify and refer the individual for the appropriate service. Mississippi will deny benefits to individuals who fail to comply with the activities provided by these entities.

Mississippi will not deny assistance to a minor parent with a child under the age of 12 weeks for failure to attend school but will permit the minor parent to voluntarily participate in educational activities as medically appropriate.

Mississippi will deny benefits to all adult TANF applicants who do not meet an exemption from work requirements and fail to comply with TANF Work Registration requirements or vocational rehabilitation activities during the 30-day TANF application processing period.

Mississippi will deny benefits to all adult TANF applicants age 18 and older who fail to submit to a written drug screening questionnaire. State law provides for an individual sanction of TANF until compliance for an adult recipient age 18 or older who fails, without good cause, to submit to a required drug test or declines to enter into required treatment for a substance abuse disorder or fails to meet the requirements of his/her treatment plan, including refusal to take or testing positive to a required drug test.

Mississippi will not issue assistance payments to a family that includes an adult head-of-household, minor head-of-household, minor parent head-of-household, spouse of such head-of-household or a non-recipient parent who has received TANF funding for 60 months (whether consecutive or not), except as allowed by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 in regard to the 20% exemption.

60-Month Extension

Hardships will be assessed starting at forty (40) months and continued eligibility determined at the end of the individual's five (5) year time limit. The following individuals, as approved, may continue to receive benefits beyond the five-year time limit so long as the State does not exceed the 20% exemption criteria:

- Adults who are determined to be temporarily or permanently incapacitated and the household income does not exceed the TANF Basic 100% Requirement.
- Parents who are required to provide full-time care for an ill or incapacitated child or adult in the home and the household income does not exceed the TANF Basic 100% Requirement.

A family will **not** be considered for a 60-month time limit extension when the only child remaining in the TANF case is a family cap child and is ineligible for monthly TANF benefits.

School Attendance Requirement

Mississippi requires regular school attendance and regular immunizations for all dependent children served under TANF. This is in accordance with regulation described in Mississippi Code of 1972 Annotated at 43-17-5 (5). A 25% monthly benefit reduction is imposed for failure to comply without good cause.

Family Cap

Mississippi will impose a family benefit cap to prevent increases in assistance for new children coming into the family after the initial ten months of benefits, with certain exceptions.

Earned Income Disregards

Mississippi will provide a one-time total earned income disregard opportunity for six months to TANF adults who find a job working at least 35 hours per week, at or above the federal minimum wage either: within 30 days after authorization for new TANF approvals on or after July 1, 1997; or within 30 days after the initial start date of the job readiness/job search work activity. The six-month total disregard of earnings will be available only once for new TANF approvals and ongoing cases beginning July 1, 1997, and thereafter.

A three-month total earned income disregard will be available when the TANF case is subject to closure because of increased earnings and the individual is employed at least 25 hours per week at or above the federal minimum wage. The three-month disregard cannot be claimed in combination with the six-month disregard. The three-month disregard can be claimed again after a 12-month consecutive break in assistance.

Non-Discrimination

The MDHS does not discriminate against any individual or group because of race, sex, religion, national origin, color, marital status, handicap, or political beliefs. Mississippi will follow the nondiscrimination provisions in Title IV, Section 408, for any program or activity receiving funds under Public Law 104 - 193, provision in State Law and Title IV of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act.

B. REQUIRE A PARENT OR CARETAKER RECEIVING ASSISTANCE TO ENGAGE IN WORK (DEFINED BY THE STATE) ONCE THE STATE DETERMINES THE PARENT OR CARETAKER IS READY TO ENGAGE IN WORK, OR ONCE HE OR SHE HAS RECEIVED 24 MONTHS OF ASSISTANCE, WHICHEVER IS EARLIER, CONSISTENT WITH THE CHILD CARE EXCEPTION AT 407(E)(2) (SECTION 402(A)(1)(A)(II) OF THE SOCIAL SECURITY ACT)

The goal of the program is to end the dependence of needy parents on government benefits by promoting job preparation, work and marriage. The work program emphasizes unsubsidized jobs with supportive services following employment and/or transitional services following termination of the TANF grant because of increased earnings or loss of earned income disregards. The family also receives supportive services while engaged in other allowable activities.

Mississippi will require work eligible individuals (adults or minor heads of household or a non-recipient parents) receiving assistance under the Program to engage in allowable work activities once the State determines parents or caretakers are work eligible. Work eligible individuals may not receive assistance under the program for more than 24 months (whether or not consecutive), unless they are engaged in allowable work program activities.

Upon referral to the work program, the client will be assessed within 30 days to identify and prioritize the individual's strengths and needs and translate these into realistic goals which will lead to employment and self-sufficiency. A uniform assessment should be utilized among all participants as a guide to conduct in-depth, interactive interview assessments to evaluate job skills, levels of work readiness and intermediate goals needed in order for individuals to reach

their long-term career goals. An Employability Development Plan (EDP) is the client's plan of action for achieving these goals. The EDP describes the responsibilities of the client as well as entities performing case management. The plan also describes the supportive services available to the client, lists the assigned work activity, and reinforces the consequences for failure to participate.

MDHS may contract, using Federal TANF funds, with public, private or private non-profit entities to provide TANF Work Program services as needed statewide. Services may include but may not be limited to Case Management which is the process designed to coordinate work activities and supportive services for TANF Work Program participants. This involves monitoring the participants attendance and progress and amending the Employability Development Plan, component assignment, and supportive services, as necessary, to keep the participant on a path to achieving self-sufficiency. When appropriate, reasonable accommodations and language assistance may be provided to recipients to endure meaningful access and effective communication. All contractual services used will be competitively procured for non-state agencies. The subgrant will contain performance measures which will assure TANF Work Program goals are achieved. The strategy for accomplishing the goals and objectives outlined for the work program must include utilizing the case management approach or working closely with MDHS Case Managers.

The adults in the TANF case will participate in one or more of the following work activities as defined below:

1. Job Search and Job Readiness

Job readiness and job search activities are considered one activity by Federal law. These activities are defined as the act of seeking or obtaining employment, preparation to seek or obtain employment, including life skills training, and substance abuse treatment, mental health treatment, or rehabilitation activities for those who are otherwise employable. Such treatment or therapy must be determined to be necessary and certified by a qualified medical, substance abuse or mental health professional. A qualified professional is defined as any individual who is licensed or certified.

Structured job search and job readiness assistance activities are supervised daily by the case manager, instructor or other responsible person.

The maximum number of hours that can be included in the State's participation rate calculation for each participant in any 12-month period is limited to:

- o a maximum of 120 hours for a single custodial parent whose youngest child is under age six; and
- o 180 hours for a single custodial parent whose youngest child is age six or older.

A maximum of four consecutive weeks may be counted and reported as participation. After four consecutive weeks are reported, there must be at least a one-week break (seven consecutive days) before additional participation can be included in the participation rate calculation process.

2. Unsubsidized Employment

Unsubsidized employment is full or part-time employment in the public or private sector for which the state does not furnish aid or support to the employer for wages paid to the TANF recipient. Types may include:

- o Regular and/or contractual employment in the public or private sector for which a person receives unsubsidized wages on an hourly, weekly, or monthly basis.
- o Self-employment is work for which a person earns income directly from one's own business, trade or profession rather than a specified salary or wages from an employer. Income may be verified by a 1099/W2 form, check stubs or written statements from customers.

3. Subsidized Employment

Subsidized employment is defined as employment in the private or public sector for which the employer receives a subsidy from TANF or other public funds to offset some or all of the wages and costs of employing a TANF recipient. Subsidized employment includes the following employment models:

- o Work supplementation where TANF funds that would otherwise be paid as assistance are paid to the employer;
- o A third-party contractor, like a temporary staffing agency, serves as employer of record and is paid a fee to cover salary, expenses and success in placing employees;
- o Work study programs which involve paid employment provided by an educational institution if the student's earnings are subsidized by the educational institution; and
- o Supported work for individuals with disabilities in an integrated setting, e.g., Vocational Rehabilitation Ability Works. Workers with disabilities may receive individualized services such as, but not limited to, transportation, family support or additional supervision.

Employers participating in a subsidy program must submit monthly documentation to verify participant attendance data. Agency staff will monitor and review employer reports to determine whether sufficient documentation exists to substantiate reported time and to warrant a subsidy payment. This auditing process will ensure the agency only pays for and reports actual and allowable hours of participation.

Work Study

Work study is also defined as subsidized employment. Work study is an approved employment plan at an accredited college, frequently granted in addition to other student financial aid. Various public funding sources may be utilized to pay earnings for hours worked. Earnings may be paid directly to the student or applied toward the student's tuition fees.

Temporary Employment with the U.S. Census

Certain temporary employment with the U.S. Census is defined as subsidized employment. This specifically refers to temporary census workers who are hired part-time during a census campaign. The employment is not expected to last longer than three months and the income received is totally disregarded in establishing TANF eligibility and the TANF benefit amount. Employment will be verified, by the case manager, via employer wage verification forms or check stubs. Countable work hours must be based on employer reports (wage forms) or check stubs and will be projected forward up to three months.

4. Work Experience

Alternative Work Experience Program (AWEP) placements are only made with private non-profit or for-profit entities for no cash payment. These activities are intended to improve soft skills and build employability skills by offering training and experience for a better understanding of the work world so the individual may move more quickly into full-time employment. Individuals participating in these programs are subject to the Fair Labor Standards Act (FLSA) requirements and cannot be required to participate for more hours than the total benefits divided by the federal minimum wage (FMW). The maximum number of hours in any month that a participant may be required to participate in AWEP is based upon the family's combined value of TANF assistance (monthly grant and work stipend) and SNAP benefits divided by the federal minimum wage. The TANF benefit amount, net out child support, will be determined during the TANF application process and at each TANF redetermination appointment for all TANF cases that are subject to TANF Work Program requirements. TANF recipients assigned to this activity cannot displace regular workers. Based on certain criteria private, for-profit entities may be used for AWEP placements. For example, a certain type of placement may be necessary for the participant to gain skills needed to successfully accomplish his/her career goals. Such entities must be approved in writing by the Director of the Division of Workforce Development and Program Management or designee.

5. Community Service Programs

Community Service placements are only made with public entities and are limited to projects that serve a useful public purpose in fields such as health, social service, environmental protection, education, urban and rural development and redevelopment, welfare, recreation, public facilities, and public safety. The main objective of assigning the TANF Work Program (TWP) participant to a community service activity is to improve soft skills and employability skills by offering training and experience for a better understanding of the work world so the individual may move more quickly into full-time employment. Individuals participating in these programs are subject to the Fair Labor Standards Act (FLSA) requirements and cannot be required to participate for more hours than the total benefits divided by the federal minimum wage (FMW). The maximum number of hours in any month that a participant may be required to participate in Community Services is based upon the family's combined value of TANF assistance (monthly grant and work stipend) and SNAP benefits divided by the federal minimum wage. The TANF benefit amount, net out child support, will be determined during the TANF application process and at each TANF redetermination appointment for all TANF cases that are subject to TANF Work Program requirements. TANF recipients assigned to this activity cannot displace regular workers.

AmeriCorps (NCCC) Volunteers

AmeriCorps work activities are defined as community service. AmeriCorps NCCC is a 10-month, full-time, team-based residential program for individuals between the ages of 18-24 who are current TANF recipients or who have been included in a TANF case within the last six (6) years. AmeriCorps NCCC recruits and trains individuals who are willing to devote at least one year to serving in their community to meet specific needs. In addition to gaining valuable skills, members are provided a living allowance during the ten (10) month program, housing, meals, limited medical benefits, uniforms, and up to \$400/monthly for childcare, if eligible.

6. Vocational Educational Training

Vocational education is defined as an organized educational program which offers a sequence of courses directly related to the preparation of individuals for employment in current or emerging occupations that do not require an advanced degree. Such programs shall include competency-based applied learning which contributes in an individual's academic knowledge, higher-order reasoning, problem-solving skills, work attitudes, general employability skills, and the occupational-specific knowledge and skills that prepare participants for a specific trade, occupation, or vocation. Vocational education programs must be provided by education or training organizations, such as vocational-technical schools, community colleges, post-secondary institutions, proprietary schools, nonprofit organizations, and secondary schools that offer vocational education. Vocational educational training cannot be included in the work participation rate for more than 12 months for any individual. No more than 30% of the individuals counting toward the participation rate in a month may meet the work requirement by participating in vocational educational training. A teen parent head-of household attending secondary school or in an educational activity directly related to employment will be included in the 30%.

7. Education Directly Related to Employment

Education directly related to employment is defined as educational activities related to a specific occupation, job or job offer for individuals who have not received a high school diploma or an HSE diploma. This includes educational courses designed to provide the knowledge and skills for specific occupations or work settings, but may also include adult education, English as a second language (ESL), literacy skills, HSE prep classes, and supervised study sessions.

8. Secondary School Attendance

Satisfactory attendance at secondary school or in a course of study leading to a HSE diploma is an allowable "non-core" activity for individuals age twenty and older who do not have a high school diploma or HSE diploma. Participation in this activity is not restricted to individuals for whom obtaining an HSE diploma is a prerequisite for employment. Minor parents, under age twenty, who have not completed secondary school or received a HSE diploma will be encouraged to pursue a high school diploma or HSE diploma. Educational activities for individuals under the age of twenty are considered "core" activities and are countable in the participation rate calculation. Educational activities for individuals age twenty and older are considered "non-core" activities and participation will only count in the work participation rate after the individual participates for an average of twenty (20) hours per week in a "core" activity.

9. On-the-Job Training

On-the-Job Training is defined as paid employment provided by a public or private employer through a contractual arrangement in which the employer provides training and skills essential to perform the job and the employer is reimbursed for the added costs associated with training. While engaged in productive work, the participant is provided additional daily supervision and training, which will provide the knowledge or skills essential to fully and adequately perform the job. The participant is compensated at a rate (including benefits) comparable to that of other employees performing the same or similar jobs. The state reimburses the employer up to 50

percent of the wages paid to the participant utilizing federal funds to offset the cost of training and supervision given to the participant. The employer is expected to retain the participant as a permanent, unsubsidized employee at the end of the training period.

10. Job Skills Training Directly Related to Employment

Job skills training directly related to employment is training or education for job skills required by an employer to provide an individual with the ability to obtain employment or to advance or adapt to the changing demands of the workplace. Job skills training can include customized training to meet the needs of a specific employer or training that prepares an individual for employment, including literacy and language instruction, if necessary, to enable the participant to perform a specific job or engage in a specific job training program.

If available, funds shall be used by the Mississippi Community College Board (MCCB) for the assessment, enrollment, certification, follow-up and performance standards as they relate to career-related training of TANF Work Program (TWP) participants. Training may be established based on employer needs in a particular area of the State. Training may also be established on an individual basis based on the individual's career goal(s)/objective(s) and training needs in conjunction with employer needs.

As described in Mississippi Code of 1972 Annotated at 43-17-5(6)(g), MDHS policy prohibits the displacement of regular workers by TANF recipients. No adult in a work activity shall be employed or assigned when another individual is on layoff from the same or any substantially equivalent job within six months, before the date of the TANF recipient's employment or assignment; or if the employer has terminated the employment of any regular employee or otherwise caused an involuntary reduction of its workforce in order to fill the vacancy created with an adult receiving TANF assistance. The Mississippi Department of Employment Security will appoint one or more impartial hearing officers to hear and decide claims by employees of violations.

Federal or State Emergency Declarations

In the event of a federal or state declared emergency, and placement opportunities and/or supportive services for work-eligible individuals are limited or not available, the state may, in specified counties, regions or statewide, temporarily place participants in "holding" until a suitable placement and/or supportive services can be arranged. Once a declared emergency period ends, the state will assess each family's current circumstances and require participation in allowable work activities on a case-by-case basis focusing on the safety, health and wellbeing of the family. The family's 60-month time limit counter will continue to increment but the 24-month time limit counter may be arrested during the emergency period. The 24-month counter will begin incrementing the month following the end of the declared emergency period, unless the participant is placed in an allowable work activity. Cases for participants placed in holding will be reviewed no less than every 30 days to determine if the family's circumstances have changed and if a placement and/or supportive services are available.

The state will permit participant's the ability to claim good cause if they are unable to comply with TANF Work Program (TWP) requirements due to the emergency. TWP participants who are unable to participate in allowable work activities as a result of the emergency will be given good cause which will not affect the family's TANF benefits due to other reasons that prevent compliance and are outside the participant's control. TWP participants who can participate in the TWP but fail to comply could face conciliation and sanction. Participants will only have to provide evidence of good cause due to the emergency to avoid the timed penalty sanction if questionable.

State Agency Collaboration and Other Initiatives

In deciding how to best use Federal TANF funds for low-income families, MDHS issues Request for Proposals (RFP) to engage businesses, faith-based groups, other state/local agencies as well as local community based organizations in developing strong collaborative relationships to serve as the vehicle for the delivery of services to 1) provide assistance to needy families so that children may be cared for in their own homes or in the homes of relatives, 2) end the dependence of needy parents on government benefits by promoting job preparation, work and marriage, 3) prevent and reduce out-of-wedlock pregnancies, and 4) encourage the formation and maintenance of two-parent families. Continuation and/or expansion of these initiatives are subject to availability of funding and the justification of need. MDHS may contract with public and/or private entities to provide services under TANF initiatives to assist families, end welfare dependency, and become self-sufficient. In conjunction with the above-mentioned collaborations, initiatives include, but are not limited to:

1. Child Care Enhancements

To end the dependence of needy parents on government benefits by promoting job preparation, work and marriage, MDHS may provide quality, comprehensive childcare services for children in the Temporary Assistance for Needy Families (TANF) Program and income-eligible, working families at risk of going onto TANF who meet Child Care Development Fund (CCDF) eligibility.

2. Responsible Parenthood Initiative

To encourage the formation and maintenance of two-parent families and prevent and reduce out-of-wedlock pregnancies, MDHS may provide comprehensive services that support and educate parents on the importance of responsible parenthood. The program goals are to:

- o increase public awareness concerning the impact of a parent's absence,
- o assist parents in becoming "Team Parents" and to share the legal, financial and emotional responsibilities of parenthood with the custodial parent of their child(ren),
- o improve the self-image of parents and their families,
- o increase parents' parental involvement in their child(ren)'s education,
- o improve academic performance and graduation rate and reduce the dropout rate of their children,
- o decrease the teenage pregnancy rate,
- o decrease juvenile crime,
- o promote two-parent families and both parents' role in the family, and
- o recruit parents and expectant parents to volunteer as mentors to other parents.

Financial eligibility determination is not required for the program.

3. Post-Employment Assistance Programs

To end the dependence of needy parents on government benefits by promoting job preparation and work, MDHS may provide or collaborate with partner agencies to provide post-employment assistance services to current and former TANF recipients who are employed. Where appropriate, case managers will work with employers to ensure reasonable accommodations are provided to employees with disabilities.

Individuals with language barriers shall be referred to an English as a Second Language (ESL) activity prior to job placement. Case management will also work with potential employers to ensure reasonable accommodations and language assistance are available at the work site to ensure meaningful access and effective communication. The goals of the initiative are to increase job retention, job advancement, and self-sufficiency for former and current TANF recipients. Families eligible for this program are not required to be TANF eligible but must be at or below 200 percent of the Federal Poverty Level.

4. TANF Prevention/Intervention Program

To develop projects in community-based settings to prevent and reduce at-risk behaviors among youth and their families to prevent, or break the cycle of welfare dependence, MDHS may provide services/activities to:

- o reduce and prevent out-of-wedlock pregnancies,
 - o prevent/reduce substance abuse (use of alcohol, drugs and tobacco products),
- and
- o prevent/reduce other behaviors that prevent the attainment of a high school diploma or HSE diploma.

Financial eligibility determination is not required for the program.

5. Afterschool or Summer Recess Program

To reduce out-of-wedlock pregnancy through intensive supervision or afterschool/summer program for non-adjudicated and age appropriate youth during non-school hours when youth are unsupervised and vulnerable. By engaging in activities that create a positive future, youth are enabled to consider how the choices they make today affect their tomorrow. Program activities include but are not limited to:

- o academic tutoring
- o literacy
- o remediation
- o financial literacy
- o science, technology, engineering, arts or math (STEAM)
- o career exploration
- o life and soft skills
- o leadership and personal development
- o work based learning
- o teenage pregnancy prevention
- o drug, alcohol and violence prevention

Additional goals include but are not limited to:

- o reducing criminal activity
- o reducing drug and alcohol abuse
- o reducing violence
- o promotion positive family outcomes
- o increase in school attendance
- o to improve self-esteem, motivation and performance of youth

Financial eligibility determination is not required for the program.

6. Crisis Intervention Program

To provide assistance, using Federal TANF funds, to low-income families in resolving barriers to self-sufficiency. The program may use TANF funds to:

- o Meet a TANF family's ongoing basic needs (i.e. food, clothing, shelter, utilities, household goods, personal care items, and general incidental expenses.)
- o Provide assistance to families experiencing an emergent need (i.e. utility payments) That cannot be met with their own income and resources. This program is designed to deal with a specific situation or an episode of need and is not intended to meet recurrent or ongoing needs. These services will not extend four (4 months).

Families are not required to be TANF eligible but must be below 185 percent of the Federal Poverty Level.

7. The Mississippi Department of Human Services may implement a TANF Up-Front Diversion Program to provide assistance, using Federal TANF funds, to families with Emergency circumstances. As an alternative to TANF cash assistance, a family with an emergency circumstance may be eligible for a one-time short-term cash assistance payment.

To receive the diversion program assistance:

- o Family unit must include an adult and dependent child(ren) under 18 years of age.
- o Family members must have lived in the designated disaster areas or state/federally declared emergency area at the time disaster or emergency occurred.
- o Family members must currently live together in Mississippi.
- o Family members must not be current recipients of regular TANF, including Transitional Transportation or
- o Transitional Childcare.
- o Family's primary individual must sign an agreement restricting any member of their household from receiving TANF for a period of three (3) months.

Households will be required to pass the gross income limits standard (200% of Federal Poverty Level). The maximum amount of resources the family may retain to be eligible is \$3000. In addition to the above, the adult(s) in the family must:

- o be employed an average of 25 or more hours per week at or above the federal minimum wage;
- o have documentation of the promise of a job starting within 14 days from the application date, working an average of 25 or more hours per week at or above federal minimum wage; or
- o be currently participating in a short-term, work-related training program.

A payment of up to \$1000 will be issued directly to the family (parent/caretaker relative and child) to assist in resolving any short-term financial issues related to basic needs (i.e., childcare, transportation, rent and relocation expenses).

8. TANF funds may be used to provide family preservation services to families, with dependent children, earning at or below 350 percent of the Federal Poverty Level. Social workers and homemakers provide supportive services to promote the safety and well-being of children and their families, promote stability and permanency, and preserve family unity. The goal of the program is to provide assistance to needy families so that children may be cared for in their own homes or in the homes of relatives.
9. TANF funds may be used for temporary care (not to exceed 45 days) of children in foster care. The placements are through emergency shelter facilities and normally do not exceed 45 days. TANF funds will not be used to duplicate Federal foster care payments. Families eligible for this program are not required to be TANF eligible but must be below 350 percent of the Federal Poverty Level. The goal of the program is to provide assistance to needy families so that children may be cared for in their own homes or in homes of relatives.
10. In efforts to provide a continuum of service and prevent gaps of opportunity for youth and adults ages 16-59 and to reduce the overall incidence of poverty, TANF funds may be used for workforce, training and education to provide assistance to needy families and to end the dependence of needy parents on government benefits by promoting job preparation, work and marriage.

Program activities include but are not limited to:

- o adult basic education
- o high school equivalency
- o work based learning
- o internships
- o apprenticeships
- o industry recognized credentials
- o life and soft skills

Families that are eligible for this program must be at or below 350% of the federal poverty guidelines.

C. ENSURE THAT PARENTS AND CARETAKERS RECEIVING ASSISTANCE ENGAGE IN WORK IN ACCORDANCE WITH SECTION 407 (SECTION 402(A)(1)(A)(III) OF THE SOCIAL SECURITY ACT). CONSISTENT WITH THE REQUIRED STRATEGIC ELEMENTS DISCUSSED IN SECTION II (A)(2) HEREIN, PROVIDE A SPECIFIC ANALYSIS OF HOW THE STATE'S WORKFORCE DEVELOPMENT ACTIVITIES ARE ADDRESSING EMPLOYMENT AND TRAINING SERVICES FOR PARENTS OR CARETAKERS RECEIVING ASSISTANCE

Mississippi will ensure that work eligible individuals (adult heads of household, needy caretaker relatives and non-recipient parents) receiving assistance under the Program will engage in work activities in accordance with regulation described in Section 407, Title IV of the Social Security Act. Mississippi will comply with the mandatory work requirements and strive to meet the 50% participation rate required under current TANF regulations. Participation rate requirements may be adjusted based on reduction in the caseload.

Work requirements and activities are defined in the Combined State Plan, TANF section (b) above. This document will be open for public review and comment according to the Administrative Procedures Act. The work requirements and activities are tracked through the MDHS eligibility and case management systems interface throughout the period of assistance to ensure compliance is met, appropriate penalties imposed, and time limits not exceeded.

Exemptions

TANF mandates participation in approved work activities for all adult recipients who do not meet specific exemption criteria. All adults who are not specifically exempt will be referred for work activities. When appropriate, reasonable accommodations and language assistance will be provided to recipients to ensure meaningful access and effective communication. An adult included in the TANF grant assistance unit may be exempt from the mandatory work requirements for one of the following reasons:

- Incapacitated and not eligible for vocational rehabilitation services
- Temporary illness or injury
- Pregnancy in third trimester if there is a verified complication with the pregnancy
- Caretaker of a child under 12 months old (up to 12 months)
- Caretaker of an ill or incapacitated person
- Age (over 60 and under 18)
- Domestic violence victim (up to 12 months)
- Caretaker in two-parent family of a child who is mentally retarded or physically handicapped

The State may exempt a TANF recipient from work requirements while receiving treatment for substance abuse as long as the recipient is in compliance with the treatment plan. If certain criteria are met, the recipient's treatment plan may be defined and countable under the TWP job readiness activity.

Sanctions

MDHS Policy provides for a full benefit sanction of TANF and comparable SNAP sanctions until compliance for families in which the non-exempt individual refuses, without good cause, to participate. If any adult in a household refuses, without good cause, to participate in work as required under TANF, the following full benefit sanction will apply. When appropriate, reasonable accommodations and language assistance will be provided to recipients to ensure meaningful access and effective communication to assist them in the conciliation process. If necessary and appropriate, the need for disability and language related accommodations are bases for good cause.

Violation	Penalty
1 st Violation	3 Months Minimum or Until Compliance
2 nd Violation	Permanent Disqualification

NOTE: For a two-parent family, the parent who was meeting work requirements, but lost TANF benefits due to the other parent's non-cooperation, may open his/her own case with the dependent children after six months.

Beginning October 1, 2001, State funds were used for cash assistance payments (TANF grant and transportation stipends) for two-parent families. The State does not claim these expenditures against the Maintenance of Effort requirement. Two-parent family cases are not included in the state's federal work participation rate calculation; however, federal work requirements apply to two-parent families.

The State will not reduce or terminate assistance to a single custodial parent caring for a child under age six (6) for refusing to engage in work, if the parent demonstrates an inability to

obtain appropriate, quality childcare. The parent's demonstrated inability must be for one of the following reasons:

1. Appropriate childcare is unavailable and/or unaffordable. Appropriate childcare is defined as a licensed childcare center or a family day care (home or an individual) chosen by the parent/caretaker relative to care for the child. The childcare provider must be 18 years old or older.
 - o Appropriate childcare must be within a reasonable distance (within a 20-mile radius) of the parent/caretaker relative's home or worksite.
 - o Appropriate childcare must be affordable. Affordable formal childcare is childcare that is equal to or less than the established rates for the type of care according to the Division of Early Childhood Care and Development (DECCD).
2. Informal childcare by a relative or under other arrangements is unavailable or unsuitable. Unavailable or unsuitable childcare shall be defined as a situation involving child abuse, neglect or an unsafe environment. If the parent/caretaker relative refuses to take the child to a particular day care center, he/she must inform the case manager of the reason for the refusal. The case manager must investigate to verify and substantiate the parent's claim of unsuitable childcare. Complaints involving child abuse, neglect or an unsafe environment will be reported to the MS State Health Department, Division of Child Care Facilities Licensure. The case manager must contact the DECCD representative to discuss the problem and determine what other childcare services are available in the area. The case manager will determine good cause for non-participation based on the investigation and information gathered. Parental complaints regarding a breakdown in receiving childcare services or against a DECCD representative must be submitted in writing to the Director, Division of Early Childhood Care and Development, Mississippi Department of Human Services, Post Office Box 352, Jackson, MS 39205. The parent/caretaker relative may also contact the DECCD Resource and Referral telephone line (1-800-877-7882).

D. TAKE SUCH REASONABLE STEPS AS THE STATE DEEMS NECESSARY TO RESTRICT THE USE AND DISCLOSURE OF INFORMATION ABOUT INDIVIDUALS AND FAMILIES RECEIVING ASSISTANCE UNDER THE PROGRAM ATTRIBUTABLE TO FUNDS PROVIDED BY THE FEDERAL GOVERNMENT (SECTION 402(A)(1)(A)(IV) OF THE SOCIAL SECURITY ACT)

Mississippi will take reasonable and necessary steps to restrict the use and disclosure of information about individuals and families receiving assistance under the program attributable to funds provided by the federal government. MDHS restricts disclosure of recipient information pursuant to federal regulations and to laws regarding use of electronically exchanged data with a Confidential Information Agreement. MDHS also provides staff training upon entry and annually thereafter with an Awareness/Security Training form. These documents set forth policy and penalties for safeguarding information in accordance with requirements for the exchange of information received from the Social Security Administration and Internal Revenue Service.

E. ESTABLISH GOALS AND TAKE ACTION TO PREVENT AND REDUCE OUT-OF-WEDLOCK PREGNANCIES, WITH SPECIAL EMPHASIS ON TEENAGE PREGNANCIES (SECTION 402(A)(1)(A)(V) OF THE SOCIAL SECURITY ACT)

MDHS will utilize partnerships with community-based organizations and agencies to impact the whole family by taking a multi-generational approach. This approach seeks to provide the basic needs of the family and the skills that will enable the family to become self-sufficient and ensure future well-being. The Sexual Risk Avoidance Education (SRAE) Program will promote sexual risk avoidance education as defined by Section 510 of the Social Security Act (42 U.S.C. 710) for

youth 10-19 years of age and their families. The SRAE Program, known as The Healthy Teens for a Better Mississippi initiative, provides educational and innovative programs on healthy choices, youth development and sexual risk avoidance to aid in the continued reduction in teen pregnancies and out-of-wedlock births. Through this initiative CHAT (Choosing Healthy Alternatives for Teens) was created to engage teens in conversation surrounding teen pregnancy, making healthy choices, sexual risk avoidance and participating in peer leadership. These programs allow teens and parents alike to engage in a variety of activities/programs designed to address the challenges many teens face each day.

F. CONDUCT A PROGRAM DESIGNED TO REACH STATE AND LOCAL LAW ENFORCEMENT OFFICIALS, THE EDUCATION SYSTEM, AND RELEVANT COUNSELING SERVICES, THAT PROVIDES EDUCATION AND TRAINING ON THE PROBLEM OF STATUTORY RAPE SO THAT TEENAGE PREGNANCY PREVENTION PROGRAMS MAY BE EXPANDED TO INCLUDE MEN (SECTION 402(A)(1)(A)(VI) OF THE SOCIAL SECURITY ACT)

Mississippi Code, Section 97-3-65, defines that a crime of statutory rape is committed when:

1. Any person seventeen (17) years of age or older has sexual intercourse with a child who:
 - (i) Is at least fourteen (14) but under sixteen (16) years of age;
 - (ii) Is thirty-six (36) or more months younger than the person; and
 - (iii) Is not the person's spouse; or
2. A person of any age has sexual intercourse with a child who:
 - (i) Is under the age of fourteen (14) years/
 - (ii) Is twenty-four (24) or more months younger than the person; and
 - (iii) Is not the person's spouse.

MDHS will provide county offices with material, both printed and digital, about statutory rape for display where partner agencies, local schools, law enforcement, relevant counseling service agencies and the general public, including men who may have committed the crime, may view.

MDHS will use social media platforms to educate the general public on the problem statutory rape.

In addition and if funding is available, MDHS will continue to award TANF funding on a competitive basis to subgrantees that incorporate education and training about statutory rape within their teen pregnancy prevention programs or parenthood initiatives to include educators, law enforcement, relevant counseling services and other vital service providers to include programs expanded to include men.

MDHS staff is required to report suspected abuse or neglect to the appropriate entity.

G. IMPLEMENT POLICIES AND PROCEDURES AS NECESSARY TO PREVENT ACCESS TO ASSISTANCE PROVIDED UNDER THE STATE PROGRAM FUNDED UNDER THIS PART THROUGH ANY ELECTRONIC FUND TRANSACTION IN AN AUTOMATED TELLER MACHINE OR POINT-OF-SALE DEVICE LOCATED IN A PLACE DESCRIBED IN SECTION 408(A)(12), INCLUDING A PLAN TO ENSURE THAT RECIPIENTS OF THE ASSISTANCE HAVE ADEQUATE ACCESS TO THEIR CASH ASSISTANCE (SECTION 402(A)(1)(A)(VII) OF THE SOCIAL SECURITY ACT)

Mississippi delivers TANF benefits via the Mississippi Debit MasterCard Program ePayment/EPPICard. Mississippi also delivers other benefits via the EPPICard including child support, adoption subsidy and foster board payments.

TANF assistance may be accessed worldwide at any commercial point-of-sale (POS) machine using the recipient's signature and PIN number. Cash may be accessed at any automated teller machine (ATM) that displays the MasterCard logo or teller-assisted withdrawals in a bank or credit union location that displays the MasterCard logo. Recipients may also receive cash back with a purchase at their favorite merchant locations that accept MasterCard. TANF recipients experiencing a problem accessing their TANF benefits can contact their local county office or call customer services toll free. The State will work one-on-one with TANF recipients reporting inadequate access to their cash benefit.

Pursuant to regulations described in Section 4004 of Public Law 112-96, Mississippi's policies outline procedures to prevent access to TANF assistance through electronic fund transactions at casinos, liquor stores, and establishments providing adult-oriented entertainment. This section also explains how the state ensures that recipients have adequate access to their TANF assistance and can withdraw the TANF assistance with minimal fees or charges, including the opportunity to access the TANF assistance with no fee or charge and how information on fees are communicated to recipients.

Mississippi law follows the Federal Statutes to prohibit the use or acceptance of an electronic benefit transfer card at the following locations:

- Liquor or package stores that sell intoxicating liquor, either exclusively or primarily;
- Gambling establishments that offer, as its primary services, casino, gambling or gaming activities; and
- All retail establishments that provide adult-oriented entertainment in which performers disrobe or perform in an unclothed state for entertainment.

State law prohibits TANF benefits from being accessed from an Automated Teller Machine (ATM) or Point-of-Sale (POS) device physically located in:

- Liquor Stores
- Gambling Establishments
- Strip Clubs
- Jewelry Stores
- Tattoo and Body Piercing Parlors
- Tobacco Paraphernalia Stores
- Spas
- Nail Salons
- Lingerie Shops
- Massage Parlors
- Vapor Cigarette Stores
- Psychic or Fortune Telling Businesses
- Bail Bond Companies
- Dog or Horse Racing Facilities
- Movie Theaters

- Cruise Ships
- Theme Parks
- Video Arcade
- Pari-mutuel Facilities
- Sexually Oriented Businesses
- Businesses or Retail Establishments where Minors under 18 are not Permitted

State law also prohibits TANF benefits from being used to purchase the following items:

- Alcohol
- Cigarettes
- Liquor or Imitation Liquor
- Sexually Oriented Adult Materials
- Bail
- Gambling Activities
- Lottery tickets
- Tattoos
- Tobacco Products
- Concert Tickets
- Travel Services Provided by a Travel Agent
- Professional or Collegiate Sporting
- Money Transmission to Locations Agent Abroad
- Tickets for Other Entertainment Events Intended for the General Public

In order for Mississippi to prevent prohibited transactions and purchases as defined above, agency staff will discuss with TANF applicants/recipients the proper use of their TANF benefits at initial application and redetermination. All county offices are required to display a poster with the TANF restrictions and penalties in a prominent location.

Methods for reporting fraud include the Fraud Tip Hotline toll free number 1-800-299- 6905 and the Fraud Tip Email fraud@mdhs.ms.gov. To expand the pathway of communication regarding programmatic fraud, fraud tips can now also be submitted to the Division of Investigations through the Fraud Tip PowerForm located on the MDHS website. This form can be accessed by clicking on the "Report Fraud" button located on the MDHS homepage, or by direct link at <https://www.mdhs.ms.gov/report-fraud/>.

The assistance unit will be denied TANF benefits when the MS Debit MasterCard is used at prohibited locations or prohibited items are purchased as outlined below:

Violation	Penalty
1 st Violation	3 Months

Violation	Penalty
2 nd Violation	Permanent Disqualification

H. ENSURE THAT RECIPIENTS OF ASSISTANCE PROVIDED UNDER THE STATE PROGRAM FUNDED UNDER THIS PART HAVE THE ABILITY TO USE OR WITHDRAW ASSISTANCE WITH MINIMAL FEES OR CHARGES, INCLUDING AN OPPORTUNITY TO ACCESS ASSISTANCE WITH NO FEE OR CHARGES, AND ARE PROVIDED INFORMATION ON APPLICABLE FEES AND SURCHARGES THAT APPLY TO ELECTRONIC FUND TRANSACTIONS INVOLVING THE ASSISTANCE, AND THAT SUCH INFORMATION IS MADE PUBLICLY AVAILABLE (SECTION 402(A)(1)(A)(VIII) OF THE SOCIAL SECURITY ACT)

The cardholder can use their EPPICard at vendor and bank locations worldwide wherever MasterCard is accepted. EPPICard transactions performed at some POS machine vendors are subject to surcharges by the financial institution or owner.

Form MDHS-EA-303A, Mississippi Debit MasterCard Program ePayment/EPPICard Customer Information Sheet, is provided to and discussed with the TANF recipient during the interview at application and redetermination. The MDHS-EA-303A also informs the recipient of merchant and bank locations where cash benefits may be redeemed. The card carrier mailed with the EPPICard also provides this information, as well as, EPPICard account access, card use and customer service information. Recipients may also access this information via the internet at <https://www.eppicard.com/>.

Fees:

Purchase - No fee

- Cash-back or Bank Teller Window - No fee
- In-Network ATM Cash Withdrawal - \$1.75 after 3 withdrawals (each withdrawal, each calendar month)
- Out-of-Network ATM Cash Withdrawal - \$1.75
- In-Network ATM Balance Inquiry - \$0.75 after 3 inquiries (each inquiry, each calendar month)
- Out-of-Network ATM Balance Inquiry - \$0.75
- Card Replacement - \$5.00
- Expedited Card Delivery - \$16.00
- In-Network ATM Denial for Insufficient Funds - \$0.50 after 3 denials (each denial, each calendar month)
- Out-of-Network ATM Denial for Insufficient Funds - \$0.50
- Monthly Account Access by Calling Customer Service - \$0.50 after 5 calls (each call, each calendar month)

ATM Surcharges:

A surcharge is an additional fee that may be charged for using a card at an ATM, or for withdrawing cash only at some point-of-sale machines in retail stores. The surcharge is charged by the owner of the equipment or financial institution supporting the ATM.

Banks and other retailers may have varying surcharges. Recipients may avoid the surcharge by accessing benefits at any Hancock, Trustmark or Regions Bank ATM.

TANF recipients are informed of benefit prohibitions by use of posters displayed in all MDHS county offices. In addition to the MDHS-EA-303A noted above, benefit use prohibitions are provided to all TANF households via the MDHS-EA-300, TANF Rights and Responsibilities, and the MDHS-EA-312, Personal Responsibility Contract. Benefit use prohibitions are also included in the TANF Approval Notice, the MDHS website, the EPPICard website, and through the recipient's online account "My MDHS Account". In addition, County and Regional Directors randomly observe TANF client interviews to ensure that eligibility workers are complying with requirements to explain benefit use and restrictions with TANF households.

I. INDICATE WHETHER IT INTENDS TO TREAT FAMILIES MOVING FROM ANOTHER STATE DIFFERENTLY FROM OTHER FAMILIES UNDER THE PROGRAM, AND IF SO HOW (SECTION 402(A)(1)(B)(I) OF THE SOCIAL SECURITY ACT)

Mississippi will not treat families moving into the State differently than other families under the TANF program. To treat families differently would create an unfair advantage to person moving into the State with higher benefits.

J. INDICATE WHETHER IT INTENDS TO PROVIDE ASSISTANCE TO NON-CITIZENS, AND IF SO INCLUDE AN OVERVIEW OF THE ASSISTANCE (SECTION 402(A)(1)(B)(II) OF THE SOCIAL SECURITY ACT)

Mississippi will provide assistance to individuals who are not citizens of the United States only in accordance with the provisions outlined in the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Mississippi Code of 1972 Annotated 43-17-5 and subsequent amendments to the Social Security Act.

The following qualified aliens are eligible:

1. For five years after obtaining the designated alien status:
 - o An alien admitted as a refugee defined under under Section 207 of the Immigration and Nationality Act (INA);
 - o An alien who is granted asylum defined under Section 208 of the INA;
 - o An alien whose deportation is being withheld defined under Section 243 of the INA, or whose removal is being withheld under Section 241 of the INA; or
 - o An alien lawfully admitted for permanent residence, if the alien entered the U.S. within the last five (5) years as a refugee, an asylee, or deportation was withheld.
2. For an unlimited period, the following qualified aliens lawfully admitted for permanent residence:
 - o Aliens who are veterans of the U.S. Armed Forces (honorably discharged for reasons other than alienage); active duty personnel of the U.S. Armed Forces (other than active duty for training), and their spouses and unmarried dependent children; and
 - o Aliens who are lawfully admitted for permanent residence and have worked for 40 qualifying quarters of coverage or can be credited with such quarters, not including quarters beginning January 1, 1997 in which the alien received any Federal means-tested public benefit.

NOTE: Unlimited Period does not mean there are no time limits applicable to the TANF case; only that the qualified alien may receive benefits, if otherwise eligible, under the same time limit maximums as all other TANF assistance cases.

Mississippi may provide assistance to victims of severe forms of trafficking to the same extent as aliens.

K. SET FORTH OBJECTIVE CRITERIA FOR THE DELIVERY OF BENEFITS AND THE DETERMINATION OF ELIGIBILITY AND FOR FAIR AND EQUITABLE TREATMENT, INCLUDING AN EXPLANATION OF HOW IT WILL PROVIDE OPPORTUNITIES FOR RECIPIENTS WHO HAVE BEEN ADVERSELY AFFECTED TO BE HEARD IN A STATE ADMINISTRATIVE OR APPEAL PROCESS (SECTION 402(A)(1)(B)(III) OF THE SOCIAL SECURITY ACT)

Mississippi has established objective criteria for the delivery of benefits and the determination of eligibility and for fair and equitable treatment, including the opportunity for recipients who have been adversely affected to be heard in a State administrative or appeal process. The State will administer the due process notification of adverse action with an opportunity for a fair hearing handled independently of the county office eligibility and/or benefit level decision to resolve any recipient benefit decreases, terminations, or related issues. Basic assistance program eligibility criteria and benefit levels are the same statewide.

Criteria or Basis for a Hearing

An applicant or recipient has a right to appeal decisions regarding eligibility for assistance including the following issues:

1. Decisions regarding eligibility and/or amount of TANF benefits
2. Conditions of payment or repayment
3. Denial of opportunity to make application or reapplication of benefits
4. Undue delay in determining eligibility for TANF and in making TANF benefits available
5. Suspension or discontinuance of TANF benefits in whole or in part
6. Assignment or participation issues in the TANF Work Program, including work exemptions, supportive services, good cause, etc.
7. Decisions regarding cooperation with the Division of Child Support Enforcement and good cause claims
8. Application of penalties which results in rejection of application, case closure, or reduction of benefits

NOTE: Some issues that are established by law are not subject to the fair hearing process, such as the maximum TANF benefit level.

Requesting a Hearing

TANF applicants or recipients have the choice of either an agency conference or a state hearing to appeal any decision made on their cases. Individual may bypass the agency conference and request a state hearing, or if they choose to request an agency conference and are dissatisfied with the result, a state hearing may then be requested. The individual must make the request for a hearing in writing and sign the request. The claimant may be represented by any one designated; however, the designation must be made in writing.

The request for a hearing may be made by:

1. Checking in the space provided on any of the notification forms
2. Writing a letter indicating a request for a hearing
3. Completing form MDHS-EA-305, Request for a Hearing

The individual may make the request orally, but this must be followed by a formal written request. The worker will assist the individual by explaining how to request a hearing, sending

the form MDHS-EA-305 (Request for a Hearing) to the individual who does not wish to write a letter and lacks a notification form, or helping to fill out a request form when the individual comes to the office of the Department of Human Services and requests a hearing. The request for a hearing may be sent to the county office or to the Administrative Hearings Unit. The worker may give the individual an addressed envelope when the individual prefers to mail the request himself.

State Hearing Request After Local Hearing

When the individual has had a local hearing and is not satisfied with the outcome, he must request a state hearing within 90 days, following the expiration of the advance notice of case change or closure.

NOTE: To prevent the action or to request continued benefits, the hearing request must be made within 10 days from the date of the change/closure notice. If the 10th day falls on a weekend or holiday, the individual must always be given until the first working day following the weekend or holiday.

L. INDICATE WHETHER THE STATE INTENDS TO ASSIST INDIVIDUALS TO TRAIN FOR, SEEK, AND MAINTAIN EMPLOYMENT (SECTION 402(A)(1)(B)(V) OF THE SOCIAL SECURITY ACT)—

1. PROVIDING DIRECT CARE IN A LONG-TERM CARE FACILITY (AS SUCH TERMS ARE DEFINED UNDER SECTION 1397J OF THIS TITLE); OR

2. IN OTHER OCCUPATIONS RELATED TO ELDER CARE, HIGH-DEMAND OCCUPATIONS, OR OCCUPATIONS EXPECTED TO EXPERIENCE LABOR SHORTAGES AS, DETERMINED APPROPRIATE BY THE STATE FOR WHICH THE STATE IDENTIFIES AN UNMET NEED FOR SERVICE PERSONNEL, AND, IF SO, SHALL INCLUDE AN OVERVIEW OF SUCH ASSISTANCE.

If TANF funding is available, Mississippi will assist TANF Work Program participants to train for, seek, and maintain employment:

- providing direct care in a long-term care facility (as such terms are defined under section 1397j of this title); or
- in other occupations related to elder care determined appropriate by the State for which the State identifies an unmet need for service personnel.

Mississippi's four local Workforce Development Areas have identified Healthcare in their Sector Strategy Plans to help align the state's resources with needs of business and industry, career goals of workers and the economic goals of the state. The Mississippi Department of Human Services (MDHS), Division of Workforce Development and Partnership Management (DWDPM) will partner with the Mississippi Community College Board (MCCB) and/or community colleges, Mississippi Department of Employment Security (MDES) and/or other entities to provide short-term training (e.g., Certified Nurses Assistance (CNA) training for placement in a nursing home, etc.) for TANF Work Program (TWP) participants who seek employment in the eldercare workforce. Training may be established on an individual basis based on the individual's career goal(s)/objective(s) and training needs in conjunction with employer needs.

M. PROVIDE FOR ALL MOE-FUNDED SERVICES THE FOLLOWING INFORMATION: THE NAME OF THE PROGRAM BENEFIT OR SERVICE, AND THE FINANCIAL ELIGIBILITY CRITERIA THAT FAMILIES MUST MEET IN ORDER TO RECEIVE THAT BENEFIT OR SERVICE. IN ADDITION, FOR TANF MOE-FUNDED SERVICES (CO-MINGLED OR SEGREGATED MOE) DESCRIBE THE PROGRAM BENEFIT PROVIDED TO ELIGIBLE FAMILIES (SSP SERVICES DO NOT HAVE TO INCLUDE A DESCRIPTION BUT THE DEPARTMENT OF HEALTH AND HUMAN SERVICES ENCOURAGES IT) (§263.2(B)(3) & §263.2(C) PREAMBLE PAGES 17826-7)

The State shall maintain a Segregated State program for the following state-funded programs. These programs shall count towards the State's MOE:

- State funded scholarship programs for needy families with dependent children that began after 1995. [Mississippi Code of 1972 Sections 37-106-29, 37-106-31, and 37-157-1 amended by Senate Bill 2231(1997) and House Bill 1273(1998)]

Eligible population: A needy family is defined as a family with a dependent child(ren) and an average annual income at or below 350 percent of the Federal Poverty Level. The eligible child is defined as anyone who has not yet attained their 24th birthday, continuously enrolled in a program of post-secondary education [Attorney General's Opinion (September 6, 2002)]. The eligible child is not a veteran, not a graduate or professional student, not married, not an orphan or ward of the court, and does not have legal dependents. The eligible child is living in the home; however, he/she may be absent from the home for periods while attending the post-secondary program.

The cost of a scholarship provided to the head of household and/or his/her spouse in an income eligible family shall also count toward the State's MOE requirement.

- State funded programs to increase the likelihood of school success of preschool and school age children in needy families. Eligible population: Preschool and school age children from families with an income at or below 185 percent of the Federal Poverty Level. Mississippi established new programs to assist needy families with educational opportunities. The Mississippi Department of Education developed state funded programs for 3 and 4 year olds whose families are at or below 200 percent of the federal poverty level. However, the Reading and Intervention Program was established for school age children who have scored low on state tests and this program does not have a financial eligibility criteria. Pamphlets, brochures, and posters are provided to local MDHS offices ensuring the public is aware of all available services funded by the Mississippi Department of Education. The TANF goals of these programs/activities are to:
 1. Provide assistance to needy families so that the children may be cared for in their homes or in the homes of relatives;
 2. End the dependence of needy parents on government benefits by promoting job preparation and work. These programs provide safe and stable environments which help children succeed and allow their parents to work;
 3. Prevent and reduce the incidence of out-of-wedlock pregnancies; and
 4. Encourage the formation and maintenance of two-parent families
- State funds may be used for the following programs/expenditures. The eligibility criteria, if applicable, is 185 percent of the Federal Poverty Level:
 1. State funded programs to assist TANF Work Program participants with out-of-pocket expenditures for work-related items and/or services required by the employer in order to accept or maintain employment;
 2. State funded expenditures to provide basic assistance and transportation assistance as applicable;
 3. Mandatory State funded expenditures for early care and education for children whose parent(s) are employed or required to participate in TANF Work Program activities;

4. State funded administrative expenditures for frontline caseworkers and state level staff which includes salaries, office supplies, and commodities as defined in MDHS' subgrantee manual; and
5. State funded expenditures to maintain and enhance the eligibility and case management systems required to support the TANF Work Program.
6. State funded expenditures to include the cost related to providing case management services.

TANF CERTIFICATIONS

The State Plan must include	Include
1. Operate a child support enforcement program under the State Plan approved under part D. (section 402(a)(2) of the Social Security Act);	Yes
2. Operate a foster care and adoption assistance program under the State Plan approved under part E, and that the State will take such actions as are necessary to ensure that children receiving assistance under such part are eligible for medical assistance under the State Plan under title XIX. (section 402(a)(3) of the Social Security Act);	Yes
3. Specify which State agency or agencies will administer and supervise the program referred to in paragraph (1) for the fiscal year, which shall include assurances that local governments and privatesector organizations (section 402(a)(4) of the Social SecurityAct)—	
3. (A) have been consulted regarding the plan and design of welfare services in the State so that services are provided in a manner appropriate to local populations; and	Yes
3. (B) have had at least 45 days to submit comments on the plan and the design of such services;	Yes
4. Provide each member of an Indian tribe, who is domiciled in the State and is not eligible for assistance under a tribal family assistance plan approved under section 412, with equitable access to assistance under the State program funded under this part attributable to funds provided by the Federal Government. (section 402(a)(5) of the Social Security Act);	Yes
5. Establish and enforce standards and procedures to ensure against program fraud and abuse,including standards and procedures concerning nepotism, conflicts of interest among individuals responsible for the administration and supervision of the State program, kickbacks,	Yes

The State Plan must include	Include
and the use of political patronage. (section 402(a)(6) of the Social Security Act);	
6. (optional) Establish and Enforcing standards and procedures to (section 402(a)(7) of the Social Security Act).—	
6.i. screen and identify individuals receiving assistance under this part with a history of domestic violence while maintaining the confidentiality of such individuals;	Yes
6.ii. refer such individuals to counseling and supportive services; and	Yes
6.iii. waive, pursuant to a determination of good cause, other program requirements such as time limits (for so long as necessary) for individuals receiving assistance, residency requirements, child support cooperation requirements, and family cap provisions, in cases where compliance with such requirements would make it more difficult for individuals receiving assistance under this part to escape domestic violence or unfairly penalize such individuals who are or have been victimized by such violence, or individuals who are at risk of further domestic violence.	Yes

JOBS FOR VETERANS' STATE GRANTS

A. HOW THE STATE INTENDS TO PROVIDE EMPLOYMENT, TRAINING AND JOB PLACEMENT SERVICES TO VETERANS AND ELIGIBLE PERSONS UNDER THE JVSG;

The Jobs for Veterans State Grants (JVSG) program provides federal funding, through a formula grant, to 54 State Workforce Agencies to hire dedicated staff to provide individualized career and training-related services to veterans and eligible persons with significant barriers to employment (SBEs), and by helping employers fill their workforce needs with job-seeking veterans. The JVSG is funded annually in accordance with a funding formula defined in the statute (Title 38 United States Code (38 U.S.C.) 4102A(c)(2)(B) and regulation and operates on a fiscal year basis. However, performance metrics are collected and reported quarterly (using four “rolling quarters”) on a program year basis. Currently, this is accomplished through a four-year JVSG State Plan implemented on a program year (PY) basis. A separate application for funding, referred to as the Annual Funding Modification, is also required as a condition for the receipt of funds. This application for funding will continue to be required on a fiscal year (FY) basis and is described in VPL 02-20, or most current guidance on this topic. Approved JVSG State Plans will be incorporated into the terms and conditions of each FY's grant, including any approved modifications.

In accordance with 38 U.S.C. 4102A(b)(5) and 4102A(c), the Assistant Secretary for Veterans' Employment and Training makes grant funds available for use in each State to support Disabled Veterans' Outreach Program (DVOP) Specialists and Local Veterans' Employment Representatives (LVER) staff. As a condition to receive funding, 38 U.S.C. 4102A(c)(2) requires States to apply for a grant that contains a State Plan narrative, which includes:

1. *How the State intends to provide employment, training and job placement services to veterans and eligible persons under the JVSG;*

Mississippi Department of Employment Security (MDES) will assign and utilize DVOP Specialists and other agency employees trained in case management to metropolitan WIN Job Centers throughout the state where the needs of individualized career services are greatest. Services will be provided in person and remotely as needed. JVSG staff will travel to other WIN Job Centers to serve veterans as needed. DVOP Specialists will conduct relationship building, outreach and recruitment activities with other service providers in the local area to enroll eligible veterans in the JVSG program. With the approval of this plan, JVSG will operate on a four-year plan.

MDES will assign and utilize LVER staff and other agency employees to promote the advantages of hiring veterans to employers, employer associations, and business groups. LVER staff will advocate for all veterans served by the WIN Job Center with business, industry, and other community-based organizations. LVER staff will be assigned to a multi-county area and will be housed in WIN Job Centers throughout the area.

MDES will fill grant-funded vacancies expeditiously despite State budget problems, hiring freezes, and furloughs. MDES plans to identify projected losses and retirements early when possible. Applicants will be given the following order of priority: qualified service-connected disabled veterans, qualified eligible veterans, and qualified eligible persons.

To ensure vacancies are filled timely, veteran (non-JVSG) staff in the agency may be considered for assignment to the program if no eligible veteran is available to fill the position.

**B. THE DUTIES ASSIGNED TO DVOP SPECIALISTS AND LVER STAFF BY THE STATE;
SPECIFICALLY IMPLEMENTING DVOP AND LVER DUTIES OR ROLES AND RESPONSIBILITIES
AS OUTLINED IN 38 U.S.C. § 4103A AND 4104. THESE DUTIES MUST BE CONSISTENT WITH
CURRENT GUIDANCE;**

In accordance with Veterans' Program Letter 03-14, including changes 1 and 2, or most recent policies, Disabled Veterans' Outreach Program (DVOP) Specialists provide individualized career services to veterans experiencing significant barriers (SBE) to employment, with an emphasis on assisting veterans who are economically or educationally disadvantaged.

The WIN Job Center staff identify eligible veterans or eligible persons at the point of entry using the intake (attestation) form and complete initial assessments. Those identified (self-attest) as having SBE will be referred to the DVOP Specialists or, in instances where a DVOP Specialist is not available or has reached the predetermined caseload, another WIN Job Center staff will provide services, including individualized career services. To better serve this target group, DVOP Specialists will continue to be oriented in all WIN Job Center programs, i.e., WIOA qualifications.

The Disabled Veterans' Outreach Program (DVOP) Specialist works directly with veterans and eligible persons who have significant barriers to employment. The services provided by a DVOP Specialist are referred to as individualized career services. These services include, but are not limited to:

- Constant contact must occur.
- Comprehensive and specialized assessments.
- Career planning.
- Individual Employment Plans (IEPs).

- Individual counseling.

The DVOP Specialists conduct the following outreach activities to locate and assist eligible veterans and eligible persons:

- Veterans Rehabilitation & Employment Centers.
- Vet Centers, VA Medical Centers and Outpatient Clinics.
- Homeless Veterans Reintegration Program (HVRP) Projects and Homeless Shelters.
- Community-based and Civic Organizations.
- Veterans' Service Organizations.
- Mississippi Department of Rehabilitation Offices.
- Workforce Partners and Service Providers.
- Veterans Affairs Coordinators at colleges.
- Faith-Based Organizations.
- Reserve and National Guard units.
- Military Base Family Service/Support Centers.
- Military Treatment Facilities and Warrior Transition Units.
- Other venues and locations where veterans congregate.

In the event that a DVOP Specialist does not have a full caseload of eligible veterans and eligible persons, the DVOP Specialist may perform additional activities, in the order specified below:

- Review all open case files of current participants who have significant barriers to employment and perform case management duties.
- Conduct relationship building, outreach, and recruitment activities with other service providers in the local area to invite eligible veterans and eligible persons who have SBE in the WIN Job Centers employment system.

LVER Staff

In accordance with Veterans' Program Letter 03-14, including changes 1 and 2, or most recent policies, Local Veterans' Employment Representatives (LVER) staff conducts outreach to employers in the area to assist veterans in gaining employment. LVER staff will conduct outreach to businesses and industries by email, text, phone, mail, employer forums, and face to face office visits.

LVER staff will advocate for all veterans served by the WIN Job Centers with business, industry, and other community-based organizations by participating in appropriate activities such as:

- Planning and participating in job and career fairs.
- Conducting employer outreach.
- Educating all WIN Job Center staff and partners with current employment initiatives and programs for veterans.
- Conducting job searches and workshops, and establishing job search groups, in conjunction with employers.

- Coordinating with unions, apprenticeship programs, and businesses or business organizations to promote and secure employment and training programs for veterans.
- Informing Federal contractors of the process to recruit qualified veterans.
- Promoting credentialing and licensing opportunities for veterans.
- Coordinating and participating with other business outreach efforts.

Local Veterans' Employment Representative (LVER) staff and WIN Job Center staff will work with the U.S. Small Business Administration to provide information to veterans on opportunities in federal contracting. This will assist service-disabled business owners to receive information on sole-source and set-aside procurement opportunities and benefits. LVER staff will continue outreach efforts to federal contractors. LVER staff members are active members of the Business Services Team. They conduct outreach in conjunction with WIOA Title I, WIOA Title III, TANF, Reemployment Services and other programs. All Business Services Team members, including the LVER staff, share a joint employer visit case management system.

The expected outcomes are enhanced employability and placement of veterans who seek employment, increased employers' awareness of the benefits to hiring veterans, and increased knowledge of services offered by WIN Job Centers.

C. THE MANNER IN WHICH DVOP SPECIALISTS AND LVER STAFF ARE INTEGRATED INTO THE STATE'S EMPLOYMENT SERVICE DELIVERY SYSTEM OR AMERICAN JOB CENTER;

Program Integration and Leveraging Resources

DVOP Specialists and LVER staff are an essential part of and fully integrated into the WIN Job Center network; which consists of all staff employed by programs or activities operated by job center partners that provide job-driven online and/or in-person workforce development or related support services as part of the workforce development system. Other WIN Job Center partner staff members include the staff of the Workforce Innovation and Opportunity Act (WIOA), Wagner-Peyser (WP), and other network partner programs.

LVER staff will continue to be viable and effective in the WIN Job Center delivery system, e.g., facilitating and participating in employer marketing services, employer job fairs, etc. LVER staff will continue to be considered key players and team participants in business development activities and employer marketing efforts, developing jobs for WIN Job Centers, marketing veteran services to employers, assisting employers at job fairs, and facilitating employer recruitments. Veterans who have significant barriers to employment are referred to the DVOP Specialist after initial basic services. All of these activities translate into a fully integrated system with positive benefits and productivity for the WIN Job Centers and also subsequently result in the development of seamless employment opportunities for veterans.

DVOP Specialist and WIN Job Center staff will continue to identify service providers in the state and establish linkages to leverage and enhance employability and placement of veterans. LVER staff and WIN Job Center staff will continue to seek out and partner with other economic stakeholders regarding the employment of veterans, i.e., Chambers of Commerce, economic development units, human resource associations, professional organizations, educational institutions, training providers, and others by attending meetings and through outreach.

LVER staff will conduct outreach to other organizations that provide employment services to veterans. MDES will negotiate future Memorandums of Understanding with service providers as appropriate to bring additional services as part of the overall service delivery strategy.

The MDES website provides information about available employment and training-related services. MDES plans to use service brochures to convey information on employment and

training opportunities to veterans during the initial basic services. Information may also be provided by phone, mail, or electronically through the agency workforce technology system.

To better meet the needs of employers wishing to hire veterans, a coordinated approach to marketing and service delivery will include the LVER staff and other WIN Job Center staff. Chambers of Commerce, economic development units, veterans' organizations, and colleges/community colleges will be invited to play a key role in marketing a job-driven campaign to help veterans make decisions based on their individual employment needs coupled with the projected labor market. MDES plans to continue using marketing brochures and tools to target veterans and employers resulting in increased job opportunities for veterans.

D. THE INCENTIVE AWARD PROGRAM IMPLEMENTED USING THE 1% GRANT ALLOCATION SET ASIDE FOR THIS PURPOSE, AS APPLICABLE;

Performance Incentive Awards

At this time, the state can not provide a cash award plan but will develop such a plan to include in our FY23 Annual funding MOD or have it ready for inclusion in the 2024 JVSG State Plan.

E. THE POPULATIONS OF ELIGIBLE VETERANS TO BE SERVED, INCLUDING ANY ADDITIONAL POPULATIONS DESIGNATED BY THE SECRETARY AS ELIGIBLE FOR SERVICES, AND ANY ADDITIONAL POPULATIONS SPECIFICALLY TARGETED BY THE STATE WORKFORCE AGENCY FOR SERVICES FROM ONE-STOP DELIVERY SYSTEM PARTNERS (E.G., NATIVE AMERICAN VETERANS; VETERANS IN REMOTE RURAL COUNTIES OR PARISHES);

Targeting Services to Veterans with Significant Barriers to Employments (SBE)

In accordance with 38 U.S.C. 4103A, Veterans' Program Letter 03-14, including changes 1 and 2, or most recent policies, the DVOP Specialists will provide individualized career services to eligible veterans and eligible persons who have significant barriers to employment (SBE) through the case management approach. An eligible veteran or eligible person is determined to have SBE if he or she attests to belonging to at least one of the six criteria below:

- A special disabled or disabled veteran, who is entitled to VA compensation or released from active duty because of a service-connected disability.
- Homeless.
- A recently-separated service member who at any point in the previous 12 months has been unemployed for 27 or more nonconsecutive weeks.
- Offender.
- Lacking a high school diploma or equivalent certificate.
- Low-income, as defined by WIOA.

In accordance with Veterans' Program letter 03-19 or most recent policies, DVOP Specialist will target services to other special populations of veterans who have SBE as listed below:

- Veterans age 18-24.
- Vietnam-era veterans.
- Eligible transitioning service members.
- Receiving treatment at a military treatment facility or warrior transition unit.
- Spouse, or other family caregiver or a caregiver of an eligible veteran.
- Most recent populations as designated by the Secretary of Labor.

At the local level, WIN Job Centers' management will utilize the manager's report on services to veterans, the DVOP Specialist's outreach and recruitment activity report, and the DVOP Specialist's case management log to monitor and assess the productivity and quality of services provided to veterans.

At the state level, the State Veterans Coordinator (lead LVER) will continue to conduct WIN Job Center assistance visits to ensure guidelines set forth in Veterans' Program Letters, State Plan, Special Grant Provisions for Jobs for Veterans Grants, 38 U.S.C. Chapters 41 and 42, and other applicable compliance requirements are followed. Performance reports will be analyzed quarterly.

F. HOW THE STATE IMPLEMENTS AND MONITORS THE ADMINISTRATION OF PRIORITY OF SERVICE TO COVERED PERSONS;

Priority of Service

The Description of how the state implements and monitors priority of service to covered persons is included in the Common Elements of the WIOA State Plan.

G. HOW THE STATE PROVIDES OR INTENDS TO PROVIDE AND MEASURE, THROUGH BOTH THE DVOP AND AMERICAN JOB CENTER STAFF:

1. JOB AND JOB TRAINING INDIVIDUALIZED CAREER SERVICES,

Per Veterans' Program Letter 01-22, a response to this section is not required.

2. EMPLOYMENT PLACEMENT SERVICES, AND

Per Veterans' Program Letter 01-22, a response to this section is not required.

3. JOB-DRIVEN TRAINING AND SUBSEQUENT PLACEMENT SERVICE PROGRAM FOR ELIGIBLE VETERANS AND ELIGIBLE PERSONS;

Per Veterans' Program Letter 01-22, a response to this section is not required.

H. THE HIRE DATE ALONG WITH MANDATORY TRAINING COMPLETION DATES FOR ALL DVOP SPECIALISTS AND LVER STAFF; AND

Per Veterans' Program Letter 01-22, a response to this section is not required.

--

I. SUCH ADDITIONAL INFORMATION AS THE SECRETARY MAY REQUIRE.

Mississippi follows the performance process outlined in VPL 01-22 Attachment 4, JVSG Performance Targets TAG

The established JVSG targets will cover veterans served by JVSG staff only. We will determine and set evidence-based performance targets for the following three employment-related primary indicators of performance:

1. Employment Rate – 2nd Quarter After Exit: The percentage of participants who are in unsubsidized employment during the second quarter after exit from the program.
2. Employment Rate – 4th Quarter After Exit: The percentage of participants who are in unsubsidized employment during the fourth quarter after exit from the program.
3. Median Earnings – 2nd Quarter After Exit: The median earnings of participants who are in unsubsidized employment during the second quarter after exit from the program.

The current performance targets for Program Year 2021, which ends September 30, 2022, are as follows:

Employment Rate – 2nd quarter after exit	48%
Employment Rate – 4 th quarter after exit	47%
Median Earnings – 2d quarter after exit	\$3,910

UNEMPLOYMENT INSURANCE (UI)

A. CONTENTS OF A COMPLETE UI SQSP PACKAGE

1. TRANSMITTAL LETTER

Mississippi Department of Employment Security

Phil Bryant
Governor

Jacqueline A. Turner
Executive Director

September 27, 2021

Ms. Lenita Jacobs- Simmons
Acting Regional Administrator
U. S. Department of Labor/ETA
Atlanta Federal Center
61 Forsyth Street, S. W., Room 6M12
Atlanta, Georgia 30303-3104

Dear Ms. Lenita Jacob-Simmons:

Please find attached the Fiscal Year 2022 Unemployment Insurance State Quality Service Plan (SQSP) for the State of Mississippi.

If you have any questions regarding this report, please contact Tarvose Johnson at 601-321-6005.

Sincerely,

Timothy Rush
UI Deputy Executive Director, Office of Reemployment Assistance

2. BUDGET WORKSHEETS/FORMS

Title: Fiscal Year (FY) 2022 State Workforce Agency Unemployment Insurance (UI) Resource Planning Targets and Guidelines Description:

Unemployment Insurance Funding total: 20,062,159.00 Project start and end date: October 1, 2021 through December 31, 2024

Authorizing Representative: Mrs. Jacqueline A. Turner Note: The signed copy of the SF 424 and other appropriate budget-related forms are maintained with the State Agency and the Regional Office.

3. THE STATE PLAN NARRATIVE

MISSISSIPPI STATE QUALITY SERVICE PLAN FY 2022 STATE PLAN NARRATIVE

The Mississippi Department of Employment Security is dedicated to improving the Unemployment Insurance program to provide service to our customer. Mississippi has prepared Correction Action Plan (CAP), in its FY 2022 State Quality Service Plan for Benefits Accuracy Measurement. Mississippi addresses “Make Timely Benefits Payments, Establish Tax Accounts Promptly, Detect Benefit Overpayments, National Priorities-Improving State Capacity to Administer and Operate the UI Program Effectively and Efficiently, Improving the timely delivery of benefit payment and the reduction of the adjudication and appeals claims backlogs, Ensuring Equitable Access to UI Programs, Supporting RESEA and the Reemployment of UI claimants and Combatting Fraud and Identity Theft, Reducing the UI Improper Rate, and Recovering Improper Payments, Including Fraudulent Payments and Overpayments. Assurance Disaster Unemployment Assistance, UI Program Integrity, Integrity Action Plan and UI-Reporting Requirements” in the narrative.

The Mississippi Department of Employment Security has a straightforward mission to serve the state’s workforce broker by bringing people and jobs together. Our mission is “Helping Mississippians Get Jobs”. This includes the unemployed, the underemployed and individuals who are seeking to improve their economic standing in our state. During the unprecedented time of a global pandemic, the needs of Mississippians changed overnight, and MDES shifted its focus to helping Mississippians through this challenging time. Though temporary provisions were put in place to facilitate a prompt response to Mississippians in need of assistance, these and other actions were taken to address the pandemic workload that will ultimately impact MDES’s processes for years to come.

MDES has contributed to the economic growth and stability of our state by providing vital employment services to Mississippi residents and employers. We will continue to build on the state’s current information technology system to coordinate and align workforce, education, training and supportive services to help participants return to work sooner.

The agency will continue to be good stewards of the Unemployment Insurance (UI) trust fund, keeping it one of the most solvent UI trust funds in the nation. We will do this by collecting UI taxes in a timely fashion, ensuring people who are eligible for benefits and striving to make accurate decisions to make sure that those who are not eligible are not paid benefits and improving processes to prevent and recover improper payments. MDES will continue to use human resources, technology and innovation to provide accurate, efficient, timely customer service as we operate within the regulation set forth by the United States Department of Labor.

Workforce Innovation and Opportunity Act,

WIOA Workforce Innovation and Opportunity Act (WIOA) Partners

The state of Mississippi has continued our efforts with Workforce Innovation and Opportunity Act strategies to ensure there are jobs for all Mississippians, so they can live here, raise families, and help grow the state. Fulfilling this pledge requires a clear understanding of the

opportunities and challenges that workers face in an increasingly globalizing and rapidly changing economy that places pressure on the current and prospective workforce to gain more academic credentials and higher skill levels.

Mississippi's Combined Plan includes several required states programs-the Adult Programs, the Dislocated Worker Program, the Youth Program. The Adult Education and Family Literacy Act Program, Wagner-Peyser Act Program, and the Vocational Rehabilitation Program-along with Temporary Assistance for Needy Families (TANF), Unemployment Insurance (UI), Trade Adjustment Assistance (TAA), Jobs for Veterans State Grants Program (JVSG), and Senior Community Service Employment Program (SCSEP). The main focus of the plan is to improve the economic opportunities of all job seekers, especially those with low skills.

Through these programs Mississippi's workforce offers a variety of employment services to ensure all jobs seekers have the resources and tools to secure gainful employment. Job seekers can utilize supportive services offered by MDES through Mississippi Works Labor Exchange, which connects individual to employers through both web and mobile applications. Job seekers can 1) build a profile using a wizard-style intake form; 2) automatically generate a resume; 3) search for and apply online to openings; 4) receive emails or text messages when new openings match the job seeker's criteria; 5) receive real-time feedback through an innovative gap analysis that helps a job seeker determine how well matched he or she is for a particular position; and 6) access easy-to-understand labor market analysis. For job seekers who lack computer skills, One-Stop Center staff can log into the Mississippi Works Labor Exchange to assist job seekers in applying for positions through a "staff-assisted referral" or other Wagner-Peyser services.

The state's strategic vision is to continue to nurture a workforce system that acts and functions as an ecosystem where all parts are connected and line up to achieve common goals so that every Mississippian has the opportunity to be work- or career-ready and to secure his or her dream job right here at home. Currently, the complexity of Mississippi's workforce system and the sheer number of educations, training, and employment support service activities geared to address barriers to employment pose a challenge to the state.

Under Mississippi's Combined Plan, from the moment one enters the education and workforce system, he or she will be presented with the necessary tools to choose and pursue a career pathway that is relevant to current and future labor markets. Similarly, from the moment current and prospective businesses enter into a partnership with Mississippi's education and workforce system, resources will be immediately aligned to cultivate the sustainable, high-performance workforce critical for maintaining and expanding businesses' long-term economic viability, in turn creating better and more sustainable employment opportunities for Mississippians.

Intrastate Payments Made Timely

The GPRA goal for Intrastate first payment made within 14/21 days is 87%. For the period ending June 30, 2021, Mississippi achieved a level of 65.8%. Mississippi's level was 49.6% for the reporting period. MDES has been able to improve first payment timeliness through strict monitoring of pending investigation workload and adjustment to some investigation processes. Management and staff continue to work together to determine best practices in terms of both productivity and quality. Ongoing analysis and adjustments will continue to adapt to the changing workloads and improve first payment time lapse. MDES is reviewing potential options to expedite employer requests for information to maximize efficiency. The options being reviewed involve processes, correspondences and advanced technology. Stringent monitoring of pending investigation workload is ongoing as it is our goal to provide customers with an eligibility resolution within ten (10) days of detection.

Establish Tax Accounts Promptly

GPRA goal of status determination for new employers made within 90 days of the end of the first quarter in which liability occurred is 90.0 percent. For the performance year ending March 31, 2021, Mississippi achieved an overall score of 80.6%, which is 9.4% less than the established goal of 90.0%. Below are factors that impacted our performance of this measure. *Employee Staffing* – Over the performance period there were two elements of employee staffing that affected our ability to meet the GRPA goal. *Staffing Vacancies* – As with all state agencies, staff retire, transition to other positions, leave for other employment, or are terminated. During the performance period we have had fluctuations in staffing. Staffing vacancies included one (1) FEIN Specialist, one (1) Field Representative, and two (2) Status Deputies. We are currently in the process of hiring for all of these positions. Field Representatives utilize work items created when claimants file their initial claims to assist in identifying new businesses that should be registered. The FEIN Specialist works our IRS extract to assist in identifying new businesses to register. *Assignment of staff to additional duties* – Due to ever changing needs of the agency during the pandemic, staff were assigned additional duties in order to assist where their skills could best serve the claimants of this agency. We continue to have staff that assist in other areas and expect that those assignments may last through the end of the calendar year. At one point during the height of the pandemic, we had some Status Deputies and Tax Field Representatives assigned to multiple areas. While these assignments continue to be ongoing, we are working strenuously to meet our requirements concerning these types of issues with the staff that we have on hand. We are in the process of hiring additional temporary staff to assist with the workload. *Quarantines due to the pandemic* – Throughout the course of the pandemic staff were quarantined due to direct or indirect exposure to or contraction of COVID-19. This led to periods of time where staff were unable to perform their standard duties. We have established protocols to allow staff who are able to work securely from home.

Employer Education – Employer's awareness and understanding of their responsibilities related to unemployment tax reporting and the reporting of changes associated with the purchasing of other businesses is vital to the timely registration of new employers. We are consistently working on ways that we can improve this area including developing new internal practices to notify employers of these responsibilities. We are also reviewing staffing assignments to focus more on employer liability education and determinations.

Detect Benefit Overpayments

The GPRA goal for overpayment detected will be at least 54.5 percent of the estimated detectable, recoverable overpayments. For the performance period ending of March 31, 2021 the estimated amount was 50.46%. Currently, there is ongoing integration between work search audit and eligibility review functions. The investigator is required to contact the claimant and employer to complete the audit process. If the audit does not validate the work search a disqualifying determination is generated. MDES takes the approach to combine efforts to establish a more robust eligibility review/work search audit where staff not only audit the work search submitted for a particular week, they review all aspects of eligibility to assist with prevention of overpayments. It is a continued practice to focus on Mississippi employers with the highest linkage to improper payments as a preventative measure. MDES continues to analyze the Benefits Accuracy Measurement monthly report along with the in-house fraudulent claim reports. Continue to meet with staff to define ways to prevent overpayments.

UI Program Integrity

The Integrity Task Force will meet regularly to identify and implement strategies to prevent improper payments for the three root causes. The taskforce will continue to educate employers and claimants as well as UI and Workforce staff on the importance of properly reporting issues and earnings information. Activities includes the specific strategies to address prevention and detection of fraud and other improper payments in all UI programs, including the CARES Act programs. States must include recovery strategies, including working directly with financial

institutions and or law enforcement agencies to recover UC funds held by banks and financial institutions. Actions to address the state's top three improper payment root causes.

MDES utilizes specific strategies such as Integrity Data Hub, NASWA fraud alerts, Fraud Report, New Hire reports to prevent and detection fraud and improper payments. MDES will continue to utilize the recovery methods of Tax offsets, Garnishments, Voluntary Repayments and Offsets weekly certifications while working directly with Conduent and financial institutions to recover UC funds.

UI-Reporting Requirements

Mississippi experienced reporting delinquencies as a result of programming challenges while implementing Cares Act programs. The agency addressed the issue and will closely monitor future reporting task to ensure all reports are submitted timely and accurately moving forward.

NATIONAL PRIORITIES

Improving State Capacity to Administer and Operate the UI Program Effectively and Efficiently

Mississippi conducts reviews in various program operations to identify system vulnerabilities and provide recommendations for administering and improving program operation and performance. The number of servers were increased to process the increase workload and increase storage space to save additional data. MDES implemented enhanced security using F5 Silverline and bot detection using F5 Shape services. Features are built in the system for claimants to upload documents and the self-service home page was modified to be more user friendly. Strategies are established to review staff training to make provisions for ongoing staff development. MDES incorporated responses to the pandemic with cross-trained staff to managed rapid changes in staffing and implemented ID.me to detect and prevent fraud.

Improving the timely delivery of benefit payment and the reduction of the adjudication and appeals claims backlogs

Adjudication Backlog

Adjustments were made to the investigation process during the pandemic which did expedite resolution and eliminate backlog which impacted quality. MDES continues to review processes to help determine best practices and find the most expeditious, thorough methods, so we may meet and exceed quality standards. Intensive quality training sessions are ongoing as well as review of processes to best meet DOL quality guidelines. Correspondence is being reviewed to seek more effective ways to obtain information for eligibility issues. Feedback and reviews on quality have been implemented to assist with staff development.

Appeals Backlog

In November 2020, the Appeals Department trained 22 temporary hearing officers to handle select one-party cases. These hearing officers helped to greatly reduce the number of pending appeals with the number of cases they handled through February 2021. 11 of those hearing officers are still conducting hearings. They were later trained to handle select two-party cases.

We brought on 15 additional temporary hearing officers in May 2021 and trained them to handle select one- and two-party cases. 9 of those hearing officers are still conducting hearings.

We "borrowed" 20+ agency employees from other departments in August 2021 and trained them, along with 4 temporary appeals employees, to handle a variety of cases. We are currently training 4 additional temporary hearing officers to handle one-party cases.

We are targeting pandemic cases by training certain hearing officers to handle these cases either with a hearing or through research to determine whether the cases can be remanded for reconsideration.

Our pending caseload hovered at 19,000+ cases, despite the number of appeals decisions that were being issued. That number has dropped to the current 13,000+ cases pending. We believe this drop is due to our strategies to reduce the pending cases.

Ensuring Equitable Access to UI Programs

Mississippi with in partnership with the US DOL has invested its resources in technology and human resources to ensure equitable access to individuals and employers who need assistance, participation and use of the unemployment insurance program. Through planning, development and continuous improvement MDES strives to provide universal and diverse service access points to the unemployment insurance program to ensure human resources (employees) are adequately trained and cross trained to provide fair, timely, efficient, effective assistance to its external and internal customers. MDES has taken efforts to train the staff on servicing individuals with disabilities, limited English proficiency, limited education, limited access to the internet and computers, and limited use of personal resources by providing online access to the unemployment system 24 hours per day, seven days per week. In recent months effort have been made to assess the reading comprehension level of the online system for ease of use to that of a 7/8 grade reading level. This is type of review will be assessed periodically.

MDES through its consortium has engaged with a vendor to rewrite the customer interface for a customer enhancement for a better user experience. In partnership with workforce through various American Job Center around the state, access points, computer resources rooms and landline phones are available at no cost to the individuals or businesses. The business model provides diverse options for services and access to the system or subject matter customer service representatives for meaningful access. Staff are trained to assist individuals with limited English proficiencies with timely customer service experience by bilingual staff, contracted interpreters and language translation services. The WIOA EEOO routinely conducts surveys and assessments to ensure staff are knowledgeable about aid assist efforts, interpreter services, and nondiscriminatory practices.

MDES has developed and released a free app for unemployment customers to file their weekly certifications and check their claim status. To assist individuals who have barriers that may restrict their use of technical aids or the online system. MDES has a fully functionable contact center, staffed with trained and experienced managers and customer service representatives ready to assist individuals and employers who need assistance. During the height of pandemic and peak of the implementation of the CARES Act Mississippi experienced an increase in excess of 2,000% in weekly certifications. MDES address this issue by contracting with vendors to provide additional human resource to assist with contact center services 12-18 hours per day 5-7 days per week. That remains an available resource to address a potential influx of customer service needs.

Plans are underway to develop technology to use bots and optical character recognition software to assist in processing paper, pdf and offline claims. MDES strives and periodically assesses our processes and systems in an effort to ensure that everyone who needs unemployment assistance are served in a timely and adequately manner. Consistent with these aims, each department takes action to review its programs and policies periodically to make sure that there are no known systemic barriers to opportunities and benefits for people of color, disabilities and other underserved groups. Such assessments have better equipped MDES in the development policies and programs that deliver resources and benefits equitably and timely to all individuals and employers.

Supporting RESEA and the Reemployment of UI Claimants

Mississippi created a no-wrong-door WIOA strategy to ensure coordinated delivery of all workforce, training, and supportive services necessary to achieve occupational goals. To operationalize this strategy, Mississippi developed an innovative, real-time data hub that shares information between approved workforce partners. RESEA participants enter the workforce system when filing an initial claim and being selected for the RESEA program. Services and activities to help participants return to work are recorded in the MS Works data system and can be shared across multiple programs. Also, participant success plan is added to MS Works. The success plan will help RESEA case workers visualize the pathway to a career goal and to align services to a participant's barriers and challenges.

Combatting Fraud and Identity Theft, Reducing the UI Improper Rate, and Recovering Improper Payments, Including Fraudulent Payments and Overpayments

MDES will continue the utilization of ID.me along with training staff to reduce and recover the fraudulent payments, overpayments and improper payments. MS utilizes Incarceration crossmatch, Department of Motor Vehicle (DMV) crossmatch, Social Security Administration (SSA) crossmatch, National and State Directory of New hire and Quarterly Wage Records crossmatch are the tools MS uses to combat fraud and minimize overpayments.

The ReStartMS was designed to provide employers with information on employees presently filing or who have previously filed for Unemployment Insurance benefits. Utilizing this system will aid in the prevention of improper unemployment payments and assist in getting the workforce back to work sooner.

MDES utilizes the Integrity Data Hub (IDH) as a tool to detect identity theft/fraudulent claims in multiple states. MS also participates in monthly meetings with NASWA in groups with other States' Integrity department management learning, discussing and increasing knowledge about prevention, detection and recovery of improper payments and fraudulent claim activities.

Assurance Disaster Unemployment Assistance

We have a Continuity of Operations Plan (COOP) in place for DUA procedures for use during a major disaster declaration, as well as DUA set up information for adjudications. MDES will provide short training sessions on DUA before the end of November 2021 and the date(s) will be provided. For the disaster declared 12-31-2020 Hurricane Zeta, the training date took place 01- 07-2021.

Assurances:

- a. Assurance of Equal Opportunity (EO).
- b. Assurance of Administrative Requirements and Allowable Cost Standards.
- c. Assurance of Management Systems, Reporting, and Recordkeeping.
- d. Assurance of Program Quality.
- e. Assurance on Use of Unobligated Funds.
- f. Assurance of Prohibition of Lobbying Costs (29 CFR Part 93).
- g. Drug-Free Workplace (29 CFR Part 98).
- h. Assurance of Contingency Planning.

Provide the most recent dates for the following:

- Information Technology (IT)Contingency Plan Implemented: June 2019*
- IT Contingency Plan Reviewed/Updated1: June 2019*

- IT Contingency Plan Tested²: January 2019*
- i. Assurance of Conformity and Compliance.
- j. Assurance of Automated Information Systems Security. Provide the most recent dates for the following:
 - Risk Assessment Conducted³: April 2019
 - System Security Plan Reviewed/Updated⁴: September 2018*
- k. Assurance of Confidentiality

[1] At a minimum, an IT Contingency Plan must be reviewed and/or updated annually.

[1] At a minimum, an IT Contingency Plan must be tested annually.

[1] At a minimum, a Risk Assessment should be conducted once every three (3) years.

[1] At a minimum, a System Security Plan must be reviewed and/or updated annually.

4. CORRECTIVE ACTION PLANS (CAPS)

CORRECTIVE ACTION PLANS

Benefits Accuracy Measurement

A. The Reason for deficiency:

MDES was granted approval to suspend paid claim investigations for the quarter beginning April 2020 and ending June 30, 2020, from batch 202014 through batch 202026. In addition, the denied claim investigations were suspended beginning with batch 202011 through batch 202126, quarter ending June 30, 2021. Due to the suspensions, BAM failed to sample the annual sample size for UI paid and denied claims fixed by Department of Labor for the calendar year. Mississippi's workloads remained at extraordinary levels due to the effects of COVID-19 during the height of the pandemic. MDES shifted its focus on increased response and reallocation of resources in specific areas of UI activities, which included but are not limited to ensuring program integrity and the prevention and detection of improper payments and fraud across all programs. As MDES continued to administer the CARES ACT and Continued Assistance for Unemployed Workers Act of 2020, managing the investigations associated with return to work, job refusals, able and available issues and job separations required intense focus. In addition, increased levels of initial and additional claims create a steady flow of eligibility issues. As a result, Benefit Accuracy Measurement (BAM) staff were reallocated to assist other critical areas of the agency to help expedite benefit resolutions to those affected by COVID-19, which caused a significant delay in paid and denied case investigation completions.

B. Provide a description of your "Plan-Do-Check-Act" corrective action plan which will be undertaken to achieve the acceptable level of performance. Examples of major actions and activities; aka, Milestones, include IT requirements, business process analysis, training, implementing process improvements, measuring effectiveness, etc. Please

include a description of these actions/activities in each stage of your "Plan-Do-Check-Act" corrective action plan:

Benefit Accuracy Measurement reviewer and supervisor will closely monitor timeliness more frequently by using the PCA and DCA use defined time-lapse reports to review case aging, completion and case flow characteristics. These reports will assist with analyzing and isolating performance problems sooner. MDES is the process of filling the BAM supervisor and investigator positions recognizing it will take time, training and experienced for new staff to reach expected performance levels. With BAM staff returning to their normal duties and filling vacant positions, MDES anticipates this will help improve case completion and timeliness.

C. If a plan was in place the previous year, an explanation of why the actions contained in that plan were not successful in improving performance; and, an explanation of why the actions now specified will be more successful. N/A D. A brief description of plans for monitoring and assessing accomplishment of planned actions and for controlling quality after achieving performance goals.

Mississippi will continue to monitor the time lapse reports to ensure the PCA and DCA investigations are completed timely and that BAM sample the required amount of cases required by DOL.

MILESTONES:

Monitoring

MDES will continue to monitor case timeliness and completion to ensure cases are sampled correctly and submitted timely.

Hiring/Staffing

BAM will fill vacant supervisor and investigator positions.

5. UI PROGRAM INTEGRITY ACTION PLAN (UI IAP)

INTEGRITY ACTION PLAN

1. Separation

- Educate and train staffs to ask specific questions to obtain complete information from claimants/employers so that all separation issues are identified and investigated/adjudicated in a timely manner. Use every opportunity to educate employers on the importance of providing separation and refusal information to MDES within the required timeframe. Review claimant information to be sure instructions and eligibility requirements are clear. Take action as needed to update/modify information issued to claimants.

2. Able & Available

- Provide additional training for staff performing address able and available issues promptly. Staff will be attentive to detecting able and available issues during the work search audit verification and address those issues.

3. State and Employer Use of SIDES

- Partner with Third Party Administrators-Ensuring development for PDF for all exchanges. Technical documentation is reviewed accordingly.
- Employers SIDES messaging- Explain to employer the importance and benefits of responding timely through E-Response.

- Claimant messaging- Generate a detail mailer/message alert to claimant after first payment advising them of the requirement and method to properly report earnings and return to work. Include the penalty for failing to do so but emphasize the potential overpayment issue and progression.

4. Support Claimant Compliance with State Work Search Requirements

- Claimant messaging - Ensuring that Work Search documents communicate clear instructions on work search requirements.
- Work Search Audit Review -Changes made to the audit process to ensure functions are being performed properly regarding claimant compliance with the requirements.

5. Benefit Year Earnings

- Employer Education -Mississippi continues to utilize RESTART MS to report return to work, refusals of work, inability to contact ex-employees, job separations and never separated.
- Claimant Education-Ongoing education to claimant through social media, email blast and the MDES website of the importance of properly reporting earnings and return to work dates.

Specific strategies for the prevention, detection and recovery of overpayments

- Mississippi has incorporated ID.me identity verification for every applicant to complete in efforts to prevent fraudulent claims paid. Ongoing in-house training and training with NASWA will be provided to the staff to prevent, detect and recover overpayments.

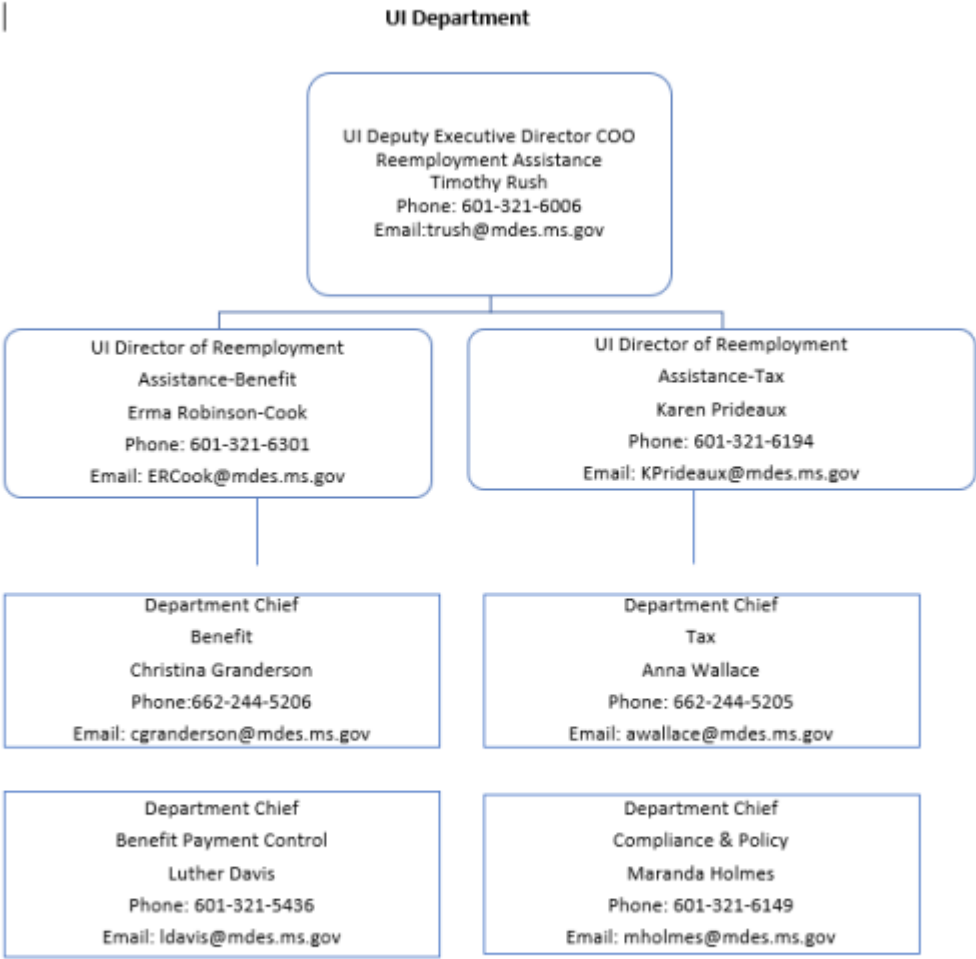

Messaging efforts planned by the state to inform all UI and workforce staff of the state's integrity plan.

- Hire additional staff and continue training UI and Workforce staff on MDES's integrity plan and the importance of claimants reporting earnings and employers reporting new hire/rehires timely.

Outreach efforts to employers to inform them of the integrity initiative.

- Create new messaging to employers advising of the importance of properly reporting earnings and employers reporting new hire/rehire timely.

6. ORGANIZATIONAL CHART

7. SQSP SIGNATURE PAGE

**U.S. Department of Labor
SQSP SIGNATURE PAGE**

B. REQUIREMENTS FOR STATES ELECTING TO INCLUDE UI IN THE COMBINED STATE PLAN

1. SUBMIT AN SQSP IN THE FOLLOWING MANNER DEPENDING ON THEIR TIMING IN THE SQSP CYCLE:

A. IF A STATE IS IN THE FIRST YEAR OF THEIR 2-YEAR CYCLE, THE STATE IS REQUIRED TO SUBMIT THE MOST RECENTLY APPROVED COMPLETE SQSP PACKAGE. A COMPLETE SQSP PACKAGE WILL INCLUDE THE TRANSMITTAL LETTER, BUDGET WORKSHEETS/FORMS, STATE PLAN NARRATIVE, CAPS (INCLUDING THE MILESTONES AND THE COMPLETION DATE FOR EACH MILESTONE), THE UI IAP, ORGANIZATIONAL CHART, AND THE SQSP SIGNATURE PAGE.

ONE OF THE KEY GOALS FOR THE UI PROGRAM IS TO ENSURE THAT CLAIMANTS ARE ABLE TO SUCCESSFULLY RETURN TO WORK. AS SUCH, THE SQSP STATE PLAN NARRATIVE MUST PROVIDE A DISCUSSION OF THE PLAN COORDINATION WITH OTHER WIOA COMBINED PLAN PROGRAMS TO ENSURE A COORDINATED EFFORT AND INTEGRATED SERVICE DELIVERY.

The SQSP for FY 2020 was submitted to the U.S. Department of Labor/ETA on October 18, 2021.

B. IF A STATE IS IN THE SECOND YEAR OF THE 2-YEAR CYCLE, THE STATE IS REQUIRED TO SUBMIT THE MOST RECENTLY APPROVED COMPLETE SQSP PACKAGE WITH A MODIFICATION THAT MUST INCLUDE THE TRANSMITTAL LETTER, BUDGET WORKSHEETS/FORMS, ORGANIZATIONAL CHART, AND THE SQSP SIGNATURE PAGE. THE MODIFICATION MAY ALSO INCLUDE CAPS FOR NEW IDENTIFIED PERFORMANCE DEFICIENCIES, AND ANY REQUIRED MODIFICATIONS TO EXISTING CAPS. THE CAP MUST LIST BOTH SPECIFIC MILESTONES FOR KEY CORRECTIVE ACTIONS OR IMPROVEMENT ACTIVITIES, AND THE COMPLETION DATE FOR EACH MILESTONE.

N/A

2. SUBMIT THE REQUIRED OFF-YEAR SQSP COMPONENTS AS A MODIFICATION TO THE COMBINED STATE PLAN ON THE SAME CYCLE AS THE REGULAR SQSP PROCESS WHICH MUST BE APPROVED BY SEPTEMBER 30TH EACH YEAR

The required off-year components will be submitted as a modification to the Combined State Plan by October 31 each year.

SENIOR COMMUNITY SERVICE EMPLOYMENT PROGRAM (SCSEP)

A. ECONOMIC PROJECTIONS AND IMPACT

1. DISCUSS LONG-TERM PROJECTIONS FOR JOBS IN INDUSTRIES AND OCCUPATIONS IN THE STATE THAT MAY PROVIDE EMPLOYMENT OPPORTUNITIES FOR OLDER WORKERS. (20 CFR 641.302(D)) (MAY ALTERNATIVELY BE DISCUSSED IN THE ECONOMIC ANALYSIS SECTION OF STRATEGIC PLAN.)

Mississippi is a predominantly rural state with only three metropolitan areas and a population of 2,988,762. From 2010 to 2018, Mississippi's overall population grew by 46,771. The following population groups experienced the greatest percentage growth in the previous decade: Asian, 14.67 percent; Native Hawaiian or Pacific Islander, 11.16 percent; and two or more races, 36.5 percent. This demographic change has led to a more diverse Mississippi. The state also has a larger potential workforce in 2018 than it did in 2010, as Mississippi's population over 18 years old grew by 83,838 to a total potential workforce of 2,268,454.

The population over 55 grew by 130,067 to a potential older workforce of 829,364. According to data from the Bureau of Labor Statistics, Mississippi's unemployment rate has dropped from 10.4 percent in 2010 to a historic low of 4.8 percent in 2018, before rising slightly to 5.5 percent by November 2019. As of November 2019, unemployment rates by county currently range from 4 to 16.1 percent. Mississippi private-sector employers have added 40,200 jobs (an increase of 3.59 percent) since July 2015. The largest job gains have been in leisure and hospitality (12,300 jobs), trade, transportation and utilities (9,900 jobs), and education and health services (9,200 jobs). These three sectors provide employment options for seniors.

The Healthcare sector is projected to continue growing rapidly in Mississippi. Healthcare is an industry of necessity. As Mississippi population ages, the need for quality, accessible medical care will increase. Nationally, healthcare jobs growth rose 21.36 percent between 2010 and 2019. This growth requires more Direct Service Workers in both patient care and ancillary healthcare jobs from housekeeping to medical records. This is an employment area that the Mississippi SCSEP will target for unsubsidized employment.

Figure: Mississippi NonFarm Employment, July 2019

Source: MDES, 2020

As the chart above indicates, Mississippi's economy is dominated by six sectors. The largest sector as of June 2019 was Trade, Transportation, and Utilities; followed by Government; and Manufacturing.

The data below compare Mississippi's employment by industry sector as of July 2015, to employment as of June 2019. Leisure and Hospitality and Professional and Business Services show robust growth and are areas that have significant employment potential for senior workers.

Table: Employment By Industry

Industry Sector	July 2015	June 2019	Number Change	Percent Change
Trade, transportation, and utilities	223,400	233,300	9,900	4.43%
Government	234,200	233,200	(1,000)	-0.43%
Manufacturing	141,900	146,700	4,800	3.38%
Education and health services	134,400	143,600	9,200	6.85%
Leisure and hospitality	131,200	143,500	12,300	9.38%
Professional and business services	104,000	110,800	6,800	6.54%

Industry Sector	July 2015	June 2019	Number Change	Percent Change
Financial activities	43,800	45,800	2,000	4.57%
Construction	47,100	44,800	(2,300)	-4.88%
Other services	40,100	41,300	1,200	2.99%
Information	12,700	11,200	(1,500)	-11.81%
Mining and logging	7,900	6,700	(1,200)	-15.19%
Total nonfarm	1,120,700	1,160,900	40,200	3.59%

Source: MDES, 2020

The charts below indicate that Mississippi is losing certain population groups while the population of those over 55 years of age is growing. The total population over 55 from the 2018 American Community Survey was 829,364 and will increase to 1,011,768 by 2030.

Figure: Population by Age and Sex, 2018

Source: Census Bureau, 2020

Figure: Projected Population by Age and Sex, 2030

Source: Centers for Disease Control, 2020

Individuals with Disabilities make up the following percentages in Mississippi:

Table: Disability Status of The Civilian Noninstitutionalized Population

	Total	Total With a Disability	Percentage With a Disability
Civilian Noninstitutionalized Population (CNP)	2,922,647	476,720	16.30%
Under 18 years old	717,902	33,163	4.62%
18 to 64 years old	1,768,479	260,090	14.71%
65 years old and over	436,266	183,467	42.05%

Source: Census Bureau, 2020

Data from the 2018 5-Year American Community Survey also indicate that:

- Among Mississippians age 55 and older, 13.25 percent are veterans
- 52.27 percent of the overall population of Mississippi live in non-metropolitan counties;
- 1.62 percent of Mississippians speak English less than “very well”;
- Of the total population in Mississippi of 2,988,762:

- Whites number: 1,751,193 or 58.59 percent
- Black or African American number: 1,125,834 or 37.67 percent
- American Indian and Alaska Native number: 13,689 or 0.46 percent
- Asian number: 28,313 or 0.95 percent
- Native Hawaiian or Pacific Islander number: 707 or 0.02 percent,
- Some other race number: 28,833 or 0.96
- Two or more races number: 40,193 or 1.34 percent.

Educational attainment statistics from the 2018 census are only available for the total population over 25, not specifically for those over 55, but show the following:

Table: Educational Attainment Statistics

	Total	Percentage of Population over 25
Population 25 years and over	1,967,314	-
Less than 12th grade, no diploma	316,345	16.08%
High school graduate (includes equivalency)	596,564	30.32%
Some college or Associate degree	625,228	31.78%
Bachelor's degree	266,274	13.53%
Graduate or professional degree	162,903	8.28%
Percent high school graduate or higher	1,650,969	83.92%
Percent bachelor's degree or higher	429,177	21.82%

2. DISCUSS HOW THE LONG-TERM JOB PROJECTIONS DISCUSSED IN THE ECONOMIC ANALYSIS SECTION OF STRATEGIC PLAN RELATE TO THE TYPES OF UNSUBSIDIZED JOBS FOR WHICH SCSEP PARTICIPANTS WILL BE TRAINED AND THE TYPES OF SKILL TRAINING TO BE PROVIDED. (20 CFR 641.302(D))

Mississippi is a predominantly rural state with only three metropolitan areas and a population of 2,988,762. From 2010 to 2018, Mississippi's overall population grew by 46,771. The following population groups experienced the greatest percentage growth in the previous decade: Asian, 14.67 percent; Native Hawaiian or Pacific Islander, 11.16 percent; and two or more races, 36.5 percent. This demographic change has led to a more diverse Mississippi. The state also has a larger potential workforce in 2018 than it did in 2010, as Mississippi's population over 18 years old grew by 83,838 to a total potential workforce of 2,268,454.

The population over 55 grew by 130,067 to a potential older workforce of 829,364. According to data from the Bureau of Labor Statistics, Mississippi's unemployment rate has dropped from 10.4 percent in 2010 to a historic low of 4.8 percent in 2018, before rising slightly to 5.5 percent by November 2019. As of November 2019, unemployment rates by county currently range from 4 to 16.1 percent. Mississippi private-sector employers have added 40,200 jobs (an increase of 3.59 percent) since July 2015. The largest job gains have been in leisure and hospitality (12,300 jobs), trade, transportation and utilities (9,900 jobs), and education and health services (9,200 jobs). These three sectors provide employment options for seniors.

The Healthcare sector is projected to continue growing rapidly in Mississippi. Healthcare is an industry of necessity. As Mississippi population ages, the need for quality, accessible medical care will increase. Nationally, healthcare jobs growth rose 21.36 percent between 2010 and 2019. This growth requires more Direct Service Workers in both patient care and ancillary healthcare jobs from housekeeping to medical records. This is an employment area that the Mississippi SCSEP will target for unsubsidized employment.

Figure: Mississippi NonFarm Employment, July 2019

Source: MDES, 2020

As the chart above indicates, Mississippi's economy is dominated by six sectors. The largest sector as of June 2019 was Trade, Transportation, and Utilities; followed by Government; and Manufacturing.

The data below compare Mississippi's employment by industry sector as of July 2015, to employment as of June 2019. Leisure and Hospitality and Professional and Business Services show robust growth and are areas that have significant employment potential for senior workers.

Table: Employment By Industry

Industry Sector	July 2015	June 2019	Number Change	Percent Change
-----------------	-----------	-----------	---------------	----------------

Industry Sector	July 2015	June 2019	Number Change	Percent Change
Trade, transportation, and utilities	223,400	233,300	9,900	4.43%
Government	234,200	233,200	(1,000)	-0.43%
Manufacturing	141,900	146,700	4,800	3.38%
Education and health services	134,400	143,600	9,200	6.85%
Leisure and hospitality	131,200	143,500	12,300	9.38%
Professional and business services	104,000	110,800	6,800	6.54%
Financial activities	43,800	45,800	2,000	4.57%
Construction	47,100	44,800	(2,300)	-4.88%
Other services	40,100	41,300	1,200	2.99%
Information	12,700	11,200	(1,500)	-11.81%
Mining and logging	7,900	6,700	(1,200)	-15.19%
Total nonfarm	1,120,700	1,160,900	40,200	3.59%

Source: MDES, 2020

The charts below indicate that Mississippi is losing certain population groups while the population of those over 55 years of age is growing. The total population over 55 from the 2018 American Community Survey was 829,364 and will increase to 1,011,768 by 2030.

Figure: Population by Age and Sex, 2018

Source: Census Bureau, 2020

Figure: Projected Population by Age and Sex, 2030

Individuals with Disabilities make up the following percentages in Mississippi:

Table: Disability Status of The Civilian Noninstitutionalized Population

	Total	Total With a Disability	Percentage With a Disability
Civilian Noninstitutionalized Population (CNP)	2,922,647	476,720	16.30%
Under 18 years old	717,902	33,163	4.62%
18 to 64 years old	1,768,479	260,090	14.71%
65 years old and over	436,266	183,467	42.05%

Source: Census Bureau, 2020

Data from the 2018 5-Year American Community Survey also indicate that:

- Among Mississippians age 55 and older, 13.25 percent are veterans
- 52.27 percent of the overall population of Mississippi live in non-metropolitan counties;
- 1.62 percent of Mississippians speak English less than “very well”;
- Of the total population in Mississippi of 2,988,762:

- Whites number: 1,751,193 or 58.59 percent
- Black or African American number: 1,125,834 or 37.67 percent
- American Indian and Alaska Native number: 13,689 or 0.46 percent
- Asian number: 28,313 or 0.95 percent
- Native Hawaiian or Pacific Islander number: 707 or 0.02 percent,
- Some other race number: 28,833 or 0.96
- Two or more races number: 40,193 or 1.34 percent.

Educational attainment statistics from the 2018 census are only available for the total population over 25, not specifically for those over 55, but show the following:

B. SERVICE DELIVERY AND COORDINATION

1. A DESCRIPTION OF ACTIONS TO COORDINATE SCSEP WITH OTHER PROGRAMS. THIS MAY ALTERNATIVELY BE DISCUSSED IN THE STATE STRATEGIES SECTION OF THE STRATEGIC PLAN, BUT REGARDLESS OF PLACEMENT IN DOCUMENT, MUST INCLUDE:

A. PLANNED ACTIONS TO COORDINATE ACTIVITIES OF SCSEP GRANTEEES WITH WIOA TITLE I PROGRAMS, INCLUDING PLANS FOR USING THE WIOA ONE-STOP DELIVERY SYSTEM AND ITS PARTNERS TO SERVE INDIVIDUALS AGED 55 AND OLDER. (20 CFR 641.302(G), 641.325(E))

On July 1, 2012, the Mississippi Department of Employment Security (MDES) was designated as the SCSEP State Grantee. Since MDES is the state agency that operates the state workforce

system, coordination of SCSEP with other workforce programs in the state should increase greatly.

Coordination with State's Title I Workforce Innovation and Opportunity Act (WIOA) Activities.

MDES is the agency that oversees WIOA in Mississippi. MDES staff members are liaisons to the Local Workforce Development Areas and track the use of WIOA funding. WIOA in Mississippi and the LWDAs are important partners to SCSEP. The SCSEP Managers rely on MDES and the LWDAs for labor market information, training, and job search assistance.

SCSEP participants register with the WIN Job Centers (American Job Centers) to research the available jobs in their area and jobs of interest to them. Participant training plans are based on the employment opportunities for which they are interested. Employment specific training is usually coordinated through the WIOA course offerings.

Coordination with Title I WIOA is further enhanced through the WIN Job Centers' option to participate as host agencies. Placing participants in the WIN Job Centers serves many purposes such as:

- having a senior on site provides a more comfortable setting, thereby attracting other seniors;
- provides an opportunity for the older worker to network with potential businesses and locate unsubsidized employment;
- provides an opportunity for the older work to recruit eligible individuals into the SCSEP program; and,
- provides an opportunity to research jobs regularly.

B. PLANNED ACTIONS TO COORDINATE ACTIVITIES OF SCSEP GRANTEES WITH THE ACTIVITIES BEING CARRIED OUT IN THE STATE UNDER THE OTHER TITLES OF THE OLDER AMERICANS ACT (OAA). (20 CFR 641.302(H))

The U.S. Department of Labor provides funds to operate SCSEP to States and other national sponsor organizations. Governor Reeves has designated the Mississippi Department of Employment Security as the State SCSEP Grantee. Currently, MDES subgrants funds to the ten Planning and Development Areas for the administration of the SCSEP. In Mississippi, the Area Agencies on Aging are subordinate agencies within the nonprofit economic development organizations known as Planning and Development Districts. The Area Agencies on Aging are experienced providers of services for the senior population. Currently, the AAAs operate SCSEP in 9 of the 10 PDDs and the Workforce Division operates SCSEP in Southern MS PDD.

Activities Carried out Under Other Titles of the Older Americans Act:

• Transportation.

Transportation is offered to older adults as an option to assist in continuing their independence. SCSEP participants that cannot drive may take advantage of local Area Agency on Aging transportation services. The state and National Grantees target transportation providers with a goal of benefiting SCSEP participants interested in training – with the transportation providers acting in a host agency capacity.

• Nutrition.

The Nutrition Program serves a dual purpose; it provides a well-balanced meal for SCSEP participants and it provides host agencies that train participants at their congregate meal sites. Training at the Nutrition Program congregate meal sites offers skills training in food handling

and preparation, management skills, and recreation development. SCSEP Managers' goals are to continue partnering with the Nutrition Program congregate meal sites as host agency sites.

- **Aging and Disability Resource Center.**

The state and National Grantees plan to partner with the Aging and Disability Resource Center (ADRC), an online database of resources. The Aging and Disability Resource Center Program (ADRC), a collaborative effort of AoA and the Centers for Medicare & Medicaid Services (CMS), is designed to streamline access to long-term care. The ADRC program provides states with an opportunity to effectively integrate the full range of long-term supports and services into a single, coordinated system. The ADRC provides a single entry-point for resources that can assist SCSEP participants to meet their personal and family needs. Additionally, the ADRC will identify eligible participants for SCSEP.

- **Adult Day Care.**

The Adult Day Care program is beneficial for the SCSEP participants that are also caregivers. The Adult Day Care program allows participants to continue training at host agencies with the reassurance their family member is taken care of. The state and National Grantees also benefit from the Adult Day Care Program in a host agency capacity. Certified Nursing Assistants (CNA) are needed in Adult Day Care centers; CNA Training is an opportunity for participants interested in furthering their careers or entering the medical field.

- **Family Caregiver Support Program.**

The Family Caregiver Support Program provides information about services, assistance in gaining access to services, counseling, respite care, and supplemental services to complement the care provided by the caregivers. The program can support the needs of SCSEP participants that are caregivers needing to be training for unsubsidized employment.

C. PLANNED ACTIONS TO COORDINATE SCSEP WITH OTHER PRIVATE AND PUBLIC ENTITIES AND PROGRAMS THAT PROVIDE SERVICES TO OLDER AMERICANS, SUCH AS COMMUNITY AND FAITH- BASED ORGANIZATIONS, TRANSPORTATION PROGRAMS, AND PROGRAMS FOR THOSE WITH SPECIAL NEEDS OR DISABILITIES. (20 CFR 641.302(I))

National Sponsors

Mississippi has three (3) national sponsor organizations operating SCSEP. The following is a list of the national sponsors and the contact person for each of those agencies.

National Caucus and Council on Black Aged, Inc.

Chester A. Johnson, Program Manager

Post Office Box 545

Cleveland, MS 38732

(662) 846-6992

Service Organizations and Community Based Organizations

The state's subgrantees, the PDDs, through the AAAs, utilize the services of or directly contract with the service organizations that serve the aging population, such as elder abuse prevention services, legal services, and transportation services. Many of these services are provided by community-based organizations. Due to these relationships, AAA and PDD staff members remain in constant contact with the service provider staff from which participant and host agency referrals are made. SCSEP managers, through the AAAs, work with homemakers, transportation, nutrition providers, and community action organizations. Service providers and community action agencies are invited to the public hearings held annually to discuss aging programs, including SCSEP.

Collaboration with Other Public and Private Entities and Programs that Provide Services to Older Americans.

Community Based Organizations.

The state subgrants SCSEP to the 10 PDDs in the state; the PDDs/AAAs have a direct contractual relationship with community-based organizations as service providers. Local community action agencies work closely with the state grantee to collaborate on SCSEP.

Transportation Programs.

Transportation providers are generally non-profit organizations that partner with AAAs. The rural nature of the state is compounded by the lack of an entity with mandated responsibility for providing transportation assistance to citizens in need. To combat transportation problems:

- the Mississippi Department of Transportation is actively involved in leading the United We Ride campaign in the state;
- the Planning and Development Districts either sponsor or closely partner with the Regional Transportation Councils.

D. PLANNED ACTIONS TO COORDINATE SCSEP WITH OTHER LABOR MARKET AND JOB TRAINING INITIATIVES. (20 CFR 641.302(J))

Labor Market Effects on Employment Opportunities and Host Agencies.

Employment opportunities for SCSEP participants vary greatly based on the jobs available in the local labor market. Data on the local jobs, such as type, availability, and potential growth should determine the types of host agencies and the how many are needed to support SCSEP participant training. Also, each SCSEP participant's Individual Employment Plan is developed based on the skills needed for the available jobs in the region and should guide the training he

or she receives. The labor market data needed to drive these decisions comes from the MDES Labor Market Information unit and is provided in partnership with the LWDBs through board meetings, conferences, the Workforce Innovation and Opportunity Act State Plan, and local WIN Job Centers.

Collaboration with Other Labor Market and Job Training Initiatives.

MDES is the State Grantee for SCSEP and developed the 5-Year SCSEP State Plan. MDES is also the designated state workforce agency, and as such, provides Mississippi's WIOA Combined State Plan to the US Department of Labor for WIOA, Wagner-Peyser, and other DOL-funded workforce programs. The combined plan is centered on an effective and efficient state workforce development system that meets the demands of Mississippi's businesses and job seekers by creating a Work-Ready Mississippi. This system will integrate state and local resources to create a seamless system to serve the business community and the individuals who use the system. The SCSEP plan will coordinate with, support, and benefit from the WIOA Combined State Plan and the Governor's workforce initiatives.

The Combined State Plan will guide the strategic and operational workforce planning for state agencies. The priorities include providing an attractive economic climate for current and emerging industries that foster economic opportunity, job creation, capital investment and infrastructure development by developing a well-trained, educated, and productive workforce. The initial emphasis will be placed on growth sectors, Healthcare, Advanced Manufacturing, and Energy, which were the focus of important pieces of legislation passed in the 2012 legislative session.

Mississippi passed the Mississippi Health Care Industry Zone Act that expands the healthcare industry. This law advocates centralizing health care and encouraging healthcare-related businesses to create high-paying jobs and to locate within qualified Health Care Zones. Businesses that create jobs in the research, development, manufacturing or processing of pharmaceuticals, biologics, biotechnology, medical supplies and medical equipment, diagnostic imaging and other shared services would be eligible for incentives.

As Mississippi's population ages, the need for quality, accessible medical care will increase. This increase in need for medical care will require an increase in the number of healthcare jobs, as evidenced by the national growth in this sector of twenty-one percent between 2001 and 2010. Mississippi jobs in healthcare pay 40 percent more than the statewide average. This is an area in which older Mississippians can be placed in unsubsidized employment after SCSEP job training.

At the heart of Mississippi's economy are our existing businesses and industries. Developing a workforce for the growth and sustainability of Mississippi businesses large and small - from tourism on the Mississippi Blues Trail to the high tech and advanced manufacturing of military drones - must remain a priority. The vision is simple: to help our state attract, keep, and grow businesses that create good jobs.

Mississippi understands that our economic growth is dependent on a comprehensive statewide workforce system that integrates education, industry, employment and economic development into a unified enterprise with a shared vision and common goal. This system is employer-focused and demand-driven. The growth of high wage employment is dependent upon Mississippi having a trained workforce, a continued supply of skilled Mississippians who are ready, willing, and able to fill jobs, regardless of their age.

Mississippi has identified five keys to meet the shortage a high-quality workforce:

- A high-quality education for all citizens is a key tenet of competitiveness that makes Mississippi an attractive place to create, locate and grow a business;

- High wage jobs must be filled by highly skilled workers possessing the appropriate skills to do the job and further business growth. Unfilled job positions are wasted opportunities in the short- and long-term causing employers to look outside Mississippi for talent;
- An information system that supports data-driven planning and decision making for state and local workforce stakeholders;
- An increase in post-secondary credentials and certifications that help jobseekers access the high-skill, high-growth jobs of the future; and
- A pipeline for workforce development must be advanced through strategic partnerships with a common vision among K-12, community colleges, universities, state agencies and other stakeholders devoted to workforce training and retraining.

Each of these five keys is as critical in helping seniors fill a part of the shortage in skilled workforce as they are for other workers.

Leveraging Resources from Key Partners to Support SCSEP.

PDDs work with community colleges to provide training to SCSEP participants at a reduced cost; many provide tuition waivers for SCSEP participants. Community colleges are an integral component of the WIOA programs offered through the WIN Job Centers. SCSEP participants are encouraged to dual enroll in WIOA with the WIN Job Centers for job search assistance and training classes.

E. ACTIONS TO ENSURE THAT SCSEP IS AN ACTIVE PARTNER IN THE ONE-STOP DELIVERY SYSTEM AND THE STEPS THE STATE WILL TAKE TO ENCOURAGE AND IMPROVE COORDINATION WITH THE ONE-STOP DELIVERY SYSTEM. (20 CFR 641.335)

Infrastructure Funding Agreements.

Each PDD is required in their subgrant with the state to negotiate with a local WIN Job Center (WJC) to ensure SCSEP's required partner presence in the center. Each PDD entered into a Memorandum of Understanding (MOU) with the WJC and negotiated payment for space used and provided a copy of the MOU and the basis for the cost to MDES. Funds in the amount of that cost basis are included in the PY19 SCSEP allocations for estimated cost for the space, and the PDDs include these costs in their budget narratives submitted to MDES.

Collaboration with State Vocational Rehabilitation.

The Mississippi Department of Rehabilitation Services, like SCSEP, is a required partner in the WIOA programs. SCSEP and Vocational Rehabilitation will collaborate with the WIN Job Centers for employment assistance for older individuals with disabilities.

Collaboration with Adult Education and Literacy Providers.

SCSEP participants complete an initial assessment upon entrance into the program to determine their employment plan. For participants that are interested in completing their High School Equivalency Diploma (HSE), SCSEP partners with the Adult Education program administered by the Mississippi Community College Board. The Adult Education program is designed to offer opportunities to enhance the skills and abilities of individuals preparing for the workforce. SCSEP participants are encouraged to prepare themselves in the areas of math, reading, writing, communication, and computer skills to become employment ready. The Adult Education program provides assistance in developing these skills based on the individual's skill level and learning capacity.

The Adult Education program is available statewide through community colleges, public schools, and other resources. SCSEP participants can test at any of the available high school equivalency sites across the state.

Collaboration with Education and Training Providers.

The SCSEP program collaborates with the WIN System to offer SCSEP participants access to training using Individual Training Accounts (ITAs) through the state's Eligible Training Provider System. Available courses include, but are not limited to:

- Accounting;
- Administrative Services;
- Animal Husbandry;
- Auto Mechanics;
- Banking and Finance;
- Building Maintenance;
- Clerical;
- Computer;
- Data Word Processing;
- Forestry;
- Health Services;
- Industrial;
- Landscaping;
- Manicuring;
- Medical Coding;
- Pharmacy Tech;
- Retail Sales;
- Teacher Assistant; and,
- Welding.

F. EFFORTS TO WORK WITH LOCAL ECONOMIC DEVELOPMENT OFFICES IN RURAL LOCATIONS.

Local Governments.

PDDs are also directly linked to the economic development of the region and receive funds from local cities, counties and local governments. PDDs have direct relationships with cities, counties and local governments; many are host agencies for SCSEP participants. The following are government agencies that SCSEP works with on an ongoing basis:

- Board of Supervisors;
- Cities;
- Towns;

- Libraries;
- Local Chambers of Commerce; and,
- State Chamber of Commerce.

SCSEP staff from all grantees and subgrantees will continue to foster these relationships to increase their participation as host agencies. These entities may potentially hire participants into unsubsidized employment.

Business Organizations.

State subgrantees and their SCSEP managers work with business organizations such as the Mississippi Manufacturers Association and local chambers of commerce to develop job opportunities. They collaborate with Medicaid and regional transportation and economic assistance providers to access services to SCSEP participants in need. They also solicit advice and recommendations from support service organizations through public hearings and joint conferences.

Mississippi Chambers of Commerce.

The mission of a Chamber of Commerce is to provide leadership in economic development activities, support existing businesses, attract new businesses, and promote civic, cultural, and recreational activities that improve the quality of life for businesses and residents. There are about one hundred (100) Chambers of Commerce in Mississippi.

Strategy for Collaborating with Chambers of Commerce.

SCSEP Managers will contact the chambers to educate them on the benefits of hiring older workers. The mission of the chambers supports the goals of SCSEP; working together will strengthen the case for targeting older workers when meeting new and existing businesses. Additionally, the chambers will be avenues that SCSEP Managers can use to identify industry appropriate training opportunities for SCSEP participants interested in the local labor market opportunities.

Strategy for Seeking Advice and Recommendations.

The state and national grantees will meet with the Chambers of Commerce at Workforce Development Board meetings, conferences, and individually to seek their advice and recommendation on improving SCSEP. The chambers can provide important information on the local economy and ensure that SCSEP Managers meet with and partner with existing and new businesses interested in hiring and/or training older workers. Partnering with chambers as host agencies and providing a SCSEP participant to train onsite brings recognition to SCSEP while providing valuable training to participants. Chambers of Commerce that are host agency sites provide skills training in clerical, phone skills, record keeping, etc.

Economic Development Agencies.

Economic development is a focus on the state level as well as at the local community level. SCSEP grantees and subgrantees in the state will target economic development agencies for partnership opportunities.

Strategy for Collaborating with Economic Development Agencies.

The state and national grantees will work with economic development agencies at the state and local level to network and educate on employment training opportunities for older workers that new and existing businesses can utilize to hire skilled older workers. Collaboration with the economic development agencies through the Mississippi Economic Development Council allows SCSEP a single point of entry to providing education on older workers to the more than 3,100

manufacturing entities that drive the state's economy. The Mississippi Economic Development Council organizes two conferences a year. SCSEP Managers will attend the conferences to network with businesses.

Strategy for Seeking Advice and Recommendations.

The state and national grantees will network with the economic development agencies and attend their meetings and conferences. SCSEP Managers will present the benefits of hiring older workers at Local Workforce Development Board meetings and conferences, such as the Governor's Conference on Workforce Development, to increase the entered employment rate for SCSEP participants. The state and national grantees will glean information from the economic development agencies on ways to improve participant's individual employment plans to ensure that participants are receiving the training needed to be job ready in the industries that support our economy.

Labor Organizations.

Labor unions for business organizations in Mississippi can assist SCSEP Managers by providing information for the design of individual employment plans for participants, as they best know the skills needed for worker safety and career advancement.

2. THE STATE'S LONG-TERM STRATEGY FOR ENGAGING EMPLOYERS TO DEVELOP AND PROMOTE OPPORTUNITIES FOR THE PLACEMENT OF SCSEP PARTICIPANTS IN UNSUBSIDIZED EMPLOYMENT. (20 CFR 641.302(E)) (MAY ALTERNATIVELY BE DISCUSSED IN THE STATE STRATEGIES SECTION OF STRATEGIC PLAN.)

Strategy for Collaborating with Major Employers.

The state and national grantees will target the major employers with an educational campaign to raise awareness of the benefits of hiring older workers. The goals are to increase the rate of entered employment of exited SCSEP participants and increase the number of higher paying jobs (with benefits) for SCSEP participants.

- **Strategy for Seeking Advice and Recommendations**

Seeking advice and recommendations from local businesses is beneficial to SCSEP. Businesses can provide information on the skills needed for employment to assist in the development of the SCSEP participant's individual employment plan. Another possibility is to increase the number of On-the-Job Training contracts that SCSEP managers can enter into with businesses to ensure that SCSEP participants received the training needed for hiring by the business. SCSEP managers will attend job fairs and will require all participants to attend as part of their training.

- **Engaging and Developing Partnerships with Businesses.**

The state and national grantee SCSEP managers will coordinate with the LWDBs to show businesses the benefits of hiring older workers. Older workers in general have low turnover rates, are flexible and open to change, are interested in learning new skills, have low absentee rates, have experience and knowledge, and are willing to work. Therefore, hiring older workers is a solution to the shortage of workers in the state.

SCSEP managers will work with the LWDAs to develop partnerships with businesses by utilizing recruitment efforts such as sending brochures and fact sheets on the older workers, sending letters to businesses outlining the benefits of older workers and following up with a presentation to the Human Resources Director and/or President, and where applicable recruit them to become a host agency. Developing partnerships with businesses creates the opportunity to share success stories from other businesses that hire older workers.

To increase partnerships with businesses, SCSEP managers are encouraged to:

- increase contacts with local businesses;
- promote On-the-Job Training contracts with businesses;
- make presentations to businesses; and,
- assist local businesses with training needs.

Retention Activities for Participants in Unsubsidized Employment.

Once a SCSEP participant is trained and placed in unsubsidized employment, the SCSEP manager continues to follow the participant for one year to ensure he/she has the support needed to remain employed. SCSEP participants in unsubsidized employment may need additional training and support to keep up with the demands of the changing workforce. Support will be provided in the form of tracking, counseling, and job development.

SCSEP managers will work with the LWDAs to educate businesses on how to retain older workers. Once businesses see the value older workers bring to their businesses, they will be looking for ideas to retain their older workers. SCSEP assists in restructuring jobs that help employees to maintain or advance their careers. Managers can educate businesses on the following strategies for creating a positive environment for older workers:

- **Flextime:** employees can begin and end their workday at varying times;
- **Job Sharing:** use two employees for one job position;
- **Part-time Position:** older workers may be looking for 20-30 hours a week;
- **Consulting:** older workers may prefer to work in a consultant role;
- **Compressed Work Week:** work longer hours, but fewer days; and,
- **Telecommuting:** working from home.

3. THE STATE'S LONG-TERM STRATEGY FOR SERVING MINORITY OLDER INDIVIDUALS UNDER SCSEP. (20 CFR 641.302 (C))

The State subgrants to the Planning and Development Districts since their AAAs are the primary provider of other services to the aging community and have established contacts and rapport in the community. The PDDs should collaborate with the WIN Job Centers and other workforce system partners to provide outreach services to minority populations.

MDES provides the required Equitable Distribution (ED) report and Minority Report to USDOL annually. MDES will continue to use both the ED and the Minority Report to guide the PDDs as they provide SCSEP services and to advise the national grantees that operate the program in the state.

4. A LIST OF COMMUNITY SERVICES THAT ARE NEEDED AND THE PLACES WHERE THESE SERVICES ARE MOST NEEDED. SPECIFICALLY, THE PLAN MUST ADDRESS THE NEEDS AND LOCATION OF THOSE INDIVIDUALS MOST IN NEED OF COMMUNITY SERVICES AND THE GROUPS WORKING TO MEET THEIR NEEDS. (20 CFR 641.330)

Process Implemented to Identify Community Service Needs.

MDES will work with the national grantees and the 10 PDDs to collect information on the participants, services, and skills needs of the businesses in the area that each serves. Identifying gaps between the participants, the skill requirements, and the services provided will guide decisions on targeted recruitment, training, host agency assignments, and recruitment of businesses willing to hire seniors into unsubsidized training.

The industry makeup of the state varies by region. The Delta region of the state is predominately agricultural with a secondary gaming and tourism emphasis; the northeastern region is industrial; the west-central region is mixed with agriculture, manufacturing, and professional, with a recent growth in oil production; and the southern region is agricultural, gaming and tourism, and industrial. Due to the variety of industries in the state, SCSEP managers will continue to work with the local WIN Job Centers and other stakeholders to identify local community service needs and obtain recommendations on how SCSEP participants can bridge those gaps. Individual Employment Plans will be tailored to meet the needs of the participants and the community service assignments.

Timeline for Identifying and Recruiting Host Agencies to Meet Community Service Needs.

State and national grantees, with the assistance of the LWDAs, will identify non-profits and government organizations as potential host agencies for a resource list. The resource list will guide the SCSEP managers in their attempts to recruit host agencies to train SCSEP participants. The USDOL data collection system will assist SCSEP managers to track the types of host agencies using the host agency management reports. The state and national grantees will increase the number of host agencies every program year to meet the needs of participants.

5. THE STATE'S LONG-TERM STRATEGY TO IMPROVE SCSEP SERVICES, INCLUDING PLANNED LONG-TERM CHANGES TO THE DESIGN OF THE PROGRAM WITHIN THE STATE, AND PLANNED CHANGES IN THE USE OF SCSEP GRANTEES AND PROGRAM OPERATORS TO BETTER ACHIEVE THE GOALS OF THE PROGRAM. THIS MAY INCLUDE RECOMMENDATIONS TO THE DEPARTMENT AS APPROPRIATE. (20 CFR 641.302(K))

Since the Mississippi Department of Employment Security (MDES) was designated as the State Grantee as of July 1, 2012, coordination with other workforce programs in the state has greatly increased. The division of MDES that has direct oversight of the SCSEP also provides direct fiscal and programmatic support for WIOA to the state's four Local Workforce Development Areas.

Improving SCSEP Services.

Long-Term Strategy to Improve SCSEP Services.

The State has implemented a WIOA Common Intake and Reporting System, known as the Hub", that captures common participant information for the four core programs. The system aligns resources and generates automatic referrals among the core programs and partner programs such as SCSEP.

Using a no wrong door policy, all participants will develop an individualized success plan that coordinates the optimum blend of services and funding to achieve their goals for success. This success plan also indicates which of the pathways in the Smart Start Pathways Model to which the participant will be assigned. A connection to a career pathway must be included as part of an older worker's individual service strategy or MS Smart Start Success plan. This model is an integrated compilation of programs and services intended to develop basic, technical and employability skills; provide continuous education and training; and work supports that lead to high-demand jobs in targeted sectors.

Planned Changes in the Utilization of SCSEP Grantees and Program Operators.

In PY2015, the State Grantee's largest subgrantee, Southern Mississippi Planning and Development District, moved its SCSEP staff from the Area Agency on Aging division to the Workforce Division. This puts SCSEP in this district under the direction of the Twin Districts Workforce Development Area. SMPDD is the SCSEP subgrantee of both the State subgrant and The Center for Workforce Inclusion (CWI), operating a total of 125 slots. SMPDD will use the Smart Start Pathways Model throughout its service area. CWI intends for all of its subgrantees to follow the lead of SMPDD and use Smart Start as the service model.

Increased Frequency of Formal Collaboration Activities Among SCSEP Grantees.

The state grantee will conduct training annually and provide ongoing Technical Assistance. The state is dedicated to increasing the number of collaborative activities and efforts in the state regarding the benefit of older workers. MDES will work collaboratively with its national grantee, 10 PDDs, and other partners to connect older workers with various programs.

Development of Criteria for Selection of Subrecipients.

The state grantee, in collaboration with the USDOL, will develop more stringent criteria for the selection of sub-recipients. Subgrantees will be selected based on their ability to run SCSEP effectively, measured by performance measure results. The program is designed to develop economic self-sufficiency and promote useful opportunities in community service activities to increase the number of persons who may enjoy the benefits of unsubsidized employment in both the public and private sectors. A performance driven selection process for subgranting SCSEP will ensure the program meets its performance measures.

Opportunities to Share Best Practices Statewide.

The state grantee will work with National Grantees to share best practices through regular contact including the annual Equitable Distribution Meeting. Working together statewide will ensure that SCSEP is serving the eligible and the target population effectively.

MDES will also coordinate with the National Council on Black Aging (NCBA) to assist and provide the following:

- Work together in collecting and sharing labor market information in any specific area to identify the skills area businesses require so that we can develop targeted recruitment of both the participants and host agencies.
- Remain in compliance with DOL equitable distribution of positions in the state. NCBA will work closely with the state to ensure that the distribution always remains equitable.
- As a national administrator of the SCSEP program in Mississippi, NCBA has recognized and experienced the many challenges presented by the rural nature of the state. NCBA will continue to work with the state to develop and implement plans to meet these challenges and help the participants gain unsubsidized employment.

6. THE STATE'S STRATEGY FOR CONTINUOUS IMPROVEMENT IN THE LEVEL OF PERFORMANCE FOR SCSEP PARTICIPANTS' ENTRY INTO UNSUBSIDIZED EMPLOYMENT, AND TO ACHIEVE, AT A MINIMUM, THE LEVELS SPECIFIED IN OAA SECTION 513(A)(2)(E)(II). (20 CFR 641.302(F))

State's Plan for Ensuring Goals are Achieved.

SCSEP managers receive performance measures from the USDOL prior to the start of the Program Year. The 2006 amendments to the Older Americans Act section 513(a) mandates that SCSEP managers are given the opportunity to negotiate their performance measures based on state-specific data. Acceptable sources of data include but are not limited to: TANF; state unemployment rate; labor market information, and past performance.

The USDOL provides the SCSEP managers with management reports via the web-based data collection system known as SPARQ (SCSEP Performance And Results QPR). Management reports are produced quarterly to gauge progress towards performance measures. The USDOL has proposed significant changes to the SPARQ system for the upcoming year. The following management reports will be used by the state, national grantees, and SCSEP managers:

Applicant

- Pending
- Ineligible
- Eligible, Not Assigned or on Waiting List
- Waiting List Participants

Current/Exited

- Started Employment but Not Yet Achieved Entered Employment
- Achieved Entered Employment but Not Yet Achieved Retention
- Waiver of Durational Limit
- Participants Who Have Reached Durational Limit
- Participants With Approved Break(s)

Follow-Ups

- Pending
- Pending, Displayed by Month

Actions

- Most In Need/Waiver Factor Actions

Host Agencies

- Host Agencies
- Assignments by Host Agency

Employers

- Unsubsidized Employers
- Placements by Employer

Meeting, trainings, and conference calls.

Meetings among the state, national grantees, and subgrantees will be held on a regular basis, either in person or using electronic means such as conference calls and webinars. As issues warrant, MDES will meet with subgrantees on an individual basis by phone or during site visits, monitoring visits, or data validation visits. Topics may include:

- Data entry review prior to close date for reports
- Quarterly reports
- Reports reviewed
- Reports discussed by SCSEP Managers.

C. LOCATION AND POPULATION SERVED, INCLUDING EQUITABLE DISTRIBUTION

1. A DESCRIPTION OF THE LOCALITIES AND POPULATIONS FOR WHICH PROJECTS OF THE TYPE AUTHORIZED BY TITLE V ARE MOST NEEDED. (20 CFR 641.325 (D))

Current and Projected Employment Opportunities in the State.

There has been a shift in the last two decades in the nation as a whole from an industrial to a service and knowledge-based economy. According to the U.S. Bureau of Labor Statistics, Mississippi has followed the national industrial trend with 36 percent of the workforce employed in service-oriented jobs. In the service industry, the largest sub-sectors include healthcare and social assistance followed by administrative and support services.

The economic priorities for Mississippi over the next four years and guidance from the SWIB will guide the strategic and operational workforce planning for state agencies. The priorities include providing an attractive economic climate for current and emerging industries that foster economic opportunity, job creation, capital investment and infrastructure development by developing a well-trained, educated, and productive workforce.

The initial emphasis will be placed on the three sectors in the Combined State Plan; Advanced Manufacturing, Healthcare and Energy, which were the focus of important pieces of legislation passed in the 2012 legislative session. Of equal importance is the retention and expansion of existing industries such as transportation and logistics, agribusiness, tourism; and defense and homeland security.

Employment Projections for High Growth Industries and Occupations.

The state relies on labor market information disseminated by the MDES Labor Market Information division to ensure that SCSEP meets the local labor market demands. Labor market information shows that all industry sectors are in need of skilled workers, especially those that require the application of technology and knowledge such as automotive and health care professionals.

The SCSEP managers must emphasize the need to obtain skills through training at host agencies in order to generate quality job placements in high growth industries. Mississippi projects that over 1.2 million jobs are expected to be available in the next ten years. Increasing SCSEP job placements in the high growth areas will move Mississippi ahead.

Industries and Occupations with Employment Opportunities for SCSEP participants.

Participants are encouraged to design their employment plan around the following industries most in need of skilled workers:

- service sector;
- healthcare;
- retail;
- food service;
- social assistance; and,
- education.

Employment Histories and Skills Possessed by Eligible Individuals in the State.

Generally, SCSEP participants in Mississippi have very limited skills and work history; many are displaced homemakers or widows with limited work experience. Therefore, the state and national grantees must ensure that the SCSEP participant's Individual Employment Plan includes the skills training needed to locate unsubsidized employment upon exiting the program. Training may be attained at the host agency, the WIN Job Centers, community colleges, and at participant educational meetings.

Mississippi ranks last in educational attainment in the adult population, particularly older females. In the state, 15.59 percent of SCSEP participants have no high school degree, 41.34

percent have a high school degree or equivalent, and only 8.25 percent have a bachelor's degree or higher. A snapshot of the Mississippi SCSEP participant education, age, and wages from the SPARQ database follows:

	IID	NCBA	CWI	MS	All Mississippi SCSEP	
Total	54	227	332	134	844	100%
Educational Attainment						
8th grade & under	5	5	2	3	21	3.27%
9th grade - 11th grade	8	40	27	4	79	12.32%
High School diploma or equivalent	22	106	92	455	265	41.34%
1 - 3 years college	3	70	79	31	183	28.54%
Post-secondary Certificate	0	4	2	0	6	0.93%
Associate degree	1	4	23	6	34	5.30%
Bachelor's degree or equivalent	0	18	15	8	41	6.39%
Some graduate school	0	0	3	1	4	0.62%
Master's degree	0	1	4	3	8	1.24%
Doctoral degree	0	0	0	0	0	0.00%
Age						
55-64	35	133	122	56	346	53.97%
65+	10	115	125	45	295	46.02%
Wages & Hours						
Median Placement Wages	\$10.00	\$9.00	\$9.49	\$9.18		
Average Hours per Week	35	27.5	30.4	22.7		

Source: SCSEP Quarterly Progress Report, ETA 5140, PY20 Final

2. LIST THE CITIES AND COUNTIES WHERE THE PROJECT WILL BE CONDUCTED. INCLUDE THE NUMBER OF SCSEP AUTHORIZED POSITIONS AND INDICATE WHERE THE POSITIONS CHANGED FROM THE PRIOR YEAR.

This data is listed in the Program Year 2018 Equitable Distribution List by National and State Grantee with Counties (Provided in Appendix I8A).

3. DESCRIBE CURRENT SLOT IMBALANCES AND PROPOSED STEPS TO CORRECT INEQUITIES TO ACHIEVE EQUITABLE DISTRIBUTION.

Location of Positions.

The US Department of Labor has redistributed positions among The Center for Workforce Inclusion, the National Caucus on Black Aged, the Institute for Indian Development, and the Department of Employment Security in order to more equitably serve the eligible population as indicated by the 2020 Census through the USDOL distribution process. In Mississippi, the state and national grantees agree that the distribution is currently equitable.

4. THE STATE'S LONG-TERM STRATEGY FOR ACHIEVING AN EQUITABLE DISTRIBUTION OF SCSEP POSITIONS WITHIN THE STATE THAT:

A. MOVES POSITIONS FROM OVER-SERVED TO UNDERSERVED LOCATIONS WITHIN THE STATE IN COMPLIANCE WITH 20 CFR 641.365.

Strategy for Maintaining Equity of Slots

The U.S. Department of Labor implemented revisions to the required Equitable Distribution Report. The four grantees provided their Grantee Reports to the USDOL and MDES compiled the information from the four into a Statewide Grant Report, which was also submitted to DOL on June 22, 2021. The state grantee will monitor distribution and service of the slots to ensure that all grantees are working to implement the action plans stated in the reports. We will also continue to monitor distribution of slots relative to demographic changes and will address any potential issues as they arise through communication with DOL.

B. EQUITABLY SERVES RURAL AND URBAN AREAS.

See answer above at c.4.A.

C. SERVES INDIVIDUALS AFFORDED PRIORITY FOR SERVICE UNDER 20 CFR 641.520. (20 CFR 641.302(A), 641.365, 641.520)

See answer above at c.4.A.

5. THE RATIO OF ELIGIBLE INDIVIDUALS IN EACH SERVICE AREA TO THE TOTAL ELIGIBLE POPULATION IN THE STATE. (20 CFR 641.325(A))

See answer above at c.4.A.

6. THE RELATIVE DISTRIBUTION OF ELIGIBLE INDIVIDUALS WHO:

A. RESIDE IN URBAN AND RURAL AREAS WITHIN THE STATE

The State of Mississippi is a predominately rural state, with a large percent of Mississippians living in rural counties. Access to transportation and limited numbers of host agencies in the most rural counties will continue to be a challenge that all SCSEP grantees must work together to overcome.

Inadequate Resources.

The state and national grantees strive to serve both rural and urban areas of Mississippi equitably. In order to accomplish this, state and National Grantees must work together to overcome inadequate resources (limited employment prospects, few host agencies, lack of transportation, etc.).

Employment.

The rural nature of the state combined with an agrarian-based economy makes it difficult to provide adequate unsubsidized placement opportunities. The number of jobs available is few and because public and mass transportation are not available, access to many of the existing jobs or employment opportunities can be problematic. In some instances, the cost of transportation and other job maintenance factors exceed the benefits of employment.

Host Agencies.

The rural nature of the state also creates a shortage of host agencies. The state and national grantees operating in the state know the challenge of developing enough host agencies to rotate participants appropriately according to their individual employment plan. SCSEP managers will continue to partner with the LWDBs to assist in developing new business opportunities and to partner with new and existing non-profit organizations located in the state.

Transportation.

Access to transportation continues to be a problem in areas outside of the metropolitan area of Jackson. To alleviate transportation concerns, the state grantees may reimburse participants for transportation costs only when travel is necessary for training, physical exams or enrollee meetings. If there is no public transportation available, and there are no other options, and if the participant could not otherwise participate in the program, transportation to and from host agency assignment may be reimbursed until another option is identified.

The state grantee will attempt to collaborate with other local agencies and resources to provide participant transportation at no cost or reduced cost whenever possible.

Additionally, flexible scheduling is encouraged to help participants reduce travel costs by training more hours on fewer days, providing the same community service assignment hours.

C. Specific Populations Groups.

The state and national grantees offer various recruitment and selection techniques in order to address Older Americans Act Section 518(b) as detailed below:

OAA Section 518(b) defines priority individuals as those who qualify based on one or more of the following criteria:

- Are aged 65 years or older;
- Have a disability;
- Have limited English proficiency or low literacy skills;
- Reside in a rural area;
- Are veterans or their spouses who meet the requirements of the Jobs for Veterans Act, 38 U.S.C. sec. 4215(a)(1);
- Have low employment prospects;
- Have failed to find employment after utilizing services provided under Title 1 of WIOA; or,
- Are homeless or at risk of homelessness.

Other populations identified in the statute are defined in OAA Section 503(a)(4)(C)(i)-(iv) as:

- Eligible individuals with the “greatest economic need” (as defined in 20 CFR 641.140);
- Eligible individuals who are minority individuals; and,

- Eligible individuals who are individuals with “greatest social need” (as defined in 20 CFR 641.140).

The LWDBs that oversee the workforce system in the state are key partners for both the state and national grantees in the state as they provide labor market information and economic data to assist grantees in developing new host agencies, educating employers on the benefits of hiring older workers, and providing job search assistance for SCSEP participants. The workforce system provides an additional avenue to recruit eligible individuals to participate in the SCSEP.

Additional recruitment activities include, but are not limited to, the following:

- attending job fairs;
- advertising in local newspapers and newsletters;
- referrals from exited participants, host agencies, faith-based organizations and local officials;
- running public service announcements;
- visiting local senior centers;
- partnering with organizations that serve aging and/or disabled adults;
- distributing brochures, flyers, posters and fact sheets throughout the state; and,
- partnering with the local WIN Job Centers.

B. HAVE THE GREATEST ECONOMIC NEED

MDES will ensure that the Mississippi state grant and the national grantees work to recruit and give priority to participants who have the greatest economic need.

C. ARE MINORITIES

MDES will ensure that the Mississippi state grant and the national grantees work to recruit and give priority to participants who are minorities and will monitor progress through the annual minority report.

D. ARE LIMITED ENGLISH PROFICIENT

MDES will ensure that the Mississippi state grant and the national grantees work to recruit and give priority to participants who have limited English proficiency.

E. HAVE THE GREATEST SOCIAL NEED. (20 CFR 641.325(B))

MDES will ensure that the Mississippi state grant and the national grantees work to recruit and give priority to participants who have the greatest social need.

F. FORMERLY INCARCERATED INDIVIDUALS, AS DEFINED IN TEGL 17-20

MDES will ensure that the Mississippi state grant and the national grantees work to recruit and give priority to participants who are formerly incarcerated individuals, as defined in TEGL 17-20.

7. A DESCRIPTION OF THE STEPS TAKEN TO AVOID DISRUPTIONS TO THE GREATEST EXTENT POSSIBLE, WHEN POSITIONS ARE REDISTRIBUTED, AS PROVIDED IN 20 CFR 641.365; WHEN NEW CENSUS OR OTHER RELIABLE DATA BECOME AVAILABLE; OR WHEN THERE IS OVER-ENROLLMENT FOR ANY OTHER REASON. (20 CFR 641.325(I), 641.302(B))

The state and national grantees are dedicated to the avoidance of disruptions in the service to SCSEP participants. Mississippi's state and national SCSEP grantees will follow the recommendation of the USDOL that when there is over-enrollment, for any reason, there will be a gradual shift that encourages current participants to move into unsubsidized employment to make positions available for eligible individuals in the areas that are underserved. Grantees understand that participants are not entitled to remain in a subsidized community service assignment indefinitely and will adhere to the time limits on a SCSEP community service assignment as detailed in the Older Americans Act.

SCSEP standards define the program requirements that state subgrantees must adhere to. Issued in March 2006, the standards address Designation of Service, slot movement, and time in training assignment

d. SCSEP Operations

1. Administrative: describe the organizational structure of the project and how subprojects will be managed, including:

A. identification of the key staff, including the primary responsibilities and the amount of time assigned to the SCSEP grant;

A. Organizational Structure

The Office of Grant management at MDES has day-to-day responsibilities for the administration and operation of the Workforce Innovation and Opportunity Act (WIOA) Title I and SCSEP in Mississippi. The SCSEP funds will be subgranted to 10 Planning and Development Districts. The AAAs, which are housed with the PDDs, currently operate the SCSEP and are experienced in all aspects of the program.

The Grants and Contracts Department (GCD) within OGM, is staffed with an ES-Employment Manager IV and five (5) staff, one (1) of whom is tasked at 90% of her time to SCSEP. The GCD is listed on the MDES Organizational Chart as one (1) of two (2) subunits of the Office of Grant Management, which answers directly to the agency's COO/Deputy Executive Director of External Relations. This department of six (6) staff serves as fiscal and programmatic liaisons to the four Local Workforce Development Areas and to other WIOA subgrantees. As liaisons, they provide technical assistance on all financial, programmatic, and performance issues.

The OGM Director, who also has nine (9) years' experience implementing SCSEP, will spend approximately five percent (5%) of his time; the GCD ES-Employment Manager IV, approximately ten percent (10%) of her time; the ES Technical Specialist II will devote approximately ninety percent (90%) of her time to the grant. The OGM Data Validation / Program Oversight staff will assign approximately ten percent (10%) of her time to the grant, and the fiscal oversight staff person, approximately ten percent (10%) of his time. MDES has requested an *increase* for the Administrative Cost from 13.5% to 20% for this grant. State administration is budgeted at 10% and the Project Operator at 10% of the total grant, for a total administration cost of 20%.

B. Include an organization chart depicting any subgrantees or local affiliates implementing the grant. Include a table with authorized positions for each subgrantee or affiliate, if applicable;

Subgrantees/Area Agencies on Aging (AAAs) at the PDDs have administered the Senior Community Service Employment Program (SCSEP) since its inception in Mississippi. The AAAs are assigned chief responsibility for planning, coordinating, developing, and pooling resources to assure the availability and provision of a comprehensive range of services at the substate level to enhance project administration and overall accountability. The names and locations of the nine AAAs and one PDD, the counties they serve, and the number of authorized positions for which they are responsible, are shown in the 2019 County Slots by PDD Chart. The attached

Mississippi AAA Map & Contacts document includes the locations of the 10 subgrantees (Appendix I8B).

C. describe training that will be provided to local staff;

Meetings among the state, national grantees, and subgrantees will be held on a regular basis, either in person or using electronic means such as conference calls and webinars. As issues warrant, MDES will meet with subgrantees on an individual basis by phone or during site visits, monitoring visits, or data validation visits. Topics may include:

- Data entry review prior to close date for reports
- Quarterly reports
- Reports reviewed
- Reports discussed by SCSEP managers

D. describe how projects will be monitored for program and financial compliance, including audit plans; and

MDES complies with the monitoring requirements of the Uniform Administrative Requirements for Federal Grants at 2 CFR 200.327 – 332 and the audit requirements at 2 CFR 200.500 – 520. MDES monitors its subrecipients annually through a contract with an independent monitoring firm and requires audits from those who meet the \$750,000 threshold for annual federal expenses. We also follow our agency's WIOA Programmatic and Fiscal Monitoring policy - Policy #8, Revision 3, and require the PDDs to monitor their host agencies and subcontractors. (Appendix I1C).

E. describe how the State will manage its providers and how it will transfer participants if new providers are selected to serve in the State.

The state manages our providers by monthly review of expenditures and quarterly review of SCSEP Reports as well as through monitoring, technical assistance, and training. The state currently does not plan to identify new providers to serve the state since the AAAs are the primary provider of other services to the aging community and have established contacts and rapport in the community. If the need arises to defund or replace a local provider, the state will do so in consultation with our Federal Project Officer and other USDOL SCSEP staff.

2. Recruitment: *describe how grantee will recruit and select of participants will be achieved. The eligibility of participants is described under 20 CFR 641.500 and 641.525.*

Recruitment and selection of participants is performed by the Area Agency on Aging staff at the PDDs or by their subcontractors. MDES monitors the local projects' ability to meet their staffing needs and avoid vacancies by monthly review of the expense reports, and quarterly through the SPARQ performance reports. MDES also reviews eligibility determination in its annual monitoring of the PDDs/AAAs.

3. Income Eligibility: *describe how participant income will be recertified each year, including where eligibility records will be maintained.*

The PDDs/AAAs are required to recertify each participant annually to verify income eligibility. This process is verified by the State through annual monitoring and data validation.

Eligibility records are kept in the participant records at the PDD offices.

4. Orientation: *describe the orientation procedures for:*

A. Participants

Before a participant begins the community service assignment, the host agency must provide an assignment related orientation including but not limited to the host agency background and purpose, the community service(s) it provides, agency personnel policies and procedures related to work hours, time and attendance, and work performance expectations.

A Safety Procedures Consultation must also be included in the orientation if it has not already been done with the participant, including: the location(s) and use of fire extinguishers and alarms; the posted designated route(s) of escape in event of a fire; the participant's role, if any, in an emergency; and a review of all other disaster action plans for the agency.

The participant signs a Certification of Orientation stating that they have completed orientation with the host agency. This document is retained in the participant file.

B. Host Agencies

Host agencies are provided orientation by the PDD and sign an acknowledgement of Orientation. The most recent modification to the Host Agency Handbook includes a host agency acknowledgement in which the host agency supervisor states that he has received, read, understood, and agreed to follow the program requirements stated in the SCSEP host agency handbook.

This agreement reinforces the supervisor's understanding of the SCSEP as a training program as well as the supervisor's responsibility to cooperate with all job development efforts made on the participant's behalf.

1. Duration Limits: describe any policy for maximum duration of enrollment or maximum time in community service and provide a copy of the current Duration Limit policy.

MDES has chosen to adhere to the program-required Duration Limit of 48 months as provided in 20 CFR 641.570 (a) and not to allow waiver of the limit as allowed in 641.570 (b). The Mississippi Individual Durational Limit Policy is attached as Appendix I8E.

2. Assessments: describe the procedures for assessing job aptitudes, job readiness, and job preferences of participants and their potential to transition into unsubsidized employment. Also describe how the assessment will be used to develop the participant's Individual Employment Plan (IEP).

Mississippi Works and Skill Gap Analysis.

Mississippi Works is a smartphone app and web-based job resource provided by MDES where employers and job seekers connect. The connection is driven by the ability of job seekers to match experience and qualifications to employer needs. Mississippi Works can be a valuable tool for seniors and SCSEP staff to identify participant skill gaps and training needs.

Labor market studies show that the largest share of future employment opportunities will be middle-skill jobs. Middle-skill jobs account for 59 percent of Mississippi's labor market but only 50 percent of the state's workers are trained to a middle skill level, thus creating a gap. In program year 2013, Mississippi Works added a gap analysis tool to help workers make informed decisions on career choices and training needs. The Mississippi Works is easy to use. The user simply creates a profile and begins the job search; this launches the gap analysis tool.

After clicking on a recommended job, a question arises for the job seeker: "How do I measure up?" The user needs some means of figuring out how his or her credentials measure up to the job's requirements. Here is where real-time gap analysis comes into play. If the job originated in Mississippi Works, the system can ask employers explicitly what skills, what level of education, and what kinds of experience are required for the candidate to have the best chance to be hired. The system then compares the job seeker's credentials against the credentials required by the employer. In the case of jobs that might be taken from an external labor exchange or other

sources, Mississippi Works has a statistical library of career requirements enabling it to give best estimates to the job seeker based on a survey of job seekers in the particular career area.

The following is an example of the Mississippi Works Skill Gap Analysis screen showing a participant with a skill gap and after the participant has closed that gap with training or by additional information to their profile.

Warehouse Supervisor

Gap Analysis when viewing a job for which one is not qualified.

The aggregate percentage (33%) is calculated by the average of education, experience, and skills. Notice, the employer would like someone with 6 years of experience in this occupation and has specific skills he or she is targeting.

Warehouse Supervisor

(#1238723)

Perhaps the job seeker simply **neglected to list a job** on his or her resume and specify skills. After clicking "Update Work History" and adding relevant positions and skills, the picture improves immensely, and the over 50% comparison turns to green and the job seeker is told "Go For It!" This not only gives the job seeker relevant information, it serves as a stimulus to keep one's profile updated.

Mississippi Works and its skill gap analysis abilities can provide SCSEP participants and counselors with a powerful tool that can guide the participants' individual training decisions and improve their IEPs. MDES will inform our subgrantees and the national grantees about this new system and the provide training for it, as needed.

7. Community Service Assignments: describe how the participant will be assigned to community service including:

- A. the types of community service activity that will be emphasized and how they were chosen; methods used to match participants with community service training;*
- B. the extent to which participants will be placed in the administration of the project itself;*
- C. the types of host agencies used and the procedures and criteria for selecting the assignments;*
- D. the average number of hours in a participant's training week;*
- E. the fringe benefits offered (if any); and*
- F. procedures for ensuring adequate supervision.*

Ensuring Community Services Assignments Provide Skill Training that Meets the Needs of Participants and Employers: A Collaborative Effort.

The state and national grantees will follow the SCSEP regulations that require participants be assessed to determine the most suitable employment and community service assignment. They will also require that case managers conduct reassessments every six months to develop and amend IEPs and to ensure that the training the participants receive at the host agency provides the skills training necessary to secure unsubsidized employment in the fields that support the local economy. Additionally, the state will host a collaborative meeting with the national grantees, LWIBs, and host agencies to ensure that community service assignments are truly

providing skill training that meets the needs of both participants and employers.

The USDOL Subgrantee Performance Assessments and Reporting Quarterly (SPARQ) data collection system generates management reports that allow grantees to track performance. The SPARQ reporting system generates reports on the types of host agencies that allow SCSEP managers to track the types of host agencies used to provide training to participants to ensure that the training participants receive meets the needs of the participant and the employers. The USDOL has proposed significant changes to the SPARQ system in the upcoming year.

8. Training: *describe the training that will be provided during community service assignments and any other types of training provided, including linkages with local one-stop centers, and Registered Apprenticeship.*

Classroom Training.

Older workers are willing and sometimes eager to update their skills. However, structured training can cause anxiety and fear of failure in older workers. To reduce anxiety, SCSEP managers provide participants with studying tips, shorter hours of training, and assurance that the training is hands-on. Training will be coordinated with WIN Job Centers, local community colleges, SCSEP education meetings and libraries.

Other Training Opportunities.

SCSEP participants will also be prepared for unsubsidized employment through training that is in addition to their community service assignments. SCSEP Managers assist participants to identify other training opportunities based on their Individual Employment Plans. Other training opportunities may include:

- lectures;
- seminars;
- classroom instruction;
- individual instruction;
- private sector on-the-job experiences; and,
- work experience.

Strategies for Improving Training Opportunities.

Stressing the need for participant training to all levels of the SCSEP service delivery system – grantees, sub-grantees, host agencies, and participants – will keep this vitally important aspect of the program at the forefront of SCSEP in Mississippi. To this end, we will work with our partners to provide information on free, reduced price, and partner-funded training resources that can be utilized by our service providers, host agencies, and our participants to further the skills and abilities of our participants. Utilizing Mississippi Works and its skill gap analysis tool can help simplify this process.

Mississippi's network of WIN Job Centers is the centerpiece of the Mississippi workforce system. These centers provide easy access to employment services such as education and training for workers, human resource assistance for businesses and information for economic developers. MDES will provide information to the national grantees and to our sub-grantees regarding which WIN Job Centers offer onsite training classes. MDES will also coordinate the development of computer training classes geared specifically to the needs of our seniors, many of whom may be computer illiterate and fearful of learning new technologies.

MDES continues to encourage training to address literacy skills among participants when needed. For participants that are interested in completing their high school equivalency, SCSEP partners with the Adult Education program administered by the Mississippi Community College Board (MCCB). The Adult Education program is designed to offer opportunities to enhance the skills and abilities of individuals preparing for the workforce. A link to Adult Education information at the MCCB website will be provided on our website.

MDES has redesigned our agency website and added a section providing information on SCSEP in Mississippi for participants, our SCSEP partners, and the public. Included on the site is information on what SCSEP offers to the senior population, who qualifies for the program, and the benefits of being a host agency in the program. Future upgrades to the website would include information on the training options for our participants to inform our host agencies and partners about what classes and programs are offered, where and when the trainings are offered, and which entities are providing the classes.

9. Supportive Services: *describe the supportive services that will be offered to help participants obtain and retain an unsubsidized job, including transportation assistance (if applicable).*

Supportive services are available to participants and may include but are not limited to counseling in areas such as health, nutrition, and Medicare benefits, etc.; supportive services may also include work shoes, badges, or eyeglasses; in addition, transportation to training or the worksite may be paid for if no other source of payment is available.

All participant supportive services are dependent upon funding and must be pre-approved by the SCSEP staff. The need for supportive services will be identified in the original IEP if possible or the plan will be updated once the need for a specific supportive service is identified. Requests for supportive services must be made in writing or by email and must include the approximate cost of the service. Written approval (letter or fax) or an email approving the supportive service will be sent prior to the service being provided.

10. Termination: *describe procedures for terminating a participant, including IEP terminations. Please provide a copy of the current termination procedures.*

The SCSEP Termination Policy sets forth the state's procedures for termination of participants in the SCSEP based on the guidance set forth in the Older Americans Act Amendments of 2006 and the SCSEP Final Rule. The policy is provided in Appendix I8C.

11. Complaints & Grievances: *describe the procedures for addressing and resolving participant complaints and grievances related to program termination. Please provide a copy of the current complaint/grievance policies.*

The SCSEP Programmatic Grievances Policy and the SCSEP Equal Opportunity Discrimination Policy set forth the state's procedures for grievances or complaints alleging violations of the requirements of the Older Americans Act of 1965 (OAA) from participants and other interested or affected parties based on the guidance set forth at OAA sections 306(a)(10) and 307(a)(5)(b) and 20 CFR 641.910. These policies are provided in Appendix I8D.

12. Maximizing enrollment: *describe procedures for fully enrolling all available slots, including over enrolling participants, and how over-enrollments will be balanced with equitable distribution requirements.*

The processes described at c.4.A. regarding equitable distribution are used by the state and national grantees to balance slot imbalances statewide. The state grant staff also interact at least monthly with the ten PDDs to ensure that vacant slots are filled timely and that over-enrollments are limited. This proactive management helps maximize service to area seniors, expenditures, and performance requirements.

13. Performance: include a proposed level for each performance measure for each of the program years covered by the plan. While the plan is under review, the state will negotiate with the Employment and Training Administration to set the appropriate levels for the next year. The state may also negotiate performance levels in a subsequent modification. At a minimum, states must identify the performance indicators required under the SCSEP Final Rule published on September 1, 2010, and, for each indicator, the state must develop an objective and quantifiable performance goal for the next year. The performance measures include:

1. entered employment,
2. employment retention,
3. average earnings,
4. service level,
5. service to most-in-need, and
6. community service

DOL Negotiated SCSEP Final PY 2020 Grantee Targets and Goals	Mississippi
PY 2020 Q2 Employment Final Target	27.5%
PY 2020 Q4 Employment Final Target	19.1%

PY 2020 Customer Satisfaction--Participant Final Goal	88.2
PY 2020 Customer Satisfaction--Host Agency Final Goal	88.5
PY 2020 Customer Satisfaction--Employer Final Goal	85.8

1.

14. Administrative Costs: describe any request for an increase in administrative costs consistent with section 502(c)(3) of the Older Americans Act.

Mississippi requested and received an increase in the administration cost limitations to twenty percent (20%) of total grant allocation pursuant to TEGL 22-19. This reflects an increase for both the state grantee and the project operators to ten percent (10%) each. The reasons for this increase are as follows:

Accomplishments for SCSEP in Mississippi during PY20:

1. Technical Assistance visits were conducted virtually with program directors and front-line staff provided an opportunity to exchange information/updates and field questions
2. Regular check-in with subgrantees for COVID-19 follow-up response and any other challenges

3. Subgrantee Handbooks are in the process of being updated
4. Digital resource material was developed and implemented
5. Training was conducted for program directors, front-line staff, WIN Job Center staff, and national partners on a one by-one-basis virtually.

The rural nature of Mississippi and the small project size does not allow sufficient funds to cover the cost for administrating the program. We anticipate the impact of COVID-19 will further escalate administrative cost for managing SCSEP, and this increase will exceed the 13.5% of the grant that is currently allowed. Transitioning to a new normal, additional TA visits and calls, and Extended Durational Limits and Caps will require additional management and oversight to ensure the least amount of disruption for participants. This additional management and oversight will have a greater effect on the state level administration than the local PDD level.

TA visits will be scheduled as soon as it becomes safe to travel and restrictions are lifted, however meetings continue to be conducted virtually or by telephone. Data will be collected and reviewed to determine the impact of COVID-19 for providers and participants. It is our hope that COVID-19 can become a positive for our state and SCSEP by generating innovative ideas, procedures, and processes for the future. Mississippi's response has been very successful by adapting quickly to a virtual world, adapting our thinking, and implementing new out of the box ways of meeting challenges.

Mississippi's grant is less than one million dollars and at the usual five percent (5%) state level, administrative cost is less than \$50,000 per year. The oversight needed for this grant requires most of the time for one FTE.

	X or N/A	STATEMENT OF ASSURANCE	DOCUMENTATION and COMMENT
1.	X	Where SCSEP is included in the Combined Workforce Plan, the State established a written policy and procedure to obtain advice and recommendations on the State Plan from representatives of the State and area agencies on aging; State and local boards under WIOA; public and private nonprofit agencies and organizations providing employment services, including each grantee operating a ACSEP project within the State, except as provided under section 506(a)(3) of OAA and 20 CFR 641.320(b); Social service organizations providing services to older	In writing the SCSEP State Plan, the state followed the procedure outlined in Section 503(a)(2) of the Older Americans Act (OAA) Amendments of 2006 which requires that the State Plans describe the state's process for ensuring the involvement, advice and recommendations from representatives of the State and area agencies on aging; State and local boards under WIOA; public and private nonprofit agencies and organizations providing employment services, including each grantee operating a SCSEP project within the State.

Appendix G: Performance Goals for Core Programs

	Program Year:		Program Year:	
	Negotiated Level	Expected Level	Negotiated Level	Expected Level
Employment (Second Quarter after Exit)	81	75	82	76
Employment (Fourth Quarter after Exit)	75	72	77	74
Median Earnings (Second Quarter after Exit)	5600	5200	5800	5300
Credential Attainment Rate	52	48	54	50
Measurable Skill Gains	Baseline	Baseline	Baseline	Baseline

	Program Year:		Program Year:	
	Negotiated Level	Expected Level	Negotiated Level	Expected Level
Employment (Second Quarter after Exit)	74	70	75	71
Employment (Fourth Quarter after Exit)	65	68	67	70
Median Earnings (Second Quarter after Exit)	5100	5000	5200	5100
Credential Attainment Rate	50	48	52	50
Measurable Skill Gains	Baseline	Baseline	Baseline	Baseline

	Program Year:		Program Year:	
	Negotiated Level	Expected Level	Negotiated Level	Expected Level
Employment (Second Quarter after Exit) 21	74	72	75	73
Employment (Fourth Quarter after Exit) 22	71	70	72	72
Median Earnings (Second Quarter after Exit)	Baseline	Baseline	Baseline	Baseline
Credential Attainment Rate	71	70	72	70.50
Measurable Skill Gains	Baseline	Baseline	Baseline	Baseline

	Program Year:		Program Year:	
	Negotiated Level	Expected Level	Negotiated Level	Expected Level
Employment (Second Quarter after Exit)	46 %		47 %	
Employment (Fourth Quarter after Exit)	46 %		47 %	
Median Earnings (Second Quarter after Exit)	2,948.00		2948.00	
Credential Attainment Rate	600		700	
Measurable Skill Gains	51 %		52 %	

	Program Year:			
	Negotiated Level		Expected Level	
	Negotiated Level		Expected Level	
Employment (Second Quarter after Exit)	65	65	66	66
Employment (Fourth Quarter after Exit)	65	65	65	65
Median Earnings (Second Quarter after Exit)	3950	3900	4000	3900
Credential Attainment Rate	Not Applicable	Not Applicable	Not Applicable	Not Applicable
Measurable Skill Gains	Not Applicable	Not Applicable	Not Applicable	Not Applicable

	Program Year:			
	Negotiated Level		Expected Level	
	Negotiated Level		Expected Level	
Employment (Second Quarter after Exit) 22	Baseline	Baseline	Baseline	Baseline
Employment (Fourth Quarter after Exit) 22	Baseline	Baseline	Baseline	Baseline
Median Earnings (Second Quarter after Exit) 23	Baseline	Baseline	Baseline	Baseline
Credential Attainment Rate 22	Baseline	Baseline	Baseline	Baseline
Measurable Skill Gains				

	All WIOA Core Programs			
	Program Year:		Program Year:	
	Expected Level		Negotiated Level	
Effectiveness in Serving Employers	Not applicable	Not applicable	Not applicable	Not applicable
